(4) pursuant to the automatic termination of a trust, discretionary account or similar arrangement; *Provided, however,* any person who acquires a security or power specified in paragraphs (1), (2) or (3), above with the purpose or effect of changing or influencing the control of the issuer, or in connection with or as a participant in any transaction having such purpose or effect immediately upon such acquisition shall be deemed to be the beneficial owner of the securities which may be acquired through the exercise or conversion of such security or power. Any securities not outstanding which are subject to such options, warrants, rights or conversion privileges shall be deemed to be outstanding for the purpose of computing the percentage of outstanding securities of the class owned by such person, but shall not be deemed to be outstanding for the purposes of computing the percentage of the class by any other person.

(2) Paragraph (1) remains applicable for the purpose of determining the obligation to file with respect to the un-

derlying security even though the option, warrant, right or convertible security is of a class of equity security and may therefore give rise to a separate obligation to file.

(B) A member of a national securities exchange shall not be deemed to be a beneficial owner of securities held directly or indirectly by it on behalf of another person solely because such member is the record holder of such securities and, pursuant to the rules of such exchange, may direct the vote of such securities, without instruction, on other than contested matters or matters that may affect substantially the rights or privileges of the holders of the securities to be voted, but is otherwise precluded by the rules of such exchange from voting without instruction.

(C) A person who in the ordinary course of business is a pledgee of securities under a written pledge agreement shall not be deemed to be the beneficial owner of such pledged securities until the pledgee has taken all formal steps necessary which are required to declare a default and determines that the power to vote or to direct the vote or to dispose or to direct the disposition of such pledged securities will be exercised, *Provided That:*

(1) The pledgee agreement is bona fide and was not entered into with the purpose nor with the effect of changing or influencing the control of the issuer, not in connection with any transaction having such purpose or effect, including any transaction subject to section 335.5(h)(5)(ii);

(2) The pledgee is a person specified in SEC Rule 13d-1(b)(1)(ii) (17 CFR 240.13d-1(b)(1)(ii)), including persons meeting the conditions set forth in paragraph (G) thereof; and

(3) The pledgee agreement, prior to default, does not grant to the pledgee:

(i) The power to vote or to direct the vote of the pledged securities; or

(ii) The power to dispose or direct the disposition of the pledged securities, other than the grant of such power(s) pursuant to a pledge agreement under which credit is extended subject to Regulation T (12 CFR 220.1 to 220.8) and in which the pledgee is a broker or dealer registered under section 15 of the Act.

(v) Any person may expressly declare in any statement filed that the filing of such statement shall not be construed as an admission that such person is, for the purposes of sections 13(d) or 14(d), the beneficial owner of any securities covered by the statement.

(m) *Incorporation by reference.* (1) Information contained in any part of a registration statement or report, other

than exhibits, may be incorporated by reference in answer or partial answer to any item of the same statement or report. Information contained in an exhibit may be so incorporated to the extent permitted in paragraph (q) of this section.

3. In § 335.5, paragraph (c)(1), Note 6 is amended by deleting the term "Item 1 (c)(1)" and inserting in its place the term "Item 1 (e)".

4. In § 335.5, paragraph (c)(1), Note 9 is amended by deleting the term "§ 335.4(c)" from its first sentence and inserting in its place the term "§ 335.4(e)".

5. Section 335.5 is amended by revising paragraphs (c)(3) and (f)(5), as follows:

§ 335.5 Proxy statements and other solicitations under section 14 of the Act.

(c) \* \* \*

(3) If the bank knows that securities of any class entitled to vote at a meeting with respect to which the bank intends to solicit proxies, consents or authorizations are held of record by a broker, dealer, bank or voting trustee, or their nominees, the bank shall inquire of such record holder at least 10 days prior to the record date for the meeting of security holders (or at such later time as the rules of a national securities exchange on which the class of securities in question is listed may permit for good cause shown), whether other persons are the beneficial owners of such securities and, if so, the number of copies of the proxy and other soliciting material and, in the case of an annual meeting at which directors are to be elected, the number of copies of the annual report to security holders, necessary to supply such material to such beneficial owners. The bank shall supply such record holder in a timely manner with additional copies in such quantities, assembled in such form and at such a place, as the record holder may reasonably request in order to address and send one copy of each to each beneficial owner of securities so held and shall, upon the request of such record holder, pay its reasonable expenses for completing the mailing of such material to security holders to whom the material is sent.

*Instructions.* 1. If the bank's list of security holders indicates that some of its securities are registered in the name of a clearing agency registered pursuant to section 17A of the Act, a bank shall make appropriate inquiry of the agency and thereafter of the participants in such agency who may hold on behalf of a beneficial owner, and shall comply with the above paragraph with respect to any such participant.

2. The requirement for sending an annual report to security holders of record having the same address will be satisfied by sending at least one report to a holder of record at that address provided that those holders of record to whom a report is not sent agree thereto in writing. This procedure is not available where other banks, broker-dealers, and other persons hold securities in nominee accounts or "street names" on behalf of beneficial owners, and such persons are not relieved of any obligation to obtain or send such annual report to the beneficial owners.

3. The attention of banks is called to the fact that broker-dealers have an obligation pursuant to § 240.14b-1 of the rules and regulations of the Securities and Exchange Commission and applicable self-regulatory requirements to obtain and forward annual reports and proxy soliciting materials in a timely manner to beneficial owners for whom such broker-dealers hold securities.

(f) \* \* \*

(5) All copies of material filed pursuant to paragraphs (f)(1) and (2) of this section shall be clearly marked "Preliminary Copies" and shall be for the information of the Corporation only and shall not be considered available for public inspection, before definitive material has been filed with the Corporation, except that such material may be disclosed to any department or agency of the U.S. Government and to the Congress. The Corporation may make such inquiries or investigation with respect to the material as may be necessary for an adequate review thereof. All material filed pursuant to paragraphs (f)(1), (2), or (3) of this section shall be accompanied by a statement of the date upon which definitive copies thereof are intended to be, or have been, sent or given to security holders. All material filed pursuant to paragraph (f)(4) of this section shall be accompanied by a statement of the date upon which copies thereof have been or are intended to be released to the individuals who will make the actual solicitation.

6. In § 335.5, paragraph (h) is amended by deleting the word "earnings" in the second sentence.

7. In § 335.5, paragraph (k) is amended as follows:

(k) *Proposals of security holders.* (1) If any security holder of the bank notifies the management of the bank of his intention to present a proposal for action at a forthcoming meeting of the bank's security holders, the management shall set forth the proposal in its proxy statement or information statement. If management issues a proxy statement, it shall identify the proposal in its form of proxy and provide means by which security holders can make the specification required by § 335.5(d)(2). If management issues an information statement pursuant to

paragraph (a) of this section, it shall identify the proposal and indicate the disposition proposed to be made of the proposal by the management at the meeting. Management, however, need not include a proposal in its information statement if such proposal is submitted less than 60 days in advance of a day corresponding to the date of mailing a proxy statement or information statement in connection with the last annual meeting of security holders. Notwithstanding the foregoing, the management shall not be required to include the proposal in its proxy statement or form of proxy unless the security holder (hereinafter, the "proponent") has complied with the requirements of this paragraph and paragraphs (k)(2) and (3) of this section:

(i) **Eligibility.** At the time he submits the proposal, the proponent shall be a record or beneficial owner of a security entitled to be voted at the meeting on his proposal, and he shall continue to own such security through the date on which the meeting is held. If the management requests documentary support for a proponent's claim that he is a beneficial owner of a voting security of the bank, the proponent shall furnish appropriate documentation within 10 business days after receiving the request. In the event the management includes the proponent's proposal in its proxy soliciting materials for the meeting and the proponent fails to comply with the requirement that he continuously be a voting security holder through the meeting date, the management shall not be required to include any proposals submitted by the proponent in its proxy soliciting materials for any meeting held in the following two calendar years.

(ii) **Notice.** The proponent shall notify the management in writing of his intention to appear personally at the meeting to present his proposal for action. The proponent shall furnish the requisite notice at the time he submits the proposal, except that if he was unaware of the notice requirement at that time he shall comply with it within 10 business days after being informed of it by the management. If the proponent, after furnishing in good faith the notice required by this provision, subsequently determines that he will be unable to appear personally at the meeting, he shall arrange to have another security holder of the bank present his proposal on his behalf at the meeting. In the event the proponent or his proxy fails, without good cause, to present the proposal for action at the meeting, the management shall not be required to include any proposals submitted by the proponent in its proxy soliciting mate-

rials for any meeting, held in the following two calendar years.

(iii) **Timeliness.** The proponent shall submit his proposal sufficiently far in advance of the meeting so that it is received by the management within the following time periods:

(A) **Annual meetings.** A proposal to be presented at an annual meeting shall be received by the management at the bank's principal executive offices not less than 90 days in advance of a date corresponding to the date of the management's proxy statement released to security holders in connection with the previous year's annual meeting of security holders, except that if no annual meeting was held in the previous year or the date of the annual meeting has been changed by more than 30 calendar days from the date of the previous year's annual meeting a proposal shall be received by the management a reasonable time before the solicitation is made.

(B) **Other meetings.** A proposal to be presented at any meeting other than an annual meeting shall be received a reasonable time before the solicitation is made.

**NOTE.**—In order to curtail controversy as to the date on which a proposal was received by the management, it is suggested that proponents submit their proposals by Certified Mail—Return Receipt Requested.

(iv) **Number and length of proposals.** The proponent may submit a maximum of two proposals of not more than 300 words each for inclusion in the management's proxy materials for a meeting of security holders. If the proponent fails to comply with either of these requirements, or if he fails to comply with the 200-word limit on supporting statements mentioned in paragraph (k)(2) of this section, he shall be provided the opportunity by the management to reduce, within 10 business days, the items submitted by him to the limits required by this paragraph (k).

(2) If the management opposes any proposal received from a proponent, it shall also, at the request of the proponent, include in its proxy statement a statement of the proponent of not more than 200 words in support of the proposal, which statement shall not include the name and address of the proponent. The statement and request of the proponent shall be furnished to the management at the time that the proposal is furnished, and neither the management nor the bank shall be responsible for such statement. The proxy statement shall also include either the name and address of the proponent or a statement that such information will be furnished by the bank or by the Corporation to any person, orally or in writing as requested, promptly upon the receipt of any oral or written request therefor. If the

name and address of the proponent are omitted from the proxy statement, they shall be furnished to the Corporation at the time of filing the management's preliminary proxy material pursuant to paragraph (f) of this section.

(3) The management may omit a proposal and any statement in support thereof from its proxy statement and form of proxy under any of the following circumstances:

(i) If the proposal is, under applicable law, not a proper subject for action by security holders;

**NOTE.**—A proposal that may be improper under applicable law when framed as a mandate or directive may be proper when framed as a recommendation or request.

(ii) If the proposal would, if implemented, require the bank to violate any State law or Federal law of the United States, or any law of any foreign jurisdiction, to which the bank is subject.

(iii) If the proposal or the supporting statement is contrary to any of the Corporation's proxy rules and regulations, including paragraph (h) of this section which prohibits false or misleading statements in proxy soliciting materials;

(iv) If the proposal relates to the enforcement of a personal claim or the redress of a personal grievance against the bank, its management, or any other person;

(v) If the proposal deals with a matter that is not significantly related to the bank's business;

(vi) If the proposal deals with a matter that is beyond the bank's power to effectuate;

(vii) If the proposal deals with a matter relating to the conduct of the ordinary business operations of the bank;

(viii) If the proposal relates to an election to office;

(ix) If the proposal is counter to a proposal to be submitted by the management at the meeting;

(x) If the proposal has been rendered moot;

(xi) If the proposal is substantially duplicative of a proposal previously submitted to the management by another proponent, which proposal will be included in the management's proxy materials for the meeting;

(xii) If substantially the same proposal has previously been submitted to security holders in the management's proxy statement and form of proxy relating to any annual or special meeting of security holders held within the preceding 5 calendar years, it may be omitted from the management's proxy materials relating to any meeting of security holders held within 3 calendar years after the latest such previous submission:

**Provided, That—**(A) If the proposal was submitted at only one meeting during such preceding period, it received less than 3 percent of the total number of votes cast in regard thereto; or

(B) If the proposal was submitted at only two meetings during such preceding period, it received at the time of its second submission less than 6 percent of the total number of votes cast in regard thereto; or

(C) If the proposal was submitted at three or more meetings during such preceding period, it received at the time of its latest submission less than 10 percent of the total number of votes cast in regard thereto; and

(xiii) If the proposal relates to specific amounts of cash or stock dividends.

(4) Whenever the management asserts, for any reason, that a proposal and any statement in support thereof received from a proponent may properly be omitted from its proxy statement and form of proxy, it shall file with the Corporation, not later than 50 days prior to the date the preliminary copies of the proxy statement and form of proxy are filed pursuant to paragraph (f) of this section, or such shorter period prior to such date as the Corporation or its staff may permit, three copies of the following items: (i) the proposal; (ii) any statement in support thereof as received from the proponent; (iii) a statement of the reasons why the management deems such omission to be proper in the particular case; and (iv) where such reasons are based on matters of law, a supporting opinion of counsel. The management shall at the same time, if it has not already done so, notify the proponent of its intention to omit the proposal from its proxy statement and form of proxy and shall forward to him a copy of the statement of reasons why the management deems the omission of the proposal to be proper and a copy of the supporting opinion of counsel.

8. In § 335.5, paragraph (l) is amended as follows:

(l) **Tender offers.** 1. No person, directly or indirectly, by use of the mails or any means or instrumentality of interstate commerce or of any facility of a national securities exchange or otherwise, shall make a tender offer for, or a request or invitation for tenders of, any class of any equity security of a bank which is registered pursuant to section 12 of the Act, if, after consummation thereof, such person would, directly or indirectly, be the beneficial owner of more than 5 percent of such class, unless, at the time copies of the offer or request or invitation are first published or sent or given to security

holders, such person has filed with the Corporation a statement containing the information and exhibits required by Form F-13.

**NOTE.**—See § 335.4(h)(5) for the applicable definition of "beneficial ownership".

(3) \*\*\*

(iv) The information required by Items 1(c); 2(b), 2(e), 2(f), and 2(g); 3; 4; 5; 6; 7; 8; 9; and 10 of Form F-13 (§ 335.54) or a fair and adequate summary thereof.

**Instructions.** 1. Negative responses to any such Item or Subitem of Form F-13 need not be included in the information published or sent or given to security holders.

2. If the information required by Item 9 is summarized, appropriate instructions should be included stating how more complete financial information can be obtained.

(4) Any additional material soliciting or requesting such tender offer subsequent to the initial solicitation or request shall contain the names of the persons making such solicitation or request and the information required by Items 1(c); 2(b), 2(e), 2(f), and 2(g); 3; 4; 5; 6; 7; 8; 9; and 10 of Form F-13 (§ 335.54), or a fair and adequate summary thereof: *Provided, however,* That such material may omit any of such information previously furnished to the persons solicited or requested for tender offers. Copies of such additional material soliciting or requesting such tender offers shall be filed with the Corporation not later than the time copies of such material are first published or sent or given to security holders.

9. In § 335.7 paragraph (d)(3) is amended by deleting the word "Certification" and substituting the word "Examination."

10. In § 335.7, paragraph (d)(3)(ii)(B) is amended by deleting the word "certificate" and substituting the word "report."

11. In § 335.7, paragraph (d)(3)(ii)(C) is amended to read as follows:

§ 335.7 Form and content of financial statements.

(d) \*\*\*

(3) \*\*\*

(ii) \*\*\*

(C) **Opinions to be expressed.** The independent public accountant's report shall state clearly: (1) The opinion of the accountant in respect of the financial statements covered by the report and the accounting principles and practices reflected therein; and (2) the opinion of the accountant as to the consistency of the application of the accounting principles, or as to any changes in such principles which have

a material effect on the financial statements.

12. In § 335.7, paragraph (d)(3)(iv) is amended by: (1) deleting the word "certification" and substituting the word "examination", and (2) by deleting the word "certificate" in four places and substituting the word "examination" in those four places.

13. In § 335.7, paragraph (e)(14)(vi) is amended by deleting the term "(e)(12)(iii)" and inserting the term "(e)(14)(iii)."

14. In § 335.7, paragraph (e) is amended as follows:

(e) \*\*\*

(15) \*\*\*

(iv) **Income tax expense.** (A) Disclosure shall be made in the income statement or a note thereto, of the components of income tax expense, including: (1) Taxes currently payable; (2) the net tax effects, as applicable, of (i) timing differences (indicate separately the amount of the estimated tax effect of each of the various types of timing differences, such as depreciation, warranty costs, etc., where the amount of such tax effect exceeds five percent of the amount computed by multiplying the income before tax by the applicable statutory Federal income tax rate and the aggregate amount of timing differences is less than five percent of such computed amount, disclosure of each of the separate types of timing differences may be omitted) and (ii) operating losses; and (3) the net deferred investment tax credit. Amounts applicable to U.S. Federal income taxes, to foreign income taxes and to other income taxes shall be stated separately for each major component. Amounts applicable to foreign and other income taxes each of which are less than five percent of the total of the major component need not be separately disclosed.

(B) If it is expected that the cash outlay for income taxes with respect to any of the succeeding three years will substantially exceed income tax expense for such year, that fact should be disclosed together with the approximate amount of the excess, the year (or years) of occurrence and the reasons therefor.

(C) Provide a reconciliation between the amount of reported total income tax expense (benefit) and the amount computed by multiplying the income (loss) before tax by the applicable statutory Federal income tax rate, showing the estimated dollar amount of each of the underlying causes for the difference. If no individual reconciling item amounts to more than five percent of the amount computed by multiplying the income before tax by the applicable statutory Federal

income tax rate, and the total difference to be reconciled is less than five percent of such computed amount no reconciliation need be provided unless it would be significant in appraising the trend of earnings. Reconciling items that are individually less than five percent of the computed amount may be aggregated in the reconciliation. The reconciliation may be presented in percentages rather than in dollar amounts.

(vi) *Leased assets and lease commitments.* Any contractual arrangement which has the economic characteristics of a lease shall be considered a lease for purposes of this paragraph (e)(15)(vi). For purposes of this paragraph (e)(15)(vi) a financing lease is defined as a lease which during the noncancelable lease period, either (A) covers 75 percent or more of the economic life of the property or (B) has terms which assure the lessor a full recovery of the fair market value (which would normally be represented by his investment) of the property at the inception of the lease plus a reasonable return on the use of the assets invested subject only to limited risk in the realization of the residual interest in the property and the credit risks generally associated with secured loans. The disclosures set forth under paragraph (e)(15)(vi)(1) and (2) below are only required if gross rental expense in the most recent fiscal year exceeds one percent of consolidated revenues.

(1) Total rental expense (reduced by rentals from subleases, with disclosure of such amounts) entering into the determination of results of operations for each period for which an income statement is required shall be disclosed. Rental payments under short-term leases for a month or less which are not expected to be renewed need not be included. Contingent rentals, such as those based upon usage or sales, shall be reported separately from the basic or minimum rentals. Rentals on noncapitalized financing leases shall be shown separately for both categories of rentals reported.

(2) The minimum rental commitments under all noncancelable leases shall be disclosed, as of the date of the latest balance sheet required, in the aggregate (with disclosure of the amounts applicable to noncapitalized financing leases) for (i) each of the five succeeding fiscal years; (ii) each of the next three five year periods; and (iii) the remainder as a single amount. The amounts so determined should be reduced by rentals to be received from existing noncancelable subleases (with disclosure of the amounts of such rentals). For purposes of this paragraph (e)(15)(vi), a noncancelable lease is defined as one

that has an initial or remaining term of more than one year and is noncancelable, or is cancelable only upon the occurrence of some remote contingency or upon the payment of a substantial penalty.

(3) Additional disclosures shall be made to report in general terms: (i) The basis for calculating rental payments if dependent upon factors other than the lapse of time; (ii) existence and terms of renewal or purchase options, escalation clauses, etc.; (iii) the nature and amount of related guarantees made or obligations assumed; (iv) restrictions on paying dividends, incurring additional debt, further leasing, etc.; and (v) any other information necessary to assess the effect of lease commitments upon the financial position, results of operations, and changes in financial position of the lessee.

(4) For all noncapitalized financing leases there shall be disclosed: (i) The present values of the minimum lease commitments in the aggregate and by major categories of properties, such as real estate, and equipment. Present values shall be computed by discounting net lease payments (after subtracting, if practicable, estimated or actual amounts, if any, applicable to taxes, insurance, maintenance, and other operating expenses) at the interest rate implicit in the terms of each lease at the time of entering into the lease. Such disclosure shall be made as of the date of any balance sheet required. If the present value of the minimum lease commitments is less than five percent of the sum of long-term debt, stockholders' equity and the present value of the minimum lease commitments, and if the impact on net income required to be disclosed under (iv) below is less than three percent of the average net income for the most recent three years, this disclosure is not required.

(ii) Either the weighted average interest rate (based on present value) and range of rates or specific interest rates for all lease commitments included in the amount disclosed under paragraph (e)(15)(vi)(4)(i) of this section.

(iii) The present value of rentals to be received from existing noncancelable subleases of property included under paragraph (e)(15)(vi)(4)(i) of this section based on the interest rate implicit in the terms of the subleases at the times of entering into the subleases.

(iv) The impact upon net income for each period for which an income statement is required if all noncapitalized financing leases were capitalized, related assets were amortized on a straightline basis and interest cost was accrued on the basis of the outstanding lease liability. The amounts of amortization and interest cost included in

the computation shall be separately identified. If the impact on net income is less than three percent of the average net income for the most recent three years, that fact may be stated in lieu of this disclosure. In calculating average net income, loss years should be excluded. If losses were incurred in each of the most recent three years, the average loss shall be used for purposes of this test.

(viii) *Disagreements on accounting and financial disclosure matters.* If, (A) within the twenty-four months prior to the date of the most recent financial statements, a Form F-3 has been filed reporting a change of accountants, (B) included in the Form F-3 there was a reported disagreement on any matter of accounting principles or practices or financial statement disclosure, (C) during the fiscal year in which the change of accountants took place or during the subsequent fiscal year there have been any transactions or events similar to those which involved the reported disagreement, and (D) such transactions or events were material and were accounted for or disclosed in a manner different from that which the former accountants apparently would have concluded was required, state the existence and nature of the disagreement and also state the effect on the financial statements if the method had been followed which the former accountants apparently would have concluded was required. These disclosures need not be made if the method asserted by the former accountants ceases to be generally accepted because of authoritative standards or interpretations subsequently issued.

15. In § 335.41, the General Instructions are amended by revising the first sentence of the second paragraph to read as follows:

Section 335.41(s) requires that six copies of each registration statement (including financial statements) and two copies of each exhibit and each other document filed as a part thereof, shall be filed with the Corporation.

16. In § 335.41, Item 1(b)(2) is amended by deleting the present paragraph (b)(2) and substituting the following:

#### FORMS

§ 335.41 Form for registration of securities of a bank pursuant to section 12(b) or section 12(g) of the Securities Exchange Act of 1934 (Form F-1).

Item 1. . . . .  
(b) . . . . .

(2) If a material portion of the bank's deposits has been obtained from a single

person or a few persons (including Federal, State and local governments and agencies thereunder), the loss of any of one or more of which would have a materially adverse effect on the business of the bank, or if a material portion of the bank's loans is concentrated within a single industry or group of related industries, a description of such customers, their other relationships, if any, to the bank, and material facts regarding their importance to the business of the bank;

17. In § 335.41, Item 10 is amended by deleting the present Instruction 1 and substituting the following:

Item 10. . . . .  
Instructions. 1. Notwithstanding Instruction 2 to this Item, administrative or judicial proceedings arising under Section 8 of the Federal Deposit Insurance Act shall be deemed material and shall be described.

18. In § 335.42, Item 1(b)(2) is amended by deleting the present paragraph (b)(2) and substituting the following:

#### FORM F-2

§ 335.42 Form for annual report of bank (Form F-2).

Item 1. . . . .  
(b) . . . . .

(2) If a material portion of the bank's deposits has been obtained from a single person or a few persons (including Federal, State and local governments and agencies thereunder), the loss of any of one or more of which would have a materially adverse effect on the business of the bank, or if a material portion of the bank's loans is concentrated within a single industry or group of related industries, a description of such customers, their other relationships, if any, to the bank, and material facts regarding their importance to the business of the bank;

19. In § 335.42, Item 2, Instruction 6 is revised as follows:

Item 2. . . . .  
Instructions. . . . .

6. For any previously reported material charge or credit to income of an unusual or infrequent nature in which an amount of cost was estimated to be incurred in the fiscal year being reported on or the prior fiscal year, summarize such transaction and state the amounts of such estimated cost and the amounts of the actual cost incurred in such periods, the reasons for differences in estimated or actual amounts, if any, and provide a detailed reconciliation showing all charges and credits to any reserve provided.

20. In § 335.42, Item 5 is amended by deleting the present Instruction 1 and substituting the following:

Item 5. . . . .

Instructions. 1. Notwithstanding Instruction 2 to this Item, administrative or judicial proceedings arising under Section 8 of the Federal Deposit Insurance Act shall be deemed material and shall be described.

21. In § 335.42, Item 5 is amended by deleting Instruction 4 and substituting the following:

Item 5. . . . .  
Instructions. . . . .

4. Notwithstanding the foregoing, if a receiver, fiscal agent or similar officer has been appointed for the bank or its parent, in a proceeding under the Bankruptcy Act or in any other proceeding under State or Federal law in which a court or governmental agency has assumed jurisdiction over substantially all of the assets or business of the bank or its parent, or if such jurisdiction has been assumed by leaving the existing directors and officers in possession but subject to the supervision and orders of a court or governmental body, identify the proceeding, the court or governmental body, the date jurisdiction was assumed, the identity of the receiver, fiscal agent or similar officer and the date of his appointment.

22. In § 335.43, Item 1 is amended as follows:

§ 335.43 Form for current report of a bank (Form F-3).

Item 1—Changes in Control of Bank.

(a) If, to the knowledge of management, a change in control of the bank has occurred, state the name of the person(s) who acquired such control; the amount and the source of the consideration used by such person(s); the basis of the control; the date and a description of the transaction(s) which resulted in the change in control; the percentage of voting securities of the registrant now beneficially owned directly or indirectly by the person(s) who acquired control; and the identity of the person(s) from whom control was assumed. If the source of all or any part of the consideration used is a loan made in the ordinary course of business by a bank as defined in section 3(a)(6) of the Act, the identity of such bank shall be omitted provided a request for confidentiality has been made pursuant to section 13(d)(1)(B) of the Act by the person(s) who acquired control. In lieu thereof, the material shall indicate that disclosure of the identity of the bank has been so omitted and filed separately with the Corporation.

Instructions. 1. State the terms of any loans or pledges obtained by the new control group for the purpose of acquiring control, and the names of the lenders or pledgees, unless confidential treatment has been requested pursuant to section 13(d)(1)(B) of the Act in which case the identity of the lending bank shall be omitted.

2. Any arrangements or understandings among members of both the former and new control groups and their associates with respect to the election of directors or other matters shall be described.

(b) Describe any contractual arrangements, including any pledge of securities of the bank, or any of its parents, known to

management, the operation of the terms of which may at a subsequent date result in a change in control of the bank.

Instruction. Paragraph (b) does not require a description of ordinary default provisions contained in the charter, trust indentures or other governing instruments relating to securities of the bank.

(c) If the source of all or any part of the funds used to acquire control of the bank is a loan made by a bank as defined in section 3(a)(6) of the Act, indicate whether there exists any agreement, arrangement, or understanding pursuant to which the registrant bank maintains or would maintain a correspondent deposit account at such lending bank.

23. In § 335.43, Item 3 is amended by deleting the present Instruction 1 and substituting the following:

Item 3. . . . .

Instructions. 1. Notwithstanding Instruction 2 to this Item, administrative or judicial proceedings arising under Section 8 of the Federal Deposit Insurance Act shall be deemed material and shall be described.

24. In § 335.43, Item 3 is amended by deleting Instruction 5 and substituting the following:

Item 3. . . . .  
Instructions. . . . .

5. Notwithstanding the foregoing, if a receiver, fiscal agent or similar officer has been appointed for the bank or its parent, in a proceeding under the Bankruptcy Act or in any other proceeding under State or Federal law in which a court or governmental agency has assumed jurisdiction over substantially all of the assets or business of the bank or its parent, or if such jurisdiction has been assumed by leaving the existing directors and officers in possession but subject to the supervision and orders of a court or governmental body, identify the proceeding, the court or governmental body, the date jurisdiction was assumed, the identity of the receiver, fiscal agent or similar officer and the date of his appointment.

25. In § 335.43, Items 9 and 10 are deleted and Items 11, 12, 13 and 14 would be renumbered Items 9, 10, 11, and 12.

26. In § 335.44, paragraph J is amended as follows:

§ 335.44 Form for quarterly report of bank (Form F-4) to be filed pursuant to § 335.4(i).

J. *Other Financial Information.* The bank may furnish any additional information related to the periods being reported on which, in the opinion of management, is of significance to investors, such as the seasonality of the bank's business, major uncertainties currently facing the bank, significant accounting changes under consideration and the dollar amount of standby letters of credit. In addition, the bank shall indicate whether any Form F-3 was required to be filed during the most recently com-

pleted fiscal quarter reporting a change in independent accountants.

27. Section 335.47 is amended as follows:

§ 335.47 Form for statement to be filed pursuant to § 335.4(h)(2) of Part 335 (Form F-11).

Form F-11

Statement to be filed pursuant to § 335.4(h)(2) of Part 335 by  
Relating to the securities of

(Name and address of bank)

Item 7.—Material To Be Filed as Exhibits.

Copies of all written agreements, contracts, arrangements, understandings, plans or proposals relating to (1) the borrowing of funds to finance the acquisition as disclosed in Item 3, (2) the acquisition of issuer control, liquidation, sale of assets, merger, or change in business or corporate structure or any other matter as disclosed in Item 4, and (3) the transfer or voting of the securities, finders fee, joint ventures, options, puts, calls, guaranty of loans, guaranty against loss or of profits, or the giving or withholding of proxies as disclosed in Item 6 shall be filed as exhibits.

SIGNATURE

28. In § 335.51, Item 5(e) is amended as follows:

§ 335.51 Form for proxy statement; statement where management does not solicit proxies (Form F-5).

Item 5.

(e) If, to the knowledge of the persons on whose behalf the solicitation is made, a change in control of the bank has occurred since the beginning of its last fiscal year, state the name of the person(s) who acquired such control, the amount and the source of the consideration used by such person or persons; the basis of the control, the date and a description of the transaction(s) which resulted in the change of control and the percentage of voting securities of the bank now beneficially owned directly or indirectly by the person(s) who acquired control; and the identity of the person(s) from whom control was assumed. If the source of all or any part of the consideration used is a loan made in the ordinary course of business by a bank as defined in section 3(a)(6) of the Act, the identity of such bank shall be omitted provided a request for confidentiality has been made pursuant to section 13(d)(1)(B) of the Act by the person(s) who acquired control. In lieu thereof, the material shall indicate that the identity of the bank has been so omitted and filed separately with the Corporation.

Instructions. 1. State the terms of any loans or pledges obtained by the new control group for the purpose of acquiring control, and the names of the lenders or pledge-

es, unless confidential treatment has been requested pursuant to section 13(d)(1)(B) of the Act in which case the identity of the lending bank shall be omitted.

2. Any arrangements or understandings among members of both the former and new control groups and their associates with respect to election of directors or other matters should be described.

29. A new § 335.54 is added to read as follows:

§ 335.54 Tender offer statement to be filed pursuant to section 14(d)(1) of the Securities Exchange Act of 1934 (Form F-13).

Form F-13

Statement to be filed pursuant to § 335.5(l) of Part 335.

(Amendment No. —)

(Name of Subject Bank)

(Bidder)

(Title of Class of Securities)

(CUSIP Number of Class of Securities)

(Name, address and telephone number of person authorized to receive notices and communications on behalf of bidder)

Instruction. Two copies of this statement, including all exhibits, and four additional copies of this statement, including only the exhibits described in Item 11(a) of this statement, should be filed with the Corporation.

General Instructions. A. The item numbers and captions of the items shall be included but the text of the items is to be omitted. The answers to the items shall be prepared so as to indicate clearly the coverage of the items without referring to the text of the items. Answer every item. If an item is inapplicable or the answer is in the negative, so state.

B. Information contained in exhibits to the statement may be incorporated by reference in answer or partial answer to any item or Subitem of the statement unless it would render such answer incomplete, unclear or confusing. Matter incorporated by reference shall be clearly identified in the reference by page, paragraph, caption or otherwise. An express statement that the specified matter is incorporated by reference shall be made at the particular place in the statement where the information is required.

C. If the statement is filed by a partnership, limited partnership, syndicate or other group, the information called for by Items 2-7, inclusive, shall be given with respect to: (i) Each partner of such partnership; (ii) each partner who is denominated as a general partner or who functions as a general partner of such limited partnership; (iii)

each member of such syndicate or group; and (iv) each person controlling such partner or member. If the statement is filed by a corporation, or if a person referred to in (i), (ii), (iii) or (iv) of this instruction is a corporation, the information called for by the above mentioned items shall be given with respect to: (a) each executive officer and director of such corporation; (b) each person controlling such corporation; and (c) each executive officer and director of any corporation ultimately in control of such corporation. Executive officer shall mean president, secretary, treasurer and any vice president in charge of a principal business function (such as sales, administration or finance) and any other person who performs similar policy making functions for the corporation. A response to an item in the statement is required with respect to the bidder and to all other persons referred to in this instruction unless such item specifies to the contrary.

D. Upon termination of the tender offer, the bidder shall promptly file a final amendment to this Form F-13 disclosing all material changes in the items of this Form F-13 and stating that the tender offer has terminated, the date of such termination and the results of such tender offer.

E. If the bidder, before filing this statement, has filed a Form F-11 (§ 335.47) with respect to the acquisition of securities of the same class referred to in Item 1(a) of this statement, the bidder shall amend such Form F-11 (§ 335.47) and may do so by means of this statement and amendments thereto, including the final amendment required to be filed by Instruction D. Provided: That the bidder indicated on the cover sheet of this statement that it is amending its Form F-11 (§ 335.47) by means of this statement.

F. The final amendment required to be filed by Instruction D shall be deemed to satisfy the reporting requirements of section 13(d) of the Act with respect to all securities acquired by the bidder pursuant to the tender offer as reported in such final amendment.

G. For purposes of this statement, the following definitions shall apply:

(i) The term "bidder" means any person on whose behalf a tender offer is made; and  
(ii) The term "subject bank" means any bank whose securities are sought by a bidder pursuant to a tender offer.

Item 1—Security and Subject Bank.

(a) State the name of the subject bank and the address of its principal office;

(b) State the exact title and the number of shares outstanding of the class of equity securities being sought (which may be based upon information contained in the most recently available filing with the Corporation by the subject bank unless the bidder has reason to believe such information is not current), the exact amount of such securities being sought and the consideration being offered therefor; and

(c) Identify the principal market in which such securities are traded and state the high and low sales prices for such securities in such principal market (or, in the absence thereof, the range of high and low bid quotations) for each quarterly period during the past two years.

Item 2—Identity and Background.

If the person filing this statement or any person enumerated in Instruction C of this statement is a corporation, partnership, lim-

ited partnership, syndicate or other group of persons, state its name, the state or other place of its organization, its principal business, the address of its principal office and the information required by (e) and (f) of this Item. If the person filing this statement or any person enumerated in Instruction C is a natural person, provide the information specified in (h) through (g) of this Item with respect to such person(s).

(a) Name;

(b) Residence or business address;

(c) Present principal occupation or employment and the name, principal business and address of any corporation or other organization in which such employment or occupation is conducted;

(d) Material occupations, positions, offices or employments during the last 5 years, giving the starting and ending dates of each and the name, principal business and address of any business corporation or other organization in which such occupation, position, office or employment was carried on;

Instruction. If a person has held various positions with the same organization, or if a person holds comparable positions with multiple related organizations, each and every position need not be specifically disclosed.

(e) Whether, or not, during the last 5 years, such person has been convicted in a criminal proceeding (excluding traffic violations or similar misdemeanors) and, if so, give the date, nature of conviction, name and location of court, and penalty imposed or other disposition of the case;

Instruction. While a negative answer to this sub-item is required in this schedule, it need not be furnished to security holders.

(f) Whether or not, during the last 5 years, such person was a party to a civil proceeding of a judicial or administrative body of competent jurisdiction and as a result of such proceeding, was or is subject to a judgment, decree or final order enjoining future violations of, or prohibiting activities subject to, Federal or State securities laws or finding any violation of such laws; and, if so, identify and describe such proceeding and summarize the terms of such judgment, decree or final order; and

Instruction. While a negative answer to this Subitem is required in this schedule, it need not be furnished to security holders.

(g) Citizenship(s).

Item 3—Past Contracts, Transactions or Negotiations With the Subject Bank

(a) Briefly state the nature and approximate amount (in dollars) of any transaction, other than those described in Item 3(b) of this schedule, which has occurred since the commencement of the subject bank's third full fiscal year preceding the date of this schedule, between the person filing this schedule (including those persons enumerated in Instruction C of this schedule) and:

(i) The subject bank or any of its affiliates which are corporations: Provided, however, That no disclosure need be made with respect to any transaction if the aggregate amount involved in such transaction was less than one percent of the subject bank's consolidated revenues (which may be based upon information contained in the most recently available filing with the Corporation by the subject bank, unless the bidder has reason to believe otherwise); (i) for the fiscal year in which such transaction occurred, or (ii) for the portion of the current

fiscal year which has occurred, if the transaction occurred in such year; and

(2) The executive officers, directors, or affiliates of the subject bank which are not corporations, if the aggregate amount involved in such transaction or in a series of similar transactions, including all periodic installments, in the case of any lease or other agreement providing for periodic payments or installments, exceeds \$40,000.

(b) Describe any contracts, negotiations or transactions which have occurred since the commencement of the subject bank's third full fiscal year preceding the date of this schedule between the bidder or its subsidiaries (including those persons enumerated in Instruction C of this schedule) and the subject bank or its affiliates concerning: A merger, consolidation or acquisition; a tender offer or other acquisition of securities; an election of directors; or a sale or other transfer of a material amount of assets.

Item 4—Source and Amount of Funds or Other Consideration.

(a) State the source and the total amount of funds or other consideration for the purchase of the maximum number of securities for which the tender offer is being made.

(b) If all or any part of such funds or other consideration are or are expected to be, directly or indirectly, borrowed for the purpose of the tender offer:

(1) Provide a summary of each loan agreement or arrangement containing the identity of the parties, the term, the collateral, the stated and effective interest rates, and other material terms or conditions relative to such loan agreement; and

(2) Briefly describe any plans or arrangements to finance or repay such borrowings, or if no such plans or arrangements have been made, make a statement to that effect.

(c) If the source of all or any part of the funds to be used in the tender offer is a loan made in the ordinary course of business by a bank as defined in section 3(a)(6) of the Act, the name of such bank shall not be made available to the public if the person filing the statement so requests in writing and files such request, naming such bank, with the Corporation.

(d) If the source of all or any part of the funds to be used in the tender offer is a loan made by a bank as defined in section 3(a)(6) of the Act, indicate whether there exists any agreement, arrangement, or understanding pursuant to which the subject bank maintains or would maintain a correspondent deposit account at such lending bank.

Item 5—Purpose of the Tender Offer and Plans or Proposals of the Bidder.

State the purpose or purposes of the tender offer for the subject bank's securities. Describe any plans or proposals which relate to or would result in:

(a) An extraordinary corporate transaction, such as a merger, reorganization or liquidation, involving the subject bank or any of its subsidiaries;

(b) A sale or transfer of a material amount of assets of the subject bank or any of its subsidiaries;

(c) Any change in the present board of directors or management of the subject bank including, but not limited to, any plans or proposals to change the number or the term of directors or to fill any existing vacancies on the board;

(d) Any material change in the present capitalization or dividend policy of the subject bank;

(e) Any other material change in the subject bank's corporate structure or business;

(f) Causing a class of securities of the subject bank to be delisted from a national securities exchange or to cease to be authorized to be quoted in an inter-dealer quotation system of a registered national securities association; or

(g) A class of equity securities of the subject bank becoming eligible for termination of registration pursuant to section 12(g)(4) of the Act.

Item 6—Interest in Securities of the Subject Bank.

(a) State the aggregate number and percentage of the class represented by such shares (which may be based on the number of shares outstanding as contained in the most recently available filing with the Corporation by the subject bank unless the bidder has reason to believe such information is not current), beneficially owned (identifying those shares for which there is a right to acquire) by each person named in Item 2 of this schedule and by each associate and majority-owned subsidiary of such person giving the name and address of any such associate or subsidiary.

(b) Describe any transaction in the class of securities reported on that was effected during the past 60 days by the persons named in response to paragraph (a) of this Item or by any executive officer, director or subsidiary of such person.

Instructions. 1. The description of a transaction required by Item 6(b) shall include, but not necessarily be limited to: (1) The identity of the person covered by Item 6(b) who effected the transaction; (2) the date of the transaction; (3) the amount of securities involved; (4) the price per share; and (5) where and how the transaction was effected.

2. If the information required by Item 6(b) of this schedule is available to the bidder at the time this statement is initially filed with the Corporation pursuant to § 335.5(l)(6), such information should be included in such initial filing. However, if such information is not available to the bidder at the time of such initial filing, it should be filed with the Corporation promptly but in no event later than two business days after the date of such filing, and if material, should be disclosed to security holders of the subject bank in a manner similar to that in which the tender offer was first published, sent or given to such security holders. The procedure specified by this instruction is provided for the purpose of maintaining the confidentiality of the tender offer in order to avoid possible misuse of inside information.

Item 7—Contracts, Arrangements, Understandings, or Relationships With Respect to the Subject Bank's Securities.

Describe any contract, arrangement, understanding or relationship (whether or not legally enforceable) between the bidder (including those persons enumerated in Instruction C to this Form F-13) and any person with respect to any securities of the subject bank, (including, but not limited to, any contract, arrangement, understanding or relationship concerning the transfer or the voting of any of such securities, joint ventures, loan or option arrangements, puts

or calls, guaranty of loans, guaranty against loss, or the giving or withholding of proxies) naming the persons with whom such contracts, arrangements, understandings or relationships have been entered into and giving the material provisions thereof. Include such information for any of such securities that are pledged or otherwise subject to a contingency, the occurrence of which would give another person the power to direct the voting or disposition of such securities, except that, disclosure of standard default and similar provisions contained in loan agreements need not be included.

**Item 8—Persons Retained, Employed or To Be Compensated.**

Identify all persons and classes of persons employed, retained or to be compensated by the bidder, or by any person on the bidder's behalf, to make solicitations or recommendations in connection with the tender offer and describe briefly the terms of such employment, retainer or arrangement for compensation.

**Item 9—Financial Statements of Certain Bidders.**

Where the bidder is other than a natural person and the bidder's financial condition is material to a decision by a security holder of the subject company whether to sell, tender or hold securities being sought in the tender offer, furnish current, adequate financial information concerning the bidder. *Provided*, That if the bidder is controlled by another entity which is not a natural person and has been formed for the purpose of making the tender offer, furnish current, adequate financial information concerning such parent.

**Instructions.** 1. The facts and circumstances concerning the tender offer, particularly the terms of the tender offer, may influence a determination as to whether disclosure of financial information is material. However, once the materiality requirement is applicable, the adequacy of the financial information will depend primarily on the nature of the bidder.

In order to provide guidance in making this determination, the following types of financial information will be deemed adequate for purposes of this item for the type of bidder specified: (a) Financial statements prepared in compliance with SEC Form 10 as amended (17 CFR 249.210) for a domestic bidder which is otherwise eligible to use such form; and (b) financial statements prepared in compliance with SEC Form 20 (17 CFR 249.220) for a foreign bidder which is otherwise eligible to use such form.

2. If the bidder is subject to the periodic reporting requirements of sections 13(a) or 15(d) of the Act, financial statements contained in any document filed with the Corporation under the Act may be incorporated by reference in this Form F-13 solely for the purposes of this Form F-13: *Provided*, That such financial statements substantially meet the requirements of this Item; an express statement is made that such financial statements are incorporated by reference; the matter incorporated by reference is clearly identified by page, paragraph, caption or otherwise; and an indication is made where such information may be inspected and copies obtained. Financial statements which are required to be presented in comparative form for two or more fiscal years or

periods shall not be incorporated by reference unless the material incorporated by reference includes the entire period for which the comparative data is required to be given.

3. If the bidder is not subject to the periodic reporting requirements of the Act, the financial statements required by this Item need not be audited if such financial statements are not available or obtainable without unreasonable cost or expense and a statement is made to that effect disclosing the reasons therefor.

**Item 10—Additional Information.**

If material to a decision by a security holder whether to sell, tender or hold securities being sought in the tender offer, furnish information as to the following:

(a) Any present or proposed material contracts, arrangements, understandings or relationships between the bidder or any of the persons listed in General Instruction C or any of its subsidiaries and the subject bank or any of its executive officers, directors, controlling persons or subsidiaries (other than any contract, arrangement or understanding required to be disclosed pursuant to Items 3 or 7 of this schedule);

(b) To the extent known by the bidder after reasonable investigation, the applicable regulatory requirements which must be complied with or approvals which must be obtained in connection with the tender offer;

(c) The applicability of anti-trust laws;

(d) The applicability of the margin requirements of section 7 of the Act and the regulations promulgated thereunder;

(e) Any material pending legal proceedings relating to the tender offer including the name and location of the court or agency in which the proceedings are pending, the date instituted, the principal parties thereto and a brief summary of the proceedings; and

**Instruction.** In connection with this Sub-Item, a copy of any document relating to a major development (such as pleadings, an answer, complaint, temporary restraining order, injunction, opinion, judgment or order) in a material pending legal proceeding should be promptly furnished to the Corporation on a supplemental basis.

(f) Such additional material information, if any, as may be necessary to make the required statements, in light of the circumstances under which they are made, not materially misleading.

**Item 11—Material To Be Filed as Exhibits.**

Furnish a copy of: (a) Tender offer material which is published, sent or given to security holders by or on behalf of the bidder in connection with the tender offer;

(b) Any loan agreement referred to in Item 4 of this schedule;

**Instruction.** The identity of any bank which is a party to a loan agreement need not be disclosed if the person filing the statement has requested that the identity of such bank not be made available to the public pursuant to Item 4 of this Form F-13.

(c) Any document setting forth the terms of any contracts, arrangements, understandings or relationships referred to in Item 7 or 10(a) of this Form F-13;

(d) Any written opinion prepared by legal counsel at the bidder's request and communicated to the bidder pertaining to the tax consequences of the tender offer;

(e) In an exchange offer where securities of the bidder have been or are to be registered under the Securities Act of 1933, the prospectus containing the information required to be included therein by SEC Rule 434b (17 CFR 230.434b) of that Act; and

(f) If any oral solicitation of security holders is to be made by or on behalf of the bidder, any written instruction, form or other material which is furnished to the persons making the actual oral solicitation for their use, directly or indirectly, in connection with the tender offer.

**Signature.** After due inquiry and to the best of my knowledge and belief, I certify that the information set forth in this statement is true, complete and correct.

Date\_\_\_\_\_

(Signature)

(Name and Title)

The original statement shall be signed by each person on whose behalf the statement is filed or his authorized representative. If the statement is signed on behalf of a person by his authorized representative (other than an executive officer or general partner of the bidder), evidence of the representative's authority to sign on behalf of such person shall be filed with the statement. The name and any title of each person who signs the statement shall be typed or printed beneath his signature.

30. In § 335.71, paragraph B2(i) is amended by deleting the present paragraph B2(i) and substituting the following:

**§ 335.71 Form for financial statements (Form F-9A, B, C, D and E).**

B. . . .  
2. . . .

(1) *Provision for possible loan losses.* (1) Banks which provide for loan losses on a reserve basis shall include an estimated amount for loan losses. Such amount shall be determined by management in light of past loan loss experience and evaluation of potential loss in the current loan portfolio. All banks on a loan loss reserve basis must report against this item an amount sufficient to bring the balance of the allowance for possible loan losses to an adequate level to absorb anticipated losses that management might reasonably expect, based upon its appraisal of the condition of the current loan portfolio.

(2) Banks which do not provide for loan losses on a reserve basis shall include the amount of actual net chargeoffs (losses less recoveries) for the current year.

(3) Furnish in a note to financial statements an explanation of the basis for determining the loan loss provision.

**Title 12—Banks and Banking**

**CHAPTER V—FEDERAL HOME LOAN BANK BOARD**

**SUBCHAPTER D—FEDERAL SAVINGS AND LOAN INSURANCE CORPORATION**

[No. 78-732]

**PART 563—OPERATIONS**

**Amendment Concerning Mortgage Insurance**

DECEMBER 21, 1978.

AGENCY: Federal Home Loan Bank Board.

ACTION: Final rule.

**SUMMARY:** This amendment modifies an exception to regulations which prohibit an FSLIC-insured institution from insuring loans with a mortgage insurance company in which the institution, its service corporation(s), or insiders thereof have an ownership interest in excess of specified limits. The modification limits the scope of this exception.

EFFECTIVE DATE: January 29, 1979.

FOR FURTHER INFORMATION CONTACT:

Harry W. Quillian, Associate General Counsel, Federal Home Loan Bank Board, 1700 G Street, NW., Washington, D.C. 20552. Telephone number: (202) 377-6440.

**SUPPLEMENTARY INFORMATION:** Section 563.44 of the Rules and Regulations for Insurance of Accounts (12 CFR 563.44) prohibits an FSLIC-insured institution from insuring loans with a mortgage insurance company (MIC) in which the institution, its service corporation(s), or officers, directors, and controlling persons thereof have an ownership interest in excess of specified limits. Paragraph (c) of the regulation provides an exception for investment in any MIC which (1) was in existence on March 11, 1976 (the effective date of the regulation) and (2) is entirely owned by insured institutions no one of which owns more than 25 percent of any class of equity securities of the MIC. The only MIC known to qualify for this exception is the Pennsylvania Mortgage Insurance Company (PAMICO).

By Resolution No. 77-445 of July 19, 1977 (42 FR 37822-37823), the Bank Board proposed an amendment which would have modified paragraph (c) to (1) to prevent an insured institution from increasing its investment in an MIC under the exception and (2) prevent an insured institution whose interest was less than the prescribed

maximum limits from increasing its interest to exceed those limits. The intended effect of that proposal was to gradually "ratchet down" permitted ownership of PAMICO by insured institutions insuring their loans with it.

By Resolution No. 78-248 of April 18, 1978 (43 FR 17833-17834), the Bank Board withdrew Board Resolution No. 77-445 and proposed instead to remove ownership of MICs by insured institutions from the § 563.44 limitations and thereby permit development of other companies similar to, and competitive with, PAMICO. To protect borrowers from overreaching by insured institutions requiring that their loans be insured by a particular MIC, the Bank Board also proposed to revoke the exception for private mortgage insurance from the prohibition in § 563.35(a) against insured institutions requiring borrowers to contract for insurance from any particular person or organization. The premise for these proposed amendments was that, with adequate regulatory protection for borrowers, investment in MICs might be a proper and profitable corporate opportunity for insured institutions.

**SUMMARY OF COMMENTS**

Fifty-four respondents submitted written public comments on the proposal; several commented more than once. In addition, representatives of 10 organizations including PAMICO and MICA (The Mortgage Insurance Companies of America) attended a public meeting held on June 26 on the proposal by the Bank Board's General Counsel at the request of MICA.

Comment divided sharply on the merits of the proposed amendment of § 563.44 to permit FSLIC-insured institutions to insure loans with MICs in which they have a substantial ownership interest. Ten respondents favored the proposal; forty-four opposed it. Comment addressed to the proposed amendment of § 563.35 to give borrowers the right to select the insurer of their loans was almost uniformly negative.

One respondent favoring the proposal noted that it would probably reduce the cost of mortgage insurance, citing PAMICO's recent price reductions. Respondent also noted that MIC ownership by savings and loans would "keep profit from mortgage insurance within the home loan business." Respondent also noted, however, that savings and loans might tie loans to purchase of mortgage insurance (despite the § 563.35 anti-tie-in provision), require unneeded mortgage insurance, and/or experience increased defaults due to lack of the discipline of a second evaluation of loans by independent MICs. Based on these considerations, respondent supported the amendment, but suggested reinforcement of the

anti-tie-in prohibition by (1) requiring signed statements from borrowers of their knowledge of their right to choose the MIC and (2) aggressive monitoring by the Bank Board.

Another respondent supported the proposed amendment to § 563.44, citing PAMICO's recent reduction of its premiums. Respondent suggested that institutional MIC ownership is a reasonable extension of regulatorily permissible self-insurance through establishment of specific reserves.

The Wyoming Insurance Department strongly supported the proposed amendment to § 563.44, citing as unique in the mortgage insurance industry PAMICO's reduction of premiums on loans in Wyoming based on low incidence of losses there.

Many respondents opposing the proposed amendment cited the Alger Report on the collapse of the mortgage insurance industry during the 1930s, which attributed that collapse in part to ownership of MICs by lenders. Also cited were the study of the mortgage insurance industry done in 1974 for the Federal Home Loan Mortgage Corporation and the Federal National Mortgage Association by the Arthur D. Little Co. and the Federal Reserve's disapproval in 1974 of mortgage insurance as a bank holding company activity.

Many opponents of the proposal noted that lender/owners of MICs might tend to generate profits by requiring unnecessary mortgage insurance and that the lack of the "discipline" of evaluation of loans and the lending practices of lender/owners might lead to increased defaults of bad loans made on the strength of insurance of a "captive" MIC.

The Mortgage Insurance Companies of America argued that there is already adequate competition in the mortgage insurance industry because no state is served by fewer than 4 MICs and 20 states are served by over 10. It noted that the share of the market of the largest MIC (Mortgage Guarantee Insurance Company) has decreased during each of the last 12 quarters and is now approximately 38% as opposed to 100% in 1957.

Opponents of the proposal argued that it would lead to proliferation of small, financially weak MICs with geographically concentrated insurance risk exposing them to unacceptable danger from local or regional economic catastrophe.

Argument was also made that there is little return to investors during the early years of an MIC's growth, and that MIC ownership is therefore bad business for savings and loans. PAMICO noted in rebuttal of this argument that it now has 17 savings and loan owners and others have expressed interest in investing in it.

As already noted, comments directed to the proposed application to private mortgage insurance of the §563.35 anti-tie-in prohibition were virtually all negative. Many respondents argued that few borrowers are qualified to judge the quality of mortgage insurance and that since the insurance is solely for the protection of the lender the borrower would choose solely on the basis of the lowest premium. It was argued that lenders should in their own protection spread their mortgage insurance business among several companies and to do so they need the right to choose the MIC. A number of savings and loans argued, on the other hand, that once they have decided which MIC offers the best protection they should be able to give that company all their business.

Several respondents suggested that if the Bank Board did extend the anti-tie-in prohibition to private mortgage insurance it should do so only for savings and loans with MIC ownership interests and/or only require that borrowers be permitted to select from a list of MICs determined by savings and loans to offer adequate protection.

#### DISCUSSION AND DECISIONS

With respect to the arguments summarized above, the Bank Board notes that although the costs and benefits of the proposed amendments are easily stated their quantification and comparison is difficult. In the Bank Board's view PAMICO's 4-years of operation without known abuse and with substantial success in lowering its premiums and other charges argues strongly in favor of Bank Board action which permits PAMICO's continued existence and operation.

On the other hand, the Bank Board is persuaded by further reflection in

the light of comments by opponents of the proposal, including to some extent PAMICO itself, that the proposed amendment to §563.44 should not be adopted. It is especially persuaded that there is substantial benefit in the "discipline" of arm's length evaluation and bargaining which presently occurs between savings and loans and MICs.

In view of the strong arguments made against the proposal and the fact that no compelling reason exists for opening the door at this time to creation of additional PAMICO-type MICs, the Bank Board has decided to retain the present "grandfather" exception applicable only to investment in PAMICO, and modify it slightly to both facilitate PAMICO's efforts to broaden its ownership base (and thus reduce the percentage holdings of its owners) and to "ratchet down" any reductions by PAMICO's owners of their ownership in it.

The amendment hereby adopted is therefore similar to that proposed by Board Resolution No. 77-445 in that it continues the present "grandfather" exception only for investment in PAMICO and excludes from the exception PAMICO owners which reduce their ownership interests and increase them again beyond a new 2% limit (the "ratchet down" effect). The Bank Board believes that this limitation should not unduly hamper PAMICO in its efforts to broaden its ownership base (and thus reduce the percentage ownership of its investors in accordance with the basic thrust of §563.44).

As to the proposed amendment to §563.35, the Bank Board has decided that such amendment is not needed at this time. The principal reason for this proposed amendment was the likelihood that the proposed amendment to §563.44 would lead to increased invest-

ment by insured institutions in MICs, with resulting increased probability of overreaching by such institutions in the selection of an MIC. In view of its decision not to adopt the proposed amendment to §563.44 and of the substantial and reasoned opposition to the proposed amendment of §563.35 noted above, the Bank Board has decided not to adopt the latter amendment. The Bank Board will, however, continue to monitor the practices of insured institutions with respect to placement of mortgage insurance and will take appropriate regulatory action with respect to any such practices which appear to result in inadequate protection to the institutions or unfair or unreasonable costs to their borrowers.

Accordingly, the Bank Board hereby amends §563.44(c) to read as follows:

§ 563.44 Loans involving mortgage insurance.

(c) *Exception.* Paragraph (b)(4) of this section does not apply to investment in any mortgage insurance company in existence on March 11, 1976, which is entirely owned directly or indirectly by insured institutions if such investment made or increased after December 21, 1978, does not exceed two percent of such company's outstanding equity securities.

(Secs. 402, 403, 407, 48 Stat. 1256, 1257, 1260, as amended (12 U.S.C. §§ 1725, 1726, 1730). Reorg. Plan No. 3 of 1947, 12 F.R. 4981, 3 CFR, 1943-48 Comp., p. 1071).

By the Federal Home Loan Bank Board.

J. J. FINN,  
Secretary.

Agricultural Marketing Service

[7 CFR Part 1126]

[Docket No. AO-231-A46]

MILK IN THE TEXAS MARKETING AREA

Decision on Proposed Amendments to Marketing Agreement and to Order

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Proposed rule.

**SUMMARY:** This final decision provides for changes in the present order provisions based on industry proposals considered at a public hearing held June 13-14, 1978. The amendments would modify the basis on which a person may qualify as a "producer-handler" under the order. They also would allow handlers to divert milk between pool distributing plants and would modify the payment requirements of the order. The amendments are necessary to reflect current marketing conditions and to insure orderly marketing in the area. Cooperative associations will be polled to determine whether producers favor the issuance of the proposed amended order.

Robert F. Groene, Marketing Specialist, Dairy Division, Agricultural Marketing Service, U.S. Department of Agriculture, Washington, D.C. 20250, 202-447-4824.

**SUPPLEMENTARY INFORMATION:** Prior documents in this proceeding:

Notice of Hearing: Issued May 26, 1978, published June 1, 1978 (43 FR 23725). Suspension Order: Issued June 22, 1978, published June 27, 1978 (43 FR 27776). Partial Recommended Decision: Issued August 4, 1978, published August 8, 1978 (43 FR 35047). Partial Final Decision: Issued September 1, 1978, published September 8, 1978 (43 FR 40030). Final Order: Issued September 26, 1978, published September 29, 1978 (43 FR 44824). Recommended Decision: Issued October 11, 1978, published October 16, 1978 (43 FR 47534).

A public hearing was held upon proposed amendments to the marketing agreement and the order regulating the handling of milk in the Texas marketing area. The hearing was held, pursuant to the provisions of the Agri-

cultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 *et seq.*), and the applicable rules of practice (7 CFR Part 900), at Dallas, Texas on June 13-14, 1978, pursuant to notice thereof issued on May 26, 1978 (43 FR 23725).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Acting Deputy Administrator, Marketing Program Operations, on October 11, 1978, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision containing notice of the opportunity to file written exceptions thereto.

The material issues, findings and conclusions, rulings, and general findings of the partial recommended decision are hereby approved and adopted and are set forth in full herein, subject to the following modifications:

#### INDEX OF CHANGES

Under the heading "Producer-handler provisions," four paragraphs are added following paragraph 8.

The material issues on the record of the hearing relate to:

1. The "dairy farmer for other markets" provision.
2. Diversions to nonpool plants.
3. Diversions between pool plants.
4. Producer-handler provisions.
5. Classification of shrinkage and products that are dumped and disposed of for animal feed.
6. Partial payments to a cooperative association.

This decision deals only with issues 3 through 6. A previous decision issued September 1, 1978, dealt with issues 1 and 2.

#### FINDINGS AND CONCLUSIONS

The following findings and conclusions on issues 3 through 6 are based on evidence presented at the hearing and the record thereof:

3. *Diversions between pool plants.* The proposal to revise the producer milk definition to allow diversions of milk between pool distributing plants should be adopted.

Currently, the order permits producer milk to be diverted from pool distributing plants to pool supply plants and to pool balancing plants operated by cooperative associations.

A handler who operates 2 distributing plants in Dallas (Zone 1) and a distributing plant at Tyler, Texas (Zone 2) proposed the change, which was not

opposed. The handler indicated that he prefers to assign his producers to a particular plant and use that plant's payroll to make settlement for the monthly milk production of his producers. It has been his experience that the listing of a producer on only 1 payroll avoids confusion for the producer and the handler's personnel. However, in order to maintain a producer on only 1 payroll, it has been necessary under the current order provisions for the handler to physically receive the total monthly milk production of the producer at 1 of his pool plants and then transfer milk of such producer, if needed, to the other 2 pool plants operated by the handler. This method of operation has resulted in additional expense for the handler since the milk must be unloaded at the plant where the producer has been assigned and then reloaded for delivery to other plants operated by the handler.

The handler pointed out, too, that the location of the producers relative to his 3 plants is such that it costs about the same for the milk of a producer to be delivered directly from the farm to any of his 3 plants. The handler proposed, therefore, that he be permitted to associate the milk of his producers with a particular plant and then divert milk from such plant to his other plants as needed.

The order should promote the efficient handling of milk by permitting diversions between pool distributing plants. The change proposed herein will allow the diverting handler to maintain only one payroll in accounting for the total monthly milk production of his producers, irrespective of the plant to which the milk may actually be delivered. In this way a distributing plant operator may avoid unnecessary and costly movements of milk merely for the purpose of associating a producer with a specific distributing plant for payroll purposes.

The pricing point for milk diverted from a pool distributing plant would be the same as currently provided under the order for milk diverted to any other plant. The milk would be priced at the plant to which diverted.

4. *Producer-handler provisions.* The order should be revised to modify the present limit on fluid milk products that a producer-handler may receive from pool plants by including within the limit not only the products received at his plant but those received at any other point within his distribu-

tion system. The proposal that would require a producer-handler to operate the entire distribution system through which he disposes of Class I milk should not be adopted.

The present order specifies that a producer-handler is any person who operates a dairy farm and a processing plant and who receives no fluid milk products from sources other than his own farm production and pool plants. Any such receipts from pool plants during the month may not exceed the lesser of 5 percent of his Class I disposition during the month or 10,000 pounds. A producer-handler may not dispose of any other source milk in the form of a fluid milk product except through the addition of nonfat milk solids to fortify fluid milk products received from his own farm or from pool plants. To qualify as a producer-handler, such person must provide proof satisfactory to the market administrator that the care and management of the dairy farm and other resources necessary for his own farm production of milk and the management and operation of the processing plant are the personal enterprise and risk of such person.

A handler who operates regulated distributing plants in the market proposed that the milk distribution system of a producer-handler, as well as the dairy farm and processing plant, be the personal enterprise and risk of the same person. The handler's proposal also would require a producer-handler to treat any product received within his distribution system as though it were received at his plant in determining whether or not his receipts from pool plants exceeded the allowable limits contained in the order.

Proponent claimed that the intent of this proposal was to prevent the possibility of a producer-handler circumventing the present order provisions pertaining to the restrictions on receipts of milk supplies from sources other than his own farm. This proposal and the testimony given by the proponent were supported by the cooperative association that represents a majority of the producers who supply the Texas market.

A producer under the order who plans to qualify as a producer-handler at some future date opposed the proposal at the hearing. Opposition was expressed also by a producer-handler in his post-hearing brief. These persons claimed that no evidence was presented on the record to support imposing further restrictions on producer-handlers. Opponents held that the proposal was based only on speculation and predictions. The producer claimed that adoption of the proposal would prevent him from obtaining producer-handler status. The produc-

er-handler alleged that the proposed change would likely put him out of business. Both claimed it would be impractical to own their entire distribution system and distribute only milk products from their own farm.

To assure that the exemption of producer-handlers from the pooling and pricing provisions of the order does not have an adverse impact on the market, the present order provisions were drafted to require such persons to operate basically in a self-sufficient manner. However, as indicated, producer-handlers may receive limited quantities of fluid milk products from pool plants. Under the present application of the order provisions, the limitation has applied only to fluid milk products actually received at the producer-handler's processing plant. Thus, a producer-handler who operates his own distribution routes could pick up packaged fluid milk products at pool plants or distribution depots of other handlers and distribute these products, presumably along with those from his own plant, without bringing them into his plant. In this manner, he could circumvent the present limitation on the amount of milk that may be obtained from pool plants.

To effectively carry out the intent of the limitation on purchases of milk from pool plants, the order should preclude the opportunity to circumvent this limitation. Accordingly, the order should specify that the limit on receipts of fluid milk products from pool plants shall include such products which a producer-handler obtains at a location other than his processing plant for distribution on his routes. Although there was no indication that producer-handlers are circumventing the current limitation on receipts from pool plants, this order change is proper since it merely carries out the initial intent of the limitation.

It is not necessary on the basis of this record to require a producer-handler to operate the distribution system through which all his route disposition in the marketing area is made. There is no indication that producer-handlers are causing any disorderly marketing conditions that would warrant the adoption of the proposal. The proponent handler provided no evidence concerning the actual operations of producer-handlers in the market and their competitive impact on regulated handlers. Also, there was no testimony by other witnesses that suggested any need for the proposal. Accordingly, the proposal is denied.

The handler who proposed that a producer-handler assume the full risk of his milk distribution system excepted to the recommended denial of this proposal. In his exceptions, the handler restated the arguments that he presented at the hearing in support of

his proposal. It is concluded that no basis exists for changing the recommended decision in this regard.

A producer who testified at the hearing that he was contemplating becoming a producer-handler at some future time excepted to the proposed revision of the producer-handler definition. He alleged that (1) there was no evidence presented at the hearing of any need for a change in the producer-handler definition, (2) the original intent of the limitation on the quantity of fluid milk products that a producer-handler may obtain from a pool plant operator was to limit the producer-handler's purchases of milk for his processing plant, (3) the proposed revision could be misinterpreted by the market administrator to mean something other than what is intended, and (4) the proposed revision would restrict producer-handlers to a greater extent than pool plant operators since the distribution system of a pool plant is not considered a part of the pool plant.

The arguments presented by the exceptor are without merit. The exemption from the pricing and pooling provisions of the order that is accorded a producer-handler is conditioned upon the producer-handler operating in basically a self-sufficient manner in supplying his retail sales outlets. If the order were to permit a producer-handler to receive an unlimited quantity of fluid milk products from a pool plant at locations other than the producer-handler's processing plant, such producer-handler could not be considered as operating in basically a self-sufficient manner. Therefore, unless the order is amended as provided herein to specify that the limit on the quantity of fluid milk products that a producer-handler may receive from pool plants must include not only products received at his processing plant but those received at any other point within his distribution system, the limits contained in the current order provisions can readily be circumvented. Unless the limits are applied in the manner provided herein, there is no means of assuring that a producer-handler is operating in the manner intended when the current provisions of the order were made effective.

The revision provided herein would not preclude a producer-handler from delivering his fluid milk products to a sales outlet that also acquires fluid milk products from other sources. However, if the arrangements for the additional fluid milk requirements of the outlet are made by the producer-handler rather than the operator of the outlet, the additional fluid milk products should be regarded as a receipt of the producer-handler.

5. *Classification of shrinkage and products that are dumped or disposed*

*of for animal feed.* The proposal to combine certain plant shrinkage, animal feed and dumped products into a single use category and to permit up to 3 percent of a plant's receipts of bulk fluid milk products and bulk fluid cream products claimed in such use to be classified as Class III milk should not be adopted.

The order presently classifies as Class III milk any fluid milk products, fluid cream products, eggnog, yogurt, or similar filled products that are dumped by a handler or disposed of for animal feed. In the case of shrinkage, the order permits up to 2 percent of a plant's receipts of producer milk to be classified as Class III milk. If the plant's receipts are from a cooperative association in its capacity as a handler on bulk tank milk, then the 2 percent allowance is divided between the cooperative and the plant operator, with the cooperative receiving a 0.5 percent allowance and the plant operator receiving 1.5 percent. However, if the plant operator buys the milk on the basis of farm weights and tests, he gets the full 2 percent allowance. One and one-half percent of receipts also is the maximum allowable shrinkage that can be assigned to Class III with respect to receipts of bulk milk from other plants. To the extent that the quantity of shrinkage in these cases exceeds the specified limits on Class III uses, the order provides that the excess shall be classified as Class I milk. All shrinkage assigned to receipts of other source milk for which Class II or Class III uses is requested is classified as Class III milk.

A handler who operates a pool distributing plant proposed that plant shrinkage now subject to the 2 percent limit, animal feed and dumped fluid milk products be combined into a single use classification. He would then allow up to 3 percent of a plant's receipts in such use category to be classified as Class III milk. Proponent claimed that his objective in proposing the revision is to simplify the procedures and reduce the costs on the part of the market administrator and handlers in accounting for animal feed and dumped products. He pointed out that his proposal would minimize delays in disposing of route returns that can not be salvaged and thereby reduce the health hazards associated with disposing of such products. Proponent modified his proposal at the hearing to recognize circumstances in which a handler may need to dispose of a large quantity of receipts due to an unusual situation. In such circumstance, he would permit the handler to dump such milk and classify such loss as Class III milk without limit provided that the market administrator is notified of the handler's intention to

dump the milk and is given an opportunity to verify such dumpage.

A handler who operates three pool distributing plants opposed the proposal. Opponent claimed that combining shrinkage, animal feed and dumped products into a single classification would not simplify the accounting for such products. The plant operator also maintained that animal feed and dumped products are distinct utilizations which can be measured, tested and verified. He pointed out that shrinkage, on the other hand, is a residual figure and is a loss that cannot be measured, tested or verified.

The principal cooperative association supplying handlers in the Texas market also opposed any change in the current method of classifying shrinkage, animal feed, and dumped milk products. The cooperative contended that the amount of skim milk that could be classified as Class III milk under proponent's proposal is greater than is justified by the record evidence. In that connection, the cooperative contended that handlers would receive an increase in the amount of milk that can be classified as Class III by not maintaining adequate records of accountability. In addition, the cooperative contended that the amount of time required by the market administrator's office to audit the books and records of handlers would not be reduced since the same auditing procedures now used would have to be continued. Also, under proponent's proposal the market administrator's employees would still be required to monitor the dumping of milk in those situations where a large quantity of milk must be dumped.

Handlers normally experience some shrinkage losses in milk processing operations and, occasionally, must dispose of spoiled products either by dumping the products or disposing of them for animal feed. Because a handler's costs are affected by the quantities of these products that are priced as Class I and Class III milk, proponent's proposal to combine these three categories of milk use into a single classification and allow up to 3 percent of the handler's receipts in such uses to be classified as Class III milk would have varying impacts on the cost of milk to the various handlers in the market. The proposal could reduce the cost for those handlers who otherwise would have excess shrinkage. This could occur in situations where a handler has little or no dumped products or animal feed but has shrinkage that exceeds the present allowable limits for Class III use. Other handlers who otherwise would have all of their shrinkage, animal feed usage and dumped products classified as Class III milk could have some of such usages classified as Class I milk in the event

the quantity of dumped products and animal feed uses exceeds 1 percent of producer receipts at such plant.

An analysis of data for the market reveals that the adoption of proponent's proposal would be to the disadvantage of a number of pool plant operators. An examination of data for May 1977 reveals that as many as one-third of the pool plant operators could be disadvantaged.

For example, 16 of the 44 pool plants regulated by the Texas milk order disposed of more than one percent of their receipts as animal feed, whereas proponent would have limited a handler's uses for animal feed and dumped products (excluding unusual losses) to one percent of receipts. Three of the 16 plants had animal feed disposition in excess of 1.5 percent while two plants disposed of more than 2 percent of their receipts as animal feed. On the basis of data for November 1977, 9 of the 44 pool plants disposed of more than one percent of their receipts of skim milk or butterfat as animal feed. Three of the 9 pool plants disposed of more than 1.5 percent of their receipts in such uses.

An analysis of data submitted by proponent with respect to his plant's operation reveals that the percentage of his plant's receipts disposed of as animal feed and dumped milk products during some months of the year also exceeded the limit that he proposed. While proponent is willing to accept a Class I classification for milk that exceeds the limits he has proposed, there is no reason to deny other handlers a Class III classification for milk for which they can produce records substantiating the use of milk receipts as either animal feed disposition or as dumped milk products.

The reasons set forth by proponent for adopting his proposal are not compelling reasons for changing the current classification provisions as they relate to shrinkage, animal feed and dumped products. Accordingly, the proposal is denied.

6. *Partial payments to a cooperative association.* The order should be revised to allow a handler to elect whether or not to adjust the announced Class III price for the preceding month by the butterfat differential to reflect the butterfat content of bulk fluid milk products received from a cooperative's pool plant in making partial payment for such milk. There was no opposition expressed at the hearing to the proposed change.

The order currently provides that a handler who receives bulk fluid milk products from a pool plant operated by a cooperative association shall make 2 payments during the month to the market administrator in settlement for such purchases. The handler must make a partial payment on or

before the 26th day of the month for those products received during the first 18 days of the month at the Class III price for the preceding month adjusted by the butterfat differential. On or before the 16th day after the end of each month, the handler must make payment for all bulk fluid milk products received during the month from a cooperative's pool plant at the applicable class prices adjusted by the butterfat differential, less the amount of the payment made on or before the 26th day of the month.

For producer milk and milk received from a cooperative association in its capacity as a handler on farm bulk tank milk, the order provides that the handler, in making a partial payment for the milk, shall pay the previous month's Class III price without adjustment for the butterfat content of the milk received.

Some proprietary handlers in the Texas market receive whole milk from a cooperative association in its capacity as a handler on farm bulk tank milk and on occasion from the same cooperative's pool plant as well. In making partial payments, these handlers have tended to pay the previous month's announced Class III price without adjustment for butterfat for both the bulk tank milk and the plant milk. In some instances, the butterfat content of the milk received from the cooperative's plant has been above 3.5 percent and, as a consequence, the handler's payment has been less than the value of such milk. Usually, the amount of the underpayment has been relatively insignificant. However, such underpayment violates the order's provisions and subjects the handler to a late payment charge on the amount of the underpayment.

It is not necessary for the orderly marketing of milk to require handlers to adjust the previous month's Class III price to reflect the butterfat content in making partial payments for bulk milk received from a cooperative's pool plant. The value of the milk, including any added value due to the butterfat content exceeding 3.5 percent, is reflected in the handler's final payment to the cooperative association. For that reason, handlers should be permitted to make partial payments at the previous month's Class III price without adjustment for butterfat for milk that is received from a cooperative's pool plant.

The order should provide, however, that the buying handler may adjust the Class III price to reflect the butterfat content if he desires to do so. This option will benefit handlers who receive skim milk from a cooperative's pool plant. In such situations, payment at the announced Class III price would result in a payment in excess of the classified use value of such milk.

At the time of final payment, the handler then would be due a credit from the cooperative association. This unnecessary additional transaction can be avoided by allowing a handler to adjust his partial payment to reflect the butterfat content of milk purchased from a cooperative's pool plant.

#### RULINGS ON PROPOSED FINDINGS AND CONCLUSIONS

Briefs and proposed findings and conclusions were filed on behalf of certain interested parties. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

#### GENERAL FINDINGS

The following findings and determinations supplement those that were made when the order was first issued and when it was amended. The previous findings and determinations are hereby ratified and confirmed, except where they conflict with those set forth below.

(a) The tentative marketing agreement and the order, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the tentative marketing agreement and the order, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreement and the order, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

#### RULINGS ON EXCEPTIONS

In arriving at the findings and conclusions, and the regulatory provisions of this decision, each of the exceptions received was carefully and fully considered in conjunction with the record evidence. To the extent that the find-

ings and conclusions, and the regulatory provisions of this decision are at variance with any of the exceptions, such exceptions are hereby overruled for the reasons previously stated in this decision.

#### MARKETING AGREEMENT AND ORDER

Annexed hereto and made a part hereof are two documents, a MARKETING AGREEMENT regulating the handling of milk, and an ORDER amending the order regulating the handling of milk in the Texas marketing area which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions.

It is hereby ordered, That this entire decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of the marketing agreement are identical with those contained in the order as hereby proposed to be amended by the attached order which is published with this decision.

#### DETERMINATION OF PRODUCER APPROVAL AND REPRESENTATIVE PERIOD

October 1978 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of the order, as amended and as hereby proposed to be amended, regulating the handling of milk in the Texas marketing area is approved or favored by producers, as defined under the terms of the order as amended and as hereby proposed to be amended, who during such representative period were engaged in the production of milk for sale within the aforesaid marketing area.

(This decision constitutes the Department's Final Impact Analysis Statement for this proceeding.)

Signed at Washington, D.C., on: December 18, 1978.

P. R. "BOBBY" SMITH,  
Assistant Secretary for  
Marketing Services.

Order amending the order, regulating the handling of milk in the Texas marketing area.

#### FINDINGS AND DETERMINATIONS

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed.

This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) Findings. A public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Texas marketing area. The hearing was held pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 *et seq.*), and the applicable rules of practice and procedure (7 CFR Part 900).

Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order as hereby amended regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the Texas marketing area shall be in conformity to and in compliance with the terms and conditions of the order, as amended, and as hereby amended, as follows:

The provisions of the proposed marketing agreement and order amending the order contained in the recommended decision issued by the Acting Deputy Administrator, Marketing Program Operations, on October 11, 1978, and published in the FEDERAL REGISTER on October 16, 1978 (43 FR 47534) shall be and are the terms and provisions of this order, amending the order, and are set forth in full herein.

1. Section 1126.10(c) is revised as follows:

§ 1126.10 Producer-handler.

(c) Whose receipts of fluid milk products (including such products which he obtains at a location other than his processing plant for distribution on his routes) during the month

from pool plants do not exceed the lesser of 5 percent of his Class I disposition during the month or 10,000 pounds;

2. Section 1126.13(d) is revised as follows:

§ 1126.13 Producer milk.

(d) Diverted from a pool plant described in § 1126.7(a) for the account of the handler operating such plant to another pool plant, except that milk diverted to a plant operated by a cooperative association may not be milk of the cooperative association's members. Milk so diverted shall be priced at the plant to which diverted; or

3. Section 1126.73(g)(1) is revised as follows:

§ 1126.73 Payments to producers and to cooperative associations.

(g) . . .

(1) On or before the 26th day of each month, an amount determined by multiplying such receipts during the first 18 days of the month by the Class III price for the preceding month. If the handler so elects, such price may be adjusted by the butterfat differential specified in § 1126.74 for the preceding month; and

#### TRANSITION AREA; PROPOSED ALTERATION

Kerrville, Texas

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: The nature of the action being taken is to propose alteration of the transition area at Kerrville, Tex. The intended effect of the proposed action is to realign controlled airspace for aircraft executing instrument approach procedures to the Kerrville Municipal (Louis Schreiner Field) Airport. The circumstances which created the need for the action were relocation of the nondirectional radio beacon (NDB), commissioning of the Center Point VORTAC, and the proposed installation of a nonfederal localizer and outer marker to runway 30, with associated instrument approaches.

DATES: Comments on or before January 29, 1979.

ADDRESSES: Send comments on the proposal to: Chief, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101.

An informal docket may be examined at the Office of the Chief, Airspace and Procedures Branch, Air Traffic Division.

FOR FURTHER INFORMATION CONTACT:

Ken Stephenson, Airspace and Procedures Branch (ASW-535), Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101; telephone 817-624-4911, extension 302.

SUPPLEMENTARY INFORMATION: In Subpart G 71.181 (43 FR 440) of FAR Part 71, the description of the Kerrville, Tex., transition area reflects controlled airspace designated on the Kerrville NDB. Relocation of the NDB, commissioning of the Center Point VORTAC and installation of a nonfederal localizer and outer marker require realignment of instrument approach procedures and associated controlled airspace.

#### COMMENTS INVITED

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to

Chief, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101. All communications received on or before January 29, 1979 will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

#### AVAILABILITY OF NPRM

Any person may obtain a copy of this notice of proposed rule making (NPRM) by submitting a request to the Chief, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101, or by calling 817-624-4911, extension 302. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should contact the office listed above.

#### THE PROPOSAL

The FAA is considering an amendment to Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to alter the Kerrville, Tex., transition area. The FAA believes this action will properly align controlled airspace for aircraft executing instrument approach procedures established for the airport. Subpart G of Part 71 was republished in the FEDERAL REGISTER on January 3, 1978 (43 FR 440).

#### THE PROPOSED AMENDMENT

Accordingly, pursuant to the authority delegated to me, the FAA proposes to amend 71.181 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (43 FR 440) by altering the Kerrville, Tex., transition area as follows:

#### KERRVILLE, TEX.

That airspace extending upward from 700 feet above the surface within a 8.5-mile radius of the Kerrville Municipal (Louis Schreiner Field) Airport (latitude 29°58'38" N., longitude 99°05'13" W.).

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a); and Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c))).

NOTE—The FAA has determined that this document involves a proposed regulation which is not considered to be significant under the procedures and criteria prescribed by Executive Order 12044 and as implemented by interim Department of Transportation guidelines (43 FR 9582; March 3, 1978).

Issued in Fort Worth, Tex., on December 13, 1978.

PAUL J. BAKER,  
Acting Director,  
Southwest Region.

(FR Doc. 78-35940 Filed 12-27-78; 8:45 am)

[4910-13-M]

[14 CFR Part 71]

(Airspace Docket No. 78-EA-87)

#### VOR FEDERAL AIRWAYS

##### Designation

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to designate an airway (V-373) from Gordonsville, Virginia, to IRONS intersection, south of Washington, D.C. via the SABBI intersection which is east of Brooke, Virginia. This action would designate as an airway a route that is presently used as an arrival vector route to the Washington area thereby reducing the coordination and communication time required for its use.

DATES: Comments must be received on or before January 29, 1979.

ADDRESSES: Send comments on the proposal in triplicate to: Director, FAA Eastern Region, Attention: Chief, Air Traffic Division, Docket No. 78-EA-87, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y. 11430.

The official docket may be examined at the following location: FAA Office of the Chief Counsel, Rules Docket, (AGC-24), Room 916, 800 Independence Avenue, SW., Washington, D.C. 20591.

An informal docket may be examined at the office of the Regional Air Traffic Division.

FOR FURTHER INFORMATION CONTACT:

Mr. Everett L. McKisson, Airspace Regulations Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591; telephone: (202) 426-3715.

#### SUPPLEMENTARY INFORMATION:

##### COMMENTS INVITED

Interested persons may participate in the proposed rulemaking by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Eastern Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y. 11430. All communications received on or before Jan. 29, 1979 will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

#### AVAILABILITY OF NPRM

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue, SW., Washington, D.C. 20591, or by calling (202) 426-8058. Communications must identify the docket number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11-2 which describes the application procedures.

#### THE PROPOSAL

The FAA is considering an amendment to Part 71 of the Federal Aviation Regulations (14 CFR Part 71) that would add a new airway numbered V-373. This airway would replace the present arrival vector route from Gordonsville via the INT of Gordonsville 065°T (071°M) and Washington 189°T (196°M) radials to the INT of Washington 189°T (196°M) and Nottingham, Md. 238°T (245°M) radials. By designating this route as an airway it may be referred to by airway number rather than a lengthy description of intersections. This reduction in route definition would reduce the flight planning and communication time for both the pilot and the air traffic controller.

#### THE PROPOSED AMENDMENT

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend § 71.123 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (43 FR 307) as follows:

In § 71.123, "V-373 From Gordonsville, Va., via INT of Gordonsville 065° and Washington, D.C. 189° radials; to INT Washington 189° and Nottingham, Md., 238° radials." is added.

(Secs. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.65.)

The FAA has determined that this document involves a proposed regulation which is not significant under the procedures and criteria prescribed by Executive Order 12044 and implemented by interim Department of Transportation guidelines (43 FR 9582; March 8, 1978).

Issued in Washington, D.C., on December 19, 1978.

WILLIAM E. BROADWATER,  
Chief, Airspace and Air  
Traffic Rules Division.

#### DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Proposed Designation of Transition Area,  
Cullowhee, North Carolina

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This proposed rule will designate the Cullowhee, North Carolina, Transition Area and will lower the base of controlled airspace within a 20-mile radius of the Jackson County Airport from 1200 to 700 feet AGL to accommodate Instrument Flight Rule (IFR) operations. A new public use instrument approach procedure has been developed for the Jackson County Airport, and the additional controlled airspace is required to protect aircraft conducting Instrument Flight Rule (IFR) operations.

DATES: Comments must be received on or before March 15, 1979.

ADDRESS: Send comments on the proposal to: Federal Aviation Administration, Chief, Air Traffic Division, P.O. Box 20636, Atlanta, Georgia 30320.

FOR FURTHER INFORMATION CONTACT:

William F. Herring, Airspace and Procedures Branch, Federal Aviation Administration, P.O. Box 20636, At-

lanta, Georgia 30320; telephone: 404-763-7646.

#### SUPPLEMENTARY INFORMATION:

##### COMMENTS INVITED

Interested persons may participate in the proposed rulemaking by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southern Region, Federal Aviation Administration, Attention: Chief, Air Traffic Division, P.O. Box 20636, Atlanta, Georgia 30320. All communications received on or before March 15, 1979, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons. A report summarizing each public contact with FAA personnel concerned with this rulemaking will be filed in the public, regulatory docket.

#### AVAILABILITY OF NPRM

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue, S.W., Washington, D.C. 20591, or by calling (202) 426-8058. Communications must identify the notice number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11-2 which describes the application procedures.

#### THE PROPOSAL

The FAA is considering an amendment to Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) to designate the Cullowhee, North Carolina, Transition Area. This action will provide controlled airspace protection for IFR operations at Jackson County Airport. An NDB standard instrument approach procedure utilizing the Cullowhee (nonfederal) non-directional radio beacon is proposed in conjunction with the designation of this transition area.

#### THE PROPOSED AMENDMENT

§ 71.181 [Amended]

Accordingly, the Federal Aviation Administration proposes to amend Subpart G, § 71.181 (44 FR 442) of Part 71 of the Federal Aviation Regulations (14 CFR 71) by adding the following:

CULLOWHEE, NORTH CAROLINA

That airspace extending upward from 700 feet above the surface within a 20-mile radius of Jackson County Airport (Lat. 35°19'06" N., Long. 83°12'43" W.).

(Sec. 307(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)) and Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1644(c)).

NOTE.—The Federal Aviation Administration has determined that this document involves a proposed regulation which is not considered to be significant under the procedures and criteria prescribed by Executive Order 12044 and as implemented by interim Department of Transportation guidelines (43 FR 9582; March 8, 1978).

Issued in East Point, Georgia, on December 15, 1978.

PHILLIP M. SWATEK,  
Director, Southern Region.

(FR Doc. 78-36667 Filed 12-27-78; 8:45 am)

[4910-13-M]

[14 CFR Parts 71 and 73]

(Airspace Docket No. 78-SO-55)

#### TEMPORARY RESTRICTED AREAS

##### Proposed Establishment

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This notice proposes to designate six temporary restricted areas in the vicinity of Camp Lejeune, N.C., to contain a major military exercise. These proposed actions will provide for the safe and efficient use of the navigable airspace by prohibiting unauthorized flight operations of non-participating aircraft within the joint use restricted airspace during the proposed time the areas are in use.

DATES: Comments must be received on or before January 29, 1979.

ADDRESSES: Send comments on the proposal in triplicate to: Director, FAA Southern Region, Attention: Chief, Air Traffic Division, Docket No. 78-SO-55; Federal Aviation Administration, P.O. Box 20636, Atlanta, Ga. 30320.

Send comments concerning environmental and land use aspects to: Captain E. G. Smith, USN, CINCLANT N-37, Norfolk, Va. 23511 Telephone: (A/C 804) 444-6375.

The official docket may be examined at the following location: FAA Office of the Chief Counsel, Rules Docket (AGC-24), Room 916, 800 Independence Avenue, SW., Washington, D.C. 20591.

An informal docket may be examined at the office of the Regional Air Traffic Divisions.

# FOR FURTHER INFORMATION CONTACT:

Mr. Everett L. McKisson, Airspace Regulations Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591; telephone: (202) 426-3715.

## SUPPLEMENTARY INFORMATION:

### COMMENTS INVITED

Interested persons may participate in the proposed rulemaking by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southern Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, P.O. Box 20636, Atlanta, Ga. 30320. All communications received on or before January 29, 1979, will be considered before action is taken on the proposed amendments. The proposals contained in this notice may be changed in the light of comments received. All comments submitted will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

### AVAILABILITY OF NPRM

Any person may obtain a copy of this notice of proposed rulemaking (NPRM) by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA-430, 800 Independence Avenue, SW., Washington, D.C. 20591, or by calling (202) 426-8058. Communications must identify the docket number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11-2 which describes the application procedures.

### THE PROPOSAL

The FAA is considering amendments to § 71.151 of Part 71 and Section 73.26 of Part 73 of the Federal Aviation Regulations (14 CFR Parts 71 and 73) to designate temporary restricted areas identified as R-5315A, R-5315B, R-5315C, R-5315D, R-5315E, and R-5315F in the vicinity of Camp Lejeune, N.C., to contain a major military joint readiness exercise. Those restricted areas that penetrate the Continental Control Area would also be included as controlled airspace for the duration of their designation. This exercise will provide training for several military commands operating under a single joint command. The designated ground maneuver areas are: Camp Lejeune, Croatan National Forest, Cherry Point and additional land

leased by the Corps of Engineers for this exercise. Supersonic flight and live ordnance will not be used in the temporary areas.

There will be an air superiority campaign, an amphibious operation employing helicopters and supporting fixed wing aircraft in the Onslow Bay area, helicopterborne airmobile assaults in the Camp Lejeune area, and supporting naval air operations from a carrier at sea and from NAS Oceana, Va. Land based aircraft will operate from Seymour Johnson, Shaw, Pope, Myrtle Beach AFBs and other candidate airfields.

It is estimated that the total number of exercise aircraft/sorties from all Services will be approximately 1,000. Exercise aircraft operating outside of the proposed restricted airspace and in positive control airspace, or in IFR conditions, will be on individual flight plans. Lines of communication will be installed with appropriate FAA facilities in order to coordinate movement of nonexercise air traffic through the exercise area when exercise activity permits. In addition, local business phone numbers (reverse charge) will be established and published for coordination of nonexercise air traffic.

Commander in Chief, Atlantic (CINCLANT) will serve as the lead agency for purposes of compliance with the National Environmental Policy Act. The proposed restricted areas would be designated as joint use and IFR/VFR operations in the areas may be authorized/permitted by the controlling agency when the areas are not in use by the using agency. The controlling agency for the proposed restricted areas would be the FAA, Washington ARTC Center.

### THE PROPOSED AMENDMENT

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend Parts 71 and 73 of the Federal Aviation Regulations (14 CFR Parts 71 and 73) as republished (43 FR 344, 697) as follows:

#### § 71.151 [Amended]

In § 71.151 (43 FR 344), the following temporary restricted areas are added for the duration of their time of designation from 0001, May 12, 1979, to 0001, local time, May 22, 1979:

R-5315A Lejeune, N.C.  
R-5315C Lejeune, N.C.  
R-5315D Lejeune, N.C.

#### § 73.53 [Amended]

In § 73.53 (43 FR 697), the following temporary restricted areas are added:

R-5315A Lejeune, N.C.

Boundaries. Beginning at Lat. 34°15'00"N., Long. 77°30'00"W.; to Lat. 34°57'00"N., Long. 77°02'45"W.; to Lat. 34°49'30"N., Long. 77°10'00"W.; to Lat. 34°44'50"N.,

Long. 77°14'40"W.; to Lat. 34°39'10"N., Long. 77°20'50"W.; to Lat. 34°40'20"N., Long. 77°22'12"W.; to Lat. 34°38'12"N., Long. 77°26'00"W.; to Lat. 34°36'05"N., Long. 77°26'08"W.; to Lat. 34°33'00"N., Long. 77°19'00"W.; to Lat. 34°30'20"N., Long. 77°15'50"W.; thence southwest 3 NM from and parallel to the shoreline to Lat. 34°23'00"N., Long. 77°30'00"W.; to Lat. 34°20'00"N., Long. 77°30'00"W.; to Lat. 34°26'30"N., Long. 77°40'00"W.; to Lat. 34°42'30"N., Long. 77°23'00"W.; to Lat. 34°55'00"N., Long. 77°35'30"W.; thence to point of beginning.

Designated altitudes. Surface to but not including FL 180.

Time of designation. Intermittent, 0001, May 12, 1979, to 0001, local time, May 22, 1979.

Controlling agency. Federal Aviation Administration, Washington ARTCC.

## DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Assistant Secretary for Housing—Federal Housing Commissioner

[24 CFR Part 888]

[Docket No. R-78-588]

## FAIR MARKET RENTS FOR NEW CONSTRUCTION AND SUBSTANTIAL REHABILITATION

McAlester, Okla., Market Area

AGENCY: Office of Assistant Secretary for Housing, Federal Housing Commissioner, HUD.

ACTION: Proposed rule.

SUMMARY: This proposed rule would amend the schedule of Fair Market Rents for the McAlester, Oklahoma market area. As required by statute, the Secretary is revising, based on recent data, fair market rents for Section 8 low and moderate income housing in selected geographical areas.

DATES: Interested parties are invited to submit written comments, data suggestions, or objections by January 11, 1979.

ADDRESS: Rules Docket Clerk, Office of General Counsel, Department of Housing and Urban Development, 451 7th Street, SW., Washington, D.C. 20410, 202-755-7603. This is not a toll-free number.

## FOR FURTHER INFORMATION CONTACT:

Henry F. P. Cassagne, Chief Appraiser, Office of Technical Support, Department of Housing and Urban Development, 451 7th Street SW., Washington, D.C. 20410, 202-472-4810. This is not a toll-free number.

## SUPPLEMENTARY INFORMATION:

Recent data and comments have been received from the Oklahoma City Area Office indicating an immediate need to establish Fair Market Rents for Mobile Homes in the McAlester, Oklahoma market area. It has been determined that it is impracticable and unnecessary to provide a 30-day period for comments on these proposed revisions and that a 15-day period is reasonable and in the public interest.

A Finding of Inapplicability respecting the National Environmental Policy Act of 1969 has been made in accordance with HUD procedures. A copy of this Finding of Inapplicability will be available for public inspection during regular business hours at the Office of the Rules Docket Clerk at the address set forth above.

Accordingly, the Secretary proposes to incorporate in Part 888, Subpart A, a Revised Schedule A for the McAlester, Oklahoma market area as set forth below.

(Sec. 7(d) Department of HUD Act (42 U.S.C. 3535(d)).

In accordance with Section 7(o) (4) of the Department of HUD Act, Section 324 of the Housing and Community Development Amendments of 1978, Pub. L. 95-557, 92 Stat. 2080, this proposed rule has been granted waiver of Congressional review requirements in order to permit publication at this time for public comment.

Issued at Washington, D.C., on October 26, 1978.

LAWRENCE B. SIMONS,  
Assistant Secretary for Housing—Federal Housing Commissioner.

SCHEDULE A—FAIR MARKET RENTS FOR NEW CONSTRUCTION AND SUBSTANTIAL REHABILITATION (INCLUDING HOUSING FINANCE AND DEVELOPMENT AGENCIES PROGRAM)

These Fair Market Rents have been trended ahead two years to allow time for processing and construction of proposed new construction and substantial rehabilitation rental projects.

NOTE.—The Fair Market Rents for (1) Dwelling units designed for the elderly or handicapped are those for the appropriate size units, not to exceed 2-bedroom, multiplied by 1.05 rounded to the next higher whole dollar, (2) congregate housing dwelling units are the same as for non-congregate units and (3) single room occupancy dwelling units are those for 0-Bedroom units of the same type.

FEDERAL REGISTER, VOL. 43, NO. 250—THURSDAY, DECEMBER 28, 1978

[4210-01-M]

[24 CFR Part 888]

[Docket No. R-78-589]

FAIR MARKET RENTS FOR NEW CONSTRUCTION AND SUBSTANTIAL REHABILITATION

Ada, Ardmore, Enid, Guymon, Lawton, Oklahoma City, Shawnee, Stillwater, and Woodward, Okla.; and Santa Ana, and San Bernardino, Calif., Market Areas

AGENCY: Office of Assistant Secretary for Housing—Federal Housing Commissioner, HUD.

ACTION: Proposed rule.

SUMMARY: This proposed rule would amend the schedules of Fair Market Rents for the Ada, Ardmore, Enid, Guymon, Lawton, Oklahoma City, Shawnee, Stillwater, and Woodward, Oklahoma, and the Santa Ana and San Bernardino, California market areas. As required by statute, the Secretary is revising, based on recent data, fair market rents for Section 8 low and moderate income housing in selected geographical areas.

DATES: Interested parties are invited to submit written comments, data suggestions, or objections by January 12, 1979.

ADDRESS: Rules Docket Clerk, Office of General Counsel, Department of Housing and Urban Development, 451 7th Street, S. W., Washington, D. C. 20410, 202-755-7603. This is not a toll-free number.

FOR FURTHER INFORMATION CONTACT:

Henry P. P. Cassagne, Chief Appraiser, Office of Technical Support, Department of Housing and Urban Development, 451 7th Street, S. W., Washington, D. C. 20410, 202-472-4810. This is not a toll-free number.

SUPPLEMENTARY INFORMATION: Recent data and comments have been received from the Los Angeles and Oklahoma City Area Offices indicating an immediate need to amend the Fair Market Rents for the following market areas:

Santa Ana and San Bernardino, California  
Ada, Ardmore, Enid, Guymon, Lawton, Oklahoma City, Shawnee, Stillwater, and Woodward, Oklahoma.

It has been determined that it is impracticable and unnecessary to provide a 30-day period for comments on these proposed revisions and that a 15-day period is reasonable and in the public interest.

A Finding of Inapplicability respecting the National Environmental Policy Act of 1969 has been made in accordance with HUD procedures. A copy of this Finding of Inapplicability will be available for public inspection during regular business hours at the Office of the Rules Docket Clerk at the address set forth above.

It is therefore proposed that Schedule A of Part 888 be amended as set forth below.

(Sec. 7(d) Department of HUD Act (42 U.S.C. 3535(d).)

In accordance with Section 7(c)(4) of the Department of HUD Act, Section 324 of the Housing and Community Development Amendments of 1978, Pub. L. 95-557, 92 Stat. 2080, this proposed rule has been granted waiver of Congressional review requirements in order to permit publication at this time for public comment.

Issued at Washington, D. C. on October 26, 1978.

LAWRENCE B. SIMONS,  
Assistant Secretary for Housing—Federal Housing Commissioner

SCHEDULE A—FAIR MARKET RENTS FOR NEW CONSTRUCTION AND SUBSTANTIAL REHABILITATION (INCLUDING HOUSING FINANCE AND DEVELOPMENT AGENCIES PROGRAMS)

These Fair Market Rents have been trended ahead two years to allow time for processing and construction of proposed new construction and substantial rehabilitation rental projects.

NOTE.—The Fair Market Rents for (1) dwelling units designed for the elderly or handicapped are those for the appropriate size units, not to exceed 2-bedroom multiplied by 1.05 rounded to the next higher whole dollar, (2) congregate housing dwelling units are the same as for non-congregate units and (3) single room occupancy dwelling units are those for 0-bedroom units of the same type.

[24 CFR Part 888]

[Docket No. R-78-590]

**FAIR MARKET RENTS FOR NEW CONSTRUCTION AND SUBSTANTIAL REHABILITATION**

Fort Worth, Abilene, San Angelo, and Wichita Falls, Texas Market Areas

**AGENCY:** Office of Assistant Secretary for Housing-Federal Housing Commissioner, HUD.

**ACTION:** Proposed rule.

**SUMMARY:** This proposed rule would amend the schedules of Fair Market Rents for the Fort Worth, Abilene, San Angelo, and Wichita Falls, Texas market areas. As required by statute, the Secretary is revising, based on recent data, fair market rents for Section 8 low and moderate income housing in selected geographical areas.

**DATES:** Interested parties are invited to submit written comments, data suggestions, or objections by January 12, 1979.

**ADDRESS:** Rules Docket Clerk, Office of General Counsel, Department of Housing and Urban Development, 451 7th Street, S.W., Washington, D.C. 20410, 202-755-7603. This is not a toll-free number.

**FOR FURTHER INFORMATION CONTACT:**

Henry F. P. Cassagne, Chief Appraiser, Office of Technical Support, Department of Housing and Urban Development, 451 7th Street S.W., Washington, D.C. 20410, 202-472-4810. This is not a toll-free number.

**SUPPLEMENTARY INFORMATION:**

Recent data and comments have been received from the Fort Worth Service Office Area indicating an immediate need to amend the Fair Market Rents for the Fort Worth, Abilene, San Angelo, and Wichita Falls, Texas market areas. It has been determined that it is impracticable and unnecessary to provide a 30-day period for comments on these proposed revisions and that a 15-day period is reasonable and in the public interest.

A Finding of Inapplicability respecting the National Environmental Policy Act of 1969 has been made in accordance with HUD procedures. A copy of this Finding of Inapplicability will be available for public inspection during regular business hours at the Office of the Rules Docket Clerk at the address set forth above.

Accordingly, the Secretary proposes to incorporate in Part 888, Subpart A, Revised Schedules A for the Fort Worth, Abilene, San Angelo, and Wichita Falls, Texas market areas as set forth below.

(Sec. 7(d) Department of HUD Act (42 U.S.C. 3535(d).)

FEDERAL REGISTER, VOL. 43, NO. 250—THURSDAY, DECEMBER 28, 1978

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Development Amendments of 1978, Pub. L. 95-557, 92 Stat. 2080, this proposed rule has been granted waiver of Congressional review requirements in order to permit publication at this time for public comment.

Issued at Washington, D.C. on October 26, 1978.

LAWRENCE B. SIMONS,  
Assistant Secretary for Housing,  
Federal Housing Commission-  
er.

**SCHEDULE A—FAIR MARKET RENTS FOR NEW CONSTRUCTION AND SUBSTANTIAL REHABILITATION (INCLUDING HOUSING FINANCE AND DEVELOPMENT AGENCIES PROGRAM)**

These Fair Market Rents have been trended ahead two years to allow time for processing and construction of proposed new construction and substantial rehabilitation rental projects.

**NOTE.**—The Fair Market Rents for (1) Dwelling units designed for the elderly or handicapped are those for the appropriate size units, not to exceed 2-bedroom, multiplied by 1.05 rounded to the next higher whole dollar, (2) congregate housing dwelling units are the same as for non-congregate units and (3) single room occupancy dwelling units are those for 0-Bedroom units of the same type.

DEPARTMENT OF HOUSING AND  
URBAN DEVELOPMENT

Office of Assistant Secretary for Housing,  
Federal Housing Commissioner

[24 CFR Parts 803 and 888]

[Docket R-78-5011]

SECTION 23 AND SECTION 8 HOUSING AS-  
SISTANCE PAYMENTS PROGRAM—FAIR  
MARKET RENTS AND CONTRACT RENT  
AUTOMATIC ANNUAL ADJUSTMENT FAC-  
TORS

Amendment of Schedule B—Section 8 Existing  
Housing and Section 23 Existing Housing

AGENCY: Department of Housing  
and Urban Development (HUD).

ACTION: Proposed rule.

SUMMARY: The Department is pro-  
posing to amend the schedules that set  
forth Fair Market Rents under the  
"Section 23" and "Section 8" Housing  
Assistance Payments Programs for Ex-  
isting Housing. On the basis of current  
data submitted by the public, Public  
Housing Authorities (PHA's), and by  
HUD field offices, revised rents are  
now being proposed for selected areas  
to reflect changes in local housing  
market conditions. The intent of these  
changes is to update the Fair Market  
Rents for the affected areas for var-  
ious sizes of units in elevator and non-  
elevator buildings.

DATE: Comments due January 12,  
1979.

ADDRESSES: Interested persons are  
invited to participate by submitting  
comments or suggestions on the pro-  
posed rents to the Rules Docket Clerk,  
Office of the General Counsel, Room  
5218, Department of Housing and

Urban Development, 451 7th Street  
SW., Washington, D.C. 20410, and di-  
rectly to the appropriate HUD field  
offices. Communications should identi-  
fy the subject matter by the above  
title, docket number, and date of pub-  
lication. All relevant material received  
on or before the date specified above  
will be considered by HUD before  
adoption of revised Fair Market Rents.  
A copy of each comment will be availa-  
ble for public inspection at this ad-  
dress during regular business hours.

FOR FURTHER INFORMATION  
CONTACT:

Nancy S. Chisholm, Acting Director,  
Economic Market Analysis Division,  
PD&R, HUD, Washington, D.C.  
20410 202-755-5870. This is not a toll  
free number.

SUPPLEMENTARY INFORMATION:  
The last nationwide revision of Fair

Market Rents, required on at least an  
annual basis by law, was published in  
the FEDERAL REGISTER on March 29,  
1978 (42 FR 13181). On the basis of  
current data submitted by the public,  
PHA's, and by HUD field offices, re-  
vised rents are now being proposed for  
selected areas to reflect changes in  
local housing market conditions. The  
intent of these changes is to update  
the Fair Market Rents for the affect-  
ed areas for various sizes of units in  
elevator and non-elevator buildings.

By nature, Fair Market Rent sched-  
ules are subject to periodic revisions  
where data and information indicate  
change is needed. Accordingly, Sched-  
ule B Fair Market Rents will continue  
to be amended in the future for those  
local housing market areas where  
changes are determined appropriate  
on the basis of available data and in-  
formation.

Because it is necessary to the oper-  
ation of the Section 8 and Section 23  
programs that Fair Market Rents  
remain as current as possible, and be-  
cause interested parties are encour-  
aged at all times to submit informa-  
tion and data on those rents which  
will be considered in initiating revi-  
sions as needed, it has been deter-  
mined that it is impracticable and un-  
necessary to provide a 30-day period of  
comments on the these proposed revi-  
sions and that a 15-day period is rea-  
sonable and in the public interest.

The Department has determined  
that these regulations do not consti-  
tute a major Federal action signifi-  
cantly affecting the quality of human  
environment. Accordingly, a finding of  
inapplicability of environment impact  
has been prepared and is available for  
public inspection during regular busi-  
ness hours at the office of the Rules  
Docket Clerk, at the address specified  
above.

It is therefore proposed that Title  
24, Part 888, Schedule B and Part 803,  
Schedule B be revised as set forth  
below.

This notice of proposed rulemaking  
is issued under the authority of sec.  
7(d), Department of HUD Act (42  
U.S.C. 3535(d)).

In accordance with Section 7(o)(4) of  
the Department of HUD Act, Section  
324 of the Housing and Community  
Development Amendments of 1978,  
Pub. L. 95-557, 92 Stat. 2080, this pro-  
posed rule has been granted waiver of  
Congressional review requirements in  
order to permit publication at this  
time for public comment.

Issued in Washington, D.C., Novem-  
ber 21, 1978.

LAWRENCE B. SIMONS,  
Assistant Secretary for Housing,  
Federal Housing Commission-  
er.

## NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determinations for  
the City of Indian Wells, Riverside County,  
Calif.AGENCY: Federal Insurance Adminis-  
tration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or  
comments are solicited on the pro-  
posed base (100-year) flood elevations  
listed below for selected locations in  
the City of Indian Wells, Riverside  
County, California. These base (100-  
year) flood elevations are the basis for  
the flood plain management measures  
that the community is required to  
either adopt or show evidence of being  
already in effect in order to qualify or  
remain qualified for participation in  
the National Flood Insurance Program  
(NFIP).DATES: The period for comment will  
be ninety (90) days following the  
second publication of this proposed  
rule in a newspaper of local circulation  
in the above-named community.ADDRESSES: Maps and other infor-  
mation showing the detailed outlines  
of the flood-prone areas and the pro-  
posed base (100-year) flood elevations  
are available for review at City Hall,  
45-300 Club Drive, Indian Wells, Cali-  
fornia. Send comments to: Mr. Prince  
E. Peirson, City Manager, City of  
Indian Wells, City Hall, 45-300 Club  
Drive, Indian Wells, California 92260.FOR FURTHER INFORMATION  
CONTACT:Mr. Richard Krimm, Assistant Ad-  
ministrator, Office of Flood Insur-  
ance, Room 5270, 451 Seventh Street  
SW., Washington, D.C. 20410, 202-  
755-5581 or toll-free line 800-424-  
8872.SUPPLEMENTARY INFORMATION:  
The Federal Insurance Administrator  
gives notice of the proposed determi-  
nations of base (100-year) flood eleva-  
tions for the City of Indian Wells,  
California, in accordance with section  
110 of the Flood Disaster Protection  
Act of 1973 (Pub. L. 93-234), 87 Stat.980, which added section 1363 to the  
National Flood Insurance Act of 1968;  
(Title XIII of the Housing and Urban  
Development Act of 1968 (Pub. L. 90-  
448)), 42 U.S.C. 4001-4128, and 24 CFR  
1917.4(a).These elevations, together with the  
flood plain management measures re-  
quired by § 1910.3 of the program re-  
gulations, are the minimum that are re-  
quired. They should not be construed  
to mean the community must change  
any existing ordinances that are more  
stringent in their flood plain manage-  
ment requirements. The community  
may at any time enact stricter require-  
ments on its own, or pursuant to poli-  
cies established by other Federal,  
State, or regional entities. These pro-  
posed elevations will also be used to  
calculate the appropriate flood insur-  
ance premium rates for new buildings  
and their contents and for the second  
layer of insurance on existing build-  
ings and their contents.The proposed base (100-year) flood  
elevations for selected locations are:

| Source of flooding                    | Location                                                                                                             | Depth, feet<br>above<br>ground |
|---------------------------------------|----------------------------------------------------------------------------------------------------------------------|--------------------------------|
| Deep Canyon<br>Stormwater<br>Channel. | West of Cook Street<br>along Deep Canyon<br>Stormwater Channel<br>and south of Deep<br>Canyon Stormwater<br>Channel. | 3                              |

(National Flood Insurance Act of 1968 (Title  
XIII of Housing and Urban Development  
Act of 1968), effective January 28, 1969 (33  
FR 17804, November 28, 1968), as amended;  
42 U.S.C. 4001-4128; and Secretary's dele-  
gation of authority to Federal Insurance Ad-  
ministrator, 43 FR 7719.)In accordance with Section 7(o)(4) of the  
Department of HUD Act, Section 324 of the  
Housing and Community Development  
Amendment of 1978, P.L. 95-557, 92 Stat.  
2080, this proposed rule has been granted  
waiver of Congressional review require-  
ments in order to permit publication at this  
time for public comment.

Issued October 25, 1978.

755-5581 or toll-free line 800-424-  
8872.SUPPLEMENTARY INFORMATION:  
The Federal Insurance Administrator  
gives notice of the proposed determi-  
nations of base (100-year) flood eleva-  
tions for the City of San Juan Capis-  
trano, California, in accordance with  
section 110 of the Flood Disaster Pro-  
tection Act of 1973 (Pub. L. 93-234), 87  
Stat. 980, which added section 1363 to  
the National Flood Insurance Act of  
1968 (Title XIII of the Housing and  
Urban Development Act of 1968 (Pub.  
L. 90-448)), 42 U.S.C. 4001-4128, and  
24 CFR 1917.4(a).These elevations, together with the  
flood plain management measures re-  
quired by § 1910.3 of the program re-  
gulations, are the minimum that are re-  
quired. They should not be construed  
to mean the community must change  
any existing ordinances that are more  
stringent in their flood plain manage-  
ment requirements. The community  
may at any time enact stricter require-  
ments on its own, or pursuant to poli-  
cies established by other Federal,  
State, or regional entities. These pro-  
posed elevations will also be used to  
calculate the appropriate flood insur-  
ance premium rates for new buildings  
and their contents and for the second  
layer of insurance on existing build-  
ings and their contents.The proposed base (100-year) flood  
elevations for selected locations are:

| Source of flooding   | Location                                                   | Elevation<br>in feet,<br>national<br>geodetic<br>vertical<br>datum |

## NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for  
the Unincorporated Areas of Walker County,  
Ga.AGENCY: Federal Insurance Adminis-  
tration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or  
comments are solicited on the pro-  
posed base (100-year) flood elevations  
listed below for selected locations in  
the unincorporated areas of Walker  
County, Ga. These base (100-year)  
flood elevations are the basis for the

flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

**DATES:** The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

**ADDRESSES:** Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the Property Records Office, Walker County Courthouse, P.O. Box 445, LaFayette, Ga. 30728. Send comments to: Mr. Roy Parrish, Walker County Commissioner, or Mr. Dewey Richardson, Property Records Office, Walker County Courthouse, LaFayette, Ga. 30728.

#### FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

**SUPPLEMENTARY INFORMATION:** The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the unincorporated areas of Walker County, Ga., in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

| Source of flooding                           | Location                                                      | Elevation in feet, national geodetic vertical datum |
|----------------------------------------------|---------------------------------------------------------------|-----------------------------------------------------|
| Chattanooga Creek.                           | Intersection of Wilson Road and northern corporate limits.    | 650                                                 |
|                                              | Just upstream of Ridgeland Road (Georgia Highway 148).        | 676                                                 |
|                                              | Just upstream of Georgia Highway 341.                         | 690                                                 |
| Coke Oven Branch.                            | Just upstream of Wheeler Avenue.                              | 700                                                 |
|                                              | Just upstream of Wallaceville School Road.                    | 779                                                 |
|                                              | Just upstream of Wallaceville Mission Road.                   | 869                                                 |
|                                              | Just upstream of FAS 1025.                                    | 871                                                 |
| Crawfish Creek                               | Just upstream of Glass Mill Road.                             | 730                                                 |
|                                              | Just upstream of Straight Cut Road.                           | 776                                                 |
| Dry Creek                                    | Just upstream of Maple Street.                                | 850                                                 |
|                                              | Just upstream of Salem Road.                                  | 678                                                 |
|                                              | Just downstream of Georgia Highway 240.                       | 718                                                 |
| Ellis Branch                                 | Just upstream of Chattanooga Valley Road.                     | 696                                                 |
|                                              | Approximately 150 feet downstream of Southern Railway Bridge. | 695                                                 |
| Unnamed Tributary to Coke Oven Branch.       | Just upstream of Wilder Road.                                 | 734                                                 |
| Unnamed Tributary to West Chickamauga Creek. | Just downstream of Wilder Road.                               | 733                                                 |
| Unnamed Tributary to West Chickamauga Creek. | Approximately 50 feet upstream of FAS 1352.                   | 751                                                 |
| Unnamed Tributary to West Chickamauga Creek. | Just upstream of Jenkins Road.                                | 813                                                 |
| West Chickamauga Creek.                      | Just upstream of William Howard Taft Highway (US Highway 27). | 720                                                 |
|                                              | Just downstream of Glass Mill Road.                           | 730                                                 |

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Development Amendments of 1978, P.L. 95-557, 92 Stat. 2080, this proposed rule has been granted waiver of Congressional review requirements in order to permit publication at this time for public comment.

Issued October 25, 1978.

GLORIA M. JIMENEZ,  
Federal Insurance Administrator.

#### NATIONAL FLOOD INSURANCE PROGRAM

**Proposed Flood Elevation Determinations for the City of Keosauqua, Van Buren County, Iowa**

**AGENCY:** Federal Insurance Administration, HUD.

**ACTION:** Proposed rule.

**SUMMARY:** Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the City of Keosauqua, Van Buren County, Iowa. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

**DATES:** The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

**ADDRESSES:** Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the City Hall, Keosauqua, Iowa. Send comments to: The Honorable Ford I. Gano, Mayor, City of Keosauqua, City Hall, Keosauqua, Iowa 52565.

#### FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

**SUPPLEMENTARY INFORMATION:** The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the City of Keosauqua, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR Part 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain manage-

ment requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

| Source of flooding | Location                          | Elevation in feet, national geodetic vertical datum |
|--------------------|-----------------------------------|-----------------------------------------------------|
| Des Moines River   | At downstream Corporate Limit.    | 674                                                 |
|                    | 700 feet upstream of Main Street. | 676                                                 |
|                    | At upstream Corporate Limit.      | 676                                                 |

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Development Amendments of 1978, P.L. 95-557, 92 Stat. 2080, this proposed rule has been granted waiver of Congressional review requirement in order to permit publication at this time for public comment.

Issued October 25, 1978.

#### NATIONAL FLOOD INSURANCE PROGRAM

**Proposed Flood Elevation Determinations for the Town of Mountain Lake Park, Garrett County, Md.**

**AGENCY:** Federal Insurance Administration, HUD.

**ACTION:** Proposed rule.

**SUMMARY:** Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the Town of Mountain Lake Park, Garrett County, Maryland. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified

for participation in the National Flood Insurance Program (NFIP).

**DATE:** The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

**ADDRESS:** Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the Mountain Lake Park Town Hall, Mountain Lake Park, Maryland.

Send comments to: Honorable Russell Alexander, Mayor of Mountain Lake Park, Mountain Lake Park, Maryland 21550.

#### FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

**SUPPLEMENTARY INFORMATION:** The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the Town of Mountain Lake Park, Garrett County, Maryland in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

| Source of flooding         | Location                                      | Elevation in feet, national geodetic vertical datum |
|----------------------------|-----------------------------------------------|-----------------------------------------------------|
| Little Youghiogheny River. | Chessie System at Downstream Corporate Limit. | 2,392                                               |
|                            | Old Bridge Road                               | 2,396                                               |

| Source of flooding                              | Location                                     | Elevation in feet, national geodetic vertical datum |
|-------------------------------------------------|----------------------------------------------|-----------------------------------------------------|
|                                                 | State Route 135 at Upstream Corporate Limit. | 2,399                                               |
| Unnamed Tributary to Little Youghiogheny River. | Downstream Corporate Limit.                  | 2,390                                               |
|                                                 | Upstream of Chessie System Culvert.          | 2,393                                               |
|                                                 | Allegany Drive Culvert.                      | 2,393                                               |
|                                                 | Downstream of Oak Street Culvert.            | 2,408                                               |
|                                                 | Upstream of Oak Street Culvert.              | 2,418                                               |
|                                                 | Downstream of State Route 135 Culvert.       | 2,440                                               |
|                                                 | Upstream of State Route 135 Culvert.         | 2,451                                               |
|                                                 | Downstream of Oakland Drive Culvert.         | 2,454                                               |

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Development Amendments of 1978, P.L. 95-557, 92 Stat. 2080, this proposed rule has been granted waiver of Congressional review requirements in order to permit publication at this time for public comment.

#### NATIONAL FLOOD INSURANCE PROGRAM

**Proposed Flood Elevation Determinations for the Unincorporated Areas of LeFlore County, Miss.**

**AGENCY:** Federal Insurance Administration, HUD.

**ACTION:** Proposed rule.

**SUMMARY:** Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the unincorporated areas of LeFlore County, Mississippi. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

**DATE:** The period for comment will be ninety (90) days following the

second publication of this proposed rule in a newspaper of local circulation in the above-named community.

**ADDRESS:** Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at LeFlore County Court House, Greenwood, Mississippi 38930. Send comments to: Mr. Ray Tribble, President, LeFlore County Board of Supervisors, or Mr. Willis B. Brumfield, Chancery Clerk, LeFlore County Court House, Greenwood, Mississippi 38930.

#### FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

#### SUPPLEMENTARY INFORMATION:

The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the unincorporated areas of LeFlore County, Mississippi, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

| Source of flooding  | Location                             | Elevation in feet, national geodetic vertical datum |
|---------------------|--------------------------------------|-----------------------------------------------------|
| Yukon River         | Just upstream U.S. Highway 82 & 49E. | 131                                                 |
| Tallahatchie River. | Just upstream Money St.              | 136                                                 |
| Yalobusha River     | Just upstream Whaley Road.           | 134                                                 |
|                     | Just upstream Avalon Road.           | 135                                                 |

| Source of flooding           | Location                                                    | Elevation in feet, national geodetic vertical datum |
|------------------------------|-------------------------------------------------------------|-----------------------------------------------------|
| Pelucia Creek                | *Just upstream Highway 49E.                                 | 127                                                 |
|                              | Just upstream Mississippi Highway 430.                      | 138                                                 |
| Muddy-Gin Bayou              | Just upstream of bridge. Southwest of New Jerusalem Church. | 116                                                 |

#### NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the Borough of Metuchen, Middlesex County, N.J.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

**SUMMARY:** Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the Borough of Metuchen, Middlesex County, New Jersey. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

**DATE:** The period for comment will be ninety (90) days following the

second publication of this proposed rule in a newspaper of local circulation in the above-named community.

**ADDRESS:** Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the Metuchen City Hall, Metuchen, New Jersey. Send comments to: Honorable Donald J. Wernik, Mayor of Metuchen, P.O. Box 592, Metuchen, New Jersey 08840.

#### FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

#### SUPPLEMENTARY INFORMATION:

The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the Borough of Metuchen, Middlesex County, New Jersey in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

| Source of flooding       | Location                                                         | Elevation in feet, national geodetic vertical datum |
|--------------------------|------------------------------------------------------------------|-----------------------------------------------------|
| Dismal Brook             | Culvert at Sewage Treatment Plant near Jersey Avenue (Upstream). | 80                                                  |
|                          | Conrail Railroad Spur (Upstream).                                | 77                                                  |
|                          | Downstream Corporate Limits.                                     | 71                                                  |
| Tributary to Mill Brook. | Orchard Avenue (Upstream).                                       | 82                                                  |

| Source of flooding | Location                     | Elevation in feet, national geodetic vertical datum |
|--------------------|------------------------------|-----------------------------------------------------|
|                    | Downstream Corporate Limits. | 79                                                  |

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Development Amendments of 1978, P.L. 95-557, 92 Stat. 2080, this proposed rule has been granted waiver of Congressional review requirements in order to permit publication at this time for public comment.

Issued October 25, 1978.

#### NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the City of Heath, Licking County, Ohio

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

**SUMMARY:** Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the City of Heath, Licking County, Ohio. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the national flood insurance program (NFIP).

**DATE:** The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

**ADDRESS:** Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the Municipal Offices, 1287 Hebron Avenue, Heath, Ohio. Send comments to: The Honorable John Geller, Mayor, City of Heath, 1287 Hebron Avenue, Heath, Ohio 43055.

#### FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

#### SUPPLEMENTARY INFORMATION:

The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the City of Heath, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

| Source of flooding        | Location                                  | Elevation in feet, national geodetic vertical datum |
|---------------------------|-------------------------------------------|-----------------------------------------------------|
| Licking River             | Confluence of Lateral Q                   | 812                                                 |
|                           | Downstream corporate limit.               | 810                                                 |
| South Fork Licking River. | Upstream corporate limit.                 | 860                                                 |
|                           | Just upstream of Liberty Drive.           | 852                                                 |
|                           | Just upstream of Irving Wick Drive.       | 845                                                 |
|                           | Just upstream of Chessie System.          | 841                                                 |
|                           | Just downstream of Chessie System.        | 839                                                 |
|                           | Just upstream of Hopewell Drive.          | 821                                                 |
|                           | Downstream corporate limit.               | 819                                                 |
| Ramp Creek                | Just downstream of Thornwood Drive.       | 886                                                 |
|                           | Confluence of Lateral F.                  | 879                                                 |
|                           | 190 feet downstream of Conrail.           | 876                                                 |
|                           | 1,675 feet downstream of Conrail.         | 873                                                 |
|                           | Just upstream of State Route 79.          | 856                                                 |
|                           | Confluence with South Fork Licking River. | 851                                                 |
| Lateral A                 | 510 feet upstream of Summit Sheet.        | 813                                                 |

| Source of flooding | Location                                              | Elevation in feet, national geodetic vertical datum |
|--------------------|-------------------------------------------------------|-----------------------------------------------------|
|                    | Confluence with Licking River.                        | 811                                                 |
| Lateral Q          | 3,350 feet upstream of Blue Jay Road.                 | 918                                                 |
|                    | 2,500 feet upstream of Jay Road.                      | 886                                                 |
|                    | Just upstream of Blue Jay Road.                       | 868                                                 |
|                    | Just downstream of Blue Jay Road.                     | 858                                                 |
|                    | Just upstream of Summit Street.                       | 823                                                 |
|                    | Just downstream of Summit Street.                     | 814                                                 |
| Lateral B          | 330 feet upstream of State Route 13.                  | 870                                                 |

(Docket No. FI-47771)

**NATIONAL FLOOD INSURANCE PROGRAM****Proposed Flood Elevation Determination for the Borough of Beaver, Beaver County, Pa.****AGENCY:** Federal Insurance Administration, HUD.**ACTION:** Proposed rule.**SUMMARY:** Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the Borough of Beaver, Beaver County, Pennsylvania.

These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

**DATES:** The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.**ADDRESSES:** Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the Borough Building, Beaver, Pennsylvania. Send comments to: Honorable Robert P. Linn, Mayor of Beaver, 469 Third Street, Beaver, Pennsylvania 15009.**FOR FURTHER INFORMATION CONTACT:**

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

**SUPPLEMENTARY INFORMATION:** The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the Borough of Beaver, Beaver County, Pennsylvania in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more

**PROPOSED RULES**

stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

| Source of flooding | Location                     | Elevation in feet, national geodetic vertical datum |
|--------------------|------------------------------|-----------------------------------------------------|
| Ohio River         | Downstream Corporate Limits. | 702                                                 |
|                    | Upstream Corporate Limits.   | 703                                                 |

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Development Amendments of 1978, P.L. 95-557, 92 Stat. 2080, this proposed rule has been granted waiver of Congressional review requirements in order to permit publication at this time for public comment.

Issued October 25, 1978.

**NATIONAL FLOOD INSURANCE PROGRAM****Proposed Flood Elevation Determinations for the Township of Catawissa, Columbia County, Pa.****AGENCY:** Federal Insurance Administration, HUD.**ACTION:** Proposed rule.

**SUMMARY:** Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the Township of Catawissa, Columbia County, Pennsylvania. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

**DATE:** The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.**ADDRESS:** Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations

are available for review at the Municipal Building, Catawissa, Pennsylvania. Send comments to: Mr. Frank Ernest, Supervisor of the Township of Catawissa, R.D. 1, Catawissa, Pennsylvania 17820.

**FOR FURTHER INFORMATION CONTACT:**

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

**SUPPLEMENTARY INFORMATION:** The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the Township of Catawissa, Columbia County, Pennsylvania in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

| Source of flooding                  | Location                          | Elevation in feet, national geodetic vertical datum |

(Docket No. FI-47801)

**NATIONAL FLOOD INSURANCE PROGRAM****Proposed Flood Elevation Determinations for the Township of Cecil, Washington County, Pa.****AGENCY:** Federal Insurance Administration, HUD.**ACTION:** Proposed rule.

**SUMMARY:** Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the Township of Cecil, Washington County, Pennsylvania. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

**DATES:** The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.**ADDRESSES:** Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the Municipal Building, R. D. 3, McDonald, Pennsylvania. Send comments to: Mr. Richard Barnes, Chairman of the Township of Cecil, Municipal Building, R.D. 3, McDonald, Pennsylvania 15087.**FOR FURTHER INFORMATION CONTACT:**

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

**SUPPLEMENTARY INFORMATION:** The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the Township of Cecil, Washington County, Pennsylvania in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

| Source of flooding   | Location                                   | Elevation in feet, national geodetic vertical datum |
|----------------------|--------------------------------------------|-----------------------------------------------------|
| Chartiers Creek..... | Conrail Bridge                             | 862                                                 |
|                      | Downstream of Main Street                  |                                                     |
|                      | Main street                                | 866                                                 |
|                      | South dead end of Center Avenue            | 868                                                 |
|                      | Conrail Bridge                             | 871                                                 |
|                      | Upstream of Main Street                    |                                                     |
|                      | Interstate 79                              | 917                                                 |
|                      | Confluence of Morganza Reservoir Tributary | 918                                                 |
|                      | Conrail Bridge                             | 921                                                 |

[Docket No. FI-4781]

**NATIONAL FLOOD INSURANCE PROGRAM**

Proposed Flood Elevation Determinations for the City of Duquesne, Allegheny County, Pa.

**AGENCY:** Federal Insurance Administration, HUD.

**ACTION:** Proposed rule.

**SUMMARY:** Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the City of Duquesne, Allegheny County, Pennsylvania. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

**DATES:** The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

**ADDRESSES:** Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the Duquesne City Hall, 12 South Second Street, Duquesne, Pennsylvania. Send comments to: Honorable Francis Daley, Duquesne City Hall, 12 South Second Street, Duquesne, Pennsylvania 15110.

**FOR FURTHER INFORMATION CONTACT:**

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

**SUPPLEMENTARY INFORMATION:** The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the City of Duquesne, Allegheny County, Pennsylvania in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

| Source of flooding | Location                                                   | Elevation in feet, national geodetic vertical datum |
|--------------------|------------------------------------------------------------|-----------------------------------------------------|
| Monongahela River. | Downstream Corporate Limits                                | 740                                                 |
|                    | Port Perry Bridge                                          | 740                                                 |
|                    | Conrail Bridge                                             | 740                                                 |
|                    | Grant Avenue Extension                                     | 741                                                 |
|                    | At a point 1 mile downstream of McKeesport-Duquesne Bridge | 742                                                 |
|                    | McKeesport-Duquesne Bridge                                 | 743                                                 |
|                    | Upstream Corporate Limits                                  | 743                                                 |
|                    |                                                            |                                                     |
|                    |                                                            |                                                     |
|                    |                                                            |                                                     |

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Development Amendments of 1978, P.L. 95-557, 92 Stat. 2080, this proposed rule has been granted waiver of Congressional review requirements in order to permit publication at this time for public comment.

Issued October 25, 1978.

**NATIONAL FLOOD INSURANCE PROGRAM**

Proposed Flood Elevation Determinations for the Borough of Industry, Beaver County, Pa.

**AGENCY:** Federal Insurance Administration, HUD.

**ACTION:** Proposed rule.

**SUMMARY:** Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the Borough of Industry, Beaver County, Pennsylvania. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

**DATE:** The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

**ADDRESS:** Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at The Borough Building, Industry, Pennsylvania. Send comments to: Honorable Clyde Piquet, Mayor of Industry, P.O. Box 218, Industry, Pennsylvania 15052.

**FOR FURTHER INFORMATION CONTACT:**

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

**SUPPLEMENTARY INFORMATION:** The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the Borough of Industry, Beaver County, Pennsylvania in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

| Source of flooding | Location                     | Elevation in feet, national geodetic vertical datum |
|--------------------|------------------------------|-----------------------------------------------------|
| Ohio river.....    | Midland-Shippingsport Bridge | 595                                                 |
|                    | Confluence of Wolf Run       | 596                                                 |
|                    | Confluence of Sixmile Run    | 597                                                 |
|                    | Montgomery Locks and Dam     | 598                                                 |
|                    | Upstream Corporate Limit     | 700                                                 |

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Development Amendments of 1978, P.L. 95-557, 92 Stat. 2080, this proposed rule has been granted waiver of Congressional review requirements in order to permit publication at this time for public comment.

**NATIONAL FLOOD INSURANCE PROGRAM**

Proposed Flood Elevation Determinations for the Township of Salem, Luzerne County, Pennsylvania

**AGENCY:** Federal Insurance Administration, HUD.

**ACTION:** Proposed rule.

**SUMMARY:** Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the Township of Salem, Luzerne County, Pennsylvania. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

**DATE:** The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

**ADDRESS:** Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the Municipal Building, Salem, Pennsylvania. Send comments to: Mr. Bruce Thomas, Chairman of the Board of Supervisors of Salem, R.D. 1, Berwick, Pennsylvania 18603.

**FOR FURTHER INFORMATION CONTACT:**

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

**SUPPLEMENTARY INFORMATION:** The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the Township of Salem, Luzerne County, Pennsylvania in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

| Source of flooding | Location                    | Elevation in feet, national geodetic vertical datum |
|--------------------|-----------------------------|-----------------------------------------------------|
| Susquehanna River. | Downstream Corporate Limits | 550                                                 |
|                    | Pennsylvania Route 239      | 522                                                 |
|                    | Upstream Corporate Limits   | 522                                                 |
| Mud Swamp Creek.   | Downstream Corporate Limits | 558                                                 |
|                    | Holly Drive                 | 591                                                 |
|                    | Bombay Lane                 | 510                                                 |
|                    | Sholtz Road                 | 640                                                 |
| Salem Creek.....   | Conrail                     | 513                                                 |
|                    | U.S. Route 11 (Downstream)  | 515                                                 |
|                    | U.S. Route 11 (Upstream)    | 529                                                 |

## PROPOSED RULES

| Source of flooding                    | Location                           | Elevation in feet, national geodetic vertical datum |

#### NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determinations for the Borough of White Oak, Allegheny County, Pa.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the Borough of White Oak, Allegheny County, Pennsylvania.

These base (100-year) flood elevations are the basis for the flood plain management measures that the com-

munity is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESSES: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at the Office of the Borough Secretary, White Oak, Pennsylvania.

Send comments to: Mr. Thomas Entertine, President of the Council of White Oak, 2280 Lincoln Way, White Oak, Pennsylvania 15131.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the Borough of White Oak, Allegheny County, Pennsylvania in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

| Source of flooding | Location                                                                                     | Elevation in feet, national geodetic vertical datum |
|--------------------|----------------------------------------------------------------------------------------------|-----------------------------------------------------|
| Youghiogheny River | Downstream Corporate Limits (River Mile 4.71)                                                | 750                                                 |
|                    | Upstream Corporate Limits (River Mile 5.87)                                                  | 752                                                 |
| Long Run           | Rippel Road (Upstream)                                                                       | 792                                                 |
|                    | Lincolnway Road (Upstream)                                                                   | 819                                                 |
|                    | Confluence of Jacks Run                                                                      | 819                                                 |
|                    | Lincolnway Road (Upstream)                                                                   | 831                                                 |
|                    | Oakview Drive (Upstream)                                                                     | 835                                                 |
|                    | Mystic Hills Road (Upstream)                                                                 | 846                                                 |
|                    | Private Drive (Upstream) located approximately 2,100' upstream of Mystic Hills Road Crossing | 866                                                 |
|                    | Rankin Road (Upstream)                                                                       | 876                                                 |
|                    | Coulterville Road (Upstream)                                                                 | 890                                                 |
|                    | Upstream Corporate Limits                                                                    | 911                                                 |
| Jacks Run          | At confluence with Long Run                                                                  | 819                                                 |
|                    | Splash Dam (Upstream) located 500' above mouth                                               | 825                                                 |
|                    | Splash Dam (Upstream) located 1,225' above mouth                                             | 830                                                 |
|                    | Private Drive (Upstream) located approximately 3,075' above mouth                            | 844                                                 |
|                    |                                                                                              |                                                     |

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Development Amendments of 1978, P.L. 95-557, 92 Stat. 2080, this proposed rule has been granted waiver of Congressional review requirements in order to permit publication at this time for public comment.

Issued October 25, 1978.

#### NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determinations for the City of Greer, Greenville County, S.C.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the pro-

posed base (100-year) flood elevations listed below for selected locations in the City of Greer, Greenville County, South Carolina. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESSES: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at City Hall, 106 South Main Street, Greer, South Carolina 29651.

Send comments to: Mayor W. Barnett, City Hall, 106 South Main Street, Greer, South Carolina 29651.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION:

The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the City of Greer, Greenville County, South Carolina, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

## PROPOSED RULES

| Source of flooding | Location                            | Elevation in feet, national geodetic vertical datum |
|--------------------|-------------------------------------|-----------------------------------------------------|
| Maple Creek        | Just downstream of Bushy Creek Road | 911                                                 |
|                    | Just downstream of Polar Drive      | 881                                                 |
|                    | Just upstream of Harvey Road        | 872                                                 |

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001-4128); and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Development Amendments of 1978, P.L. 95-557, 92 Stat. 2080, this proposed rule has been granted waiver of Congressional review requirements in order to permit publication at this time for public comment.

Issued October 25, 1978.

#### NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determinations for the City of Waller, Waller County, Tex.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the City of Waller, Waller County, Texas. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESSES: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at The Waller City Hall, Waller, Texas. Send comments to: Honorable Danny Marburger, Mayor of Waller, Waller City

Hall, P.O. Box 238, Waller, Texas 77484.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION:

The Federal Insurance Administrator gives notice of the proposed determinations of base (100-year) flood elevations for the City of Waller, Waller County, Texas in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by § 1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

| Source of flooding                          | Location                             | Elevation in feet, national geodetic vertical datum |
|---------------------------------------------|--------------------------------------|-----------------------------------------------------|
| Tributary No. 1 at Mile 6.18 of Mound Creek | Downstream Corporate Limits          | 235                                                 |
|                                             | Washington Street (Upstream)         | 242                                                 |
|                                             | Southern Pacific Railroad (Upstream) | 247                                                 |
|                                             | Taylor Street (Upstream)             | 247                                                 |
|                                             | Field Store Road (Upstream)          | 251                                                 |
|                                             | Dam (Downstream)                     | 251                                                 |
|                                             | Dam (Upstream)                       | 253                                                 |
|                                             | Upstream Corporate Limits            | 264                                                 |
|                                             | Washington Street (Upstream)         | 240                                                 |
|                                             | Southern Pacific Railroad (Upstream) | 242                                                 |
| Tributary No. 2 at Mile 9.39 of Mound Creek | Waller Street (Upstream)             | 243                                                 |
|                                             | Daugherty Street (Upstream)          | 246                                                 |
|                                             | Extended (Upstream)                  |                                                     |
|                                             | Mayer Road (Upstream)                | 254                                                 |

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; 42 U.S.C. 4001-4128; and Secretary's delegation of authority to Federal Insurance Administrator, 43 FR 7719.)

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Development Amendments of 1978, P.L. 95-557, 92 Stat. 2080, this proposed rule has been granted waiver of Congressional review requirements in order to permit publication at this time for public comment.

Issued October 25, 1978.

#### NATIONAL FLOOD INSURANCE PROGRAM

Proposed Flood Elevation Determination for the Town of Vader, Lewis County, Wash.

AGENCY: Federal Insurance Administration, HUD.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the Town of Vader, Lewis County, Washington. These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The period for comment will be ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in the above-named community.

ADDRESSES: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base (100-year) flood elevations are available for review at Town Hall, Vader, Washington. Send comments to: Honorable Frank Zelsnack, Mayor, Town of Vader, P.O. Box 178, Vader, Washington 98593.

FOR FURTHER INFORMATION CONTACT:

Mr. Richard Krimm, Assistant Administrator, Office of Flood Insurance, Room 5270, 451 Seventh Street SW., Washington, D.C. 20410, 202-755-5581 or toll-free line 800-424-8872.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator

gives notice of the proposed determinations of base (100-year) flood elevations for the Town of Vader, Washington, in accordance with section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 24 CFR 1917.4(a).

These elevations, together with the flood plain management measures required by §1910.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed base (100-year) flood elevations for selected locations are:

| Source of flooding | Location                                           | Elevation in feet, national geodetic vertical datum |
|--------------------|----------------------------------------------------|-----------------------------------------------------|
| Olequa Creek.....  | Northern Pacific Railroad Bridge—50 feet*          | 104                                                 |

#### [4310-31-M]

#### DEPARTMENT OF THE INTERIOR

Geological Survey

[30 CFR Part 250]

#### OPERATIONS IN THE OUTER CONTINENTAL SHELF

AGENCY: Department of the Interior, U.S. Geological Survey.

ACTION: Advance notice of proposed rulemaking.

SUMMARY: This advance notice of proposed rulemaking is being issued to invite public participation in the identification and selection of a course of action, or alternate courses of action, for the control of air emissions on the Outer Continental Shelf (OCS) that significantly affect the air quality of any State. The amendments to the Outer Continental Shelf Lands Act, Pub. L. 95-372, require the Secretary of the Interior to prescribe regulations for the control of certain air pollution sources on the OCS. After consideration of available data and comments received in response to this notice, a notice of proposed rulemaking will be issued.

DATE: Comments must be received on or before January 31, 1979.

ADDRESS: Comments should be forwarded to Chief, Conservation Division, U.S. Geological Survey, National Center, Mail Stop 600, Reston, Virginia 22092.

FOR FURTHER INFORMATION CONTACT:

Theresa Hooks, Office of the Solicitor, Department of the Interior, Washington, D.C. 20240. (202-343-4325).

AUTHORS: E. P. Danenberger, U.S. Geological Survey, U.S. Department of the Interior; Theresa Hooks, Office of the Solicitor, U.S. Department of the Interior; R. A. Karam, Office of OCS Program Coordination, Office of the Assistant Secretary—Policy, Budget and Administration; and Thomas McCloskey, Office of the Assistant Secretary—Energy and Minerals.

SUPPLEMENTARY INFORMATION: The Outer Continental Shelf Lands Act Amendments of 1978, Pub. L. 95-372, enacted on September 18, 1978, provide that the Secretary of the Interior shall prescribe regulations with provisions "for compliance with the national ambient air quality standards pursuant to the Clean Air Act (42 U.S.C. 7401 et seq.), to the extent that activities authorized under this Act significantly affect the air quality of any State" (section 5(a)(8), 43 U.S.C. 1334). The Joint Explanatory Statement of the Committee of Conference, Report No. 95-1474, 95th Congress 2nd

Session, describes the congressional intent in enacting this provision.

The Statement indicates that Congress intended for the Secretary of the Interior to establish a regulatory scheme to ensure that the attainment or maintenance of the ambient air quality standards of an area is not jeopardized by air emissions from operations occurring on the OCS. The Report states: "The standard of applicability the conferees intended the Secretary to incorporate in such regulations is that when a determination is made that offshore operations may have or are having a significant effect on the air quality of an adjacent on-shore area, and may prevent or are preventing the attainment or maintenance of the ambient air quality standards of such area, regulations are to be promulgated to assure that offshore operations conducted pursuant to this act do not prevent the attainment or maintenance of those standards." The Conferees expressly stated that the Secretary of the Interior shall be guided by the Clean Air Act, in consultation with the Environmental Protection Agency, in promulgating regulations to maintain consistency with ambient air quality standards.

The Department intends that operations and activities on the OCS will not be approved if they prevent any State from achieving and maintaining national ambient air quality standards. In implementing a regulatory scheme for air quality control, the Department intends to require lessees to include in their exploration and development and production plans specific information concerning emissions and their effects on coastal areas. It is intended that all proposed activities will be subject to compliance with the requirements of the statute. However, detailed information may not be necessary for certain types of operations and for operations in some parts of the OCS. The Department intends to devise methods by which existing operations can be brought into the regulatory scheme, and the Department intends to continue to work closely and cooperatively with State and local officials in the area of air quality control.

Although the Department intends to control emissions that would prevent the attainment of national ambient air quality standards in a State, or cause non-attainment where the standards are being met, it is unclear whether standards designed to prevent significant deterioration should also be applied and, if so, which standards, State or Federal, should be used. Similarly, whether or not the Environmental Protection Agency's current offset policy should be adopted, in whole or in part, requires further examination. Finally, the phrase "significantly affect" must be analyzed and defined.

REQUEST FOR COMMENT: Any relevant comment on this statutory provision will be reviewed and taken into account in the formulation of proposed rules. Information submitted should be as specific as possible as to the OCS activity of concern and the type of emissions discussed. Comments from interested parties are specifically requested in the following areas:

1. Proposed activities will be subject to review by the Department to assure compliance with air quality regulations. At the time of submission of plans for exploration or for development and production, the lessee will be asked to submit information on projected emissions and the estimated effects of these emissions on any State.

a) What methods for determining projected emissions and estimated effects should be used for OCS sources?

b) Should information be required on projected emission levels both with and without the application of technologies specifically designed to abate emissions?

c) Should specific abatement technologies be prescribed by the Department of the Interior? Should information about projected emissions using these technologies be required of lessees?

d) Are there OCS areas for which a general finding of lack of significant effect can be made so that detailed submissions by individual lessees are unnecessary?

e) Should sources of emissions which are on the OCS for limited periods of time, such as drilling vessels, be controlled? If so, what length of time should be used?

2. The Department intends to control any activity that would impair a State's ability to attain the national ambient air quality standards or would cause non-attainment where these standards are being met. Both the OCS Lands Act, as amended, and the Clean Air Act, as amended, are oriented toward the attainment of national ambient air quality standards. On the other hand, the legislative history of the OCS Lands Act Amendments of 1978 indicates that State standards for ambient air quality require Federal agencies' consideration. For instance, the Statement of the Conference Committee provides: "The conferees agreed that if an approved State implementation plan has ambient air quality standards which are more stringent than the national ambient air quality standards, the Secretary of the Interior shall, with appropriate regulations, assure that offshore operations conducted pursuant to this act do not prevent the attainment of those State standards, if the air quality of that State is significantly affected by such offshore operations."

a) In establishing specific controls of emissions that affect the air quality of any State, what consideration should be given to State ambient air quality standards that are more stringent than the national standards?

b) In view of the express language of section 5(a)(8) of the OCS Lands Act, as amended, can State standards be used when "compliance with the national ambient air quality standards" is expressly directed by the statute?

3. The statute requires that the Department control, by regulation, the emissions on the OCS that "significantly affect" the air quality of any State. The Department is considering defining "significantly affect" in terms of additions of pollutants, in amounts to be determined, to an area which is in non-attainment of the national ambient air quality standards or would become a non-attainment area due to the projected emissions. It will be necessary to determine the amount and types of pollutants for which it is reasonable and practical to require controls.

a) What amounts of specific pollutants would constitute a "significant effect" when added to an area which is in non-attainment status?

b) How should precursors of photochemical oxidants be controlled? How should the relationship between the precursors and photochemical oxidants be determined?

c) In determining "significant effect", should the Department use the quantitative approach applied by EPA in its prevention of significant deterioration standards?

d) Are there other methods the Department should consider to determine "significantly affects"?

4. Because of the language of the OCS Lands Act Amendments calling for regulations "for compliance with the national ambient air quality standards", the Department is considering limiting its control of OCS emissions to: (1) instances where onshore areas in non-attainment of national standards are subject to further degradation of air quality; and (2) instances where attainment areas would become non-attainment areas if impacted by the projected emissions from OCS operations. Another option is to regulate all emissions impacting onshore areas, whether the area is in attainment or non-attainment, so that not only are national ambient standards attained but air quality which is cleaner than that required by the national ambient standards is also protected.

a) Which option should the Department adopt?

b) If the Department determines that its regulations should prohibit OCS operations from contributing to the significant deterioration of air quality which is cleaner than the na-

tional ambient standards, should EPA's standards for preventing significant deterioration (PSD) be employed? Should the Department adopt more stringent State PSD standards?

5. In certain instances, the Environment Protection Agency regulates air quality in non-attainment areas by requiring that, by the time the proposed source of emissions is to commence operations, the total emissions from existing sources and from the proposed source must be sufficiently less than the total allowable emissions under the State Implementation Plan so as to represent reasonable progress toward attainment of national ambient air quality standards. If they are not, the new source must meet EPA's offset requirements. Other requirements imposed by EPA in non-attainment areas include: that a major new source, or major modification, will meet the lowest achievable emission rate for the particular type of source; that all existing sources owned by the applicant located in the air quality control region are in compliance with all requirements of the State Implementation Plan; and, that emission offsets will provide a positive net air quality benefit in the affected area.

a) As part of his authority to regulate OCS emissions which significantly affect non-attainment areas, should the Secretary require the lessees to enter into legally binding commitments to offset their emissions even though onshore offsets would be necessary?

b) Should all of EPA's conditions for new sources or major modifications to existing sources in non-attainment areas be applied to OCS operations?

c) If the EPA conditions are adopted by Interior, should they be modified for purposes of OCS operations? How?

6. Existing sources of pollutants on the OCS may require special consideration. To what extent should control of emissions from existing facilities be required when such control would require major modification of the facility?

7. The Department intends to continue close and cooperative associations with State and local governments.

a) How should the Department interact with local air pollution control districts? Directly? Through State agencies?

b) What procedures and mechanisms should be used to help assure State and local participation in air quality matters?

c) What should the State role be in enforcement?

This advance notice of proposed rulemaking is based on the authority of section 5 of the Outer Continental Shelf Lands Act, as amended (43 U.S.C. 1334).

Dated: December 22, 1978.

JOAN M. DAVENPORT,  
Assistant Secretary  
of the Interior.

[CGD17-78-1R2]

## PORT VALDEZ, VALDEZ, ALASKA

Proposed Establishment of a Safety Zone

AGENCY: Coast Guard, DOT.

ACTION: Proposed rule.

SUMMARY: The Commander, Seventeenth Coast Guard District is considering changing the security zone and safety zone regulations in order to convert the existing security zone in Port Valdez, Valdez, Alaska into a safety zone. This proposal is being made because it is believed that a safety zone is a more appropriate means of protecting the marine environment and vessels within Port Valdez.

DATE: Comments must be received on or before January 15, 1979.

ADDRESS: Comments should be submitted to, and are available for examination at, the office of the Commander (m), Seventeenth Coast Guard District, P.O.B. 3-5000, Federal Building, Juneau, Alaska 99802.

FOR FURTHER INFORMATION CONTACT:

LCDR F. N. HARRELL, Chief, Port Safety Branch (mps), Seventeenth Coast Guard District, P.O.B. 3-5000, Juneau, Alaska 99802, 907-586-7195.

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in the proposed rule making by submitting written data, views, comments or arguments. Each person submitting a comment should identify his name and address, identify the Notice (CGD17-78-1R2), and give reasons for any recommendations. Comments received before January 15, 1979 will be considered before final action is taken on this proposal. The proposal may be changed in light of the comments received.

DRAFTING INFORMATION: The principal person involved in drafting this proposal is LCDR F. N. Harrell, Chief, Port Safety Branch, Marine Safety Division, Seventeenth Coast Guard District.

## DISCUSSION OF THE PROPOSED REGULATION CHANGE

Section 127.1701 presently designates a security zone that includes an area within 200 yards of any waterfront facility at the Alyeska Marine Terminal complex and an area within 200 yards of any tank vessel maneuvering to approach, moor, unmoor, or depart the Alyeska Marine Terminal complex. This security zone was established to protect the marine environment around the Alyeska Marine Terminal as well as vessels operating in that area. The only enforcement provision for violations of a security zone is criminal prosecution. Based on experience obtained since the creation of the security zone around the Alyeska Marine Terminal complex, it has been determined that this area should be converted to a safety zone so that any violations of the zone would result in the more appropriate civil penalty rather than in criminal prosecution. As provided in the General Safety Zone Regulations (33 CFR 155.20) no person or vessel may enter a safety zone unless authorized by the Captain of the Port or the District Commander.

In consideration of the foregoing, it is proposed to amend 33 CFR Chapter I, as follows:

### PART 127—SECURITY ZONE

1. By deleting § 127.1701.

### PART 165—SAFETY ZONE

2. By adding § 165.1701 to read as follows:

§ 165.1701 Port Valdez, Valdez, Alaska

The waters within the following boundaries are a safety zone: The area within 200 yards of any waterfront facility at the Alyeska Marine Terminal complex and the area within 200 yards of any tank vessel maneuvering to approach, moor, unmoor or depart the Alyeska Marine Terminal complex.

(92 STAT. 1471 (33 USC 1225); 49 CFR 1.46(n)(4))

Dated: December 7, 1978.

ROBERT A. DUIN,  
Rear Admiral, U.S. Coast  
Guard, Commander, Seven-  
teenth Coast Guard District.

## POSTAL SERVICE

[39 CFR Parts 310 and 320]

### RESTRICTIONS ON PRIVATE CARRIAGE OF LETTERS

Proposed Revisions in Comprehensive Standards for Permissible Private Carriage of Letters

AGENCY: Postal Service.

ACTION: Proposed rulemaking.

SUMMARY: After more than four years' experience under existing regulations implementing the postal monopoly laws, certain changes are proposed in the regulations. Some of the changes are proposed to clarify the existing regulations and to reflect results that have been reached in advisory opinions rendered under existing regulations. A few changes alter the results reached in advisory opinions under the existing regulations. New suspensions of the monopoly provisions are proposed for certain letters of college- or university-related organizations being carried by campus mail systems, certain letters relating to cargo shipped internationally by ocean carriers, and certain advertisements enclosed with parcels containing merchandise.

The explanation of the proposed changes set out below under "Supplementary Information" is lengthy because of a desire to be complete. Many changes are proposed. A careful reading is urged so that points of interest to particular persons will not be overlooked. Highlights of the proposed changes are as follows:

1. A new suspension for advertisements, accompanying parcels of merchandise, of goods offered for sale by the shipper of the merchandise or manufactured by the manufacturer of the goods shipped.

2. A new suspension for documents relating to cargo shipped on international ocean-going vessels.

3. A new suspension for letters of bona fide student or faculty organizations that are carried by college or university internal mail systems.

4. Clarification of the definition of the term "letter" to leave no doubt that items not marked with addresses are nevertheless subject to the postal monopoly if delivered in accordance with "selective delivery plans".

5. A definition of the term "telegram" to make clear that this exclusion is restricted to telegrams and does not reach other types of "hard copy" messages involving electronic transmissions.

6. Clarification of the exclusion for "commercially supplied letters" to make clear that this exclusion does not cover letters that contain the messages of the supplier. This change

would mean, for example, that the postal monopoly prohibitions apply when identical letters in whatever quantity are sent to a given address for reading by people working or living there.

7. A change in the suspension for certain data processing materials to resolve an ambiguity in the present suspension by including the punching of cards within the scope of "data processing" for purposes of the suspension.

Because of the length and complexity of the proposed rules, it is possible that a "second round" of proposed rules will be published after comments are received following this publication. It may also be desirable to act finally on certain of the proposed changes before acting finally on others. Finally, it could be useful to hold hearings in Washington, D.C., and in other places in the country to elicit public views and to answer questions about the proposal. Persons believing that hearings should be held are encouraged to make their views known at the address or telephone number listed below.

DATE: Comments must be received on or before (45 days), 1979.

ADDRESS: Written comments should be addressed to: Jerry Belenker, Law Department, U. S. Postal Service, 475 L'Enfant Plaza West, SW., Washington, D.C. 20260. Copies of all written comments received will be available for public inspection and photocopying between 9 A.M. and 4 P.M., outside room 9120, 475 L'Enfant Plaza West, SW., Washington, D.C. 20260.

FOR FURTHER INFORMATION CONTACT:

Jerry Belenker, Law Department, U. S. Postal Service, 475 L'Enfant Plaza West, SW., Washington, D.C. 20260; (202) 245-4616.

SUPPLEMENTARY INFORMATION: On September 16, 1974, the Postal Service published final regulations as Parts 310 and 320 of Title 39, Code of Federal Regulations, relating to the restrictions on the private carriage of letters, to become effective on October 20, 1974. 39 FR 33,209-13. Relatively minor revisions to the regulations were published in the FEDERAL REGISTER on October 8, 1974, and May 29, 1975. 39 FR 36,114; 40 FR 23,295. The Postal Service now proposes additional changes in its regulations.

In publishing on July 2, 1973, the original Notice of Proposed Rulemaking that preceded the adoption of final regulations in September 1974, the Postal Service articulated an intention to adopt a definition of "letter" "based on a traditional and objective standard: a message sent to a specific address." 38 FR 17 513. The definition of letter included in the final regula-

tions—"a message directed to a specific person or address and recorded in or on a tangible object . . .", § 310.1(a)—appears to have served well, and the definition has been approved judicially. *Associated Third Class Mail Users v. United States Postal Service*, 440 F. Supp. 1211 (D. D.C. 1977), appeal pending, United States Court of Appeals for the District of Columbia Circuit, No. 78-1065. It appears, however, that the definition can be improved in minor respects and that other improvements in the regulations can and ought to be proposed at this time. In addition, operation under the regulations suggests that certain additional administrative suspensions of the prohibitions on the private carriage of letters may be in the public interest and ought to be proposed at this time.

The changes now proposed are intended, in substantial part, to clarify the regulations published in September 1974. They reflect the more than four years of experience under the regulations in which the regulations have been found to be workable and generally understandable, but in which a few difficult areas of interpretation have emerged. Good administrative practice suggests that improvements be proposed to the regulations based on the experience with them to date. Certain of the proposed changes involve materials that seem most appropriately to fall outside of the postal monopoly, while other changes involve materials that seem to fall within the monopoly. In addition to clarifying changes, we propose to suspend the monopoly prohibitions for three new categories of materials. These proposed suspensions are discussed towards the end of the preamble.

### THE REQUIREMENT THAT LETTERS BE ADDRESSED

An essential aspect of the definition of "letter" under the Private Express Statutes is that it be addressed, and the "directed to" language included in § 310.1(a) was intended to cover this aspect. Some ambiguity under the regulation may exist, however, in cases where the message is addressed to one party but arguably is "directed to" another. For example, business messages intended for reading by one or more individuals at a firm may be addressed to the firm not by the name or names of the intended readers but by the name of another individual who may, for example, be known to be one who distributes letters to others; by the title of an official other than the individual who is intended to read the messages; or by the firm name. Arguably, such messages are not "directed to a specific person or address" under the regulations, despite the specific addressing of the envelope containing

them. It seems clear, however, that letters and packets of letters of this kind should be considered to be covered by the prohibitions contained in the Private Express Statutes.

Postal Service advisory opinions, issued in accordance with § 310.6, have concluded that letters or packets of letters of the kind described above fall within the "directed to" requirement of the existing regulations. Proposed revised § 310.1(a)—by defining letters as addressed messages rather than as messages directed to a particular person or place—is intended to meet the addressing requirement head on in a way that eliminates the ambiguities arguably present in the prior use of the term "directed to". It also avoids seeming to attempt to ascertain the sender's intent and is consistent with the general goal of setting forth objective criteria to guide the public.

Proposed § 310.1(a)(3) defines address objectively: marking an item for selective delivery or delivering an item in accordance with a selective delivery plan. The latter recognizes that letters not marked with addresses may nevertheless be addressed, for example, by marking the intended person or place of delivery on a list or on labels or cards held separately from the piece actually delivered, by delivering the pieces in accordance with a memorized list of addresses, or by piggy-backed delivery schemes in which letters are delivered along with such things as addressed parcels or magazines. Such methods of achieving selective delivery ought not to remove the messages transmitted from the reach of the postal monopoly.

The proposed definition of addressing as it bears on the selective delivery of material not marked with an address is consistent with the focus in existing § 310.1(a)(3) on persons to whom or addresses to which messages are directed, a point that serves to underscore the clarifying nature of the proposed change. As before, substantially random unaddressed delivery methods—such as handing out messages not marked with addresses to passersby on street corners, or delivering such messages throughout an area—do not fall within the prohibitions of the Private Express Statutes. A sentence is proposed to make this intent clear.

#### CERTAIN TANGIBLE OBJECTS NOT LETTERS

A new second sentence is proposed for § 310.1(a)(1) to make clear that all tangible objects upon which messages appear do not constitute letters. While no person has, during the more than four-year period that the Postal Service's regulations have been in effect, indicated he has been misled by the terms of existing § 310.1(a)(1) into be-

lieving that such things as out-sized, odd-shaped, or extremely valuable objects are letters, it has occasionally been asserted that the regulations are overly broad because they theoretically might reach such objects if there is writing upon them. While the regulations were intended to reach as broadly as required to cover tangible business and personal correspondence of all types, we did not and do not consider that such things as tombstones, T-shirts, automobile tires, coffee mugs, jewelry, or other items occasionally cited to us, as these objects are commonly used and shipped, constitute letters, even though some writing may appear upon them. The proposed new sentence is intended to make this intention clear.

The present text of § 310.1(a)(6) would be amended to conform to proposed changes discussed above. A new second sentence, in parentheses, would be added as a clarifying cross-reference.

#### EXCLUSION OF "TELEGRAMS"

Existing § 310.1(a)(7)(i) contains the exclusion for telegrams. This exclusion is based on historical considerations, not on the language of the Private Express Statutes. The proposals preceding the existing regulations would have excluded telegrams as follows: "The specific form of letter known as a telegram is implicitly exempted from the restrictions by Congress." (The words "of the Private Express Statutes" were added after the word "restrictions" in the second Notice of Proposed Rulemaking.) 38 FR 17514 (July 2, 1973); 39 FR 3971 (Jan. 31, 1974). In the final regulations, the exclusion was shortened to simply the word "Telegrams".

The preamble to the final regulations stated:

*Electronic message transmission.* The comments reflected some continuing misunderstanding over whether the Private Express Statutes reach the transmission of messages through the air, by wire, or by other means not involving the carriage of tangible objects. In our view, they do not. However, the carriage of a tangible object used as the basis of an intangible transmission or produced thereby—such as a written copy of a message sent by wire between two places—would be subject to the Statutes. . . . 39 FR 33210 (Sept. 16, 1974).

Read in light of the simultaneous exclusion for telegrams, this statement means that while telegrams are excluded, "hard copies" of electronic messages generally are not excluded.

Recently, questions have arisen as to the meaning of the term "telegrams" as used in the regulations. The language used in the prior Notices of Proposed Rulemaking and the preambulatory material accompanying the final regulations point to the conclusion that the term was intended to be limit-

ed in scope. The clarifying change proposed here would define the term by limiting it to telegrams as commonly sent in the past by members of the public. Such a limitation seems consistent with an exclusion that is based on implications surrounding the growth of a public telegram service during the late nineteenth and early twentieth centuries that is different from other types of electronic message services that have developed recently.

#### LIEN, RELEASES, ORDERS OF QUASI-JUDICIAL BODIES

Section 310.1(a)(7)(iii) would be amended to list liens in general, releases, and orders of quasi-judicial bodies among the legal documents excluded from the coverage of the Private Express Statutes. This change in part conforms to results reached in advisory opinions under the existing regulations, and it rounds out the language of the existing provision by including certain additional documents that are similar to those already listed.

#### BOOKS AND CATALOGS

Section 310.1(a)(7)(v) now excludes "books and catalogs consisting of 24 or more bound pages with at least 22 printed, and telephone directories". In applying this exclusion, questions have arisen about whether bound items that contain the prescribed number of pages that consist, in turn, of largely unrelated parts that individually do not contain the prescribed number of pages qualify under the exclusion. Questions have also arisen about whether specialized documents of limited distribution qualify under the exclusion. Proposed expanded language in this exclusion is intended to focus attention on some of the relevant factors to evaluate in determining whether the exclusion should apply to a particular item. The proposed guideline that would generally look to the distribution of copies of a document to 25 or more separate persons as one factor indicating that the document is a book or a catalog would be somewhat more restrictive than a 15-copy guideline developed in advisory opinions under the existing regulations.

#### TAGS, LABELS, STICKERS, SIGNS AND POSTERS

Proposed new § 310.1(a)(7)(vi) (current § 310.1(a)(7)(vi)) would be covered by proposed § 310.1(a)(7)(viii) in part would confirm results reached in advisory opinions under existing regulations that such things as address labels and bumper stickers are not letters subject to the postal monopoly prohibitions. The intent of the proposed exclusion is to provide a general rule for dealing with the matter of messages for attachment to or posting

on other tangible objects. The mere fact that a letter is sent for attachment or posting would not, however, be grounds for excluding the letter from the postal monopoly prohibitions. Objective considerations of type size, layout, and physical characteristics would have to indicate that the object was primarily intended for attachment or posting before the exclusion would be available.

#### LETTERS SENT TO STORAGE OR DESTRUCTION OR AS PART OF A RELOCATION

Section 310.1(a)(7)(vii) would be amended to eliminate the requirement that packets of letters sent to or from storage or to destruction or as part of a business or household relocation must be sent in bulk to qualify for the exclusion. Since letters sent for these purposes in whatever bulk are clearly not sent as communications, it seems appropriate to eliminate the bulk requirement. Other clarifying language is added, including language to make clear that this exclusion covers materials sent for storage or destruction only if they are sent exclusively for this purpose.

#### COMMERCIALLY SUPPLIED LETTERS

Proposed § 310.1(a)(7)(viii) would contain the substance of what is now § 310.1(a)(7)(vi), the exclusion for identical letters supplied by one person for another's use, expanded to cover supplied printed matter generally. The revisions in this provision are intended to make clear that the exclusion covers only messages that are the messages of the person supplied. It would do this by including an additional example of the kind of supplier we have in mind—a "Stationer"—and by specifying that the suppliers be commercial. It would also add a sentence underscoring the point that the provision does not cover messages which contain the messages of the supplier or of anyone else than the person supplied. A firm producing and supplying its own messages seems to stand on a different footing for purposes of a postal monopoly reaching "letters" from a firm merely producing and supplying the messages to someone else, and the clarification is intended to reflect this distinction.

The requirement in the present regulation that the messages be supplied in bulk would be eliminated. Since letters of this kind in whatever bulk are not sent as communications, it seems appropriate to eliminate the bulk requirement.

In *Wall Disney Music Company, Inc. v. United States Postal Service*, Civ. No. 76-2391-IH (C.D. Cal. Nov. 18, 1976) (unreported), the Court concluded that existing § 310.1(a)(7)(vi) excludes shipments of five or more copies of Disney materials to be dis-

tributed through its Magic Kingdom Clubs to employees at various firms. The Court left open the possibility that this result could be changed through subsequent rulemaking. The rules proposed here would bring about this change.

#### PHOTOGRAPHIC MATERIALS

Proposed new § 310.1(a)(7)(ix) would exclude photographic material sent to a processor and processed photographic material returned from a processor. Many photographic materials would not in any event constitute letters since they do not contain messages within the meaning of § 310.1(a)(2), (4), but certain photographic materials—such as microfilm or microfiche—may, in our view, be letters within the meaning of the Private Express Statutes. Since such letters so commonly require mechanical or chemical processing away from the premises of the person whose letters they are, by processors who have no interest in and do no work with the messages contained in the letters, the new exclusion for transmission to and from the place where such processing is performed is proposed. This exclusion would accord with results reached under advisory opinions rendered under the existing regulations.

#### MATERIALS SENT BETWEEN PUBLISHERS AND PRINTERS

New § 310.1(a)(7)(x) would exclude copy, proofs and printed matter passing between publishers and printers. The existing regulations do not generally exclude these materials.

The principal theory behind the proposed new exclusion is similar to that undergirding the proposed exclusion, described above, for certain transmissions of photographic materials, namely that printers are disinterested in the substance of the messages contained in copy, proofs, and printed matter transmitted to and from them. The frequent bulkiness of the materials transmitted is an additional factor supporting this proposed exclusion. In proposing this new exclusion we stress that its application—like the application of all exclusions in § 310.1(a)(7)—is limited by its terms. The proposed rules would not, for example, exclude all messages passing to or from people having little interest in their substance, nor do we intend generally to revive the "live, current information test" sometimes applied prior to the adoption of the current regulations. See 38 FR 17513 (July 2, 1973). On the other hand, if there are other types of messages passing between other types of persons for the exclusion of which as many equally strong arguments can be made as can be made for this proposed exclusion, we would hope to hear about them during this rulemak-

ing, and we will carefully consider adopting additional exclusions if we do hear about them.

#### SOUND RECORDINGS, FILMS, AND PRINTED MESSAGES FOR PUBLIC DISTRIBUTION

Proposed new § 310.1(a)(7)(xi) covers situations in which one person sends messages to another person for dissemination to the public. Examples of messages falling under this exclusion are those involved in a request the Postal Service received for an advisory opinion on the status of blank fishing license forms sent from a state licensing office to issuers of licenses in various county offices. The proposed exclusion will provide a firmer basis for excluding these blank forms from the ambit of the postal monopoly than the grounds relied on in the advisory opinion, namely that blank forms are not letters, and that forms of this kind might fall within the exclusion provided in existing § 310.1(a)(7)(vi).

A blank form appears to fall within the letter definition insofar as it contains a message ("any information or intelligence that can be recorded . . .") on a tangible object. § 310.1(a)(2). Moreover, as we have suggested above, present § 310.1(a)(7)(vi) (proposed § 310.1(a)(7)(viii)) was not intended to reach messages such as blank license forms that are the messages of the supplier. (Blank forms supplied, for example, by a stationer that are used by a person supplied for his own purposes would, of course, fall within proposed § 310.1(a)(7)(viii).) The distinction drawn in the new exclusion is between messages sent for dissemination to people all of whom reside in a particular household or are associated with a particular organization at the place of address, or who are all reasonably identifiable to the sender, on the one hand, and messages sent for further dissemination, on the other. The proposal would provide no exclusion for shipments of the former type because of the close ties between the person or place of address and the intended readership or audience of the messages sent.

#### "PACKET"

Revised § 310.1(b) would specify that the term "packet" includes groups of identical as well as different letters and that a "packet" can consist of several packets of letters under one cover or otherwise bound together. Both changes are clarifications and are consistent with advisory opinions rendered under the existing regulations. The second clarification confirms the advisory opinion that the opening or creating of a "packet of packets" makes the exception in § 310.3(e) for carriage prior or subsequent to mailing inapplicable to carriage prior to the

creating, or subsequent to the opening, of the "packet of packets".

#### "PERSON"

A revision is proposed to § 310.1(c) to add "organization" to the definition of the term "person" as used in the regulations. The term "person" was intended to be broadly inclusive, and the proposed addition of the word "organization" is consistent with this purpose.

#### EXCEPTIONS

Proposed § 310.3(a), the exception for letters accompanying cargo, contains a change that would make clear that letters relating to the transaction involved in ordering, shipping, or delivering the cargo fall within the exception. This specifically covers a result that was reached by interpretation in advisory opinions rendered under the existing regulations. In addition, the proposal would eliminate the existing requirement that the letters must "relate exclusively" to some part of the cargo, replacing it with the requirement that the letters "relate in all substantial respects". This also is intended to conform the language of the regulation more closely to results reached in advisory opinions under the current regulations.

The proposed revisions in § 310.3(b)—the exception relating to letters of the carrier—are intended to clarify the meaning of this exception as it applies to letters of firms.

Revised § 310.3(c) would define compensation for purposes of the exception for carriage by "private hands without compensation" to make clear that it includes carriage for money, non-monetary valuable consideration, and good will, for example, when a business relationship exists or is sought between the carrier and its user. The proposal reflects results reached in advisory opinions rendered under the existing regulations.

Revised § 310.3(e)(1) would clarify the intent that the exception for "carriage prior or subsequent to mailing" not be available for private carriage occurring after letters are opened or read, or for the private carriage of unopened individual letters before or after their transmission by mail in a consolidated form.

#### PAYMENT OF POSTAGE ON VIOLATION

Section 310.5(b) would be amended to make clear that the appeal to the Judicial Officer Department is limited to determining whether the method used to compute the postage owed is correct and does not include a redetermination of whether letters are being carried in violation of the Private Express Statutes.

#### ADVISORY OPINIONS

Section 310.6 would be amended to provide that advisory opinions can be obtained by writing to the Postal Service's Law Department rather than to its Opinions Division. The purpose of the change is to make clear that the Law Department may assign the work of writing advisory opinions to attorneys who do not work in the Opinions Division. The reference in the second sentence of this section to "final opinions" would be eliminated, and the sentence on the publishing of opinions would be rewritten to conform to existing practice.

#### SUSPENSIONS

We propose to rewrite Part 320 to alter the existing suspension for certain data processing materials and to add three new suspensions. Sections 320.1-320.3 would deal with general matters applicable to each of the suspensions in proposed Part 320. Section 320.3 would state the rule, consistent with existing § 320.2(d), that the suspensions may be revoked in the future and would restate the rule that existing operators under the data processing suspension would have some "grandfather rights" if that particular suspension is revoked.

#### CERTAIN DATA PROCESSING MATERIALS

The bulk of existing §§ 320.2 and 320.3 would be combined, without change, in proposed § 320.4. Proposed § 320.4(b) would revise existing § 320.2(b) in several respects. First, it would reflect the conclusion, reached in advisory opinions, that a transmission to a data processing center may qualify for the suspension even though the return transmission does not qualify, and *vice versa*. It specifies, however, that the validity of the return transmission depends upon the commencement of data processing on the incoming material within 36 hours of its arrival at the processing center. This would alter a result reached in a recent advisory opinion which, we believe, could have gone either way under the wording of the existing provision. Because the suspension is provided to meet a need for speedy transmission, however, it seems appropriate to require that the need for speed be attested to by the objective fact of the processing center's fairly prompt commencement of data processing work.

Proposed § 320.4(b) would also specify that the data processing suspension is not available to offices that neither use internal data processing centers nor are data processing customers of independent processing centers. The suspension was not intended to reach the potential vast range of transmissions of communications that may incidentally involve computer input or

output, such as ordinary bill paying transactions, applications for licenses, etc. This change would also alter a result reached in a recent advisory opinion which seems to be inconsistent with the original purpose of this suspension.

Section 320.4(c) would amend the definition of "data processing" as found in § 320.2(b) to include the recording, by electro-mechanical or electronic means, of data for further processing. The purpose of this proposed change is to reverse the results reached in some advisory opinions that the commencement of key punching does not constitute the commencement of data processing for purposes of the time limits under the suspension. The change seems to be consistent with industry opinion that key punching is part of data processing. The definition of "data processing materials" in the same provision would be amended to eliminate the contradictory reference to "automatic conversion into a form ready for immediate data processing". In addition, the definition of "data processing materials" would add the requirement that such materials must be sent "exclusively for data processing". This would serve to confirm the result reached in advisory opinions that materials sent for substantial independent action prior to possible or likely data processing do not fall under the suspension.

Section 320.4(c) would also amend language found in the last sentence of present § 320.2(b) to change the requirement that data processing materials be produced on "a regular periodic basis" to one that they be produced "recurringly in the course of the normal business operations of the office originating them or receiving them back from the processing center." This language is somewhat more flexible than the prior regulatory standard, though it continues the rule that isolated transmissions are not covered. This change also is in line with the direction taken in advisory opinions under the existing regulations.

A minor change is proposed in § 320.4(d) (existing § 320.3(a)) to make clear that only carriers—not shippers—are required to notify the Private Express Liaison Officer before operating under the suspension.

A clarifying change is proposed in the second sentence of § 320.4(e) (existing § 320.3(b)). A new third sentence proposed in this provision would specify that containers of materials asserted to be carried under the suspension must show who is the sender and who is the addressee of the materials shipped, as an aid to assuring that the operations assertedly under the suspension are conducted in accordance with the requirements of the regula-

tion. Minor changes in the form reproduced in the regulations are proposed to conform to changes being proposed in Part 320.

#### CERTAIN ADVERTISEMENTS IN PARCELS

A new suspension is proposed in § 320.5 to cover certain advertisements enclosed in parcels of merchandise. We have been told that a widespread industry practice exists in which shippers or manufacturers of merchandise place advertisements of other goods they sell or manufacture in parcels that are shipped. In first proposing the present regulations, the Postal Service indicated that where the public interest seemed to support an established practice, the practice would not be disturbed. 38 FR 17513. Our view in proposing this suspension is that the public interest does not require that the practice that presently appears to exist be discontinued.

The suspension we propose is a limited one. It specifically does not extend to advertisements for goods that are neither sold by the shipper nor manufactured by the manufacturer of the goods shipped. We do not believe the public interest requires that shippers or manufacturers be allowed to conduct what amounts to an advertising business outside the mails for other persons by allowing the latter to piggy-back their shipments of cargo by private carriers.

To a similar purpose is the requirement that the goods advertised be in the same general line of products as the cargo shipped. This provision would not be given a narrow reading that defeats the purposes of the proposed suspension. On the other hand, it does not seem appropriate to give shippers or manufacturers—which may be vast enterprises engaging in many lines of business—preferred status under the postal monopoly laws to advertise totally unrelated goods they sell or produce when sending parcels to their customers.

The proposed suspension does not cover shipments when the shipment of the enclosed advertising is other than incidental to the shipment of the merchandise. Thus, for example, when the merchandise is a sample, the advertising enclosed will remain a letter, subject to the Private Express Statutes. Similarly, the proposed suspension specifically covers only advertisements. Other material—such as, for example, product information and order blanks sent to sales personnel for their use and information—are not covered by the suspension.

#### CERTAIN LETTERS OF COLLEGE AND UNIVERSITY ORGANIZATIONS

It appears that a number of colleges and universities have for some time permitted student and faculty organi-

zations to send their intra-campus letters via the college or university internal mail system. As in the case of certain advertisements in parcels, the public interest seems to support action to permit this practice to continue.

College and university communities have special qualities that seem to set them apart from other groups. As much as anything else, this seems to be so because colleges and universities are thought of as "communities" that embrace a variety of organizations rather than as merely the legal or economic entities responsible for providing formal educational services. Thus, while student and faculty organizations are not legally part of the college or university, they often are recognized as performing important functions in the operation of the academic community. In addition, they are often supported in a number of ways by the college or university proper. Given the public service mission of colleges and universities, it seems appropriate to permit those colleges and universities that want to make their internal mail systems available to their student and faculty organizations to do so.

The proposed suspension is limited to the letters of student and faculty organizations sent to campus destinations. It is not intended to cover such things as student letters, faculty letters, letters of outside organizations (such as commercial firms), or letters sent off campus. We expect the colleges and universities to assist in the enforcement of these limitations by permitting access to their internal mail systems only in accordance with the limitations reflected in the suspension. Of course, nothing in the suspension requires any college or university to make its internal mail system available to organizations if it does not want to do so.

#### LETTERS RELATED TO CARGO SHIPPED INTERNATIONALLY BY OCEAN VESSELS

In 1976 the Postal Service and the Customs Service undertook a joint program to examine certain materials entering the country at Boston and San Francisco for possible violations of the Private Express Statutes. One category of items identified by that program as being carried in apparent violation of the Statutes consisted of documents transmitted by air, related to cargo of international ocean-going vessels.

After the joint program was terminated, a group called the National Committee on International Trade Documentation (NCITD), representing a number of major ocean vessel operators, submitted a request that the Postal Service exempt these documents from the prohibitions of the postal monopoly. The NCITD petition

stated that modern-day conditions make it impossible for these documents to accompany the cargo on the ships themselves, since in fact the documents cannot be completed before the ship leaves port. The petition underscored the importance for customs, commercial, operational, and legal reasons of having the documents on hand when the ship arrives at its destination and stated that international mail service simply cannot fill the need for the rapid transmission of these materials.

The arguments of the NCITD appear to have considerable merit, and we respond to them in this Notice of Proposed Rulemaking. A suspension is proposed of the prohibitions on the private carriage of these materials moving internationally to and from ocean vessel ports-of-call. Shipments between United States ports or from or to the interior of the country would not be covered by the proposed suspension. The materials covered are limited to those that would be excepted under the "cargo" exception, § 310.3(a), if they accompanied the cargo. The fact that such materials would be excepted but for peculiar conditions in the shipping industry that make their separate transmission necessary is a factor leading us to propose adoption of this suspension.

#### EFFECT ON PRIOR ADVISORY OPINIONS

Our purpose in adopting comprehensive private express regulations has been to provide understandable general guidance in a single location for the application of the postal monopoly laws. Although questions will undoubtedly continue to arise on how the regulations apply in particular circumstances, we hope that many questions will be answered by the changes proposed here. Accordingly, it is expected that it will not be necessary to rely extensively on the Advisory Opinions rendered in the past under § 310.6 in applying the revised regulations.

To the extent prior advisory opinions deal with matters that would be left unchanged by this proposal, they may, however, provide some continuing guidance on the application of the regulations. To the extent the past opinions deal with matters that change as a result of the current rulemaking, they of course should not be relied upon in the future.

#### PROSPECTIVE EFFECT OF CHANGES

Any changes that may be adopted as a result of this proposal will apply only to transmissions occurring on and after the date they become effective. With regard to transmissions occurring before that time, the Postal Service will take no action to recover postage under § 310.5 or to enforce the Private Express Statutes in court except

in reliance on the Statutes and regulations in effect when the transmission occurred.

#### MATTERS NOT COVERED BY PROPOSED RULES

The public is encouraged to use this rulemaking proceeding to comment on any matter properly the subject of a Postal Service rule in the postal monopoly area, regardless of whether the subject is covered by the proposed rules set out below. Should sufficient public need be shown for additional changes, the rulemaking can be expanded to deal with them. If changes are suggested that tend to permit new types of private carriage of letters, we would appreciate specific suggestions on how to adopt them without unduly risking significant contractions in the scope of the postal monopoly.

#### COMMENTS

In consideration of the foregoing, it is proposed to amend Parts 310 and 320 in Chapter I of Title 39, Code of Federal Regulations, as follows:<sup>1</sup>

Louis A. Cox,  
General Counsel

#### PART 310—ENFORCEMENT OF THE PRIVATE EXPRESS STATUTES

Sec.

- 310.1. Definitions.
- 310.2. Unlawful carriage of letters.
- 310.3. Exceptions.
- 310.4. Responsibility of carriers.
- 310.5. Payment of postage on violation.
- 310.6. Advisory opinions.
- 310.7. Amendment of regulations.

AUTHORITY: 39 U.S.C. 401, 404, 601-606; 18 U.S.C. 1693-1699, 1724.

##### § 310.1 Definitions.

(a) "Letter" is an addressed message recorded in or on a tangible object, subject to the following:

(1) Tangible objects used for letters include, but are not limited to, paper (including paper in sheet or card form), recording disks, and magnetic tapes. Tangible objects used for letters do not include (i) objects the material or shape and design of which make them valuable or useful for purposes other than as media for long-distance communications, unless they are actually used as media for personal and business correspondence, and (ii) oversized, rigid objects not capable of enclosure in envelopes, sacks, boxes or other containers commonly used to transmit letters or packets of letters.

<sup>1</sup>Because of the extensive changes proposed, proposed revised Parts 310 and 320 are set out in their entirety below. The following sections of the existing regulations are not, however, changed, in the proposal: § 310.1(a)(2), (4), (5); (7)(ii), (iv); (d), (e), (f); § 310.2; 310.3(b)(3); (d); (e)(2); § 310.4; § 310.5(a), (c), (d); § 310.7. Other provisions may be changed only in part or in minor respects.

(2) "Message" means any information or intelligence that can be recorded as described in paragraph (a)(4) of this section.

(3) A message is addressed when it, or the container in which it is carried, singly or with other messages, identical or different, is marked for delivery to a specific person or place, or is delivered to a specific person or place in accordance with a selective delivery plan. Selective delivery plans include delivery to particular persons or addresses by use of detached address labels or cards; address lists; memorized groups of addresses; or piggy-backed delivery with addressed articles of merchandise, publications, or other items. Selective delivery plans do not include such distributions as distributions of materials not marked for delivery to specific persons or places to passersby on a particular street corner or to all residents, or to randomly selected residents, of an area.

(4) Methods by which messages are recorded on tangible objects include, but are not limited to, the use of written or printed characters, drawing, holes, or orientations of magnetic particles in a manner having a predetermined significance.

(5) Whether a tangible object bears a message is to be determined on an objective basis without regard to the intended or actual use made of the object sent.

(6) Identical messages addressed to more than one specific person or place or separately addressed to the same specific person or place constitute separate letters. (Identical messages addressed in a single container to a specific person or place constitute a packet of letters. See § 310.1(b).)

(7) The following are not letters within the meaning of these regulations:

(i) Telegrams. "Telegrams" are messages on paper which result from electronic transmissions by carriers which accept the messages at their public offices, or via the public telephone network, in written or oral form and manually enter the messages by alpha or numeric characters into a transmitter for transmission to their public offices in other places.

(ii) Checks, drafts, promissory notes, bonds, other negotiable and non-negotiable financial instruments, stock certificates, other securities, insurance policies, and title policies when shipped to, from, or between financial institutions.

<sup>1</sup>Several of the items enumerated in this paragraph (a)(7) do not self-evidently lie outside of the definition of "letter". To the extent, however, that there is any question whether these items may properly be excluded by definition, the Postal Service has determined by adoption of these regulations that the restrictions of the Private Express Statutes are suspended pursuant to 39 U.S.C. 601(b).

(A) As used above, "checks" and "drafts" include documents intrinsically related to and regularly accompanying the movement of checks or drafts within the banking system. "Checks" do not include materials accompanying the movement of checks to financial institutions from persons who are not financial institutions, or vice versa, except such materials as would qualify under § 310.3(a) if "checks" were treated as cargo. Specifically, for example, "checks" do not include bank statements sent to depositors showing deposits, debits, and account balances.

(B) As used above, "financial institutions" means:

(1) As to checks and drafts: banks, savings banks, savings and loan institutions, credit unions, and their offices, affiliates, and facilities.

(2) As to other instruments: institutions performing functions involving the bulk generation, clearance, and transfer of such instruments.

(iii) Abstracts of title, mortgages and other liens, deeds, leases, releases, articles of incorporation, papers filed in lawsuits or formal quasi-judicial proceedings, and orders of courts and of quasi-judicial bodies.

(iv) Newspapers and periodicals.

(v) Books and catalogs consisting of 24 or more bound pages with at least 22 printed, and telephone directories. Separate letters of less than 24 bound and 22 printed pages bound to other material do not qualify for this exclusion. In determining whether separate letters have been bound to other material, the following factors will be considered, along with any other relevant factors: whether the parts are visually similar; whether the parts were printed and bound together at the same time and by the same process; whether the binding serves an important purpose and has been a long-standing practice; and whether the same individual reads all parts of the bound document. ordinarily, books and catalogs deal with matters of general interest and are published for and distributed to a substantial number of recipients. In addition, books generally contain a substantial number of pages. Accordingly, this exclusion will not apply when the nature of the messages conveyed, the limited number of copies published and of recipients, the limited number of pages, or other relevant factors suggest that it is not appropriate to treat the material as constituting a book or catalog. An item not distributed privately, or privately and by mail, to 25 or more separate persons or places will generally not be treated as falling within this exclusion.

(vi) Tags, labels, stickers, signs or posters the type-size, layout or physical characteristics of which indicate

are primarily intended to be attached to other objects for reading.

(vii) Letters sent to a records storage center exclusively for storage, letters sent exclusively for destruction, letters retrieved from a records storage center, and letters sent as part of a household or business relocation.

(viii) Printed matter sent by a printer, stationer, or similar commercial supplier of letters to the person ordering the letters at a single address for use by such person as his letters. This exclusion does not cover printed matter that contains the messages of the supplier or anyone other than the person to whom the letters are supplied.

(ix) Photographic material being sent by a person to a processor and processed photographic material being returned from the processor to the person sending the material for processing.

(x) Copy sent from a publisher to an independent or company-owned printer and proofs or printed matter returned from the printer to a single office of the publisher.

(xi) Sound recordings, films, and packets of identical printed letters containing messages all or the overwhelming bulk of which are to be disseminated to the public. The "public" does not include individuals residing at the place of address; individuals employed by the organization doing business at the place of address (whether or not the actual place of employment is the place of address), if a business or other organization is located at the place of address; individuals who are members of an organization, if an organization is located at the place of address; or other individuals who, individually or as members of a group, are reasonably identifiable to the sender.

(b) "Packet" means two or more letters, identical or different, or two or more packets of letters, under one cover or otherwise bound together. As used in these regulations, unless the context otherwise requires, "letter" or "letters" includes "packet" or "packets".

(c) "Person" means an individual, corporation, association, partnership, governmental agency, or other organization or entity.

(d) "Post routes" are routes on which mail is carried by the Postal Service, and includes post roads as defined in 39 U.S.C. 5003, as follows:

(1) The waters of the United States, during the time the mail is carried thereon;

(2) Railroads or parts of railroads and air routes in operation;

(3) Canals, during the time the mail is carried thereon;

(4) Public roads, highways, and toll roads during the time the mail is carried thereon; and

(5) Letter-carrier routes established for the collection and delivery of mail.

(e) "Private carriage", "private carrier", and terms of similar import used in connection with the Private Express Statutes or these regulations mean carriage by anyone other than the Postal Service, regardless of any meaning ascribed to similar terms under other bodies of law or regulation.

(f) The "Private Express Statutes" are set forth in 18 U.S.C. 1693-1699 and 1724 and 39 U.S.C. 601-606 (1970).

(g) The term "identical printed letters" includes letters that differ only in name, address or serial number.

##### § 310.2 Unlawful carriage of letters.

(a) It is generally unlawful under the Private Express Statutes for any person other than the Postal Service in any manner to send or carry a letter on a post route or in any manner to cause or assist such activity. Violation may result in injunction, fine or imprisonment or both and payment of postage lost as a result of the illegal activity (see § 310.5).

(b) Activity described in paragraph (a) of this section is lawful with respect to a letter if—

(1) It is enclosed in an envelope or other suitable cover;

(2) The amount of postage which would have been charged on the letter if it had been sent through the Postal Service is paid by stamps, or postage meter stamps, on the cover or by other methods approved by the Postal Service;

(3) The name and address of the person for whom the letter is intended appear on the cover;

(4) The cover is so sealed that the letter cannot be taken from it without defacing the cover;

(5) Any stamps on the cover are canceled in ink by the sender; and

(6) The date of the letter, or of its transmission or receipt by the carrier, is endorsed on the cover in ink by the sender or carrier, as appropriate.

(c) The Postal Service may suspend the operation of any part of paragraph (b) of this section where the public interest requires the suspension.

(d) Activity described in paragraph (a) of this section is permitted with respect to letters which—

(1) Relate to some part of the cargo of, or to some article carried at the same time by, the conveyance carrying it (see § 310.3(a));

(2) Are sent by or addressed to the carrier (see § 310.3(b));

(3) Are conveyed or transmitted without compensation (see § 310.3(c));

(4) Are conveyed or transmitted by special messenger employed for the particular occasion only, provided that not more than twenty-five such letters

are conveyed or transmitted by such special messenger (see § 310.3(d)); or

(5) Are carried prior or subsequent to mailing (see § 310.3(e));

##### § 310.3 Exceptions.

(a) *Curio*. The sending or carrying of letters is permissible if they accompany and relate in all substantial respects to some part of the cargo or to the ordering, shipping or delivering of the cargo.

(b) *Letters of the carrier*. (1) The sending or carrying of letters is permissible if they are sent by or addressed to the person carrying them. If the individual actually carrying the letters is not the person sending the letters or to whom the letters are addressed, then such individual must be an officer, or employee of such person (see § 310.3(b)(2)) and the letters must relate to the current business of such person.

(2) The fact that the individual actually carrying the letters may be an officer or employee of the person sending the letters or to whom the letters are addressed for certain purposes does not necessarily mean that he is an officer or employee for purposes of this exception. The following factors bear on qualifications for the exception: the carrying employee is employed for a substantial time, if not fulltime (letters must not be privately carried by casual employees); the carrying employee carries no matter for other senders; the carrying employee is a regular salaried employee and shares in all privileges enjoyed by other regular employees (including employees not engaged primarily in the letter-carrying function), including but not limited to salary, annual vacation time, absence allowed for illness, health benefits, workmen's compensation insurance, and retirement benefits.

(3) Separately incorporated carriers are separate entities for purposes of this exception, regardless of any subsidiary, ownership, or leasing arrangement. When, however, two concerns jointly operate an enterprise with joint employees and share directly in its revenues and expenses, either of the concerns may carry the letters of the joint enterprise.

(c) *Private hands without compensation*. The sending or carrying of letters without compensation is permitted. Compensation generally consists of a monetary payment for services rendered. Compensation may also consist, however, of non-monetary valuable consideration and of good will. Thus, for example, when a business relationship exists or is sought between the carrier and its user, carriage by the carrier of the user's letters will ordinarily not fall under this exception; or, when a person is engaged in the

transportation of goods or persons for hire, his carrying of letters "free of charge" for customers whom he does charge for the carriage of goods or persons does not fall under this exception.

(d) *Special messenger.* (1) The use of a special messenger employed for the particular occasion only is permissible to transmit letters if not more than twenty-five letters are involved. The permission granted under this exception is restricted to use of messenger service on an infrequent, irregular basis by the sender or addressee of the message.

(2) A special messenger is a person who, at the request of either the sender or the addressee, picks up a letter from the sender's home or place of business and carries it to the addressee's home or place of business, but a messenger or carrier operating regularly between fixed points is not a special messenger.

(e) *Carriage prior or subsequent to mailing.* (1) The private sending or carriage of letters which enter the mail stream at some point between their origin and their destination is permissible. Any point where letters are opened or read is a destination of the letters for purposes of this exception and an origin of the letters for purposes of this exception if letters are transmitted beyond this point. Any point where letters are consolidated or consolidated letters are separated is a destination or origin point rendering this exception inapplicable to the private carriage of the separate letters prior to their consolidation or subsequent to their separation.

(2) Examples of permitted activity are the pickup and carriage of letters which are delivered to post offices for mailing; the pickup and carriage of letters at post offices for delivery to addressees; and the bulk shipment of individually addressed letters ultimately carried by the Postal Service.

#### § 310.4 Responsibility of carriers.

Private carriers are cautioned to make sure that their carriage of matter is lawful within the definition, exceptions, suspensions, and conditions contained in this part and in Part 320. They should take reasonable measures to inform their customers of the contents of these regulations so that only proper matter is tendered to them for carriage. Carriers should desist from carrying any matter when the form of shipment, identity of sender or recipient, or any other information reasonably accessible to them indicates that matter tendered to them for carriage is not proper under these regulations.

#### § 310.5 Payment of postage on violation.

(a) Upon discovery of activity made unlawful by the Private Express Statutes, the Postal Service may require any person or persons who engage in, cause, or assist such activity to pay an amount or amounts not exceeding the total postage to which it would have been entitled had it carried the letters between their origin and destination.

(b) The amount equal to postage will be due and payable not later than 15 days after receipt of formal demand from the Inspection Service unless an appeal is taken to the Judicial Officer Department in accordance with rules of procedure set out in Part 959 of this chapter. The appeal is limited to determining that the methods used to compute the numbers of letters and the amount payable are correct. The determination of the Inspection Service or of the Law Department that an item is a letter being carried in violation of the Private Express Statutes and regulations is final and binding upon the Judicial Officer Department.

(c) Refusal to pay an unappealed demand or a demand that becomes final after appeal will subject the violator to civil suit by the Postal Service to collect the amount equal to postage.

(d) The payment of amounts equal to postage on violation shall in no way limit other actions to enforce the Private Express Statutes by civil or criminal proceedings.

#### § 310.6 Advisory opinions.

An advisory opinion on any question arising under this part and Part 320 may be obtained by writing the Law Department, U.S. Postal Service, Washington, D.C. 20260. A numbered series of advisory opinions will be available for inspection by the public in the Library of the United States Postal Service, and copies of individual opinions may be obtained upon payment of charges for duplicating services.

#### § 310.7 Amendment of regulations.

Amendments of the regulations in this part and in Part 320 may be made only in accordance with the rulemaking provisions of the Administrative Procedure Act.

### PART 320—SUSPENSIONS OF THE PRIVATE EXPRESS STATUTES

Sec.

320.1 Definitions.

320.2 Effect of suspensions.

320.3 Revocation or amendment of suspensions.

320.4 Suspension for certain data processing materials.

320.5 Suspension for certain advertisements in parcels.

320.6 Suspension for certain letters of college and university organizations.

320.7 Suspension for certain international ocean-carrier related documents.

AUTHORITY: 39 U.S.C. 401, 404, 601-606; 18 U.S.C. 1693-1699, 1724.

#### § 320.1 Definitions.

The definitions in § 310.1 apply to Part 320 as well.<sup>1</sup>

#### § 320.2 Effect of suspensions.

The effect of these suspensions is to allow any person to send or carry the covered materials between places served by the Postal Service without paying postage or meeting any other conditions of 39 U.S.C. 601(a) and § 310.2(b) of this chapter.

#### 320.3 Revocation or amendment of suspensions.

These suspensions may be revoked or amended in accordance with § 310.7. No revocation of the suspension provided in § 320.4 will curtail operations of particular carriers existing at the time of the revocation to a level of operations (in dollar or volume terms, whichever is larger) lower than that antedating the revocation in a particular market served prior to the revocation. Should the suspension referred to in § 320.4 be revoked, carriers, as a condition to continuing operations under this section, will be required to provide reasonably complete and accurate data to support estimates of past operating levels in particular markets.

#### 320.4 Suspension for certain data processing materials.

(a) The operation of 39 U.S.C. 601(a)(1) through (6) and § 310.2(b)(1) through (6) of this chapter is suspended on all post routes for data processing materials defined in paragraph (c) on the terms detailed in paragraph (b), subject to the operating requirements in paragraphs (d) through (g).

(b) The suspension referred to in paragraph (a) of this section is for data processing materials conveyed (1) to a data processing center, if transmission is completed within 12 hours or by noon of the addressee's next business day and if data processing work is commenced on such materials within 36 hours of their receipt at the center; or (2) back from the data processing center to the address of the office originating the incoming materials, if transmission is completed within 12 hours or by noon of the addressee's next business day, and if data processing work was commenced on the incoming materials within 36 hours of their receipt at the center. For pur-

<sup>1</sup>Several of the items enumerated in § 310.1(a)(7) do not self-evidently lie outside of the definition of "letter". To the extent, however, that there is any question whether these items may properly be excluded by definition, the Postal Service has determined by adoption of these regulations that the restrictions of the Private Express Statutes are suspended pursuant to 39 U.S.C. 601(b).

poses of the time limitations for completion of delivery referred to in the preceding sentence, delivery of shipments between a domestic point and a foreign point shall be deemed to begin at the time materials of foreign origin are received at the international gateway city or end at the time materials of domestic origin leave the international gateway city. This suspension does not apply to transmissions from or to originating offices that are neither part of the firm owning the data processing center nor data processing customers of the firm owning the data processing center.

For purposes of this suspension, (1) "addressee's next business day" means the first calendar day, stated in his local time, on which he conducts business, following the calendar day of dispatch, stated in the sender's local time; (2) "data processing" means electro-mechanical or electronic processing and includes the recording of data by electro-mechanical or electronic means for further processing; and (3) "data processing materials" means materials of all types that are sent exclusively for data processing and are ready for immediate data processing, but only if they are produced recurrently in the course of the normal business operations of the office originating them or receiving them back from the processing center.

(d) Carriers intending to establish or alter operations based on the suspension granted pursuant to this section shall, as a condition to the right to operate under the suspension, notify the Private Express Liaison Officer, Customer Services Department, United States Postal Service, Washington, D.C. 20260, of their intention to establish such operations not later than the beginning of such operations. Such notification, on a form available from the Private Express Liaison Office, shall include information on the identity and authority of the carrier and the scope of its proposed operations.

(e) Carriers operating under the suspension granted pursuant to this section are responsible for making sure that their carriage of matter under the suspension meets all conditions contained in this section. (See § 310.4.) The containers or covers of any matter asserted to be carried under the suspension must be made available for examination upon request by a properly identified postal inspector. The outside of such containers or covers must show the name and address of the sender and the name and address of the addressee. Carrier records—either in the form or notations on the containers or covers of any matter asserted to be carried under the suspension granted pursuant to this section or in the form of records kept by employees of the actual times

they make delivery or pickup stops—must be sufficient to show that the delivery of such matter was completed within the applicable time limitation prescribed in this section. The provisions of this paragraph shall not restrict the Postal Service in the exercise of search powers conferred upon it by law.

(f) The filing of notifications under this section does not relieve the carrier of responsibility for assuring that its operations conform to applicable statutes and regulations.

(g) Failure to comply with the notification requirements of this section and carriage of materials or other action in violation of other provisions of this Part or Part 310 are grounds for administrative revocation of the suspension as to a particular carrier for a period of not less than one year in a proceeding instituted by the General Counsel, following a hearing by the Judicial Officer Department in accordance with the rules of procedure set out in Part 959 of this chapter.

(NOTE.—The form referred to in § 320.4(d) is reproduced below.)

#### § 320.5 Suspension for certain advertisements in parcels.

The operation of 39 U.S.C. 601(a)(1) through (6) and § 310.2(b)(1) through (6) of this chapter is suspended on all post routes for advertisements, not

<sup>1</sup>Information relates exclusively to operations under the suspension for certain data processing materials. This form should be used for an initial notice of operations and for any amendments to the initial or subsequent notices.

marked with the name or address of the intended recipient, enclosed with merchandise in parcels, of goods in the same general line of products as the merchandise shipped that are offered for sale by the shipper or manufacturer of the merchandise, provided the shipment of advertisements is incidental to the shipment of accompanied merchandise. A shipment of advertisements is not incidental to the shipments of accompanied merchandise if the contents or physical characteristics of the advertisements, or the characteristics of the merchandise they accompany (such as, for example, the small value of the merchandise or its status as a sample), suggests that a substantial purpose in shipping the merchandise plus the advertising is advertising. An item is not an advertisement within the meaning of this provision unless its sole purpose is to cause the person to whom it is sent or ultimately distributed to purchase the goods advertised.

#### § 320.6 Suspension for certain letters of college and university organizations.

The operation of 39 U.S.C. 601(a)(1) through (6) and § 310.2(b)(1) through (6) of this chapter is suspended on all post routes to permit colleges and universities to carry in their internal mail systems the letters of their bona fide student or faculty organizations to campus destinations. This suspension does not cover the letters of faculty members, students, or organizations other than bona fide student or faculty organizations of the carrying college or university. Colleges and universities choosing to provide their student or faculty organizations access to their internal mail systems are responsible for assuring that only letters of bona fide student or faculty organizations addressed to campus destinations are carried. (See § 310.4.)

#### § 320.7 Suspension for certain international-ocean-carrier-related documents.

The operation of 39 U.S.C. 601(a)(1) through (6) and § 310.2(b)(1) through (6) of this chapter is suspended on all post routes for documents, sent by a shipper or an ocean carrier from a foreign origin to a United States ocean-carrier port city destination or from a United States ocean-carrier port city origin to a foreign destination, that would be excepted under § 310.3(a) if the documents accompanied the cargo. This suspension covers only shipments to or from ports where the cargo to which the documents are required to relate is actually loaded on, or unloaded from, an ocean vessel.

[6560-01-M]

ENVIRONMENTAL PROTECTION  
AGENCY

[40 CFR Part 65]

[FRL 1030-8]

STATE AND FEDERAL ADMINISTRATIVE  
ORDERS PERMITTING A DELAY IN COMPLIANCE  
WITH STATE IMPLEMENTATION PLAN  
REQUIREMENTS

Proposed Approval of an Administrative Order  
Issued By the Connecticut Department of Environmental  
Protection to the Levery & Hurley Co.

AGENCY: Environmental Protection  
Agency.

ACTION: Proposed rule.

SUMMARY: EPA proposes to approve an administrative order issued by the Connecticut Department of Environmental Protection to the Levery and Hurley Company. The order requires the company to bring air emissions from its asphalt batching plant in Bridgeport, Connecticut into compliance with certain regulations contained in the federally-approved Connecticut State Implementation Plan (SIP) by May 25, 1979. Because the order has been issued to a major source and permits a delay in compliance with provisions of the SIP, it must be approved by EPA before it becomes effective as a delayed compliance order under the Clean Air Act (the Act). If approved by EPA, the order will constitute an addition to the SIP. In addition, a source in compliance with an approved order may not be sued under the federal enforcement or citizen suit provisions of the Act for violations of the SIP regulations covered by the Order. The purpose of this notice is to invite public comment on EPA's proposed approval of the order as a delayed compliance order.

DATE: Written comments must be received on or before January 29, 1979.

ADDRESSES: Comments should be submitted to Director, Enforcement Division, EPA, Region I, Room 2103, J.F.K. Federal Building, Boston, Massachusetts 02203. The State order, supporting material, and public comments received in response to this notice may be inspected and copied (for appropriate charges) at this address during normal business hours.

## FOR FURTHER INFORMATION:

Attorney Michael Gurchin at 617/223-5061, or engineer Steven Fradkoff at 617/223-5610, both at the following address: U.S. Environmental Protection Agency, J.F.K. Federal Building, Room 2103, Boston, Massachusetts 02203.

## SUPPLEMENTARY INFORMATION:

The Levery and Hurley Company operates an asphalt batching plant ("number 4") at Bridgeport, Connecticut. The order under consideration addresses emissions from asphalt batching plant number 4, which is subject to Sections 19-508-5(e) and 19-508-18(b)(3)(i) of the Connecticut Regulations for the Abatement of Air Pollution. The regulation limits visible emissions, and is part of the federally approved Connecticut State Implementation Plan. The order requires final compliance with the regulation by May 25, 1979 through installation of a baghouse and subsequent emission testing procedures approved by the Connecticut Department of Environmental Protection.

Because this order has been issued to a major source of particulate emissions and permits a delay in compliance with the applicable regulation, it must be approved by EPA before it becomes effective as a delayed compliance order under Section 113(d) of the Clean Air Act. EPA may approve the order only if it satisfies the appropriate requirements of this subsection.

If the order is approved by EPA, source compliance with its terms would preclude federal enforcement action under Section 113 of the Act against the source for violations of the regulation covered by the order during the period the order is in effect. Enforcement against the source under the citizen suit provision of the Act (Section 304) would be similarly precluded. If approved, the order would also constitute an addition to the Connecticut SIP.

All interested persons are invited to submit written comments on the proposed order. Written comments received by the date specified above will be considered in determining whether EPA may approve the order. After the public comment period, the Administrator of EPA will publish in the FEDERAL REGISTER the Agency's final action on the order in 40 CFR Part 65.

(Authority: 42 U.S.C. 7413, 7601.)

Dated: December 12, 1978.

REBECCA W. HANMER,  
Acting Regional Administrator,  
Region I.

[FRL 1030-2; PP 7F19113/P104]

TOLERANCES AND EXEMPTIONS FROM TOLERANCES  
FOR PESTICIDE CHEMICALS IN OR  
ON RAW AGRICULTURAL COMMODITIES

Proposed Tolerances for the Pesticide Chemical  
Metolachlor

AGENCY: Office of Pesticide Programs, Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: This notice proposes that 40 CFR 180.368 be amended by establishing tolerances for residues of the herbicide metolachlor. The proposal was submitted by Ciba-Geigy Corp. This amendment would establish maximum permissible levels for residues of metolachlor in or on soybeans and in eggs, milk and the meat, fat and meat byproducts of cattle, goats, hogs, horses, poultry and sheep.

DATE: Comments must be received on or before January 12, 1979.

ADDRESS: Comments to: Federal Register Section, Program Support Division (TS-757), Office of Pesticide Programs, EPA, Rm. 401 East Tower, 401 M Street, SW, Washington, D.C. 20460.

FOR FURTHER INFORMATION  
CONTACT:

Ms. Willa Garner, Product Manager (PM) 23, Registration Division (TS-767), Office of Pesticide Programs, EPA (202-755-7012).

SUPPLEMENTARY INFORMATION: On March 1, 1977, notice was given (42 FR 11865) that Ciba-Geigy Corp., P.O. Box 11422, Greensboro, North Carolina 27409, had filed a petition (PP 7F1913) with the EPA. This petition proposed that 40 CFR 180.368 be amended by the establishment of a tolerance for combined residues of the herbicide metolachlor (2-chloro-N-(2-ethyl-6-methylphenyl)-N-(2-methoxy-1-methylethyl)acetamide) and its metabolites determined as 2-[(2-ethyl-6-methylphenyl)amino]-1-propanol and 4-(2-ethyl-6-methylphenyl)-2-hydroxy-5-methyl-3-morpholinone, each expressed as parent metolachlor, in or on the raw agricultural commodity soybeans at 0.1 part per million (ppm).

Ciba-Geigy Corp. subsequently amended the petition by proposing tolerances in eggs, milk and the meat, fat, and meat byproducts of cattle, goats, hogs, horses, poultry, and sheep at 0.02 ppm. Because of the potential increase in exposure of humans to residues as a result of the additional tolerances, the tolerances are being pro-

posed at this time to provide an opportunity for public comment.

The data submitted in the petition and other relevant material have been evaluated. The toxicological data considered in support of the proposed tolerances included a rat acute oral toxicity study with a lethal dose (LD<sub>50</sub>) of 2.78 grams (g)/kilogram (kg) of body weight (bw); a 90-day rat feeding study with a no-observable-effect level (NOEL) of 300 ppm; a rat teratology study which was not fetotoxic or teratogenic at 360 milligrams (mg)/kg bw/day; a three-generation rat reproduction study and audit report with no effects at 30 ppm, 300 ppm, or 1,000 ppm; a mouse carcinogenicity study and audit report with no carcinogenic potential at 30 ppm, 1,000 ppm, or 3,000 ppm; a mouse mutagenic dominant lethal study (negative); and a salmonella/mammalian-microsome mutagenicity study (negative).

Desirable studies or data that are lacking or to be repeated are pathology data from all levels of the 90-day rat feeding study (except the 300 ppm level with a four-week recovery period), pathology data from the 90-day dog feeding study, a two-year rat feeding study with audit report, a mouse carcinogenicity study, and six-month toxicity study in dogs. In a letter of October 25, 1978, the petitioner agreed to perform and/or submit the above studies or data (pathology data from the 90-day dog feeding study on or before February 1, 1979 and the final report for the two-year study on or before March 15, 1979) and not to contest revocation of the egg, meat, milk, poultry, and soybean tolerances after they have been established should the above studies indicate potential adverse effects on man or the environment.

Tolerances have previously been established for residues of metolachlor on corn grain at 0.1 ppm for a theoretical maximal residue contribution (TMRC) of 0.0015 mg/day in a 1.5-kg diet or 0.33 percent of the acceptable daily intake (ADI). The proposed tolerances on soybeans at 0.1 ppm and meat, milk, and dairy products at 0.02 ppm would contribute an additional 0.001 mg/day/1.5-kg diet for a total TMRC of 0.015 mg/day/1.5-kg diet or 3.47 percent of the ADI. Based upon the 300 ppm NOEL in the rat 90-day feeding study and a 2,000-fold safety factor, the ADI has been set at 0.0075 mg/kg bw/day with a maximal permissible intake (MPI) of 0.45 mg/day/60-kg man.

The metabolism of metolachlor in soybeans and in animals is adequately understood, an adequate analytical method (gas chromatography using a Coulson electrolytic conductivity detector for the first mentioned derivative and a Dohrman microcoulometric

detector for the second mentioned derivative) is available for enforcement purposes and the proposed tolerance level of 0.1 ppm is adequate to cover residues of metolachlor and its metabolite on soybeans and their fractions.

The tolerances established by amending 40 CFR 180.368 will be adequate to cover residues that would result in meat, milk, poultry, and eggs as delineated in 40 CFR 180.6(a)(2).

There are no pending regulatory actions against the continued registration of metolachlor. The pesticide is considered useful for the purpose for which tolerances are being sought, and it is concluded that the tolerances of 0.1 ppm in or on soybeans and 0.02 ppm in eggs, milk and the meat, fat and meat byproducts of cattle, goats, hogs, horses, poultry, and sheep will protect the public health. It is proposed, therefore, that the tolerances be established as set forth below.

Any person who has registered or submitted an application for the registration of a pesticide, under the Federal Insecticide, Fungicide, and Rodenticide Act, which contains any of the ingredients listed herein, may request on or before January 12, 1979, that this rulemaking proposal be referred to an advisory committee in accordance with section 408(e) of the Federal Food, Drug, and Cosmetic Act.

Interested persons are invited to submit written comments on the proposed regulation. The comments must bear a notation indicating both the subject and the petition/document control number, "PP7F1913/P104." All written comments filed in response to this notice of proposed rulemaking will be available for public inspection in the office of the Federal Register Section from 8:30 a.m. to 4 p.m. Monday through Friday.

Dated: December 21, 1978.

DOUGLAS D. CAMPT,  
Acting Director,  
Registration Division.

(Sec. 408(e), Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a(e)).)

It is proposed that Part 180, Subpart C, § 180.368 be revised in the introductory paragraph and the table to read as follows:

§ 180.368 Metolachlor; tolerances for residues.

Tolerances are established for combined residues of the herbicide metolachlor (2-chloro-N-(2-ethyl-6-methylphenyl)-N-(2-methoxy-1-methyl-ethyl)acetamide) and its metabolites, determined as the derivatives, 2-[(2-ethyl-6-methylphenyl)-amino]-1-propanol and 4-(2-ethyl-6-methylphenyl)-2-hydroxy-5-methyl-3-morpholinone, each expressed as the parent compound in or on the following raw agricultural commodities:

| Commodity:                 | Parts per million |
|----------------------------|-------------------|
| Cattle, fat.....           | 0.02              |
| Cattle, mbypr.....         | 0.02              |
| Cattle, meat.....          | 0.02              |
| Corn grain (exc. pop)..... | 0.1               |
| Eggs.....                  | 0.02              |
| Goats, fat.....            | 0.02              |
| Goats, mbypr.....          | 0.02              |
| Goats, meat.....           | 0.02              |
| Hogs, fat.....             | 0.02              |
| Hogs, mbypr.....           | 0.02              |
| Hogs, meat.....            | 0.02              |
| Horses, fat.....           | 0.02              |
| Horses, mbypr.....         | 0.02              |
| Horses, meat.....          | 0.02              |
| Milk.....                  | 0.02              |
| Poultry, fat.....          | 0.02              |
| Poultry, mbypr.....        | 0.02              |
| Poultry, meat.....         | 0.02              |
| Sheep, fat.....            | 0.02              |
| Sheep, mbypr.....          | 0.02              |
| Sheep, meat.....           | 0.02              |

[Docket No. 19660; RM-690]

INTERNATIONAL RECORD CARRIER'S SCOPE  
OF OPERATIONS IN THE CONTINENTAL  
UNITED STATES, INCLUDING POSSIBLE REVISIONS  
TO THE FORMULA PRESCRIBED  
UNDER SECTION 222 OF THE COMMUNICATIONS  
ACT

Order Extending Time for Filing Petitions To  
Deny and Other Comments and Oppositions  
to These Further Pleadings

AGENCY: Federal Communications  
Commission.

ACTION: Order extending time.

SUMMARY: Action taken herein extends the time for filing comments in a proceeding involving the authorization of additional gateways and Free Direct Access.

DATES: The time to file petitions to deny and other comments is extended until January 8, 1979, and Oppositions to these further pleadings will be due by January 22, 1979.

ADDRESSES: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION  
CONTACT:

Helene Bauman, Common Carrier  
Bureau, 202-632-7834.

## SUPPLEMENTARY INFORMATION:

Adopted: December 13, 1978.

Released: December 20, 1978.

Order. In the matter of International Record Carrier's Scope of Operations in the Continental United States, including Possible Revisions to the Formula Prescribed under Section 222 of the Communications Act, Docket No. 19660, RM-690.

<sup>1</sup> See 43 FR 57187, December 6, 1978.

1. The Commission is herein considering:

(a) a *Motion to Extend Time* filed by the Western Union Telegraph Company (WUT) on December 4, 1978 requesting an extension of time from December 18, 1978 on January 25, 1979 to respond to the International Record Carriers' (IRCs') comments and related amended applications;

(b) a *Motion for Extension of Time* filed by Trans-lux Corporation (Trans-lux) on December 6, 1978, requesting an extension of time from December 18, 1978 until February 8, 1979 in which to file its petition to deny or other comments in accordance with paragraph 19 of the Commission's Notice of Inquiry and Proposed Rulemaking ("Notice") released in this docket on July 28, 1978 (FCC 78-511).

2. In support of its Motion, WUT states that the IRCs' proposed expansion involves a host of complex issues of law, economics and policy; their applications and pleadings comprise hundreds of pages of argument and data bearing on these issues. WUT further states that it intends to submit studies which involve complex analyses of the voluminous data submitted by the IRCs, as well as of internally generated data bearing on questions raised by the IRC filings. WUT contends that while work on these analyses has begun and is proceeding on a priority basis, it simply cannot be completed until well beyond the December 18 filing date. WUT also points out that the IRCs received two extensions of time and were not required to file pleadings until 14 weeks after the Commission's Notice, but those who wish to comment on the IRC applications and pleadings would be required to do so less than 4 weeks after the last IRC date were filed.

3. Trans-lux stated that since it was not originally a party to Docket No. 19660, it only obtained copies of the voluminous filings by the IRCs on November 11, and November 28, 1978. In order to analyze and comment on these filings, Trans-lux states that it needs additional time. Trans-lux also notes that the IRCs were afforded more than three months in which to furnish amended gateway applications and related data, and claims that under these circumstances, it seems only reasonable also to afford interested parties an additional period (at least comparable to that extended to the IRCs) in which to address these complex and detailed submissions.

4. While we wish to give each party involved in this Docket adequate time to compile the necessary data in order to file its argument, we cannot emphasize enough the need for expeditious action. This Docket has been pending before the Commission for far too long, and it is in the best interests of

all parties for the Commission to reach a carefully considered but speedy resolution of this proceeding. Thus, we will grant all parties some additional time in which to file comments, but not the full time requested in the above-mentioned motions. Accordingly, the time to file petitions to deny and other comments is extended until January 8, 1979, and Oppositions to these further pleadings will be due by January 22, 1979.

FEDERAL COMMUNICATIONS  
COMMISSION,  
JACK D. SMITH,  
*Acting Chief,  
Common Carrier Bureau.*

### PARTS AND ACCESSORIES NECESSARY FOR SAFE OPERATION

Withdrawal of Notice of Proposed Rulemaking

AGENCY: Federal Highway Administration, DOT.

ACTION: Termination of proposed rulemaking.

SUMMARY: This document terminates a rulemaking proposal to modify requirements pertaining to the location of clearance and identification lamps on large trucks, buses, semi-trailers, and full trailers.

EFFECTIVE DATE: December 28, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. D. W. Morrison, Chief, Vehicle Requirements Branch, Bureau of Motor Carrier Safety, 202-426-1700; or Mrs. Kathleen S. Markman, Office of the Chief Counsel, 202-426-0346, Federal Highway Administration, U.S. Department of Transportation, 400 Seventh Street, S.W., Washington, D.C. 20590. Office hours are from 7:45 a.m. to 4:15 p.m. ET, Monday through Friday.

SUPPLEMENTARY INFORMATION: On January 21, 1977, a Notice of Proposed Rulemaking (NPRM) (42 FR 7171, February 7, 1977) was issued proposing to eliminate mounting height requirements for clearance and identification lamps on motor vehicles operated in interstate or foreign commerce. The present requirements that these lamps indicate the extreme width and height of the vehicles are found in Section 393.20 of the Federal

Motor Carrier Safety Regulations (FMCSR) (49 CFR 393.20).

The National Highway Traffic Safety Administration (NHTSA) of this Department had issued a NPRM on December 2, 1976, (41 FR 52892), to delete rear mounting height requirements for clearance and identification lamps on newly manufactured motor vehicles. The present requirements for these lamps on new motor vehicles are found in Federal Motor Vehicle Safety Standard (FMVSS) No. 108, (49 CFR 571.108). For reasons stated in a companion notice appearing elsewhere in today's FEDERAL REGISTER, NHTSA has decided to terminate its rulemaking proposal with respect to mounting height requirements for clearance and identification lamps (NHTSA Docket No. 76-8). To promote and maintain consistency between the FMCSR and the FMVSS, the Federal Highway Administration has decided to terminate its rulemaking efforts relative to this docket (BMCS Docket No. MC-66).

A total of 14 comments were submitted to the Bureau of Motor Carrier Safety in response to Docket No. MC-66. Comments generally supported the proposal except for 2 lighting equipment manufacturers, 1 government agency, and 1 university research organization. Convincing evidence was not provided by supporters of the proposal that lowering of clearance and identification lamps on commercial motor vehicles would not be detrimental to the interest of highway safety.

In view of the foregoing, BMCS Docket No. MC-66 is hereby terminated.

This termination of proposed rulemaking is issued under the authority of 49 U.S.C. §§ 304 and 1655 and 49 CFR 1.48 and 301.60.

NOTE.—The Federal Highway Administration has determined that this document does not contain a major proposal according to the criteria established by the Department of Transportation pursuant to Executive Order 12044.

Issued on: December 19, 1978.

National Highway Traffic Safety  
Administration

[49 CFR Part 571]

[Docket No. 76-8; Notice 2]

### LAMPS, REFLECTIVE DEVICES, AND ASSOCIATED EQUIPMENT

Termination of Proposed Rulemaking

AGENCY: National Highway Traffic Safety Administration, DOT.

ACTION: Termination of rulemaking action.

SUMMARY: This notice terminates a rulemaking proposal to delete the mounting height requirements for clearance and identification lamps on wide motor vehicles, presently specified in Federal Motor Vehicle Safety Standard No. 108, on the basis that insufficient information exists to justify adoption of the proposal.

FOR FURTHER INFORMATION CONTACT:

W. Marx Elliott, Office of Rulemaking (NHTSA), 400 Seventh Street, S.W., Washington, D.C. 20590 (202-246-2720).

### SUPPLEMENTARY INFORMATION:

On December 2, 1976, the agency issued a notice of proposed rulemaking to amend 49 CFR 571.108, Motor Vehicle Safety Standard No. 108, *Lamps, Reflective Devices and Associated Equipment*, to delete rear mounting height requirements for clearance and identification lamps which are required lighting equipment on vehicles whose overall width exceeds 80 inches (41 FR 52892). The American Trucking Associations Inc. ("ATA") had petitioned for deletion of S4.3.1.4 and any references to mounting height of clearance and identification lamps on trailers, as contained in Table II. ATA argued that the current standard results in anomalies, and that because of the wide variety of body configurations it is impossible to establish a uniformly applicable mounting height requirement for these lamps. It argued further that high lamp placement inhibits safety in inclement weather by depriving the following driver "of the aggregate effect of low-mounted identification and clearance lamps found on almost all trailers except van-type." It also argued that low-mounted lamps are more easily cleaned and likely to be maintained than higher ones, and less of a hazard since use of a ladder is not required to reach them. Another argument advanced by ATA was that the 55 mph speed limit has reduced the differential in speeds between trucks and passenger cars which formerly may have contributed to rear-

end collisions and that therefore the marking function of the lamps has lost its significance.

Upon review of the comments received in response to the proposal, and after consultation with the Bureau of Motor Carrier Safety of the Federal Highway Administration, the agency has determined that insufficient information exists to justify adoption of the proposal as in the interests of motor vehicle safety. Twenty-three comments were received in response to the proposal, in addition to that of ATA. Sixteen supported it, generally truck and trailer manufacturers. The proposal was opposed by the Truck Safety Equipment Institute, the National Transportation Safety Board, and the Florida Department of Highway Safety and Motor Vehicles among others. Those who supported the proposal did so on the basis that it would "help industry" by reducing manufacturing and maintenance costs. Those who opposed it did so primarily on the grounds that high mounted rear lighting is needed and that any change would be detrimental to traffic safety. After consideration of all the comments, the National Highway Traffic Safety Administration has decided that it is in the public interest to retain mounting height requirements to which industry is accustomed and which have provided cues to motorists of the presence of large and frequently slow moving vehicles in the roadway ahead. Accordingly Docket No. 76-8 is being closed and if there is further rulemaking on this subject another opportunity will be offered for comment.

The program official and lawyer principally responsible for this document are W. Marx Elliott and Z. Taylor Vinson, respectively.

(Secs. 103, 119, Pub. L. 89-563, 80 Stat. 716 (15 U.S.C. 1392, 1907); delegations of authority at 49 CFR 1.50 and 501.8)

Issued on December 13, 1978.

#### [6320-01-M]

[Docket 33565; Order 78-12-142]

#### ALLEGHENY AIRLINES, INC.

Application for Amendment of Certificate of Public Convenience and Necessity (Charleston-Parkersburg); Order Granting Exemption and Order to Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 21st day of December, 1978.

On September 29, 1978, Allegheny Airlines filed a petition for an order to show cause why its application for amendment of its certificate to remove its one-stop restriction between Charleston, W. Va., and Parkersburg, W. Va.-Marietta, Ohio, should not be granted and requested an exemption, *pendente lite*, to serve the market on a nonstop basis.

In support of the application, it states that it obtained Charleston-Parkersburg authority as a result of its merger with Lake Central, and that the one-stop restriction was a result of the segmentation of the Lake Central system prior to the merger; that the restriction serves no useful purpose; that removal of the restriction will allow it added operational and scheduling flexibility; and that an exemption is warranted to allow it to immediately begin carrying local traffic between these points.

We tentatively conclude, on the basis of the tentative findings below, that it is consistent with the public convenience and necessity to grant Allegheny's request for unrestricted nonstop authority in the Charleston-Parkersburg market. Moreover, we find that we should use show-cause procedures here since there are no material, determinative facts that require an oral evidentiary hearing for their resolution.

The Airline Deregulation Act of 1978 places on opponents of requests for new certificate authority the burden of proving that the grant of such requests is not consistent with the public convenience and necessity.<sup>1</sup> No at-

tempt to meet that burden has been made here. Consequently, we proposed to grant Allegheny's request.

Further, we find that it is consistent with the public interest to grant Allegheny an exemption to operate nonstop in the market until 60 days after final decision on its certificate application. It is our established policy to remove operating restrictions unless affirmative reasons are shown for their retention. The removal of the restriction here is unopposed and will make possible more flexible operations for the carrier and competitive nonstop service for travelers in a market that is now a Piedmont Aviation nonstop monopoly.<sup>2</sup>

Allegheny has provided an environmental evaluation. We find that the environment will not be affected at either Charleston or Parkersburg, as the level of service in the market will remain unchanged. Additionally, the carrier is free to add service at either point without our approval. Taking into account these considerations, we find that our actions here do not constitute a major action significantly affecting the quality of the environment within the meaning of section 102(2)(C) of the National Environmental Policy Act of 1969, nor are they major actions under the Energy Policy and Conservation Act of 1975.

We will give interested persons 30 days following the date of service of this order to show cause why the tentative findings and conclusions set forth here should not be made final. We expect such persons to support their objections, if any, with detailed answers, specifically setting forth the tentative findings and conclusions to which objection is taken. Such objections should be accompanied by arguments of fact or law and should be supported by legal precedent or detailed economic analysis. If a full evidentiary hearing is requested, the objector should state in detail what he would expect to establish through such a hearing that cannot be established in written pleadings. We will not entertain general, vague, or unsupported objections.

#### ACCORDINGLY,

1. We exempt Allegheny Airlines temporarily from the provisions of section 401 of the Act and the terms, conditions, and limitations of its certificate of public convenience and necessity for Route 97 to the extent necessary to permit it to provide nonstop service between Charleston, W. Va., and Parkersburg, W. Va.-Marietta, Ohio;

2. We make the authority granted in paragraph 1 effective on the date of

<sup>1</sup> The only basis for the restriction appears to be the segmentation which existed in Lake Central Airlines' certificate prior to its merger with Allegheny.

service of this order and it shall continue until 60 days after the final decision on Allegheny's certificate amendment request;

3. We may amend or revoke the exemption authority granted in this order at any time in the discretion of the Board without a hearing;

4. We direct all interested persons to show cause why we should not issue an order making final the tentative findings and conclusions stated here and amending Allegheny's certificate for Route 97 so as to remove its one-stop restriction in the Charleston-Parkersburg/Marietta Market;

5. We require any interested persons having objections to the issuance of an order making final the proposed findings, conclusions, and certificate amendments set forth here to file with us, no later than January 22, 1979, and serve upon all persons included in paragraph 8 a statement of objections together with a summary of testimony, statistical data, and evidence expected to be relied upon to support the objections, answers to objections shall be filed by February 1, 1979;

6. If timely and properly supported objections are filed, we will accord full consideration to the matters or issues raised before further action is taken;

7. If no one files objections to any part of this order, we will consider all further procedural steps relating to such part or parts waived, and the case submitted to us for further action; and

8. We will serve a copy of this order upon all persons named in the service list of Docket 33565.

We will publish this order in the **FEDERAL REGISTER**.

By the Civil Aeronautics Board.<sup>3</sup>

PHYLLIS T. KAYLOR,  
Secretary.

#### [6320-01-M]

[Docket 23080-2; Order 78-12-137]

#### PRIORITY AND NONPRIORITY DOMESTIC SERVICE MAIL RATES—PHASE II

#### Order Establishing Final Service Mail Rates

Issued under delegated authority December 20, 1978.

Order 78-12-52, adopted by the Board on December 7, 1978, directed all interested persons to show cause why the service mail rates established by Order 78-11-80, served November 21, 1978, should not apply to mail transport services performed by Cochise Airlines, Inc. and Sky West Aviation, Inc.

The time designated for filing of objection has expired and none was filed. All persons have therefore waived the right to a hearing and all other procedural steps short of fixing a final rate.

<sup>3</sup> All Members concurred.

Accordingly, pursuant to the Federal Aviation Act of 1958, as amended, particularly sections 204(a) and 406, the Board's Procedural Regulations, 14 CFR Part 302, and the authority delegated by the Board in its Organizational Regulations, 14 CFR 385.16(g),

1. We make final the tentative findings and conclusions set forth in Order 78-12-52;

2. The fair and reasonable rates of compensation the Postmaster General shall pay for the transportation of mail by aircraft, the facilities used and useful therefor, and the services connected therewith, to Cochise Airlines, Inc. and Sky West Aviation, Inc. on and after the date of commencement of certificated air transportation are the rates established in Docket 23080-2;

3. The Postmaster General shall pay all service mail rates fixed herein in their entirety; and

4. We shall serve a copy of this order upon the Postmaster General, Cochise Airlines, Inc. and Sky West Aviation, Inc.

Persons entitled to petition the Board for review of this order pursuant to the Board's Regulations, 14 CFR 385.50, may file such petitions within ten days after the service date of this order.

We shall make this order effective and an action of the Civil Aeronautics Board upon expiration of the above period unless a petition for review is filed or the Board decides to review this order on its own motion within such period.

We shall publish this order in the **FEDERAL REGISTER**.

#### WTC AIRLINES, INC.

#### Application for an All-Cargo Air Service Certificate

DECEMBER 19, 1978.

In accordance with Part 291 (14 CFR 291) of the Board's Economic Regulations (effective November 9, 1978), notice is hereby given that the Civil Aeronautics Board has received an application, Docket 34008, from WTC Airlines, Inc. of Los Angeles, Calif., for an all-cargo air service certificate to provide domestic cargo transportation.

Under the provisions of section 291.12(c) of Part 291, interested persons may file an answer in opposition to this application by January 18, 1979. An executed original and six copies of such answer shall be addressed to the Docket Section, Civil Aeronautics Board, Washington, D.C. 20428. It shall set forth in detail the

reasons for the position taken and must relate to the fitness, willingness, or ability of the applicant to provide all-cargo air service or to comply with the Act or the Board's orders and regulations. The answer shall be served upon the applicant and state the date of such service.

#### DEPARTMENT OF COMMERCE

#### Office of Federal Statistical Policy and Standards

#### STANDARD INDUSTRIAL CLASSIFICATION

#### Proposed Revision Procedures and Principles for Revision

AGENCY: Office of Federal Statistical Policy and Standards, Department of Commerce.

ACTION: Notice of Proposed Revised Procedures and Principles for the revision of the Standard Industrial Classification.

SUMMARY: This document proposes changes in the procedures and principles for revision of the Standard Industrial Classification (SIC).

#### INTRODUCTION

The proposed changes are the result of a review of the procedures and principles under which industries are identified for Federal statistical purposes. These definitions must be based on objective procedures and principles formulated so as to identify all industries as consistently as possible. A periodic review is necessary to ensure the objectivity and consistency of the criteria and that relevant data are used.

#### PROPOSED CHANGES

The most significant change from the 1972 procedures and principles is consideration of temporary industries. The Technical Committee may designate temporary industries to provide comparability between the existing and new SIC. At the next SIC revision each temporary industry would be combined with the appropriate industry.

The other significant change is that specialization or coverage requirements will be lower for new industries that are very large and higher for new industries if they are smaller than average size.

ADDRESS: Send comments to: Milo O. Peterson, Chairman, Technical Committee on Industrial Classification, Office of Federal Statistical Policy and Standards, U.S. Department of Commerce, Washington, D.C.

20230 by February 28, 1979. All comments, materials, questions, etc., in response to this proposal will be available for public inspection during normal business hours, 8:30 a.m. to 5:00 p.m., in Room 200, 2001 "S" Street, N.W., Washington, D.C. The final Procedures and Principles will be published after the comments are considered.

#### FOR FURTHER INFORMATION CONTACT:

Milo Peterson, Office of Federal Statistical Policy and Standards, U.S. Department of Commerce, Washington, D.C. 20230, Telephone (202) 673-7977

NOTE.—The Department of Commerce has determined that this proposal is not a significant regulation requiring preparation of a regulatory analysis under Executive Order No. 12044.

COURTENAY M. SLATER,  
Chief Economist for the  
Department of Commerce.

PRINCIPLES AND PROCEDURES FOR THE REVIEW AND MAINTENANCE OF THE ESTABLISHMENT STANDARD INDUSTRIAL CLASSIFICATION MANUAL (PROPOSAL)

PREPARED BY THE TECHNICAL COMMITTEE ON INDUSTRIAL CLASSIFICATION<sup>1</sup>

#### A. Purpose and Scope

This SIC was developed for use in the classification of establishments by type of economic activity in which engaged. It is a classification of establishments rather than of companies or legal entities or enterprises, by kinds of business and not by occupations or commodities. It encompasses all economic activity.

The purposes of this SIC are to facilitate the collection, tabulation, presentation, and analysis of data relating to establishments and to promote uniformity and comparability in the presentation of statistical data collected by various agencies of the U.S. Government. It is also used by state agencies, trade associations, private business and other organizations.

The basic purpose and objective of a periodic review is to update the classification so as to make it possible to better reflect statistically the existing industrial structure of the economy. It should provide the means for introducing new industry detail result-

<sup>1</sup> The Technical Committee on Industrial Classification is chaired by the Office of Federal Statistical Policy and Standards. The following agencies are represented on the Committee: Bureau of the Census, Bureau of Domestic Business Development, Bureau of Economic Analysis, Bureau of Labor Statistics, Bureau of Mines, Department of Agriculture, Department of Energy, Employment and Training Administration, Environmental Protection Agency, Federal Reserve System, Federal Trade Commission, General Services Administration, Internal Revenue Service, International Trade Commission, Securities and Exchange Commission, Small Business Administration, Social Security Administration.

<sup>2</sup> A separate classification for companies has been established in the 1974 *Enterprise Standard Industrial Classification Manual*.

<sup>1</sup> All Members concurred.  
<sup>2</sup> Section 401(d)(9)(B).

ing from economic growth or technological change, as well as for deleting industries no longer significant.

#### B. Principles for Review of the Classification

In the review of the structure and detail of the 1972 edition of the establishment *SIC Manual* (as amended for 1977), the Technical Committee will be guided by the general principles described below. These principles should also be taken into consideration by others, both within and outside of Government, in the preparation of proposed changes.

(1) *Structure of the classification.* The classification should conform to the actual structure of industry as it is found to exist in the American economy. It does not, therefore, follow any single principle, such as the use of the products, market structure, the nature of the raw materials, etc., neither in its detail nor in its basic structure. It is a general-purpose framework which can have its basic detail rearranged for various analytical purposes.

(2) *Unit of classification.* The SIC is designed to classify the establishments according to the kind of economic activity in which such units are engaged.

An establishment is an economic unit which produces goods or services—for example, a farm, a mine, a factory, a store. In most instances, the establishment is at a single physical location and is engaged in one, or predominantly one, type of economic activity for which an industry code is applicable.

Where a single physical location encompasses two or more distinct and separate economic activities for which different industrial classification codes seem applicable, such activities should be treated as separate establishments and classified in separate industries, provided it is determined that: (1) no one industry description in the Standard Industrial Classification includes such combined activities; (2) the employment in each such economic activity is significant; (3) such activities are not ordinarily associated with one another at common physical locations; and (4) reports can be prepared on the number of employees, their wages and salaries, and other establishment type data.

A kind-of-activity unit is a special type of establishment in that there is no restriction with respect to the geographic area in which the activity of the unit is carried on. The kind-of-activity unit—which applies to activities such as construction, transportation and communication—generally carries on the same kind of activity over a more or less wide geographic area. Frequently separate records relating to such activity for a given portion of the area are not maintained.

An establishment is not necessarily identical with a company or legal entity or enterprise, which may consist of one or more establishments. Also, it is to be distinguished from organizational sub-units or departments within an establishment. Supplemental interpretations of the definition of an establishment are included in the industry descriptions of the Standard Industrial Classification.

The SIC distinguishes between central administrative and auxiliary establishments—which are primarily engaged in providing management, general administrative, and support services for other establishments of the same company or enterprise—and oper-

ating establishments—which produce goods and services primarily for the general public or for establishments owned or controlled by other companies or enterprises.

Activities of the type performed at separate administrative offices and auxiliary establishments are, in fact, normally carried on as an integral part of individual operating establishments. Hence, this type of activity is only partially measured by the statistics on separately reported central administrative offices and auxiliary establishments.

(3) *Basis of classification.* Each establishment is to be classified according to its major activity as defined by the 4-digit industries. Major activity is to be determined by the product or group of products produced or handled, or service rendered. Ideally, the principal product or service should be determined by reference to "value added." In practice, however, it is rarely possible to obtain this information for individual products or services, and it becomes necessary to adopt some other criteria which may be expected to give approximately the same results.

(4) *Economic significance, specialization and coverage.* To be recognized as an industry, each group of establishments must have significance from the standpoint of number of persons employed, volume of business and other economic factors, such as number of establishments, payroll, or value added. These factors are taken into account in determining the economic significance of an industry by relating the totals for the industry to the average for all industries in the same economic division (mining, manufacturing, etc.).

Generally speaking, an existing SIC industry is considered to meet the requirements for economic significance if the average of the factors represents 10 percent or more of the average industry in the same division. A new industry, however, should attain a score of 20 percent or more of the average industry. Thus, for example, based on data from the 1972 Census of Manufactures, the average manufacturing industry has (dollar figures in millions): 711 establishments; 40,000 employees; \$356 payroll; \$785 value added; \$1,667 shipments.

Note that an exception to the principle of economic significance is found in the grouping of establishments into industries described as "not elsewhere classified."

In order that an industry at the most detailed level of classification properly reflect the activity being measured, the output of the establishments in the industry should (1) consist largely of those goods and services defining the industry and (2) account for the bulk of the specified goods and services provided by all establishments.

For manufacturing industries these factors are measured by the primary product specialization and coverage ratios, respectively.

The primary product specialization ratio describes the proportion of product shipments (both primary and secondary) of the industry represented by those products defining the industry. The coverage ratio is the proportion of the products defining the industry shipped by establishments classified in the industry to total shipments of such products by all manufacturing establishments.

\*Other criteria include data on value of production, shipments, sales or receipts, payroll, number of employees, etc.

The minimum ratio for primary product specialization is 82. When applying the specialization test, it is well to remember that an industry may sometimes specialize in only one product (Malt or Beet Sugar). In other instances, establishments in an industry may typically produce and thus specialize in a wide variety of products (as in Meat Packing Plants; Blast Furnaces, Steel Works, and Rolling and Finishing Mills; and Radio and Television Transmitting, Signaling, and Detection Equipment and Apparatus). For varying reasons, industries have through the years developed a diverse manner. In such instances it is important, therefore, that the specialization ratios be applied and interpreted in the light of the typical product mix defining the particular industry.

In applying coverage ratio factors, separate criteria are established for industries with "captive" output within and outside the industry as distinguished from industries primarily producing for commercial sale. The minimum coverage ratio for industries producing for commercial sale is 70, whereas the coverage ratio for all other industries is 50, except for industries producing from purchased materials (stage of process classification). The minimum coverage ratio for this latter group of industries (e.g., Blended and Prepared Flour, etc.) is 33. The coverage ratio for industries with significant "captive" counterparts (minimum coverage of 50 per cent) should be computed on the basis of the proportion of total output (shipments for sale, interplant transfers, and production for use within the same establishment) accounted for by the given industry compared with total output in all industries. Examples of such industries are Gray Iron Foundries, Automotive Stampings, and Iron and Steel Forgings.

Separate industries for establishments primarily engaged in activities that are rapidly expanding but which do not meet the quantitative measures in the usual reference statistics also may be established. Such separate industry identification will be based on statistical evidence of current size, growth by a specified time, and on the customary requirements, other than size, for establishing new industries. Proposed industries which meet the criteria only marginally should also show reasonable recent growth or evidence of future growth.

Proposed industries should generally meet all three criteria of economic significance, specialization, and coverage. However, industries which are considerably larger in economic significance than required may be acceptable even if they are slightly low in specialization or coverage. Thus, the specialization or coverage minimum requirement may be reduced by a percentage point for each doubling in economic size of the proposed industry.

#### C. Considerations in Evaluating Proposed Changes

Proposals for new or amended industry definitions (4-digit) as well as for the transfer of existing industries to other Industry Groups (3-digit), Major Groups (2-digit), or Economic Divisions, will be evaluated on the basis of the following considerations.

(1) Proposals for change should be accompanied by detailed statistical justification of adherence to the criteria described in section B above. It is recognized that exact data will not always be available nevertheless, as much evidence as possible should be

provided to justify a change. Changes that would cross 3-digit and 2-digit SIC lines require stronger justification than those that would be confined within an existing 3-digit Industry Group. Here, especially, the alteration in the size and composition of the Industry Group from which the products or services would be taken must be ascertained and the proposed revision should strengthen or clarify and not weaken the existing groups. Modifications crossing industry division lines, such as from manufacturing to nonmanufacturing, would call for even more careful consideration.

(2) In proposing new industries, it is essential to recognize the effect of the amendments on existing industries and on the continuity of statistical series. A significant weakening of a statistically sound existing industry or series would be an argument against constituting a new category. The position paper submitted by the proponent for a change must deal with the consequences on the industries affected. Each establishment is currently classifiable in some industry. The subdivision of an existing industry into two or more qualifying industries would permit the development of statistics comparable with the past and would, therefore, receive more favorable consideration. In order to permit historical comparability to the current SIC, the Technical Committee may transfer activities or industries across Group lines and maintain them within their new Group as temporary separate industries, even though they may not meet the criteria for size, specialization, or coverage. Each temporary industry will be combined with another industry in the new Group when the SIC is next revised.

(3) Proposed amendments will be evaluated on the basis of costs, in terms of time and money to government agencies, business and other users of the classification, incurred in changing current records and for collection of new data necessary for the revised code determination; and effect of change in terms of burden on respondent, or availability of information in respondent records.

(4) Proposed new industries will be evaluated on the basis of data from the most current Economic Census and other appropriate sources relevant to the criteria followed in establishing new industries.

(5) The Technical Committee will take cognizance of the International Standard Industrial Classification (ISIC) insofar as comparability with the United States establishment SIC is affected by proposed revisions.

(6) Proposed industries must contain a sufficient number of establishments so that agencies will be able to publish data within the constriction of not revealing the operations of individual producers.

(7) Consideration will be given to the capability for assessing the impact of international trade on proposed industries.

#### D. Clarification and Interpretation of Industry Definitions

Proposed amendments in present industry definitions having no effect on the scope of industrial activity included but designed to improve interpretations of the industry, as well as all proposed new index items and amendments in present index items, will be processed by the Subcommittee on Code Assignment and Interpretation.

#### E. Time Schedule

All proposed amendments to the 1972/1977 edition of the establishment *SIC Manual* should be submitted to the Chairman of the Technical Committee on Industrial Classification at the Office of Federal Statistical Policy and Standards, Department of Commerce, Washington, D.C., 20230, as soon as possible, but by no later than March 30, 1980, to permit transmittal of Technical Committee recommendations to the Office of Federal Statistical Policy and Standards by January 1, 1981. The revised edition of the classification will be effective on January 1, 1982.

#### F. Public Review Procedure

All amendments to the 1972/1977 edition of the establishment *SIC Manual* recommended by the Technical Committee will be made available for public review and comment prior to final action by the Committee. Those making proposals will be notified directly of actions taken; others will be advised through the *Federal Register*. Notice will probably be issued in January, 1981. A 60-day period will be allowed for appeals to actions proposed by the Technical Committee.

#### [3510-25-M]

### COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

#### ANNOUNCING IMPORT RESTRAINT LEVELS FOR CERTAIN COTTON, WOOL AND MAN-MADE FIBER TEXTILE PRODUCTS FROM THE REPUBLIC OF CHINA

AGENCY: Committee for the Implementation of Textile Agreements.

ACTION: Establishing import restraint levels for certain cotton, wool and man-made fiber textile products from the Republic of China during the twelve-month period beginning on January 1, 1979, pursuant to the bilateral agreement.

SUMMARY: The Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of June 8, 1978, as amended, between the Governments of the United States and the Republic of China establishes levels of restraint for cotton, wool and man-made fiber textile products in Categories 313, 331, 333/334/335, 338/339, 340, 341, 347/348, 434, 440, 445/446, 602, 631, 633/634/635, 638, 639, 640, 641, 643/644, 645/646, 647, 648, 659 (pt.) and 669 (pt.), produced or manufactured in the Republic of China and exported to the United States during the twelve-month period beginning on January 1, 1979 and extending through December 31, 1979. Accordingly, in the letter of published below the Chairman of the Committee for the Implementation of Textile Agreements directs the Commissioner of Customs to limit imports for consumption, or withdrawals from warehouse for consumption, of cotton, wool and man-made fiber textile products from the Republic of China in the following categories, in excess of the indicated twelve-month levels of restraint:

ucts in the foregoing categories to the designated amounts. The levels of restraint for Categories 638 and 645/646 have been adjusted to reflect carryforward used during the agreement year that began on January 1, 1978. The levels of restraint for Categories 331, 338/339, 633/634/635, 639, and 643/644 have been adjusted to reflect charges for overshipments during the agreement period which began on January 1, 1977, as agreed in consultations between the two governments.

(A detailed description of the textile categories in terms of T.S.U.S.A. numbers was published in the *FEDERAL REGISTER* on January 4, 1978 (43 F.R. 864), as amended on January 25, 1978 (43 F.R. 3421), March 3, 1978 (43 F.R. 8828), June 22, 1978 (43 F.R. 26773), and September 5, 1978 (43 F.R. 39408)).

This letter and the actions taken pursuant to it are not designed to implement all of the provisions of the bilateral agreement, but are designed to assist only in the implementation of certain of its provisions.

EFFECTIVE DATE: January 1, 1979.

U.S. DEPARTMENT OF COMMERCE, THE ASSISTANT SECRETARY FOR INDUSTRY AND TRADE, Washington, D.C. December 22, 1978.

#### COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

COMMISSIONER OF CUSTOMS, Department of the Treasury, Washington, D.C. 20229

DEAR MR. COMMISSIONER: Under the terms of the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, as extended on December 15, 1977; pursuant to the Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of June 8, 1978, as amended, between the Governments of the United States and the Republic of China; and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended, by Executive Order 11951 of January 6, 1977, you are directed to prohibit, effective on January 1, 1979 and for the twelve-month period extending through December 31, 1979, entry into the United States for consumption, and withdrawal from warehouse for consumption, of cotton, wool and man-made fiber textile products, from the Republic of China in the following categories, in excess of the indicated twelve-month levels of restraint:

#### CATEGORY AND TWELVE-MONTH LEVEL OF RESTRAINT

313 41,144,338 square yards.

331 422,526 dozen pairs.  
 333/334/335 94,920 dozen of which not more than 49,711 dozen shall be in Cat. 333/334 and not more than 59,447 dozen shall be in Cat. 335.  
 338/339 446,508 dozen.  
 340 601,518 dozen.  
 341 348,442 dozen.  
 347/348 785,346 dozen of which not more than 385,709 dozen shall be in Cat. 347 and not more than 595,973 dozen shall be in Cat. 348.  
 434 29,926 dozen.  
 440 13,053 dozen.  
 445/446 122,570 dozen.  
 602 86,207 pounds.  
 631 2,109,286 dozen pairs.  
 633/634/635 1,238,972 dozen of which not more than 837,878 dozen shall be in Cat. 633/634 and not more than 599,826 dozen shall be in Cat. 635.  
 638 1,336,655 dozen.  
 639 4,889,523 dozen.  
 640 3,006,961 dozen.  
 641 620,097 dozen.  
 643/644 127,825 dozen of which not more than 70,185 dozen shall be in Cat. 643 and not more than 70,914 dozen shall be in Cat. 644.  
 645/646 3,497,948 dozen.  
 647 1,762,538 dozen.  
 648 2,940,200 dozen.  
 659 (only T.S.U.S.A. No. 703.1000) 115,384 pounds.  
 669 (only T.S.U.S.A. No. 355.4560) 80,609 pounds.

In carrying out this directive, entries of textile products in the foregoing categories, except Categories 602, 659 (pt.), and 669 (pt.), produced or manufactured in the Republic of China, which have been exported to the United States prior to January 1, 1979, shall, to the extent of any unfilled balances, be charged against the levels of restraint established for such goods during the twelve-month period beginning on January 1, 1978 and extending through December 31, 1978. In the event the levels of restraint established for that period have been exhausted by previous entries, such goods shall be subject to the levels set forth in this letter. Textile products in Categories 602, 659 (pt.), and 669 (pt.) which have been exported before January 1, 1979 shall not be subject to this directive.

The levels of restraint set forth above are subject to adjustment in the future according to the provisions of the bilateral agreement of June 8, 1978, as amended, between the Governments of the United States and the Republic of China, which provide, in part, that: (1) within the aggregate and group limits specific ceilings may be exceeded by designated percentages; (2) these same levels may be increased for carryover and carryforward up to 11 percent of the applicable category limit; and (3) administrative arrangements or adjustments may be made to resolve minor problems arising in the implementation of the agreement. Any appropriate adjustments under the provisions of the bilateral agreement, referred to above, will be made to you by letter.

A detailed description of the textile categories in terms of T.S.U.S.A. numbers was published in the FEDERAL REGISTER on January 4, 1978 (43 F.R. 884), as amended on January 25, 1978 (43 F.R. 3421), March 3, 1978 (43 F.R. 8828), June 22, 1978 (43 F.R. 26773), and September 5, 1978 (43 F.R. 39408).

In carrying out the above directions, entry into the United States for consumption shall be construed to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government of the Republic of China and with respect to imports of cotton, wool and man-made fiber textile products from the Republic of China have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely,

EDWARD GOTTFRIED,  
*Acting Chairman, Committee for  
 the Implementation of Textile  
 Agreements.*

#### ADJUSTING THE IMPORT RESTRAINT LEVELS FOR CERTAIN MAN-MADE FIBER APPAREL PRODUCTS FROM THE REPUBLIC OF KOREA

DECEMBER 21, 1978.

AGENCY: Committee for the Implementation of Textile Agreements.

ACTION: Restoring a portion of carryforward yardage (39,825 dozen), previously deducted from the level of restraint established for man-made fiber knit shirts and blouses in Category 638/639, produced or manufactured in the Republic of Korea, bringing the level to 5,281,079 dozen during the twelve-month period which began on January 1, 1978.

(A detailed description of the textile categories in terms of T.S.U.S.A. numbers was published in the FEDERAL REGISTER on January 4, 1978 (43 F.R. 884), as amended on January 25, 1978 (43 F.R. 3421), March 3, 1978 (43 F.R. 8828), June 22, 1978 (43 F.R. 26773), and September 5, 1978 (43 F.R. 39408).)

SUMMARY: The Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of December 23, 1977, as amended, between the Governments of the United States and the Republic of Korea provides, among other things, for the borrowing of designated percentages of yardage from the succeeding year's levels and deducting those amounts from the levels in the succeeding year. It has been determined in technical consultations between representatives of the two governments that excessive charges amounting to 39,825 dozen were made in the previous agreement year, to the Category ceiling comparable to Category 638/639 causing the Government

of the Republic of Korea to request application of more carryforward yardage than needed to cover projected shipments. Action is being taken, therefore, to restore this portion of the carryforward, the total amount of which was deducted previously.

EFFECTIVE DATE: December 21, 1978.

#### FOR FURTHER INFORMATION CONTACT:

Robert C. Woods, International Trade Specialist, Office of Textiles, U.S. Department of Commerce, Washington, D.C. 20230 (202/377-5423).

#### SUPPLEMENTARY INFORMATION:

On November 7, 1978, there was published in the FEDERAL REGISTER (43 FR 51830) a letter dated November 2, 1978, from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs which deducted carryforward yardage applied to textile products in various categories, including Category 638/639, produced or manufactured in the Republic of Korea.

The letter published below from the Chairman of the Committee for the Implementation of Textile Agreements amends the directive of November 2, 1978, directing the Commissioner of Customs to prohibit entry into the United States for consumption or withdrawal from warehouse for consumption of textile products in Category 638/639 in excess of an adjusted level of restraint of 5,281,079 dozen during the agreement year which began on January 1, 1978 and extends through December 31, 1978.

ARTHUR GAREL,  
*Acting Chairman, Committee for  
 the Implementation of Textile  
 Agreements.*

COMMITTEE FOR THE IMPLEMENTATION OF  
 TEXTILE AGREEMENTS

DECEMBER 21, 1978.

COMMISSIONER OF CUSTOMS,  
 Department of the Treasury,  
 Washington, D.C. 20229.

DEAR MR. COMMISSIONER: This directive amends, but does not cancel, the directive of November 2, 1978 from the Chairman of the Committee for the Implementation of Textile Agreements which directed you to adjust the levels of restraint established for specified categories of cotton, wool and man-made fiber textile products, produced or manufactured in the Republic of Korea.

Under the terms of the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, as extended on December 15, 1977; pursuant to the Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of December 23, 1977, as amended, between the Governments of the United States and the Republic of Korea; and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended by Executive Order 11951 of January 6, 1977, you are di-

rected further to amend, effective on December 21, 1978, the adjusted twelve-month level of restraint established in the directive of November 2, 1978 for Category 638/639 to the following:

Category Amended 12-Month Level of Restraint  
 638/639 5,281,079 dozen

The level of restraint has not been adjusted to reflect any imports after December 31, 1977.

The action taken with respect to the Government of the Republic of Korea and with respect to imports of man-made fiber textile products from the Republic of Korea have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely,

ARTHUR GAREL,  
*Acting Chairman, Committee for the  
 Implementation of Textile Agree-  
 ments.*

[3510-25-M]

#### ANNOUNCING IMPORT RESTRAINT LEVEL FOR CERTAIN MAN-MADE FIBER YARN FROM THE UNION OF SOUTH AFRICA

DECEMBER 21, 1978.

Under the terms of Article 3.6 of the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, as extended on December 15, 1977, the Government of the United States has informed the Government of the Union of South Africa that, effective on January 1, 1979 and for the twelve-month period extending through December 31, 1979, imports of man-made fiber yarn in Category 604 (only T.S.U.S.A. 310.5049) will be limited to 1,866,000 pounds.

Accordingly, there is published below a letter from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs directing that, effective on January 1, 1979 and extending through December 31, 1979, entry and withdrawal from warehouse for consumption in the United States of man-made fiber yarn in Category 604 (only T.S.U.S.A. 310.5049), produced or manufactured in the Union of South Africa and exported to the United States during that twelve-month period, shall be limited to 1,866,000 pounds.

ARTHUR GAREL,  
*Acting Chairman, Committee for  
 the Implementation of Textile  
 Agreements.*

#### COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

DECEMBER 21, 1978.

COMMISSIONER OF CUSTOMS,  
 Department of the Treasury,  
 Washington, D.C. 20229

DEAR MR. COMMISSIONER: Under the terms of the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, as extended on December 15, 1977, and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended by Executive Order 11951 of January 6, 1977, you are directed to prohibit, effective on January 1, 1979 and for the twelve-month period extending through December 31, 1979, entry into the United States for consumption and withdrawal from warehouse for consumption of man-made fiber textile products in Category 604 (only T.S.U.S.A. 310.5049), produced or manufactured in the Union of South Africa, in excess of 1,866,000 pounds.

Man-Made fiber textile products in Category 604 (only T.S.U.S.A. 310.5049) which have been exported to the United States before January 1, 1979 shall not be subject to this directive.

A detailed description of the categories in terms of T.S.U.S.A. numbers was published in the FEDERAL REGISTER on January 4, 1978 (43 FR 884), as amended on January 25, 1978 (43 FR 3421), March 3, 1978 (43 FR 8828), June 22, 1978 (43 FR 26773), and September 5, 1978 (43 FR 39408).

In carrying out the above directions, entry into the United States for consumption shall be construed to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government of the Union of South Africa and with respect to imports of man-made fiber textile products from the Union of South Africa have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely,

ARTHUR GAREL,  
*Acting Chairman, Committee for the  
 Implementation of Textile Agree-  
 ments.*

#### CONSUMER PRODUCT SAFETY COMMISSION.

[CPSC Docket No. 78-6]

#### CONSUMER PRODUCT SAFETY ACT

##### Publication of Complaint

Under provisions of its Rules of Practice for Adjudicative Proceedings (16 CFR 1025), the Commission must publish in the FEDERAL REGISTER Complaints which it issues under the Poison Prevention Packaging Act.

Printed below is a Complaint in the matter of The Ronson Corporation and Louis V. Aronson II, individually and President of Ronson Corporation.

In the matter of RONSON CORPORATION, a corporation, One Ronson Road, Bridgewater, New Jersey 08807 and LOUIS V. ARONSON, II, individually and as President of Ronson Corporation.

[CPSC Docket No. 78-6]

#### COMPLAINT

##### NATURE OF THE ACTION

1. This is an action pursuant to section 4(c) of the Poison Prevention Packaging Act of 1970 (hereinafter "PPPA"), 15 U.S.C. 1473(c), to provide to Respondents Ronson Corporation, a corporation, and Louis V. Aronson, II, individually and as President of Ronson Corporation, (hereinafter "Respondents") an opportunity for a hearing on the matter of whether or not the Consumer Product Safety Commission (hereinafter "Commission") should issue an order to require that cigarette lighter fuel manufactured by Respondents and designated as "Ronsonol Lighter Fluid", be packaged exclusively in "special packaging," as that term is defined in section 2(4) of the PPPA, 15 U.S.C. 1471(4).

2. The Commission has determined, pursuant to section 3 of the PPPA, 15 U.S.C. 1472, that the degree or nature of the hazard to children in the availability of cigarette lighter fuel by reason of its packaging, is such that special packaging is required to protect children from serious personal injury or serious illness resulting from handling, using, or ingesting of cigarette lighter fuel, and, accordingly, has established a standard for special packaging for such substances at 16 CFR 1700.14(a)(7). Respondent's "Ronsonol Lighter Fluid" cigarette lighter fuel is subject to that standard.

3. For the purpose of making any household substance which is subject to a special standard established under section 3 of the PPPA, 15 U.S.C. 1472, readily available to the elderly or handicapped unable to use such substance when packaged in conformance with the applicable standard, section 4(a) of the PPPA, 15 U.S.C. 1473(a) authorizes a manufacturer or packer to market a single size of the substance in packaging which does not comply with the standard. In those instances where a manufacturer or packer of such household substance requiring special packaging does market a single noncomplying package of the substance, the Commission has authority under section 4(c) of the PPPA, 15 U.S.C. 1473(c), to order that the household substance be packaged exclusively in special packaging if the Commission finds that the manufacturer (or packer) is not supplying the product in popular size packages which comply with the applicable standard.

4. The PPPA and its legislative history indicate Congress intended that distribution in "special packaging" would be the general marketing practice for products subject to regulation and that the noncomplying exemption authorized under section 4(a) of the PPPA, 15 U.S.C. 1473(a), would be used only to supply a sufficient amount of noncomplying packaged units to satisfy the demands of the elderly and handicapped.

#### JURISDICTION

5. Jurisdiction of this matter rests on sections 3 and 4(c) of the PPPA, 15 U.S.C. 1472 and 1473(c), 16 CFR 1700.14(a)(7), and section 30(a) of the Consumer Product Safety Act (hereinafter "CPSA"), 15 U.S.C. 2079(a).

#### THE PARTIES

6. The staff of the Commission, employed pursuant to section 4(g)(2) of the CPSA, 15 U.S.C. 2053(g)(2), as being necessary in the execution of the Commission's functions, is responsible, *inter alia*, for bringing to the attention of the Commission those matters which relate to administration and enforcement of the PPPA.

7. Respondent Ronson Corporation is a corporation organized and existing under the laws of the State of New Jersey, with its principal place of business located at One Ronson Road, Bridgewater, New Jersey 08807.

8. Respondent Louis V. Aronson, II is President of Ronson Corporation and as such is primarily responsible for the acts, practices and policies, including packaging of products, of Respondent Ronson Corporation.

9. Whenever this complaint refers to any act of Respondents, the reference be deemed to mean that the directors, officers, employees, agents, or representatives of the Respondent Ronson Corporation did authorize such act while actively engaged in the management, direction, or control of the affairs of the Respondent Ronson Corporation and while acting within the scope of their employment.

#### FACTUAL ALLEGATIONS

10. Respondents package Ronsonol Lighter Fluid, which is a product requiring special packaging under 16 CFR 1700.14(a)(7), in 4½, 7 and 12 ounce packages. The 7 and 12 ounce sizes bear child-resistant closures which appear to comply with the special packaging standards. The 4½ ounce size is marketed in noncomplying packages for use by the elderly and handicapped as an exempt size under section 4(a) of the PPPA, 15 U.S.C. 1473(a). The 4½ ounce noncomplying size amounts to at least 60-65% of Respondents' production of Ronsonol Lighter Fluid.

11. Statistical data derived from the Bureau of the Census, U.S. Department of Commerce, indicates that, at an extreme maximum, no more than 33% of the United States of the United States population would have occasion to seek a noncomplying size of a general use regulated product such as cigarette lighter fuel.

12. On or about September 30, 1977, the Commission staff sent a letter to Respondents offering them the opportunity to submit, in writing within 15 days, the steps which Respondents intended to initiate to bring Ronsonol Lighter Fluid into compliance with the purposes of the section 4(a) exemption.

13. On or about November 8, 1977, Respondents, through counsel, responded to the Commission staff's letter, alleging that Respondent Ronson Corporation "has complied not only with the letter of the statute [PPPA] and the regulations, but also with the spirit of these as well as with the intentions of Congress . . . ."

#### PROPOSED COMMISSION ACTION

14. Based upon the applicable provisions of law and the factual allegations of the Commission staff, as well as Respondents' admission that 60-65% of the total volume of production of Ronsonol Lighter Fluid is packaged in noncomplying packaging, the Commission hereby will afford Respondents the opportunity to be heard in a full evidentiary hearing on the record on the issue of whether or not the Commission should issue an order, substantially in the format of Exhibit A hereto, to require the exclusive use of "special packaging", as defined in 15 U.S.C. 1471(4), for Respondents' cigarette lighter fuel including that designated as Ronsonol Lighter Fluid, as necessary to accomplish the purposes of the PPPA, by the authority contained in 15 U.S.C. 1473(c) and 16 CFR Part 1700.

15. If Respondents desire to be heard, Respondents, as well as the Commission staff, shall, for the purposes of such hearing (including the filing of an answer to the complaint by Respondents) be subject to the procedural requirements set forth in the Interim Rules of Practice for Adjudicative Proceedings, 16 CFR Part 1025 (42 FR 31431 (June 21, 1977)), and the presiding officer for such hearing shall be an Administrative Law Judge designated by the Commission.

By the Commission.

SADYE E. DUNN,  
Acting Secretary, Consumer  
Product Safety Commission.

DECEMBER 18, 1978.

[6450-01-M]

#### DEPARTMENT OF ENERGY

##### POWER MARKETING RATES

##### Delegation Order for Confirmation and Approval

AGENCY: Department of Energy.

ACTION: Notice of delegation order.

SUMMARY: The Secretary of Energy has delegated to the Assistant Secretary for Resource Applications the authority to develop, acting by and through the administrators, and to confirm, approve and place in effect on an interim basis, power and transmission rates for the five power marketing administrations; and to the Federal Energy Regulatory Commission the authority to confirm and approve on a final basis or to disapprove such rates. Refunds are authorized if rates finally approved are lower than rates approved on an interim basis.

DATES: The order is effective January 1, 1979.

SUPPLEMENTAL INFORMATION: The order replaces Delegation Order No. 0204-4 (October 1, 1977) which gave certain authority to confirm and approve or to establish rates to the Economic Regulatory Administration.

FOR FURTHER INFORMATION CONTACT:

Richard K. Pelz, Office of General Counsel, Department of Energy, 12th and Pennsylvania Avenue NW., Washington, D.C. 20461, 202-633-9341.

Issued in Washington, D.C., December 22, 1978.

GEORGE S. McISAAC,  
Assistant Secretary for  
Resource Applications.

#### DEPARTMENT OF ENERGY

[Delegation Order No. 0204-33]

TO THE ASSISTANT SECRETARY FOR RESOURCE APPLICATIONS AND TO THE FEDERAL ENERGY REGULATORY COMMISSION

Pursuant to the authority vested in me as Secretary of Energy and by Sections 203(a), 301(b), 302(a), 402(e), 641, 642, 643 and 644 of the Department of Energy Organization Act (Pub. L. 95-91):

1. There is hereby delegated to the Assistant Secretary for Resource Applications the authority to develop, acting by and through the administrators, power and transmission rates for the power marketing administrations, and the authority to confirm, approve, and place in effect such rates on an interim basis, for such period or periods as he may provide, subject to refund with interest as determined by the Federal Energy Regulatory Commission in accordance with Section 3 hereof. No rate developed by the Assistant Secretary shall become effective on a final basis unless and until such rate is confirmed and approved by the Federal

Energy Regulatory Commission acting under Section 2 hereof.

2. There is hereby delegated and assigned to the Federal Energy Regulatory Commission (FERC) the authority to confirm and approve on a final basis, or to disapprove, rates developed by the Assistant Secretary under Section 1, and to exercise the cost allocation authority contained in Section 7 of the Bonneville Project Act and Section 2 of the River and Harbor Act of 1945, 59 Stat. 10, 21, 22.

3. In the event a rate developed by the Assistant Secretary is disapproved by the FERC, the Assistant Secretary shall within 120 days of such additional time periods as the FERC may provide, develop and submit to the FERC a substitute rate for action by the FERC under Section 2 hereof. A rate confirmed and approved by the Assistant Secretary on an interim basis that is disapproved by the FERC shall remain in effect, as provided by the Assistant Secretary, until a substitute rate is confirmed and approved on a final basis by the FERC. Provided, That if the Assistant Secretary does not file a substitute rate within 120 days or such greater time as the FERC may provide, and if the rate has been disapproved because the FERC determined that it would result in total revenues in excess of those required by law, the rate last previously confirmed and approved on a final basis will become effective on a date and for a period determined by the FERC and revenues collected in excess of such rate during the interim period will be refunded with interest to the extent determined by the FERC. If a substitute rate confirmed and approved on a final basis by the FERC is lower than the rate in effect on an interim basis, any overpayment shall be refunded with interest as determined by the FERC. If a substitute rate confirmed and approved on a final basis by the FERC is higher than the rate in effect on an interim basis, such rate shall become effective on a subsequent date set by the FERC. If at any time it is determined by the FERC that the administrative cost of a refund would outweigh the amount to be refunded, no refund will be required.

4. For purposes of this order—

(a) "Administrator" means the Administrator of a power marketing administration.

(b) "Power marketing administration" means the Alaska Power Administration, the Bonneville Power Administration, the Southeastern Power Administration, the Southwestern Power Administration, and the Western Area Power Administration.

5. This order is effective January 1, 1979.

Issue at Washington, D.C., December 21, 1978.

JAMES R. SCHLESINGER,  
Secretary of Energy.

#### WESTERN NEW YORK NUCLEAR SERVICE CENTER, WEST VALLEY STUDY

##### Public Hearing; Announcement of Location

The Department of Energy hereby gives notice that a public hearing will be held for the purpose of receiving public comment on its final report concerning the disposition of the nuclear facilities at the Western New York Nuclear Service Center in West Valley, New York.

The hearing will be held from 9:00 a.m. on Saturday, January 13, 1979 in the Auditorium of the Buffalo and Erie County Public Library, Northwest corner of the Clinton and Ellicott Street intersection off Lafayette Square in downtown Buffalo.

Persons wishing to present oral comments should write to the DOE regional office at the address below in order to be assigned a scheduled time.

Persons wishing to submit written comments in advance of the hearing may send them to the address below. Written comments will also be accepted at the hearing on January 13.

To be scheduled to speak, to submit written comments prior to the hearing, or to obtain a copy of the report, write to:

Robert A. Low, Regional Representative, U.S. Department of Energy (Mail Code WV), 26 Federal Plaza, New York, N.Y. 10007.

After January 13, 1979, and no later than February 16, 1979, written comments may also be submitted to:

Dr. Goetz K. Oertel, Acting Director, Division of Nuclear Products, Office of Nuclear Waste Management, U.S. Department of Energy, Mail Station B-107, Washington, D.C. 20545.

Issued this day December 22, 1978, in Washington, D.C.

PHILLIP S. HUGHES,  
Assistant Secretary, Intergovernmental and Institutional Relations.

#### Federal Energy Regulatory Commission

[Docket Nos. G-4756, et al.]

##### AMOCO PRODUCTION CO., ET AL.

Applications for Certificates, Abandonment of Service and Petitions to Amend Certificates<sup>1</sup>  
DECEMBER 15, 1978.

Take notice that each of the Applicants listed herein has filed an appli-

<sup>1</sup>This notice does not provide for consolidation for hearing of the several matters covered herein.

cation or petition pursuant to Section 7 of the Natural Gas Act for authorization to sell natural gas in interstate commerce or to abandon service as described herein, all as more fully described in the respective applications and amendments which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before January 8, 1979, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates or the authorization for the proposed abandonment is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or to be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

\*Applicant is filing to terminate certificate G-4756 previously issued to it and relate Rate Schedule No. 39 to reflect it is now being covered by certificates issued to Hassie Hunt Trust in Rate Schedules 4 and 37.

\*Applicant is filing under Gas Purchase Contract dated Apr. 15, 1969, amended by amendment dated Nov. 1, 1978 whereby Transcontinental has agreed to amend said contract to revise the deregulation paragraph and include an excess royalty provision.

\*Applicant requests that the certificate be amended to reflect that effective August 1, 1975, Applicant replaced Inexco Oil Co. as operator of the Madden Deep Unit.

\*Applicant is willing to accept the applicable national rate pursuant to Opinion No. 770, as amended.

\*Applicant is filing under Gas Purchase Agreement dated Sept. 20, 1978.

\*Applicant is willing to accept a permanent certificate in accordance with Opinion No. 749, as amended.

\*Applicant is willing to accept an initial rate determined in accordance with the Natural Gas Policy Act of 1978, part 271, subpart D, section 104.

\*Purchaser (Oklahoma Natural Gas Gathering Corp.) is unable to economically justify a 2½-mile pipeline connection and has granted a release of the Early No. 1 Well located in Sec. 36-T22N-R12W under Ladd Petroleum Corps. Gas Rate Schedule No. 30.

\*The landowner would like to buy gas from this well to run his motor to pump water for irrigation purposes. The gas would be metered and sold to him at wellhead price to be used only for irrigation purposes.

\*Effective as of July 1, 1978, Applicant acquired all of Kewanee's interest in properties covered by contract dated Sept. 15, 1922 as amended.

\*Effective as of July 1, 1978, Applicant acquired all of Kewanee's interest in properties covered by contract dated Mar. 16, 1959 as amended.

\*Applicant is willing to accept a permanent certificate in conformance with section 104 of the Natural Gas Policy Act of 1978.

\*Gatherer Coastal State because of operating system at a loss due to low price and insufficient volume of gas, ceased transporting, compressing and dehydrating gas on Jan. 7, 1977. They have filed for abandonment of their system, Docket No. G-7115, et al. There is no outlet for the very limited volume of gas.

\*Effective as of July 1, 1978, Applicant acquired all of Kewanee's interest in properties covered by contract dated May 1, 1959, as amended.

\*Applicant is filing under and pursuant to that certain Addendum No. 4 to Gas Purchase Contract dated Sept. 1, 1978.

\*Not used.

\*Applicant is willing to accept the applicable national rate pursuant to Opinion No. 770, as amended, escalated as provided in the Natural Gas Policy Act of 1978.

\*Applicant is filing under that certain Addendum No. 3 to Gas Purchase Contract dated Aug. 21, 1978.

\*Applicant and Purchaser are affiliated.

\*Effective as of July 1, 1978, Applicant acquired all of Kewanee's interest in properties covered by contract dated Aug. 13, 1971, as amended.

\*Applicant is willing to accept the rate provided in section 102(b) of the Natural Gas Policy Act of 1978.

\*Effective as of July 1, 1978, Applicant acquired all of Kewanee's interest in properties covered by contract dated Mar. 28, 1955, as amended.

\*Effective as of July 1, 1978, Applicant acquired all of Kewanee's interest in properties covered by contract dated Jan. 30, 1957, as amended.

\*Effective as of July 1, 1978, Applicant acquired all of Kewanee's interest in properties covered by contract dated Sept. 30, 1974, as amended.

\*Applicant is filing for the new natural gas ceiling price, as set forth in section 102 of the Natural Gas Policy Act of 1978.

\*Applicant is willing to accept the applicable national rate pursuant to Opinion No. 770-A, as amended by section 104 of the Natural Gas Policy Act of 1978.

\*Applicant is willing to accept the applicable national rate pursuant to Opinion No. 770, as amended, or paragraph (d) of section 102 or section 104 of the Natural Gas Policy Act of 1978 if qualified.

[Docket No. CP79-100]

BLUE DOLPHIN PIPE LINE CO.

Notice of Application

DECEMBER 19, 1978.

Take notice that on December 4, 1978, Blue Dolphin Pipe Line Company (Applicant), P.O. Box 2099, Hous-

ton, Texas 77001, filed in Docket No. CP79-100 an application pursuant to Section 7(c) of the Natural Gas Act and Section 157.7(c) of the Regulations thereunder (18 CFR 157.7(c)) for a certificate of public convenience and necessity authorizing the construction, during the calendar year 1979, and operation of facilities to make miscellaneous rearrangements on its system, all as more fully set forth in the appli-

cation on file with the Commission and open to public inspection.

The purpose of this budget-type application is to augment Applicant's ability to act with reasonable dispatch in making miscellaneous rearrangements which would not result in any material change in the transportation service presently rendered by Applicant for Dow Chemical Company. Total cost of the proposed facilities would not exceed \$10,000.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 8, 1979, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

(Docket No. ER79-100)

## CENTRAL HUDSON GAS & ELECTRIC CORP.

### Notice of Filing

DECEMBER 19, 1978.

Take notice that Central Hudson Gas & Electric Corporation (Central Hudson) on December 11, 1978, tendered for filing as a supplement to its Rate Schedule F.P.C. No. 22 a letter of notification dated November 28, 1978 from Central Hudson to New York State Electric & Gas Corporation. Central Hudson states that this letter provides for an increase in the monthly operation and maintenance charge from \$1,868.80 to \$1,999.62 in accordance with Article IV.2 of its Rate Schedule F.P.C. No. 22.

Central Hudson proposes an effective date of January 1, 1979, and therefore requests waiver of the Commission's notice requirements.

According to Central Hudson copies of this filing have been sent to the New York State Electric & Gas Corporation and the Public Service Commission of New York.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 8, 1979. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this petition are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

(Docket No. ER79-101)

## CENTRAL LOUISIANA ELECTRIC CO., INC.

### Notice of Filing

DECEMBER 19, 1978.

Take notice that on December 11, 1978, Central Louisiana Electric Company, Inc. (CLECO) tendered for filing a letter agreement with Cajun Electric Power Cooperative, Inc. (CAJUN) dated December 4, 1978 pursuant to which the parties have agreed that:

1. CLECO consents to the assignment to CAJUN of two Agreements for Electric Service between CLECO

and Southwest Louisiana Electric Membership Corporation (SLEMCO) dated October 2, 1978, (CLECO Rate Schedule FERC No. 30) and October 22, 1975 (CLECO Rate Schedule FERC No. 32);

2. CAJUN will terminate those Agreements; and

3. CLECO will continue to provide service to CAJUN at the delivery points to which those Agreements were applicable in accordance with the Electric System Interconnection Agreement between CAJUN and CLECO dated April 27, 1976 (CLECO Rate Schedule FERC No. 21).

CLECO states that it has estimated that it would have received increased revenues of \$454,235 from service to the delivery points which are the subject of this letter agreement if it had been in effect during 1978.

CLECO requests an effective date of January 1, 1979, and therefore requests waiver of the Commission's notice requirements.

Copies of this filing were served upon CAJUN, SLEMCO and the Louisiana Public Service Commission, according to CLECO.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8 and 1.10). All such petitions or protests should be filed on or before January 8, 1979. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

(Docket No. ER79-103)

## DUKE POWER CO.

### Notice of Application

DECEMBER 19, 1978.

Take notice that Duke Power Company (Duke Power) tendered for filing on December 11, 1978 a supplement to the Company's Electric Power Contract with the City of Greenwood. Duke Power states that this contract is on file with the Commission and has been designated Duke Power Company Rate Schedule FPC No. 250.

Duke Power further states that the Company's contract supplement, made at the request of the customer and with agreement obtained from the customer, provides for the following increases in contract demand: Delivery Point No. 1 from 10,000 kW to 12,700 kW. Duke Power indicates that this supplement also includes an estimate of sales and revenue for 12 months immediately preceding and for the 12 months immediately succeeding the effective date.

Duke Power proposes an effective date of November 17, 1978, and therefore requests waiver of the Commission's notice requirements.

According to Duke Power copies of this filing were mailed to the City of Greenwood and the South Carolina Public Service Commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 8, 1979. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

(Docket Nos. CS89-6, et al.)

## FREEPORT OIL COMPANY, A DELAWARE CORP.

Applications for "Small Producer" Certificates:  
DECEMBER 14, 1978.

Take notice that each of the Applicants listed herein has filed an application pursuant to Section 7(c) of the Natural Gas Act and Section 157.40 of the Regulations thereunder for a "small producer" certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce, all as more fully set forth in the applications which are on file with the Commission and open to public inspection.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 10

<sup>1</sup>This notice does not provide for consolidation for hearing of the several matters covered herein.

days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before December 22, 1978, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission in its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

(Docket No. ID-1809)

HERBERT W. SEARS

Notice of Application

DECEMBER 19, 1978.

Take notice that on November 30, 1978, Herbert W. Sears, (Applicant), filed an application pursuant to Section 305(b) of the Federal Power Act to hold the following positions:

Director, The Connecticut Light and Power Company, Public Utility.

Director, The Hartford Electric Light Company, Public Utility.

Director, Western Massachusetts Electric Company, Public Utility.

Director, Holyoke Water Power Company, Public Utility.

Director, Holyoke Power and Electric Company, Public Utility.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 2, 1979. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMBS,  
Secretary.

(FR Doc. 78-36100 Filed 12-27-78; 8:45 am)

## [6740-02-M]

(Docket Nos. RI74-188 and RI75-21)

INDEPENDENT OIL &amp; GAS ASSOCIATION OF WEST VIRGINIA

Notice of Petition for Declaratory Order

DECEMBER 19, 1978.

Take notice that on December 13, 1978, Columbia Gas Transmission Corporation (Columbia) filed a petition for a declaratory order pursuant to Section 1.7 of the Commission's Rules of Practice and Procedure.

Columbia requests that the Commission issue an order clarifying that the area rate clauses contained in the settlement agreements approved by the Commission in the above-referenced dockets authorize affected producers to collect increased prices under the

Natural Gas Policy Act of 1978 where applicable. Columbia further requests that the Commission confirm that such area rate clauses do not constitute indefinite escalator clauses within the meaning of Section 270.205 of the Commission's Policy and Interpretations under such Act.

Any person desiring to be heard or to make any protest with reference to said petition should on or before January 9, 1979, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding.

Any party wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMBS,  
Secretary.

(FR Doc. 78-36101 Filed 12-27-78; 8:45 am)

## [6740-02-M]

(Docket No. CI61-592, et al.)

LADD PETROLEUM CORP. (SUCCESSOR TO LVO CORP.)

Notice of Petition of Ladd Petroleum Corporation for Amendment of "Order Amending Orders, etc." Issued November 13, 1975

DECEMBER 19, 1978.

Take notice that on September 20, 1978, Ladd Petroleum Corporation (Ladd), 830 Denver Club Building, Denver, Colorado 80202, filed in Docket No. CI61-592, et al., a petition to amend the "Order Amending Orders Issuing Certificates of Public Convenience and Necessity, Substituting Respondent, Redesignating Proceedings, Accepting Notices of Succession and Certificates of Adoption for Filing, Redesignating FPC Gas Rate Schedules, and Terminating Small Producer Certificate" issued November 13, 1975 in the captioned proceeding, by deleting from that order all references to the certificates and sales corresponding to the related gas rate schedules.

Ladd recently has determined that properties covered by nine of Ladd's gas rate schedules redesignated by the Commission's order were sold by LVO Corporation (LVO) prior to LVO's merger into Utah International Inc. At the time of the merger LVO did not own these properties, and therefore, Ladd did not acquire any right or interest in them as a result of Utah's as-

signment to Ladd. However, Ladd's application filed with the Commission on February 18, 1975, to succeed to LVO's interests inadvertently and mistakenly included the LVO certificate dockets and rate schedules related to sales of gas from these properties. Consequently, the Commission's order of November 13, 1975, inadvertently and improvidently provided for Ladd's succession to the certificates and related FPC (FERC) gas rate schedules associated with properties no longer held by LVO at the time of its merger into Utah, according to Ladd's petition.

Any person desiring to be heard or to make any protest with references to said petition, on or before January 8, 1979, should file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,  
Secretary.

(FR Doc. 78-36102 Filed 12-27-78; 8:45 am)

## [6740-02-M]

(Docket Nos. RP75-96 and RP76-100)

MICHIGAN WISCONSIN PIPE LINE CO.

Order Approving Stipulation and Agreements Ordering Refunds and Severing Certain Issues for Separate Disposition

DECEMBER 19, 1978.

On September 3, 1976, and January 31, 1977, Michigan Wisconsin Pipe Line Company (Mich Wisc) filed in the captioned dockets, respectively, proposed Stipulation and Agreements in settlement of those proceedings.<sup>1</sup>

<sup>1</sup>On October 1, 1977, pursuant to the provisions of the Department of Energy Organization Act (DOE Act), Public Law 95-91, 91 Stat. 565 (August 4, 1977), and Executive Order No. 12009, 42 Fed. Reg. 46267 (September 15, 1977), the Federal Power Commission ceased to exist and its functions and regulatory responsibilities were transferred to the Secretary of Energy and the Federal Energy Regulatory Commission (FERC) which, as an independent Commission within the Department of Energy, was activated on October 1, 1977.

The "savings provisions" of section 705(b) of the DOE Act provide that proceedings pending before the FPC on the date the DOE Act takes effect shall not be affected and that orders shall be issued in such proceedings as if the DOE Act had not been enacted.

Footnotes continued on next page

The Federal Energy Regulatory Commission (Commission) finds that each of such proposed Stipulation and Agreements is reasonable and should be approved. The Commission further finds that the reserved issues should be severed for separate consideration and disposition and that such severance is consistent with the terms of the settlement agreements. Details of the rate increase proposals and the terms of the related settlement agreements are described below.

## Docket No. RP75-96

In Docket No. RP75-96, Mich Wisc, on April 30, 1975, tendered for filing proposed changes in the rates contained in its FPC Gas Tariff designed to effect an increase in jurisdictional revenues of \$65,992,505 annually. The proposed increase was based on a test period consisting of the 12 months ended January 31, 1975, as adjusted for known and measurable changes through October 31, 1975. Mich Wisc requested an effective date of June 1, 1975, for the proposed rate increase.

By order issued May 19, 1975, the FPC accepted the proposed changes for filing, subject to certain conditions, and suspended the use thereof for five months until November 1, 1975. One of the aforementioned conditions was that Mich Wisc file revised tariff sheets reflecting the elimination from its proposed rates of \$11,265,490 in interest reimbursement payments to producers.<sup>2</sup>

On September 15, 1975, Mich Wisc filed tariff sheets intended to replace those sheets which the Company had originally filed on April 30, 1975. Such replacement tariff sheets reflected the rate level included in the April 30, 1975, filing as revised upward to reflect the net effect of: (1) purchased gas adjustment (PGA) increases as a result of the increased cost of imported Canadian gas as well as an increase in the cost of gas purchased from Texas Gas Transmission Corporation; (2) an increase in the balance of advance payments outstanding as of November 1, 1975.

Footnotes continued from last page acted. All such proceedings shall be continued and further actions shall be taken by the appropriate component of DOE now responsible for the function under the DOE Act and regulations promulgated thereunder. The functions which are the subject of this proceeding were specifically transferred to the FERC by section 402(a)(1) or 402(a)(2) of the DOE Act.

The joint regulation adopted on October 1, 1977 by the Secretary and the FERC entitled "Transfer of Proceedings to the Secretary of Energy and the FERC," 10 CFR provided that this proceeding would be continued before the FERC. The FERC takes action in this proceeding in accordance with the above mentioned authorities.

<sup>2</sup>By order issued July 11, 1975, Michigan Wisconsin's application for reconsideration of the May 19, 1975, order was denied.

On September 23, 1976, with initial comments due on October 7, 1976, and reply comments due on October 27, 1976. By notice issued October 14, 1976, the date for initial comments was extended to October 15, 1976, and the date for reply comments was extended to November 5, 1976.

The proposed settlement agreement reserved for Commission consideration two issues: (1) the rate base treatment to be afforded certain advance payments, and (2) the rate treatment to be afforded Gas Arctic and Northern Border project costs. (Agreement, p. 1). Such consideration was to be based upon the comments filed to the settlement agreement.

Staff opposed rate base treatment of certain of the costs in Initial Comments and Reply Comments filed, relative to the Stipulation and Agreement, on October 15, 1976, and November 5, 1976, respectively. However, Staff concurred in all other aspects of the proposed settlement agreement. The Initial Comments and Reply Comments of Mich Wisc, filed on such dates, opposed the Staff position on those two issues and urged FPC approval of the Stipulation and Agreement in its entirety.

With regard to the issues resolved by the Stipulation and Agreement, the agreed upon rates would effect a reduction in the proposed rate increase of \$23,637,187,<sup>3</sup> exclusive of changes in the cost of purchased gas. Commission acceptance of staff's position on the reserved issues would result in a further reduction with additional refunds.

The Stipulation and Agreement in Docket No. RP75-96 Article I provides that the rates in Docket No. RP75-96 will be at levels set forth in Appendix B of the Agreement effective as of November 1, 1975, and thereafter subject to adjustment for changes in the cost of gas purchased pursuant to Section 15 of the general terms and conditions of its tariff and Article III. Within ten (10) days after the Commission's order approving the Stipulation and Agreement, Mich Wisc will file revised tariff sheets reflecting the rates shown in Appendix B.

Article II provided that Mich Wisc, within thirty (30) days after the settlement rates become effective, will refund the difference between amounts collected beginning on November 1, 1975, under the rates determined in Article I. These refunds will be made including an interest rate of 9% per annum from the date of receipt of payment by Mich Wisc until the date refund checks are placed in the mail.

on September 23, 1976, with initial comments due on October 7, 1976, and reply comments due on October 27, 1976. By notice issued October 14, 1976, the date for initial comments was extended to October 15, 1976, and the date for reply comments was extended to November 5, 1976.

The proposed settlement agreement reserved for Commission consideration two issues: (1) the rate base treatment to be afforded certain advance payments, and (2) the rate treatment to be afforded Gas Arctic and Northern Border project costs. (Agreement, p. 1). Such consideration was to be based upon the comments filed to the settlement agreement.

Staff opposed rate base treatment of certain of the costs in Initial Comments and Reply Comments filed, relative to the Stipulation and Agreement, on October 15, 1976, and November 5, 1976, respectively. However, Staff concurred in all other aspects of the proposed settlement agreement. The Initial Comments and Reply Comments of Mich Wisc, filed on such dates, opposed the Staff position on those two issues and urged FPC approval of the Stipulation and Agreement in its entirety.

With regard to the issues resolved by the Stipulation and Agreement, the agreed upon rates would effect a reduction in the proposed rate increase of \$23,637,187,<sup>3</sup> exclusive of changes in the cost of purchased gas. Commission acceptance of staff's position on the reserved issues would result in a further reduction with additional refunds.

## The Stipulation and Agreement in Docket No. RP75-96

Article I provides that the rates in Docket No. RP75-96 will be at levels set forth in Appendix B of the Agreement effective as of November 1, 1975, and thereafter subject to adjustment for changes in the cost of gas purchased pursuant to Section 15 of the general terms and conditions of its tariff and Article III. Within ten (10) days after the Commission's order approving the Stipulation and Agreement, Mich Wisc will file revised tariff sheets reflecting the rates shown in Appendix B.

Article II provided that Mich Wisc, within thirty (30) days after the settlement rates become effective, will refund the difference between amounts collected beginning on November 1, 1975, under the rates determined in Article I. These refunds will be made including an interest rate of 9% per annum from the date of receipt of payment by Mich Wisc until the date refund checks are placed in the mail.

<sup>3</sup>The \$23,637,187 figure is correct, although p. 1 of Agreement shows a figure of \$24,348,427.

Article III pertains to advance payments and will be discussed under the section on reserved issues below.

Article IV involves expenditures incurred for the account of Mich Wisc by the Gas Arctic Northwest Study Group and the Northern Border Pipe Line Study Group. This Article will be discussed under the section on reserved issues below.

Article V provides that unrecovered purchased gas costs based on average monthly balances for the base period adjusted to reflect the average level in the amount of \$2,275,399 will be included in working capital as a rate base item. This Article notes that the cost of service involved in this proceeding is for a one year locked-in period beginning November 1, 1975, and ending October 31, 1976; therefore, rate base treatment of unrecovered purchased gas costs will not prejudice any party or staff from taking a different position in any future proceeding.

Article VI pertains to the cost-of-service for Mich Wisc's exploration and development program. The settlement rates include \$7,164,600 which represents the exploration and development costs incurred for the test year.<sup>4</sup>

Article VII provided that the settlement cost of service is based on book depreciation rates of 4.0% for transmission plant, 7.5% for gathering plant and 4.4% for storage plant.

Article VIII requests the Commission to confirm in the settlement order that a reserve for deferred income taxes was deducted in an amount which is not in excess of the amount of reserve for deferred taxes resulting from the use of accelerated depreciation computed pursuant to Section 167(e)-1(h) of the Income Tax Regulations.

Article IX provided that the terms of the Stipulation and Agreement, if approved by the Commission, shall become effective on November 1, 1975, and shall remain in effect until such time as a change in Mich Wisc's rates become effective either as a result of a filing by Mich Wisc under Section 4 of the Act or by a determination by the Commission under Section 5 of the Act.

Article X is a general reservation indicating that the agreement represents a negotiated dollar settlement and does not reflect approval or acceptance by any party thereto of any ratemaking principle underlying or supposed to underlie any of the rates or refunds provided for therein. This Article also provides for acceptance of the settlement in its entirety.

#### Docket No. RP76-100

IN Docket No. RP76-100, Mich Wisc, on April 30, 1976, tendered for filing

<sup>4</sup>This amount equates to \$2.031 per Mcf of production which is the equivalent price of fuel oil in the Detroit market.

certain revised tariff sheets to its FPC Gas Tariff, seeking an increase in annual jurisdictional revenues of \$68,705,227. The proposed increase in rates was based on a test period of the twelve months ended January 31, 1976, as adjusted for changes expected to occur during the nine month period ending October 31, 1976. Mich Wisc proposed that the revised tariff sheets become effective on June 1, 1976. Public notice of the filing was issued on May 13, 1976. By order of May 28, 1976, the effectiveness of the filed revised tariff sheets was suspended until November 1, 1976, subject to the condition that Mich Wisc file revised tariff sheets to go into effect on November 1, 1976, excluding from rate base facilities which were not certificated and placed in service on or before October 31, 1976. On October 27, 1976, Mich Wisc filed revised tariff sheets and a motion to make its suspended rates effective subject to refund. Since such tariff sheets did not reflect the exclusion of non-certificated facilities from rate base, the FPC rejected them by order issued on November 24, 1976. In response to that order, Mich Wisc, on December 1, 1976, filed revised tariff sheets reflecting the elimination from rate base of certain non-certificated facilities pursuant to Ordering Paragraph (A) of the FPC order of November 24, 1976. By order issued December 29, 1976, the FPC accepted the revised tariff sheets, including those pertaining to purchased gas cost adjustments, to be effective November 1 and 2, 1976, respectively.

Settlement conferences were held on October 8, November 11 and 12, and December 17, 1976, among the FPC Staff, Mich Wisc and other parties to this proceeding, which resulted in the filing on January 31, 1977, of a proposed Stipulation and Agreement. The agreement provided that the treatment of two issues would be reserved for determination by the Commission based upon comments to be filed by Mich Wisc and staff. The two issues reserved for consideration by the Commission pertained to: (1) the amounts advanced to producers which should be included in rate base, and (2) the amounts contributed by Mich Wisc to the Gas Arctic and Northern Border study groups which should be afforded rate base treatment. Notice of the filing of the Stipulation and Agreement was issued on February 8, 1977, and Initial Comments and Reply Comments were filed on February 25, 1977 and March 18, 1977, respectively. All commenting parties supported approval of the settlement and, in addition, Mich Wisc and staff filed comments on the reserved issues. Staff also filed comments in opposition to the method provided in the settlement for calcu-

lating refunds attributable to any advance payment amounts ultimately excluded by the Commission from rate base.

#### The Stipulation and Agreement in Docket No. RP76-100

Article I provides for the filing of reduced rates 10 days after Commission approval of the settlement to be effective November 1, 1976. The Article also provides that within 10 days after any final determination by the Commission that staff's position on the reserved issues should be adopted, the Company will file reduced rates to be effective November 1, 1976.

Article II provided that Mich Wisc will make refunds within 30 days after the settlement becomes effective and that such refunds will include 9% per annum interest to the date that refund checks are placed in the mail.

Article III provides for advance payments to be included in rate base. Mich Wisc would include \$246,546,732 while staff contends that \$156,081,764 should be accorded rate base treatment. Mich Wisc and Staff's treatment of advance payments are set forth in this Article and provides for Commission determination of proper treatment of advance payments in this case. Any refunds will be made base upon a factor of 17.12% per annum times any advance payments which may be excluded from rate base plus interest at nine percent per annum. Item No. 6 of this Article provided a schedule for payback of \$21,680,000 in advance payments without regard to the payback provision set forth in the advance payment agreement.

Article IV involves the inclusion of \$2,409,500 for reimbursement of expenditures incurred for Mich Wisc by the Gas Arctic and Northern Border Study Groups. Staff proposes to exclude such expenditures from rate base. This issue is reserved for Commission decision. In the event that the Commission determines that these costs should not be included in rate base, Mich Wisc shall make refunds based on an amount equal to 17.12% times such costs plus interest at nine percent per annum and reduce its tariff rates accordingly.

Article V provides for semi-annual PGA and R&D filings to become effective on November 1 and May 1 of each year commencing November 1, 1976. Mich Wisc would be allowed carrying charges on the amounts recorded in the Deferred Purchase Gas Cost Account subject to prospective application of any final Commission determination in Docket No. R-406. Mich Wisc will file appropriate tariff sheets within 10 days after the settlement becomes effective.

Article VI pertains to the inclusion of \$10,783,105 in cost of service in sup-

port of Mich Wisc's exploration and development program.

Article VII sets forth the settlement depreciation rates of 4.1 percent for transmission plant, 7.5 percent for gathering plant, and 4.5 percent for storage plant. All parties agree that Mich Wisc shall reflect such rates on its books effective November 1, 1976.

Article VIII provides for a tariff revision to the LVS-1 rate schedule.

Article IX contains a commitment by Mich Wisc to support rates assigned to services under Volume No. 2 of its FPC Gas Tariff with cost of service studies in its next general rate increase application.

Article X requests the Commission to confirm, in its order approving the settlement, that in arriving at the rate base included in the approved cost of service, a reserve for deferred income taxes was deducted in an amount which is not in excess of the amount of reserve for deferred taxes resulting from the use of accelerated depreciation computed pursuant to the provisions of Section 167(e)-1(h) of the Income Tax Regulations.

Article XI provides for termination of the Agreement on the date that Mich Wisc's rates are superseded by rates made effective under Section 4 or Section 5 of the Natural Gas Act with the exception of agreements set forth in paragraph 4 through 7 of Article III, paragraph 2 of Article IV, and Article V and Article VIII which will continue in effect.

Article XII is a general reservation indicating that the Agreement represents a negotiated dollar settlement and, does not reflect approval or acceptance by any party thereto of any rate making principle underlying or supposed to underlie any of the rates or refunds provided for therein.

#### Issues Reserved for Commission Disposition

In each of the two settlement agreements involved herein, two common issues are reserved for Commission disposition based upon the comments to be filed.

1. Whether certain dollar amounts which have been advanced by Mich Wisc to producers should be included in rate base. This issue involves, *inter alia*, the determination of the standards to be used in establishing the amounts to be included in rate base.

2. Whether all or a portion of the costs which it is agreed that Mich Wisc incurred, in sponsorship of the Arctic Gas Study Group and the Northern Border Pipeline Study Group, should be included in its rate base.

In addition, staff in its comments filed in Docket No. RP76-100 has opposed the method provided in the settlement for computing any refunds

that may result from Commission disallowance of certain advance payment amounts in rate base.

On March 7, 1978, Mich Wisc filed a motion in Docket Nos. RP75-96 and RP76-100 requesting that the reserved issues be served for separate consideration in due course and that the Commission approve the non-contested portions of the settlement. We recognize the delay that has occurred in disposing of these settlement agreements. We will therefore accept Mich Wisc's proposal and sever the contested issues along with the refund question raised by staff for separate disposition. In so doing we do not intend to imply that there will be substantial delay in deciding the contested issues. It is our intent to dispose of these issues promptly. In the meantime approval of the non-contested portions of the settlements is in the public interest and is consistent with the terms of the settlement agreements.

#### Discussion

In Opinion No. 568<sup>5</sup> the Federal Power Commission expressed the intent to modify its pricing approach toward pipeline production "in order to provide a regulatory climate conducive to an aggressive pipeline exploration program." The FPC ordered that gas produced from pipeline owned (or pipeline affiliate owned) leases acquired after the date of the Opinion (October 7, 1969) would be priced at the applicable area rates, except that upon a showing of special circumstances a different result might be warranted. In mid-1970, Mich Wisc began an exploration and development program in the Hugoton-Anadarko and Rocky Mountain areas and in Docket No. RP73-102 attempted to demonstrate "special circumstances" in support of cost of service treatment for its E&D program. In its order of July 6, 1977, the FPC expressed some doubt that "special circumstances" had been shown, but accepted a settlement amount of \$1,523,782 to be included in Mich Wisc's rates for a three-year period ending October 31, 1976, after which Mich Wisc's production must be priced at area or national rates or Mich Wisc must come forward with more evidence on "special circumstances."

During the pendency of the production issue in Docket No. RP73-102, rate increase applications were filed in Docket Nos. RP75-96 and RP76-100, wherein Mich Wisc proposed to continue cost of service treatment for its production operations. Mich Wisc estimated costs of service of \$7,876,435 and \$13,005,556 in Docket Nos. RP75-96 and RP76-100, respectively. The

<sup>5</sup>Opinion No. 568, Pipeline Production Area Rate Proceeding (Phase I), Docket No. RP66-24, issued October 7, 1969.

settlements tendered in these dockets on September 3, 1976 and January 31, 1977, would reduce the costs of service to \$7,164,600 and \$10,783,105, respectively.

We are concerned that Docket No. RP75-96 covers essentially the same time period as the third year of the settlement in Docket No. RP73-102 which limited cost of service treatment to \$1,523,782. However, we recognize that the FPC afforded Mich Wisc an opportunity in future rate cases to make a showing of "special circumstances." We recognize also that while Mich Wisc was required to price its production after November 1, 1976, on an area or national rate basis it was given an opportunity to show "special circumstances." The parties to the two settlements have concluded that Mich Wisc should be encouraged in its E & D efforts and have agreed to cost of service allowances to be included in rates. It is our view that the parties negotiated in good faith and could not have known at that time that the FPC would issue an order months later that would question the "special circumstances" showing in Docket No. RP73-102.

We will accept the cost of service treatment included in the settlements in Docket Nos. RP75-96 and RP76-100 as a reasonable resolution of this issue in these proceedings. In so doing we in no way express any policy determination toward the pricing of pipeline production nor are we prepared at this time to express any views toward the requirements for showing "special circumstances." This approach is consistent with actions taken by the FPC in other cases approving settlements involving the same issue<sup>6</sup>.

The proposed settlement rates in Docket Nos. RP75-96 and RP76-100 reflect Seaboard's cost classification, cost allocation and rate design. This is inconsistent with those provisions of the FPC order of July 6, 1977, which required that Mich Wisc modify its rates in Docket No. RP76-100 to reflect the United's methodology; however it does not appear to be inconsistent with the intent of the order—that refunds be computed on the same basis as the rates were collected and that any modification of rate design methodology would apply prospectively. This matter is complicated by the fact that the July 6, 1977, order was issued after the settlements had been tendered in these dockets.

<sup>6</sup>Kansas Nebraska Natural Gas Company, Inc., Docket Nos. RP72-32, et al., issued December 7, 1976; Northern Natural Gas Company, Docket Nos. RP74-75, et al., issued July 27, 1976.

<sup>7</sup>Atlantic Seaboard Corp., et al., 11 FPC 43 (1952).

<sup>8</sup>United Gas Pipe Line Company, Docket No. RP72-75 (Phase II), Opinion No. 671, issued October 31, 1973.

We note that in a proposed settlement filed in a subsequent rate increase application (Docket No. RP77-60) Mich Wisc has agreed to the United methodology. Since we are concerned in the instant dockets with settlements for two locked-in periods, the issue is how to classify and allocate costs and design rates for refund purposes. It appears appropriate to accept the settlements' resolution of this issue for refund purposes. We do not consider this acceptance as inconsistent with the intent of the FPC order of July 6, 1977.

No parties have objected to the Stipulation and Agreement filed in each of the proceedings involved herein, and those parties which have commented have urged approval. The period for which the settlement rates in Docket No. RP75-96 are to be effective has been "locked-in" by the rates filed in Docket No. RP76-100 while the period for which the settlement rates in that latter docket are to be effective has been "locked-in" by the rate changes filed in Docket No. RP77-60. The Stipulation and Agreement in each of the proceedings involved herein provide for substantial refunds relative to the issues resolved thereby.

Mich Wisc filed, on March 3, 1978, a Motion requesting that the FERC approve the Stipulation and Agreement in each of the subject proceedings forthwith, and make its decision relative to the reserved issues at such later time as the FERC deems feasible and desirable. Several parties have filed pleadings in support of such Mich Wisc motion, stating the desirability of receipt by the customers in the near future of the refunds due pursuant to the issues resolved by each Stipulation and Agreement. No party has opposed such motion.

Based upon a review of the record in each proceeding herein, including each Stipulation and Agreement and the pleadings and comments filed, the Commission finds it appropriate to reserve decision on reserved issues to a later date, but that each Stipulation and Agreement, as to the issues resolved thereby, represents a reasonable resolution of such issues in the public interest, and that each such Stipulation and Agreement should be approved and adopted as hereinafter ordered.

The Commission finds: (1) Approval, as hereinafter ordered, of the Stipulation and Agreements in these proceedings, as filed with the FPC on September 3, 1976, in Docket No. RP75-96, and on January 31, 1977, in Docket No. RP76-100, is in the public interest in carrying out the provisions of the Natural Gas Act, and the rates proposed therein which reflect the terms of the settlements should be made effective as provided in such Stipulation and Agreements.

(2) Good cause exists to reserve for separate disposition, the issues reserved therefor in the subject Stipulation and Agreements, as well as the refund question raised by staff in its comments in Docket No. RP76-100.

The Commission orders: (A) Mich Wisc's motions for approval of the proposed settlements in the proceedings involved herein are granted, the Stipulation and Agreements filed herewith are incorporated by reference herein and accepted, and the rates provided therein shall become effective for the respective applicable periods, subject to the determinations made relative to the reserved issues.

(B) Mich Wisc shall comply with the terms and conditions of each subject Stipulation and Agreement and shall refund all amounts required thereby relative to issues resolved therein, with interest pursuant to the terms of the settlement agreements, provided that further refunds may be required relative to the issues reserved therein for future Commission decisions.

(C) Within 30 days after the refunds have been made, Mich Wisc shall file a report of the refunds made along with copies of the releases signed by each customer.

(D) The issues reserved in the Stipulation and Agreements, along with the proper method for calculating refunds on any advance payment amounts ultimately disallowed rate base treatment, shall be subject to separate consideration and disposition.

(E) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,  
Secretary.

#### NATIONAL FUEL GAS SUPPLY CORP.

##### Notice of Extension of Time

DECEMBER 15, 1978.

On December 11, 1978, Commission Staff Counsel filed a motion for extension of time to file briefs on exceptions to the initial decision issued in this proceeding on November 14, 1978. The motion states that other Commission business has prevented both the technical and legal staff from having adequate time to prepare its brief. The motion further states that no party objects to the extension.

Upon consideration, notice is hereby given that an extension of time is granted to and including December 21,

1978, for the filing of briefs on exceptions. Briefs opposing exceptions shall be filed on or before January 10, 1979.

KENNETH F. PLUMB,  
Secretary.

#### NATURAL GAS POLICY ACT OF 1978

##### Notice of Receipt of Report of Determination Process

DECEMBER 21, 1978.

Pursuant to section 18 CFR 274.105 of the Federal Energy Regulatory Commission's Regulations, a jurisdictional agency may file a report with the Commission describing the method by which such agency will make certain determinations in accordance with sections 102, 103, 107, and 108 of the Natural Gas Policy Act of 1978.

Reports in conformance with 18 CFR 274.105 have been received by the Commission from the following jurisdictional agencies:

##### Agency and Date

State of New Mexico Energy and Minerals Department, Oil Conservation Division, November 29, 1978.  
State of Louisiana Department of Conservation, November 29, 1978.  
Railroad Commission of Texas, November 30, 1978.  
West Virginia Department of Mines, Oil and Gas Division, November 30, 1978.  
Alabama State Oil and Gas Board, November 30, 1978.  
State Oil and Gas Board of Mississippi, November 30, 1978.  
Kansas State Corporation Commission Conservation Division, November 30, 1978.  
State of Michigan, Department of Natural Resources, Geological Survey Division, December 1, 1978.  
State of California Department of Conservation Division of Oil and Gas, December 4, 1978.  
State of Wyoming Office of Oil and Gas Conservation Commission, December 4, 1978.  
State of Colorado Department of Natural Resources, December 5, 1978.  
State of Ohio Department of Natural Resources Division of Oil and Gas, December 6, 1978.  
State of Nebraska Oil and Gas Conservation Commission, December 15, 1978.

Copies of these reports are available for public inspection in the Commission's Office of Public Information, Room 1000, 825 North Capitol Street NE., Washington, D.C. 20426.

LOIS D. CASHELL,  
Acting Secretary.

#### [6740-02-M]

(Docket No. ER79-92)

#### NEW ENGLAND POWER CO.

##### Notice of Proposed Changes in Rates and Charges

DECEMBER 15, 1978.

Take notice that on November 29, 1978, New England Power Company ("NEP") filed revised tariff sheets constituting a new Rate W-1 for its Primary Service for Resale and its Contract Demand ("CD") Service. NEP requests an effective date of February 1, 1979. NEP states that the W-1 increase is less than one-half of one percent and that its revised tariff sheets will result in an increase in jurisdictional revenues in the basis of a 1979 test year of approximately \$1,241,702. This increase results from an increase in revenues of \$98,580 from CD customers and an increase in revenues of \$1,143,122 from the Primary customers.

Any person desiring to be heard or to make any protest with reference to this filing should, on or before December 29, 1978, file with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, petitions to intervene or protests in accordance with the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of the filing and supporting documents are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

(FR Doc. 78-36105 Filed 12-27-78; 8:45 am)

#### [6740-02-M]

(Docket No. ER79-99)

#### NIAGARA MOHAWK POWER CORP.

##### Notice of Filing

DECEMBER 19, 1978.

Take notice that Niagara Mohawk Power Corporation (Niagara), on December 7, 1978, tendered for filing as a rate schedule, a transmission agreement between Niagara and Central Hudson Gas & Electric Corporation (Central Hudson) dated October 30, 1978.

Niagara states that the service to be rendered by Niagara provides for the transmission of power and energy between (a) Niagara's 345 Kv transmission connections with the Power Authority of the State of New York's

Blenheim-Gilboa Pumped Storage Power Project and (b) Niagara's 345 Kv transmission connections with Central Hudson.

Niagara further states that the transmission capacity to be made available to Central Hudson will be in the amount of 100 megawatts.

Copies of the filing were served upon the Central Hudson Gas & Electric Corporation and the Public Service Commission of the State of New York, according to Niagara.

Niagara proposes an effective date of November 1, 1978, and therefore requests waiver of the Commission's notice requirements.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 5, 1979. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

#### [6740-02-M]

(Docket No. ER79-96)

#### OHIO POWER CO.

##### Notice of Filing

DECEMBER 19, 1978.

Take notice that American Electric Power Service Corporation (AEP) on December 5, 1978, tendered for filing on behalf of its affiliate Ohio Power Company (Ohio Power), Modification No. 7 dated October 1, 1978 between Ohio Power Company and Dayton Power and Light Company designated Ohio Power Rate Schedule FERC No. 36.

AEP states that Section 1 of Modification No. 7 provides for an increase in the demand charge for Short Term Power from \$0.60 to \$0.70 per kilowatt per week and also in the transmission charge for third party Short Term transaction from \$0.15 to \$0.175/kw-week. AEP further states that Section 2 provides for an increase in the demand charge for Limited Term Power from \$3.25 to \$3.75 per kilowatt per month and Section 3 of Modification No. 7 provides for an increase in

the transmission charge for third party Limited Term transactions from \$.65 per kilowatt per month to \$0.75 per kilowatt per month, both schedules.

AEP indicates that since the use of Short Term Power and Limited Term Power Service cannot be accurately estimated, it is impossible to estimate the increase in revenues resulting from the Modification. AEP further indicates that Exhibit I which was included with the filing of this Modification, demonstrates that the increase in revenues, which would have resulted had the modification been in effect during the twelve month period ending January 1978 would have been \$94,166.68 (i.e., from \$2,106,901.90 to \$2,201,068.58).

AEP proposes an effective date of February 1, 1979, and therefore requests waiver of the Commission's notice requirements.

Copies of the filing were served upon the Dayton Power and Light Company and Public Utilities Commission of Ohio.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before January 5, 1979. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

#### [6740-02-M]

(Docket No. RP71-119 etc.)

#### PANHANDLE EASTERN PIPE LINE CO. ET AL

Order Granting Petition for Relief From Payback Order, Consolidating Proceedings and Granting Intervention (Issued December 15, 1978)

##### PROCEDURAL HISTORY

On May 22, 1978, Anchor Hocking Corporation (A-H), Docket No. RP74-31-24, filed a petition for relief from the Commission's order of August 31,

<sup>1</sup>This proceeding was commenced before the Federal Power Commission (FPC). By the joint regulation of October 1, 1977 (10 CFR 1000.1), it was transferred to the FERC. The term "Commission," when used Footnotes continued on next page

1976, dismissing an earlier petition for extraordinary relief and ordering payback. A-H now seeks reversal of the payback order.

On August 11, 1978, Hercules Incorporated (Hercules), Docket No. TC78-34, filed a similar petition, requesting relief from the payback orders issued in Docket No. RP74-31-22 on October 31, 1974; July 30, 1975; April 1, 1976, and September 3, 1976.

Both petitioners base their requests on the allegedly advantageous treatment afforded to similarly situated customers on the Panhandle Eastern Pipe Line Company system (Panhandle). A review of the Commission's actions in granting relief to Panhandle's customers from payback obligations incurred under an unjust and unreasonable interim curtailment plan compels us to grant the requested relief out of equitable considerations.

The curtailment priority guidelines of Order No. 467-B, Docket No. R-469 (49 FPC 583), created a distinction between firm and interruptible pipeline customers. Both Hercules and A-H had interruptible contracts with Panhandle, and faced complete curtailment under a 467-B plan whenever Panhandle was required to curtail its priority No. 3 customers. The order issued in Docket No. RP71-119 on November 6, 1973, implemented a 467-B type plan on the Panhandle system effective November 1, 1973.

During the fall of 1973, Panhandle's interruptible customers filed numerous petitions requesting extraordinary relief. Many of these interruptible customers needed natural gas for their feedstock or process requirements. At least six different administrative law judges presided over hearings on these petitions. Many petitioners received temporary relief pending final Commission action on their petitions for relief. Most such relief was subject to a payback requirement, i.e., a future reduction of gas consumption below a company's curtailment allocation to restore the excess gas used during periods of extreme shortage.

On February 27, 1976, the FPC issued Opinion No. 754, which prescribed a permanent curtailment plan for the Panhandle system and which abolished the firm-interruptible distinction. It is clear that had this curtailment plan been in effect during the interim period, Hercules and A-H would not have required extraordinary relief and would not have incurred payback obligations. We must decide, therefore, how to treat the payback obligations incurred by A-H and Hercules under the 467-B plan.

Footnotes continued from last page in the context of action taken prior to October 1, 1977, refers to the FPC; when used otherwise, the reference is to the FERC.

#### A. Hercules.

On September 4, 1974, Hercules filed its extraordinary relief petition.<sup>1</sup> Hercules' plant at Louisiana, Missouri produces anhydrous ammonia, used principally in the manufacture of fertilizers, and ammonium nitrate prills, an explosive used to mine coal. By order issued October 31, 1974 the FPC granted temporary extraordinary relief for feedstock and process uses to permit ammonia production at full capacity. This relief pending hearing was subject to a payback condition.

The initial decision<sup>2</sup> provided Hercules with a minimum of 4,600 Mcf of gas per day, subject to a payback condition. This extraordinary relief gas was delivered subject only to the curtailment priority of Category 1 (residential and small commercial uses). The FPC affirmed the initial decision, dismissed the petition for extraordinary relief as moot, and ordered payback.<sup>3</sup>

On March 26, 1976, Hercules filed a complaint<sup>4</sup> requesting waiver of its payback obligations in view of Opinion No. 754, which eliminated the firm-interruptible distinction. The FPC dismissed the complaint on April 1, 1976.<sup>5</sup>

Hercules' application for rehearing was denied by operation of law, and it appealed to the U.S. Court of Appeals for the Third Circuit. Hercules sought to be excused from further payback obligations and requested return of the gas already paid back.<sup>6</sup>

The Court held "that all payback obligations incurred by Hercules as a result of the firm-interruptible distinction are now unenforceable."<sup>7</sup> The Court added:

In so holding we do not mean to indicate that Hercules is entitled to restitution for all injuries suffered as a result of Panhandle's unlawful curtailment plan. Unlike rate overcharges prior allocations of gas under a plan now found to have been unreasonable cannot be easily refunded. Not all parties injured as a result of the necessity to react quickly to the natural gas crisis can be made whole.<sup>8</sup>

<sup>1</sup>Docket No. RP73-31-22.

<sup>2</sup>Initial Decision by Presiding Administrative Law Judge Liebman, dated July 30, 1975, 54 FPC \_\_\_\_\_. On March 22, 1976, after Opinion No. 754 issued, Panhandle reduced temporary relief deliveries to Hercules to the 4,600 Mcf recommended by the Initial Decision.

<sup>3</sup>Order Dismissing Petition for Extraordinary Relief and Ordering Payback, September 3, 1976.

<sup>4</sup>Docket No. RP76-75.

<sup>5</sup>Order Denying Motion and Request and Dismissing Complaint, April 1, 1976.

<sup>6</sup>Hercules, Inc. v. FPC, No. 76-1593 Brief for Petitioner, August 23, 1976, at 34, requested return of "the volumes of gas withheld from Hercules between April 1, 1976, and July 31, 1976 pursuant to Ordering Clause B of the Commission's April 1, 1976 Order."

<sup>7</sup>Hercules, Inc. v. FPC, 552 F.2d 74, 89 (3 Cir. 1977).

<sup>8</sup>Ibid.

Upon remand, the FPC released Hercules from any further payback obligation.<sup>10</sup> At that time Hercules claims to have repaid 1,107,000 Mcf of its 1,550,000 Mcf extraordinary relief obligations.

#### B. Anchor-Hocking.

On December 12, 1974, A-H also filed a petition for extraordinary relief.<sup>11</sup> A-H requested relief of 790 Mcf/d to operate the feeders and lehrs in its Winchester, Indiana glass plant. The Commission set the petition for hearing and granted A-H temporary relief subject to payback.<sup>12</sup>

The initial decision by Administrative Law Judge Michel Levant reclassified 290 Mcf/d into priority 2 as extraordinary relief.<sup>13</sup> All temporary and permanent relief gas was ordered to be paid back. This initial decision relied upon the reasoning of Judge Zimmet, which rejected the firm interruptible distinction in Panhandle's curtailment plan.<sup>14</sup>

On August 31, 1976, the Commission dismissed A-H's petition for extraordinary relief as moot and ordered payback of the outstanding extraordinary relief volumes. Of the 47,072 Mcf of extraordinary relief provided, A-H claims to have repaid 43,293 Mcf.

#### C. The Consolidated Parties.

The Commission consolidated for hearing a number of extraordinary relief petitions which were filed by eleven Panhandle customers.<sup>15</sup> The initial decision of Administrative Law Judge William Ellis granted extraordinary relief to four of the nine petitioners which remained in the proceeding, subject to payback of only those vol-

<sup>10</sup>Order Granting Rehearing, Docket No. RP71-119, RP74-31-22, March 8, 1977.

<sup>11</sup>Docket No. RP73-31-24. A-H had filed a previous petition on March 4, 1974, in Docket No. RP73-31-20. A hearing in that docket was held on May 30, 1974, and the Commission approved a settlement in an order issued July 22, 1974, 52 FPC 199.

<sup>12</sup>Order issued January 24, 1975.

<sup>13</sup>Initial Decision issued September 24, 1975, 54 F.P.C. \_\_\_\_\_. This temporary relief was granted to give A-H an opportunity to convert its feeders and lehrs to oil.

<sup>14</sup>Panhandle Eastern Pipe Line Company, Docket No. RP71-119, Initial Decision issued August 29, 1975, 54 F.P.C. \_\_\_\_\_.

<sup>15</sup>Panhandle Eastern Pipeline Company, Docket Nos. RP71-119, et al. order issued December 14, 1973. The parties ultimately consolidated were: Southeastern Michigan Gas Company, Docket RP74-31-1; E. I. Du Pont de Nemours and Company, Docket No. RP74-31-2; Missouri Refractories, Docket No. RP74-31-4; Central Illinois Service Company, Docket No. RP74-31-5; Marblehead Lime Company, Docket No. RP74-31-7; Village of Morton, Illinois, Docket No. RP74-31-10; Mueller Brass Company, Docket No. RP74-31-11; Battle Creek Gas Company and the City of Battle Creek, Michigan, Docket No. RP74-31-13; Anderson Clayton & Co., Docket No. RP74-31-15; City of Monroe City, Missouri, Docket No. RP74-31-16; and Hayes-Albion Corp., Docket No. RP74-31-17.

umes "utilized in any manner other than that specified in the grant . . ."

The Commission's order of March 8, 1977,<sup>17</sup> commented favorably upon extending the payback obligation to include all relief volumes. However, the Commission did not order payback in light of the Third Circuit decision. As a result none of the consolidated parties ever paid back any extraordinary relief gas, unlike the similarly situated petitioners.

#### D. Quanex.

Quanex is also an interruptible Panhandle customer which sought extraordinary relief from the 467-B plan. Quanex uses natural gas in the manufacture of cold-drawn seamless steel tubing.<sup>18</sup> The Commission granted Quanex temporary relief subject to payback.<sup>19</sup> On August 31, 1976, the Commission dismissed the Quanex petition as moot in light of Panhandle's new curtailment plan but continued the payback obligation.<sup>20</sup>

After the Third Circuit's decision, Quanex petitioned for relief from its payback obligations and for the return of the gas already paid back to Panhandle.

The Commission granted the Quanex petition, and ordered Panhandle to return the extraordinary relief gas which Quanex had paid back.<sup>21</sup> The amount of gas returned was limited to the amount that Quanex would have received if the Opinion No. 754 plan had been in effect. As a result, of the 165,872 Mcf of extraordinary relief gas received and paid back by Quanex since 1974, 153,859 Mcf was to be added to the Quanex curtailment allocation during the course of a twelve month restitution period.<sup>22</sup>

In sum, of the interruptible process use customers: four never were required to repay their relief gas, one had all payback volumes returned, and the two petitioners A-H & Hercules have partially repaid their relief volumes. The latter two companies, through their petitions herein, seek a return of the volumes they have paid back. Providing a return of their payback volumes would accord A-H and

<sup>17</sup>Initial Decision issued December 30, 1974, Docket RP74-31-1, et al. mimeo at 67-68, 52 F.P.C. \_\_\_\_\_.

<sup>18</sup>Order Affirming in Part and Modifying in Part Administrative Law Judges' Initial Decision, issued March 8, 1977.

<sup>19</sup>The present Panhandle curtailment plan assigns Category 2 curtailment priority to Quanex.

<sup>20</sup>Order issued January 14, 1974, Docket No. RP71-119.

<sup>21</sup>Order issued August 31, 1976, Docket No. RP71-119.

<sup>22</sup>Order issued December 14, 1977, Docket No. TC78-2.

<sup>23</sup>Letter from J. T. Kennedy, Vice President, Panhandle Eastern Pipe Line Company, January 11, 1978, filed in Docket No. TC78-2.

Hercules treatment similar to that afforded other Panhandle interruptible customers in similar circumstances.

#### THE PRESENT PETITIONS

Both the Hercules and A-H petitions rely upon our order in *Quanex* to justify the return of the paid back gas. Both assert that the exact size of the payback volumes will not be disputed. Both would have us order Panhandle to file a statement of account showing the extraordinary relief received, amount paid back, and amount which would have been received if the Opinion No. 754 plan had been in effect during the period.

The Hercules and A-H petitions differ in two respects: (1) the amount of the volumes to be returned and (2) the suggested repayment period. The volumes of gas which A-H seeks returned is one-fourth the volume at issue in *Quanex*, while Hercules requests return of a volume of gas seven times greater than the volume ordered returned in *Quanex*. As a result, the A-H petition requests that the gas be delivered over a 12 month period, while Hercules suggests a 24 month repayment period.

In view of the similarity of issues raised by the two petitions, we are consolidating both dockets and addressing both in a single order.

No one has filed a petition to intervene in Docket No. TC-78-34.<sup>24</sup> General Motors Corporation (GM) has filed a timely petition for leave to intervene in Docket No. RP74-31-24.<sup>25</sup> No other notice of intervention, protest or petition to intervene has been filed. GM opposes the return of the gas which A-H has already paid back, but GM does not request a hearing on the A-H petition. GM asks that if we decide to grant relief to A-H, we make clear that the basis for our decision was an exercise of administrative discretion prompted by equitable considerations, and not required by the *Hercules, Inc. v. FPC* decision. We agree.

#### DISCUSSION

We order the return of payback volumes only as a last resort in our efforts to accord equal treatment to Panhandle customers. However, an application of the following policy considerations and legal principles to less compelling facts would not justify this exceptional remedy.

Payback obligations serve important public interests, which are weakened if payback orders are not ultimately enforced. As we have previously noted, a payback provision "deters exploitation

<sup>24</sup>Notice of Hercules' petition was published in the FEDERAL REGISTER on August 21, 1978, 43 FR 37001.

<sup>25</sup>Notice of this petition was published in the FEDERAL REGISTER on June 12, 1978, 43 FR 25378.

of extraordinary relief, prevents undue advantage going to the recipient of relief, and partially restores volumes taken from other customers."<sup>26</sup> And as Justice Clark observed, "Not only does 'common sense' as the Fifth Circuit states . . . support a payback but common honesty commands it."<sup>27</sup> In the absence of compelling equitable considerations, as exist in this case, these policies would dictate that payback volumes not be returned at the expense of other pipeline customers.

Additionally, we feel finality of agency decisions is important, especially in the context of pipeline curtailments. For example, a distinct possibility exists in times of a supply shortage that the delayed restitution of volumes allocated under interim plans ultimately found to be unjust and unreasonable could hinder otherwise available essential service. Similarly, given the recent trend of price increases in both natural gas and alternative fuels, restitution measured in volumes of gas may leave the restored party unjustly enriched, as well as provide a powerful incentive for parties with payback obligations to challenge the underlying curtailment plans in the courts.

A blind application of the doctrine of *res judicata* would also bar Hercules from return of its payback gas. Hercules requested the Court to direct a return of the gas,<sup>28</sup> but the Court declined to order such restitution. The current Hercules petition seeks precisely the relief which the Third Circuit has previously declined to provide.

On the facts presented here, however, we are compelled to conclude that equity overrides these concerns. The Third Circuit decision froze the extraordinary relief recipients at disparate stages of repayment. Only by returning the gas paid back will we place the petitioners on an equal footing with the consolidated parties and Quanex.

We emphasize that this remedy is appropriate for the unique sequence of events occurring in the Panhandle curtailment proceeding. It was one of the FPC's earliest attempts at balancing the complex policy concerns posed by "end-use" curtailment. In addition, the FPC's asynchronous processing of petitions for extraordinary relief from Panhandle's old plan resulted in assignments to different administrative law judges and payback orders issuing with varying effective dates. Return of payback gas here should not be viewed as a precedent to be applied to pay-

<sup>26</sup>*Texas Eastern Transmission Corporation (Carnegie Natural Gas Company)*, Opinion No. 716, Docket No. RP74-39-3, December 18, 1974, 52 FPC 1814 at 1822.

<sup>27</sup>*United States Steel Corp. v. FPC*, 175 App. DC 82, 88-89, 533 F.2d 1217, 1223-24, (D.C. Cir., 1976).

<sup>28</sup>Note 7, *supra*.

back obligations incurred on other pipeline systems.

#### REDELIVERY TERMS

Following the reasoning of our decision in *Quanex*, upon which both A-H and Hercules heavily rely,<sup>2</sup> this order does not require that either A-H or Hercules be compensated for any gas it may have received and paid back in excess of what it would have received under the Opinion No. 754 plan. Following our procedure in *Quanex*, we will require Panhandle to file with the Commission a statement for each petitioner showing:

(1) The volume of gas the petitioner received in the form of extraordinary relief during each month it received such relief;

(2) The volume of gas the petitioner paid back during each month it paid back gas received as extraordinary relief;

(3) The extent, if any, that volumes delivered to the petitioner, during months when extraordinary relief was received, exceeded the amounts of gas the petitioner would have been entitled to receive if the interim curtailment plan presented in Opinion No. 754 had been in effect.

Again following our procedure in *Quanex*, since the extraordinary relief volumes granted to A-H and Hercules were to satisfy Priority 3 uses under the 467-B plan, which uses are now Priority 2 under Opinion No. 754, any gas returned to either A-H or Hercules pursuant to this order shall be for Priority 2 uses only. Hence, neither these returned volumes, nor gas which would have been directed to the petitioner's process uses but for the delivery of these returned volumes, shall be used in any priority lower than priority 2.

The improved supply projections contained in Panhandle's September 28, 1978, Form 16 filings indicated sufficient gas to accommodate the return of payback volumes. The volumes to be returned will be less than 0.2% of Panhandle's projected supply for the next twelve months.

To provide A-H and Hercules the maximum flexibility in utilizing the returned gas, Panhandle shall deliver this gas, in addition to entitlements under the Opinion No. 754 plan, as needed during the 24 months following the date this order issues.

#### The Commission finds:

(1) It is in the public interest and consistent with the purposes of the Natural Gas Act to grant A-H and Hercules the relief requested, to the extent indicated in the text of this opinion, and as hereinafter ordered.

<sup>2</sup> Panhandle Eastern Pipeline Company (*Quanex*), Docket No. TC78-2, Order issued December 14, 1977, at 7-8.

(2) Good cause exists to consolidate these proceedings.

(3) Participation by the petitioner to intervene may be in the public interest.

#### The Commission orders:

(A) The petitions for relief filed by A-H and Hercules are granted to the extent indicated above, provided that none of Panhandle's deliveries to A-H and Hercules are used in a priority lower than priority 2 of the Opinion No. 754 curtailment plan.

(B) Panhandle shall file, within sixty days from the date of this order, statements of A-H's and Hercules' accounts as described above.

(C) Docket No. TC78-34 is hereby consolidated with Docket No. RP74-31-24.

(D) GM's petition to intervene is granted subject to the rules and regulations of the Commission: *Provided, however*, that participation shall be limited to matters affecting asserted rights and interests as specifically set forth in the petition to intervene: *Provided, further*, that the admission of such intervenor shall not be construed as recognition by the Commission that it might be aggrieved because of any order of the Commission entered in this proceeding.

By the Commission.

LOIS D. CASHELL,  
Acting Secretary.

[Docket No. RI78-81]

SANDLIN OIL CORP.

Notice of Amended Petition for Special Relief

DECEMBER 19, 1978.

Take notice that on September 7, 1978, Sandlin Oil Corporation (Petitioner), 1150 Petroleum Club Building, Denver, Colorado 80202, filed an amended petition for special relief seeking a rate of \$1.30 per Mcf plus Colorado Production Taxes for the sale of gas from a well located in Section 30: C-NE-SE, Township 2 South, Range 63 West, in the Chieftan Field, Adams County, Colorado. Petitioner seeks this rate in order to clean and retrace the well and to install a pumping unit to lift liquids.

Sandlin's original petition for special relief, filed on July 12, 1978, requested a rate of \$1.48 per Mcf for the sale of this gas.

Any person desiring to be heard or to make any protest with reference to said petition should on or before January 8, 1979, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance

with the requirements of the Commission's Rule of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,  
Secretary.

[Docket No. CP79-94]

SOUTHERN NATURAL GAS CO.

Notice of Application

DECEMBER 19, 1978.

Take notice that on November 30, 1978, Southern Natural Gas Co. (Applicant), P.O. Box 2563, Birmingham, Ala. 35202, filed in Docket No. CP79-94 an application pursuant to Section 7(b) of the Natural Gas Act for permission and approval to abandon sixteen miles of 4-inch pipeline between the Beacon Light Station in Lamar County, Ga., and the Thomaston delivery point in Upson County, Ga., and related facilities (4-inch Thomaston line), all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant states that the 22 mile 4-inch Thomaston line has become physically deteriorated. Applicant further states that the 4-inch Thomaston line services only the Barnesville delivery point in Upson County, Ga., and that this delivery point can be adequately served through Applicant's other facilities if Applicant replaces approximately six miles of the 4-inch Thomaston line between the Barnesville delivery point and Applicant's Thomaston-Griffin line and loop. Applicant states that construction on this six-mile segment has already begun pursuant to §2.55(b) of the Commission's General Policy and Interpretations and should be completed in 1978.

Accordingly, Applicant requests permission and approval of the abandonment of the 4-inch Thomaston line, except for that portion being replaced.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 8, 1979, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regula-

tions under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

SOUTHWESTERN ELECTRIC POWER CO.

Notice of Compliance Filing

DECEMBER 15, 1978.

Take notice that on November 30, 1978, Southwestern Electric Power Co. (SWEPCO) tendered a revised cost of service and amendments to its rate schedule in purported compliance with Commission Opinion No. 28 in the above-captioned dockets.

Any person desiring to be heard or to protest said filing should file comments or a protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426 in accordance with the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such comments or protests should be filed on or before January 5, 1979. Copies of this filing are on file with the Commis-

sion and are available for public inspection.

[Docket No. RP79-111]

TEXAS GAS PIPE LINE CORP.

Notice of Proposed Changes in FERC Gas Tariff

DECEMBER 15, 1978.

Take notice that Texas Gas Pipe Line Corp. (TGPLC), on December 1, 1978, tendered for filing proposed changes in its FERC Gas Tariff First Revised Volumes No. 1 and Original Volume No. 2. The proposed changes would increase revenues, exclusive of purchased gas cost adjustments, from jurisdictional sales and service by \$135,282 based on the 12-month period ending August 31, 1978, as adjusted. TGPLC states that the principal reasons for the proposed rate increases are increased operating expenses partially offset by a lower return allowable because of a reduced rate base and to offset a net operating revenue deficiency.

Copies of the filing were served upon the company's jurisdictional customers.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 27, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are now on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[Docket No. ER79-97]

TUCSON GAS & ELECTRIC CO.

Notice of Filing

DECEMBER 15, 1978.

Take notice that Tucson Gas & Electric Co. (Tucson) on December 5, 1978, tendered for filing a power sale and interconnection agreement dated November 29, 1978, entitled Tucson-San

Diego Ten Year Power Sale and Interconnection Agreement between Tucson and San Diego Gas & Electric Co. (San Diego). Tucson states that this agreement provides for the sale of power by Tucson to San Diego from both Tucson's system resources and from various generating units owned or to be owned by Tucson. Tucson requests an effective date of March 1, 1979.

Copies of this filing were served upon San Diego, according to Tucson.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 29, 1978. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

ENVIRONMENTAL PROTECTION  
AGENCY

[FRL 1029-5; OPP-503961]

EXPERIMENTAL USE PERMITS

Issuance

The Environmental Protection Agency (EPA) has issued experimental use permits to the following applicants. Such permits are in accordance with, and subject to, the provisions of 40 CFR Part 172, which defines EPA procedures with respect to the use of pesticides for experimental purposes.

No. 100-EUP-58. Ciba-Geigy Corporation, Greensboro, North Carolina 27409. This experimental use permit allows the use of a formulation of 500 pounds of the herbicide metolachlor and 400 pounds of the herbicide atrazine on corn to evaluate control of weeds. A total of 250 acres is involved; the program is authorized only in the 48 contiguous states. The experimental use permit is effective from March 1, 1979 to March 1, 1980. Permanent tolerances for residues of the active ingredients in or on corn have been established (40 CFR 180.368 and 180.220). (PM-25, Room: E-301, Telephone: 202/755-2196)

No. 10182-EUP-11. ICI Americas, Inc., Wilmington, Delaware 19897. This experimental use permit allows the use of 1,200 pounds of the sanitizer poly (hexamethylene biguanide hydrochloride) in 756,394 gallons of pool water in 11 swimming pools to evaluate control of bacteria. The program is authorized only in the States of Florida, Pennsylvania, and Tennessee. The program is effective from December 4, 1978 to December 4, 1979. (PM-32, Room: E-321, Telephone: 202/755-9040)

Interested parties wishing to review the experimental use permits are referred to the designated Product Manager (PM), Registration Division (TS-767), Office of Pesticide Programs, EPA, 401 M Street, S.W., Washington, D.C. 20460. The descriptive paragraph for each permit contains a telephone number and room number for information purposes. It is suggested that interested persons call before visiting the EPA Headquarters Office, so that the appropriate permits may be made conveniently available for review purposes. The files will be available for inspection from 8:30 a.m. to 4:00 p.m. Monday through Friday.

STATUTORY AUTHORITY: Section 5 of the Federal Insecticide, Fungicide and Rodenticide Act, as amended in 1972, 1975, and 1978 (92 Stat. 819; 7 U.S.C. 136).

Dated: December 19, 1978.

DOUGLAS D. CAMPT,  
Acting Director,  
Registration Division.

#### PESTICIDE PROGRAMS

##### Filing of Food Additive Petition

ICI Americas Inc., Concord Pike & New Murphy Road, Wilmington, DE 19897, has submitted a petition (FAP 9H5201) to the Environmental Protection Agency (EPA) which proposes that 21 CFR 193 be amended by establishing a regulation permitting the use of the insecticide pirimiphos methyl (O-[2-diethylamino]-6-methyl-4-pyrimidinyl] O, O-dimethyl phosphorothioate) in a proposed experimental program involving the application of the insecticide to stored peanuts with a tolerance limitation of 50.0 parts per million (ppm) on the commodity peanut oil. Notice of this submission is given pursuant to the provisions of section 409(b)(5) of the Federal Food, Drug, and Cosmetic Act.

Interested persons are invited to submit written comments on this petition to the FEDERAL REGISTER Section, Program Support Division (TS-757), Office of Pesticide Programs, EPA,

Rm. 401, East Tower, 401 M St., SW, Washington DC 20460. Inquiries concerning this petition may be directed to Product Manager (PM) 16, Registration Division (TS-767), Office of Pesticide Programs, at the above address, or by telephone at 202/755-9315. Written comments should bear a notation indicating the petition number.

Comments may be made at any time while a petition is pending before the Agency. All written comments filed pursuant to this notice will be available for public inspection in the office of the FEDERAL REGISTER Section from 8:30 a.m. to 4 p.m. Monday through Friday.

Dated: December 19, 1978.

#### PESTICIDE PROGRAMS

##### Receipt of Application To Register Pesticide Product Containing New Active Ingredient

Ventron Corp., Beverly, MA 01915, has submitted to the Environmental Protection Agency (EPA) an application to register the pesticide product VINYZENE SB-129 (EPA File Symbol 2829-RR1), containing 12.5% of the active ingredient N-(2-methyl-1-naphthyl)maleimide which has not been included in any previously registered pesticide product. The application proposes that the application be classified for general use as an antimicrobial for plastic compounds.

Notice of receipt of this application does not indicate a decision by the Agency of the application. Interested persons are invited to submit written comments on this application to the FEDERAL REGISTER Section, Program Support Division (TS-757), Office of Pesticide Programs, EPA, Rm. 401, East Tower, 401 M St., SW, Washington DC 20460. The comments must be received within 30 days from the date of publication of this notice in the FEDERAL REGISTER and should bear a notation indicating the EPA File Symbol "2829-RR1". Comments received within the specified time period will be considered before a final decision is made; comments received after the specified time period will be considered only to the extent possible without delaying processing of the application. Specific questions concerning this application and the data submitted should be directed to Product Manager (PM) 21, Registration Division (TS-767), Office of Pesticide Pro-

grams, at the above address or by telephone at 202/426-2454. The label furnished by Ventron Corp., as well as all written comments filed pursuant to this notice, will be available for public inspection in the office of the Federal Register Section from 8:30 a.m. to 4:00 p.m. Monday through Friday.

Notice of approval or denial of this application to register VINYZENE SB-129 will be announced in the FEDERAL REGISTER. Except for such material protected by Section 10 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) as amended in 1972, 1975, and 1978 (92 Stat. 819; 7 U.S.C. 136), the test data and other information submitted in support of registration as well as other scientific information deemed relevant to the registration decision may be made available after approval under the provisions of the Freedom of Information Act. The procedures for requesting such data will be given in the FEDERAL REGISTER if an application is approved.

Dated: December 19, 1978.

DOUGLAS D. CAMPT,  
Acting Director,  
Registration Division.

[FRL 1030-4]

#### PROPOSED DETERMINATION UNDER THE "LOCAL OR REGIONAL COAL" AMENDMENT OF THE CLEAN AIR ACT

AGENCY: United States Environmental Protection Agency.

ACTION: Notice of proposed determination under subsection 125(a) of the Clean Air Act that action may be necessary to prevent or minimize significant local or regional economic disruption and unemployment in Ohio.

SUMMARY: The Environmental Protection Agency (EPA) proposes to make a determination pursuant to subsection 125(a) of the Clean Air Act as amended in 1977 (42 U.S.C. 7425(a)) that action may be necessary under subsection 125(b) (42 U.S.C. 7425(b)) to prevent or minimize the significant local or regional economic disruption and unemployment that would result in Ohio from use by major fuel burning stationary sources operated by Ohio utilities of coal which is not locally or regionally available. Simultaneously and as a condition of any proposed subsection 125(b) rules or orders, rules or orders pursuant to subsection 125(c) (42 U.S.C. 7425(c)) may also be proposed.

This proposed determination under subsection 125(a) is based on findings of public hearings held in Ohio cities in August 1978; written comments sub-

mitted to EPA by interested individuals and organizations; information submitted to EPA by Ohio utilities pursuant to requirements of the federally promulgated Ohio sulfur dioxide implementation plan of August 27, 1976 (41 FR 36324) as amended May 31, 1977 (42 FR 27588) and a request for information issued by EPA pursuant to section 114 of the Act (74 U.S.C. 7414); and finally, results of EPA's economic and coal market analysis studies conducted in Ohio.

The proposed determination may result in the proposal of rules or orders or other administrative action under subsections 125(b) and 125(c) of the Act. Such rules, orders or other administrative action initiated would be applicable to specific Ohio utilities and would: (1) prohibit use of quantities of fuels other than locally or regionally available coal or coal derivatives to comply with Ohio sulfur dioxide, regulations, (2) require long-term contracts for supplies of regionally available coal or coal derivatives, (3) require contracts for the acquisition of any additional means of emission limitation that may be necessary to comply with the Ohio sulfur dioxide regulations, and (4) require compliance with such schedules and timetables as may be necessary to meet the requirements of the Ohio sulfur dioxide regulations.

This notice solicits written comment on the proposed determination under subsection 125(a) as well as the technical reports used as the basis for the EPA findings of economic disruption and unemployment and establishes a public hearing for public participation in this proposed determination. Written comments related to the issues defined in EPA's notice of proceedings of July 13, 1978 (43 FR 30113) are also solicited, particularly comments and views concerning the interpretation of the "local or regional coal" terms as stated in section 125 of the Act.

A final determination under subsection 125(a) will be made following the public hearing and close of the comment period. Rules or orders or other administrative action under subsections 125(b) and (c) found to be necessary will be proposed simultaneously with or subsequent to the final determination.

DATES: (1) The public comment period for this proposed determination under subsection 125(a) will remain open until February 26, 1979. A final determination will be issued by EPA following the close of the comment period. Written comments already received by EPA concerning the "local or regional coal" proceedings in Ohio under section 125 of the Act will be considered as comments in this proceeding.

(2) A public hearing will be held in Columbus, Ohio, January 30, 1979, to allow public participation in this proposed determination. The hearing will commence at 9:00 am in the Neil House Motor Hotel, 41 S. High Street, Columbus, Ohio 43215. Requests for appearance at the public hearing should be submitted to EPA by January 25, 1979.

ADDRESSES: All data, views or arguments which are submitted in writing to EPA, will be considered before a final subsection 125(a) determination is made. Such comments and information as well as requests for appearance at the public hearing should be sent to: Office of Enforcement, Division of Stationary Source Enforcement, EN-341, U.S. Environmental Protection Agency, 401 M Street, S.W., Washington, D.C. 20460, Attention: F. J. Biros.

Copies of all comments received as well as data and information including the August 1978 hearings transcripts and written comments used as a basis for this determination, and any subsequent administrative action will be available for public inspection during regular business hours at the same locations indicated in the Notice of Proceedings published July 13, 1978 (43 FR 30113).

#### FOR FURTHER INFORMATION CONTACT:

F. J. Biros, Chief, Technical Support Branch, Division of Stationary Source Enforcement, EN-341, U.S. EPA, 401 M Street, S.W., Washington, D.C. 20460; Telephone: (202) 755-2560.

SUPPLEMENTARY INFORMATION: On July 13, 1978, EPA published in the FEDERAL REGISTER a notice of proceedings under the "local or regional coal" amendment, section 125 of the Clean Air Act with respect to eight fuel burning electric utilities in Ohio (43 FR 30113). The proceedings were instituted in response to petitions received by EPA from the United Mine Workers of America, District 6 and the Ohio Mining and Reclamation Association to initiate action under the "local or regional coal" amendment. Senator Metzenbaum and Governor Rhodes of the State of Ohio later joined in the petitions.

Subsection 125(a) of the Act authorizes the Administrator of EPA, or the President (or his designee), after notice and opportunity for public hearing, to determine whether action under subsection 125(b) is necessary to prevent or minimize significant local or regional economic disruption or unemployment which would otherwise result from use by any major fuel burning stationary source of fuels other than locally or regionally available coal or coal derivatives, petroleum products, natural gas or any combina-

tion of such fuels to comply with a State's implementation plan requirements. Such action may prohibit such source from using other than locally or regionally available coal or coal derivatives and may include requirements that the source enter into long-term contracts for supplies of regionally available coal or coal derivatives and that such source enter into contracts to acquire additional means of limiting emissions, including stack gas scrubbing, to comply with the requirements of the plan. The source may also be required to comply with such schedules and timetables as are necessary to meet the plan requirements.

The petitions alleged that compliance with the Ohio sulfur dioxide plan by Ohio utility power plants would result in large scale switching from high sulfur coal supplies obtained predominantly from Ohio mines to low sulfur coal supplies which are not locally or regionally available. The petitions further alleged that fuel switching by the Ohio utilities would possibly result in significant local or regional economic disruption or unemployment.

In response to the petitions, EPA conducted public hearings in Cleveland, Ohio, on August 15 and 16, 1978 and in St. Clairsville, Ohio, on August 22 and 23, 1978. In addition, written comments, views, and information were solicited on several key issues, including the extent of any actual or potential local or regional economic disruption or unemployment that would occur if major fuel burning stationary sources in Ohio were allowed to comply with the sulfur dioxide emission limitations through the use of fuels other than locally or regionally available coal or coal derivatives in the operation of their facilities (43 FR 30113). The public comment period and hearing record closed October 16, 1978.

On June 12, 1978, EPA requested certain information from the major Ohio utilities named in the July 13, 1978, notice on the section 125 proceedings. Under section 114 of the Clean Air Act, EPA requested information on the past, present and projected coal use plans of the Ohio utilities for complying with the sulfur dioxide regulations. In addition, EPA retained four engineering and economic consultant firms to analyze this and other information and to predict whether and to what extent economic disruption or unemployment is likely to result from use of fuel other than locally or regionally available coal or coal derivatives. Based on this information and analysis, EPA believes that sufficient information has been obtained to propose this determination under subsection 125(a) of the Act. This proposed determination is

based on a finding of significant projected curtailments in use of Ohio high sulfur coal by Ohio utilities which would result in significant local or regional economic disruption and unemployment principally in Ohio's coal producing southeastern counties. The projected curtailment is due to proposed plans by the Ohio utilities to comply with the sulfur dioxide regulations.

#### PROJECTED CURTAILMENT IN OHIO COAL USE

The total coal market impact of the projected compliance coal use plans of the Ohio utilities which are the subject of these proceedings is set forth in Appendix A. The curtailment data were calculated from information supplied by the utilities as to their plans to meet the Clean Air Act sulfur dioxide plan for Ohio. The utilities supplied this information to EPA in response to the sulfur dioxide plan, in testimony at the public hearings, in responses to EPA's letters of inquiry under Section 114 of the Clean Air Act, in Form 423 coal use data submissions to the Federal Energy Regulatory Commission, and in other communications directly to EPA staff and consultants.

The estimated loss in Ohio coal production during the period 1977-1980, resulting from the shift to low sulfur compliance coal by fourteen major Ohio power plants is 15.8 million tons per year. This loss in production would result directly from switches to low sulfur coal supplies by the Ohio power plants as a result of their attempts to comply with the Ohio sulfur dioxide regulations. The replacement coal would be Central Appalachian coal predominantly from eastern Kentucky and central and southern West Virginia.

In the context of Ohio's total coal production of 46.9 million tons per year, the projected curtailment represents a 33.7% drop in production in Ohio's coal mining industry. Furthermore, since Ohio utilities purchased 32.3 million tons of coal from Ohio's mines in 1977, the curtailment amounts to 48.9% of Ohio utility coal use (Appendix B).

The corresponding projected curtailment in the Ohio power plants' use of high sulfur coal from neighboring states, primarily West Virginia and Pennsylvania is estimated to be 1.32 million tons per year. The predominant impact of the projected shift in use of coal in Ohio, therefore, is within Ohio's 25 coal producing southeastern counties. The 1980 curtailment in Ohio utility consumption of high sulfur coal from neighboring states expressed as a percentage of total 1977 production ranges from 0.1% for Indi-

ana to 0.7% for Pennsylvania and West Virginia, to 1.0% for Maryland.

EPA also examined shifts in demand for Ohio coal by electric utility plants in neighboring states. This analysis showed that the projected net curtailment in Ohio coal production over the time period of EPA's analysis may be slightly less than 15.8 million tons per year. If planned increases in Ohio coal use by certain Ohio power plants occur by 1979, the coal production losses could be reduced to 14.1 million tons per year. On the other hand, projected changes in supply and demand for Ohio coal by power plants in other states, some of which are owned by Ohio utilities, would increase this reduced curtailment slightly, resulting in a net estimated loss of 14.4 million tons annually in 1980. Although losses would be significant because of contracts terminated or not renewed by power plants, primarily in Michigan, that are switching to other fuels to meet environmental regulations, the losses would be very nearly offset by new contracts from power plants in other states such as Pennsylvania. The net loss resulting from demand shifts by utilities in neighboring states is estimated to be 0.3 million tons per year. Therefore, taking all known coal use plans into account, the net projected curtailment in Ohio coal production is reduced to 14.4 million tons per year. EPA has determined that even this reduced coal production loss (30.7%) would represent a significant impact on Ohio's coal mining industry.

For purposes of this proposed determination, however, the curtailment estimate of 15.8 million tons per year was used as the basis of the economic impact analysis discussed below. This figure represents the projected curtailment resulting directly from the plans of the Ohio power plants to comply with Ohio's sulfur dioxide regulations by using low sulfur coal.

Based on the findings of the analyses of the low sulfur coal market in Central Appalachia conducted by EPA and made available for public review and comment on July 31, 1978 (43 FR 33312), alternative markets for Ohio coal are not likely to be found before the mid to late 1980's time period when new power plants subject to EPA's New Source Performance Standards are constructed in the late 1980's and such plants could purchase Ohio high sulfur coal for use with stack gas scrubbers.

Finally, the projected curtailments may be affected by pending review by EPA of the emission standards applicable to several of the Ohio power plants under the remands of the Court of Appeals for the Sixth Circuit, *Cincinnati Gas and Electric Co. v. EPA*, 578 F.2d 660,666 (6th Cir. 1978) and petitions for review of plan provisions

submitted to EPA by certain Ohio utilities. If these proceedings result in revisions to the plan, the actual coal curtailment may be greater or lesser than projected in EPA's current studies.

#### PROJECTED EMPLOYMENT IMPACTS

As indicated in Appendix C, EPA estimates that the projected curtailment in Ohio coal production of 15.8 million tons per year due to Ohio power plants switching to low sulfur coal in order to attain compliance with the Ohio sulfur dioxide regulations by the end of 1979 will result in an estimated loss of 5,270 mining jobs in Ohio's southeastern coal producing counties. This represents approximately 35% of Ohio's total coal miner work force of 15,200 active miners in 1977. The miner job displacement data were estimated by tracing supplies of Ohio coal expected to be terminated by Ohio utilities to individual mines producing that coal. The job loss estimates also take into account differences in employment figures associated with surface and deep mine coal producing operations.

During the 1977 to 1980 time period, other changes in mine employment will have occurred. As a result of anticipated increases in Ohio coal demand by some Ohio utilities for reasons other than compliance with the State's sulfur dioxide plan requirements, approximately 1,070 coal mining jobs could be created. These jobs are expected to be created and filled before the employment losses associated with the switch to low sulfur coal by Ohio powerplants, and therefore, they are not expected to offset the losses due to the switch to low sulfur coal. A later gain, however, in coal mining employment resulting from increases in Ohio coal demand by powerplants in Pennsylvania is expected to occur. EPA estimates this gain will amount to 680 jobs. In addition, a loss of 1,360 coal mining jobs is expected as a result of various Michigan utilities also shifting from Ohio coal to low sulfur coal from other States. Taking these additional changes in coal mining employment in Ohio into account results in an estimated net decrease in employment of 4,880 jobs compared to the 1977 level. This represents about 32% of Ohio's 1977 coal mining jobs. However, if the timing of the employment gains and losses is considered, the net total decrease after early 1979 is expected to be 5,950 jobs. This represents about 39% of Ohio's 1977 coal mining employment. Because of the lack of growth in other sectors of the southeastern Ohio economy, there is little likelihood that the economy could absorb the coal miners and other workers that would be displaced by the shift to out-of-State coal.

Because an estimated 5,270 jobs would be lost directly due to the projected switches to low-sulfur coal by Ohio powerplants, this figure was used to project unemployment rates and estimate related job losses in Ohio using economic modeling techniques.

Coal mining unemployment would increase significantly in the southeastern Ohio counties hardest hit particularly Belmont, Monroe, Harrison, Jefferson and Tuscarawas Counties. Appendix D sets out the estimated loss in coal production and corresponding reduction in coal miner employment estimated by EPA for five individual southeastern Ohio counties. For example, in Belmont and Monroe Counties, 2,310 coal mining jobs, corresponding to a 41.7% reduction in the two County coal mining employment base would be lost. In Harrison County, 1,240 coal mining jobs would be lost representing a 51.5% reduction in County coal mining employment. The corresponding percent reduction in coal mining employment for Jefferson and Tuscarawas Counties is 56.0% and 63.3%, respectively. For Ohio's remaining coal producing counties, the percent reduction in coal mining employment would be 17%.

As a result of the estimated 5,270 coal mining jobs lost, jobs in other employment sectors in Ohio would, of course, also be affected (Appendix C). Job losses in mine supply industries are estimated to range from 3,170 to 3,530. Losses in industries dependent on household spending, e.g., household services, rentals, wholesale and retail sales, production industries, etc., are estimated to range from 4,740 to 6,500 jobs. The loss of jobs in other occupations, termed a "ripple effect," was calculated on the basis of U.S. Department of Commerce and U.S. Department of Agriculture economic models modified for the Ohio economy. The total employment loss attributable to the projected Ohio utility coal switch, therefore, could amount to as many as 13,180 to 15,300 jobs. This total represents approximately 0.3% of Ohio's total State employment. The effect on certain Ohio southeastern counties, where a major industry is coal mining, would be especially severe.

Appendix E details the projected total employment impacts for four southeastern Ohio counties. For example, total jobs lost in the Belmont/Monroe Counties area is projected to range from 3,995 to 4,435. This represents 10.0 to 11.1% of the total labor force in the two counties. Harrison County would be hardest hit with 25.7 to 28.3% of the labor force affected. Unemployment rates for Belmont/Monroe Counties would more than double and for Harrison County would increase at least four-fold. For the

four county area, 7.9 to 8.7% of the total labor force would be affected over and above the pre-impact unemployment rate of approximately 6.8%. If all these workers remained in the areas without jobs, the total unemployment rate would reach 15% for the four contiguous counties with a total civilian labor force of more than 85,000 people.

#### PROJECTED ECONOMIC IMPACT

Direct wage losses due to the lay off of 5,270 miners are estimated by EPA to be \$90 million annually. Job losses in the non-mining sector would add \$105 to \$125 million annually in lost wages. The total annual income loss in Ohio would therefore be \$195-\$215 million directly resulting from the projected Ohio utility coal switch. Approximately \$36-\$41 million in unemployment benefits would have to be paid. This amount represents a 10% increase in the State's current outlay for unemployment benefits. After 26 weeks such benefits would cease and welfare benefits would begin for those who would be eligible.

Due to a multiplier effect, whereby the reduction in coal output and associated employment effects are magnified throughout Ohio's economy, the total loss in the annual gross state product would be \$400 million or greater. Although the decline in business activity represents only up to 0.4% of Ohio's current annual gross product, the effects of such a loss would be severely felt in Ohio's coal producing counties. The data in Appendix C summarize the local and regional economic impacts.

#### CONCLUSION AND ACTION

In consideration of the foregoing, EPA proposes to determine under subsection 125(a) of the Clean Air Act (42 U.S.C. 7425(a)) that action may be necessary under subsections 125(b) and (c) (42 U.S.C. 7425(b) and (c)) to prevent or minimize the significant local or regional economic disruption and unemployment that would occur as a result of the projected use by major fuel burning stationary sources operated by Ohio utilities of coal or coal derivatives not locally or regionally available. Proposed rules or orders under subsection 125(b) may prohibit certain Ohio power plants from using fuels other than locally or regionally available coal or coal derivatives to comply with implementation plan requirements.

According to the provisions of subsection 125(b) such rules or orders may only be issued after the final cost to the consumer of such an action is taken into account. EPA is conducting studies to define the consumer impact of action under section 125.

Under subsection 125(c), certain Ohio power plants may be required to enter into long-term contracts for supplies of regionally available coal or coal derivatives which would prevent or minimize the curtailments in Ohio coal production projected by this proposed determination. In such a case, the power plants may also be required to acquire any additional means of emission limitation that may be necessary to comply with the requirements of the Ohio sulfur dioxide regulations while using such coal or coal derivatives as fuels. With respect to the Ohio power plants that have projected the coal switches used as a basis for this proposed determination, EPA has examined the technical feasibility and costs of several such means of additional emission limitation including stack gas scrubbing, coal washing, coal blending and combinations of these alternative compliance strategies. Notice of Availability of the report detailing the results of this study was issued by EPA on November 7, 1978 (43 FR 51842).

This proposed determination establishes a comment period commencing with the date of publication and continuing for 60 days. In addition, a public hearing will be conducted in Columbus, Ohio, on January 30, 1979, permitting public participation in this proposed determination. The time and location of the public hearing is indicated above.

Comments and testimony will be received by EPA concerning all the issues defined in the July 13, 1978, notice of proceedings. EPA has received many written comments and heard testimony concerning these issues during the initial comment period and the public hearings held in Ohio in August, 1978. The focus of the presently announced public hearing, therefore, will be the information developed as a basis for this proposed determination which is described in this notice and the two technical reports issued simultaneously and described below, and the issues associated with EPA's future course of action under section 125.

The Ohio utilities affected by any rules, orders or other administrative action proposed under subsections 125(b) and (c) will be specified at the time any such action is proposed. Such proposed administrative action, if found to be necessary, will be published following or simultaneously with the final determination under subsection 125(a). In the interim, EPA will make available for public review and comment reports of all studies conducted which are relevant to these proceedings. These studies include the engineering assessment of alternative compliance strategies for selected Ohio fuel burning power plants and

the Central Appalachian low sulfur coal supply and demand analysis already issued for public review and comment. Two reports described below are being made available simultaneously with this notice. Yet to be issued for public review and comment are an additional coal market study assessing the costs of Ohio and Central Appalachian coal and transportation impacts of the projected Ohio coal curtailments, and an economic analysis, including cost to the consumer, of the projected coal use plans as well as the alternative compliance strategies for selected Ohio fuel burning power plants. Results of these studies will serve as a basis for any proposed EPA action under subsections 125(b) and 125(c) affecting individual power plants. All pending reports, when completed, will be made available for public comment with a minimum 30-day review and comment period. A timely notice in the FEDERAL REGISTER

will indicate the availability of documents, requested deadline dates for comments, and other necessary information. Public availability of all reports and the closing of the comment periods for the reports are expected to occur by March 1, 1979. Since a final determination under subsection 125(a) is expected to be issued by approximately this date, any proposed action under subsections 125(b) and 125(c) will be announced by EPA in the FEDERAL REGISTER following this date.

The complete technical background for this proposed determination may be found in two documents which are hereby made available for public review and comment. EPA will consider all comments received within the 60 day comment period established for this proposed determination. The reports are entitled: "Regional Economic Impact Analysis: Ohio Section 125 Study," and "Draft Report: Potential Impacts on the Ohio Coal Market:

Ohio Utility Compliance with Applicable Air Emission Limitations: Section 125 Study."

Copies of the two reports have been distributed to organizations and individuals who are known to have an interest in the Ohio section 125 proceedings. Copies of the reports are also available for public inspection and copying during normal business hours at the library repository locations indicated in 43 FR 30113.

Written comments should be submitted to the address indicated in this notice. Copies of all comments received and responses thereto will be placed in the above referenced locations following close of the comment period.

(Section 125 of the Clean Air Act as amended August 7, 1977, 42 U.S.C. 7425.)

Issued in Washington, D.C., on December 19, 1978.

DOUGLAS M. COSTLE,  
Administrator.

## APPENDIX C

Projected Employment and Economic Impacts of Fuel  
Switching by Ohio Utilities

|                                                                                                                                                      |                          |
|------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------|
| Number of Ohio Coal Mining Jobs (1977) <sup>1</sup>                                                                                                  | 15,200                   |
| Ohio Coal Mining Jobs Lost by 1980 Due to<br>Projected Coal Production Curtailments <sup>2</sup>                                                     | 5,270                    |
| Percent of Total                                                                                                                                     | 34.7%                    |
| Jobs Lost in Coal Mine Supply Industries <sup>3</sup>                                                                                                | 3,170 - 3,530            |
| Jobs Lost in Industries Related to Household<br>Spending (Household Services, Rentals,<br>Wholesale and Retail Sales, Production, Etc.) <sup>3</sup> | 4,740 - 6,500            |
| Total Jobs Lost                                                                                                                                      | 13,180 - 15,300          |
| Total Annual Wages Lost <sup>4</sup>                                                                                                                 | \$195 - \$215 million    |
| Total Unemployment Benefit<br>Payments                                                                                                               | \$36 - \$41 million      |
| Total Annual Loss to Ohio<br>Gross State Product                                                                                                     | \$400 million or greater |

<sup>1</sup> Ohio coal mine employment data were obtained from the Ohio Department of Industrial Relations, Division of Mines Annual Report, 1977.

<sup>2</sup> The projected coal mine unemployment data were developed by tracing individual utility coal curtailments to expected employment losses at surviving mines from information provided by the Ohio utilities and Ohio coal mine operators. Where this was not possible, employment impacts were estimated by analysis of coal mine employment and production data found in the 1977 Division of Mines Annual Report.

<sup>3</sup> Job losses in the non-mining sector and impacts on the Ohio gross annual product were estimated by using Department of Commerce RIMS and Department of Agriculture RIMS economic models.

<sup>4</sup> Wage loss and unemployment benefit data were obtained from the Ohio Bureau of Employment Services.

## APPENDIX D

Projected Coal Curtailment and Coal Mining  
Unemployment Impacts in Selected Ohio Counties  
of Fuel Switching by Ohio Utilities

(FRL 1031-6)

TOTAL MAXIMUM DAILY LOADS UNDER  
CLEAN WATER ACTAGENCY: Environmental Protection  
Agency.

ACTION: Notice.

**SUMMARY:** The purpose of this notice is to finalize EPA's identification of pollutants suitable for total maximum daily load calculations pursuant to the Clean Water Act. EPA proposed an identification for public comment on September 20, 1978. This identification is being issued pursuant to the Act's requirement that EPA develop and publish information "on and the identification of pollutants suitable for maximum daily load measurements correlated with the achievement of water quality objectives." EPA is identifying all pollutants, under proper technical conditions, as being suitable for the calculation of total maximum daily loads. Within 180 days after publication of this notice, the Act requires each state to submit its first identification of waters requiring total maximum daily loads and its first load calculations.

**DATE:** This identification is effective December 28, 1978.

FOR FURTHER INFORMATION  
CONTACT:

Tim S. Stuart, Office of Water Planning and Standards, U.S. Environmental Protection Agency, 401 M Street SW., Washington, D.C. 20460, telephone 202-245-3042.

**SUPPLEMENTARY INFORMATION:** On September 20, 1978, EPA published a notice in the *FEDERAL REGISTER* (43 FR 42303) proposing an identification of pollutants suitable for total maximum daily load (TMDL) calculations pursuant to the Clean Water Act (33 U.S.C. § 1251 et seq.). The purpose of today's notice is to finalize EPA's identification of pollutants suitable for TMDL calculation. This notice is issued pursuant to section 304(a)(2)(D) of the Act. (33 U.S.C. § 1314(a)(2)(D).)

The legal basis, proposed identification and information on calculating TMDL's, priority ranking and content of State submissions were set out in the proposed notice. Interested persons were invited to submit written comments on the identification and information within 45 days from the date of publication. EPA received comments from 21 respondents including four State agencies, three local governmental organizations, 11 private concerns (industrial/consulting), and two attorneys. These written comments are available for public inspection at EPA headquarters.

EPA has carefully considered all of the comments received and a discussion of the significant comments with the Agency's response thereto follows. The discussion is based on the format of the original notice.

## (A) RESPONSES TO COMMENTS

## BACKGROUND

(1) Two State water quality agencies suggested that both past and present State and Federal water quality programs were sufficient to accomplish the purposes of the Act, and that wasteload allocation and other modeling efforts that had already occurred or that were already scheduled were sufficient. In their view, additional resources and efforts in this area would be misdirected.

Section 304(a)(2)(d) requires that EPA identify pollutants suitable for TMDL calculation. EPA is currently under an order of the United States District Court for the District of Columbia to comply with section 304(a)(2)(D). EPA is aware of ongoing programs, and therefore, the proposed identification of pollutants is not intended to require States to devote additional resources to TMDL and wasteload allocation development. Results of past or ongoing efforts, where adequate, can be submitted to initially satisfy the TMDL requirement. Specifics on timing, content and level of detail of future TMDL's will be negotiated by each State and the appropriate EPA Regional Office. EPA also believes that implementation and use of TMDL's can also serve as a tool for developing equitable and technically sound wasteload allocations.

(2) One commenter suggested that EPA's reference to the existing water quality management (WQM) regulations was not meaningful, since they will soon be superseded.

The proposed water quality management regulations also require the development of TMDL's as part of the water quality management planning process (40 CFR 35.1519, see 43 FR 40750, September 12, 1978).

(3) One commenter suggested that the court order pursuant to which EPA was proposing to identify pollutants suitable for TMDL calculation was mandatory only for the Patuxent River Basin.

The court order was not limited in its effect to the Patuxent River Basin. In any case, EPA believes that its identification should be made on a nationwide basis to encourage uniformity among the States and EPA regions for implementation of the TMDL program.

## PROPOSED IDENTIFICATION AND IMPLEMENTATION INFORMATION—IDENTIFICATION

(1) Many commenters suggested that the phrase "under proper technical conditions" should be clarified.

"Proper technical conditions" refers to the availability of the analytical methods, modeling techniques and data base necessary to develop a technically defensible TMDL. These elements will vary in their level of sophistication depending on the nature of the pollutant and characteristics of the segment in question. They must be determined on a case-by-case basis. It is impossible to detail the proper technical conditions for all pollutants in all situations. Moreover, EPA does not want to preclude States from developing their own approaches.

(2) One commenter suggested that EPA's proposed identification evades the intent of § 304(a)(2)(D) since no specific identification of pollutants is made.

The statute does not require the Agency to specify by name every pollutant suitable for TMDL calculation. Since EPA's identification includes all pollutants, it would be unreasonable and unnecessary to list all chemicals and other pollutants by name.

(3) One commenter recommended that only actual pollutants be identified and not the parameters which merely indicate the presence of pollutants without identifying them.

EPA believes that the determination of TMDL's for parameters which indicate the presence of pollutants (e.g., total dissolved solids, suspended solids) can be useful in certain situations and should not be excluded from consideration.

## INFORMATION—CALCULATION OF TMDL'S

(1) One comment requested a definition of TMDL.

A TMDL can generally be defined as the pollutant loading for a segment of water that results in an ambient concentration equal to the numerical concentration limit required for that pollutant by the numerical or narrative criteria in the water quality standards.

(2) A few commenters felt that some pollutants are not suitable for TMDL calculations because adequate analytical methods or modeling techniques do not yet exist.

The Agency believes that TMDL's can be determined for any pollutant. EPA recognizes that proper techniques do not exist for all pollutants in all situations; however, proper techniques can be developed for any pollutant given adequate resources. A limited list of specific pollutants would be too restrictive because it might preclude the States from determining TMDL's for other pollutants for

which proper techniques can be developed.

(3) A number of commenters stated that the notice does not provide adequate technical information and guidance for the States to use in the calculation of TMDL's for specific pollutants, and suggested that EPA provide additional guidance on this subject.

Most States already have some experience with the wasteload allocation process, and generally have the knowledge needed to determine the proper techniques and conditions for TMDL's. Those States which do not have the knowledge have easy access to it in the technical literature, EPA guidance, and contractor expertise. EPA recognizes the desirability of additional technical guidance for the calculation of TMDL's and is developing such guidance.

(4) Several commenters felt that TMDL's could not be developed in the absence of numerical criteria in water quality standards.

Where numerical water quality criteria do not now exist, States may use information published by EPA under section 304(a) of the Act (e.g., "Red Book" criteria) or may use available information in the technical literature for developing TMDL's.

(5) A few commenters expressed dissatisfaction over how conservative and nonconservative pollutants are defined, and how conservative TMDL's (C-TMDL's) are distinguished from nonconservative TMDL's (N-TMDL's). Two commenters felt that the definitions of conservative and nonconservative pollutants are not flexible enough to allow for variations in locations and conditions which affect the behavior of many pollutants. One commenter believed that the manner in which N-TMDL is discussed does not adequately distinguish it from C-TMDL, and suggested that the major difference between the two classes of pollutants is that the N-TMDL is affected by chemical and biological processes in the aquatic environment and not just by flow or volume.

As noted above, a TMDL can be defined as the pollutant loading for a segment of water that results in an ambient concentration equal to the numerical concentration limit required for that pollutant by the numerical or narrative criteria in the water quality standards. The means for determining the TMDL will depend on the classification of the given pollutant (i.e., conservative or nonconservative). As indicated in the September notice, EPA recognizes that the dividing line between conservative and nonconservative pollutants is not sharp and the classification of a given pollutant may vary according to the situation (e.g., the location of discharges and other conditions in the segment). Since

TMDL calculations are made on a case-by-case basis, the States are free to use their judgment in classifying a pollutant as either conservative or nonconservative, based on its characteristics of the segment in question. Also, EPA recognizes that N-TMDL's are affected by a number of factors including chemical and biological processes in the aquatic environment, and the States will be free to use their judgment in weighing these factors.

(6) One commenter questioned the applicability of "Red Book" criteria to local conditions.

This issue was also raised in EPA's advanced notice of proposed rulemaking for water quality standards (43 FR 29588, July 10, 1978), and is now under consideration by EPA.

## INFORMATION—PRIORITY RANKING

(1) One commenter suggested that we use the criteria contained in the existing WQM regulation (40 CFR 130/131) to determine priorities, rather than the criteria in the proposal.

Currently, 40 CFR 130.20(a)(2) simply requires a ranking of segments based on a statewide assessment of water quality problems. The criteria in the notice provides more guidance. EPA feels that more detailed guidance is necessary because this identification triggers the States' requirements to develop TMDL's.

(2) Another commenter stated that EPA's proposed criteria for determining priorities were not necessarily conducive to environmental improvement, and suggested that efforts be concentrated on establishing water quality standards.

This notice is not intended to establish, on a nationwide basis, the appropriate level of resources to be devoted to water quality standards revisions but was intended to address the development of TMDL's as required by the Act.

(3) One commenter suggested that priority rankings should reflect availability of State resources.

EPA agrees that resources must be considered in deciding where to develop TMDL's. The proposed water quality management regulations provide for this consideration (See 40 CFR 35.1515-2 State Strategy).

(4) Another commenter proposed that projected costs and benefits of attaining water quality standards be considered in ranking segments for TMDL's.

The existing regulations governing establishment of water quality standards (40 CFR 130.17(c)) allow consideration of economic factors. The benefits of attaining water quality standards should be considered in the water quality standard setting process itself.

(5) One commenter suggested that factors other than (1) the severity of pollution, and (2) the uses to be made of the waters (§ 303(d)(1)(A)) may not be considered in establishing priority rankings for waters.

Section 303(d)(1)(A) is not exclusive of other factors. While States must consider the severity of pollution and uses to be made of the waters in establishing priority rankings, the statute does not preclude consideration of additional relevant factors such as timing, resource needs and level of technical detail.

(6) One commenter noted that while § 303(d)(1)(C) requires that TMDL's be calculated for waters in which the effluent limitations are not stringent enough to implement the applicable water quality standard, § 303(d)(3) requires TMDL's be estimated "for the specific purpose of developing information" for all other waters.

The proposed identification did fail to make this distinction clear. The proposal primarily deals with the States' obligations under section 303(d)(1)(C). All elements of the proposal, including recommendations for prioritization of TMDL calculations related to the States' obligations under section 303(d)(1)(C). These elements of the proposal would also apply to the States' obligations under § 303(d)(3) although EPA considers this requirement of the Act less significant than the requirement of section 303(d)(1)(C). Section 303(d)(3) deals with waters other than those identified in section 303(d)(1)(A) and (B) and requires TMDL's be estimated for informational purposes. While States should identify all water segments within their boundaries, TMDL's need be calculated only for pollutants for which the segments are water quality limited.

(7) One commenter requested a clarification of EPA's policy towards TMDL's in segments without existing water quality problems.

EPA's notice was intended to indicate that States are not limited to performing TMDL's in water quality limited segments but may also calculate TMDL's in segments which are not water quality limited. The draft has been revised accordingly.

(8) One commenter suggested that municipal dischargers be in compliance with effluent limitations before TMDL's are developed and wasteload allocations are made.

This is not a required prerequisite in the Act for development of TMDL's or wasteload allocations.

(9) One commenter suggested that the required date for pollutant identification should be deferred until after compliance with best available technology economically achievable (BAT)

## STATE SUBMISSIONS

effluent limits under section 301 of the Act.

The identification is required by court order. In fact, the Act required identification within one year of the enactment of the 1972 Amendments. In any case, the stream quality that would be achieved through compliance with BAT effluent limitations can usually be modeled prior to date of actual compliance. This makes it unnecessary to wait until after BAT compliance is achieved to see if the water quality standards will be met.

(10) One commenter requested a clarification of the issue of point and nonpoint source loadings.

We have eliminated the reference to nonpoint source contributions in establishing priorities for TMDL development, since the relative significance of point and nonpoint source contributions will in some cases not be determined until TMDL's are developed.

(11) Some commenters expressed concern that the proposal appeared to downgrade the role that TMDL's play in setting of effluent limits and criticized what they described as the EPA's lack of a sense of urgency in setting TMDL's. In their opinion this could lead to discharge limitations more stringent than necessary to meet water quality standards.

As stated in the proposal, EPA has not considered the development of TMDL's as a high priority since many of the practical results are being achieved through State water quality management processes. EPA does not consider the establishment of TMDL's as essential to setting of water quality based effluent limits. Development of TMDL's pursuant to section 303(d) is not a necessary prerequisite to adoption or enforcement of water quality standards, and therefore, will not determine the validity of existing, revised or new water quality standards. EPA believes that its identification and information provide a phased approach to establishment of TMDL's consistent with the intent of Congress, and also ensure that current State water quality management programs will not be disrupted. EPA's identification also provides needed flexibility in the development of TMDL's.

(12) One commenter suggested that the notice should require calculation of TMDL's for all water quality limited segments by 1983.

While EPA encourages the establishment of TMDL's at the earliest date practicable, calculation of TMDL's will be an evolving and time consuming process which does not lend itself to imposition of a deadline date. This should not be a problem since, as stated in the notice, development of TMDL's is not a necessary prerequisite to adoption or enforcement of water quality standards.

One commenter maintained that it would be difficult for States to submit their first TMDL calculation within six months of EPA's final identification, particularly in light of the fact that prior to performing these calculations, segment identification and priority ranking should also be accomplished.

The identification of one or more segments, and a TMDL for one or more segments, are the only items required within six months. Priority rankings should be submitted as part of the State/EPA agreement. EPA recognizes the problems in developing TMDL's within six months, and therefore reiterates that results of past or ongoing efforts can be submitted.

## OTHER COMMENTS

(1) Several commenters suggested that EPA modify its proposal to encourage public participation, particularly in establishing priorities and calculating TMDL and wasteload allocations.

The proposed water quality management regulations require compliance with the forthcoming public participation regulations. (43 FR 40750, September 12, 1978). The WQM regulations also specifically require the WQM planning agencies to provide the public with an opportunity to review and comment on proposed plans (TMDL's would be a part of these plans). (40 CFR 35.1533-3). These regulations also provide the public with an opportunity to participate in the development of the State/EPA agreements which will determine priorities for completing TMDL's.

(2) One commenter asked whether existing NPDES permits will have to be modified once a TMDL is completed.

NPDES permits are generally issued for a five year period. In most cases, permit conditions based on TMDL's will be incorporated into permits only upon reissuance.

(3) One commenter suggested that there should be a weighing of cost and benefits for determining which dischargers should have their permits based on TMDL's.

This notice is not intended to provide guidance on how States should allocate the total maximum daily load among individual point sources.

## (b) REVISIONS TO THE PROPOSED NOTICE

As a result of public comments and continuing review of the proposed notice by EPA, the following changes have been made in the final notice:

(1) The notice has been revised to reflect the distinction of the States' obligations under sections 303(d)(1)(C) and 303(d)(3) of the Act. As discussed

above, both sections 303(d)(1)(C) and 303(d)(3) require States to perform TMDL's, but EPA considers the requirements of section 303(d)(1)(C) to be of greater importance toward achieving the goals of the Act. The final notice reflects this position.

(2) The reference in the priority section to nonpoint source contributions in establishing priorities for TMDL development has been deleted. The reasoning supporting this revision was that the relative significance of point and nonpoint contributions will in some cases not be determined until TMDL's are developed.

(3) Section 304(a)(2)(D) requires the Administrator to both publish an identification of and information on pollutants suitable for TMDL calculation. The information provided in the proposed notice is not being revised significantly (with the exception of (1) and (2) above), but should be considered supplemented by EPA's response to the comments. Additional information in the responses is consistent with the information in the proposal and merely explains or elaborates on the information in the proposal.

## (c) FINAL NOTICE

This notice is being issued pursuant to an order of the U.S. District Court for the District of Columbia in *Board of County Commissioners of Calvert County, et al. v. Costle, et al.* (No. 78-0572).

Under section 304(a)(2)(D) EPA was required to publish an identification of pollutants suitable for total maximum daily load calculation within one year of the enactment of the 1972 Amendments to the Act. On October 26, 1973, EPA published a notice of availability (38 FR 29646) of a two-volume document containing a draft identification of pollutants potentially suitable for TMDL calculations. The draft identification was never finalized.

EPA did not consider such finalization a matter of high priority because many of the practical results of such an action are being accomplished in any event through the required State water quality management planning process under sections 208 and 303(e) of the Act. In particular, EPA's regulations at 40 CFR § 131.11 (f) and (g) include TMDL calculations and wasteload allocations as part of State water quality management plans.

However, on June 30, 1978, the Court issued an order requiring EPA to publish a final identification under section 304(a)(2)(D). EPA is, accordingly, issuing this final notice of identification today. Final identification under section 304(a)(2)(D) triggers the requirement under section 303(d) that States, or in certain instances EPA, calculate TMDL's for all segments in which water quality standards are not

expected to be met through the implementation of technology-based effluent limitations. EPA has carefully considered these requirements in issuing its identification, and we believe that the identification published today will have the least disruptive effect on ongoing State programs designed to meet water quality objectives.

EPA's identification will make the requirement for establishment of TMDL's part of the States' ongoing section 208 and section 303 planning processes. The identification should therefore not require States which are carrying out their functions under sections 208 and 303 to devote additional resources to wasteload allocations and TMDL development. Priority ranking systems will be established to keep the development of TMDL's within available resources.

This identification shall be effective as of December 28, 1978.

Dated: December 22, 1978.

THOMAS C. JORLING,  
Assistant Administrator for  
Water and Waste Management.

## IDENTIFICATION AND IMPLEMENTATION INFORMATION

## A. IDENTIFICATION

EPA's identification is as follows: All pollutants, under the proper technical conditions, are suitable for the calculation of total maximum daily loads.

The Agency believes that under the proper technical conditions total maximum daily loads (TMDL's) and wasteload allocations can be developed for all pollutants. The requirements to perform TMDL's will be adjusted according to a priority ranking as envisioned by section 303(d) of the Clean Water Act (33 U.S.C. 1251 *et seq.*) to avoid over-loading either the States or EPA during the phased development of TMDL's.

## B. INFORMATION—CALCULATION OF TMDL'S

1. *Water Quality Standards.* Section 303(d)(1)(C) of the Clean Water Act provides that TMDL's will be calculated in order to establish an upper limit on pollution loading which will still allow meeting applicable water quality standards for the particular body of water. The water quality standard for each body of water consists of the designated use (classification) of the body of water, the associated numerical and non-numerical water quality criteria necessary to protect the designated use, and anti-degradation requirements. See 43 FR 29588-92 (July 10, 1978) for a recent detailed statement on water quality standards.

TMDL's can only be calculated for water bodies and pollutants with a specified numerical limit based upon approved or promulgated ambient

water quality standards. Such numerical limits may be specified in the water quality standards or may be based upon the level of control necessary to prevent the violation of a quantitative or nonquantitative water quality criterion. For example, a TMDL could be calculated for a certain concentration limit for a toxic substance, when this particular pollutant is not specifically addressed in the numerical criteria, if the concentration limit used is necessary to prevent the violation of a general prohibition against the discharge of toxic substances in toxic amounts.

Since TMDL's must be established at levels necessary to implement the applicable water quality standards, any change in numerical criteria for pollutants contained in water quality standards will impact the TMDL's calculated for such a pollutant. Therefore, TMDL's should be reviewed each time the corresponding water quality standards are revised.

Finally, EPA recognizes that State development of TMDL's and wasteload allocations for all water quality limited segments will be a lengthy process. Water quality standards will continue to be enforced during this process. Development of TMDL's pursuant to section 303(d) is not a necessary prerequisite to adoption or enforcement of water quality standards, and, therefore, will not determine the validity of existing, revised or new water quality standards.

2. *Methods for TMDL Calculation.* Water pollutants can generally be classified as either conservative or nonconservative. Technical conditions for calculation of TMDL's and wasteload allocations vary with the type of pollutant, with one method of calculation for pollutants which are generally classified as conservative and another method for pollutants generally classified as nonconservative. Conservative pollutants (such as certain dissolved solids) are those pollutants which persist in the water column of the aquatic environment. The amount of a conservative pollutant in a given segment will remain essentially constant over time. Nonconservative pollutants (such as many organic compounds) decay or are otherwise removed over time. This decrease in concentration may be due to a number of factors including chemical breakdown and biodegradation.

EPA recognizes that the dividing line between conservative and nonconservative pollutants is not sharp and the classification of a given pollutant may vary depending upon the level of sophistication required in a particular analytical situation. The classification is helpful, however, in determining which method of calculation should be used. See *Simplified Mathematical*

*Modeling of Water Quality*, EPA, March 1971, and *Addendum to Simplified Mathematical Modeling of Water Quality*, EPA, May 1972.

a. *Conservative Pollutant TMDL (C-TMDL).* The C-TMDL of a body of water is that pollutant loading which, by simple dilution with the receiving body of water, results in an ambient concentration equal to the specified numerical concentration limit for that pollutant, i.e., the concentration limit based upon the applicable water quality standards. Since the C-TMDL depends upon simple dilution, the C-TMDL varies directly with the volumes or flows of dischargers and the receiving body of water, with a larger flow providing a larger C-TMDL.

b. *Nonconservative Pollutant TMDL (N-TMDL).* The N-TMDL is not an intrinsic property of a body of water, since the N-TMDL varies with a number of factors, e.g., flow or volume of the receiving body of water, flow from dischargers, and the configuration of discharge locations on the body of water. Therefore, the N-TMDL can only be calculated with fairly sophisticated techniques such as mathematical modeling, which takes these factors into account. As with the C-TMDL, the N-TMDL results in an ambient concentration of the pollutant equal to the specified numerical concentration limit for that pollutant, i.e., the concentration limit based upon the applicable water quality standards.

## C. INFORMATION—PRIORITY RANKING

EPA's proposed identification of pollutants is not designed to require States to devote additional resources to wasteload allocations and TMDL development. As stated previously, it is envisioned that establishment of TMDL's would be part of States' ongoing sections 208 and 303(e) planning processes funded under sections 106 and 208 of the Act. To keep the requirements of developing TMDL's within available resources and to meet statutory schedules for preparing TMDL's, States must establish priority rankings.

1. *Statutory Requirements.* Section 303(d)(1)(A) requires States to identify waters where water quality standards will not be met by application of effluent limitations required under sections 301(b)(1) (A) and (B) of the Act. These waters are designated as water quality limited segments. The process of stream segment classification has been largely completed as part of basin planning under section 303(e) of the Act. Section 303(d)(2) requires States to submit their first segment identifications and TMDL calculations within 180 days of the Administrator's final identification pursuant to section 304(a)(2)(D). After the States' first submission, subsequent segment iden-

tifications and TMDL calculations must be submitted from "time to time." Section 303(d)(2). Priority rankings of waters will ensure compliance under a reasonable schedule with the Act's "time to time" requirement. In addition to State's obligations under section 303(d)(1)(C) to calculate TMDL's, section 303(d)(3) requires States to estimate TMDL's for informational purposes for all waters not identified in sections 303(d)(1)(A) and (B). This latter requirement may be assigned lower priority by the States in their TMDL programs.

Section 303(d)(1)(A) required the States to establish a priority ranking for those waters which States identify as water quality limited. In establishing the priority ranking, § 303(d)(1)(A) requires the States to take into account (1) the severity of pollution and (2) the uses to be made of the waters identified. In assessing severity of pollution, States should consider the type of pollutants involved as well as the violations of water quality standards. In addition, States are not limited to addressing only segments with existing problems but may also take into account the need to protect existing high quality waters.

2. **Priority Ranking Agreements.** Since calculation of TMDL's will be part of State water quality management planning, priorities for TMDL's will be negotiated as part of the State/EPA agreement under the water quality management regulations. 40 CFR 130.11; see proposed 40 CFR 35.1507, 43 FR 40742 (September 12, 1978). EPA's recently proposed regulations would require States to establish priority ranking as part of the State strategy. The priority ranking, timing, resource needs, level of technical detail and other specifics of TMDL development will be negotiated by the States and EPA, and then set forth in the work program.

3. **Content of Priority Ranking.** In developing the priority ranking in the work programs for water quality segments on which TMDL's will be calculated during each following year, the States should consider at least the following factors.

First, section 303(d)(1)(A) requires States to take into account (1) the severity of pollution and (2) the uses to be made of the waters identified. (See discussion, part II.C.1).

Second, States should also consider other factors in establishing priority ranking of segments or priorities for calculation of TMDL's among the high ranking segments. Some of the factors for consideration in ranking may include the following:

(1) Calculation of TMDL's should be given higher priority when they are expected to result in effluent limitations in NPDES permits. If NPDES

permits are not scheduled for reissuance in the near future, the calculation of TMDL's for that segment may receive a low priority. Similarly, if implementation of national effluent limitation guidelines would eliminate water quality standards violations for certain stream segments, calculation of TMDL's may receive low priority. These considerations will avoid use of limited resources where implementation of the TMDL's would not be likely in the near future.

(2) Resources may be concentrated on segments and pollutants where acceptable models and adequate data are available at reasonable cost.

(3) Since the Act requires TMDL's to be established at levels necessary to implement water quality standards, TMDL's should be designed to result in the attainment of standards.

(4) States should also consider coordinating the development of TMDL's with other water quality analyses. These analyses include intensive surveys and fixed station analyses under the Basic Water Monitoring Program, water quality standard revisions, preparation of the section 305(b) report and advanced waste treatment reviews conducted under section 208.

(5) States should also consider any national priorities developed by EPA.

States may consider the above factors as well as additional factors they deem important to the priority ranking process for development of TMDL's. States will be required to set forth justification for the priority ranking of each stream segment but will not be required to develop a system which sets forth each factor considered and the weight given to each factor. States will be required to rank every water quality segment in the State. However, States need not reclassify segments already classified.

#### D. STATE SUBMISSIONS AND EPA APPROVAL

To comply with the requirements of the Act, States must submit the following information within 180 days of EPA's final identification of pollutants suitable for TMDL calculation.

(1) An identification of waters for which effluent limitations required by sections 301(b)(1)(A) and (B) are not stringent enough to implement applicable water quality standards. This requirement can be satisfied by referencing documents already submitted to EPA, e.g., section 305(b) reports.

(2) The TMDL established under section 303(d)(1)(A) for one or more of the above waters. This requirement can be satisfied by referencing documents already submitted to EPA or by submitting TMDL's based on information available in other water quality studies. States should indicate whether those loads previously submitted to EPA are still regarded as adequate.

Priority rankings are not required within 180 days. They will be submitted pursuant to schedules established in the State/EPA agreements. Subsequent submission of TMDL's shall also be submitted pursuant to State/EPA agreements.

Under section 303(d)(2), EPA must approve or disapprove State submissions. In reviewing State submissions, EPA may conditionally approve the submissions with the understanding that States will provide supplementary information within a reasonable time and according to a schedule established by the State/EPA agreement. After EPA approval, section 303(e) requires States to incorporate the TMDL's into their water quality management plans pursuant to section 303(e)(3)(C).

#### [6560-01-M]

[FRL 1029-6; OPP-50397]

#### ISSUANCE OF AN EXPERIMENTAL USE PERMIT

The Environmental Protection Agency (EPA) has issued an experimental use permit to the following applicant. Such a permit is in accordance with, and subject to, the provisions of 40 CFR Part 172, which defines EPA procedures with respect to the use of pesticides for experimental purposes.

No. 11273-EUP-13. Sandoz, Incorporated, San Diego, California 92108. This experimental use permit allows the use of the remaining supply of approximately 240 pounds of the herbicide norflurazon in or on apples, pears, grapes, citrus crops, almonds and almond hulls to evaluate control of certain grassy and broadleaf weeds. A total of 74 acres is involved; the program is authorized only in the States of Arizona, California, Oregon, and Washington. The experimental use permit is effective from November 30, 1978 to November 30, 1979. Temporary tolerances for residues of the active ingredient in or on apples, pears, grapes, citrus crops, almonds and almond hulls have been established. (PM 23, Room: E-351, Telephone: 202-755-1397).

Interested parties wishing to review the experimental use permit are referred to the designated Product Manager (PM), Registration Division (TS-767), Office of Pesticide Programs, EPA, 401 M Street, S.W. Washington, D.C. 20460. The descriptive paragraph for the permit contains a telephone number and room number for information purposes. It is suggested that interested persons call before visiting the EPA Headquarters Office, so that the appropriate permit may be made

conveniently available for review purposes. The files will be available for inspection from 8:30 a.m. to 4:00 p.m. Monday through Friday.

(Section 5 of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended in 1972, 1975, and 1978 (92 Stat. 819; 7 U.S.C. 136).)

Dated: December 18, 1978.

DOUGLAS D. CAMPT,  
Acting Director,  
Registration Division.

[FR Doc. 78-36031 Filed 12-27-78; 8:45 am]

#### [6560-01-M]

[FRL 1029-7; PP 7G1933/T180]

#### NORFLURAZON

#### Renewal of Temporary Tolerances

On April 13, 1978 the Environmental Protection Agency (EPA) gave notice (43 FR 15487) that in response to a pesticide petition (PP 7G1934) submitted to the Agency by Sandoz, Inc., PO Box 1489, Homestead, FL 33030, temporary tolerances were established for residues of the herbicide norflurazon (4-chloro-5-(methylamino)-2-( $\alpha,\alpha,\alpha$ -trifluoro-m-tolyl)-3(2H)-pyridazinone) in or on the raw agricultural commodities almonds, almond hulls, apples, citrus crops, grapes, and pears at 0.1 part per million (ppm). These temporary tolerances expired November 10, 1978.

Sandoz, Inc., requested a one-year renewal of these temporary tolerances both to permit continued testing to obtain additional data and to permit the marketing of the above raw agricultural commodities when treated in accordance with the provisions of an experimental use permit (11273-EUP-13) that has been renewed under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended in 1972, 1975, and 1978 (92 Stat. 819; 7 U.S.C. 136).

The scientific data reported and all other relevant material were evaluated and it was determined that a renewal of the temporary tolerances would protect the public health. Therefore, the temporary tolerances have been renewed on condition that the pesticide is used in accordance with the experimental use permit with the following provisions:

1. The total amount of the pesticide to be used must not exceed the quantity authorized by the experimental use permit.

2. Sandoz, Inc., must immediately notify the EPA of any findings from the experimental use that have a bearing on safety. The firm must also keep records of production, distribution, and performance and on request make the records available to any authorized officer of employee of the EPA or the Food and Drug Administration.

These temporary tolerances expire November 30, 1979. Residues not in excess of 0.1 ppm remaining in or on almonds, almond hulls, apples, citrus crops, grapes, and pears after this expiration date will not be considered actionable if the pesticide is legally applied during the term of and in accordance with the provisions of the experimental use permit and temporary tolerances. These temporary tolerances may be revoked if the experimental use permit is revoked or if any scientific data or experience with this pesticide indicate such revocation is necessary to protect the public health. Inquiries concerning this notice may be directed to Ms. Willa Garner, Product Manager, 23, Registration Division (TS-767), Office of Pesticide Programs, 401 M St., SW., Washington DC 20460 (202/775-7012).

Dated: December 19, 1978.

(Section 408(j) of the Food, Drug, and Cosmetic Act [21 U.S.C. 346(j)]).

DOUGLAS D. CAMPT,  
Acting Director,  
Registration Division.

#### [6730-01-M]

#### FEDERAL MARITIME COMMISSION

[Independent Ocean Freight Forwarder License No. 1008]

#### FOX FORWARDING CO., MARIE G. FOX D.B.A.

#### Order of Revocation

On November 30, 1978, Fox Forwarding Company, Marie G. Fox d/b/a 1617 Wrenford Road, Cleveland, Ohio 44121, requested the Commission to revoke its Independent Ocean Freight Forwarder License No. 1008.

Therefore, by virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 201.1 (Revised), section 5.01(c), dated August 8, 1977:

It is ordered, that Independent Ocean Freight Forwarder License No. 1008 issued to Fox Forwarding Company, Marie G. Fox d/b/a, be and is hereby revoked effective November 30, 1978 without prejudice to reapplication for a license in the future.

It is further ordered, that Independent Ocean Freight Forwarder License No. 1008, issued to Fox Forwarding Company, Marie G. Fox d/b/a be returned to the Commission for cancellation.

It is further ordered, that a copy of this Order be published in the FEDERAL REGISTER and served upon Fox For-

warding Company, Marie G. Fox, d/b/a.

ROBERT G. DREW,  
Director, Bureau of  
Certification and Licensing.

#### DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

#### Office of Education

#### HIGHER EDUCATION ACT (HEA) OF 1965; REAUTHORIZATION ISSUES

#### Public Hearings

AGENCY: Department of Health, Education, and Welfare.

ACTION: Notice of Public Hearing.

SUMMARY: This document establishes the times and dates for public hearings on the reauthorization of HEA of 1965. One public hearing will be held in each of the ten regions.

The purpose of the hearings is to assist the administration in developing its HEA proposals by providing public discussion of issues and proposals related to specific Federal programs being considered in the reauthorization of the HEA of 1965.

#### REGION I

DATE: February 1, 1979

LOCATION: Boston University, George Sherman Union, Conference Auditorium  
TIME: 1:00-5:00 p.m.; 7:00-10:00 p.m.  
CONTACT: Dr. Thomas Burns, Regional Commissioner, (617) 223-7205

#### REGION II

DATE: February 1, 1979

LOCATION: New York University, Schimmel Auditorium, Upper Concourse-Tisch Hall, 40 W. 4th Street, New York, N.Y.  
TIME: 1:00-5:00 p.m.; 7:00-10:00 p.m.  
CONTACT: Dr. William Green, Regional Commissioner, (212) 264-4370

#### REGION III

DATE: January 24, 1979

LOCATION: Drexel University, Mandell Theater, 33rd & Chestnut Streets, Philadelphia, Pa. 19104  
TIME: 1:00-5:00 p.m.; 7:00-10:00 p.m.  
CONTACT: Dr. Albert C. Crambert, Regional Commissioner, (215) 596-1001

#### REGION IV

DATE: January 22, 1979

LOCATION: Georgia State University, Urban Life Auditorium, University Plaza, Atlanta, Ga. 30303  
TIME: 1:00-5:00 p.m.; 6:00-10:00 p.m.  
CONTACT: Dr. William Lewis, Regional Commissioner, (404) 221-2063

#### REGION V

DATE: February 1, 1979

LOCATION: University of Illinois, Chicago Circle Center, Conference Room 605, 750 South Halstead Street  
TIME: 1:00-5:00 p.m.; 7:00-10:00 p.m.

CONTACT: Ms. Juliette Noone Lester, Regional Commissioner, (312) 353-5215

#### REGION VI

DATE: January 29, 1979  
LOCATION: El Centro College, Performance Hall, Main & Lamar Streets, Dallas, Tex. 75202  
TIME: 1:00-5:00 p.m.; 7:00-10:00 p.m.  
CONTACT: Mr. Edward J. Baca, Regional Commissioner, (214) 767-3626

#### REGION VII

DATE: January 24, 1979  
LOCATION: Penn Valley Jr. College, 3201 Southwest Trafficway, Room 503—Hearing Room, Kansas City, Mo. 64111  
TIME: 1:00-5:00 p.m.; 7:00-10:00 p.m.  
CONTACT: Dr. Harold Blackburn, Regional Commissioner, (816) 374-2276

#### REGION VIII

DATE: January 24, 1979  
LOCATION: Colorado Women's College, Houston Fine Arts Center, Landler Lounge, Denver, Colo. 80220  
TIME: 1:00-5:00 p.m.; 7:00-10:00 p.m.  
CONTACT: Dr. John Runkel, Regional Commissioner, (303) 837-3544

#### REGION IX

DATE: January 22, 1979  
LOCATION: San Francisco State University, 1600 Holloway Avenue, San Francisco, Calif.  
TIME: 1:00-5:00 p.m.; 7:00-10:00 p.m.  
CONTACT: Dr. Caroline Gillen, Regional Commissioner, (415) 556-4920

#### REGION X

DATE: January 26, 1979  
LOCATION: Seattle University, Library Auditorium, 12th & Columbia Streets, Seattle, Wash. 98122  
TIME: 1:00-5:00 p.m.; 7:00-10:00 p.m.  
CONTACT: Mr. Allen Apodaca, Regional Commissioner, (206) 442-0460

#### Supplementary Information

This public hearing will be sponsored by the Assistant Secretary for Education and the U.S. Commissioner of Education. Its purpose is to provide an opportunity to the public to share their concerns and proposals regarding each of the programs to be reauthorized in HEA.

Each hearing will be co-chaired by a Regional Education Commissioner and a Washington based education official from the Department of Health, Education, and Welfare. Among the officials from Washington who will attend a number of the meetings are Dr. Mary F. Berry, Assistant Secretary for Education; Dr. Ernest L. Boyer, Commissioner of Education; and Dr. Michael O'Keefe, Deputy Assistant Secretary for Planning and Evaluation.

Requests to testify will be accepted from students, parents, faculty, administrators, public officials and educational organizations. Those interested, should directly contact the Regional Education Commissioner in the Region they wish to testify. Notice of participation should be made no later

than five working days prior to the scheduled date of the hearing. The following information should be provided when contacting the Regional Commissioner: Name; address (business, if appropriate); telephone number during normal working hours; capacity in which the presentation will be made (i.e., parent, faculty, student, etc.); principal issues to be addressed; minimum time necessary for presentation; and text of presentation, if available.

In order to insure that the given testimony is effectively integrated into the Departmental deliberations on the reauthorization of HEA, we request that presentors clearly identify the programs they are discussing. Included below is a list of each of the programs up for reauthorization as well as a brief description.

The transcription and all written proceedings will become a part of the record in the proceedings.

Dated: December 21, 1978.

MARY BERRY,  
Assistant Secretary  
for Education.

Dated: December 21, 1978.

ERNEST L. BOYER,  
Commissioner of Education.

POSTSECONDARY EDUCATION PROGRAMS AUTHORIZED THAT EXPIRE AT THE END OF FY 1979

#### NATIONAL DEFENSE EDUCATION ACT

##### Title VI—Foreign Studies and Language Development

Title VI of the National Defense and Education Act authorizes the award of grants and contracts to U.S. educational institutions, organizations and individuals. These are awarded for institutional development, fellowships, and research in foreign languages, area studies, world affairs and intercultural understanding. For fiscal year 1979, \$20 million has been appropriated for this program.

#### GENERAL EDUCATION PROVISIONS ACT

##### Fund for the Improvement of Postsecondary Education

The Fund provides project grants for activities sponsored by institutions and agencies which develop and demonstrate more effective approaches to postsecondary education. Its funding in the past has focused on:

- equal educational opportunity
- basic skills research
- curricular research
- credentialling service
- finance
- student decision making

For fiscal year 1979, \$13 million has been appropriated for this program.

#### HIGHER EDUCATION ACT OF 1965

##### Title I—Community Service and Continuing Education Programs

A. Community Service and Continuing Education Programs.—This program pro-

vides grants to States and to institutions to strengthen community service programs of colleges and universities for the purpose of assisting them in the solution of community problems. For fiscal year 1979, \$16 million has been appropriated for this program.

B. Lifelong Learning.—Under this program the Assistant Secretary for Education is authorized to carry out a program of planning, assessing and coordinating projects related to Lifelong Learning. The Assistant Secretary is authorized further to make grants to State agencies, institutions of higher education and public and non-private agencies in order to carry out the purpose of the statute. The program is presently unfunded.

##### Title II—College Library Assistance and Library Training and Research

A. College Library Resources.—This program provides grants to eligible institutions to assist and encourage them in the acquisition of library resources including law library resources, such as books, periodicals, documents, magnetic tapes, phonograph records, audiovisual materials and other related materials. For fiscal year 1979, \$9.975 million has been appropriated for this program.

##### B. Library Training and Research:

Library Career Training.—This program provides grants to eligible institutions and agencies to support training and retraining of librarians and information scientists including paraprofessionals, for service in all types of libraries and information centers. Training is accomplished through short and long-term institutes, traineeships, and pre and postbaccalaureate fellowships. For fiscal year 1979, \$2 million has been appropriated for this program.

Library Research and Training.—The purpose of the program is to provide support for research and demonstration projects for the improvement of libraries and training in librarianship. Projects are funded which will design quality educational opportunities for the educationally disadvantaged; provide improved information services to special target groups; improve administration of all types of libraries on a national basis; and improve information access. For fiscal year 1979, \$1 million has been appropriated for this program.

C. Strengthening Research Library Resources.—This program provides grants to major research libraries for the purpose of maintaining and strengthening their collections and making their holdings available to individual researchers and scholars outside their primary clientele and to other libraries whose users have need for research materials. This program support is intended to improve the quality of education, especially at the undergraduate level and to generally improve the scientific, economic and cultural development of the nation. For fiscal year 1979, \$6 million has been appropriated for this program.

##### Title III—Strengthening Developing Institutions

This program seeks to assist developing colleges under the definition of the act in improving their academic, administrative and student service programs. Through this program schools are to be brought closer to the "academic mainstream." About 330 schools are currently funded at a cost of \$120 million. For fiscal year 1979, \$120 million has been appropriated for this program.

#### Title IV—Student Assistance

##### A. Grants to Students in Attendance at Institutions of Higher Education:

1. Basic Education Opportunity Grants.—The BEOG is an entitlement program administered by the Office of Education which provides grants directly to students based on need. The amount of the award is based on family size, income, assets and limited to one-half the costs of attendance at a given school. In fiscal year 1979, \$2.6 billion was appropriated and grants which range from \$200 to \$1,800 will be available to students with family incomes up to \$25,000.

2. Supplemental Educational Opportunity Grants.—This program provides grants to students of exceptional financial need to assist them in pursuing higher education. Funds are allotted among states by a legislative formula and within states according to regulations. Actual grants to students are determined by financial aid officers. In fiscal year 1979, \$340 million was appropriated.

3. State Student Incentive Grant Program.—This program provides matching grants to States to develop and expand need-based student grant and scholarship programs at institutions of postsecondary education. About \$77 million in Federal funds and over \$800 million in State funds will combine in 1978-79 to make awards to about 300,000 students.

4. Special Programs for Students from Disadvantaged Backgrounds.—This program provides funds to institutions of higher education to establish projects to provide tutoring, special classes and counseling for students with academic potential but who by reason of deprived educational, cultural, economic backgrounds or physical handicap or limited English speaking ability are in need of such services to successfully complete postsecondary education. For fiscal year 1979, \$55.3 million has been appropriated for this program.

Upward Bound.—This program is designed to serve youths from low-income families who have academic potential but who may lack adequate secondary school preparation for postsecondary education. Projects under this program are intended to generate the skills and necessary motivation for success in postsecondary education. For fiscal year 1979, \$60.9 million has been appropriated for this program.

Talent Search.—Services under this program are designed to assist youths from low-income families who have academic potential but who may lack adequate secondary school preparation to complete secondary school and to enter education. Projects include the following activities: identifying such youths; publishing information on existing forms of student financial aid and encouraging secondary school or college dropouts to re-enter education programs. For fiscal year 1979, \$15.3 million has been appropriated for this program.

Service Learning Centers.—This program is authorized to provide remedial and other special services for disadvantaged postsecondary students through institutions of higher education. These centers are to coordinate and supplement the ability of that institution to furnish such services to such students. No funds have been appropriated for this program.

5. Educational Opportunity Centers.—This program covers up to 75% of the cost of establishing and operating centers in areas with major concentrations of low-income

persons. Centers serve as clearinghouses of information on financial and academic support, assist students in making application and provide counseling, tutoring and other necessary services. For fiscal year 1979, \$6.5 million has been appropriated for this program.

6. Educational Information Centers.—States receive funds for centers which provide information and talent search services to persons who could benefit from postsecondary education were it not for cultural or financial barriers, physical handicaps or information needs about available programs. In addition the centers will include such services as assistance in gaining admission to postsecondary education and remedial and tutorial services. For fiscal year 1979, \$3 million has been appropriated for this program.

7. Assistance to Institutions of Higher Education.—This program is authorized to provide institutions of higher education with direct general assistance based on an allocation formula which takes into account such factors as size of institution by enrollment and number of enrolled Basic Grant recipients. This program has never been funded.

8. Veterans' Cost-of-Instruction Payments to Institutions of Higher Education.—The VCIP is intended to provide improved and expanded services to veterans attending institutions of higher education. Services include recruitment, counseling, special instructional programs and outreach activities. Funds are distributed on the basis of enrolled veterans. For fiscal year 1979, \$19 million has been appropriated for this program.

B. Direct Loans to Students in Institutions of Higher Education (NDSL Program) (Formerly Title II of NDEA).—This program allocates capital to institutions of higher education for the purpose of making long term, low interest education loans to students with financial need. Such loans are designed to provide lower income students with an additional source of funds and to ensure access to postsecondary education. State allocations are made by statutory formula; institutional allocations are made by regulations. Students may borrow up to \$5,000 as undergraduates; \$10,000 as graduate students. Fiscal year 1979 appropriations totaled \$329 million providing over 800,000 loans.

##### Title V—Teacher Corps and Teacher Training Programs

A. Teacher Corps Programs.—The purpose of the Teacher Corps program is to strengthen the educational opportunities available to children in areas having concentrations of low-income families; to encourage colleges and universities to broaden their programs of teacher preparation; and to encourage institutions of higher education and local educational agencies to improve programs of training and retraining for teachers, teacher aides and other educational personnel. The program currently emphasizes the achievement of school reforms identified by the grantor. For fiscal year 1979, \$37.5 million have been appropriated for this program.

B. Teacher Training Programs.—This program is generally authorized to make grants to institutions of higher education to assist in training individuals preparing to serve as teachers, guidance counselors or administra-

tive personnel. This program is not currently funded.

C. Teacher Centers.—This program funds centers established by local educational agencies which aid teachers in developing and producing curricula designed to meet the educational needs of persons in the funded community. In addition, the centers may provide training to teachers to better meet special education needs and information on developments in curriculum development and educational research. For fiscal year 1979, \$12.6 million has been appropriated for this program.

##### Title VI—Financial Assistance for the Improvement of Undergraduate Instruction

The legislative objective of this program is to improve undergraduate classroom instruction by providing matching funds for the acquisition of instructional equipment and materials to institutions of higher education with the exception of schools or departments of divinity. This program is currently unfunded.

##### Title VII—Construction, Reconstruction and Renovation of Academic Facilities

A. Grants for Construction, Reconstruction and Renovation of Undergraduate Academic Facilities.—The objective of this program is to provide grants to institutions of higher education to finance the construction, rehabilitation or improvement of undergraduate academic facilities. This program is currently unfunded.

B. Grants for Construction, Reconstruction and Renovation of Graduate Academic Facilities.—The purpose of this program is to make grants to institutions of higher education to assist them in improving existing graduate schools and cooperative graduate centers and in establishing graduate schools and cooperative graduate centers of excellence in order to increase the supply of high quality personnel needed by communities, industry and government for teaching and research. This program has not been funded since fiscal year 1969.

##### C. Loans for Construction, Reconstruction and Renovation of Academic Facilities:

Loans for Construction of Higher Education Facilities.—The objective of this program is to reduce the financial burden on institutions of higher education through loans with a low rate of interest. This program has been inactive since fiscal year 1975.

Annual Interest Grants.—The purpose of this program is to encourage the use of private capital for construction of academic facilities as well as to reduce the interest burden on borrowers to a level commensurate with direct loans for academic facilities. For fiscal year 1979, \$29 million has been appropriated.

D. Assistance in Major Disaster Areas.—This program is designed to provide financial assistance to institutions of higher education whose facilities have been damaged or destroyed by a disaster. The funds are to be used to enable the institution to carry out the construction necessary to restore or replace the damaged facilities. This program has no specific appropriation.

##### Title IX—Graduate Programs

A. Grants to Institutions of Higher Education

B. Fellowships to Graduate and Professional Study.—This program supports activities which help increase access into gradu-

ate and professional education for members of groups, particularly minorities and women, that have traditionally been under-represented among the recipients of graduate and professional degrees in this country. The program provides fellowships (under Part B), and institutional grants (under Part A), which strengthen such programs at institutions of higher education. Fiscal year 1979 appropriations total \$8 million for this program.

**C. Public Service Fellowships**—This program was created to address the critical shortage of able administrative, professional, and technical manpower in State and local government. Part A authorizes the Secretary to make grants or contracts with institutions of higher education to assist them in planning, developing, strengthening, improving, or carrying out programs or projects for the preparation of graduate or professional students to enter the public service. Research into the development or demonstration of improved methods for public service education is also authorized. Part B authorizes the award of fellowships for graduate or professional study for persons who plan to pursue a career in public services. Funding in fiscal year 1979 for this program is \$4 million.

**D. Fellowships for Other Purposes:**  
**Advanced Study in Mining, Etc.**—This program provides fellowships to assist graduate students of exceptional ability who demonstrate a financial need for advanced study in domestic mining and mineral fuel conservation including oil, gas, coal, oil shale, and uranium. Fellowships, awarded by the institution, may not exceed \$500 per year for graduate and professional study leading to an advanced degree or research related to a doctoral dissertation. For fiscal year 1979, \$4.5 million has been appropriated for this program.

**Assistance for Training in the Legal Profession**—This program is authorized to fund public and private agencies and organizations other than institutions of higher education. It selects students from disadvantaged backgrounds and facilitates their entry into institutions of higher education for training in the legal profession. It funds counseling and other services and up to three months of preliminary training. For fiscal year 1979, \$1 million has been appropriated for this program.

#### Title X—Establishment and Expansion of Community Colleges

Under this program funds would be provided to help States develop a statewide plan for the establishment, expansion or improvement of community colleges. Grants would also be provided through a State formula for the purpose of improving educational opportunity in State community colleges. This program has never been funded.

#### Title XI—Law School Clinical Experience Program

This program awards grants to accredited law schools for establishing or expanding demonstration projects to provide clinical experience to law students in the practice of law. Preference is given to projects providing experience in the preparation and trial of cases. Federal funds are limited to 90% of total costs and may be used for planning, preparation of teaching materials, administration and the training of faculty members. For fiscal year 1979, \$2 million has been appropriated for this program.

#### Title XII—General Provisions

**Comprehensive statewide Planning (Section 1203)**—Title XII established 1202 Commissions in each State to undertake comprehensive statewide planning in postsecondary education. The 1202 Commission must represent the general public, public, private (non-profit) and proprietary institutions within the State. Fifty-two such commissions were funded in fiscal year 1978. The fiscal year 1979 appropriation for this program is \$3.5 million.

AUTHORITY EXPIRES AT THE END OF FY 1980  
None.

AUTHORITY EXPIRES AT THE END OF FY 1981

#### Higher Education Act of 1965

#### Title IV—Student Assistance

**B. Federal, State, and Private Programs of Low-Interest Loans to Students in Institutions of Higher Education (Guaranteed Student Loan Program)**—The objective of this program is to provide loans to students attending eligible institutions of higher education, vocational, technical business and trade schools and eligible foreign institutions. The program is designed to utilize non-federal loan capital supplied primarily by commercial lenders. Loans are guaranteed either by State or private non-profit agencies or directly by the Office of Education. Students can borrow up to \$7,500 as undergraduates and \$15,000 as graduate students. In FY 1979 about 1.2 million new loans will be disbursed, each averaging about \$1800. For fiscal year 1979, \$739 million has been appropriated for this program.

AUTHORITY EXPIRES AT THE END OF FY 1982

#### Higher Education Act of 1965

#### Title IV—Student Assistance

**C. Work-Study Program**—This program seeks to promote part-time employment of students in eligible institutions who need earnings from employment to finance their course of study. The federal government pays 80 cents of every dollar in wages and the institution pays the remainder. Fiscal year 1979 appropriations are \$550 million.

#### Title VIII—Cooperative Education Program

This program is designed to assist institutions of higher education to establish, strengthen or expand cooperative education programs on their campuses. Such programs are intended to provide alternating periods of academic study and public or private employment. This employment aids students in earning funds to complete their educational program as well as providing work experience toward academic or career objectives. The program can also provide funds for training cooperative education administrators and for seeking methods for improving cooperative education programs. For fiscal year 1979, \$15 million has been appropriated for this program.

#### PERMANENT AUTHORITY

#### Morrill-Nelson Act (Land-Grant Colleges and Universities)

The purpose of this act is to provide grants to support instruction in agriculture, mechanical arts, English, mathematics, science, economics, and special teacher training in the areas of agriculture, mechanical

arts and home economics. For fiscal year 1979, \$2.7 million has been appropriated for this program.

#### DEPARTMENT OF THE INTERIOR

##### Bureau of Indian Affairs

##### YUOK VOTING LIST

##### Proposed Qualifications for Voting

DECEMBER 18, 1978.

On November 20, 1978, the Office of the Assistant Secretary—Indian Affairs announced a course of action which is intended to resolve the dispute over the use of and benefits from the Hoopa Valley Indian Reservation and its resources. In the November 20 message announcing the plan, the Hoopa Valley Tribe and the Yurok Tribe were named as Indians entitled to use and benefit from the Reservation and its resources. This notice proposes qualifications to be applied in preparing a list of voters who will nominate and select an interim Yurok Tribal governing committee.

Interested persons are invited to submit written comments, suggestions or recommendations about the proposed voting standards. Written comments should be addressed to: Director, Office of Indian Services, Bureau of Indian Affairs, 1951 Constitution Avenue, N.W., Washington, D.C. 20245, and must be received by (30 days from date of publication of notice). Further information may be obtained by contacting the Director, Office of Indian Services, at the above address, or by telephoning him at 202-343-2111.

##### PROPOSED QUALIFICATIONS FOR YUOK VOTING LIST

In preparation for an election to be called by the Secretary of the Interior for nominating and selecting an interim Yurok Tribal governing committee, the Secretary shall prepare a list of Yurok voters, which shall include Yurok Indians who are 18 years of age or older on the date of the election and are:

A. Persons of Indian blood, living on October 1, 1949, who:

- (1) were allotted on the Hoopa Valley Indian Reservation, as extended; or,
- (2) resided on the Hoopa Valley Indian Reservation, as extended, and were eligible to receive allotments but were not allotted; or,
- (3) possess at least ¼ degree Indian blood, resided on the Hoopa Valley Indian reservation, as extended, for 15 years before October 1, 1949, and one of whose ancestors was born on the Hoopa Valley Indian Reservation, as extended; or,

(4) are descendants of allottees and Reservation residents who qualify or, if deceased on October 1, 1949, would have qualified under paragraph (1), (2), and (3) above; or,

(5) persons of at least ¼ degree Indian blood born between October 2, 1949, and a date 18 years before the date of the election to individuals who qualify under paragraphs (1), (2), (3) and (4) above.

B. Persons who are enrolled as members of the Hoopa Valley Tribe shall not be entitled to be included on the Yurok voting list, regardless of whether they are otherwise qualified.

C. The Secretary shall use as resource documents for determining eligibility all available records concerning the Yurok Indians, including the rolls of Indians of California prepared for the distribution of judgment funds, the listing of claimants in *Jessie Short, et al., v. United States*, and the membership roll of the Hoopa Valley Tribe.

D. Being included on the voting list will not necessarily qualify any individual for future membership or for sharing in distributions of tribal assets.

FORREST J. GERARD,  
Assistant Secretary,  
Indian Affairs.

##### Bureau of Land Management

##### COOK INLET/SHELIKOF STRAIT, ALASKA OUTER CONTINENTAL SHELF (TENTATIVE SALE NO. 60)

##### Call for Nominations of and Comments on Areas for Oil and Gas Leasing

**Purpose of Call:** Section 102 of the Outer Continental Shelf Lands Act Amendments of 1978 describes the purposes of that Act. One of the purposes is to establish policies and procedures intended to expedite exploration and development of the Outer Continental Shelf (OCS) in order to achieve national economic and energy policy goals, assure national security, reduce dependence on foreign sources, and maintain a favorable balance of payments in world trade. Equally important purposes include balancing energy resource development with the protection of the human, marine and coastal environments, as well as assuring States and local governments the opportunity to review and comment on decisions relating to OCS activities. To assist the Secretary of the Interior in carrying out these purposes, and pursuant to 43 CFR 3301.3, nominations are hereby requested for areas on the Cook Inlet/Shelikof Strait, Alaska

Outer Continental Shelf for possible oil and gas leasing under the Outer Continental Shelf Lands Act (43 U.S.C. 1331-1343 as amended). Pursuant to 43 CFR 3301.4, the Secretary is also requesting comments on the possible environmental impacts and potential use conflicts in specified areas.

**Description of Areas:** Nominations will be considered for any or all of the blocks seaward of the three mile line, which are to be found on the Protraction Diagrams listed below and which are generally bounded by Kalgin Island on the north, by the Barren Islands at the Kennedy and Stevenson Entrances to Cook Inlet on the east, and as far south in the Shelikof Strait as 57°15' North Latitude.

These blocks may be found on the following Outer Continental Shelf Official Protraction Diagrams, which may be purchased for \$2.00 each from the Manager, Alaska OCS Office, Bureau of Land Management, P.O. Box 1159, Anchorage, Alaska 99510. The street address is 800 A Street, Anchorage, Alaska.

##### OCS Official Protraction Diagrams

1. NO 4-6 Ugashik
2. NO 5-1 Iliamna
3. NO 5-2 Seldovia
4. NO 5-3 Mount Katmai
5. NO 5-4 Afognak
6. NO 5-5 Karluk
7. NP 5-8 Kenai

1. NO 4-6: Blocks 609, 610, 652-654, 695-698, 739-742, inclusive.

2. NO 5-1: Blocks 396, 438-440, 479-484, 522-527, 566-570, 610, 611, 613-615, 657-659, 701-703, 741, 742, 744-748, 785-792, 829-836, 873-880, 918-924, 962-968, 1006-1012, 1053-1056, inclusive.

3. NO 5-2: Blocks 6-14, 49-58, 93-102, 136-145, 178-189, 222-230, 232, 233, 265-273, 276, 277, 309-317, 320, 321, 353, 359-361, 363-365, 399, 403-409, 444, 446-453, 487-489, 491-496, 533-540, 578, 580-584, 621, 625-628, 661-666, 669-672, 705-708, 713-715, 751, 749, 756-760, 793-795, 800-805, 837-839, 843-849, 881, 882, 887-893, 925, 930-938, 973-982, 1017-1022, 1024-1026, inclusive.

4. NO 5-3: All blocks.

5. NO 5-4: Blocks 5-7, 47-51, 90-96, 99, 133-143, 177-186, 221-229, 265-270, 272, 309-313, 353-356, 397-399, 441-443, 485, 486, 529, 473, inclusive.

6. NO 5-5: Blocks 20-37, 64-79, 108-121, 151-164, 194-207, 237-250, 280-293, 321-335, 364-378, 408-420, 449-463, 492-507, 535-550, 579-594, 623-636, 637, 667-680, 711-725, inclusive.

7. NP 5-8: All blocks.

**Instructions on Call:** Nominations must be described in accordance with the Outer Continental Shelf Official Protraction Diagrams prepared by the Bureau of Land Management, Department of the Interior and referred to above. Only whole blocks or properly described subdivisions thereof, not less than one quarter of a block, may be nominated.

Those nominating twelve blocks or more are requested to arrange their

nominations into three groups according to the priority of their interest.

Comments should be as specific as possible in identifying individual blocks or areas which should receive special concern and analysis. In addition to nominations, we are seeking comments about particular geological, environmental, biological, archaeological, socioeconomic conditions or problems, or other information which might bear upon potential leasing and development of particular blocks where available.

Nominations and/or comments must be submitted not later than February 28, 1979 in envelopes labeled "Nominations of Tracts for Leasing in the Outer Continental Shelf-Cook Inlet/Shelikof Strait, Alaska," or "Comments on Leasing in the Outer Continental Shelf-Cook Inlet/Shelikof Strait, Alaska," as appropriate. They must be submitted to the Director, Attention 720, Bureau of Land Management, Department of the Interior, Washington, D.C. 20240. Copies should be sent to the Assistant Conservation Manager, U.S. Geological Survey, P.O. Box 259, Anchorage, Alaska 99510, and the Manager, Alaska Outer Continental Shelf Office, Bureau of Land Management, 800 A Street, P.O. Box 1159, Anchorage, Alaska 99510.

**Use of Information From Call:** Nominations will be evaluated and used along with other geologic and geophysical information to determine what, if any, tracts should be tentatively selected for further environmental analysis pursuant to the National Environmental Policy Act of 1969 (42 U.S.C. 4321-4347) and the OCS Lands Act, as amended. Generally, because of limits on the geographic scope of areas which can be successfully planned for a single sale, only a portion of the tracts nominated are selected for further environmental analysis and possible leasing.

Comments will be considered along with other relevant information available to the Secretary to determine what tracts should be designated for further environmental analysis and study. As a general rule, tracts which are believed to have potential for the production of hydrocarbons are not excluded from further environmental study unless the Secretary has sufficient information to conclude that it is not possible for those tracts to be developed in an environmentally safe manner.

In any event, selection of tracts for further environmental analyses does not insure that the tracts will be subsequently offered for lease or that they will be deleted for environmental or use conflicts. It simply insures that more information will be available when that decision is made. In performing the additional environmental

analyses leading to a sale decision, the Department will take into account comments received as it determines particular areas and issues for attention.

Final selection of tracts for competitive bidding will be made only at a later date after compliance with established Departmental procedures and all requirements of the National Environmental Policy Act of 1969. Notice of any tracts finally selected for competitive bidding will be published in the FEDERAL REGISTER stating the conditions and terms for leasing and the place, date, and hour at which bids will be received and opened.

Dated: December 19, 1978.

ARNOLD E. PETTY,  
Acting Associate Director,  
Bureau of Land Management.

Dated: December 22, 1978.

HEATHER L. ROSS,  
Deputy Assistant Secretary  
of the Interior.

National Park Service

PROPOSED U.S. NOMINATIONS FOR 1979 TO  
THE WORLD HERITAGE LIST

Request For Public Comment

AGENCY: Department of the Interior.  
ACTION: Request for public comment.

SUMMARY: The Department of the Interior requests public comment on the proposed United States nominations for 1979 to the World Heritage List. The Department also solicits from Federal agencies, state and local governments, nongovernment organizations and individual citizens nominations for 1980 and subsequent years.

DATES: Comments on the proposed 1979 nominations should be submitted on or before January 31, 1979. Nominations for 1980 and subsequent years may be submitted at any time; those submitted by June 30, 1979, will be considered for 1980.

ADDRESS COMMENTS TO: Division of International Park Affairs, National Park Service, U.S. Department of the Interior, Washington, D.C. 20240.

FOR FURTHER INFORMATION CONTACT:

Division of International Park Affairs, National Park Service, U.S. Department of the Interior, Washington, D.C. 20240. Telephone contact: Robert C. Milne or Richard Cook, 202-523-5260.

**SUPPLEMENTARY INFORMATION:** The Convention Concerning the Protection of World Cultural and Natural Heritage, ratified by the United States and forty other Nations as of this date, establishes a means by which natural and cultural areas of outstanding universal value to mankind may be recognized and protected.

Sites may be identified and nominated by States Parties for inclusion on the World Heritage List. The twenty-one-nation World Heritage Committee then judges the nominations against established criteria.

The State Party nominating a site for inclusion on the World Heritage List assumes primary responsibility for taking all necessary and appropriate legal, scientific, technical, administrative and financial measures for the protection, conservation, presentation, rehabilitation and transmission to future generations of the property it nominates. For property in the United States not in Federal ownership, arrangements would have to be made with the owner or owners—whether state or local governments or private citizens—to guarantee the integrity of the site in perpetuity before it could be nominated.

In the United States, the Secretary of the Interior has been charged with implementation of the Convention, including development of U.S. nominations. Recommendations on the proposed nominations are made to the Secretary by an interagency panel including members from the Office of the Assistant Secretary for Fish and Wildlife and Parks, the National Park Service, the Fish and Wildlife Service, and the Heritage Conservation and Recreation Service of the Department of the Interior; the President's Council on Environmental Quality; the Advisory Council on Historic Preservation; and the Department of State.

The World Heritage Committee at its meeting in Washington, D.C., in September 1978 accepted the first two United States nominations to the World Heritage List—Yellowstone National Park as a natural site and Mesa Verde National Park as a cultural site.

Ten other natural and cultural sites were accepted for inclusion on this list. The natural sites were Nahanni National Park, Canada; the Galapagos Islands, Ecuador; and Simien National Park, Ethiopia. The cultural sites were L'Anse Aux Meadows National Historic Park, Canada; the City of Quito, Ecuador; the Rock Hewn Churches of Lalibela, Ethiopia; the Aachen Cathedral, Federal Republic of Germany; Cracov's Historical and Architectural Urban Centre, Polish People's Republic; the Wieliczka Salt Mine, Polish People's Republic; and the Island of Goree, Republic of Senegal.

The criteria for the selection of natural sites are: Outstanding universal value will be recognized when a natural heritage property submitted for inclusion in the World Heritage List is found to meet one or more of the following standards. Therefore these properties should:

1. Be outstanding examples representing the major stages of the earth's evolutionary history. This would include sites which represent the major "eras" of geological history such as "the age of reptiles" where the development of the planet's natural diversity can well be demonstrated and as the "ice age" where early man and his environment underwent major changes;

2. Be outstanding examples representing significant on-going geological processes, biological evolution and man's interaction with his natural environment. As distinct from the periods of the earth's development this focuses upon on-going processes in the development of communities of plants and animals, landforms and marine and fresh water bodies. They would include for example a) as geological processes, glaciation and volcanism, b) as biological evolution, biomes such as tropical rainforests, deserts and tundra, c) as interaction between man and his natural environment, terraced agricultural landscapes;

3. Contain unique, rare or superlative natural phenomena, formations or features or areas of exceptional natural beauty, such as superlative examples of the ecosystems most important to man, natural features (rivers, mountains, waterfalls) spectacles presented by great concentrations of animals, sweeping vistas covered by natural vegetation and exceptional combinations of natural and cultural elements.

4. Be habitats where populations of rare or endangered species of plants and animals still survive. This would include those areas where concentrations of plants and animals of universal interest and significance are found.

It should be realized that individual sites may not possess the most spectacular or outstanding single example of the above, but when the sites are viewed in a broader perspective with a complex of many surrounding features of significance, the entire area may qualify to demonstrate an array of features of global significance.

In addition to the above criteria, the sites should also meet the conditions of integrity.

5. The areas described in (1) should contain all or most of the key interrelated and interdependent elements in their natural relationships; for example, an "ice age" area would be expected to include the snow field, the glacier itself and samples of cutting patterns, deposition and colonization

(striations, Moraines, pioneer stages of plant succession, etc.);

6. The areas described in (2) should have sufficient size and contain the necessary elements to demonstrate the key aspects of the process and to be self-perpetuating. For example, an area of "tropical rainforest" may be expected to include some variation in elevation above sea level, changes in topography and soil types, river banks or oxbow lakes, to demonstrate the diversity and complexity of the systems;

7. The areas described in (3) should contain those ecosystem components required for the continuity of the species or of the objects to be conserved. This will vary according to individual cases; for example, the protected area for a waterfall would include all, or as much as possible, of the supporting upstream watershed; or a coral reef area would be provided with control over siltation or pollution through the stream flow or ocean currents which provide its nutrients;

8. The areas described in (4) should be of sufficient size and contain the necessary habitat requirements for the survival of the species.

The criteria for the selection of cultural sites are: A property (monument, group of buildings, site) submitted for inclusion in the World Heritage List should meet one or more of the following standards.

1. Represent a unique artistic or aesthetic achievement, as a masterpiece of the human creative spirit;

2. Be of outstanding importance owing to its influence, over a span of time or within a cultural area of the world, on subsequent developments in architecture, immovable monumental sculpture, garden and landscape design, or human settlements;

3. Be unique, extremely rare or of great antiquity;

4. Be among the most characteristic examples of a type of structure, the type representing an important cultural, social, artistic, technological or industrial development;

5. Be a characteristic example of a significant traditional style of architecture, method of construction, or human settlement, that is fragile by nature or has become vulnerable under the impact of irreversible socio-cultural or economic change.

6. Be most importantly associated with ideas or beliefs, with events or with persons, of outstanding historical importance or significance.

In every case, consideration should be given to the state of preservation of the property (which should be evaluated relatively, that is, in relation to property dating from the same period and of the same type and category). In addition, the property should meet the test of authenticity in design, materials, workmanship, and setting; au-

thenticity does not limit consideration to original form and structure but includes all subsequent modifications and additions, over the course of time, which in themselves possess artistic or historical values.

The natural sites being proposed for nomination by the United States in 1979 are: Grand Canyon National Park, Everglades National Park, Redwoods National Park, and the St. Elias-Wrangell area of Alaska (jointly with the Kluane National Park of Canada).

The cultural sites being proposed for nomination by the United States in 1979 are Independence Hall National Historical Park, the Edison Laboratory, and the Wainwright Building.

DAVID F. HALES,  
Deputy Assistant Secretary for  
Fish and Wildlife and Parks,  
Department of the Interior and  
Chairman, World Heritage  
Committee.

## INTERNATIONAL TRADE COMMISSION

### CERTAIN REPLICA BLACK POWDER FIREARMS

#### Issuance of Consent Order and Termination of Investigation

AGENCY: U.S. International Trade Commission.

ACTION: Issuance of Consent Order and Termination of Investigation No. 603-TA-4, Certain Replica Black Powder Firearms.

Notice is hereby given that the Commission, having on November 9, 1978, published for comment a consent order agreement between Connecticut Valley Arms, Inc., Saybrook Road, Haddam Connecticut, and the Commission investigative attorney, Louis S. Mastriani, incorporating the attached consent order (43 F.R. 53065, Nov. 15, 1978), and having received no comments thereon, hereby finds the attached consent order to be in the public interest, issues the attached consent order as final, and terminates this investigation.

AUTHORITY: The authority for issuance of the consent order is contained in section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), and section 603 of the Trade Act of 1974 (19 U.S.C. 2482).

**SUPPLEMENTARY INFORMATION:** The consent order directs Connecticut Valley Arms, Inc., to cease and desist from labeling and advertising its "Mountain Rifle" and "Mountain Pistol" as "Made in USA" until such

time as these articles are substantially manufactured in the United States. Compliance with the consent order is required after December 31, 1978, and a notarized affidavit which describes the extent and manner of compliance must be filed with the Commission by Connecticut Valley Arms, Inc., by January 10, 1979. The affidavit will be reviewed by the Commission in order to determine whether further reporting is necessary. Failure to comply with the order may result in proceedings before the Commission to determine what, if any, sanctions may issue, including a possible order of exclusion from entry pursuant to section 337(d). The consent order agreement defines and describes the parties which have agreed to be bound thereby, as well as the subject imported articles. Connecticut Valley Arms, Inc., has acceded to the Commission's jurisdiction, and has waived all procedural requirements under section 337, including the right to judicial review of the consent order or to otherwise challenge or contest the validity of the consent order.

By order of the Commission.

Issued: December 22, 1978.

KENNETH R. MASON,  
Secretary.

Before the UNITED STATES INTERNATIONAL  
TRADE COMMISSION, Washington, D.C.

In the matter of Certain Replica Black  
Powder Firearms. Preliminary Investigation  
603-TA-4.

#### ORDER

IT IS ORDERED that subsequent to December 31, 1978, Connecticut Valley Arms shall not advertise, nor otherwise affirmatively represent, its "Mountain Rifle", "Mountain Pistol" or any other replica firearm as "Made in U.S.A.", unless and until such time that each such article is substantially manufactured within the United States. Nor shall Connecticut Valley Arms induce, whether directly or indirectly, any manufacturer, importer, or exporter to engage in the foregoing proscribed activities.

#### II

Connecticut Valley Arms, by its chief executive officer, shall file a properly notarized affidavit covering the period from the date this order becomes final through December 31, 1978, containing therein a detailed statement describing the extent of compliance with this Consent Order. This affidavit and report shall be filed with the Commission by January 10, 1979. If Connecticut Valley Arms fails to file its report as required or if the Commission has sufficient reason to believe, on the basis of the foregoing report, that the terms of this Order have been violated, the Commission reserves the right to require such additional reports as are deemed necessary.

#### III

The reporting of requirement of paragraph II of this Order will be reviewed by the Commission after the report due in 1979

is received in order to ascertain whether further reporting by Connecticut Valley Arms is necessary, as provided in paragraph II.

## IV

For the purpose of securing compliance with this Order and during the period ending December 31, 1979, or any further period of reporting resulting from a determination by the Commission that it has sufficient reason to believe that Connecticut Valley Arms is in violation of this Order or has failed to file its report as provided in paragraph II of this Order, duly authorized representatives of the Commission shall, upon written request and on reasonable notice to Connecticut Valley Arms mailed to its principal office, be permitted reasonable access, during the office hours of the company, to all books, ledgers, accounts, correspondence, memoranda, and other records and documents in the possession or under the control of the company solely for the purpose of verifying any matter contained in the reports required under paragraph II of the Order. Duly authorized representative of the Commission shall also be permitted to interview appropriate officers and employees of Connecticut Valley Arms, who may have counsel present, regarding any such matters. Such verification and interviews are subject to any recognized privilege under the laws of the United States and are also subject to the reasonable convenience of the company.

Confidential information obtained by the means provided in paragraphs II, III and IV, above, shall only be made available to the Commission or its representatives and shall not be divulged by any representative of the Commission, to any person other than a duly authorized representative of the Commission, except as required in the course of legal proceedings to which the Commission is a party for the purpose of securing compliance with this Order or as otherwise required by law, upon ten (10) days written notice to Connecticut Valley Arms.

This Order shall become effective upon the date of its publication in the *FEDERAL REGISTER*.

By order of the Commission.  
Issued: December 22, 1978.

KENNETH R. MASON,  
Secretary.

(FR Doc. 78-36213 Filed 12-27-78; 8:45 am)

## [7020-02-M]

(Investigation No. 337-TA-61)

**CERTAIN COMPACT CYCLOTRONS WITH A PRE-SEPTUM**  
Investigation

Notice is hereby given that a complaint was filed with the United States International Trade Commission on November 20, 1978, under section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), on behalf of The Cyclotron Corporation, 950 Gilman Street, Berkeley, California 94710, alleging that unfair methods of competi-

tion and unfair acts exist in the importation of a certain compact cyclotron with a pre-septum into the United States, or in its sale, by reason of the alleged coverage of such compact cyclotron with a pre-septum by the claims of U.S. Letters Patent 3,725,709.

The complaint alleges that the effect or tendency of the unfair methods of competition and unfair acts is to destroy or substantially injure an industry, efficiently and economically operated, in the United States. Complainant requests both temporary and permanent exclusion of said imports from entry into the United States.

Having considered the complaint, the U.S. International Trade Commission, on December 19, 1978, Ordered that—

(1) Pursuant to subsection (b) of section 337 of the Tariff Act of 1930, as amended (19 U.S.C. 1337), an investigation be instituted to determine, under subsection (c), whether there is, or there is reason to believe that there is, a violation of subsection (a) of this section in the unauthorized importation of certain compact cyclotrons with a pre-septum or components of said cyclotrons into the United States, or in their sale, by reason of the alleged coverage of such compact cyclotrons with a pre-septum by the claims of U.S. Letters Patent 3,725,709, the effect or tendency of which is to destroy or substantially injure an industry, efficiently and economically operated, in the United States;

(2) For the purpose of this investigation so instituted, the following are hereby named as parties:

(a) The complainant is—

The Cyclotron Corporation, 950 Gilman Street, Berkeley, California 94710.

(b) The respondents are the following companies alleged to be involved in the unauthorized importation of such articles into the United States, or in their sale, and are parties upon which the complaint and this notice are to be served:

Instrument AB Scanditronix, Eskadervagen 16, S-18354, Taby, Sweden. Medi-Physics, Inc., 5801 Christie Avenue, Emeryville, California 94608.

Nucletronix, Inc., Birch Road, Middleton, Massachusetts 01949.

(c) Wilhelm A. Zeithler, U.S. International Trade Commission, 701 E Street NW., Washington, D.C. 20436, is hereby named Commission investigative attorney, a party to this investigation;

(3) For the investigation so instituted, Chief Administrative Law Judge Donald K. Duvall, U.S. International Trade Commission, 701 E Street NW.,

Washington D.C. 20436, shall designate the presiding officer.

Responses must be submitted by the named respondents in accordance with section 210.21 of the Commission's Rules of Practice and Procedure, as amended (19 CFR 210.21). Pursuant to sections 201.16(d) and 210.21(a) of the Rules, such responses will be considered by the U.S. International Trade Commission if received no later than 20 days after the date of service of the complaint. Extensions of time for submitting a response will not be granted unless good and sufficient cause therefor is shown.

Failure of a respondent to file a timely response to each allegation in the complaint and in this notice may be deemed to constitute a waiver of the right to appear and contest the allegations of the complaint and this notice, and will authorize the presiding officer and the U.S. International Trade Commission, without further notice to the respondent, to find the facts to be as alleged in the complaint and in this notice and to enter both a recommended determination and a final determination containing such findings.

The complaint is available for inspection by interested persons at the Office of the Secretary, U.S. International Trade Commission, 701 E Street NW., Washington, D.C. 20436, and in the Commission's New York City office, 6 World Trade Center, New York, New York 10048.

By order of the Commission.  
Issued: December 22, 1978.

KENNETH R. MASON,  
Secretary.

## U.S. CIRCUIT JUDGE NOMINATING COMMISSION, SECOND CIRCUIT PANEL

## Meeting

The first meeting of the nominating panel for the Second Circuit of the United States Circuit Judge Nominating Commission will be held on Wednesday, January 3, 1979, at 10:00 a.m. at the Association of the Bar of the City of New York, 42 West 44th Street, New York, New York. This meeting will be open to the public; however, due to administrative error, this notice has not been published 15 days prior to the meeting date.

Dated: December 21, 1978.

JOSEPH A. SANCHES,  
Advisory Committee  
Management Officer.

(FR Doc. 78-36059 Filed 12-27-78; 8:45 am)

## [4410-01-M]

## U.S. CIRCUIT JUDGE NOMINATING COMMISSION FIRST CIRCUIT PANEL

## Meeting

The first meeting of the nominating panel for the First Circuit of the United States Circuit Judge Nominat-

ing Commission will be held on January 6, 1979, at the Federal Courthouse, Post Office Square, Boston, Massachusetts in Room 1620 at 9:30 a.m.

The purpose of the meeting is to provide the panel with a history of the Court; an analysis of current needs and workload; an explanation of merit selection and a meeting with the Chief Judge to discuss qualifications which should be sought in selecting candidates.

The meeting will be open to the public but because of the short time allotted the panel to make its selection, it was not possible to provide a full 15 day notice.

JOSEPH A. SANCHES,  
Advisory Committee  
Management Officer.

December 21, 1978.

## DEPARTMENT OF LABOR

## NATIONAL ADVISORY COMMITTEE FOR WOMEN

## Meeting

Pursuant to the Provisions of the Federal Advisory Committee Act (Pub. L. 92-463 as amended), notice is hereby given of a meeting of the National Advisory Committee for Women.

Date and Time: January 11 and 12, 1979 10 a.m. to 5 p.m. each day.

Place: Conference Room N4437 ABC, January 11, 1979, Conference Room S4215 ABC, January 12, 1979. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20210.

Purpose: This is a regular meeting of the National Advisory Committee for Women.

The Committee will meet with the President of the United States to advise him of their concerns about the Administration's budget priorities and legislative package. The agenda for the meeting will focus on the projected activities of the Committee's Action Work Groups.

Dated: December 21, 1978.

ELLEN M. MCGOVERN,  
Executive Director.

## AD HOC INFORMAL TASK FORCE ON COMPARATIVE NATIONAL SPACE PROGRAMS, NASA ADVISORY COUNCIL

## Meeting

The Ad Hoc Informal Task Force on Comparative National Space Programs of the NASA Advisory Council will meet on January 19, 1979, from 9:00 a.m. to 4:30 p.m. The meeting will be held at the University of Southern California, Population Research Laboratory, Room 385, 3716 South Hope, Los Angeles, CA, 90007. The meeting will be open to the public up to the seating capacity of the room (about 50 persons, including task force members). Visitors will be requested to sign a visitor's register.

This task force, chaired by Dr. Kingsley Davis, consists of six members drawn from the membership of the NASA Advisory Council, and was established to carry out a review of the United States' relative position in international space affairs. The agenda for the meeting is as follows:

FRIDAY, JANUARY 19, 1979

9:00 a.m.—Chairperson's Opening Remarks  
9:15 a.m.—United States and Soviet Progress in Space  
10:45 a.m.—Task Force Reports  
3:00 p.m.—Discussion  
4:30 p.m.—Adjourn

For further information regarding the meeting, contact the Executive Secretary of the Task Force, Ms. Lisa Shaffer, NASA Headquarters, Washington, DC 20546, telephone (202) 755-3883.

ARNOLD W. FRUTKIN,  
Associate Administrator for  
External Relations.

## CLOSED MEETING ACTIVITIES OF ADVISORY COMMITTEES

## Public Availability of Reports

Pursuant to the Federal Advisory Committee Act, Pub. L. 92-463 of October 6, 1972, and Office of Management and Budget Circular No. A-63 Revised of March 27, 1974, and the NASA advisory committees which held closed or partially closed meetings in 1977, consistent with the policy of 5 U.S.C. 552(b) and, effective March 12, 1977, 5 U.S.C. 552b(c), have prepared reports on the activities of these meet-

ings. Copies of the reports have been filed and are available for public inspection at the Library of Congress, Exchange and Gift Division, Federal Advisory Committee Desk and NASA Headquarters, Headquarters Information Center.

The names of the advisory committees are listed below:

Applications Steering Committee, Atmospheric Cloud Physics Laboratory (ACPL) Advisory Subcommittee;  
Applications Steering Committee, Space Processing Ad Hoc Advisory Subcommittee;  
NASA Historical Advisory Committee;  
NASA Wage Committee;  
Research and Technology Advisory Council;  
Space Science Steering Committee, Jupiter Orbiter Probe 1981 (JOP81) Ad Hoc Advisory Subcommittee;  
Space Science Steering Committee, Out-Of-Ecliptic (OOE) Mission Ad Hoc Advisory Subcommittee;  
Space Science Steering Committee, Space Telescope Ad Hoc Advisory Subcommittee;  
Space Technology Steering Committee and Research and Technology Advisory Council, Long Duration Exposure Facility (LDEF) Experiment Review Ad Hoc Advisory Subcommittee.

ARNOLD W. FRUTKIN,  
Acting Associate Administrator  
for External Relations.

DECEMBER 15, 1978.

#### [7510-01-M]

[Notice 78-69]

#### NASA ADVISORY COUNCIL (NAC) HISTORICAL ADVISORY COMMITTEE

##### Meeting

The above named committee will meet from 8:45 a.m. to 4 p.m. February 3, 1979, at Kennedy Space Center, Florida (Headquarters Building, Room 2229). Except for the closed session (1:30 to 2:45 p.m.), the public will be admitted up to the seating capacity of the room, which is about 40 persons.

The committee will review NASA historical activities of the past year, status of current projects, and possible future projects. Distribution of NASA histories and preparation of the annual Aeronautics and Space Report of the President will be discussed.

During the closed session, the committee will consider and make recommendations on candidates for undertaking various NASA historical activities. The committee will also recommend individuals to fill vacancies on the committee. The personal and professional qualifications of the candidates, who are not members of the committee, will be candidly discussed and appraised. Public discussion of these matters would invade the privacy of the candidates and other individ-

uals involved. Since this committee session will be concerned throughout with matters listed in 5 U.S.C. 552b(c)(6), it has been determined that the session will be closed to the public.

For further information, call Monte D. Wright (202) 755-3612.

ARNOLD W. FRUTKIN,  
Associate Administrator for  
External Relations.

DECEMBER 20, 1978.

#### NATIONAL FOUNDATION ON THE ARTS AND HUMANITIES

National Endowment for the Arts

##### MUSEUM ADVISORY PANEL

##### Meeting

Pursuant to Section 10(a) (2) of the Federal Advisory Committee Act (Public Law 92-463), as amended, notice is hereby given that a meeting of the Museum Advisory Panel to the National Council on the Arts will be held January 16, 1979, from 9:00 a.m. to 5:30 p.m., and January 17, 1979, from 9:00 a.m. to 5:30 p.m., in room 1422, Columbia Plaza Office Building, 2401 E Street, N.W., Washington, D.C.

A portion of this meeting will be open to the public on January 16, 1979, from 9:00 a.m. to 5:30 p.m. The topic of discussion will be Policy and Guidelines.

The remaining sessions of this meeting on January 17, 1979, from 9:00 a.m. to 5:30 p.m. are for the purpose of Panel review, discussion, evaluation, and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the agency by grant applicants. In accordance with the determination of the Chairman published in the FEDERAL REGISTER March 17, 1977, these sessions will be closed to the public pursuant to subsections (c) (4), (6) and 9(b) of section 552b of Title 5, United States Code.

Further information with reference to this meeting can be obtained from Mr. John H. Clark, Advisory Committee Management Officer, National Endowment for the Arts, Washington, D.C. 20506, or call (202) 634-6070.

JOHN H. CLARK,  
Director, Office of Council and  
Panel Operations, National  
Endowment for the Arts.

#### NATIONAL TRANSPORTATION SAFETY BOARD

(N-AR 78-52)

#### ACCIDENT REPORTS; SAFETY RECOMMENDATION RESPONSES

##### Availability

##### ACCIDENT REPORTS—BRIEF FORMAT

The National Transportation Safety Board has determined that "air-frame icing" was involved in the probable cause of a Cessna 180 fatal crash that occurred at the Berlin Municipal Airport in New Hampshire last winter. The pilot and two passengers were killed in that crash and the aircraft destroyed.

The Safety Board report was one of 590 selected general aviation accidents and 20 air carrier accidents in computer printout form contained in Issue Number 5 of 1977 accidents, "Aircraft Accident Reports, Brief Format, U.S. Civil Aviation," which was released December 20. This publication, report No. NTSB-BA-78-5, is normally issued five times each year and presents the facts, conditions, circumstances, and probable cause(s) for each accident. Additional statistical information is tabulated by type of accident, phase of operation, kind of flying, injury index, aircraft damage, conditions of light, pilot certificate, injuries, and causal factors.

As indicated in NTSB Press Release 78-83/2393 which accompanied the release of Issue Number 5, the Safety Board cited the pilot in the New Hampshire accident for inadequate preflight preparation and failure to abort takeoff after an excessive 3,000-foot ground run. Also cited as probable cause was "airframe ice," the Board noting that the "ice and snow (was) not removed from aircraft." The Board also noted that there was no seat for the second passenger, although this was not found to be a causal factor.

The Board pointed out that adhesion of snow or ice on the wings and tail surfaces of an airplane causes an increase in drag and a simultaneous loss of lift. This decrease in aerodynamic performance can lead to loss of control. Unfortunately, the Board said, this tragic fact has been demonstrated too often. In the last 5 years, from 1973 through 1977, airframe ice has been found as a causal factor in 183 accidents. Of these 67 were fatal accidents, resulting in the death of 176 people.

Findings in the New Hampshire report reveal that certain potential hazards associated with winter flight operations are not yet fully understood by many pilots. Consequently,

the Board urged general aviation pilots, now facing the onset of winter weather across most of the United States, to "pass the word" that ice, snow, or frost on the wings prior to takeoff is definitely a no-go item.

"Aircraft Accident/Incident Reports, Brief Format Supplemental Issue, 1977 Accidents," report No. NTSB-BA-78-6, is also now available. This publication contains reports of aircraft accidents and incidents that occurred in 1977 but not included in a prior issue of briefs. This publication reports on one U.S. air carrier accident, 26 U.S. air carrier incidents, 44 general aviation accidents occurring on U.S. soil, 27 general aviation accidents occurring on foreign soil, and 24 general aviation incidents. Four foreign air carrier accidents, two foreign air carrier incidents and 17 foreign general aviation accidents that were investigated by the Safety Board are also included. This is the final issue of reports on accidents that occurred in calendar year 1977.

In addition, this supplemental issue contains several statistical tables which tabulate and summarize selected accident information, such as type of accident, phase of operation, injuries, cause/factor and pilot certificates for all U.S. general aviation accidents occurring last year.

"Railroad Accident Report, Brief Format, Issue Number 2-1977" was released by the Safety Board on December 14. The report, No. NTSB-RAB-78-3, contains the reports of 116 U.S. railroad accidents arranged in chronological order; tabulations of selected accident information include (1) types of accidents broken down by carriers, (2) casualties broken down by types of accidents and classes of persons, and (3) causal factors arranged categorically and broken down by types of accidents. The Safety Board makes a finding of probable cause on railroad investigations which involve a fatality, a passenger train accident, or substantial property damage.

NOTE: The brief reports in these three publications contain essential information; more detailed data may be obtained from the original factual reports on file in the Washington office of the Safety Board. Upon request, factual reports will be reproduced commercially at an average cost of 17 cents per page for printed matter, \$5 per page for black-and-white photographs, and \$4 per page for color photographs, plus postage. Requests concerning aircraft accident report briefs should include this information: (1) Date and place of occurrence, (2) type of aircraft and registration number, and (3) name of pilot.

Copies of these publications may be purchased from the National Technical Information Service, U.S. Department of Commerce, Springfield, Va. 22151.

#### RESPONSES TO SAFETY RECOMMENDATIONS

M-78-33 and 34.—The National Oceanic and Atmospheric Administration (NOAA) on December 14 responded to the Safety Board's comments of October 25 concerning NOAA's initial response of last August 8 (43 FR 38981, August 31, 1978). The recommendations were developed as a result of the investigation and analysis of the sinking of the SS EDMUND FITZGERALD in Lake Superior on November 10, 1975.

In its October 25 letter, the Safety Board states that the plotting of dangerous shoal areas on the chartlets as discussed by NOAA is a positive step. However, the Board said, a plot of a ten-fathom contour would be of greater benefit to the Great Lakes mariner. The contour showing the ten-fathom line will give a more positive delineation of the shoal area. The Board believes that this proposal should be considered before publication of the new charts.

The Board believes that a greater sense of urgency should be exhibited in NOAA's efforts to improve modeling technology and the data base for significant wave height forecasts. Based on the great difference in the forecast vs. observed wave height at the time of the FITZGERALD sinking, an intense effort should be massed to expand the state-of-the-art, to move beyond reasonable forecasts, and to approach a high degree of accuracy, particularly during periods of high wind velocities.

NOAA's December 14 response indicates agreement with the Safety Board's proposal to give a more positive delineation of the shoal areas in the vicinity of Southwest Bank and Caribou Island. Such a plot will be of additional assistance to the Great Lakes mariner and NOAA plans to add these contours to the next edition of the affected charts of Lake Superior.

As to the Board's second point—urgency on improvements in predicting wave heights on the Great Lakes—NOAA reports that since the FITZGERALD sinking its wave prediction model has been improved by using a new finer grid mesh wind forecast model. Also, NOAA will begin deployment of eight environmental data buoys in the Great Lakes, the first three expected to be operational in 1979. NOAA states that observations from these buoys should significantly improve the determination of the wind field over the Lakes and result in more accurate wave predictions.

R-77-9 and 10.—Letter of December 15 from the Federal Railroad Administration (FRA) is in response to recommendations developed as a result of investigation of the Chicago and North Western Transportation Company

freight train derailments and collision at Glen Ellyn, Ill., May 16, 1976.

Recommendation R-77-9 asked FRA to require by regulation that persons performing train dispatching functions maintain a record of trains and cars that are carrying hazardous materials and of current methods of and procedures for, containment of these materials in the event of a mishap and communicate this information to public safety officials immediately after they learn of a train accident.

FRA's response indicates that this would not be a cost beneficial action, and that to implement such a recommendation would be redundant and would not measurably increase the present degree of safety afforded by existing regulations. Federal regulations now require the stenciling of the hazardous materials name on those tank cars transporting materials with the greatest degree of hazard (Part 172.330). Further, all cars transporting hazardous materials must be properly placarded (Part 172.500). Hazardous materials must be described on the shipping papers (Part 172.202), and shipping papers for hazardous materials must be in the possession of a member of the train crew (Part 174.26). FRA believes public safety officials should be able to obtain the necessary safety information from at least one of these four sources.

FRA reports that the Missouri Pacific Railroad Company (MP) has a system whereby train contents are automatically printed with a list of hazardous materials in each train along with the basic information for emergency response, available to MP train dispatchers on request. The system is extremely expensive, requiring a sophisticated central computer and a network of communication lines ending at a terminal at each agency and/or dispatcher station, and FRA believes that to impose the cost of this system on all rail carriers cannot be justified at this time.

Recommendation R-77-10 asked FRA to require the Chicago and North Western Transportation Company to maintain its tracks to the specifications of the Federal Track Standards for each class and not increase train speeds until the track is adequate for such speeds.

In response, FRA states that Federal Track Safety Standards do require carriers to maintain their tracks in compliance with the regulations. Section 213.5, Responsibility of Track Owner, requires any owner of track who knows that the track does not comply with the requirements to bring the track into compliance or halt operations over that track. The owner, under § 213.7, also is responsible for designating qualified persons to inspect the track for defects. The Stand-

ards are very specific as to the authority the inspector must have to prescribe remedial action to correct or safely compensate for those deviations found.

Through its monitoring program, FRA enforces these requirements. The FRA track inspector reviews the carrier's inspection report and conducts on-the-ground spot observations at selected locations to determine the degree of compliance. If items of noncompliance are found, further action is taken. At present, FRA believes this is the most effective approach to requiring carriers to maintain track to the specifications of the Federal Track Safety Standards.

NOTE: Copies of letters in response to recommendations may be obtained free of charge. All requests for copies must be in writing, identified by recommendation number. Address requests to: Public Inquiries Section, National Transportation Safety Board, Washington Safety Board, Washington, D.C. 20594.

(Secs. 304(a)(2) and 307 of the Independent Safety Board Act of 1974 (Pub. L. 93-633, 88 Stat. 2169, 2172 (49 U.S.C. 1903, 1906)).)

## SECURITIES AND EXCHANGE COMMISSION

(Release No. 34-15415; File No. SR-Amex-78-27)

### AMERICAN STOCK EXCHANGE, INC.

Self-Regulatory Organization; Proposed Rule Change

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the "Act"), 15 U.S.C. 78s (b)(1), as amended by Pub. L. No. 94-29, 16 (June 4, 1975), notice is hereby given that on November 24, 1978, the above-mentioned self-regulatory organization filed with the Securities and Exchange Commission a proposed rule change as follows:

#### STATEMENT OF THE TERMS OF SUBSTANCE OF THE PROPOSED RULE CHANGE

The Board of Governors of the American Stock Exchange has approved the following Resolution and rule amendment. (Italics indicate words to be added.)

#### A. RESOLUTION

Resolved, that the present transaction charge imposed by the Exchange pursuant to Article VII, Section 4 of the Exchange Constitution be increased by the amount of 12¢ for each round-lot purchase and each round-lot

sale in any equity security executed on the Exchange; and be it

Further resolved, that payment of such increased charge by members and member organizations to the Exchange be waived in all instances where the transaction is cleared through a registered clearing agency which has agreed to collect and pay over to the Exchange an amount equal to 12¢ with respect to such transaction.

B. Rule 700 (a) The term "registered clearing agency" means any clearing agency (i) duly registered with the Securities and Exchange Commission, (ii) willing to supply the Exchange with data reasonably requested in order to permit the Exchange to enforce compliance by its members and member organizations with the provisions of the Securities Exchange Act of 1934, the rules and regulations thereunder, and the rules of the Exchange, and (iii) having:

(A) the capacity to compare, clear and settle any and all securities transactions effected on the Exchange, or

(B) the appropriate interfacing capacity to compare, clear and/or settle securities transactions effected on the Exchange, with a clearing agency meeting the requirements of the preceding subparagraph. If such clearing agency does not have the appropriate interfacing capacity with respect to all such functions (comparison, clearing and settlement), or with respect to all securities admitted to dealings on the Exchange, it shall be included within the term "registered clearing agency" only to the extent of the functions or the securities as to which it does have such interfacing capacity.

#### STATEMENT OF BASIS AND PURPOSE

The basis and purpose of the foregoing proposed rule change is as follows:

When the Amex, NYSE and NASD determined to consolidate their respective clearing affiliates into a single clearing entity in 1977, it was recognized that these affiliates had been a source of revenues which were used to pay in part for the self-regulatory activities carried on by their parent organizations. While the new consolidated clearing entity, National Securities Clearing Corporation, was intended to be user controlled and operated for the sole benefit of the member firm community, it was felt that the two exchanges and the NASD should continue to receive some revenues from clearing operations to help cover regulatory costs. Therefore, the agreements establishing NSCC provided that the Amex NYSE and NASD should each be paid 12¢ a side for each round-lot transaction executed in their respective markets and cleared through NSCC. There is a \$550,000 annual limit during the five-year term of the contract, with provision for

review of the charge after the first two years and each year thereafter.

At the request of the SEC, the Exchange has adopted amendments to its clearing rules which will allow members to compare and settle through any registered clearing agency having the appropriate facilities. As a result of this change, the Exchange would not receive the 12¢ revenue to the extent members use clearing agencies other than NSCC. It is therefore proposed that the 12¢ charge be imposed by the Exchange, payable either directly to the Exchange or to any clearing agency agreeing to collect the charge and remit it to the Exchange.

In order to carry out its regulatory functions relating to market surveillance (as well as collect the 12¢ charge), the Exchange must receive trade data from any clearing agency used by members. The Exchange therefore further proposes to amend its clearing rules to provide for the furnishing of this data to the Exchange.

The SEC has approved a NYSE proposal which is similar to the above proposal (SR-NYSE-77-33).

The adoption of an alternate method for collection of the 12¢ charge and provision for the furnishing of necessary trade data to the Exchange will assure an equitable allocation of reasonable dues, fees, and other charges among Exchange members, issuers and others using its facilities, as required by section 6(b)(4) of the Act.

#### COMMENTS RECEIVED FROM MEMBERS, PARTICIPANTS, OR OTHERS ON PRO- POSED RULE CHANGE

No comments were solicited or received with respect to the proposed rule change.

#### BURDEN ON COMPETITION

The Annex has determined that no burden on competition will be imposed by the proposed rule change.

Within thirty-five days of the date of publication of this notice in the FEDERAL REGISTER, or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the above-mentioned self-regulatory organization consents, the Commission will:

(A) by order approve such proposed rule change, or

(B) institute proceedings to determine whether the proposed rule change should be disapproved.

Interested persons are invited to submit written data, views and argu-

ments concerning the foregoing. Persons desiring to make written submissions should file six (6) copies thereof with the Secretary of the Commission, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing and of all written submissions will be available for inspection and copying in the Public Reference Room, 1100 L Street NW., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted within 21 days of the date of this publication.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,  
Secretary.

DECEMBER 18, 1978.

[8010-01-M]

(Release No. 20829; 70-6246)

### ARKANSA POWER & LIGHT CO.

Proposed Issuance and Sale of First Mortgage Bonds and Preferred Stock at Competitive Bidding

DECEMBER 13, 1978.

Notice is hereby given that Arkansas Power & Light Company ("Arkansas"), First National Building, Little Rock, Arkansas 72203, an electric utility subsidiary of Middle South Utilities, Inc., a registered holding company, has filed an application and amendments thereto with this Commission pursuant to Sections 6(a) and 6(b) of the Public Utility Holding Company Act of 1935 ("Act") and Rules 23, 24 and 50 promulgated thereunder regarding the following proposed transactions. All interested persons are referred to the amended application which is summarized below, for a complete statement of the proposed transactions.

Arkansas proposes to issue and sell, subject to the competitive bidding requirements of Rule 50 promulgated under the Act, \$60,000,000 principal amount of its First Mortgage Bonds ("Bonds") of a series having a term of not less than five nor more than thirty years. Arkansas will determine, and give notice of, the maturity date of the bonds not later than 12:00 p.m. on the third business day preceding the day fixed for the presentation of bids. The interest rate on the bonds (which will be a multiple of  $\frac{1}{8}$  of 1%) and the price, exclusive of accrued interest, to be paid to Arkansas (which will be not less than 100% nor more than 102 $\frac{1}{2}$ %

of the principal amount thereof) will be determined by competitive bidding. The bonds will be issued under Arkansas' Mortgage and Deed of Trust dated as of October 1, 1944, to Morgan Guaranty Trust Company of New York, Trustee, as heretofore supplemented and as to be further supplemented by a Thirty-first Supplemental Indenture to be dated as of February 1, 1978, which will include a prohibition for a period of not more than five years against refunding the bonds with the proceeds of funds borrowed at a lower effective interest cost.

Prior to the effective date of Arkansas' Twenty-eighth Supplemental Indenture dated as of July 1, 1975, Arkansas' Mortgage and Deed of Trust as amended provided that in computation of the "two-times interest" coverage test for the issuance of additional bonds, the amount of the company's nonoperating income (as defined) that may be taken into account would not exceed 15% of the sum of net operating income plus nonoperating income. This provision differs from the analogous provision of the Commission's Statement of Policy with respect to First Mortgage Bonds ("Policy statement") adopted February 16, 1956 (HCAR No. 13105), which restricts the inclusion of nonoperating income to an amount not exceeding 10% of operating income. In recent years, the Indenture provision has resulted in higher computed interest coverage than would have resulted from the provision prescribed by the Policy Statement.

As a first step toward conforming the Indenture provision with that of the Policy Statement, Arkansas' Twenty-eighth Supplemental Indenture dated as of July 1, 1975, amended the Indenture provision so as to provide that, effective with the first series of bonds to be issued after December 31, 1975, the amount of includable nonoperating income would not exceed 14% of the sum of net operating income plus nonoperating income. Arkansas' Twenty-ninth Supplemental Indenture reduced the figure to 13%, and Arkansas' Thirtieth Supplemental Indenture reduce the figure to 12%. It is proposed in the instant filing that Arkansas' Thirty-first Supplemental Indenture, to be dated as of February 1, 1979, provide that, effective with the first series of bonds to be issued after February 28, 1979, the amount of includable nonoperating income shall not exceed 11% of the sum of net operating income plus nonoperating income. It is contemplated that said percentage will be successively reduced further in further supplemental indentures so that the Indenture provision (including, ultimately, the base to which the percentages shall apply) will finally conform in substance with

the analogous provision of the Policy Statement.

Arkansas also proposes to issue and sell at competitive bidding up to 600,000 shares of a new series of preferred stock, par value \$25 per share ("Preferred Stock"). The dividend rate of the Preferred Stock (which will be a multiple of  $\frac{1}{4}$  of 1%) and the price to be paid to Arkansas for the Preferred Stock (which will not less than \$25 nor more than \$25.70 per share, plus accumulated dividends, if any) will be determined by competitive bidding. The terms of the Preferred Stock will include a prohibition, until February 1, 1984, against refunding the Preferred Stock, directly or indirectly, with the proceeds of funds derived from the issuance of debt securities at a lower effective interest cost, or from the issuance of other stocks which rank prior to or on a parity with the Preferred Stock as to dividends or assets at a lower effective dividend cost. The Preferred Stock will be created by appropriate corporate action and, except as to designation, dividend rate, the date from which dividends commence to accumulate, redemption premiums, the terms and conditions of redemption, and matters pertaining to par value and certain voting rights, will have the same characteristics as, and rank *pari passu* with, the presently outstanding preferred stock of Arkansas.

The sale of the Bonds and the sale of the Preferred Stock are separate transactions not contingent one upon the other. Arkansas proposes to use the net proceeds derived from the issuance and sale of the Bonds and the Preferred Stock for the payment of short-term indebtedness incurred or estimated to be incurred and for financing its 1979 construction program, such program estimated to be \$212,700,000.

The fees, commissions, and expenses incurred or to be incurred in connection with the proposed transaction total \$250,000 (\$195,000 in respect of the Bonds, and \$55,000 in respect of the Preferred Stock), including counsel fees of \$69,000, printing and engraving costs of \$53,000, rating fees of \$23,500, accountants' fees of \$17,000, trustee's fees of \$20,000, and miscellaneous expenses of \$20,586. In addition, the fee of counsel for the successful bidders is estimated at \$25,000 (\$16,000 in respect of the Bonds and \$9,000 in respect of the Preferred Stock) and is to be paid by the successful bidders.

The Arkansas Public Service Commission ("APSC") and the Tennessee Public Service Commission ("TPSC") have jurisdiction over the proposed issuance and sale of the Bonds and Preferred Stock. By order dated December 1, 1978, the APSC has approved the foregoing transactions; application

for approval of the transactions is currently pending before the TPSC. It is stated that no other state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than January 12, 1979, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the applicant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application, as amended or as it may be further amended, may be granted as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,  
Secretary.

**BOSTON STOCK EXCHANGE, INC. ET AL**  
Applications for Unlisted Trading Privileges  
and of Opportunity for Hearing

DECEMBER 14, 1978.

The above named national securities exchange has filed applications with the Securities and Exchange Commission pursuant to Section 12(f)(1)(B) of the Securities Exchange Act of 1934 and Rule 12f-1 thereunder, for unlisted trading privileges in the securities of the companies set forth below, which securities are listed and registered on one or more other national securities exchanges:

**AMDAHL CORPORATION (DEL.)**,  
Common Stock, \$.05 Par Value—File No. 7-5042.  
**ARROW ELECTRONICS, INC.**, Common  
Stock, \$1 Par Value—File No. 7-5043.

**ARVIN INDUSTRIES, INC. (IND.)**,  
Common Stock, \$2.50 Par Value—File No. 7-5044.  
**DATAPOINT CORPORATION**, Common  
Stock, \$.25 Par Value—File No. 7-5045.  
**GENERAL HOST CORPORATION**,  
Common Stock, \$1 Par Value—File No. 7-5046.  
**ITEL CORPORATION**, Common Stock, \$1  
Par Value—File No. 7-5047.  
**LINCOLN NATIONAL CORPORATION**  
(IND.), Common Stock, \$2.50 Par Value—  
File No. 7-5048.  
**MEMOREX CORPORATION**, Common  
Stock, \$1 Par Value—File No. 7-5049.  
**NLT CORPORATION**, Common Stock, \$5  
Par Value—File No. 7-5050.  
**GENUINE PARTS COMPANY**, Common  
Stock, \$1 Par Value—File No. 7-5050.  
**SYSTRON DONNER CORPORATION**  
(DEL.), Common Stock, No. Par Value—  
File No. 7-5061.  
**TERADYNE, INCORPORATED**, Common  
Stock, \$0.125 Par Value—File No. 7-5062.

Upon receipt of a request, on or before January 14, 1979, from any interested person, the Commission will determine whether the applications with respect to the companies named shall be set down for hearing. Any such request should include a brief statement as to the title of the security in which the person is interested, the nature of his interest in making the request, and the position which he proposes to take at the hearing, if ordered. In addition, any interested person may submit his views or any additional facts bearing on the said application by means of a letter addressed to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549 not later than the date specified. If no one requests a hearing with respect to the particular application, such application will be determined by order of the Commission on the basis of the facts stated therein and other information contained in the official files of the Commission pertaining thereto.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,  
Secretary.

#### [8010-01-M]

**INVESTORS CORP. OF NORTH CAROLINA**

(Release No. 10523; 811-2452)

DECEMBER 13, 1978.

Notice of filing of an application pursuant to section 8(f) of the act for an order declaring that the applicant has ceased to be an investment company.

Notice is hereby given that Investors Corporation of North Carolina ("Applicant"), a North Carolina Corporation, c/o Robert G. Stockton, Esq. Hudson, Petree, Stockton, Stockton &

Robinson, P.O. Box 2860, Winston-Salem, North Carolina 27102, registered under the Investment Company Act of 1940 ("Act") as an open-end, diversified management investment company, has filed an application on October 23, 1978, and an amendment thereto on December 8, 1978, pursuant to section 8(f) of the Act, for an order of the Commission declaring that Applicant has ceased to be an investment company as defined by the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

The Applicant states that it registered under the Act on January 29, 1974, and that it has issued common stock, such stock having been first effectively registered under the Securities Act of 1933 on June 3, 1974.

According to the application, on November 10, 1977, the Board of Directors of Applicant unanimously resolved to proceed toward liquidation of Applicant and to convert the assets of the Applicant to cash or cash equivalents. Unanimous shareholder consent to the dissolution of Applicant was effected on August 3, 1978. The application further states that the shares of Applicant were redeemed at net asset value by all shareholders except Robert G. Stockton, Jr., ("Stockton") an officer and director of Applicant, who will redeem his shares at net asset value upon completion of the winding up of Applicant's affairs. According to the application, the Applicant has \$10,602.19 in assets, of which \$1,119.62 will be applied to Applicant's outstanding liabilities and the balance represents the cash redemption value of the above mentioned outstanding shares of common stock. The application states that all shareholders, except Stockton have received a distribution in complete liquidation of their interest in Applicant, and that it has no assets (other than those mentioned above), no liabilities (other than those mentioned above), is not a party to any litigation and does not propose engaging in any business activity other than that necessary for the winding up of its affairs. Applicant further represents that any additional expenses in connection with its liquidation will be born by Lexington Management Corporation, its investment adviser.

Section 8(f) provides, in pertinent part, that when the Commission finds, upon application, that a registered investment company has ceased to be an investment company, it shall so declare by order, and that upon the effectiveness of such order, the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than January 5, 1979, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon Applicant at the address stated above. Proof of such service (by affidavit or, in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date unless the Commission thereafter orders a hearing upon request of upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,  
Secretary.

#### [8010-01-M]

**MIDWEST STOCK EXCHANGE, INC. ET AL**

Applications for Unlisted Trading Privileges  
and of Opportunity for Hearing

DECEMBER 14, 1978.

The above named national securities exchange has filed applications with the Securities and Exchange Commission pursuant to Section 12(f)(1)(B) of the Securities Exchange Act of 1934 and Rule 12f-1 thereunder, for unlisted trading privileges in the securities of the companies as set forth below, which securities are listed and registered on one or more other national securities exchanges:

**FLEETWOOD ENTERPRISES, INC. (DE)**,  
Common Stock, \$1.00 Par Value, File No. 7-5033.  
**DANA CORPORATION**, Common Stock,  
\$1.00 Par Value, File No. 7-5034.

Upon receipt of a request, on or before January 14, 1979, from any interested person, the Commission will determine whether the applications with respect to the companies named shall be set down for hearing. Any

such request should include a brief statement as to the title of the security in which the person is interested, the nature of his interest in making the request, and the position which he proposes to take at the hearing, if ordered. In addition, any interested person may submit his views or any additional facts bearing on the said application by means of a letter addressed to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549 not later than the date specified. If no one requests a hearing with respect to the particular application, such application will be determined by order of the Commission on the basis of the facts stated therein and other information contained in the official files of the Commission pertaining thereto.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,  
Secretary.

#### [8010-01-M]

(Release No. 15411; SR-MSRB-78-8)

**MUNICIPAL SECURITIES RULEMAKING BOARD**

Order Approving Amended Rule Change

DECEMBER 13, 1978.

On May 26, 1978, the Municipal Securities Rulemaking Board (the "MSRB"), Suite 507, 1150 Connecticut Avenue, N.W., Washington, D.C. 20036, filed with the Commission, pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the "Act"), 15 U.S.C. 78(s)(b)(1), and Rule 19b-4 thereunder, copies of a proposed rule change which would establish a comprehensive arbitration code for the municipal securities industry. Notice of the proposed rule change together with its terms of substance, was given by publication of a Commission Release (Securities Exchange Act Release No. 14840 (June 9, 1978)) and by publication in the FEDERAL REGISTER (43 FR 26164 (1978)). On August 25, 1978, the MSRB made a technical amendment to the filing to clarify that the record required to be kept of proceedings before a panel of arbitrators is a verbatim record and that the term "related counterclaim" used in the filing means a counterclaim related to a customer's account(s) with the municipal securities broker or municipal securities dealer. On November 1, 1978, the MSRB filed a second amendment to remove the unanimous voting requirement for an arbitration panel's referral of a matter to an appropriate regulatory authority or organization.<sup>1</sup>

<sup>1</sup>The November 1, 1978, amendment removed all reference to a special voting re-

quirement for such a referral. In filing the amendment, the MSRB stated that in adopting this provision, the Board did not intend to impose a more stringent voting requirement than would otherwise govern under applicable law. The Board has therefore determined to delete this provision in order to avoid the possibility of the provision having such a result.

Sections 15B(b)(2)(C), 15B(b)(2)(D), and 15B(b)(2)(J) of the Act permit the MSRB, by rule, to require the payment of fees in connection with arbitration proceedings. Any fees required by the MSRB to be paid in connection with arbitration must be filed with the Commission, pursuant to Section 19 of the Act.

Under the proposed rule, the MSRB would appoint a seven-member Arbitration Committee, which would include three MSRB members and the Director of Arbitration, who would perform a number of functions related to the conduct of arbitration proceedings.

The Commission has determined that the MSRB's arbitration procedures, which are similar to many of those employed by other self-regulatory organizations, are appropriate. Nevertheless, the Commission and its staff currently are examining the questions raised by the use of customer agreements which require the submission of all future claims to binding arbitration. As a result of this examination of customer arbitration agreements, the Commission may recommend or require that the MSRB consider modifications of, or additions to, the rules here approved.

requirement for such a referral. In filing the amendment, the MSRB stated that

In adopting this provision, the Board did not intend to impose a more stringent voting requirement than would otherwise govern under applicable law. The Board has therefore determined to delete this provision in order to avoid the possibility of the provision having such a result.

Sections 15B(b)(2)(C), 15B(b)(2)(D), and 15B(b)(2)(J) of the Act permit the MSRB, by rule, to require the payment of fees in connection with arbitration proceedings. Any fees required by the MSRB to be paid in connection with arbitration must be filed with the Commission, pursuant to Section 19 of the Act.

Under the proposed rule, the MSRB would appoint a seven-member Arbitration Committee, which would include three MSRB members and the Director of Arbitration, who would perform a number of functions related to the conduct of arbitration proceedings.

The Commission has determined that the MSRB's arbitration procedures, which are similar to many of those employed by other self-regulatory organizations, are appropriate. Nevertheless, the Commission and its staff currently are examining the questions raised by the use of customer agreements which require the submission of all future claims to binding arbitration. As a result of this examination of customer arbitration agreements, the Commission may recommend or require that the MSRB consider modifications of, or additions to, the rules here approved.

MSRB that degree of involvement in those activities.

It appears that the proposed rule change will provide a means for resolving disputes on an expedited and relatively inexpensive basis, thereby enhancing investor protection. Although several persons commenting on a draft of the arbitration code argued that a dollar ceiling should be imposed on municipal securities disputes which must be submitted to arbitration, the MSRB did not alter the proposed code to impose such a limit. The MSRB stated its belief that the adoption of such a limitation would be inconsistent with its goal of establishing an arbitration code which provides a means for resolving municipal securities disputes on an expedited and relatively inexpensive basis. In addition, the MSRB expressed the view that the formal procedures provided in the proposed code would promote a full and fair resolution of municipal securities disputes, regardless of the dollar amount involved.

The Commission finds that the amended proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to the MSRB and, in particular, the requirements of Section 15B of the Act and the rules and regulations under that section. The Commission also finds that it has good cause for approving the proposed rule change prior to the thirtieth day after the publication of notice of the filing of the most recent amendment to the proposal, because of the importance of establishing uniform arbitration procedures for the municipal securities industry. The Commission notes that, with the exception of the last amendment, there has been substantial opportunity for public comment on the proposal.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the above-mentioned amended proposed rule change be, and it hereby is, approved.

By the Commission.

GEORGE A. FITZSIMMONS  
Secretary.

[Release 34-15396; File No. SR-NASD-78-17]

#### NATIONAL ASSOCIATION OF SECURITIES DEALERS, INC.

(Self-Regulatory Organizations; Proposed Rule Change)

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), as amended by Pub. L. No. 94-29, 16 (June 4, 1975) notice is

hereby given on November 15, 1978 the National Association of Securities Dealers, Inc. (the "NASD" or "Association") filed with the Securities and Exchange Commission a proposed rule change as follows:

#### *The NASD's Statement of the Terms of Substance of the Proposed Rule Change*

##### TEXT OF PROPOSED RULE CHANGE

The following is the full text of the proposed amendments which relate to the fidelity bonding requirements for members contained in Appendix C to Article III, Section 32 of the Rules of Fair Practice of the National Association of Securities Dealers, Inc. ("Association"). New language is italicized, deleted language is bracketed and unchanged paragraphs are indicated by asterisks:

#### RULES OF FAIR PRACTICE

##### ARTICLE III

##### SECTION 32

##### FIDELITY BONDS

##### APPENDIX C

##### Annual Review of Coverage

(c) [Each member shall initially determine minimum required coverage of the bond pursuant to subsections (a)(2), (3), (4) and (5) herein, by reference to the highest required net capital during the twelve month period immediately preceding issuance of the bond. Thereafter.]

(1) [Each member, other than members covered by subsection (c)(2) herein, shall annually review, as of the anniversary date of the issuance of the bond, the adequacy thereof by reference to the highest required net capital during the immediately preceding twelve month period, which amount shall be used to determine minimum required coverage for the succeeding twelve month period pursuant to subsections (a)(2), (3), (4) and (5) herein.]

(2) Each member which has been in business for one year shall, as of the first anniversary date of the issuance of its original bond, review the adequacy thereof by reference to an amount calculated by dividing the highest aggregate indebtedness it experienced during its first year by 15. Such amount shall be used in lieu of required net capital under Rule 15c3-1 in determining the minimum required coverage to be carried in the member's second year pursuant to subsections (a)(2), (3), (4) and (5) herein. Notwithstanding the above, no such member shall carry less minimum bonding coverage in its second year than it carried in its first year.

(3) Each member shall make required adjustments not more than [thirty] sixty days after the anniversary date of the issuance of such bond.

#### THE NASD'S STATEMENT ON THE PURPOSE OF PROPOSED RULE CHANGE

Paragraph (c) of Appendix C requires a member to review its bonding coverage annually and to adjust its bond amount to at least 120% of its highest required net capital during the preceding twelve month period. When Section 32 was adopted members were required to maintain minimum net capital of \$5,000 and aggregate indebtedness was not permitted to exceed net capital by a ratio of more than 20/1. When the net capital rule was amended in 1975 it contained provisions requiring an increase in minimum net capital for certain broker/dealers to \$25,000 and also required broker/dealers to maintain a ratio of aggregate indebtedness to net capital of not more than 8/1 in the first year in business and 15/1 in subsequent years.

This meant that the Section 32 bonding requirement during the second year for members who had only been in business for one year would now be computed at 120% of an 8/1 ratio rather than a 15/1 ratio. Thus, the bonding coverage required to be carried by a member in its second year would be higher than that originally intended when the rule was adopted. In fact, the bonding requirement for such second year members would be approximately twice as high as the bond required to be carried by members in similar circumstances in their third and subsequent years in business.

To illustrate, assume a member commences business with a required minimum net capital of \$25,000. The minimum fidelity bond it would be required to carry in its first year would be \$30,000 (120% x \$25,000). Assume that its highest aggregate indebtedness during its first year was \$1,200,000. At that point in time it would have been required to maintain minimum net capital of \$150,000 (\$1,200,000 ÷ 8). At the end of the year when it reviews the adequacy of its bonding coverage it would be required to increase the coverage to \$180,000 (120% x \$150,000). A member in similar circumstances in its third and subsequent years would use the 15/1 ratio and the minimum bond amount would be \$96,000 (\$1,200,000 ÷ 15 x 120%).

Under the Annual Review provisions of the present rule, a member has 30 days from the anniversary date of its fidelity bond in which to make required modifications to its bonding coverage. Under the proposed amend-

ment, this period would be extended to 60 days in order to ameliorate the difficulty members are experiencing locating an insurer willing to cover an increase in the firm's bonding requirements. Members are also discovering that even where their insurance carriers are willing to continue coverage, the premiums on renewal are being increased substantially. Therefore, members need more time to locate a new insurance carrier and/or explore the available market so that they will not be forced to accept an uncompetitive and economically burdensome premium.

Specifically, the proposed amendments accomplish the following:

(1) The first sentence to present paragraph (c) is deleted because it was pertinent only during the initial implementation of Section 32 in 1974;

(2) New paragraph (c)(1) describes the basic procedure which must be used by each member which has been in business longer than one year in determining the minimum amount of fidelity bonding coverage it must carry for a succeeding year when it performs its annual review on each anniversary date of the issuance of its bond;

(3) New paragraph (c)(2) allows a member which has been in business for one year, when it performs its first annual review, to use a 15/1 rather than an 8/1 ratio of the highest aggregate indebtedness it experienced during its first year when calculating the minimum bonding coverage it must carry in its second year; and

(4) The last sentence of present paragraph (c) is retained but renumbered as subparagraph (3) and the time allotted for a member to complete its annual bonding adjustment is increased from 30 to 60 days.

#### THE NASD'S STATEMENT ON THE BASIS UNDER THE ACT FOR PROPOSED RULE CHANGE

Section 15A(g)(3)(A) provides: "A registered securities association may . . . condition the membership of, a registered broker or dealer if (i) such broker or dealer does not meet such standards of financial responsibility . . . as are prescribed by the rules of the association . . ." Section 15A(b)(6) of the Act requires that "[t]he rules of the association [be] designed . . . to promote just and equitable principles of trade . . . to remove impediments to and perfect the mechanism of a free and open market . . . and, in general, to protect investors and the public interest; and are not designed to permit unfair discrimination between . . . brokers, or dealers . . ." These provisions provide the Association with authority to enact non-discriminatory financial responsibility requirements for its members in order to protect investors and

the public interest and complement Section 15(c)(3) of the Act which requires brokers or dealers to comply with "such rules and regulations as the Commission shall prescribe as necessary or appropriate in the public interest or for the protection of investors to provide safeguards with respect to the financial responsibility and related practices of brokers and dealers . . ." The proposed amendments are designed to facilitate the financial responsibility of members by insuring them against losses caused by employee dishonesty and thereby protect the investment public, while at the same time eliminating certain discriminatory and other unfair aspects of the present rule which makes it more difficult for small broker-dealers to compete fairly in the open market. Accordingly, the proposed amendments, if approved by the Commission, will be consistent with the requirements of the Act.

#### THE NASD'S STATEMENT ON COMMENTS RECEIVED FROM MEMBERS, PARTICIPANTS OR OTHERS ON THE PROPOSED RULE CHANGE

Comments from members were solicited in Notices to Members 78-2 and 78-15. Fifteen comment letters were received, ten of which favored the proposed amendments, two were opposed and three were nonresponsive. It should be noted that most of these comments are not specifically directed to the proposed amendments which are the subject of this filing but are instead directed to proposed amendments included in SR-NASD-78-10, which is currently undergoing Commission review.

#### THE NASD'S STATEMENT ON BURDEN ON COMPETITION

The proposed rule changes impose no burdens on competition not necessary in the furtherance of the purposes of the Act. Indeed, the effect of the proposed rule changes will be to reduce unnecessary burdens on competition by facilitating the ability of smaller broker-dealers to obtain adequate bonding insurance at a reasonable price.

Within 35 days of the date of publication of this notice in the FEDERAL REGISTER, or within such longer period (i) as the Commission may designate up to ninety (90) days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the above-mentioned self-regulatory organization consents, the Commission will:

(a) by order approve such proposed rule change, or

(b) institute proceedings to determine whether the proposed rule change should be disapproved.

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons desiring to make written submission should file six (6) copies thereof with George A. Fitzsimmons, Secretary, Securities and Exchange Commission, Washington, D.C. 20549. Copies of the filing with respect to the foregoing, including Notices to Members 78-2 and 78-15, copies of all comment letters received in response thereto and a summary thereof, and of all written submissions will be available for inspection and copying in the Public Reference Room, 1100 L Street, N.W., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number referenced in the caption above and should be submitted within 15 days of the date of this publication.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,  
Secretary.

DECEMBER 15, 1978.

[8010-01-M]

[Rel. No. 16528; 812-4572]

#### NEW JERSEY TAX-EXEMPT INCOME TRUST

DECEMBER 14, 1978.

Notice of filing of application pursuant to section 6(c) of the Act for an order of exemption from sections 14(a) and 19(b) of the act and rules 19b-1 and 22c-1 thereunder.

Notice is hereby given that New Jersey Tax-Exempt Trust, Series I (and Issues Supplemental Thereto) ("Fund"), a unit investment trust registered under the Investment Company Act of 1940 ("Act"), and its sponsor, John J. Rayn & Co., Inc. ("Sponsor") (Sponsor and Fund collectively referred to as "Applicants"), 80 Main Street West Orange, New Jersey 07052, filed an application on October 10, 1978, and amendments thereto on November 13, 1978 and December 11, 1978, pursuant to Section 6(c) of the Act for an order of the Commission exempting the Fund from compliance with the initial net worth requirement of Section 14(a) of the Act, exempting frequency of capital gains distributions of the Fund from the provisions of Section 19(b) of the Act and Rule 19b-1 thereunder, and exempting the secondary market operations of the Sponsor from the provisions of Rule 22c-1. All interested persons are referred to the application on file with the Commission for a statement of the

representations contained therein, which are summarized below.

Each series of the Fund ("Series") will be organized under the laws of the State of New York and will be governed by a trust indenture and agreement ("Agreement") under which the Sponsor will act as depositor, Bradford Trust Company will act as trustee ("Trustee"), and Standard and Poor's Corporation will act as evaluator ("Evaluator"). Each Agreement will contain standard terms and conditions of trust common to all Series of the Fund. Pursuant to each Agreement the Sponsor will deposit with the Trustee not less than \$5,000,000 principal amount of long-term, interest-bearing, tax-exempt obligations including contracts for the purchase thereof ("Bonds"). Simultaneously with such deposit the Trustee will deliver to the Sponsor registered certificates for not less than 5,000 units of undivided interest in each Series of the Fund ("Units"), which will represent the entire ownership of each Series of the Fund at the date of deposit.

The application states that a minimum of 85% of the aggregate principal amount of all of the Bonds will be interest-bearing obligations issued by or on behalf of the State of New Jersey, its political or governmental agencies or instrumentalities, the interest income on which, in the opinion of counsel to the issuers of such obligations or by ruling of the Internal Revenue Service, is exempt from Federal income taxes and which in the opinion of counsel to the issuers of such obligations is exempt from income taxation by the state of New Jersey, its subdivisions and municipalities. The balance of the Bonds will be interest-bearing obligations issued by or on behalf of states, counties, municipalities and territorial possessions of the United States, authorities, agencies and other subdivisions thereof, the interest of which is exempt from Federal income taxes (and in some cases New Jersey income taxes), in the opinion of counsel to the issuers of such obligations or by ruling of the Internal Revenue Service.

Sponsor is accumulating Bonds for the purpose of deposits for Series I and will follow a similar procedure of accumulating the bonds for each future Series. In selecting Bonds the following factors are considered: (i) minimum Standard & Poor's Corporation rating of "BBB" or minimum Moody's Investors Service, Inc.'s rating of "Baa"; provided, if they have, in the opinion of the Sponsor, credit characteristics sufficiently similar to the credit characteristics of outstanding interest-bearing Tax-exempt obligations that are so rated as to be acceptable for acquisition by each

Series, provided that the aggregate amount of such portion of the Bonds does not exceed thirty percent (30%) of the aggregate principal amount of Bonds, and not more than ten percent (10%) of the aggregate principal amount of Bonds in each Series to be obligations of a single issuer in the case of general obligations secured by the power of the issuer to levy ad valorem taxes for the payment thereof or a single guarantor in the case of revenue bonds payable solely from revenues derived by the issuer thereof from specific projects; (ii) reasonable value relative to other issues of similar quality and maturity; (iii) diversification of the portfolio as to purpose of issue and location of issuer and (iv) income to certificateholders of a Series in the Fund.

Applicants represent that the portfolio of each Series will consist of the Bonds, together with accrued and undistributed interest and undistributed cash realized from the sale, redemption, maturity or other disposition of the Bonds. Certain of the Bonds may time to time be redeemed or will mature in accordance with their terms. Sponsor may, under the agreement, direct Trustees to sell or liquidate any of the Bonds only under the happening of the following events: (i) default in the payment of principal or interest; (ii) institution of legal proceedings involving such Bonds; (iii) a breach of covenant or warranty which could adversely affect the payment of debt service on the Bonds; (iv) default in payment of principal or interest on any other outstanding obligations of the same issuer; (v) in the case of revenue bonds, if the revenues based upon official reports fall substantially below the estimated revenues calculated to be necessary to pay principal and interest; (vi) a decline in market price to such an extent, or such other credit or market factors exist, as, in the opinion of the Sponsor, would make retention of such bonds detrimental to a Series of the Fund; and (vii) in the event any of the bonds are subject of an advance refunding. The proceeds from the maturity, sale, redemption or other disposition of Bonds will not be reinvested but will be distributed to Unitholders. The Sponsor may instruct the Trustee to accept or reject an offer by an issuer of Bonds to issue new obligations in exchange or substitution for any of the Bonds if the issuer is in default on such Bonds or, in the written opinion of the Sponsor, the issuer will probably default on such Bonds in the reasonably foreseeable future. The Trustee is also empowered to sell Bonds in order to provide funds for the redemption of Units of a Series and to the extent the proceeds of such sales are in excess of the amount required for redemption, such excess

proceeds will be distributed to Unitholders. The Trustee will also distribute to Unitholders moneys held in a Series of the Fund to cover contracts, duly assigned to the Trustee, to purchase Bonds not yet delivered on the date of deposit of a Series if the Sponsor shall notify the Trustee that such contracts have failed. Except as noted in this paragraph with respect to certain exchanges, the application states that the Agreement prohibits the substitution of securities in the portfolio for the securities initially deposited.

The application states that while not obligated to do so, it is the Sponsor's present intention to maintain a market for the Units of each Series of the New Jersey Tax-Exempt Income Trust, and to continually offer to purchase such at prices subject to change at any time, based on the aggregate of the then current offering prices of the Bonds in a Series of the Fund as computed by the Evaluator. If the supply of United exceeds demand, or for other business reasons, the Sponsor may discontinue purchases of Units at prices based on the offering prices of the Bonds. In such event the Sponsor may nonetheless purchase Units, as a service to Unitholder, at a price based on the then current redemption value of those Units.

If the Sponsor repurchases Units in the secondary market at a low price below the offering side evaluation of the Bonds, it will not resell such Units in the secondary market, but will either hold such Units for its own account or redeem such Units with the Trustee.

#### RULE 22C-1

Rule 22c-1, adopted pursuant to Section 22(c) of the Act, provides, in pertinent part, that redeemable securities of registered investment companies must be sold, redeemed, or repurchased at a price based on the current net asset value (computed on each day during which the New York Stock Exchange is open for trading not less frequently than once daily as of the time of the close of trading on such Exchange) which is next computed after receipt of a tender of such security for redemption or of an order to purchase or sell such security.

Applicants represent that the Sponsor intends to maintain a secondary market for Units at the offering side evaluation used for redemption of Units. For purposes of secondary market transactions, pricing of Units would be based upon evaluations made only once each week, and the basis for Sponsor's determination of its repurchase bid or offering price is the evaluation made by the Evaluator of as the close of business on the last business day of each week effective for all pur-

chases and sales made by the Sponsor during the following week.

Applicants assert that the public Unitholders will benefit from such pricing procedure by receiving a normally higher repurchase price for their Units without the cost burden of daily evaluations of the Unit redemption value. In addition, the Sponsor has undertaken to adopt a procedure whereby the Evaluator, without a formal evaluation, will provide estimated evaluations of trading days. On any such day when the Evaluator feels that in its independent judgment it cannot state that the bid side evaluation is not higher than or equal to the previous Friday's offering side evaluation, the Sponsor will order a new offering side evaluation for purposes of repurchase. In addition, Applicants state that the Evaluator has indicated that it can, without a formal evaluation, determine if the evaluation has decreased by an amount greater than or equal to one half a point from the previous Friday evaluation. Applicants state that the Sponsor has agreed that, in the case of the resale of Units in the secondary market, if the Evaluator cannot state that the previous Friday's price is no more than \$5.00 (on a Unit representing approximately \$1,000 face amount of underlying bonds) greater than the current offering price, a full evaluation will be ordered.

#### SECTION 14(A)

Section 14(a) of the Act requires, in substance, that a registered investment company (a) have a net worth of at least \$100,000 prior to making a public offering of its securities, (b) have previously made a public offering and at that time have had a net worth of \$100,000 or (c) have made arrangements for at least \$100,000 to be paid in by 25 or fewer persons before acceptance of public subscriptions and that arrangement will be made whereby any amount so paid in, as well as any sales load, will be refunded to any subscriber on demand in the event the net proceeds so received by the company do not result in the company's having a net worth of at least \$100,000 within 90 days after such registration statement becomes effective.

Applicants represent that Series I and each subsequent Series at the date of deposit of the underlying bonds for such Series and before any Unit of that Series is offered to the public, will have a net worth of not less than approximately \$5,000,000, represented by the market value of the Bonds on such date. Further, the Sponsor has agreed to refund on demand without deduction, all sales charges to purchasers of Units of a Series if, within ninety days from the time the Series becomes effective under the Securities

Act of 1933, the net worth of the Series shall be reduced to less than \$100,000 or if the Series shall have been terminated. The Sponsor states that it has an agreement with the Trustee that on that days of deposit of each Series that in the event that redemption by the Sponsor of Units constituting a part of the unsold units shall result in the Series having a net worth of less than twenty percent (20%) of the principal amount of Bonds originally deposited in the Series, the Trustee shall terminate the Series in the manner provided in the Agreement and distribute the proceeds of the sale of all Bonds or other assets deposited with the Trustee to Unitholders as provided therein. The Sponsor further agrees, in such event, to refund any sales charge to any purchaser of Units purchased from the Sponsor on demand and without deduction.

#### RULE 19B-1

Rule 19b-1(a), adopted pursuant to Section 19(b) of the Act, provides in substance that no registered investment company which is a "regulated investment company" as defined in Section 851 of the Internal Revenue Code shall distribute more than one capital gain distribution in any one taxable year. Paragraph (b) of the Rule contains a similar prohibition for a company not a "regulated investment company" but permits a unit investment trust to distribute capital gain distributions received from a "regulated investment company" within a reasonable time after receipt.

Applicants state that under the terms of the Agreement, Unitholders are to receive their distributions, both as to principal and interest, no later than one month after receipt thereof by the Fund, and there exists no power to vary this procedure under the Agreement. The Fund may receive amounts constituting capital gains in the hands of Unitholders resulting from the sale of Bonds to cover Units submitted for redemption at any time during the year, or from the sale of Bonds in the limited events outlined in the application. In order to strictly comply with the requirements of Rule 19b-1, the Trustee would be forced to hold all such amounts until the end of its taxable year in order to ensure against a prohibited capital gain distribution, which Applicants contend would be to the detriment of Unitholders.

In support of the requested exemption, the application states that the dangers against which Rule 19b-1 is intended to guard do not exist in the situation at hand because the Fund and its Sponsor have substantially no control over events which might trigger capital gains. In addition, it is al-

leged that the amounts involved in a normal distribution of principal are relatively small in comparison to the normal interest distribution, and such distributions are clearly indicated in accompanying reports to Unitholders as return of principal.

Paragraph (b) of Rule 19b-1 provides that a unit investment trust may distribute capital gains dividends received from a regulated investment company within a reasonable time after receipt. Applicants assert that the possible purpose behind such provision is to avoid forcing a unit investment trust to accumulate valid distributions received throughout the year and distribute them only at year end and that the operations of the Fund will be consistent with the apparently intended objectives of such provision.

Section 6(c) of the Act provides, in part, that the Commission may conditionally or unconditionally, exempt any person, security, or transaction, or any class or classes of persons, securities, or transactions from any provision of the Act or of any rule or regulation under the act, if and to the extent such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than January 8, 1979, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail upon the Applicants at the address stated above. Proof of such service (by affidavit, or in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive any notices and orders in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,  
Secretary.

[8010-01-M]

[Release No. 15410; SR-NYSE-78-21]

NEW YORK STOCK EXCHANGE, INC.

Order Approving Proposed Rule Change

DECEMBER 13, 1978.

On March 29, 1978, the New York Stock Exchange, Inc. ("NYSE"), 11 Wall Street, New York, New York 10005, filed with the Commission, pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1) (the "Act") and Rule 19b-4 thereunder, copies of a proposed rule change which would amend the NYSE Constitution and Rules by rescinding NYSE Article XIV and Rule 345(c), adding a new Article XIV and Rules 476 and 477 and amending Articles III, X, and XI. The proposed rule change is intended to conform the NYSE's disciplinary rules to the provisions of the Act, to organize those rules into a uniform body of enforcement regulations and to clarify certain procedural requirements with respect to these disciplinary rules.

Notice of the proposed rule change, together with its terms of substance, was given by publication of a Commission Release (Securities Exchange Act Release No. 14755, May 12 1978) and by publication in the FEDERAL REGISTER (43 FR 23065, May 30, 1978). All written statements with respect to the proposed rule change which were filed with the Commission and all written communications relating to the proposed rule change between the Commission and any person were considered, and were made available to the public at the Commission's Public Reference Room.

The Commission received comment on this rule filing from the Association of Investment Brokers ("AIB")<sup>1</sup> and from 41 other interested persons, who appear to be registered representatives of NYSE member firms.<sup>2</sup> The NYSE filed a response to the AIB letter.<sup>3</sup>

The NYSE proposal, in pertinent part, involves the following procedures. NYSE disciplinary hearings are held before a Hearing Panel consisting of at least three persons; a Hearing Officer, who is Chairman of the Panel,

and normally two other panelists who are chosen from a pool of eligible persons who are members of the Hearing Board.<sup>4</sup> Hearing Officers and Hearing Board members are appointed annually and serve at the pleasure of the NYSE Board of Directors.

If the person subject to a disciplinary proceeding is a member, member organization, allied member, or approved person of the NYSE, the members of the Hearing Board serving on the Panel must also be members or allied members.<sup>5</sup> If the person is a registered or non-registered employee of a member or member organization and the person is not a member or allied member of the NYSE, the members of the Hearing Board serving on the Panel must be registered employees or non-registered employees of members and member organizations who are not members or allied members. If there are joint respondents from each of these two categories, at least one of the persons serving on the Panel must be a member or allied member and at least one other person serving on the Panel must be a registered or non-registered employee of a member or member organization who is not a member or allied member.<sup>6</sup>

A portion of proposed NYSE Rule 476(b) would alter the current composition of Hearing Panels by providing that if the charge brought by the NYSE related to floor activities, at least one of the persons on the Hear-

<sup>1</sup>Proposed NYSE rule 476(b). The Chairman of the NYSE Board of Directors, subject to the approval of the Board, designates from among the officers and employees of the NYSE a Chief Hearing Officer and one or more alternate Hearing Officers who have no Exchange duties or functions relating to the investigation or preparation of disciplinary matters. An alternate Hearing Officer would preside in a proceeding in which the Chief Hearing Officer had a conflict of interest or was unavailable. The Chairman of the NYSE Board also appoints the Hearing Board from which the other panelists are chosen, which is composed of members and allied members of the NYSE who are not members of the Board of Directors, as well as registered employees and non-registered employees of members and member organizations. The Hearing Board is composed of as many members as the Chairman deems necessary.

<sup>2</sup>Article I, Section 3(g) of the NYSE Constitution defines an "approved person" as a party who is not an employee, a member or an allied member of a member corporation and who is a director of a member corporation, or who beneficially owns 5% or more of the outstanding voting stock of a member corporation. The NYSE staff stated that approved persons are not included on the Panel because they are not usually associated with the securities business, but rather are outside directors or investors. The NYSE believes approved persons generally would not have the securities industry expertise it believes is necessary for panelists hearing a disciplinary matter.

<sup>3</sup>Proposed NYSE Rule 476(b).

ing Panel must be active on the floor. Similarly, charges relating to non-floor activities would require at least one "upstairs" person on the panel.

Procedures for the determination of evidentiary and procedural matters have been incorporated into proposed Rule 476(c). The Hearing Officer would resolve all procedural and evidentiary matters, and could require the Exchange to permit the respondent to inspect and copy documents or records in the possession of the Exchange which are material to the preparation of a defense or are intended for the use as evidence at the hearing by the Division or Department of the Exchange initiating the proceeding. The NYSE also proposes to incorporate in Rule 476(e) the NYSE's existing practice of making a written record of all disciplinary proceedings.

Determinations that a respondent has violated the Act, the rules thereunder or NYSE rules require a vote of a majority of the Hearing Panel. The Hearing Panel's determination is final and conclusive, unless the respondent files a request to the Board of Directors for review.<sup>7</sup> The Hearing Panel may impose one or more of the following disciplinary sanctions upon a finding of violation: expulsion or suspension from membership; limitation as to activities, functions, or operations, including, in the case of a specialist or Registered Competitive Market Maker, the suspension or cancellation of a registration in, or assignment of, one or more stocks; fine; censure; suspension or bar from being associated with any member or member organization; or any other fitting sanction.<sup>8</sup> The NYSE proposes to increase the maximum allowable fine for natural persons from \$5,000 per violation (with a \$25,000 ceiling for each disciplinary action regardless of the number of violations, \$100,000 for member organizations) to \$25,000 for each charge (\$100,000 for member organizations), with no limit per disciplinary action.

The Commission has considered the basis and purpose of the proposed rule changes set forth by the NYSE in its rule filing, the issues raised by the commentators, and the NYSE's response to those comments, and has concluded that the rule filing is consistent with the requirements of the Act. Section 6(b)(7) of the Act<sup>9</sup> together with the due process requirements of Section 6(d),<sup>10</sup> which were added by

<sup>7</sup>Id.

<sup>8</sup>Proposed NYSE Rule 476(a).

<sup>9</sup>Section 6(b)(7) of the Act directs exchanges to provide in their rules a fair procedure for the disciplining of members and persons associated with members.

<sup>10</sup>Section 6(d) of the Act provides that in any exchange disciplinary proceeding the exchange shall—"bring specific charges, notify such member or person of, and give

Footnotes continued on next page

the Securities Acts Amendments of 1975,<sup>11</sup> impose on exchanges the same duty to provide fair procedures for disciplining members and associated persons to which registered national securities associations have been subject since 1938.<sup>12</sup> The Commission believes that the NYSE's proposed rule changes meet those requirements.

The AIB comments on the NYSE proposal relate to the composition and selection of Hearing Panels which hear and decide NYSE disciplinary actions and to the fairness of the NYSE's disciplinary proceedings. The AIB contends that registered representatives will not receive a "peer" review in NYSE disciplinary proceedings (i.e., review by Hearing Panelists who are active retail investment brokers) since the pool of registered representatives from which the NYSE selects its Hearing Panels consists for the most part of office, supervisory and branch managers whose registered representative status is incidental to their other duties. The AIB maintains that proceedings involving registered representatives should be heard by full time registered retail investment brokers and suggests that they be named by the AIB. The AIB also contends that: the NYSE Hearing Officer should be legally trained; the Hearing Panel should contain 6 persons with a 4/3 majority required for a finding of violation; respondents should be permitted to *voir dire* the panel; the evidentiary standard of "beyond a reasonable doubt" should prevail; and the maximum allowable fine should not be increased.

Neither the Act nor its legislative history suggest that the "peer review" sought by the AIB is required to be provided in disciplinary actions conducted by self-regulatory organizations. Further, the Commission does not believe that such "peer review" is a necessary element of fair exchange disciplinary procedures within the meaning of Section 6(b)(7) of the Act. In the Commission's view, the NYSE rules, by providing for a Hearing Panel to be selected from a Hearing Board composed of persons who work in retail brokerage firms, many of whom are registered representatives,<sup>13</sup> pro-

Footnotes continued from last page  
him an opportunity to defend against, such charges, and keep a record."

<sup>11</sup>Pub. L. No. 94-29 (June 4, 1975).

<sup>12</sup>Senate Committee on Banking, Housing and Urban Affairs, Report to Accompany S. 249, S. Rep. No. 94-75, 94th Cong., 1st Sess. 96 (1975).

<sup>13</sup>According to the NYSE breakdown of the current members of the Hearing Board from which panelists would be chosen for a disciplinary proceeding involving a registered representative, 79 are registered representatives and 32 are non-registered employees of member organizations. Of the 79 registered representatives, 60 are engaged solely in the handling of customer accounts.

vide an adequate framework for assuring fair and impartial disciplinary hearings before persons with the objectivity, experience and ability to understand the issues presented. Moreover, while the NYSE has endeavored to provide a measure of peer review for all persons subject to its disciplinary jurisdiction, the Commission finds that the type of peer review afforded to registered representatives in comparison to the type of peer review afforded to other categories of persons is consistent with the requirement under Section 6(b)(5) of the Act that the rules of an exchange not be designed "to permit unfair discrimination between customers, issuers, brokers, or dealers."<sup>14</sup>

The Commission also believes that the NYSE's proposed rules insure the basic fairness of the actual proceedings.<sup>15</sup> The Commission believes the Act permits an exchange the flexibility to choose its Hearing Officers as it deems appropriate, without a requirement that they be legally trained, so long as the Hearing Officer is capable of conducting the proceeding in a fair manner. Exchange disciplinary proceedings are less formal than judicial proceedings and do not require as sophisticated knowledge of the technical aspects of trial practice as might be expected in a judicial proceeding. The Commission believes that the NYSE's selection of Hearing Officers who have no duties or functions relating to the investigation or preparation of charges is an adequate means of preventing any conflict of interest, or appearance thereof, by the Hearing Officer. Further, as a means of assuring the impartiality of Hearing Panel members

The NYSE advised the Commission that it continually updates and adds to the Hearing Boards from which panelists are chosen, and it will make an effort to increase the representation of registered representatives in that pool from which panelists are chosen to hear a case involving a registered representative respondent. The Commission expects that the NYSE will make every effort to administer its rules to assure that registered representatives are fairly represented on Hearing Panels.

<sup>14</sup>The AIB notes that cases involving activities on the NYSE floor would be heard by a panel which would include at least one person active on the floor. The possibility exists, however, that the floor person may be involved in floor activities different from those of the respondent. For example, the floor representative on a disciplinary panel considering rule violations by a specialist might well be a floor broker or a Registered Competitive Market Maker, and not necessarily another specialist.

<sup>15</sup>Further, the Commission, in its review of self-regulatory organization disciplinary proceedings, is required to insist upon meticulous compliance by the self-regulatory organization to that organization's procedural rules. See *Todd and Company, Inc. v. Securities and Exchange Commission*, 557 F.2d 1008 (3d Cir. 1977).

in each case, the NYSE provides that prospective panelists be given the names of parties, firms, attorneys and a summary of the charges, and be asked to identify any potential conflict of interest. The Commission believes this procedure offers sufficient opportunity to replace any panelist whose decision might be tainted by an appearance of a conflict of interest.

The Commission believes that the NYSE system of three person panels with a two-thirds majority for a finding of violation is reasonable and is consistent with the provisions of the Act in providing a fair procedure for disciplinary proceedings. Further, the Commission believes that self-regulatory organizations should be permitted reasonable latitude in selecting the size of the hearing panels used to conduct their disciplinary proceedings and the vote required for a finding of violation.

With respect to the evidentiary standard applied in NYSE disciplinary proceedings, given the remedial nature of those proceedings, the Commission does not believe that the Act requires the application of a standard requiring that proof of violation be established beyond a reasonable doubt.

Finally, the Commission believes the NYSE's ability to impose a more substantial sanction in appropriate cases will enhance the NYSE's ability to enforce compliance with the Act, the rules thereunder and exchange rules, and is within the NYSE's province as a self-regulatory organization. The increase of the maximum fine should not be subject to abuse or arbitrariness since NYSE disciplinary actions are subject to review by the Commission.<sup>16</sup>

Accordingly, the Commission finds that the proposed rule change is consistent with the requirements of the Act and rules and regulations thereunder applicable to registered national securities exchanges and, in particular, the requirements of Sections 6(b)(5), 6(b)(6), 6(b)(7), 6(d), and 19(d), and the rules and regulations thereunder.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the above-mentioned proposed rule change be, and it hereby is, approved.

By the Commission.

GEORGE A. FITZSIMMONS,  
Secretary.

[FR Doc. 78-36088 Filed 12-27-78; 8:45 am]

<sup>16</sup>The Commission notes that final disciplinary actions of exchanges are subject to review by the Commission under Sections 19(d) and (e) of the Act, thereby assuring NYSE members a safeguard against any possible abuses which in practice might result under the NYSE rules.

## [8010-01-M]

(Rel. No. 20827; 70-6234)

## PENNSYLVANIA ELECTRIC CO.

DECEMBER 13, 1978.

Notice of proposed sale of transmission line by subsidiary to an unaffiliated electric utility

Notice is hereby given that Pennsylvania Electric Company ("Penelec"), 1001 Broad Street, Johnstown, Pennsylvania 15907, an electric utility subsidiary of General Public Utilities Corporation ("GPU"), a registered holding company, has filed a declaration with this Commission pursuant to the Public Utility Holding Act of 1935 ("Act") designating Section 12(d) of the Act and Rule 44 promulgated thereunder as applicable to the proposed transaction. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transaction.

Penelec is the owner of a 115 kv single circuit electric transmission line of approximately 15 miles in length connecting Penelec's Lenox substation in Susquehanna County, Pennsylvania with the Peckville substation owned by Pennsylvania Power and Light Company ("PP&L"), an electric utility not affiliated with Penelec or GPU, located in Lackawanna County, Pennsylvania (the "L/P Line").

Penelec is the owner of a 230 kv single circuit electric transmission line of approximately 55 miles in length connecting Penelec's East Towanda Substation in Bradford County, Pennsylvania with PP&L's Peckville Substation in Lackawanna County, Pennsylvania. Approximately 2.3 miles of the East Towanda-Peckville Line connects the PP&L Peckville Substation with the Southern leg of the loop of the East Towanda-Peckville Line into the Lackawanna Switching Station (the "Lackawanna Line").

The L/P Line is no longer useful to Penelec as a result of the development by Penelec of the parallel 230 kv system represented by the East Towanda-Peckville Line. The Lackawanna Line is no longer useful to Penelec as a result of the construction of the Lackawanna Switching Station.

Therefore Penelec proposes to sell to PP&L the following property:

(1) The facilities and equipment constituting the L/P Line, certain of Penelec's property presently located in PP&L's Peckville substation and the appurtenant right of way.

(2) The facilities and equipment constituting the Lackawanna Line and the appurtenant right of way.

The purchase price of the property and the equipment will be the original book cost, less depreciation, computed at the closing date. The estimated

price as of June 30, 1978, would be \$353,561.31.

The fees and expenses to be incurred in connection with the proposed transaction is approximately \$17,500 including \$15,000 in attorney's fees. It is stated that the Pennsylvania Public Utility Commission has jurisdiction with respect to the proposed transaction, and that no other state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than January 5, 1979, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the declarant at the above-stated address and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,  
Secretary.

## [8010-01-M]

## PHILADELPHIA STOCK EXCHANGE, INC. et al.

Applications for Unlisted Trading Privileges  
and of Opportunity for Hearing

DECEMBER 14, 1978.

The above named national securities exchange has filed applications with the Securities and Exchange Commission pursuant to Section 12(f)(1)(B) of the Securities Exchange Act of 1934 and Rule 12f-1 thereunder, for unlisted trading privileges in the securities of the companies as set forth below, which securities are listed and regis-

tered on one or more other national securities exchanges:

American Sterilizer Company—File No. 7-5035—Common Stock, \$83½ Par Value.  
United Energy Resources, Inc.—File No. 7-5036—Common Stock, \$1 Par Value.  
Buttes Gas & Oil Company (DE)—File No. 7-5051—Common Stock, \$1.10 Par Value.  
Allegheny Ludlum Industries, Inc.—File No. 7-5052—\$2.19 Cumulative Preference Stock, No Par Value.  
First Pennsylvania Corporation—File No. 7-5053—Warrants (Expiring May 4, 1983).  
J. Ray McDermott Company, Inc.—File No. 7-5055—Series A, \$2.20 Cumulative Convertible Preferred Stock, \$1 Par Value.  
J. Ray McDermott Company, Inc.—File No. 7-5055—Series B, \$2.60 Cumulative Convertible Preferred Stock, \$1 Par Value.  
Greyhound Corporation (Arizona)—File No. 7-5057—Common Stock, \$1.50 Par Value.  
Greyhound Corporation (Arizona)—File No. 7-5058—Warrants (Expiring May 14, 1980).  
Pepper (Dr.) Company—File No. 7-5059—Common Stock, No Par Value.  
Humana Inc.—File No. 7-5063—\$2.50 Cumulative Preferred Stock, \$1 Par Value.  
Carrier Corporation—File No. 7-5064—\$1.86 Series Cumulative Convertible Preferred Stock, No Par Value.

Upon receipt of a request, on or before January 14, 1979, from any interested person, the Commission will determine whether the applications with respect to the companies named shall be set down for hearing. Any such request should include a brief statement as to the title of the security in which the person is interested, the nature of his interest in making the request, and the position which he proposes to take at the hearing, if ordered. In addition, any interested person may submit his views or any additional facts bearing on the said application by means of a letter addressed to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549 not later than the date specified. If no one requests a hearing with respect to the particular application, such application will be determined by order of the Commission on the basis of the facts stated therein and other information contained in the official files of the Commission pertaining thereto.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,  
Secretary.

## SOURCE INVESTMENT, INC.

## Suspension of Trading

DECEMBER 15, 1978.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the securities of Source Investment, Inc. being traded on a national securities exchange or otherwise is required in the public interest and for the protection of investors;

Therefore, pursuant to Section 12(k) of the Securities Exchange Act of 1934, trading in such securities on a national securities exchange or otherwise is suspended, for the period from 9:45 a.m. on December 15, 1978 through December 24, 1978.

By the Commission.

GEORGE A. FITZSIMMONS,  
Secretary.

(FR Doc. 78-36091 Filed 12-27-78; 8:45 am)

## [8010-01-M]

(Rel. No. 20835; 70-62471)

## VERMONT YANKEE NUCLEAR POWER CORP.

Proposed Amendment of First Mortgage  
Indenture

DECEMBER 18, 1978.

Notice is hereby given that Vermont Yankee Nuclear Power Corporation ("Vermont Yankee"), 77 Grove Street, Rutland, Vermont 05701, an indirect electric utility subsidiary of both New England Electric System and Northeast Utilities, registered holding companies, has filed with this Commission a declaration pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating Sections 6(a), 7 and 12(e) of the Act and Rules 62 and 65 promulgated thereunder as applicable to the proposed transaction. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transaction.

Vermont Yankee proposes to amend its first mortgage indenture ("Indenture") dated as of October 1, 1970, as heretofore amended and supplemented by supplemental indentures dated as of March 1, 1971, October 1, 1971, July 13, 1972, August 1, 1972, and January 15, 1973, between it and Chemical Bank, successor Trustee, which Indenture secures its first mortgage bonds ("Bonds") of the following series and amounts: \$80,000,000 Series A, 9%, due 1998; \$15,000,000 Series B, 8½%, due 1998; and \$20,000,000 Series C, 7.70% due 1998.

The proposed amendment would modify Section 6.17 of the Indenture,

which section presently restricts the types of business activities in which declarant may engage, so as to permit Vermont Yankee to engage in a wider variety of uranium procurement activities. Such modified section would read as follows (the underlined words being the added language):

Section 6.17: *Limitation on Business of the Company.* The Company will not engage in any business other than constructing, owning and operating the Unit (including additions and improvements thereto), the sale of electricity generated by the Unit to one or more of the Utility Companies, the sale of by-product materials and services from the operation of the Unit, participating in ventures to acquire mineral interests, to explore for natural uranium, to mine and process natural uranium to produce fuel which can be utilized in nuclear electric generating facilities, or to deal in uranium thus acquired in all such stages of processing, and, in connection with and incidental to the operation of the Unit (and additions and improvements thereto), the conduct of research into and the development of processes for the generation of electricity from nuclear or atomic energy or from steam or other energy produced as a result of nuclear or atomic fission. The Company will not have any 'subsidiary company' as defined in Section (2)(a)(8)(A) of the Public Utility Holding Company Act of 1935.

It is stated that the purpose of the proposed amendment is to provide declarant with greater flexibility in selecting its fuel procurement methods. Vermont Yankee operates a 540 MW nuclear-powered generating plant which has been in service since November 30, 1972, and requires approximately 260,000 pounds of uranium (U<sub>3</sub>O<sub>8</sub>) annually. The plant's U<sub>3</sub>O<sub>8</sub> needs have been contracted for through 1981, and declarant has a long-term contract to purchase U<sub>3</sub>O<sub>8</sub> to be extracted from phosphoric acid which will provide about 20% of its anticipated needs after 1981. The market for uranium to fuel commercial nuclear reactors has undergone dramatic changes in recent years. The price has substantially increased since 1973, and this trend is expected to continue into the foreseeable future, although at a slower rate. Declarant states that entering the uranium supply field in order to assure a future supply of uranium and to reduce its ultimate cost exposure merits serious consideration and may constitute a more efficient and less expensive way to assure an adequate uranium supply. The methods of entering the uranium supply field include joint ventures with other established companies to finance the expansion of existing mines, develop known reserves or explore for new de-

posits as well as the formation of new entities, either alone or with other reactor owners, to explore for, develop and mine uranium deposits.

The proposed Indenture amendment requires the consent of the holders of 66⅔% in aggregate principal amount of the Bonds outstanding (as of November 1, 1978, there were \$89,877,000 aggregate principal amount of Bonds outstanding, so the amendment would require the consent of the holders of \$59,921,000 aggregate principal amount). Declarant proposes to solicit the consent of Bondholders by mailing to each a letter, solicitation statement and consent, which mailing will be followed by oral solicitation of certain Bondholders and brokers by officers or other regular employees of Vermont Yankee.

Any entry by declarant into the uranium supply field is subject to the authorization of this Commission, which authorization is not being sought at the present time.

The fees and expenses to be incurred in connection with the proposed transaction will be supplied by amendment. It is stated that no state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than January 11, 1979, request in writing that a hearing be held on such matter, stating the nature of his interest, and the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

GEORGE A. FITZSIMMONS,  
Secretary.

#### CHEMICAL TRANSPORTATION ADVISORY COMMITTEE

Meeting

Pursuant to Section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463; 5 U.S.C. App. I) notice is hereby given of a meeting of the Chemical Transportation Advisory Committee's Subcommittee on Commercial Explosives to be held on January 17, 1979, beginning at 9:30 in Room 8238, Nassif Building, 400 7th Street, SW, Washington, D.C. 20590.

The purpose of this meeting is to consider suggestions for regulation of waterfront facilities handling explosives. The agenda for this meeting is as follows:

1. Call to Order.
2. Opening Remarks.
3. Establishment of Scope of Subcommittee Work.
4. Subcommittee Assignments.
5. Any Other Business Brought Before the Subcommittee.
6. Adjournment.

Attendance is open to the interested public. With the approval of the Chairman, members of the public may present oral statements at the meeting. Information may be obtained from Captain William N. Spence, Commandant (G-MHM/83) U.S. Coast Guard, Washington, D.C. 20590, (202) 426-2306. Any member of the public may present a written statement to the Committee at any time.

Dated: December 20, 1978.

HENRY H. BELL,  
Rear Admiral, U.S. Coast Guard,  
Chief, Office of Merchant  
Marine Safety.

#### LOUIS DREYFUS CORP.

#### Qualification as a Citizen of the United States

Notice is given that pursuant to 46 CFR 67.23-7, issued under the provisions of section 27A of the Merchant Marine Act, 1920, as added by the Act of September 2, 1958 (46 U.S.C. 883-1),

Louis Dreyfus Corporation of 24 Richmond Hill Avenue, Stamford, Connecticut 06904, incorporated under the laws of the State of New York, did on October 20, 1978, file with the Commandant, United States Coast Guard, in duplicate, an oath for qualification of the corporation as a citizen of the United States following the forms of oath prescribed in Form CG-1260.

The oath shows that:

(a) A majority of the officers and directors of the corporation are citizens of the United States;

(b) Not less than 90 percent of the employees of the corporation are residents of the United States;

(c) The corporation is engaged primarily in a manufacturing or mineral industry in the United States or in a Territory, District, or possession thereof;

(d) The aggregate book value of the vessels owned by the corporation does not exceed 10 percent of the aggregate book value of the assets of the corporation; and

(e) The corporation purchases or produces in the United States, its Territories or possessions not less than 75 percent of the raw materials used or sold in its operations.

The Commandant, United States Coast Guard, having found this oath to be in compliance with the law and regulations, on December 11, 1978, issued to Louis Dreyfus Corporation a certificate of compliance on Form CG-1262, as provided for in 46 CFR 67.23-7. The Certificate and any authorization granted thereunder will expire three years from December 11, 1978, unless there first occurs a change in the corporate status requiring a report under 46 CFR 67.23-7.

Dated: December 19, 1978.

HENRY H. BELL,  
Rear Admiral, U.S. Coast Guard,  
Chief, Office of Merchant  
Marine Safety.

#### [4910-06-M]

Federal Railroad Administration

[FRA Waiver Petition Docket HS-78-12]

#### CURTIS, MILBURN AND EASTERN RAILROAD CO.

Petition for Exemption From the Hours of Service Act

In accordance with 49 CFR Section 211.41 and Section 211.9, notice is hereby given that the Curtis, Milburn and Eastern Railroad Company (CM&E) has petitioned the Federal Railroad Administration (FRA) for an exemption from the Hours of Service Act (83 Stat. 464, Pub. L. 91-169, 45

U.S.C. 64a(e)). That petition requests that the CM&E be granted authority to permit certain employees to continuously remain on duty for in excess of twelve hours.

The Hours of Service Act currently makes it unlawful for a railroad to require or permit specified employees to continuously remain on duty for a period in excess of twelve hours. However, the Hours of Service Act contains a provision that permits a railroad, which employs no more than fifteen employees who are subject to the statute, to seek an exemption from this twelve hour limitation.

The CM&E seeks this exemption so that it can permit certain employees to remain continuously on duty for periods not to exceed sixteen hours. The petitioner indicates that granting this exemption is in the public interest and will not adversely affect safety. Additionally, the petitioner asserts that it employs no more than fifteen employees and has demonstrated good cause for granting this exemption.

Interested persons are invited to participate in this proceeding by submitting written views or comments. FRA has not scheduled an opportunity for oral comment since the facts do not appear to warrant it. Communications concerning this proceeding should identify the Docket Number, Docket Number HS-78-12, and must be submitted in triplicate to the Docket Clerk, Office of the Chief Counsel, Federal Railroad Administration, Trans Point Building, 2100 Second Street, S.W., Washington, D.C. 20590. Communications received before January 30, 1979, will be considered by the FRA before final action is taken. Comments received after that date will be considered as far as practicable. All comments received will be available for examination both before and after the closing date for comments, during regular business hours in Room 4406, Trans Point Building, 2100 Second Street, S.W., Washington, D.C. 20590.

(Section 5 of the Hours of Service Act of 1969 (45 U.S.C. 64a), § 1.49(d) of the regulations of the Office of the Secretary, 49 CFR 1.49(d).)

Issued in Washington, D.C. on December 19, 1978.

ROBERT H. WRIGHT,  
Acting Chairman,  
Railroad Safety Board.

#### SOUTH BRANCH VALLEY RAILROAD CO.

Petition for Exemption From the Hours of Service Act

In accordance with 49 CFR Section 211.41 and Section 211.9, notice is hereby given that the South Branch Valley Railroad (SBVR) has petitioned the Federal Railroad Administration (FRA) for an exemption from the Hours of Service Act (83 Stat. 464, Pub. L. 91-169, 45 U.S.C. 64a(e)). That petition requests that the SBVR be granted authority to permit certain employees to continuously remain on duty for in excess of twelve hours.

The Hours of Service Act currently makes it unlawful for a railroad to require or permit specified employees to continuously remain on duty for a period in excess of twelve hours. However, the Hours of Service Act contains a provision that permits a railroad, which employs no more than fifteen employees who are subject to the statute, to seek an exemption from this twelve hour limitation.

The SBVR seeks this exemption so that it can permit certain employees to remain continuously on duty for periods not to exceed sixteen hours. The petitioner indicates that granting this exemption is in the public interest and will not adversely affect safety. Additionally, the petitioner asserts that it employs no more than fifteen employees and has demonstrated good cause for granting this exemption.

Interested persons are invited to participate in this proceeding by submitting written views or comments. FRA has not scheduled an opportunity for oral comment since the facts do not appear to warrant it. Communications concerning this proceeding should identify the Docket Number, Docket Number HS-78-13, and must be submitted in triplicate to the Docket Clerk, Office of the Chief Counsel, Federal Railroad Administration, Trans Point Building, 2100 Second Street SW., Washington, D.C. 20590. Communications received before January 30, 1979, will be considered as far as practicable. All comments received will be available for examination both before and after the closing date for comments, during regular business hours in Room 4406, Trans Point Building, 2100 Second Street SW., Washington, D.C. 20590.

(Section 5 of the Hours of Service Act of 1969 (45 U.S.C. 64a), § 1.49(d) of the regulations of the Office of the Secretary, 49 CFR 1.49(d).)

Issued in Washington, D.C. on December 19, 1978.

ROBERT H. WRIGHT,  
Acting Chairman,  
Railroad Safety Board.

National Highway Traffic Safety Administration

#### BIOMECHANICS ADVISORY COMMITTEE

Establishment

Notice is hereby given of the establishment of the Biomechanics Advisory Committee under the sponsorship of the National Highway Traffic Safety Administration (NHTSA). The Committee will advise the NHTSA Administrator on the appropriateness of procedures designed to minimize the risk of injury and to assure the rights and dignity of live and deceased humans used in research. It will also be asked to advise on the need for related research projects. It has seven members selected from among representatives of medicine, psychology, life sciences, engineering, law, administration, and other interested or affected fields. Four members are from the private sector, while three are Federal employees. Meetings of the Committee will be open to the public and agendas will be published in the FEDERAL REGISTER 15 days in advance of the meeting.

Additional information on the Committee may be obtained from the Office of the Executive Secretariat, National Highway Traffic Safety Administration, Department of Transportation, 400 Seventh Street, S.W., Washington, D.C. 20590, telephone 202-426-2872.

Issued in Washington, D.C. on: December 22, 1978.

WILLIAM H. MARSH,  
Executive Secretary.

[FR Doc. 78-36180 Filed 12-27-78; 8:45 am]

#### [4910-59-M]

#### SAFETY, BUMPER, AND CONSUMER INFORMATION PROGRAMS

Public Meeting

The National Highway Traffic Safety Administration (NHTSA) will hold a meeting on Wednesday, February 21, 1979, to answer questions from the public and industry regarding the Agency's safety, bumper, and consumer information programs. The meeting will begin at 8:30 a.m., run until 12 noon, and reconvene at 1:00 p.m. The meeting will be held at Rackham

Auditorium on the University of Michigan Campus in Ann Arbor, Michigan.

This is the third meeting to be held in response to requests that the Agency has received over the last year for periodic public technical meetings modeled after those conducted by the Environmental Protection Agency (EPA) for its motor vehicle emissions program. At these meetings, representatives of the Department will answer questions received in writing from the industry and the public.

Unlike the preceding two meetings, this meeting will be held jointly with the Bureau of Motor Carrier Safety of the Federal Highway Administration. The main subject for discussion at this meeting will be the Department of Transportation's plans for truck braking. Prior to this meeting, the NHTSA anticipates the publication of two Advanced Notices of Proposed Rulemaking which will indicate DOT's plans for rulemaking intended to incorporate stopping distances in the truck brake standard that can be met without antilock as well as information on DOT's longer range rulemaking plans to improve braking performance in large trucks. We are soliciting questions related to the truck brake standard for discussion at the meeting.

We will also accept questions relating to NHTSA's vehicle safety, bumper, or consumer information programs which are technical, interpretive or procedural in nature. The questions may relate to the research and development, rulemaking, or enforcement (including defects) phases of these activities. (Questions regarding this Agency's fuel economy program will continue to be addressed at the EPA's meetings on vehicle emissions.)

Questions for the meetings must be submitted in writing to William Marsh, NHTSA, Executive Secretary, Room 5212, 400 Seventh Street, SW., Washington, D.C. 20590. Only questions submitted in this manner and received not later than January 29, 1979 for the February 21, 1979 meeting will be answered. The individual, group, or company submitting a question does not have to be present at the meeting for the questions to be answered. A transcript will be made and will be available for public inspection in the NHTSA Technical Reference Section in Washington, D.C., within three weeks after the meeting.

An agenda consisting of the questions submitted in a timely and proper fashion will be available at the NHTSA Technical Reference Section several days before the meeting and at the meeting itself.

At this point, the industry response and Agency indications are that these meetings are potentially very useful and should be continued. Succeeding

meetings will be held at the EPA facility on the third Wednesday of even numbered months. Periodic participation of BMCS will be expected depending upon the questions submitted by the industry.

Issued in Washington, D.C. on December 22, 1978.

ROBERT E. DOHERTY,  
Assistant Executive Secretary.

[Notice 765]

#### ASSIGNMENT OF HEARINGS

DECEMBER 22, 1978.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as well promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after the date of this publication.

MC 107107 (Sub-463F), Alterman Transport Lines, Inc., now assigned for hearing on January 9, 1979, at Miami, Florida and will be held in Plaza One, Howard Johnson's Motel.

MC 123407 (Sub-454F), Sawyer Transport, Inc., now assigned February 6, 1979, at Phoenix, Az., is postponed indefinitely.  
MC 19553 (Sub-39F), Knox Motor Service, Inc., now assigned January 15, 1979, at Chicago, Ill., is postponed indefinitely.  
MC 139495 (Sub-355F), National Carriers, Inc., now assigned January 24, 1979 at Kansas City, MO, is cancelled and transferred to modified procedure.  
MC 107818 (Sub-90F), Greenstein Trucking Company, now assigned January 10, 1979 at Milwaukee, Wis., is cancelled and transferred to modified procedure.  
MC 134300 (Sub-31F), Triple R. Express, Inc., now being assigned for hearing on March 12, 1979, (2 days), at New York, NY., in a hearing room to be later designated.  
MC P 13050, J.B. Williams Express, Inc.—Purchase (Portion)—National Transportation CO., DBA National Transport 101.  
MC 95336 (Sub-8), J.B. Williams Express, Inc., No., MC-95336 (Sub-No. 9), J.B. Williams Express, Inc., now being assigned for hearing on March 14, 1979, (3 days), at New York, NY., in a hearing room to be later designated.  
MC 144285F, Bay Haven Marina, Inc., now assigned January 10, 1979, at Chicago, Ill., is cancelled and application dismissed.  
MC 113678 (Sub-728F), Curtis, Inc., application dismissed.  
MC 114273 (Sub-402F), CRST, Inc., now being assigned for hearing on January 23, 1979, at the Office of Interstate, Commerce Commission, Washington, DC.

H. G. HOMME, Jr.,  
Secretary.

### EVALUATION OF INTERCORPORATE HAULING REGULATION

#### Public Meeting Schedule

The December 11, 1978 Federal Register Request for Comments on this subject also announced plans to hold public meetings, with locations and dates to be advised.

Schedules for public meetings have been arranged. The purpose of the meetings is to develop further information about the effects of policy alternatives outlined in the FEDERAL REGISTER notice of December 11.

The meeting dates and locations are:

Chicago, Ill., January 8, 1979, 9:00 a.m., Rm. 349, Dirksen Bldg., 230 S. Dearborn St.  
Philadelphia, PA, January 15, 1979, 9:00 a.m., Rm. 5020, Gateway Bldg., 3535 Market Street.  
Ft. Worth, TEX, January 22, 1979, 9:00 a.m., Sheraton-Ft. Worth Hotel, Long Horn Room, Mezzanine, 815 Main St.  
Los Angeles, CAL, January 29, 1979, 9:00 a.m., Los Angeles Civic Center, Dept. of Water and Power Auditorium "A" Level, 111 North Hope Street.  
Atlanta, GA, February 8, 1979, 9:00 a.m., Rm. 556, Federal Bldg., 275 Peachtree St., NE.

It is requested that anyone wishing to participate at either meeting con-

tact one of the following individuals at least one week in advance:

Robert G. Rhodes, (202) 275-7686, Interstate Commerce Commission, Bureau of Economics, Rm. 5355.  
Brinkley Garner, (202) 275-7375, 12th & Constitution Ave., NW, Washington, D.C. 20423.

Each participant is requested to provide at the meeting five copies of his presentation. Additional meetings may be scheduled if the public response warrants them.

ROBERT G. RHODES,  
Assistant Director,  
Bureau of Economics.

#### [7035-01-M]

[Permanent Authority Decisions Volume No. 59]

#### PERMANENT AUTHORITY APPLICATIONS

##### Decision-Notice

Decided: December 14, 1978.

The following applications are governed by Special Rule 247 of the Commission's Rules of Practice (49 CFR §1100.247). These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after the date notice of the application is published in the FEDERAL REGISTER. Failure to file a protest, within 30 days, will be considered as a waiver of opposition to the application. A protest under these rules should comply with Rule 247(e)(3) of the Rules of Practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding, (as specifically noted below), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. A protestant should include a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describe in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or upon applicant if no representative is named. If the protest includes a request for oral hearing, such request shall meet the requirements of section 247(e)(4) of the special rules

and shall include the certification required in that section.

Section 247(f) provides, in part, that an applicant which does not intend timely to prosecute its application shall promptly request that it be dismissed, and that failure to prosecute an application under the procedures of the Commission will result in its dismissal.

Further processing steps will be by Commission notice, decision, or letter which will be served on each party of record. *Broadening amendments will not be accepted after the date of this publication.*

Any authority granted may reflect administratively acceptable restrictive amendments to the service proposed below. Some of the applications may have been modified to conform to the Commission's policy of simplifying grants of operating authority.

We find: With the exceptions of those applications involving duly noted problems (e.g., unresolved common control, unresolved fitness questions, and jurisdictional problems) we find, preliminarily, that each common carrier applicant has demonstrated that its proposed service is required by the public convenience and necessity, and that each contract carrier applicant qualifies as a contract carrier and its proposed contract carrier service will be consistent with the public interest and the national transportation policy. Each applicant is fit, willing, and able properly to perform the service proposed and to conform to the requirements of the Interstate Commerce Act and the Commission's regulations. This decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In those proceedings containing a statement or note that dual operations are or may be involved we find, preliminarily and in the absence of the issue being raised by a protestant, that the proposed dual operations are consistent with the public interest and the national transportation policy subject to the right of the Commission, which is expressly reserved, to impose such conditions as it finds necessary to insure that applicant's operations shall conform to the provisions of section 10930 (formerly section 210) of the Interstate Commerce Act.

It is ordered: In the absence of legally sufficient protests, filed within 30 days of publication of this decision-notice (or, if the application later becomes unopposed), appropriate authority will be issued to each applicant (except those with duly noted problems) upon compliance with certain requirements which will be set forth in a notification of effectiveness of this de-

cision-notice. To the extent that the authority sought below may duplicate an applicant's existing authority, such duplication shall not be construed as conferring more than a single operating right.

Applicants must comply with all specific conditions set forth in the grant or grants of authority within 90 days after the service of the notification of the effectiveness of this decision-notice, or the application of a non-complying applicant shall stand denied.

By the Commission, Review Board Number 2, Members Boyle, Eaton, and Liberman.

H. G. HOMME, Jr.,  
Secretary.

MC 4941 (Sub-41F), filed October 16, 1978. Applicant: QUINN FREIGHT LINES, INC., 1093 N. Montello Street, Brockton, MA 02403. Representative: John F. O'Donnell, P.O. Box 238, Milton, MA 02187. Troupe, 2480 East Commercial Boulevard, Fort Lauderdale, FL 33308. To operate as a common carrier, by motor vehicle, over irregular routes, transporting *meats, meat products and meat by-products, and articles distributed by meat-packing houses*, as described in sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from the facilities of MBPXL Corporation, at or near Dodge City, KS, to points in AL, AZ, AR, CA, CO, FL, ID, IA, LA, MN, MS, MO, MT, NE, NV, NM, ND, OK, OR, SD, TN, TX, UT, WA, and WY, restricted to the transportation of traffic originating at the named origin. (Hearing site: Wichita, KS.)

MC 133689 (Sub-237F), filed November 13, 1978. Applicant: OVERLAND EXPRESS, INC., 719 First Street SW., New Brighton, MN 55112. Representative: Robert P. Sack, P.O. Box 6010, West St. Paul, MN 55118. To operate as a common carrier, by motor vehicle, over irregular routes, transporting *drugs, shampoo, soap, and toilet articles*, in vehicles equipped with mechanical refrigeration, from the facilities of Westwood Pharmaceuticals, Inc., at or near Buffalo, NY, to points in IL, restricted to the transportation of traffic originating at the named origin facilities, and destined to the named destination. (Hearing site: St. Paul, MN.)

MC 133689 (Sub-244F), filed November 17, 1978. Applicant: OVERLAND EXPRESS, INC., 719 First Street SW., New Brighton, MN 55112. Representative: Robert P. Sack, P.O. Box 6010, West St. Paul, MN 55118. To operate as a common carrier, by motor vehicle, over irregular routes, transporting *abrasives*, (except in bulk), from Tonawanda, NY, to points in IL, MI, MN, and WI (Hearing site: St. Paul, MN.)

MC 133796 (Sub-52F), filed October 9, 1978. Applicant: GEORGE APPEL TRUCKING, INC., 249 Carverton Road, Trucksville, PA 18708. Representative: Joseph F. Hoary, 121 South Main Street, Taylor, PA 18517. To operate as a common carrier, by motor vehicle, over irregular routes, transporting (1) *such commodities* as are dealt in by retail grocery stores, and (2) *commodities*, the transportation of which is otherwise exempt from economic regulation under Section 10526(a)(6) (formerly Section 203(b)(6) of the Interstate Commerce Act), in

mixed loads, with the commodities in (1) above, from points in the United States (except AK and HI), to Sunbury, Northumberland, and Milton, PA. (Hearing site: Washington, DC.)

NOTE.—Dual operations are involved in this proceeding.

MC 134645 (Sub-28F), filed November 22, 1978. Applicant: LIVESTOCK SERVICE, INC., 1420 Second Avenue, South, St. Cloud, MN 56301. Representative: Robert P. Sack, P.O. Box 6010, West St. Paul, MN 55118. To operate as a common carrier, by motor vehicle, over irregular routes, transporting *meats, meat products and meat byproducts, and articles distributed by meat-packing houses*, as described in sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from the facilities of Huron Dressed Beef, Inc., at Huron, SD, to points in AZ, CA, and NV, restricted to the transportation of traffic originating at the named origin facilities and destined to the named destinations. (Hearing site: St. Paul, MN.)

NOTE.—Dual operations are involved in this proceeding.

MC 134701 (Sub-5F), filed October 16, 1978. Applicant: J-V, INC., 11923 Pineridge Road, Sandy, UT 84070. Representative: Irene Warr, 430 Judge Building, Salt Lake City, UT 84111. To operate as a contract carrier, by motor vehicle, over irregular routes, transporting *fertilizer*, in bags, from the port of entry on the International Boundary line between the United States and Canada, located at Sweetgrass, MT, to points in Los Angeles, San Francisco, Fresno, Placer, Sacramento, Nevada, King, Tulare, Kern, Orange, Ventura, Riverside, San Bernardino, Imperial, and San Diego Counties, CA, and Maricopa, Pima, Yuma, Pinal, Santa Cruz, and Yavapai Counties, AZ, under continuing contract(s) with Sherritt Gordon Mines, Ltd., of Ft. Saskatchewan, Alberta, Canada, restricted to the transportation of traffic originating at points in the Province of Alberta, Canada. CONDITION: Prior receipt from applicant of an affidavit setting forth its appropriate complementary Canadian authority or explaining why no such Canadian authority is necessary. (Hearing site: Washington, DC, or Salt Lake City, UT.)

NOTE.—The restriction and condition contained in the grant of authority in this proceeding are phrased in accordance with the policy statement entitled Notice to Interested Parties of New Requirements Concerning Applications for Operating Authority to Handle Traffic to and from points in Canada published in the FEDERAL REGISTER on December 8, 1974 and supplemented on

November 18, 1975. The Commission is presently considering whether the policy statement should be modified, and is in communication with appropriate Canadian officials regarding this issue. If the policy statement is changed, appropriate notice will appear in the FEDERAL REGISTER and the Commission will consider all restrictions or conditions which were imposed pursuant to the prior policy statement, regardless of when the condition or restriction was imposed, as being null and void and having no further force or effect.

MC 134945 (Sub-2F), filed November 8, 1978. Applicant: WESTERN TRANSFER & STORAGE, INC., 902 Avenue N, Grand Prairie, TX 75050. Representative: John G. Hardeman, 618 United American Bank Building, Nashville, TN 37219. To operate as a contract carrier, by motor vehicle, over irregular routes, transporting (1) *uncrated copy machines, word processing machines, and (2) materials and supplies* used in the manufacture, installation, and sale of the commodities in (1) above, between Nashville, TN, on the one hand, and, on the other points in GA and KY, under continuing contract(s) with Xerox Corporation, of Atlanta GA. (Hearing site: Nashville, TN.)

MC 135218 (Sub-3F), filed November 9, 1978. Applicant: MONTI MOVING & STORAGE, INC., 925 Bergen Street, Brooklyn, NY 11238. Representative: Robert J. Gallagher, 1000 Connecticut Avenue, NW., Suite 1200, Washington, DC 20036. To operate as a common carrier, by motor vehicle, over irregular routes, transporting *used household goods*, between points in FL (except those in Jefferson, Leon, Wakulla, Gadsden, Liberty, Franklin, Jackson, Calhoun, Gulf, Holmes, Washington, Bay, Walton, Okaloosa, Santa Rosa, and Escambia Counties), restricted to the transportation of traffic having a prior or subsequent movement beyond the points authorized, and further restricted to the performance of a pickup and delivery service in connection with packing, crating, and containerization, or unpacking, uncrating, or decontainerization of such traffic. (Hearing site: New York, NY.)

MC 135812 (Sub-1F), filed September 6, 1978, previously published in the FEDERAL REGISTER issue of October 19, 1978 as MC 145349F. Applicant: PROFESSIONAL DRIVER SERVICES, INC., 1631 Lebanon Road, Nashville, TN 37210. Representative: John M. Nader, Sixteenth Floor, Citizens Plaza, Louisville, KY 40202. To operate as a common carrier, by motor vehicle, over irregular routes, transporting *new trucks and new truck chassis*, (1) in initial movements, in driveway service, (a) from Buffalo, NY, Hayward, CA, and Allentown, PA, to points in AL, FL, GA, IN, KY, LA, ME,

MA, MO, NH, NY, NC, OH, PA, SC, TN, TX, and VA, (b) from Chino, CA, Seattle, WA, Indianapolis, IN, and Portland, OR, to Nashville and Knoxville, TN, and (2) in driveway service, from Nashville and Knoxville, TN, to those points in the United States in and east of WI, IL, MO, AR, and LA. CONDITION: The prior or coincidental cancellation, at carrier's written request, of its authority under MC-140245. (Hearing site: Nashville, TN.)

NOTE.—This republication shows the correct docket number assigned to this proceeding as MC-135812 Sub 1F, the additional destinations of ME, MA, NH, NY, and PA in part (1)(a) above, and a change in the representative's address.

MC 136315 (Sub-44F), filed November 15, 1978. Applicant: OLEN BURRAGE TRUCKING, INC., Route 9, Box 22-A, Philadelphia, MS 39350. Representative: Fred W. Johnson, Jr., 1500 Deposit Guaranty Plaza, P.O. Box 22628, Jackson, MS 39205. To operate as a common carrier, by motor vehicle, over irregular routes, transporting (1) *Roofing and roofing materials, and (2) materials, equipment, and supplies* used in the manufacture and distribution of the commodities in (1) above, (except commodities in bulk), (a) between the facilities of Masonite Corporation, Roofing Division, at or near Meridian, MS, and points in AL, AR, FL, GA, IL, IN, IA, KS, KY, LA, MO, OK, TN, and TX, and (b) between the facilities of Masonite Corporation, Roofing Division, at or near Little Rock, AR, and points in AL, FL, GA, KY, LA, MS, NC, SC, TN, TX, and VA, restricted in both (1) and (2) above to the transportation of traffic originating at or destined to the above named facilities. (Hearing site: Jackson, MS.)

NOTE.—Dual operations are involved in this proceeding.

MC 136511 (Sub-28F), filed October 18, 1978. Applicant: VIRGINIA APPALACHIAN LUMBER CORP., 9640 Timberlake Road, Lynchburg, VA 24502. Representative: E. Stephen Heisley, 805 McLachlen Bank Building, 666 Eleventh Street, NW., Washington, DC 20001. To operate as a common carrier, by motor vehicle, over irregular routes, transporting *new furniture, furniture parts, and clocks*, from points in VA and NC, to points in TX, OK, and LA. CONDITION: Taking official notice of the decision in MC 136511 Sub 7, served July 13, 1978, applicant must submit written evidence in the form of a verified statement demonstrating that it is fit, willing, and able to perform the service granted in this proceeding (Hearing site: Greensboro or Charlotte, NC.)

MC 138076 (Sub-8F), filed October 11, 1978. Applicant: HEAVY HAULING, INC., 1100 West Grand, Salina,

KS 67401. Representative: Clyde N. Christey, Kansas Credit Union Building, 1010 Tyler, Suite 110L, Topeka, KS 66612. (Hearing site: San Francisco, CA.)

NOTE.—Dual operations are involved in this proceeding.

MC 143471 (Sub-7F), filed October 16, 1978. Applicant: SHERIDAN HEIGHTS, INC. d.b.a. DAKOTA PACIFIC TRANSPORT, 301 Mt. Rushmore Road, Rapid City, SD 57701. Representative: J. Maurice Andren, 1734 Sheridan Lake Road, Rapid City, SD 57701. To operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting *acrylic bathroom fixtures*, from Rapid City, SD, to points in AR, CA, CO, ID, IA, IL, KS, MN, MO, MT, NE, NV, ND, OK, OR, SD, UT, WA, WI, and WY, under continuing contract(s) with Royal Acrylic Manufacturing Co., Inc., of Rapid City, SD. (Hearing site: Rapid City or Pierre, SD.)

MC 143621 (Sub-4F), filed October 17, 1978. Applicant: TENNESSEE STEEL HAULERS, INC., 403 Maplewood Avenue, Nashville, TN 37210. Representative: Roland M. Lowell, 618 United American Bank Building, Nashville, TN 37219. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting *lumber, lumber products, and wood products*, (1) from Nashville, TN, to points in AL, KY, MS, NC, VA, and WV, and (2) between points in TN and GA. (Hearing site: Nashville, TN.)

MC 144330 (Sub-4F), filed October 3, 1978. Applicant: UTAH CARRIERS, INC., P.O. Box 1218 Freepoint Center, Clearfield, UT 84016. Representative: Rick J. Hall, P.O. Box 2465, Salt Lake City, UT 84110. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting *cereal binders, ceiling compounds, industrial flour, industrial starches, and grain products*, from McPherson, KS, to points in UT, NV, WA, OR, CA, AZ, ID, MT, WY, CO, and NM. (Hearing site: Salt Lake City, UT, or Kansas City, KS.)

MC 144781 (Sub-2F), filed October 16, 1978. Applicant: GIDEON FARMER, d.b.a. FARMER TRUCKING CO., Monsanto Road, Columbia, TN 38401. Representative: Edward C. Blank II, Middle Tennessee Bank Building, P.O. Box 1004, Columbia, TN 38401. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting *phosphate bearing materials*, in dump vehicles, from the facilities of Monsants Company in Limestone County, AL, to Prospect, TN, restricted to the transportation of traffic having a subsequent movement by rail. (Hearing site: Columbia or Pulaski, TN.)

MC 144827 (Sub-8F), filed October 10, 1978. Applicant: DELTA MOTOR FREIGHT, INC., 2877 Farrisview, P.O. Box 18423, Memphis, TN 38118. Representative: Billy R. Hallum (same address as applicant). To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting cel-

lulose film, plastic film, and paper film, (except commodities in bulk), from Grand Prairie, TX, to points in AZ, CA, NM, OR, and WA. (Hearing site: Dallas, TX.)

MC 144838 (Sub-1F), filed November 14, 1978. Applicant: ARDIS L. KEMP and BRENDA VASQUEZ, d.b.a. ABCO TRUCKING, a partnership, 1818 West Adams, West Covina, CA 91791. Representative: William J. Monheim, P.O. Box 1756, Whittier, CA 90609. To operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting (1) *plastic film and plastic sheeting*, from City of Industry, CA, to points in AZ, CO, ID, MT, NV, NM, OR, TX, UT, WA, and WY; and (2) *materials, equipment, and supplies* used in the manufacture and distribution of plastic film and plastic sheeting (except commodities in bulk), from Gloucester, MA, and points in LA and TX, to City of Industry, CA, all of the service in (1) and (2) above to be performed under continuing contract(s) with B & K Industry Plastics, of City of Industry, CA. (Hearing site: Los Angeles, CA.)

MC 144912 (Sub-1F), filed October 16, 1978. Applicant: LEON R. GOLD-SMITH, d.b.a. TERMINAL MOTOR EXPRESS, 1711 East 15th Street, Los Angeles, CA 90021. Representative: William J. Monheim, P.O. Box 1756, Whittier, CA 90609. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting (1) *foodstuffs*, in mixed loads with commodities the transportation of which is otherwise exempt from economic regulation under 49 U.S.C. 10526(a)(6) (formerly Section 203(b)(6) of the Interstate Commerce Act), and (2) *commodities* the transportation of which is otherwise exempt from economic regulation under the statutory provisions in (1) above, in mixed loads with foodstuffs, from Parsippany, NJ, New York, NY, and points in VA, NC, and GA, to points in CA and UT. (Hearing site: Los Angeles, CA.)

MC 144969 (Sub-3F), filed November 14, 1978. Applicant: WHEATON CARTAGE CO., a corporation, Millville, NJ 08332. Representative: E. Stephen Heisley, 805 McLachlen Bank Building, 666 Eleventh Street NW., Washington, DC 20001. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting (1) *chemicals* used in the processing of cement and concrete, (except commodities in bulk), and (2) *materials, equipment and supplies* used in the manufacture, distribution and application of the commodities in (1) above, (except commodities in bulk), from the facilities of Nox-Crete Chemicals, Inc., at or near Baton Rouge, LA, to points in AL, AR, FL, GA, MS, OK, SC, TN, and TX, restricted to the transportation of

traffic originating at the named origin facilities. (Hearing site: Omaha, NE.)

NOTE.—Dual operations are involved in this proceeding.

MC 145054 (Sub-7F), filed October 16, 1978. Applicant: COORS TRANSPORTATION CO., a corporation, 5101 York Street, Denver, CO 80216. Representative: Leslie R. Kehl, 1600 Lincoln Center Building, 1660 Lincoln Street, Denver, CO 80216. To operate as a *common carrier*, by motor vehicle, over irregular routes transporting *Cheese, cheese products, and synthetic cheeses*, from Logan, UT, to points in CO. (Hearing site: Denver, CO.)

NOTE.—Dual operations are involved in this proceeding.

MC 145149 (Sub-5F), filed October 6, 1978. Applicant: Matador Service, Inc., P.O. Box 2256, Wichita, KS 67201. Representative: Clyde N. Christey, Kansas Credit Union Building, Suite 110L, 1010 Tyler, Topeka, KS 66612. To operate as a *common carrier*, by motor vehicle, over irregular routes transporting *anhydrous ammonia*, in bulk, from the facilities of Chevron Chemical Company, near Friend, KS, to points in CO, NE, OK, TX, and WY. (Hearing site: Kansas City, MO.)

MC 145243 (Sub-1F), filed October 30, 1978. Applicant: REDBIRD DEVELOPMENT, INC., 1018 Whitlock Road, Rochester, NY 14609. Representative: S. Michael Richards, P.O. Box 225, Webster, NY 14580. To operate as a *contract carrier*, by motor vehicle, over irregular routes transporting *Scrap metal*, between points in CT, IL, IN, MA, ME, MI, NH, NJ, NY, OH, PA, and VT, on the one hand, and, on the other, ports of entry on the international boundary line between the United States and Canada at points in VT, NE, ME, and NY, under continuing contract(s) with Intermetco Limited, of Hamilton, Ontario, restricted to the transportation of traffic destined to Lapraire, Quebec, Canada. (Hearing site: Buffalo or Syracuse, NY.)

NOTE.—The restriction contained in the grant of authority in this proceeding are phrased in accordance with the policy statement entitled Notice to Interested Parties of New Requirements Concerning Applications for Operating Authority to Handle Traffic to and from points in Canada published in the Federal Register on December 5, 1974, and supplemented on November 18, 1975. The Commission is presently considering whether the policy statement should be modified, and is in communication with appropriate officials of the provinces of Alberta, Saskatchewan, and Manitoba regarding this issue. If the policy statement is changed appropriate notice will appear in the Federal Register and the Commission will consider all restrictions or conditions which were imposed pursuant to the prior statement, regardless of when the condition or restriction was imposed, as being null and void and having no force or effect.

MC 145492F, filed October 13, 1978. Applicant: RICCONI CORP., 130 Cedar Grove Road, Somerville, NJ 08876. Representative: Martin M. Geffon, 155 Canterbury Road, Mt. Laurel, NJ 08054. To operate as a *contract carrier*, by motor vehicle, over irregular routes transporting (1) *plastic articles* (except foam, cellular, and expanded), and (2) *materials, supplies, and equipment* used in the manufacture of the commodities in (1) above, from Nashua, NH and Sloatsburg, NY, to points in MA, NY, PA, NJ, DE, CT, NH, MD, and DC, and from points in MA, NY, PA, NJ, DE, CT, NH, MD, and DC, to Nashua, NH and Sloatsburg, NY, all of the service in (1) and (2) above to be performed under continuing contracts with Brockway Glass Company, Inc., of Brockway, PA. (Hearing site: New York, NY.)

MC 145588 (Sub-2F), filed November 13, 1978. Applicant: GULF-MIDWEST-ERN, INC., a Texas corporation, 12151 West 44th Avenue, Denver, CO 80033. Representative: William W. Selman, 18500 John F. Kennedy Boulevard, Houston, TX 77205. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting *foodstuffs and canned goods* from the facilities of Skyland Food Corporation, at or near Delta, CO, to points in AZ, CA, IL, IA, KS, NE, OK, NM, MO, TX, and UT. (Hearing site: Denver, CO, or Omaha, NE.)

MC 145588 (Sub-4F), filed November 16, 1978. Applicant: GULF MIDWESTERN, INC., a Texas corporation, 12151 West 44th Avenue, Denver, CO 80033. Representative: Marshall D. Becker, Suite 610, 7171 Mercy Road, Omaha, NE 68106. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting *clay products, glassware, chinaware, pottery, stoneware, plastic products, and metal products*, from Houston, TX, and Humboldt, KS, to points in the United States (except AK and HI). (Hearing site: Denver, CO.)

MC 145625 (Sub-1F), filed November 13, 1978. Applicant: DUTCHLAND TRUCKING, INC., 1051 Center Avenue, Oostburg, WI 53070. Representative: Nancy J. Johnson, 4506 Regent Street, Suite 100, Madison, WI 53705. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting (1) *cheese and cheese products*, from points in Fond du Lac and Sheboygan Counties, WI, to points in NE, KS, OK, TX, and MO, and (2)(a) *cheese and cheese products*, and (b) *butter*, in mixed loads with cheese and cheese products, from points in Oconto County, WI, to points in NE, KS, OK, TX, and MO. (Hearing site: Milwaukee, WI, or Madison, WI.)

MC 145633F, Filed October 27, 1978. Applicant: WALTER B. MAKI, d.b.a.

MAKI INTERNATIONAL & CO., Building No. 62, Office Suite 6, Port Everglades Station, Ft. Lauderdale, FL 33316. Representative: Gerard J. Donovan, 4791 S.W. 82nd Avenue, Davie, FL 33328. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting *general commodities* (except articles of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between points in Dade, Broward, and Palm Beach Counties, FL, restricted to the transportation of traffic having a prior or subsequent movement by water or air. (Hearing site: Washington, DC, or Miami, FL.)

MC 145675 (Sub-2F), filed November 22, 1978. Applicant: L. C. WASHBURN AND GARY WASHBURN, a partnership d.b.a. WASHBURN TRUCKING CO., Route 3, Box 209, Boaz, AL 35957. Representative: Gerald D. Colvin, Jr., 603 Frank Nelson Building, Birmingham, AL 35203. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting *lumber*, from the facilities of East Highlands Company, Forest Products Division, at or near Albertville, AL, to points in GA, KY, TN, IN, OH, and IL. (Hearing site: Birmingham, AL, or Atlanta, GA.)

MC 145705F, filed November 13, 1978. Applicant: ARTHUR MAUST, 1026 Bay Port Road, Bay Port, MI 48720. Representative: James R. Davis, 1018 Michigan National Tower, Lansing, MI 48933. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting (1) *oyster shells*, from Baltimore, MD, and Mobile, AL, to points in MI, and (2) *calcium carbonate*, from Green Castle, IN, to points in MI. (Hearing site: Lansing or Detroit, MI.)

MC 145715 (Sub-1F), filed November 14, 1978. Applicant: BELL TRUCKING, INC., 2504 Industrial Park Road, Van Buren, AR 72956. Representative: Bernard J. Kompare, Suite 1600, 10 South LaSalle Street, Chicago, IL 60603. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting *meats, meat products and meat byproducts, and articles distributed by meat-packing houses*, as described in sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from the facilities used by John Morrell & Co., at Fort Smith, AR, to points in FL, GA, IL, IN, KY, MI, MN, MS, MO, NJ, NY, OH, PA, TN, and WI, restricted to the transportation of traffic originating at the named origin and destined to the named destinations. (Hearing site: Chicago, IL.)

MC 145749F, filed November 13, 1978. Applicant: HALL'S INC., Low Moor, IA 52757. Representative: Carl E. Munson, 469 Fisher Building, DuBuque, IA 52001. To operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting *iron and steel articles*, between the facilities of Central Steel Tube Co., at or near Clinton, IA, on the one hand, and, on the other, points in IL, IN, KY, MI, MO, and OH, under continuing contract(s) with Central Steel Tube Co., of Clinton, IA. (Hearing site: Chicago, IL, or Des Moines, IA.)

NOTE.—Dual operations are involved in this proceeding.

MC 145765F, filed November 20, 1978. Applicant: WIEST TRUCK-LINE, INC., 1305 Sixth Avenue S.W., Jamestown, ND 58401. Representative: James B. Hovland, P.O. Box 1680, 414 Gate City Building, Fargo, ND 58102. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting (1) *prefabricated metal buildings*, and (2) *parts and accessories* for the commodities in (1) above, from Jamestown, ND, to points in WY, NE, CO, UT, NM, AZ, ID, and NV. (Hearing site: Fargo, ND, or Denver, CO.)

NOTE.—Dual operations are involved in this proceeding.

MC 145778F, filed November 8, 1978. Applicant: ROGER WHITMORE, d.b.a. WHITMORE'S 66 SERVICE, Route 173 and Lewis Avenue, Zion, IL 60099. Representative: John R. Goshgarian, 218 North County Street, Waukegan, IL 60085. To operate as a *common carrier*, by motor vehicle, over irregular routes, transporting *wrecked and disabled automobiles*, from points in Kenosha County, WI, to points in Lake County, IL. (Hearing site: Chicago, IL, or Milwaukee, WI.)

MC 130339 (Sub-1F), filed November 13, 1978. Applicant: TRIPS UNLIMITED, INC., 2512 S. 98th Avenue, Omaha, NE 68124. Representative: Donald L. Stern, Suite 610, 7171 Mercy Road, Omaha, NE 68106. To engage in operations, in interstate or foreign commerce, as a *broker*, at Omaha, NE, in arranging for the transportation, by motor vehicle, of *passengers and their baggage*, in round-trip special and charter operations, beginning and ending at points in IA, KS, MN, MO, NE, OK, and SD, and extending to points in AZ, CO, NM, TX, UT, and WY. Condition: Prior or coincidental cancellation, at applicant's written request, of its authority in MC-130399, issued August 19, 1978. (Hearing site: Omaha, NE.)

## REVISED POLICY CONCERNING APPLICATIONS FOR OPERATING AUTHORITY TO HANDLE TRAFFIC TO AND FROM POINTS IN CANADA

AGENCY: Interstate Commerce Commission.

ACTION: Policy statement published in the FEDERAL REGISTER issue of December 5, 1974 (39 FR 42440) and supplemented in the issue of November 18, 1975 (40 FR 53480) revised.

SUMMARY: (1) With respect to applications relating to traffic moving to or from points in Canada, the Commission will no longer restrict grants of authority to specific Canadian destinations or origins, or designate specific port of entry points which must be used.

(2) Carriers protesting applications for traffic moving to or from Canadian points are not required to show that they possess the necessary Canadian authority but are expected to comply with the requirements in Ex Parte No. 55 (Sub-No. 26), *Protest Standards in Motor Carrier Application Proceedings*, decided October 10, 1978.

<sup>1</sup>Members Joel E. Burns, Robert S. Turkington and John R. Michael.

(3) Applicants no longer need submit copies of Canadian authority and the Commission will not require a showing of complementary Canadian authority prior to the issuance of a certificate.

In order to minimize the difficulties in crossing borders to meet international transportation needs and improve the commerce of the United States and Canada, the Interstate Commerce Commission has acted to introduce needed flexibility to motor carrier licensing proceedings.

EFFECTIVE DATE: December 28, 1978.

FOR FURTHER INFORMATION CONTACT:

Michael Erenberg, (202) 275-7292.

## SUPPLEMENTARY INFORMATION:

With respect to applications relating to traffic moving to or from points in Canada, the Commission will no longer restrict grants of authority to specific Canadian destinations or origins, or designate specific port of entry points which must be used. We no longer find it necessary to impose such restrictions. We feel the elimination of those restrictions will stimulate expanded competition among carriers and facilitate the free flow of international commerce. New certificates deleting the restrictions imposed pursuant to the prior policy (those issued pursuant to applications filed subsequent to March 3, 1975) will not be issued. Instead, those restrictions will be considered null and void and will be given no force or effect.

Carriers holding authorities issued prior to the effective date of the earlier policy statement are reminded that similar restrictions contained in their authorities are still valid and enforceable.

Inasmuch as the Commission's decision in Ex Parte No. 55 (Sub-No. 26), *Protest Standards in Motor Carrier Application Proceedings*, decided October 16, 1978, places additional requirements on protestants to all proceedings, part (2) of the prior policy statement is rendered moot. No supplementary requirements will be imposed on protestants to applications seeking to transport traffic to or from points in Canada. However, carriers are reminded that the requirements of *Protest Standards* do apply to traffic moving to or from points in Canada.

Finally, the requirement that carriers submit copies of complementary Canadian authority before a certificate of permit will be issued by this Commission has been eliminated. In all future proceedings, once a need has been demonstrated for the proposed service appropriate authority will be granted. Commission decisions are based upon evidence of need submitted in support of the application. The issue of whether the applicant holds

complementary Canadian authority is not determinative of the issues before this Commission. Furthermore, the withholding of a certificate or permit for a showing of complementary Canadian authority causes unnecessary delay. Future decisions will not be conditioned on a showing of complementary Canadian authority.

All carriers now holding grants of authority conditioned solely on a showing of complementary Canadian authority should inform the Commission in writing<sup>1</sup> and request immediate issuance of their certificates or permits. Correspondence must contain reference to this policy statement and indicate that compliance has been made with all standard Commission requirements.

This notice is promulgated under the authority contained in 49 U.S.C. § 11101 (formerly section 204 of the Interstate Commerce Act) and 5 U.S.C. § 553. It supersedes the prior policy statement published in the FEDERAL REGISTER on December 5, 1974, (39 FR 42440) and supplemented November 18, 1975 (40 FR 53480).

Dated December 14, 1978.

By the Commission, Chairman O'Neal, Vice Chairman Christian, Commissioners Brown, Gresham, and Clapp. Commissioner Stafford dissenting.

H. G. HOMME, Jr.,  
Secretary.

Commissioner Stafford, dissenting:  
I would reject the proposed revision.

I am concerned that the manner in which we are changing the outstanding policy statement may be legally indefensible. My reservations are two-fold. To begin with, we have consulted only members of this Commission and a few officials of the Canadian government. Although the present record indicates little opposition to eliminating the foreign origin and destination restrictions, we are changing our policy without getting views from shippers, carriers, and the general public. I think this is wrong, and that some form of public input is worthwhile before our minds are made up. This is especially true in view of the recent court decision in *National Tour Brokers Association v. United States*, No. 77-1501 (D.D.C., December 11, 1978).

Furthermore, the restriction removed by this policy statement was imposed because of an express or implicit finding in each case that the public convenience and necessity did not warrant a broader grant of authority. The limitation regarding foreign origins or destinations was not imposed arbitrarily. Rather, it is similar to an identifying origin or destination point in interstate operations. Since we do not have jurisdiction to authorize operation in a foreign country, these restrictions were devised to place traffic moving to or from Canada on a par with traffic moving in interstate commerce.

<sup>1</sup>Letters should be addressed to: Interstate Commerce Commission, Office of Proceedings, attention: Canadian Authority, Washington, D.C. 20423.

Elimination of these restrictions from outstanding certificates broadens the scope of authority, and cannot legally be effected without appropriate findings. At a minimum, general licensing would appear to be required. If rulemaking establishes public support for this proposal, I also would support it.

In addition, I see no reason for treating pre-1974 restrictions different from post-1974 restrictions. The 1974 Policy Statement merely formalized a Commission procedure that had been in effect for many years.

Regarding protests in these cases, I am not convinced that existing carriers actively participating in a joint line operation would be allowed to protest as a matter of right. If this were stated in the affirmative in the policy statement, I would have no objection to the second recommended change.

While the Catch-22 situation (regarding complementary authority) probably does exist, there are ways of eliminating the problem without eliminating the requirement. The Canadians seem to favor the requirement, and there is no good reason for abandoning it.

## MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

[Notice No. 235]

## IMPORTANT NOTICE

DECEMBER 18, 1978.

The following are notices of filing of applications for temporary authority under Section 210a(a) of the Interstate Commerce Act provided for under the provisions of 49 CFR 1131.3. These rules provide that an original and six (6) copies of protests to an application may be filed with the field official named in the FEDERAL REGISTER publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the FEDERAL REGISTER. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service has been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in the ICC Field Office to which protests are to be transmitted.

Note: All applications seek authority to operate as a common carrier over irregular routes except as otherwise noted.

#### MOTOR CARRIERS OF PROPERTY

MC 2368 (Sub-86 TA), filed November 14, 1978. Applicant: BRALLEY-WILLET TANK LINES, INC., P.O. BOX 495, Richmond, Va 23204. Representative: William T. Marshburn (same address as applicant). *Animal and vegetable oils and greases and products and by-products of animal and vegetable oils and greases*, in bulk, in tank vehicles between Linville, Va. on the one hand, and, on the other, Canton, Ga. and points in Ohio, for 180 days. An underlying ETA seeks 90 days authority. Supporting shippers: Jacob Stern & Sons Inc., 910 Benjamin Fox Pavilion, Jenkintown, PA 19046. Send protests to: Paul D. Collins, ICC, Rm. 10, 502 Federal Bldg., 8th & Marshall Street, Richmond, Va 23219.

MC 31389 (Sub-264 TA), filed November 16, 1978. Applicant: McLEAN TRUCKING CO., 6717 Waughtown Street, Winston-Salem, NC 27107. Representative: David F. Eshelman, P.O. Box 213, Winston-Salem, NC 27102. Authority sought to operate as a common carrier, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the facilities of Consolidated Thermoplastics Company, at or near Harrington and Camden-Wyoming, DE, as off-route points in conjunction with applicant's presently authorized regular-route operations, for 180 days. An underlying ETA seeks 90 days authority. Supporting shipper(s): Consolidated Thermoplastics Company, P.O. Box 27, Harrington, DE 19952. Send protest to: Terrell Price, ICC, 800 Briar Creek Rd. Rm. CC516, Mart Office Bldg., Charlotte, NC 28205.

MC 40978 (Sub-49TA), filed November 14, 1978. Applicant: CHAIR CITY MOTOR EXPRESS CO., 3321 Business 141 South, Sheboygan, WI 53081. Representative: William C. Dineer, 710 North Plankinton Avenue, Milwaukee,

WI 53203. *Power lawn mowers and parts of power lawn mowers*, from Manawa, WI to points in MN, IA, MO, OK, AR, IL, KY, TN, MI, OH, PA, NY, WV, VA, NC, SC, GA, MD, DE, NJ, CT, MA, RI, and DC, for 180 days. SUPPORTING SHIPPER(S): Outboard Marine Corporation, 100 Sea Horse Drive, Waukegan, IL 60085. SEND PROTESTS TO: Gail Daugherty, ICC, U.S. Federal Bldg. & Courthouse, 517 East Wisconsin Ave., Rm. 619, Milwaukee, WI 53202.

MC 42828 (Sub-13TA), filed November 13, 1978. Applicant: THEODORE ROSSI TRUCKING CO., INC., 9 South Vine Street, Barre, VT 05641. Representative: William L. Rossi, (same as above). *Stone*, from Barre, VT and points within 15 miles of Barre, VT to points in OH, for 180 days. SUPPORTING SHIPPER(S): Cook, Watkins & Patch, Inc., Barre, VT 05641. Rouleau Granite Co., Inc., Metro Center, Barre, VT 05641. Ce-trangolo Finishing Works, 11 Main Street, Northfield, VT 05663. SEND PROTESTS TO: ICC, P.O. Box 548, 87 State Street, Montpelier, VT 05602.

MC 51146 (Sub-658TA), filed November 13, 1978. Applicant: SCHNEIDER TRANSPORT, INC., P.O. Box 2298, Green Bay, WI 54306. Representative: John R. Patterson, 2480 East Commercial Boulevard, Fort Lauderdale, FL 33308. *Pillows* from the facilities of the Chemical Specialties Division, Hoover Universal, Inc. at or near Farwell, MI to Chicago, IL; Rocky Mount, NC; and Jersey City, NJ, for 180 days. Applicant has also filed an underlying ETA seeking up to 90 days operating authority. ### [6320-01-M]

#### CIVIL AERONAUTICS BOARD.

Notice of addition of item to the December 21, 1978, meeting agenda.

TIME AND DATE: 10 a.m., December 21, 1978.

PLACE: Room 1027, 1825 Connecticut Avenue NW., Washington, D.C. 20428.

SUBJECT: Docket 34240; Application of Kris Kringle for authorization to provide service in celebration of the annual Festival of Children. (Memo 8388, BPDA.)

STATUS: Open.

#### PERSON TO CONTACT:

Phyllis T. Kaylor, the Secretary, 202-673-5068.

SUPPLEMENTARY INFORMATION: The Board notes that certain holidays affecting the well-being of the world's children will occur prior to the next scheduled Board Meeting. Approval is needed before the applicant can perform the anticipated operation. Accordingly, the following Members have voted that agency business requires the addition of this item to the December 21, 1978 agenda and that no earlier announcement of this addition was possible: Chairman Marvin S. Cohen, Member Elizabeth E. Bailey, and Member Gloria Schaffer.

(S-2601-78 Filed 12-26-78; 10:31 am)

### [6320-01-M]

#### CIVIL AERONAUTICS BOARD.

Notice of deletions of items and change of time to the December 21, 1978, meeting agenda.

TIME AND DATE: 10 a.m., December 21, 1978.

PLACE: Room 1027, 1825 Connecticut Avenue NW., Washington, D.C. 20428.

SUBJECT: 16. (1) Docket 33223, Federal Express petition for an order to show cause on its certificate application for Midway-Cleveland/Detroit/Kansas City/Minneapolis/Pittsburgh/St. Louis nonstop authority. (2) Docket 33462, Wright's petition for an order to show cause on its certificate amendment application for Midway-Cleveland/Detroit nonstop authority. (3) Docket 33548, Frontier's application for Midway-Cleveland/Detroit/Kansas City/Minneapolis/Pittsburgh/St. Louis nonstop authority and its motion to consolidate with Federal Express' application. (4) American's answer requesting some of the same authority. (Memo 8373, 8373-A, BPDA, OGC, BALJ.)

29. Part 252 of the Board's Economic Regulations—(1) Final rule on seating segregation (2) Proposed rules on further amendments. (Memo 7323-E, 7323-F, OGC)

STATUS: Open.

#### PERSON TO CONTACT:

Phyllis T. Kaylor, the Secretary, 202-673-5068.

SUPPLEMENTARY INFORMATION: Item 16 was deleted from the December 21, 1978 agenda due to further staff coordination. Member O'Melia was not present at the December 21, 1978 meeting and would like Item 29 to be discussed when he is present. Accordingly, the following Members have voted that agency business requires the deletions of Items 16 and 29 from the December 21, 1978 agenda and no earlier announcement of this change was possible. Chairman Marvin S. Cohen, Member Elizabeth E. Bailey, and Member Gloria Schaffer.

(S-2602-78 Filed 12-26-78; 10:31 am)

### [6714-01-M]

#### FEDERAL DEPOSIT INSURANCE CORPORATION.

Notice of Changes in Subject Matter of Agency Meeting

Pursuant to the provisions of subsection (e)(2) of the "Government in the

Sunshine Act" (5 U.S.C. 552b(e)(2)), notice is hereby given that at its open meeting held at 2:00 p.m. on November 30, 1978, the Corporation's Board of Directors determined, on motion of Acting Chairman John G. Heimann, seconded by Director William M. Isaac, that Corporation business required the addition of the following matters to the agenda for the meeting, on less than seven days' notice to the public:

Memorandum and resolution proposing the publication for comment of amendments to Part 345 of the Corporation's rules and regulations, entitled "Community Reinvestment," to implement an amendment to the community Reinvestment Act of 1977 which relates to financial institutions whose business predominantly consists of serving the needs of military personnel who are not located within a defined geographic area.

Resolution proposing the adoption of a Liquidation Graded Pay System for the Corporation.

The Board further voted, by the same majority vote, to withdraw from consideration a memorandum and resolution proposing the adoption of a statement of policy, and the publication for comment of proposed amendments to Part 337 of the Corporation's rules and regulations, regarding income derived from the sale by bank insiders of credit life, health or accident insurance to loan customers of insured State nonmember banks.

The Board of Directors further determined, by the same majority vote, that no earlier notice of these changes in the subject matter of the meeting was practicable.

Dated: November 30, 1978.

FEDERAL DEPOSIT INSURANCE CORPORATION,  
HOYLE L. ROBINSON,  
Assistance Executive Secretary.  
(S-2605-78 Filed 12-26-78; 2:32 pm)

### [7590-01-M]

#### NUCLEAR REGULATORY COMMISSION.

TIME AND DATE: December 21, 1978 (changes).

PLACE: Commissioners Conference Room, 1717 H Street NW., Washington, D.C.

STATUS: Open/closed.

## MATTERS TO BE CONSIDERED:

THURSDAY, DECEMBER 21

12 a.m. (approximately)—1. Affirmation session (approximately 10 minutes) (public meeting).

- a. Order in UCS petition for reconsideration postponed.  
b. 145b. Waiver for Employment.

2:30 p.m.—2. Discussion of nuclear export—related matter (approximately 1 hour, closed—exemption 1).

NOTE.—The Commission voted unanimously on December 21 to hold the above on less than 7 days notice to the public. Prompt scheduling was required in order to assure that response deadlines would be met in a timely fashion.

## CONTACT PERSON FOR MORE INFORMATION:

Walter Magee (202) 634-1410.

## POSTAL SERVICE—BOARD OF GOVERNORS.

## MEETING

The Board of Governors of the United States Postal Service, pursuant to its Bylaws (39 CFR 7.5) and the Government in the Sunshine Act (5 U.S.C. 552b), hereby gives notice that it intends to hold a meeting at 9:00 A.M. on Tuesday, January 9, 1979, in the Benjamin Franklin Room, 11th Floor, Postal Service Headquarters, 475 L'Enfant Plaza, S.W., Washington, D.C. 20260. The meeting is open to the public. The Board expects to discuss the matters stated in the Agenda which is set forth below. Requests for information about the meeting should be addressed to the Secretary of the Board, Louis A. Cox, at (202) 245-4632.

## AGENDA

1. Minutes of the Previous Meeting.
2. Remarks of the Postmaster General.

(In keeping with its consistent practice, the Board's agenda provides this opportunity for the Postmaster General to inform the members of miscellaneous current developments concerning the Postal Service. He might report, for example, the occurrence of a recent Congressional hearing, the appointment or assignment of a key official, or the effect on postal operations of unusual weather or a major strike in the transportation industry. Nothing that requires a decision by the Board is brought up under this item.)

## 3. Performance Report on Christmas Mail.

(Mr. Conway, Deputy Postmaster General, will report on the service performance of the USPS during the Christmas mailing period.)

## 4. Annual Report on Open Meetings Compliance.

(Mr. Cox, General Counsel, will present for the approval of the Board, the annual report to Congress that is required by the Government in the Sunshine Act regarding the Board's compliance with the Act.)

## 5. Temporary classification change proposal for Carrier Route Presort Third-class Bulk Mail.

(Under the Postal Reorganization Act (39 U.S.C. § 3641(e)), if the Postal Rate Commission does not transmit a recommended decision on a change in the Mail Classification Schedule to the Governors of the Postal Service within ninety days after the Postal Service has submitted to the Commission a request for such a recommended decision, the Postal Service, upon ten days notice in the FEDERAL REGISTER, may place into effect temporary changes in the Mail Classification Schedule in accordance with proposed changes under consideration by the Commission. The Postal Service requested a recommended decision on September 8, 1978, to change the Domestic Mail Classification Schedule to establish a third-class carrier route presort subclass. The Board will consider the question of whether the Postal Service should place the proposal into effect on a temporary basis.)

## 6. Annual Report of the Postmaster General.

(The Board will consider the Annual Report of the Postmaster General to the Board concerning the operations of the Postal Service as required by 39 U.S.C. § 2402. Upon approval thereof, or after making such changes as it considers appropriate, the Board is to transmit this report to the President and to the Congress.)

## 7. Capital Investment Projects.

(a) Container Procurement. (Mr. Coughlin, Assistant Postmaster General, Mail Processing Department, will present a proposed capital investment for the procurement of containers falling into several major categories.)

(b) Proposed new General Mail Facility and Vehicle Maintenance Facility at Pittsburgh, Pennsylvania. (Mr. Biglin, Senior Assistant Postmaster General, Administration Group, will present a proposed capital investment for a new postal facility at Pittsburgh, Pennsylvania.)

(c) Procurement of One-Ton Trucks. (Mr. Braughton, Assistant Postmaster General, Delivery Services Department, will present a proposal for a capital investment for the purchase of 1,858 one-ton trucks.)

## 8. Recommended Decision of the Postal Rate Commission on a Proposed Change in the Domestic Mail Classification Schedule.

(The Governors will consider the Recommended Decision of the Commission dated December 7, 1978, to Reject a Proposal by Dow Jones and Company to Restructure Second-Class Rates (Docket No. MC76-2).)

## 9. Election of Chairman and Vice-Chairman of the Board and Appointment of Committees of the Board.

(Under the Board's Bylaws, the first regular meeting of each calendar year is designated as the Annual Meeting. The terms of the Chairman and Vice-Chairman of the Board expire at the end of the first Annual Meeting following the meeting at which they were elected. Accordingly, the Board will consider the election of a Chairman and a Vice-Chairman. In addition, the terms of appointments to committees of the Board expire at the end of each Annual Meeting. The Chairman of the Board appoints the Chairman and members of each Committee.)

LOUIS A. COX,  
Secretary.

## POSTAL SERVICE—BOARD OF GOVERNORS.

## COMMITTEE MEETING

The Committee on Postal Rates of

the Board of Governors of the United States Postal Service, pursuant to the Bylaws of the Board (39-CFR 5.2, 7.5) and the Government in the Sunshine Act (5 U.S.C. 552b), hereby gives notice that it intends to hold a meeting at 8:30 A.M. on Tuesday, January 9, 1979, in the Benjamin Franklin Room, 11th Floor, Postal Service Headquarters, 475 L'Enfant Plaza, S.W., Washington, D.C. 20260. The meeting is open to the public. Requests for information about the meeting should be addressed to the Secretary of the Board, Louis A. Cox, at (202) 245-4632.

The Committee will discuss the Recommended Decision of December 7, 1978, to Reject a Proposal by Dow Jones and Company to Restructure Second-Class Rates (Docket No. MC76-2).

LOUIS A. COX,  
Secretary.

## UNITED STATES RAILWAY ASSOCIATION.

TIME AND DATE: 9 a.m., January 4, 1979.

PLACE: Board Room, room 2-500, fifth floor, 955 L'Enfant Plaza North SW., Washington, D.C. 20595.

STATUS: Parts of this meeting will be

open to the public. The rest of the meeting will be closed to the public.

## MATTERS TO BE CONSIDERED BY THE BOARD OF DIRECTORS:

PORTIONS CLOSED TO THE PUBLIC (9 a.m.)

1. Consideration of internal personnel matters.
2. Review of Conrail proprietary and financial information for monitoring and investment purposes.
3. Review of Delaware and Hudson Railway Company proprietary and financial information for monitoring and investment purposes.
4. Litigation report.

PORTIONS OPEN TO THE PUBLIC (1:30 p.m.)

5. Approval of minutes of the December 7, 1978 Board of Directors meeting and the December 15, 1978 meeting of the Executive Committee of the Board of Directors.
6. Discussion of Annual Report.
7. Report on Conrail monitoring.
8. Consideration of Conrail first quarter 1979 Investment Commitment.
9. Consideration of Conrail draw-down request for January 1979.
10. Consideration of Conrail waiver requests.
11. Consideration of 211(h) program.
12. Contract actions (extensions and approvals).

# Title 24—Housing and Urban Development

## CHAPTER V—OFFICE OF ASSISTANT SECRETARY FOR COMMUNITY PLANNING AND DEVELOPMENT

(Docket No. R-78-587)

### PART 570—COMMUNITY DEVELOPMENT BLOCK GRANTS

#### Discretionary Grants From Secretary's Fund in Behalf of New Communities

AGENCY: Department of Housing and Urban Development.

ACTION: Interim rule.

SUMMARY: The interim rule revises the Section of the CDBG regulations governing grants in behalf of new communities from the Secretary's Discretionary Fund. The revision is intended to clarify the existing requirements under that Section as well as to incorporate new provisions reflecting changes in Departmental policy. Chief among the new provisions are new selection criteria, new citizen participation requirements, a new application submission cycle and a requirement for an NCDC finding that the new community is in compliance with its low and moderate income housing goals prior to the award of any grant under this Section.

DATES: Effective date: December 28, 1978. Comments received on or before January 29, 1979 will be considered in preparing the final rule.

ADDRESS: Comments should be sent to: Rules Docket Clerk, Office of General Counsel, Room 5218, Department of Housing and Urban Development, 451 7th Street, SW., Washington, D.C. 20410.

#### FOR FURTHER INFORMATION CONTACT:

Robert Warner, Project Support Division, New Community Development Corporation, Department of Housing and Urban Development, Washington, D.C. 20410, 202-755-6092.

SUPPLEMENTAL INFORMATION: Section 570.403 of Subpart E (Secretary's Fund) of the Community Development Block Grant (CDBG) Regulations (24 CFR Part 570) has been reorganized, edited and partially rewritten in addition to having new provisions added. The purpose of the editing and revision is to include policies and interpretations accumulated since the regulation was initially issued, to eliminate obsolete language, to conform the regulation to changes in Subpart C of the

CDBG regulations (Eligible Activities) and in the New Communities Program, and to improve the readability and usefulness of the regulation. The General Manager, New Community Development Corporation (NCDC), has also determined that the existing criterion for selection of activities and projects for assistance under this Section is not fully consistent with Departmental goals and should be revised to clearly state that priority consideration will be given to projects and activities which benefit low- and moderate-income persons or which are necessary to maintain the economic viability of the new community.

For the reasons discussed below, the Secretary has determined that these revised regulations are urgently needed for the Fiscal Year 1979 grant cycle and that it is impractical and contrary to the public interest to provide for notice and public comment before this revised Section becomes effective.

Applications for funds under this Section must be received by NCDC between October 1, 1978 and January 31, 1979 in order to be reviewed and approved in conjunction with the annual new community project budget cycle.

Pursuant to formal Budget Agreements with the Secretary, such new community project budgets are required to be submitted by most new community developers by specified dates between October 31 and January 31. Four of the budget submissions are due on October 31, another on November 30 and the sixth on January 31. The grant applications need to be submitted, reviewed and approved at the same time as the budgets because, to a great extent, the Secretary's approval of the budgets is based on her agreement to approve funds under this Section for certain facilities and land development activities reflected in the budgets. Being in a position to analyze the budgets and the grant applications at the same time not only improves the Secretary's ability to approve the budgets within the time frames included in the Budget Agreements, but also provides the comprehensive information necessary for her to make sound judgments and decisions with respect to grants to the six new community projects which have Budget Agreements.

Publication of this rule as an interim rule establishes the much-needed requirement to submit applications with the budgets and provides essential guidance to applicants on what should be included in their applications. Present regulations do not contain comparable requirements. Interested persons are invited to participate in the making of the final rule by submitting comments, suggestions and relevant information (referring to the above

docket number), to the Rules Docket Clerk, Office of the General Counsel, Room 5218, 451 7th Street, SW., Washington, D.C. 20410. All comments will be carefully considered before adoption of the final rule. Copies of the comments submitted will be available during business hours at the above address for public inspection, and copying.

Because this rule represents a general revision and reorganization of the existing Section 570.403, the changes will be discussed below paragraph-by-paragraph.

#### GENERAL

Existing paragraph (a) has been renumbered paragraph (a)(1) and edited for clarity. The substance of paragraph (a)(2) is contained in existing Section 570.400(a), which provision is expected to be eliminated in a future general revision of Subpart E. Paragraph (a)(2) has also been revised to conform to changes in Subpart designations published at 43 FR 8434, March 1, 1978.

#### ELIGIBLE APPLICANTS

Paragraph (b) has been reorganized and rewritten to eliminate the confusing introductory sentences of existing paragraph (b). The new language groups eligible applicants by public and private entities and provides additional definitional references. While worded differently in some cases, the eligibility of public applicants is substantially the same as in prior regulations. The new definition of eligible private developer-applicants eliminates an unused reference to "subsidiaries" and drops the former proviso to that definition, which is now deemed unnecessary in light of revised requirements regarding public ownership of completed grant-assisted facilities. The definition of eligible community association-applicants has also been edited for clarity and drops the specific reference to "community authorities established under State law", which are covered by clause (1)(iii) of the revised paragraph (b). The definition also adds a requirement for financial capability of the community association in addition to legal and administrative capability.

#### APPLICATION REQUIREMENTS

Paragraph (c) of the interim rule corresponds to paragraph (c) of the existing Section 570.403, with certain technical and editorial revisions.

The application filing period contained in the last sentence of the existing subparagraph (1) has been revised and placed in paragraph (d) of this Section.

Subparagraph (2) entitled "Activities Program" has been rewritten to list in greater detail the information

describing the proposed grant activities and projects required to be submitted as part of the application under this Section. In addition, HUD is asking for information not previously required so that better eligibility and funding determinations can be made. New information to be required includes information relating the proposed activities to the selection criteria and the New Community's approved Budget (if applicable), applicable environmental and A-95 clearances, and ownership of the sites of proposed grant-assisted facilities. Much of this information, except as related to the selection criteria, has previously been required by NCDC by letter.

The certifications required in subparagraph (3) are being amended to conform with the revised certifications listing in Section 570.307, and to specify more clearly the certifications required of the various classes of applicants. In addition to the certifications previously required, all applicants will also provide the certifications in Section 570.307 paragraph (i) concerning compliance with certain special requirements; paragraph (j) concerning evaluation of flood hazards; paragraph (k) concerning the making of buildings and facilities accessible to, and useable by, the physically handicapped; paragraph (r) concerning HUD's right to examine all records, books, etc. related to the grant; paragraph (s) concerning compliance with the Environmental Protection Agency's requirements with regard to Violating Facilities; paragraph (t) concerning flood insurance purchase requirements; and paragraph (u) concerning compliance with various historic preservation requirements. Public body applicants will, in addition, provide the following certifications in Section 570.307 which were not previously required: paragraph (b) concerning adoption of a resolution authorizing the filing of the application, paragraph (p) concerning employees' use of positions for private gain, and paragraph (q) concerning compliance with provisions of the Hatch Act.

Subparagraph (4) is merely being edited and rewritten and does not change in substance from the existing regulation.

Subparagraph (5) requires applicants to follow HUD's A-95 implementing regulations at 24 CFR Part 52.

Existing subparagraph (6) on performance reporting is now included in paragraph (h) on program management. New subparagraph (6) includes new requirements concerning citizen participation, which have been added to reflect Departmental policy encouraging maximum citizen participation.

Community Associations and applicants for other specifically identified activities will be required to hold a public hearing and solicit new community residents' views prior to submission of the application.

#### REVIEW OF APPLICATIONS

Paragraph (d) of the existing regulations has been divided into two paragraphs. New paragraph (d) concerns review of applications, while new paragraph (e) concerns the approval of applications.

A cycle for submission of applications has been established in paragraph (d)(1) which will go into effect for FY 1979 appropriations. Applications may be submitted between October 1 and January 31, except that applications being submitted in behalf of New Communities that are subject to Budget Agreements approved by the Secretary must be submitted, unless otherwise authorized by the Secretary, when the New Community developer submits the annual budget. Recognizing the need for flexibility in meeting emergency needs or opportunities, the new regulations also provide for the invitation of additional applications or application amendments if funds remain available. Applications for funds appropriated prior to FY 1979 may be submitted at any time, until all such funds have been obligated or the appropriation expires.

It also specifies that the HUD Area Office will be responsible for assigning a project number and forwarding the application to NCDC, which will accept the application and perform application reviews.

A new subparagraph (2) has been added describing the criteria for acceptance of a grant application for review under this Section.

Subparagraph (3) is based on paragraph (d)(1) of existing regulations, with language added to reflect the existence of a major new document added to New Communities program documents in 1976 and 1977—the Budget Agreement which incorporates a yearly project budget. This subparagraph also states that the selection criteria will be applied during the review of the application. It is HUD's intention to apply the criteria in a manner which ensures that both Block Grant and New Community objectives are met; however, HUD does not intend to develop a numerical ranking system.

Subparagraph (4) is based upon Section 570.400(f)(2) of existing regulations, with language added to reflect the need to review and approve grants during the same general period New Community Budgets are being approved, insofar as staff resources will permit.

#### APPROVAL OF APPLICATIONS

New paragraph (e) has been greatly expanded from the existing paragraph (d) to fully cover the basis for approval of applications, including the new project selection criteria.

New subparagraph (1) was added to clarify the relationship between eligibility requirements under Subpart C of the CDBG Regulations and grants under this Section. This relationship is the same as under existing regulations, as interpreted and administered by HUD, except as the eligibility requirements under Subpart C and the requirements of Section 570.403 have themselves been changed.

Subparagraph (2) contains the substance of the ownership requirements for grant-assisted facilities which are in Section 570.403(h) of the existing regulations. This subparagraph has been revised to reflect revisions to Subpart C of the CDBG Regulations concerning participation in the program by non-profit entities. Under existing paragraph (h) the only exception to public dedication of grant-assisted facilities is that community associations are permitted to own assisted neighborhood facilities. New subparagraph (2) permits community associations to own grant-assisted real property, public facilities and improvements if approved by the Secretary on a case-by-case basis under criteria set forth in clauses (A), (B), and (C), of subparagraph (2)(ii). Dedication to public ownership of grant-assisted facilities will be continued in all other situations where it is otherwise required by Subpart C.

Subparagraph (3) represents a major revision to the selection criterion in paragraph (d)(2) of the existing regulations. The first selection criterion in subparagraph (3) is intended to give priority in the awarding of grants for activities which benefit low- and moderate-income persons. The second criterion emphasizes maintaining the economic viability of existing New Communities and gives priority to certain types of projects and activities which are immediately needed to maintain this viability but for which other funding sources are not available.

In addition to these two principal criteria, there is a criterion based on the new community program objective of encouraging innovation in the meeting of physical, economic or social problems. It is HUD's intention to give additional weight to projects and activities which demonstrate innovative advances in design, energy conservation and environmental protection.

There are also two criteria which reflect prior grant performance and participation. Since the number of new communities for which grants may be applied for under this Section is limited,

ed and because the new communities have developed at different rates and received varying amounts of grant assistance in the past, HUD will consider the prior levels of funding to each new community in evaluating grant requests. It is HUD's intention to provide grant assistance in behalf of new community projects on an equitable basis, taking into account such relative factors as project size and pace. HUD will also consider an applicant's past performance in expending grant funds provided under this Section in the evaluation of grant requests. Applicants who have demonstrated an inability to execute projects in a timely and cost effective manner may not receive grant assistance for projects and activities that in HUD's judgment are beyond the applicant's ability.

Subparagraph (4) contains new provisions not previously included in the regulations. These provisions require that grant-assisted facilities be generally consistent with the annual New Community Budget approved on the basis of a New Community Budget Agreement. Beginning in FY 1979, it is HUD's intention to review the annual project budgets and the grant applications at the same time; and not to fund any projects or activities on the basis of the selection criteria unless the projects or activities are also consistent with the project budgets.

Subparagraph (5) contains a new threshold requirement which requires NCDC to make a finding of compliance with low- and moderate-income housing goals prior to the award of any grant funds. Under this provision NCDC will make an annual finding that the new community is in compliance with the low- and moderate-income housing goals of the New Community Development Plan or that the developer has taken and is committed to take positive steps to comply with those goals. Grant funds will not be awarded in behalf of any new community projects for which such a finding cannot be made.

Subparagraph (6) is substantially the same as the existing regulations in Section 570.400(f)(3) expanded to greater detail. It also provides that the Secretary may make conditional approvals for reasons other than environmental reviews or requirements regarding the provision of public services or flood or drainage facilities, as long as the conditions are specific and are reasonably related to the purpose of the grant. Further, this subparagraph also states the rule that grant approval may be cancelled with respect to funds as to which grant conditions are not met.

#### LETTER TO PROCEED

Paragraph (f) contains the rules governing the incurring of costs and let-

ters to proceed which are currently in Section 570.400(e).

#### PROGRAM AMENDMENTS

Paragraph (g) incorporates the existing Section 570.400(g) and specifies that amendments which propose new activities must be submitted in the same format as the original application. This paragraph also states when prior approval of amendments is required.

#### PROGRAM MANAGEMENT

The substance of paragraph (h) was previously included in the regulations in two places, Section 570.403 (c)(6) and (f), and has now been combined to improve the organization of Section 570.403.

#### EXCEPTIONS TO REGULATIONS

Paragraph (i) contains the substance of existing paragraph (e) and was rewritten to reflect the recodification of Subparts, to correct the reference to the Procurement Standards, and to make the paragraph easier to understand. No substantive changes have been made from the existing regulation.

With respect to this interim revision of Section 570.403, interested persons are invited to participate in the making of the final rule by submitting written comments or views on the proposed amendments. Comments should be filed with the Rules Docket Clerk, Office of General Counsel, Room 5218, Department of Housing and Urban Development, 451 7th Street, S.W., Washington, D.C. 20410. All comments received on or before the date specified above will be considered before adoption of the final rule. Copies of comments will be available for examination during business hours at the above address.

A Finding of Inapplicability with respect to Environmental Impact has been prepared in accordance with HUD Handbook 1390.1, 38 FR 19182, July 18, 1973. A copy of the Finding is available for inspection and copying in the Office of the Rules Docket Clerk.

Accordingly, 24 CFR Part 570 is hereby amended by revising § 570.403.

#### Subpart E—Secretary's Fund

##### § 570.403 New Communities

(a) *General.* (1) This Section concerns grants for activities and projects which are:

(i) in direct support of a New Community (which term means a new community project approved by the Secretary under Title VII of the Housing and Urban Development Act of 1970 or Title IV of the Housing and Urban Development Act of 1968), and

(ii) reflected in a current New Community Development Plan (the devel-

opment plan which controls the physical and social development of the New Community by agreement between each New Community's developer and the Secretary, as the same may be revised and amended from time-to-time).

(2) Subparts A, B, C, J, K and O of this Part apply to this Section, except to the extent that they are specifically modified or supplemented by this Section.

(b) *Eligible Applicants.* The following entities may apply for and receive grants pursuant to this Section:

(1) *Public bodies,* including only:

(i) States or units of general local government as defined in the first sentence of Section 570.3(v);

(ii) State land development agencies as defined in Section 711(c) of the Housing and Urban Development Act of 1970; or

(iii) other local public bodies or agencies as defined in Section 711(e) of the Housing and Urban Development Act of 1970, which are approved by the Secretary for the purpose of providing public facilities or services to a New Community.

(2) *Private developers and non-profit entities,* including only:

(i) private New Community developers approved under Sections 711(b) and 712(b) of the Housing and Urban Development Act of 1970; and

(ii) community associations or other similar non-profit organizations established in New Community projects under covenants approved by the Secretary, which are legally, financially, and administratively qualified to carry to successful completion those projects for which grant assistance is sought by the community association.

(c) *Application requirements.* (1) *General.* The requirements of this paragraph are designed to supplement requirements of the New Communities Program under which New Community developers will have already provided substantial information to the Secretary.

(2) *Activities program.* The application shall be submitted on forms approved by the Secretary and shall include for each proposed activity:

(i) a description of the activity, including estimated costs and the relationship of the activity to the grant selection criteria in Section 570.403(e)(3);

(ii) a map or maps in readable scale which shows the location of each activity;

(iii) a listing of all sections of the current New Community Development Plan which refer to each activity together with a description of the activity's consistency with the plan, or a statement that the activity was not previously submitted to and approved by HUD as part of Title IV or Title VII documentation;

(iv) references to all provisions of Environmental Impact Statements, A-95 clearinghouse reviews and, as applicable, to any currently approved New Community Budget Agreement or other financial plan reflecting each activity;

(v) an identification of the owner, as of the application date, of any interest in the site of any Grant-assisted Facilities (as defined in paragraph (e) of this Section) to be provided under each activity, including any lien-holders other than the Secretary or a trustee for the Secretary;

(vi) an identification of each entity which will own any Grant-assisted Facilities to be provided under each activity, together with evidence satisfactory to the Secretary that the proposed owner, if other than the applicant, is willing to accept ownership responsibilities; and

(vii) a copy of all A-95 clearinghouse comments which have not previously been submitted to the New Community Development Corporation (NCDC).

(3) *Certifications.* The application shall include the following certifications in such form as the Secretary may prescribe:

(i) New Community developers and community associations eligible for assistance under paragraph (b)(2) of this Section shall provide the assurances required by paragraphs (a), (c), (g), (h), (i), (j), (k), (l), (m), (r), (s), (t), and (u) of Section 570.307;

(ii) States, State land development agencies, and other units of general local government eligible for assistance under paragraph (b)(1) (i) or (ii) of this Section shall provide all of the assurances required by Section 570.307, except paragraphs (d), (e), and (f).

(4) *Environmental review requirements.* (i) For activities proposed by a private developer or community association eligible under paragraph (b)(2) of this Section or by a public body eligible only under paragraph (b)(1)(iii) of this Section no new environmental review or clearances will be required by virtue of any such activity's proposed funding under this Part if the activity is a part of a previously approved New Community project for which environmental review clearances have been completed, which clearances adequately covered such activity, and for which circumstances, including the availability of additional data or advances in technology, have not changed significantly.

(ii) States, State land development agencies and units of general local government eligible under paragraph

(b)(1) (i) or (ii) of this Section shall conduct environmental reviews of proposed activities pursuant to the environmental review procedures in 24 CFR Part 58.

(iii) If neither paragraph (i) or (ii) above applies, the Secretary shall determine the need for environmental reviews and shall conduct any such reviews pursuant to HUD Handbook 1390.1 (38 FR 19182, July 18, 1973), or applicable successor regulations.

(5) *Clearinghouse review.* Applicants must comply with the procedures for reviews by clearinghouses set forth in OMB Circular A-95 and HUD's A-95 implementing regulations at 24 CFR Part 52.

(6) *Citizen Participation Requirements.*

(i) *Purpose.* The requirements of this paragraph (c)(6) are intended to provide citizens of the new community, particularly low and moderate income residents, with the opportunity to provide comments and to participate in the establishment of funding priorities for all applications filed by community associations and for any other applications proposing any of the facilities and activities listed in subparagraph (ii), at both the initial application stage and at any subsequent major amendments or reprogrammings.

(ii) *Scope.* All applications by community associations eligible under Section 570.403(b)(2)(ii) and all other applications under this Section which propose the funding of any of the following activities or any other activities specified by the Secretary, shall comply with the requirements of subparagraph (iii) below:

(A) Acquisition and/or disposition of real property (Section 570.201(a) and (b)) for any of the other activities listed in this subparagraph (ii).

(B) Senior centers (Section 570.201(c)(1)).

(C) Parks, playgrounds and other recreational facilities (Section 570.201(c)(2)).

(D) Centers for the handicapped (Section 570.201(c)(3)).

(E) Neighborhood facilities (Section 570.201(c)(4)).

(F) Fire protection facilities and equipment (Section 570.201(c)(6)).

(G) Pedestrian malls and walkways (Section 570.201(c)(12)).

(H) Public services (Section 570.201(e)).

(I) Removal of architectural barriers (Section 570.201(k)).

(J) Rehabilitation and historic preservation (Section 570.202).

(K) Activities by private non-profit entities, neighborhood-based non-profit organizations, local development corporations, or small business investment companies (Section 570.204).

(L) Provision of information and other resources to residents (Section 570.206(b)).

(M) Provision of fair housing counseling services (Section 570.206(c)).

(iii) *Requirements.* The applicant shall provide for the following, pursuant to its own written citizen participation plan, which will not be subject to prior HUD review or approval:

(A) The provision of program information (including the draft grant application, program regulations and other similar information) to interested citizens of the new community in a timely manner prior to the scheduled public hearing required under subparagraph (C).

(B) The publication of a notice of public hearing in a periodical of general circulation in the new community such as a community association newsletter or local newspaper. The notice shall be published at least once a week during the two weeks preceding the week in which the public hearing is to be held. The notice shall state the time, date and location of the hearing and specify that the purpose of the hearing is to solicit citizen views and opinions concerning the application to be submitted to HUD for a grant in behalf of a new community under the Secretary's Discretionary Fund of the Community Development Block Grant Program. The notice shall also state where the program information can be obtained or examined, whether in person or by mail, and any charges that may apply. A copy of the draft grant application and program regulations must be available at the location specified in the first notice at the time of its publication.

(C) The holding of a public hearing under the auspices of the new community's community association(s). The hearing shall be held at a convenient time and location which permits broad participation, particularly by low and moderate income persons.

(D) The submission of a statement to NCDC with the initial application, amended application, or reprogramming request that these requirements have been met, including copies of the required notices and a summary of the citizen comments.

(d) *Review of applications.* (1) *Submission of applications.*

(i) Applications for grants under this Section from each fiscal year's appropriation after FY 1978 shall, unless otherwise authorized by the Secretary, be submitted from October 1 to January 31 of that fiscal year. For New Communities subject to a Budget Agreement approved by the Secretary, such applications shall be submitted for review with the next year's Budget, unless the applicant receives prior approval from the Secretary to submit the application at a different

time. However, the Secretary may invite the amendment of applications or the submission of additional applications at other times if funds appropriated for the fiscal year remain available after evaluation of all applications under the criteria for selection in (e)(3) of this Section.

(ii) Applications for funds appropriated prior to FY 1979 may be submitted at any time, until all funds have been obligated or the appropriation has expired.

(iii) All applications under this Section shall be submitted to the appropriate HUD Area Office, which will assign a project number and forward the application to NCDC for review.

(2) *Acceptance of application.* NCDC will accept an application for review and consideration for a grant if the following conditions are met:

(i) the application is submitted through the HUD Area Office,

(ii) the application is submitted in accordance with the timing requirements of paragraph (d)(1) (i) and (ii) of this Section;

(iii) in the judgment of NCDC the application is sufficiently complete under the requirements of this Section for the initiation of technical reviews; and

(iv) the applicant has complied with the A-95 clearinghouse review procedures by attaching or enclosing any comments made by or through State and areawide A-95 clearinghouses or by stating that no comments have been received or are required.

(3) *Scope of review.* In addition to reviewing documents included in the application, NCDC's review may include the evaluation of data and information supplied by the developer of the New Community project, including the Project Agreement, Development Plan, Budget Agreement (if any), and other documents, and may include other independent reviews conducted by NCDC staff or others at NCDC request. The review will also include application of the selection criteria included in paragraph (e)(3) of this Section. The applicant may be required to submit relevant supplementary information at any time after acceptance of the application.

(4) *Timing of review.* The Secretary is not required by the Act to review and approve a discretionary grant application under this Section within any specific time period. For applications submitted in conjunction with a New Community Budget as described in paragraph (d)(1)(i) of this Section, the Secretary shall use her best efforts to complete the review and approval of any grants included in such Budget within 60 days after Budget approval.

(e) *Approval of Applications.* (1) *Eligible activities.* Grant assistance

under this Section must be used for activities and projects eligible under Subpart C of this Part. However, the enumeration of certain eligible types of activities in Subpart C does not itself render specific activities proposed by individual applicants eligible for assistance under this Section. Other applicable requirements of Part 570 and this Section must be met to qualify a specific activity for assistance. For example, activities assisted under this Section must be in behalf of and related to a New Community as described in Section 570.403(a), must comply with the ownership requirements in subparagraph 2 of this paragraph (e), and must be approved under the selection criteria in subparagraph 3 of this paragraph (e).

(2) *Ownership requirements.* (i) All facilities, real property, or improvements acquired or constructed with grant assistance provided under this Section ("Grant-assisted Facilities") are subject to the ownership requirements of Subpart C and any additional requirements of this paragraph (e)(2).

(ii) A community association eligible under Section 570.403(b)(2)(ii) must receive approval from the Secretary to own and operate or maintain Grant-assisted Facilities, whether or not the community association is the original grant recipient. Approval will be granted if:

(A) The community association is authorized under its organizational documents, including applicable covenants approved by the Secretary, to own and operate or maintain the Grant-assisted Facilities;

(B) The proposed Grant-assisted Facilities meet applicable requirements for non-public ownership under Subpart C, including the public use requirements in Section 570.204(b), and

(C) The Secretary determines that the community association is otherwise legally, financially, and administratively capable of owning, maintaining or operating the Grant-assisted Facilities.

If the approval is not obtained, a community association grantee shall, prior to disbursement of grant funds for Grant-assisted Facilities requiring dedication, enter into one or more dedication agreements satisfactory in form and substance to the Secretary and shall, prior to grant closeout, dedicate any Grant-assisted Facilities to an entity eligible under Subpart C to own those Facilities.

(iii) Private developers eligible under Section 570.403(b)(2)(i) shall, prior to disbursement of grant funds for Grant-assisted Facilities, enter into one or more dedication agreements satisfactory in form and substance to the Secretary and shall, prior to grant close-out, dedicate any Grant-assisted Facilities to an entity eligible under

Subpart C or paragraph (ii) above to own those facilities.

(3) *Criteria for selection.* The following criteria have been developed in accordance with Departmental goals to select for assistance under this Section among otherwise eligible projects and activities; with primary emphasis on the provision of decent housing and a suitable living environment and expanding economic opportunities, primarily for low- and moderate-income persons. All projects and activities must meet criteria (i) or (ii). Criteria (iii), (iv) and (v) will provide NCDC with a basis for giving additional consideration to those projects and activities which meet the basic criteria.

(i) *Benefit to low- and moderate-income persons.* A project or activity will be considered to benefit low- and moderate-income persons if the applicant demonstrates that:

(A) The activity is designed to meet specific needs of low- and moderate-income persons or families;

(B) The degree to which low- and moderate-income persons and families will be served by the project or activity is greater than their proportionate share of the planned population of the New Community; and

(C) Affirmative efforts will be taken whenever feasible to promote the use of or benefit from the project or activity by low- and moderate-income persons or families.

For the purposes of this Section, low- and moderate-income persons and families shall have the meaning set forth in Section 570.3(o) and (p).

(ii) *Maintains the economic viability of the new community.* A project or activity will be considered to meet this criterion if:

(A) It is immediately needed to maintain the economic viability and growth potential of the New Community in accordance with its development plan and no other sources of funding are immediately available; and

(B) It is a villagewide, townwide, or community facility, as those terms are used in the New Communities Program; or

(C) It will specifically contribute to the development of non-assisted market rate housing which is, in NCDC's judgement, priced to sell or rent at the lower end of the market when viewed in the context of the overall market place for the New Community; or

(D) It is an eligible rehabilitation or preservation activity as set forth in Section 570.202; an eligible economic development activity as set forth in Section 570.203; an eligible activity by a private non-profit entity; neighborhood-based non-profit organization, local development corporation, or small business investment company as

set forth in Section 570.204; an eligible planning or urban environmental design cost as set forth in Section 570.205; or an eligible administrative cost as set forth in Section 570.206.

(iii) *Innovative value.* An activity or project will be considered to support this criterion to the degree it demonstrates innovative advances in design and technology in such areas as land utilization; the construction of buildings and other facilities; energy conservation and production measures; or enhancement of the physical and social environment.

(iv) *Past performance in carrying out grants provided under this Section.* The degree to which the applicant has used funds provided under this Section in a cost effective manner and has expended those funds in a timely fashion will be considered in applying this criterion to activities and projects proposed by a particular applicant. Applicants who have not previously received grants under this Section shall not be given a lower priority for that reason.

(v) *Prior levels of funding.* The degree to which a New Community has already benefitted from grants provided under this Section will be considered in the evaluation of grant applications proposed by any applicant in behalf of a particular New Community. Where all New Community needs cannot be satisfied within the amount of funds appropriated for grants under this Section, those New Community Projects which have received the least relative benefits will be given greater consideration under this criterion.

(4) *Consistency with New Community Budget.* For New Communities with a current Budget Agreement, or other similar financial plan, approved by the Secretary, projects and activities assisted under this Section shall also be generally consistent with the applicable Budget approved by the Secretary, as it may be amended from time to time.

(5) *Finding of compliance with low and moderate income housing goals.* Prior to the award of any grant under this Section in any fiscal year, NCDC shall make a finding that the New Community is in compliance with the current low and moderate income housing goals contained in the New Community Development Plan, or that the New Community developer has taken and is committed, under the terms of its currently approved annual budget or other similar financial plan approved by the Secretary, to take specified positive steps within its control toward compliance with such goals.

(6) *Notification of funding approval; conditional approval.*

(i) The Secretary will notify applicants of the specific grant amount approved for any specific activities and projects funded under this Section and will tender a Funding Approval and Grant Agreement for the applicant's acceptance and execution.

(ii) The Secretary may approve one or more of the specific projects or activities set forth in the Funding Approval upon conditions reasonably related to the purpose of the grant. In that case, the obligation and utilization of grant funds by the grantee may be made contingent upon the occurrence or continuation of specific actions of the grantee or other specific events, which shall be described in the Grant Agreement. The grantee will not be reimbursed for funds spent in violation of any applicable grant conditions, and grant approval may be cancelled and the grant closed out as to grant amounts with respect to which any applicable grant conditions have not been met.

(iii) The Secretary shall issue a conditional approval for specific projects or activities when:

(A) local environmental reviews under Section 570.603 have not been completed; or

(B) the requirements of Section 570.607 regarding the provision of public services or flood or drainage facilities have not yet been satisfied.

(f) *Letter to Proceed.* In response to a request by a public body applicant eligible under Section 570.403(b)(1) the Secretary may, in cases of demonstrated need, issue a letter to proceed authorizing an applicant to incur costs for the planning and preparation of an application for funds available under this Section or, if applicable, for environmental review pursuant to the procedures contained in 24 CFR Part 58. Reimbursement for costs incurred pursuant to a letter to proceed will be dependent upon HUD approval of the application and shall not be based upon a percentage of the grant. Costs incurred prior to notification of grant approval or issuance of a letter to proceed by NCDC are not eligible for assistance under this Section.

(g) *Program Amendments.* (1) Recipients shall obtain prior NCDC approval for all program amendments, including the reprogramming of funds, for which approval is required by the grant agreement, and cost monitoring system.

(2) Where an amendment proposes one or more new activities or projects, the amendment shall be submitted on the forms used, and shall contain all the information required, for an original application. Applicants shall con-

sult with NCDC as to the form and substance of documentation required for amendments which do not propose new activities or projects.

(h) *Program Management.* Program management and performance reporting shall be accomplished within the framework of NCDC New Community project management, including the financial and physical progress reports required by NCDC administrative procedures and the cost monitoring system which NCDC has developed specifically for grants pursuant to this Section. Recipients under this Section are not required to submit an Annual Performance Report pursuant to section 570.906.

(i) *Exceptions to Regulations.* (1) The provisions of Subpart J, Grant Administration, shall be applicable to recipients, except that a community association or private developer recipient eligible under Section 570.403(b)(2) is not required to comply with the competitive bidding requirements of subsections 3(c)(5), (6) and (8) of Attachment O "Procurement Standards" of OMB Circular No. A-102 Revised (42 FR 45828), which is incorporated in Section 570.507.

(2) The provisions of Subpart K, Other Program Requirements, shall be applicable to recipients, except as follows:

(i) A community association or private developer recipient eligible under Section 570.403(b)(2) is not a "state agency" under Section 101(3) of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 and is not subject to the provisions of section 570.602(a), (b) and (c), which concern relocation and real property acquisition policies and requirements.

(ii) A community association or private developer eligible under Section 570.403(b)(2) is not subject to the provisions of Section 570.608 regarding the Hatch Act.

(Title I, Housing and Community Development Act of 1974 (42 U.S.C. 5301, et seq.); Title I, Housing and Community Development Act of 1977 (Pub. L. 95-128); and Sec. 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).)

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Amendments of 1978, P.L. 95-557, 92 Stat. 2080, this rule has been granted waiver of Congressional review requirements in order to permit it to take effect on the date indicated.

Issued at Washington, D.C., November 14, 1978.

ROBERT C. EMBRY, JR.,  
Assistant Secretary for Community Planning and Development.

[FR Doc. 78-35695 Filed 12-27-78; 8:45 am]

[Docket No. R-78-592]

SECTION 8—HOUSING ASSISTANCE  
PAYMENTS PROGRAM—EXISTING HOUSINGSpecial Procedures for Moderate Rehabilitation  
Program

AGENCY: Office of Assistant Secretary for Housing-Federal Housing Commissioner, HUD.

ACTION: Proposed rule.

**SUMMARY:** The Department is proposing to amend the Section 8 Existing Housing Program Regulations to establish policies and procedures for a new Moderate Rehabilitation Program to provide for the upgrading of existing housing units to meet the Housing Quality Standards and/or for the repair of existing units to prevent the imminent failure of major building systems or components.

**DATES:** Written comments and suggestions must be received on or before January 29, 1979.

**ADDRESS:** Please send comments and suggestions, which should include a reference to the docket number and date of publication, to: Rules Docket Clerk, Office of the General Counsel, Room 5218, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410, 202-755-7603. This is not a toll free number.

FOR FURTHER INFORMATION  
CONTACT:

Cheryl D. Patton, Office of Assisted Housing Development, Department of Housing and Urban Development, Washington, D.C. 20410, 202-755-5380. This is not a toll free number.

**SUPPLEMENTARY INFORMATION:** The Moderate Rehabilitation Program is designed to encourage rehabilitation through the Section 8 Existing Housing Program by providing more financial incentives while retaining the simplicity and minimal federal involvement associated with the Existing Housing Program. Some rehabilitation is already being achieved in the Existing Housing Program; however, this rehabilitation usually is being accomplished in market areas where the supply of standard housing is limited or the rehabilitation consists of only minor upgrading of basically sound housing.

It is estimated that at least 2.7 million rental units occupied by Lower-Income Families have deficiencies re-

quiring a moderate level of upgrading. Approximately 85 percent of these units are in buildings of fewer than 20 units. The Moderate Rehabilitation Program will encourage the rehabilitation of these units and thereby improve the housing stock. Further, it will make these newly rehabilitated units available to low and moderate income households.

Under the Moderate Rehabilitation Program, an Owner will agree to rehabilitate a property in accordance with the program's requirements. In return, the Owner will be assured a rent which may be as high as 120 percent of the Existing Housing Fair Market Rents for a period of up to 15 years, provided an Eligible Family is living in the property and the property is maintained in a decent, safe and sanitary condition.

The program will be administered by Public Housing Agencies including State Housing Finance and Development Agencies, where appropriate, who will provide technical assistance to Owners including: initial inspections to determine the work that needs to be accomplished to bring the units up to the Housing Quality Standards; detailed work write-ups; cost estimates; feasibility analyses; assistance in securing financing; inspections during rehabilitation; and final inspections to determine if work was accomplished in accordance with the write-ups. When appropriate, the PHA will contract with the local agency administering a Section 312 Program of Community Development Block Grant rehabilitation program or other entity with rehabilitation expertise to provide this technical assistance to the Owners.

In addition to these functions, the PHA will be responsible for outreach to Owners and Lower-Income Families and will perform the tenant-related functions normally performed in the Existing Housing Program. The Owner will maintain the rights of tenant selection and eviction as provided in the Existing Housing Program.

The program has been discussed with numerous national housing organizations which will be affected by it and the regulations reflect many of their concerns and suggestions on how the program should operate. The regulations are intended to be sufficiently flexible to allow for efficient program operation in a variety of communities.

The following is a discussion of the major program policies being proposed:

1. Moderate Rehabilitation is defined as the rehabilitation of a residential property involving a minimum expenditure of \$2000 per unit in structures containing 12 or fewer units or

\$1000 per unit in structures containing more than 12 units which will:

(a) Upgrade the property to Decent, Safe and Sanitary condition to comply with the Housing Quality Standards, from a condition requiring at least minor repairs or the cure of an accumulation of deferred maintenance (improvements being of a non-luxury nature); or

(b) Prevent the imminent failure of major building systems or components.

The rehabilitation is expected to average approximately \$3000 per unit but will vary depending upon the terms of financing available. It was determined that an Owner wishing to perform less than the minimum amount of rehabilitation required should not be entitled to the assurance of assistance tied to the unit(s) for up to 15 years. There is no maximum placed on the amount of rehabilitation allowable under the program since the rental increase attainable should effectively limit the amount of rehabilitation which it would be financially feasible to undertake. The PHA will make the determination as to whether the Owner should participate in the Moderate Rehabilitation Program. Should the amount of rehabilitation be too low the Owner will be encouraged to participate in the Existing Housing Program; if the amount of rehabilitation is too high to be feasible with the Moderate Rehabilitation rent limits, the Owner will be encouraged to apply to the HUD Field Office for the Section 8 Substantial Rehabilitation Program.

2. Owners will be entitled to vacancy payments of up to 80 percent of the contract rents for up to 60 days when a vacancy exists between execution of the HAP Contract and initial occupancy or when a tenant vacates a unit, provided the Owner is making every effort to fill the vacancy.

3. A new Fair Market Rent schedule is established for Moderate Rehabilitation which is equal to 120 percent of the Existing Housing Fair Market Rent Schedule. The Moderate Rehabilitation Fair Market Rent can only be exceeded upon prior approval of the HUD Field Office Manager and only after rehabilitation has commenced and unexpected repairs are necessary which will warrant a higher rent. The Contract Rent will be established by taking a base rent (established by the PHA) and adding the actual or imputed monthly per unit debt service costs for the rehabilitation plus any temporary relocation costs, provided that this calculation does not result in a rent which exceeds the Fair Market Rent (minus any applicable allowance for utilities).

The Department is interested in avoiding inflated rents and unneces-

sary rehabilitation. Comments are therefore being solicited for possible incentives to PHAs and/or Owners to keep costs and Contract Rents down. The Department intends to achieve these objectives, in part, by authorizing PHAs to rehabilitate additional units under the program with the funds they save by negotiating Gross Rents below the Fair Market Rents. Comments concerning the viability of this approach and other possible cost containment methods would be appreciated.

4. The ACC will be for a term of 17 years and the HAP Contract may be for a maximum term of 15 years. The term of the HAP Contract will be determined by the Owner and may be from 5 to 15 years, in 5 year increments.

5. Annual adjustments to the Contract Rents will be based on the annual adjustment factors which are published by HUD for the Section 8 New Construction and Substantial Rehabilitation Programs. Any rent increases, however, must be determined reasonable by the PHA.

6. Since this is a program of moderate rehabilitation which we assume will average approximately \$3000 per unit, there should be little need for displacement, even on a temporary basis since most work should be able to be accomplished with tenants in residence. There is no requirement that ineligible tenants be forced to move; however, a HAP Contract will not be executed for those units occupied by ineligible families. Therefore, since ineligible families may remain in place, the only permanent displacement anticipated would be in residences where the Family is overcrowded in the unit and a suitable size unit in the project is not available, or in unforeseen circumstances.

HUD regulations implementing the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 as modified in these regulations will apply to any Lower-Income Family displaced under the Moderate Rehabilitation Program. The PHA will have responsibility for ensuring that the appropriate payments are provided to displacees and will provide all services necessary to permanently displaced and temporarily relocated Families. A Section 8 Existing Housing Program Certificate of Family Participation will be considered adequate rental assistance to a displaced Family under this program, provided that the Family voluntarily selects a suitable unit that meets all requirements of the Existing Housing Program and the Owner of the unit is willing to participate in the Existing Housing Program. The local government must agree to make any necessary payments to permanently displaced Families who

cannot be assisted through the Existing Housing Program, and will be required to sign off on the initial application and the administrative plan. The Owner must agree to make any necessary payments to Families temporarily relocated; however these costs may be included in the establishment of Contract Rents. Owner-occupants and over-income families will not be eligible for permanent or temporary relocation benefits. However, the local government may propose to assist over-income families permanently displaced and/or temporarily relocated from a building being rehabilitated under the program. Should the local government agree to provide over-income families with benefits similar to those provided to eligible Families, the PHA's application will be given a preference in the Field Office's selection among approvable applications.

7. Owners under the Moderate Rehabilitation Program will be subject to the requirements of Title VI of the Civil Rights Act of 1964, Title VIII of the Civil Rights Act of 1968, Executive Orders 11063 and 11246, Section 3 of the Housing and Urban Development Act of 1968, the National Environmental Policy Act, the Clean Air Act, the Federal Water Pollution Control Act, the Davis-Bacon Act (for projects with 9 or more assisted units), Section 504 of the Rehabilitation Act of 1973, the National Historic Preservation Act, (Public Law 89-665), the Archeological and Historic Preservation Act of 1974, Executive Order 11593 on Protection and Enhancement of the Cultural Environment and the Flood Disaster Protection Act of 1973. Since the Program requires an Agreement prior to the commencement of rehabilitation the Owner must comply with all federal requirements specified above 8. The Owner may utilize any type of public or private rehabilitation financing or refinancing that the Owner considers appropriate. It is anticipated that many Owners will finance the rehabilitation through local or state rehabilitation loan programs since the more favorable terms offered by these agencies will allow the Owner to undertake more rehabilitation. Since some Owners may propose to accomplish only \$2000 of rehabilitation, they may not need to obtain a rehabilitation loan but rather may finance the rehabilitation through personal credit; there is no requirement that the Owner finance through a rehabilitation loan. Other types of financing that an Owner might use include conventional loans from private lending institutions or credit unions or loans insured under Title I of the National Housing Act, or Title V of the Housing Act of 1949 (Farmer's Home Administration Programs).

Regarding the origination and marketing of rehabilitation loans under this program, the Department is requesting comments on the willingness of mortgagees to originate such loans for possible inclusion in Government National Mortgage Association (GNMA) mortgage backed securities pools and for purchase for their own portfolios.

9. The responsibilities of a PHA administering the program are being changed significantly and the administrative fee and reimbursement for preliminary costs will be adjusted accordingly. The analysis of the appropriate administrative fee and allowance for preliminary costs will take into account economies of scale in order not to discourage PHAs from selecting Owners of only a small number of units. In addition to most of the functions required of a PHA in the Existing Housing Program, the PHA must perform or subcontract with an entity to perform the following functions:

(a) Public solicitation of Owners to rehabilitate units and lease them to Eligible Families and development of working relationships with landlords, contractors, lending institutions and appropriate associations and groups;

(b) Explanation of program procedures to Owners and all interested groups;

(c) Assessment of the level of rehabilitation necessary and determination of whether the Owner should participate in the Moderate Rehabilitation Program or whether the Existing or Substantial Rehabilitation Programs would be more appropriate;

(d) Provision to Owners of technical assistance in the rehabilitation process, where necessary, including inspection of units to determine the work necessary to bring the units up to program standards, preparation of work write-ups, preparation of cost estimates, preparation of feasibility analyses, financial counseling including assistance in obtaining loans, determination of which energy-conserving improvements will be cost effective, and assistance in hiring a contractor and overseeing the rehabilitation;

(e) Determination of appropriate Contract Rents, including review and approval of the Owner's certification of actual rehabilitation and temporary relocation costs and interest rates on the rehabilitation loan;

(f) Provision to each participating Family of basic information on the operation of the Section 8 Moderate Rehabilitation Program, landlord and tenant responsibilities, and basic program rules, including the fact that the subsidy is tied to the unit and Families are not guaranteed that they will continue to receive housing assistance if they move voluntarily;

(g) Review of proposed leases and/or assistance to Owners in the development of lease forms;

(h) Inspections: (i) prior to the rehabilitation to determine the work that must be accomplished to bring the units up to the Housing Quality Standards, or to prevent imminent failure of major building systems or components, (ii) during rehabilitation to ensure that the work is being accomplished in accordance with the work write-up, (iii) after the rehabilitation is complete and prior to leasing to assure that the work specified in the Agreement was accomplished, and (iv) at least annually to determine that the units are maintained in Decent, Safe, and Sanitary condition; and notifications to Owners and Families (where appropriate) of PHA determinations;

(i) Monitoring of the Owner and contractor to ensure that all equal opportunity requirements and Davis-Bacon requirements (where applicable) are observed;

(j) Explanation of program benefits to occupants of units to be rehabilitated and provision of information and direct assistance in finding suitable alternative housing to any displaced Lower-Income Families; and

(k) Ensuring that proper payments are made to Lower-Income Families temporarily relocated or permanently displaced under the program.

A PHA without rehabilitation experience should not propose to develop that expertise but should subcontract with an experienced entity to perform the rehabilitation-related functions if such an entity is available in the locality. Where an experienced and competent rehabilitation entity is not available in the locality, the PHA may propose to hire staff to perform the rehabilitation related functions required by the program. Since many PHAs do not have expertise in rehabilitation, it is anticipated that they will subcontract with the local agency administering the Section 312 program or a CDBG rehabilitation program to perform many of those functions.

10. The Owner's responsibilities have been expanded to include performing the rehabilitation specified in the Agreement, complying with all federal requirements mentioned in paragraph 7 above, and meeting all other requirements of the Agreement. Owners may fill vacancies by selecting Families on the PHA waiting list or establishing their own waiting list.

11. Contract and budget authority for existing housing, including Moderate Rehabilitation, will be distributed to Field Offices on a "fair share" basis.

12. In addition to the regular application requirements of the Existing Housing Program, an application for Moderate Rehabilitation must include:

(a) A description of the rehabilitation expertise of the PHA or the identity and experience of the PHA's subcontractor.

(b) A statement as to whether the program will be targeted to a specific neighborhood. If the PHA plans to target, a description of the neighborhood and other public and private improvements underway and/or planned for the neighborhood must be provided.

(c) A statement as to the types of financing available and expected to be used in the program (for example, Community Development Block Grant loan programs, Neighborhood Housing Services loan programs, etc.).

(d) A relocation plan, which is part of the administrative plan, detailing how displacement will be minimized, and how relocation policies will be administered and monitored. If the PHA proposes to subcontract with an entity experienced in relocation, this entity must be specified.

(e) A letter of endorsement from the chief executive officer of the local government indicating local support of the application and agreeing to make any necessary payments to permanently displaced Families. The chief executive officer must also sign off on the administrative plan if it is not submitted with the initial application endorsed by the local government.

13. In selecting among approvable applications, ranking will be based upon the Field Office's assessment of which applications have the best combination of the following:

(a) The rehabilitation expertise of the PHA and/or its subcontractor;

(b) The availability of assisted rehabilitation financing;

(c) The concentration of the program in a specific neighborhood where concentrated public and/or private revitalization activities are underway or planned to complement the Moderate Rehabilitation Program. (This criteria will only apply in metropolitan cities and urban counties.);

(d) The PHA's experience with the Section 8 Existing Housing Program and/or the PHA's overall administrative capability;

(e) The potential for achieving, as quickly as possible, rehabilitation and leasing of the units under the program;

(f) Overall feasibility of the proposed program; and

(g) The local government's commitment to provide relocation benefits to over-income families permanently displaced and/or temporarily relocated from buildings being rehabilitated under the program.

14. Taking into consideration the additional time necessary for leasing due to the rehabilitation required, the leasing period for 100 units or more

has been established at 18 months rather than the 12 months specified in the Existing Housing Program.

15. In addition to public notice requirements for Lower-Income Families, the PHA must issue a public notice to Owners that the program is available and specify where and when Owners may submit proposals.

16. Sixty days prior to completion of rehabilitation or when rehabilitation is commenced, whichever is later, if vacancies exist, the PHA will send Eligible Families to the Owner for selection or will determine the eligibility of Families selected from the Owner's waiting list. In either case, the Owner has the responsibility for tenant selection.

17. Before rehabilitation is begun, the PHA and the Owner will enter into an Agreement. This Agreement will specify the work that must be accomplished, deadline dates for the commencement and completion of the rehabilitation, the contract rents which will be paid upon completion, a date for final inspection, and the term of the Housing Assistance Payments Contract.

18. Upon completion of the rehabilitation and the Owner's certification that the rehabilitation has been completed in accordance with the Agreement and all applicable Federal, State, and local requirements, the PHA must conduct a final inspection and either accept or reject the unit(s). The Owner must also certify to the actual costs and the interest rate on any rehabilitation loan. Once the unit(s) has been accepted, the costs verified, and any adjustments made to the Contract Rents, a Housing Assistance Payments Contract will be executed by the PHA and Owner.

19. If an Owner fails to lease to Eligible Families, the PHA may amend the Contract to reduce the number of units which the PHA will assist. The number of units in the Contract will never be reduced below the number of units leased or available for leasing by Eligible Families, plus 10 percent or one unit, whichever is greater. If, however, the Owner has only one unit under Contract, the PHA may cancel the Contract if the Owner fails to lease to Eligible Families.

20. In selecting Families for participation in the program, those residing in the unit(s) at the time of rehabilitation will be automatically selected if eligible. Ineligible families will not be forced to move; however, the HAP Contract will only include units occupied by or available for occupancy by Eligible Families. Families will be selected for vacant units by the Owner from either the PHA's Existing Housing Program waiting list or from the Owner's separate waiting list. If the PHA proposes to concentrate the pro-

gram in a specific neighborhood, the PHA may establish a preference for applicants currently residing in that neighborhood.

21. When briefing Families selected to participate in the program, the PHA must stress that the subsidy is tied to the unit and the Family will be required to occupy a unit being moderately rehabilitated under the program. The PHA must also explain the options available to the Family should they be forced to move or should they wish to move.

22. HUD will perform reviews of each PHA's Moderate Rehabilitation program in order to determine if the quality of the rehabilitation is satisfactory, rehabilitation costs are reasonable, rents are reasonable, and other program requirements are being met. If deficiencies are identified, the PHA will not be allowed to enter into additional HAP Contracts until these deficiencies have been corrected.

It is the finding of this office that the Moderate Rehabilitation Program will not constitute a major federal action having actual or potential impact on the environment and that the procedures of the National Environmental Policy Act of 1969 are not applicable. A copy of this finding is available for public inspection in the Office of the Rules Docket Clerk during regular business hours, at the address specified above.

Accordingly, 24 CFR, Part 882 is proposed to be amended as follows by adding new Subparts D and E:

#### Subpart C—Reserved

#### Subpart D—Special Procedures for Moderate Rehabilitation—Basic Policies

|         |                                                               |

| 882.509 | Rehabilitation period.                                          |

|         |                                                                                  |
|---------|----------------------------------------------------------------------------------|
| Sec.    |                                                                                  |
| 882.510 | Completion of rehabilitation.                                                    |
| 882.511 | Execution of housing assistance payments contract.                               |
| 882.512 | Overcrowded and under occupied units.                                            |
| 882.513 | Adjustment of allowance for utilities and other services.                        |
| 882.514 | Eviction.                                                                        |
| 882.515 | Reduction of number of contract units for failure to lease to eligible families. |
| 882.516 | Public notice to lower-income families; waiting list.                            |
| 882.517 | Family participation.                                                            |
| 882.518 | Reexamination of family income and composition.                                  |

#### Subpart C—[Reserved]

#### Subpart D—Special Procedures for Moderate Rehabilitation—Basic Policies

##### § 882.401. Applicability and Scope.

(a) *General.* This Subpart and Subpart E set forth: (1) the policies and procedures for requests made by Public Housing Agencies (PHAs) for approval by HUD of a Moderate Rehabilitation Program, and (2) the procedures to be used by PHAs in initiating and administering a Moderate Rehabilitation Program.

(b) *Eligible applicants.* PHAs, including HFDAs, eligible to participate in the program are those who (1) have the ability to operate a rehabilitation program, (2) are willing to subcontract with a local public or private agency with rehabilitation expertise, or (3) where an entity with rehabilitation expertise is not available, will develop the capability to operate a rehabilitation program.

(c) *Eligible and ineligible properties.* Any structure requiring and suitable for moderate rehabilitation as defined in Section 882.402 so as to provide rental housing for families eligible for assistance under the Section 8 program is eligible for inclusion under the Moderate Rehabilitation Program, except housing: (1) which is covered by an Agreement to Enter into Housing Assistance Payments Contract or by a Housing Assistance Payments Contract under 24 CFR, Part 800, 801, 880, 881, 883, 885 or 886, or (2) which is owned by the PHA administering the ACC under this Part, or (3) which is a subsidized HUD-insured project, or (4) which is a project with a HUD-held mortgage or is a HUD-owned project. Existing structures of various types may be appropriate for this program including single-family houses, multi-family structures and Independent Group Residences. High rise elevator projects for Families with children may not be utilized unless HUD determines there is no practical alternative. Mobile homes may not be utilized in this program. No Section 8 assistance may be provided with respect to any unit occupied by an Owner; however, cooperatives will be considered as

rental housing for purposes of this program.

(d) *Applicability of Subparts A, B and C.* Sections 882.102 (Definitions), 882.109 (Housing Quality Standards), 882.112 (Security and Utility Deposits), 882.113 (Establishment of Income Limit Schedules; 30 Percent Occupancy by Very Low-income Families), and 882.118 (Responsibility of the Family) of Subpart A and Sections 882.201 (Allocations of Contract Authority to Field Offices), 882.202 (Determination of Number and Types of Units to be Assisted), 882.215 (Eviction), 882.216 (Inapplicability of Low-Rent Public Housing Model Lease and Grievance Procedures), and 882.217 (HUD Review of Contract Compliance) of Subpart B are applicable to the Moderate Rehabilitation Program. Other sections which have been modified for this program are repeated or referenced in Subparts D and E with appropriate amendments. Provisions of Subpart C, Administration of Program by Contract Administrator on Behalf of HUD, which will soon be issued as a proposed rule, may apply to Subparts D and E.

##### § 882.402. Definitions.

In addition to the definitions set forth in Section 882.102, the following will apply:

*Agreement to Enter Into Housing Assistance Payments Contract ("Agreement").* A written agreement between the Owner and the PHA that, upon satisfactory completion of the rehabilitation in accordance with requirements specified in the Agreement, the PHA will enter into a Housing Assistance Payments Contract with the Owner.

*Moderate Rehabilitation.* The rehabilitation of a residential property involving a minimum expenditure of \$2000 per unit in structures containing 12 or fewer units or \$1000 per unit in structures containing more than 12 units, which will:

(a) Upgrade the property to Decent, Safe and Sanitary condition to comply with the Housing Quality Standards, from a condition requiring at least minor repairs or the cure of an accumulation of deferred maintenance (improvements being of a non-luxury nature); or

(b) Prevent the imminent failure of major building systems or components.

Where the property contains nine or more units to be assisted, prevailing wages must be paid for all rehabilitation work performed and other Davis-Bacon requirements must be met.

##### § 882.403. Housing quality standards.

In addition to the standards set forth in Section 882.109, the following will apply:

(a) *Energy Efficiency, Performance Requirement.* Appropriate energy conserving improvements such as insulation, storm doors and windows and caulking must be accomplished by the Owner as part of the rehabilitation under this Part, provided that these improvements are determined by the PHA to be cost-effective over the 15 year term of the HAP Contract. (See Sec. 882.507(d).)

#### § 882.104. Payments for vacancies.

(a) *Vacancies from execution of contract to initial occupancy.* If a Contract unit which has been moderately rehabilitated in accordance with this Subpart is not leased as of the effective date of the Contract, the Owner will be entitled to housing assistance payments in the amount of 80 percent of the Contract Rent for the unit for a vacancy period not exceeding 60 days from the effective date of the Contract provided that the Owner (1) has complied with Section 882.509(d) and (e)(2); (2) has taken and continues to take all feasible actions to fill the vacancy including, but not limited to: contacting applicants on the Owner's waiting list, if any, requesting the PHA and other appropriate sources to refer eligible applicants, and advertising the availability of the units; and (3) has not rejected any eligible applicant except for good cause acceptable to the PHA.

(b) *Vacancies after initial occupancy.* (1) If an Eligible Family vacates its unit (other than as a result of action by the Owner which is in violation of the Lease or the Contract or any applicable law), the Owner may receive housing assistance payments in the amount of 80 percent of the Contract Rent for a vacancy period not exceeding 60 days; provided, however, that if the Owner collects any of the Family's share of the rent for this period in an amount which, when added to the 80 percent payments, resulted in more than the Contract Rent, the excess must be payable to the PHA or as the PHA may direct. The Owner will not be entitled to any payment under this paragraph (b)(1) unless the Owner: (i) immediately upon learning of the vacancy, has notified the PHA of the vacancy or prospective vacancy, and (ii) has taken and continues to take all feasible actions specified in paragraphs (a)(2) and (3) of this section.

(2) If the Owner evicts an Eligible Family, the Owner will not be entitled to any payment under paragraph (b)(1) of this section unless the PHA determines that the Owner complied with all requirements of Section 882.215 and all applicable State and local laws.

(c) *Prohibition of double compensation for vacancies.* The Owner will not be entitled to housing assistance pay-

ments with respect to vacant units under this section if the Owner is entitled to payments from other sources (for example, payments for losses of rental income incurred for holding units vacant for relocatees pursuant to Title I of the HCD Act of 1974 or payments under Section 882.112 (Security and Utility Deposits)).

#### § 882.405. Initial contract rents.

(a) *Fair market rent limitation.* The Gross Rent for any Moderate Rehabilitation unit approved pursuant to 882.508(a)(3) must not exceed the Moderate Rehabilitation Fair Market Rent applicable to the unit on the date that the Agreement is executed except that changes may be made in the Contract Rent subsequent to the signing of the Agreement which result in Gross Rents which exceed the Moderate Rehabilitation Fair Market Rent as provided in paragraph (c) of this section. The Fair Market Rent Schedule for Moderate Rehabilitation will be 120 percent of the Existing Housing Fair Market Rent Schedule in effect when the Agreement is executed.

#### (b) *Determination of contract rents.*

(1) The PHA must establish a base rent for each unit. This base rent will be the average rent charged for the unit during the 18 months preceding the date of the Agreement plus an adjustment for inflation. This adjustment must not exceed the amount obtained by application of the annual adjustment factors established by HUD (see 882.407(a)(1)). If, however, the PHA determines that the rent established by this formula is not a reasonable rent, then the PHA must establish a reasonable rent for that unit to be used as the base rent which may be higher or lower than the formula-established base rent. The PHA must certify for each unit for which it enters into an Agreement that the base rent for the unit is reasonable in relation to rents currently being charged for comparable units in the private unassisted market, taking into account the location, size, type, quality, amenities, facilities and management and maintenance services of the unit. If the base rent exceeds the rent being charged for the unit before rehabilitation by more than 10 percent, the PHA must justify the excess in writing.

(2) Taking into consideration the cost of the rehabilitation proposed in the Agreement and the cost of any necessary temporary relocation payments to be made by the Owner, the potential fifteen year term of the HAP Contract, and the interest rate at which the Owner proposes to secure his rehabilitation loan (the HUD-PHA maximum interest rate for multi-family housing plus ¼ percent Mortgage Insurance Premium will be used

where the Owner does not secure a loan), the PHA must determine the monthly per unit cost to the Owner of repaying a rehabilitation loan over a 15 year term on the proposed improvements.

(3) The Contract Rent for the unit must be the lesser of (i) the base rent as established in paragraph (b)(1) of this section plus the monthly cost of amortization of the rehabilitation loan as established in paragraph (b)(2), or (ii) the Moderate Rehabilitation Fair Market Rent for that unit size (see paragraph (a) of this section), minus any applicable Allowance for Utilities and Other Services attributable to the unit.

(c) *Changes in contract rents.* (1) The Contract Rents established pursuant to paragraph (b) will be the Contract Rents on the effective date of the Contract except under the following circumstances:

(i) When, during rehabilitation, work items are discovered which must be performed to bring the unit(s) to program standards, which were not listed in the work write-up prepared or approved by the PHA, and which will require additional expenditures which would make the rehabilitation infeasible at the Contract Rents established in the Agreement. Under these circumstances, the PHA will:

(A) Approve a change order to the rehabilitation contract, or amend the work write-up if there is no rehabilitation contract, specifying the additional work to be accomplished and the additional cost for this work.

(B) Recompute the Contract Rents, within the limits specified in paragraph (c)(4) of this section, based upon the revised cost estimate, and

(C) Prepare and execute an amendment to the Agreement stating the additional work required and the revised Contract Rents.

(ii) When the actual cost of the rehabilitation performed is less than that estimated in the calculation of Contract Rents for the Agreement.

(iii) When the actual interest rate of the rehabilitation loan differs from that anticipated in the calculation of Contract Rents for the Agreement.

(iv) When the actual relocation payments made by the Owner to temporarily displaced Families varies from the cost estimated in the calculation of Contract Rents for the Agreement.

(2) Should changes occur as specified in (ii), (iii) or (iv) (either an increase or decrease), the PHA will recalculate the Contract Rents in accordance with paragraph (b) of this section and amend the Contract to reflect the revised rents.

(3) The PHA must review and approve the Owner's certification that the rehabilitation costs, temporary relocation costs and interest rate on

which the Contract Rents are based are the actual costs incurred and interest rate obtained by the Owner.

(4) In establishing the revised Contract Rents, the PHA must determine that the resulting Gross Rents do not exceed the Moderate Rehabilitation Fair Market Rent. The Fair Market Rent may only be exceeded when the PHA determines in its calculations specified in paragraph (c)(1)(i) of this section that it will be necessary for the revised Gross Rent to exceed the Moderate Rehabilitation Fair Market Rent. Should this determination be made, the PHA may not execute a revised Agreement until it receives HUD Field Office approval of such an exception. The HUD Field Office may approve revised Gross Rents which exceed the Fair Market Rents by up to 10 percent for reasons specified in paragraph (c)(1)(i) upon proper justification by the PHA of the necessity for the increase.

#### § 882.406. Term of ACC, lease, and housing assistance payments contract.

(a) *Term of ACC.* The term of the ACC will be for seventeen years.

(b) *Term of Housing Assistance Payments Contract.* The Contract for any unit moderately rehabilitated in accordance with Subparts D and E may be for an initial term of not more than five years, with provision for automatic renewal (unless agreed otherwise) for additional terms of not more than five years each, for a total Contract term, including renewals, which must not exceed fifteen years or the remaining term of the ACC, if less.

(c) *Term of Lease.* The term of the Lease for each unit must be for not less than one year nor more than three years.

(d) *Renewals of Contract and Lease.* Any renewal of the Contract and/or Lease term for any unit must in no case extend beyond the shorter of the remaining term of the ACC pertaining to the Contract and the Lease or 15 years from the date of the initial Contract.

#### § 882.407. Rent adjustments.

(a) Contract Rents will be adjusted as provided in paragraphs (a)(1) and (2) of this section upon request to the PHA by the Owner, provided that the unit is in decent, safe, and sanitary condition and that the Owner is otherwise in compliance with the terms of the Lease and Contract. Subject to the foregoing, adjustments of Contract Rents will be as follows:

(1) *Annual Adjustments.* The Annual Adjustment Factors which are published annually by HUD (see Schedule C, 24 CFR Part 888) will be utilized. On each anniversary date of the Contract, the Contract Rents may be adjusted by applying the applicable

Annual Adjustment Factor most recently published by HUD. These increased Contract Rents must then be examined in accordance with paragraph (b) of this section and may be adjusted accordingly. Contract Rents may be adjusted upward or downward, as may be appropriate; however, in no case may the adjusted rents be less than the Contract Rents on the effective date of the Contract.

(2) *Special Adjustments.* A special adjustment, subject to HUD approval, to reflect increases in the actual and necessary expenses of owning and maintaining the unit which have resulted from substantial general increases in real property taxes, utility rates, assessments and utilities not covered by regulated rates, may be recommended for approval by the PHA but only if and to the extent that the Owner clearly demonstrates that these general increases have caused increases in the Owner's operating costs which are not adequately compensated for by annual adjustments. The Owner must submit financial information to the PHA which clearly supports the increase. For projects of more than twelve units, the Owner must submit audited financial information.

(b) *Overall Limitation.* Notwithstanding any other provisions of this Part, adjustments as provided in this section must not result in material differences between the rents charged for assisted and comparable unassisted units, as determined by the PHA (and approved by HUD in the case of adjustments under paragraph (a)(2)). However, this limitation should not be construed to prohibit differences in rents between assisted and comparable unassisted units to the extent that differences existed with respect to the initial Contract Rents.

#### § 882.408. Relocation for section 8 moderate rehabilitation.

(a) *Minimizing Displacement and Temporary Relocation.* Moderate rehabilitation by its nature of not involving substantial renovation should not, except in unusual circumstances, require the permanent displacement of families. Additionally, temporary relocation should be minimal since much of the work should be accomplished with tenants in residence. To further minimize displacement and relocation PHAs may propose in their administrative plan to exclude the selection of projects where permanent displacement or temporary relocation will be necessary. Although displacement and temporary relocation should be minimal, some relocation will be unavoidable and benefits to displacees must be provided as specified in this section.

(b) *Applicability of Uniform Act.* Title II of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (Uniform Act) applies to certain displacements occurring as a result of a PHA's acquisition or order to vacate real property, issued in connection with acquisition, for a project. HUD regulations governing displacements under the Uniform Act are set forth at 24 CFR Part 42. Any family or individual, occupying a unit to be rehabilitated pursuant to this Subpart and who meets the definition of a "displaced person," as defined in 24 CFR 42.20(d), must be provided relocation payments and assistance in accordance with 24 CFR Part 42, as modified by paragraphs (c) through (j) of this section including the obligation placed on the local government.

(c) *Tenants Displaced by Private-Owner Rehabilitation.* Although the Uniform Act does not apply to the displacement of tenants as a result of rehabilitation by a private owner for a Section 8 project, HUD has determined that any Lower-Income Family or individual that is a tenant (not an owner-occupant) occupying a unit to be rehabilitated pursuant to this Subpart on the date the PHA notifies the Owner that the proposal is approvable (see Section 882.507(b)) and who is thereafter required to move, will be eligible for relocation payments and assistance to be determined on the same basis as provided by 24 CFR Part 42, as modified by paragraphs (d) through (j) of this section, as if the tenant were a "displaced person" within the meaning of the Uniform Act. For purposes of the regulations at 24 CFR Part 42, the PHA notification that the Owner's proposal is approvable will be deemed to be the "initiation of negotiations."

(d) *Notice of Right to Continue in Occupancy.* No later than 30 days after the PHA notification of the approval of the proposal the PHA must furnish each residential tenant, occupying a unit to be rehabilitated under the program who will not be displaced, a written notice of the tenant's right to continue in occupancy. The notice must contain the following conditions:

(1) The tenant must have the right to lease and occupy a decent, safe, and sanitary dwelling which is either the current dwelling or a comparable dwelling located within the same building or nearby building located on the same site, for a continuous period of at least four years. The four-year period will begin on the date of PHA notification of the approval of the proposal, or the date the dwelling is placed in decent, safe, and sanitary condition, or the termination date of any required temporary relocation, whichever is later.

(2) The amount of rent payable by the tenant must be determined in accordance with 24 CFR Part 889 and any necessary subsidy must be provided pursuant to this Subpart.

(3) The tenant must not be required to move from the dwelling units other than for cause unless the move is necessary to permit rehabilitation. If a move is required:

(i) Not more than one temporary relocation by the tenant may be required;

(ii) The temporary relocation, if any, must not exceed twelve months in duration;

(iii) A decent, safe, and sanitary dwelling must be available to the tenant for the period of any temporary relocation; and

(iv) The Owner must pay actual reasonable out-of-pocket expenses, including any moving costs or increase in monthly housing costs, incurred by any "eligible" tenant in connection with the move, any temporary relocation, or both.

(4) If the tenant is required to vacate the dwelling during the four-year period for any reason other than for cause, or if any of the commitments to the tenant under this notice of right to continue in occupancy are not met, the tenant will automatically be deemed to have been issued a notice of displacement as described in paragraph (e) of this section and to be entitled to relocation payments and other relocation assistance available to displaced persons provided under 24 CFR Part 42, as modified by this section.

(e) *Notice of displacement.* Not later than 30 days after the PHA notification of the approval of the proposal, the PHA must issue a written notice of displacement to each residential tenant occupying a unit to be rehabilitated under the program who will be displaced. The notice must state that if the tenant moves or moves personal property from the property on or after the date of PHA notification of approval of the proposal, the tenant will be entitled to certain relocation payments and other assistance which must be described, including the maximum allowable dollar amount or range of each payment for which the tenant will apparently be eligible, the conditions of eligibility, and the procedures for obtaining the payment(s).

(f) *Automatic notice of displacement.* If a tenant is not issued a written notice of displacement or a notice of right to continue in occupancy within 30 days after the date of the PHA notification of the approval of the proposal, the tenant will be deemed to have been issued a notice of displacement effective on the date of the PHA notification of the approval of the proposal.

(g) *Tenants Continuing in Occupancy.* The PHA must take such steps as may be necessary to insure that no tenants who continue in occupancy under the provisions of this section are subjected to an unreasonable change in the character of their immediate environment without being given the opportunity to move and qualify for relocation assistance as a displaced person. For example, an elderly tenant may not be subjected without alternatives to a sharp increase in the number of children occupying nearby units. Additionally, in determining whether temporary relocation is necessary to facilitate the rehabilitation, the Owner and PHA must consider any hardships likely to result if the Family occupies the property during the rehabilitation.

(h) *Section 8 Assistance to Tenants Permanently Displaced by Private Owner.* The PHA must offer a residential tenant of a unit to be rehabilitated under the program who has been or will be permanently displaced by an Owner a Certificate of Family Participation under the Existing Housing Program (Subparts A and B). If the displaced Family moves to a replacement rental dwelling unit which meets the requirements of the Existing Housing Program and the landlord of the replacement rental dwelling unit is willing to participate in that program, the rental assistance responsibilities of the local government will be determined to be met. Should the Family not move to a suitable unit under the Existing Housing Program or should the PHA not have a Certificate available for the Family, a rental assistance payment and other benefits described in 24 CFR Part 42 must be provided.

(i) *Manner of Notices.* Any notice required under this section must be personally served, receipt documented, or sent by certified or registered first-class mail, return receipt requested.

(j) *Responsibility for Relocation Payments and Assistance.*

(1) The PHA will have the administrative responsibility for assuring that appropriate relocation payments consistent with 24 CFR Part 42 as modified by this section are made to displaced or temporarily relocated Families and will be directly responsible for providing all services specified in 24 CFR Part 42.

(2) The provision of payments to Families permanently displaced, where the Family cannot be assisted as specified in paragraph (h), will be the responsibility of the local government. Unless the local government agrees, in writing, to assume responsibility for providing permanent relocation payments from funds other than those provided under this program, an application for Moderate Rehabilitation from the PHA will not be consid-

ered approvable. In addition, since a HAP Contract will not be executed on a unit occupied by an over-income family, the local government will not be required to provide relocation benefits to these families. However, the local government may propose to provide assistance similar to that provided for Eligible Families to over-income families being permanently displaced and/or temporarily relocated from units in buildings where units are being rehabilitated under the Moderate Rehabilitation Program. Should the local government agree to provide relocation benefits to over-income families, this agreement must be specified in the administrative plan submitted by the PHA and signed by the chief executive officer. Additionally, should the local government agree to provide this assistance, the PHA's application will receive a preference in the Field Office's selection among approvable applications.

(3) The provision of payments to Families temporarily relocated will be the responsibility of the Owner. The Contract Rent computation, as specified in Section 882.405(b), may include relocation costs; however, the Owner must make the payments. No Owner will be selected for participation in the program unless the Owner agrees, in the Agreement, to assume this responsibility.

#### § 882.409. Other Federal Requirements.

Participation in this program requires compliance with the Equal Opportunity requirements specified in 882.111 as well as the rules, regulations and requirements of the following:

- (a) Executive Order 11246;
- (b) Clean Air Act and Federal Water Pollution Control Act;
- (c) Davis-Bacon Act;
- (d) Section 504 of the Rehabilitation Act of 1973;
- (e) National Historic Preservation Act (Public Law 89-665);
- (f) Archeological and Historic Preservation Act of 1974;
- (g) Executive Order 11593 on Protection and Enhancement of the Cultural Environment;
- (h) National Environmental Policy Act of 1969; and
- (i) Flood Disaster Protection Act of 1973.

#### § 882.410. Financing.

(a) *Types.* Any type of public or private financing may be utilized.

(b) *Use of Contract as Security for Financing.* An Owner may pledge, or offer as security for any loan or obligation, an Agreement or Contract entered into pursuant to this Part in accordance with the provisions of that Agreement or Contract.

#### § 882.411. Subcontracting of Owner Responsibilities.

Any Owner may contract with any private or public entity to perform for a fee the services required by the Agreement, Contract or Lease, provided that such contract may not shift any of the Owner's responsibilities or obligations, and provided further that no such contract may be entered into with an entity which is responsible for administration of the Agreement or Contract. If the Owner and a PHA wish to enter into a management or rehabilitation contract, they may do so provided that the Housing Assistance Payments Contract with respect to the housing involved is administered by another PHA or by HUD or an entity acting on behalf of HUD and authorized by HUD pursuant to Subpart C of the regulations.

#### Subpart E—Special Procedures for Moderate Rehabilitation Program Development and Operation

#### § 882.501. Distribution of Funds.

(a) *Contract and Budget Authority.* The amount of contract and budget authority available for the Moderate Rehabilitation Program will be a portion of the funds available for the Section 8 Existing Housing Program.

(b) *Allocation of Funds.* (1) Contract and budget authority will be assigned to and allocated for metropolitan and non-metropolitan areas by each HUD Field Office pursuant to 24 CFR Part 891, Review of Applications for Housing Assistance; Allocation of Housing Assistance Funds.

(2) Each Field Office must announce by publication the availability of Moderate Rehabilitation contract authority and the approximate number of units which the authority will support within the Field Office's jurisdiction.

#### § 882.502. Invitations for Moderate Rehabilitation Program Applications.

(a) *Sending of Invitation.* The HUD Field Office must initiate implementation of its program with respect to Moderate Rehabilitation by sending invitations for Moderate Rehabilitation Program applications for areas in the Field Office's jurisdiction where the Housing Assistance Plan (HAP) indicates a goal for Existing Housing and where there is a supply of housing in need of and suitable for moderate rehabilitation. These invitations may solicit applications for both the Existing Housing Program and Moderate Rehabilitation Program or may request only Moderate Rehabilitation applications. These invitations must be distributed in the same manner as specified in Section 882.203(a).

(b) *Contents of Invitation.* The invitation must indicate: (1) that applications may be submitted by public

housing agencies (i.e., any State, county, municipality, or other governmental entity or public body (or agency or instrumentality thereof) which is authorized to engage in or assist in the development or operation of low-income housing), (2) the contract authority available and the estimated number of units the authority is expected to support, for both metropolitan and non-metropolitan areas, (3) the deadline for submission of applications (which will generally be 60 days but must be at least 15 calendar days after the date invitations are sent (see paragraph (a) of this section), (4) the fact that copies of the application, other forms, and program regulations may be obtained from the Field Office, and (5) such other basic information as the Field Office may specify. If the invitation is for both Existing Housing and Moderate Rehabilitation applications, the invitation must also contain the information specified in Section 882.203(b).

#### § 882.503. Submission of Application.

The application for a Moderate Rehabilitation Program will be submitted by a PHA to the HUD Field Office. Advice and assistance in the preparation of the application are available from the HUD Field Office.

(a) *Contents.* The application must:

(1) Indicate the types of housing (i.e., detached, walkup, elevator) likely to be utilized in the proposed project.

(2) Indicate the total number of units expected to be utilized by unit size (number of bedrooms) and the approximate number of units for occupancy by elderly, handicapped, or disabled.

(3) Demonstrate that the units requested in paragraph (a)(2) of this section are consistent with the applicable Housing Assistance Plan, as required by 24 CFR Part 891, or in the absence of such a Plan, that the proposed application is responsive to the condition of the housing stock in the community and the housing assistance needs of Lower Income Families residing in or expected to reside in the community.

(4) Demonstrate that the applicant qualifies as a PHA and is legally qualified and authorized to participate in the Section 8 Moderate Rehabilitation Program for the area in which the program is to be carried out and include in such demonstration (i) the relevant enabling legislation, (ii) any rules and regulations adopted or to be adopted by the agency to govern its operation, and (iii) a supporting opinion from the agency counsel. If the PHA already has an ACC for an Existing Housing Project, this demonstration will not be required if the PHA submits a statement that they are qualified to participate based on the same documentation.

(5) Include a statement that the housing quality standards to be used in the operation of the program will be those set forth in Section 882.109 and Section 882.403 or that variations in the Acceptability Criteria are proposed. In the latter case, each proposed variation must be specified and justified. Should the PHA propose to use local code standards which are more restrictive than the Housing Quality Standards, no justification need be submitted.

(6) Include a proposed schedule specifying the number of units to be leased by quarter.

(7) Include a description of the rehabilitation expertise and experience of the PHA. If the PHA proposes to subcontract with a city rehabilitation agency or private rehabilitation entity, the PHA must specify the subcontractor and detail the subcontractor's experience in rehabilitation. A memorandum of intent between the PHA and any subcontractor specifying the obligations of each party must be submitted with the application. A PHA without rehabilitation expertise should not propose to hire staff to perform these functions but should subcontract with an experienced and qualified agency or entity if such an entity exists. Should the PHA not have the expertise or should an entity with such expertise not be available, the PHA must demonstrate how it proposes to obtain that expertise and detail the qualifications of any staff to be hired, if known, in the application.

(8) Include a description of the PHA's experience in administering housing or other programs and provide other information which evidences present or potential management capability for the proposed program including experience with the Section 8 Existing Housing Program.

(9) Indicate whether the program will be concentrated in a specific neighborhood(s). If the PHA proposes to concentrate its activities in a specific neighborhood(s) the application must contain a map outlining the neighborhood boundaries and a description of neighborhood characteristics as well as a letter from the chief executive officer of the local government indicating the locality's endorsement of the application and describing other public and private improvements underway and/or planned for this neighborhood to complement the Moderate Rehabilitation Program.

(10) Indicate the types of financing expected to be used under the program particularly federal, state or locally assisted financing programs, and describe the availability of the financing. Commitments from these financing sources as to their willingness to finance rehabilitation under this program should be submitted where avail-

able. Types of financing could include but are not limited to Community Development Block Grant loan and grant programs, State Agency rehabilitation loan programs, Neighborhood Housing Services programs and private rehabilitation loan programs. HUD mortgage insurance programs may be used to help secure financing.

(11) Include a description of the PHA's expertise in providing relocation assistance to displaced families. If the PHA proposes to subcontract with another local agency or private entity to provide the services required in Section 882.408, the agency or entity must be identified and its experience in relocation summarized. A statement from the chief executive officer of the local government (which states that the local government will assume the responsibilities as required in Section 882.408) must accompany the application. Additionally, the PHA must indicate that it will provide a preference for Certificates in its Section 8 Existing Housing Program to Families displaced as a result of moderate rehabilitation or should provide a statement from the PHA administering the Section 8 Existing Housing Program in the area that it will provide such a preference. The PHA should also indicate the availability of Certificates for relocation purposes.

(12) Include a statement from the chief executive officer of the local government indicating local government approval of the submission of the application, stating that the application is consistent with the local Housing Assistance Plan, if any, and providing additional comments. The statement should indicate that the chief executive officer understands that these comments are being provided in conformance with Section 213 of the HCD Act of 1974 and that no further opportunity for comment will be given by the field office.

(b) *Other Submissions.* For each application, or in a combined submission covering several applications, the PHA must submit the following items with the application(s) or after application approval but no later than with the PHA-executed ACC. If the administrative plan specified in paragraph (4) is submitted after application approval, the chief executive officer of the local government must sign off on the plan agreeing particularly to the relocation plan and the local government responsibilities contained therein.

(1) An equal opportunity housing plan.

(i) The plan must describe the PHA's policies and procedures for:

(A) Fulfilling the requirements of Section 882.506(a), Public Notice to Owners, and Section 882.516, Public Notice to Lower-Income Families.

(B) Achieving the participation of Owners of units in areas outside low income and minority concentrations, unless the PHA has indicated that the program will be confined to a specific neighborhood receiving coordinated improvements (see paragraph (a)(9)).

(C) Selecting among Owners' proposals to determine which proposals will be approved, including any local preferences for selection and the preferences specified in Section 882.506(d).

(D) Selecting among eligible applicants those to participate in the program, including the preference for Families living in units being rehabilitated under the program and any provisions establishing local preferences for selection.

(i) The plan must also include signed certification of the applicant's intention to comply with Title VI of the Civil Rights Act of 1964; Title VIII of the Civil Rights Act of 1968; Executive Order 11063; and if the housing assistance will be used within a locality which has a Housing Assistance Plan, a certification that the PHA will take affirmative action to provide opportunities to participate in the program to persons expected to reside in the locality because of present or planned employment as indicated in the Housing Assistance Plan.

(2) Estimates of financial requirements for preliminary costs, administrative costs and housing assistance payments on the prescribed forms.

(3) A proposed schedule of Allowance for Utilities and Other Services with a justification of the amounts proposed.

(4) An Administrative Plan.

(i) The plan must contain: a statement of the PHA's overall approach and objectives in administering the Moderate Rehabilitation Program, a description of the procedures to be used in carrying out each administrative function, and a statement of the number of employees proposed for the program, by position and functions to be performed. Where a subcontractor such as the Community Development Agency, other local government staff or private entity will be utilized to perform any of the functions of the PHA, the staff and procedures of the subcontractor must be described.

(ii) The following functions should be addressed in addition to those required in Section 882.204(b)(3)(ii): outreach to Owners; selection of units; initial inspection of units; preparation of work write-ups; preparation of cost estimates; establishment of rents; financing counseling; preparation of loan applications; assistance to Owner in the selection of contractors; execution of Agreements and Contracts; oversight of rehabilitation including inspection of units during rehabilitation; final inspection of units; verifica-

tion of actual costs incurred by the Owner; and rehousing Families who move.

(iii) The plan must also contain the relocation plan of the PHA. This relocation plan must detail how displacement will be minimized and under what circumstances displacement will be allowed. The plan must clearly delineate the responsibilities of the local government, PHA, and Owners as specified in Section 882.408 and must indicate how the PHA will monitor the program to assure that proper relocation payments and assistance are provided. Additionally, it must be stated that no Owner will be selected for participation unless that Owner agrees to make relocation payments to those Families temporarily relocated, in accordance with Section 882.408.

#### § 882.504 Processing of Applications.

(a) *Initial Screening of Applications.* Promptly after receipt of an application, the HUD Field Office will determine whether or not the application is complete. If an application is incomplete, the PHA must be so notified and will be given until the deadline date or, if necessary, a reasonable time thereafter within which to complete the application.

(b) *Evaluation of Applications.* HUD may begin its evaluation immediately upon receipt of the application, but no final decision of approval or disapproval of the application may be made until after the deadline for receipt of applications. Each application will be evaluated by HUD on the basis of all pertinent factors under this Part. In selecting among approvable applications, ranking will be based upon the Field Office's assessment of which applications have the best combination of the following:

(1) The demonstrated capacity of the PHA and/or its subcontractor(s) to provide the technical assistance to Owners required under the program;

(2) The availability of assisted financing resources as demonstrated through commitments from financing agencies (for example, local Community Development or state agency rehabilitation loan programs);

(3) The concentration of the program in a neighborhood and the viability of the neighborhood selected including the locality's demonstrated commitment to the neighborhood. This criteria will only be applicable to applications from PHAs in metropolitan cities and urban counties (as defined in 24 CFR Part 570).

(4) The PHA's experience with the Section 8 Existing Housing Program and/or the PHA's overall administrative capability;

(5) The potential of achieving, as expeditiously as possible, the rehabilita-

tion and leasing of housing units under this Subpart;

(6) The overall feasibility of the proposed program; and

(7) The local government's commitment to provide relocation benefits similar to those provided to Eligible Families to over-income families permanently displaced and/or temporarily relocated from buildings being rehabilitated under the program.

(c) *Disapproval, Conditional Approval, or Approval of Applications.* If an application is disapproved, HUD must notify the PHA by letter indicating in detail the reasons for disapproval. If an application can be approved only if certain changes are made, HUD must notify the PHA by letter stating that the application can be approved if the PHA adopts, within a specified reasonable time as determined by HUD, the changes required by HUD. If an application is approved, the PHA will be sent a notification of application approval.

#### § 882.505 Annual Contributions Contract; Schedule of Leasing.

(a) *Maximum Total ACC Commitment.* The maximum total annual contribution that may be contracted for will be the total for all the units of the Moderate Rehabilitation Fair Market Rents.

(b) *Transmittal of ACC and Execution of ACC by HUD.* These functions must be performed as specified in Sections 882.206(a) and (b).

(c) *Schedule of Leasing.* The ACC will include a provision relating to expeditious leasing of units under the program. HUD will review the PHA-proposed schedule specifying the number of units that are expected to be leased by the end of each three-month period, and will make such changes as it determines to be appropriate. In its transmittal of the ACC to the PHA, HUD will include the HUD-approved schedule. This schedule will be established so as to implement HUD policy that all units in a Section 8 Moderate Rehabilitation program of 100 units or more must be leased by Eligible Families within 18 months. In the case of smaller programs, a shorter time period may be established by HUD. HUD may modify the unit mix and/or reduce the number of units and/or the amount of the annual contributions commitment if, in the determination of HUD, the PHA fails to demonstrate a good faith effort to adhere to this schedule or if other reasons justify a reduction in the number of units or change in the unit mix.

#### § 882.506 Public Notice to Owners.

Promptly after receiving the executed ACC, and thereafter as may be necessary, the PHA must make known to

the public through publication in a newspaper of general circulation as well as through minority media and other suitable means, the availability and nature of the program. The notice must inform Owners where they may apply for the program and must be made in accordance with the PHA's HUD-approved equal opportunity housing plan and with the HUD guidelines for fair housing requiring the use of the equal housing opportunity logo-type, statement and slogan.

(b) *Owner Proposals.* The PHA must develop a proposal format for Owners wishing to apply for participation in the program which will require, at a minimum, the following information: (1) Name, address and phone number of Owner, (2) Address of property to be rehabilitated, (3) Number, type (elevator/non-elevator) and bedroom size of unit(s) to be rehabilitated, (4) Rent(s) charged by bedroom size during the previous 18 months and the last time the rents were changed on each unit, (5) Number and size of vacant unit(s), (6) Number of units the Owner proposes to be assisted after rehabilitation, (7) Whether the Owner anticipates that permanent displacement or temporary relocation of tenants will be necessary and the anticipated length of any temporary relocation. (If temporary relocation is anticipated, the Owner must indicate whether he is willing to assume the responsibilities specified in 882.408.), (8) The prior participation of the Owner in HUD programs, and (9) Whether the Owner intends to select tenants from the PHA's waiting list or a separate waiting list. If the Owner proposes to develop a separate waiting list and is applying for 5 or more units, the Owner must also be required to submit an Affirmative Fair Housing Marketing Plan.

(c) *Waiting List.* The PHA should establish and maintain a pool of approvable Owner proposals.

(d) *Selection of Owner Proposals.* The PHA must establish a method of selecting among Owner proposals. Proposals must be approved in accordance with criteria established by the PHA, including any PHA rules for preferences as approved by HUD (see Section 882.503(b)(1)(i)(C)). A preference in selection must be provided to those proposals specifying no or only minimal permanent displacement or temporary relocation. No proposal may be approved unless the Owner agrees to assume the responsibility for all temporary relocation payments as specified in Section 882.408.

#### § 882.507 Assistance to Owners.

(a) *Initial Inspection.* Once an Owner's proposal has been approved, the PHA must inspect the property, with the Owner if possible. A determi-

nation must be made by the PHA as to the specific work items which need to be accomplished to bring the unit(s) up to the Housing Quality Standards specified in Section 882.109 and Section 882.403 and/or to prevent the imminent failure of major building systems or components. The PHA, as soon as possible following the inspection, must provide the Owner with a written list of the deficiencies.

(b) *Preliminary Feasibility Analysis.* A rough cost estimate and cash flow analysis of the property following rehabilitation must be made by the PHA. If it is determined at this point that the allowable rents will not support the amount of rehabilitation necessary and thus the undertaking will not be financially feasible, the Owner must be informed of the PHA decision and should be encouraged to apply for the Section 8 Substantial Rehabilitation Program if contract authority is available for that locality. If the PHA finds the proposal infeasible, the Owner must be given the opportunity to dispute the PHA's determination; however, once the Owner's arguments have been considered the PHA will have the final decision in the matter. If the PHA still maintains that the proposal is infeasible, it must select another proposal.

The PHA must request Families residing in the unit(s) to submit applications and must determine the eligibility of the Families. Eligible Families must be briefed on their rights and responsibilities under the program (Section 882.517(c)). The Owner must be informed that ineligible families will be allowed to remain in occupancy; however, an Agreement will not be entered into on any unit occupied by an ineligible family. If it is determined that permanent displacement or temporary relocation will be necessary, requirements of Section 882.403 must be followed.

(c) *Work Write-ups and Cost Estimates.* Should the Owner agree with the assessment of the PHA, both as to the work that must be accomplished and the preliminary feasibility of the project, the Owner with the assistance of the PHA where necessary, must prepare detailed work write-ups including specifications and plans (where necessary) so that a cost estimate may be prepared. The work write-up will describe how the deficiencies specified in paragraph (a) of this section are to be corrected including minimum acceptable levels of workmanship and materials. From this work write-up, the Owner, with the assistance of the PHA, must prepare a cost estimate for the accomplishment of all items specified in this section.

(d) *Feasibility Analysis.* Once cost estimates have been secured, a feasibility analysis of the project must be

conducted by the PHA and Owner. The cost of temporary relocation must be estimated and this amount included in the feasibility analysis. Temporary relocation costs may be considered as a rehabilitation cost and the debt service on the total rehabilitation and relocation costs should be established. All debt service and operating costs must be compared by the PHA to the projected income to determine if and under what circumstances it will be feasible for the Owner to undertake the rehabilitation. The feasibility of various energy conserving improvements must be established at this stage, and where it is determined by the PHA that such improvements will be cost effective over the 15 year term of the Contract, the Owner must provide these improvements.

(e) *Financing.* The PHA must discuss with the Owner the various financing options available. The PHA, where necessary, must also assist the Owner in the preparation of an application for rehabilitation financing when the Owner determines that such financing will be necessary.

(f) *Preparation of Lease Form.* The PHA, where necessary, must assist the Owner in the preparation of a form of tenant Lease which meets the following requirements:

(1) *Term Of Lease.* The term of the lease must be consistent with Section 882.406(c).

(2) *Required Provisions.* The Lease must contain the HUD-prescribed provisions referred to in Section 882.210(f)(2).

(3) *Prohibited Provisions.* The Lease must not contain any clause which falls within the classifications of HUD-prescribed prohibited lease provisions referred to in Section 882.210(f)(3).

#### § 882.508. Agreement to Enter Into Housing Assistance Payments Contract.

(a) *Provisions.* Prior to the commencement of any rehabilitation under this Part, the PHA must enter into an Agreement with the Owner which contains the following:

(1) A statement that the Owner agrees to bring the unit(s) into compliance with the Housing Quality Standards of the program in accordance with the work write-up specified in Section 882.507(c).

(2) A date by which rehabilitation will have commenced and a deadline date by which the rehabilitation will be completed and the unit(s) ready for occupancy.

(3) An anticipated Contract Rent which will be paid to the Owner once rehabilitation is completed, the Contract is executed, and an Eligible Family is occupying the unit(s). This rent will be established in accordance with Section 882.405(b); however, the Contract Rent plus any Allowance for

Utilities or Services must not exceed the applicable Moderate Rehabilitation Fair Market Rent limitation.

(4) A date for final inspection of the unit(s) by the PHA and the Owner must be specified. This date must be as soon as possible after the deadline date specified pursuant to paragraph (a)(2) of this section.

(5) The term of the Contract. The term must be consistent with Section 882.406(b).

(b) *Preparation and Execution.* The Agreement must be prepared by the PHA in the form prescribed by HUD and include all required information in paragraph (a) of this section and a statement specifying the Owner's responsibility for making relocation payments to Families temporarily displaced. The PHA will transmit to the Owner at least two copies of the unexecuted Agreement. After the Owner executes the copies, he must return them to the PHA who will execute the Agreement, returning one copy to the Owner and retaining at least one copy for its records.

#### § 882.509. Rehabilitation Period.

(a) *Timely Performance of Work.* After execution of the Agreement, the Owner must promptly proceed with the rehabilitation work as provided in the Agreement. In the event the work is not so commenced, diligently continued, and/or completed, the PHA will have the right to rescind the Agreement, or take other appropriate action.

(b) *Delays.* Although extensions of time may be granted, no increases in Contract Rents may be granted for delays.

(c) *Changes.* (1) The Owner must submit to the PHA for approval any changes from the work specified in the Agreement which would materially reduce or alter the Owner's obligations or the quality or amenities of the project. The PHA may condition its approval of such changes on a reduction of the Contract Rents. If changes are made without prior PHA approval, the PHA may determine that Contract Rents must be reduced or that the Owner must remedy any deficiency as a condition for acceptance of the project.

(2) Contract Rents may not be increased except in accordance with provisions of Section 882.405(c). Should an increase in Contract Rents be necessitated by changes in local codes or ordinances or other unanticipated changes in work items, an increase will only be approved if PHA approval is obtained prior to incorporation of any changes in the project.

(d) *Vacancies from Execution of HAP Contract to Initial Occupancy.* At the time the contract is executed, the Owner will be required to submit a

list of dwelling unit(s) leased as of the effective date of the Contract and a list of the unit(s) not so leased, if any. The Owner will be entitled to housing assistance payments for any unleased unit(s), pursuant to Section 882.404(a), only if he has fully complied with the requirements of that section and of this paragraph.

(e) *Initial Occupancy.* (1) In filling a vacant unit(s) which is being rehabilitated under the program, the Owner may select from those Eligible Families on the PHA's waiting list or may develop a separate waiting list in accordance with the approved Affirmative Fair Housing Marketing Plan, if applicable. (i) Should an Owner wish to house a family not on the PHA waiting list, the PHA must determine the eligibility of the family for the program. If the family is determined eligible, it must be briefed in accordance with Section 882.517(c) and assisted under the program. (ii) Should the Owner wish not to maintain a separate waiting list the PHA will be responsible for referring Eligible Families to the Owner for selection for any vacant unit(s) that the Owner is rehabilitating under the program.

(2) In order that the unit(s) might be promptly occupied, 60 days prior to the completion of the rehabilitation, or when rehabilitation is begun, whichever is later, the Owner must (i) notify the PHA of any unit(s) which it is anticipated will be vacant on the anticipated effective date of the Contract or (ii) have the families selected by the Owner contact the PHA. If the Owner wishes to select Families from the PHA waiting list, the PHA will notify an appropriate size Family on its waiting list of the availability of the unit. (Since the Owner is responsible for tenant selection, the Owner may refuse any Family provided that the Owner does not unlawfully discriminate. Should the Owner reject a Family, the Family will be returned to the waiting list and the PHA will notify the next appropriate size Family on its waiting list of the availability of the unit.) If the Owner selects a family from the Owner's waiting list, the PHA must determine the eligibility of the Family for participation in the program pursuant to Section 882.517(a).

#### § 882.510. Completion of Rehabilitation.

(a) *Notification of Completion.* The Owner must notify the PHA when the work is completed and submit to the PHA the evidence of completion and cost certifications described in paragraph (b) and (c) of this section.

(b) *Evidence of Completion.* Completion of the project must be evidenced by furnishing the PHA with the following:

(1) A certificate of occupancy and/or other official approvals as required by the locality.

(2) A certification by the Owner that:

(i) The unit(s) has been completed in accordance with the requirements of the Agreement;

(ii) The unit(s) is in good and tenable condition;

(iii) The unit(s) has been rehabilitated in accordance with the applicable zoning, building, housing and other codes, ordinances or regulations, as modified by any waivers obtained from the appropriate officials;

(iv) Any unit(s) built prior to 1950 is in compliance with applicable HUD Lead Based Paint regulations (24 CFR Part 35); and

(v) If applicable, the Owner has complied with the provisions of the Agreement relating to the payment of not less than prevailing wage rates and that to the best of the Owner's knowledge and belief there are no claims of underpayment in alleged violation of said provisions of the Agreement. In the event there are any such pending claims to the knowledge of the Owner or PHA, the Owner will be required to place a sufficient amount in escrow, as determined by the PHA, to assure such payments.

(c) *Actual Cost and Interest Rate Certifications.* The Owner must provide the PHA with a statement of the costs incurred for the rehabilitation and any temporary relocation as well as the interest rate obtained for any rehabilitation loan. The Owner must certify that these are the actual costs and interest rate. The PHA must verify these costs and establish the Contract Rents as provided in Section 882.405.

(d) *Review and Inspections.* (1) Within five working days of the receipt of the evidence of completion, the PHA must review the evidence of completion for compliance with paragraph (b) of this section.

(2) Within the same time period, a PHA representative must inspect the unit(s) in a manner sufficient to enable the inspector to report that the project has been completed in accordance with the Agreement and meets the Housing Quality Standards of the program. If the inspection discloses defects or deficiencies, the inspector must report these in detail.

(e) *Acceptance.* If the PHA determines from the review and inspection that the project has been completed in accordance with the Agreement, the unit(s) will be accepted.

(f) *Acceptance Where Defects or Deficiencies Reported.* If the unit(s) is not acceptable under paragraph (d), the PHA must determine whether and to what extent the defects or deficiencies can be corrected, what corrections are

essential to permit the PHA to accept the project, whether and to what extent a reduction of Contract Rents will be required as a condition to acceptance of the unit(s), and the extension of time required for the remaining work to be done. The Owner must be notified of the PHA's determinations and, if the Owner agrees to comply with the conditions, an addendum to the Agreement must be entered into, specifying the remaining work, pursuant to which the defects or deficiencies will be corrected and the unit(s) then accepted. If the Owner is unwilling to enter into such an addendum or fails to perform under the addendum, the units will not be accepted. Paragraphs (a), (b), (c), (d) and (e) will apply when the remaining work is completed satisfactorily.

(g) *Notification of Non-acceptance.* If the PHA determines that, based on the review of the evidence of completion and inspection, the unit(s) cannot be accepted, the Owner must be promptly notified of this decision and the reasons.

#### § 882.511. Execution of Housing Assistance Payments Contract.

(a) *Time of Execution.* Upon acceptance of the unit(s) by the PHA pursuant to Section 882.510(e), the Contract will be executed first by the Owner and then by the PHA. The effective date must be no earlier than the PHA inspection which provides the basis for unconditional acceptance.

(b) *Changes from Agreement.* The Contract Rents may be higher or lower than those specified in the Agreement when (1) unanticipated repairs are necessary or actual rehabilitation costs are less than initially estimated; (2) the actual interest rate of the rehabilitation loan differs from that anticipated prior to rehabilitation; or (3) the actual temporary relocation expenses are higher or lower than initially anticipated. Any such changes must be in accordance with requirements of Section 882.405(c).

(c) *Unleased Unit(s).* At the time of execution of the Contract, the PHA must examine the lists of dwelling unit(s) leased and not leased, referred to in Section 882.509(d), and must determine whether or not the Owner has met the obligations under that section with respect to any unleased unit(s) and for which of those unit(s) it will make vacancy payments. The Owner must indicate in writing either concurrence with this determination or disagreement, reserving all rights to claim vacancy payments for the unleased unit(s) pursuant to the Contract, without prejudice by reason of the Owner's signing the Contract.

#### § 882.512. Overcrowded and Under Occupied Units.

If the PHA determines that a Contract unit assisted under this part is not decent, safe, and sanitary by reason of increase in Family size, or that a Contract unit is larger than appropriate for the size of the Family in occupancy, housing assistance payments with respect to the unit will not be abated; however, the Owner must offer the Family a suitable alternative unit should one be available and the Family will be required to move. If the Owner does not have a suitable available unit, the PHA must assist the Family in finding an appropriate dwelling unit following the procedure specified in Section 882.517(f) and require the Family to move to such a unit as soon as possible. In no case will a Family be forced to move until suitable alternative housing is available.

#### § 882.513. Adjustment of Allowance for Utilities and Other Services.

The PHA must determine, at least annually, whether an adjustment is required in the Allowance for Utilities and Other Services applicable to the dwelling units in the project, on grounds of changes in utility rates or other change of general applicability to all units in the project. If the PHA determines that an adjustment should be made, the PHA must then determine the amounts of adjustments to be made in the amount of rent to be paid by affected Families and the amount of housing assistance payments and must notify the Owners and Families accordingly.

#### § 882.514. Assistance to Evicted Families.

(a) If a Family is evicted without PHA authorization of the eviction, the PHA must assist the Family as specified in Section 882.517(g) and terminate the HAP Contract.

(b) Should the Family be evicted for cause and in accordance with Section 882.215, the PHA will have no obligation to continue assistance to the Family. However, should the PHA determine to terminate assistance, the Family has the same rights as an applicant determined ineligible (Section 882.517(h)).

#### § 882.515. Reduction of Number of Contract Units for Failure to Lease to Eligible Families.

(a) If at any time, beginning six months after the effective date of the Contract, the Owner fails for a continuous period of six months to have at least 80 percent of the units under the Contract at the time leased or available for leasing by Eligible Families, the PHA may, on at least 30 days' notice, reduce the number of assisted units. The PHA may reduce the assisted units to the number of units so

leased or available for leasing plus 10 percent of the number (rounded up). This reduction, however, will not apply if the failure to lease units to Eligible Families is permitted by the PHA as part of the Owner's effort to promote economically mixed housing.

(b) If an Owner has only one unit under Contract and the Contract terminates at a time when the Family is ineligible for payments, the Contract will not be renewed. In addition, if the Owner has only one unit under Contract and if one year has elapsed since the date of the last housing assistance payment, the Contract will be terminated (with the consent of the Owner if the Contract does not provide for termination under the circumstances) even if the termination date has not yet been reached.

(c) The PHA may agree to an amendment or reexecution of the Contract to provide for subsequent restoration of any reduction or cancellation made pursuant to paragraph (a) or (b) of this section. If (1) the PHA determines that the restoration or reexecution is justified by demand, (2) the Owner has a record of compliance with obligations under the Contract, and (3) annual contributions contract authority is available.

(d) For projects of greater than 12 units in which more than 40 percent of the total units were assisted units on the effective date of the Contract, the Owner may, on at least 30 days notice to the PHA, reduce the number of assisted units under the Contract to no less than 40 percent of the total project units. Any other reduction in the number of assisted units in a project is prohibited, during the term of the Contract, without prior approval of HUD. Refusal on the part of the Owner to comply with this prohibition will be a violation of the Contract and grounds for suspension or debarment from HUD programs.

#### § 882.516. Public Notice to Lower-Income Families; Waiting List.

(a) *Public Notice to Lower-Income Families.* (1) If the PHA does not maintain a waiting list for its Existing Housing Program pursuant to Section 882.207(b) which is sufficient to provide applicants for the units under the Moderate Rehabilitation Program, the PHA must, promptly after receiving the executed ACC, make known to the public, the availability of the program in accordance with Section 882.207(a).

(i) The notice must state that assistance under this program will be available only in specified units which have been moderately rehabilitated under the program.

(ii) The notice must also state that current occupants of housing assisted under the Act and applicants on a waiting list for any such housing

(except for those Families on the Section 8 Existing Housing waiting list) must apply separately if they wish to be considered for assistance under this Part. In addition, the notice must state that such applicants will not lose their place on the public housing or other waiting list.

(iii) The notice must be made in accordance with the PHA's HUD-approved equal opportunity housing plan and with the HUD guidelines for fair housing requiring the use of the equal housing opportunity logotype, statement and slogan.

(2) If the PHA has a waiting list for its Existing Housing Program which is sufficient to provide applicants for the units under the Moderate Rehabilitation Program, the PHA need not advertise the availability of assistance under this program but must refer Families on the Existing Housing waiting list.

(b) *Waiting List.* Any Family on the waiting list must be allowed to refuse participation in the Moderate Rehabilitation Program without losing its place on the waiting list for Existing Housing.

#### § 882.517. Family Participation.

(a) *Initial Determination of Family Eligibility.* (1) The PHA will be responsible for determining Family eligibility for participation, in accordance with 24 CFR Part 889. The PHA will be responsible for verifying the sources and amount of the Family's income and other information necessary for determining eligibility and the amount of the assistance payments. If an Owner is the initial point of contact by an applicant, he must refer the applicant to the PHA.

(2) The PHA must select Families for participation in accordance with the provisions of this Part and in accordance with the PHA's application, including any PHA requirements or preferences as approved by HUD (see Section 882.503(b)(1)(i)(D)). The PHA must provide assistance to Eligible Families then living in units which are designated for moderate rehabilitation under this Part or Families chosen by the Owner without requiring that these Families be placed on the waiting list. If assistance under this Part is being concentrated in a neighborhood (see Section 882.503(a)(9)), the PHA may establish a preference for applicants currently residing in that neighborhood.

(3) Every applicant for participation must complete and sign the form of application prescribed by HUD.

(4) The PHA must maintain a system to assure that it will be able to assist all Families selected to participate within its ACC authorization and that it will comply, to the maximum

extent feasible, with the unit distribution in the ACC.

(5) PHA records on applicants and Families selected to participate must be maintained so as to provide HUD with racial, gender, and ethnic data.

(b) *Selection of Families for Participation.* If an applicant Family is determined by the PHA to be eligible and is selected for participation, the Family must be given information as to the Gross Family Contribution and the PHA's schedule of Allowances for Utilities and Other Services and, if the Family has not been selected by an Owner for a specific unit, a listing of units, if more than one unit is available, which are available for selection by the Family.

(c) *Briefing of Families.* When a Family is initially selected for participation, a full explanation of the following must be provided to appraise the Family of its responsibilities and the responsibilities of the Owner (this may be done either in group or individual sessions; adequate opportunity must be provided for Families to raise questions and to discuss the information provided):

(1) Family and Owner responsibilities under the Lease and Contract;

(2) Significant aspects of the applicable State and local laws;

(3) Significant aspects of Federal, state and local fair housing laws;

(4) The Family's options under the program if it decides to move;

(5) The Family's options under the program should the Owner terminate the Contract or should the Family be required to move due to an increase or decrease in Family size; and

(6) The fact that the subsidy is tied to the unit and the Family is required to select from among one or more units moderately rehabilitated under this Part.

(e) *Continued Participation When Assisted Family Wishes to Move.*

(1) If an assisted Family notifies the PHA that it wishes to find another dwelling unit within the area in which the PHA has determined that it is able to enter into Contracts or that it has found another unit to which it wishes to move, the PHA, unless it determines that the Owner is entitled to payments pursuant to Section 882.112 on account of nonpayment of rent or other amount owed under the Lease and that the Family has failed to satisfy any such liability or unless it determines the Family to be ineligible, may:

(i) Give the Family a preference as a formerly assisted Family and provide it with the next available Section 8 Existing Housing Certificate of Family Participation or refer the Family to the next available unit rehabilitated under this Part, or

(ii) Place the Family on its Section 8 Existing Housing Program waiting list as if they had just applied.

(2) If the PHA determines the Family to be ineligible, provisions of paragraph (h) of this section must be followed.

(3) If an assisted Family wishes to move out of the area in which the PHA has determined that it is able to enter into Contracts and the Family qualifies under paragraph (e)(1) of this section, the Family may obtain housing assistance in the jurisdiction to which it is moving, provided that the Family obtains a Certificate of Family Participation from the appropriate PHA in the new jurisdiction or the PHA in the new jurisdiction refers the Family to a unit rehabilitated under this Part. The appropriate PHA must treat the Family either as a Family to whom the PHA is already providing assistance who wishes to move to another unit or as a resident who has submitted an application for assistance.

(f) *Continued Participation When Assisted Family Forced to Move.* Should an assisted Family which qualifies for continued assistance be forced to move through no fault of its own, such as an increase in Family size, and the PHA Contract cannot be cancelled in accordance with its terms, the Family may continue to receive housing assistance through one of the following:

(1) The PHA must refer the Family to the Owner of any vacant unit which has been moderately rehabilitated under this Part if such a vacancy exists.

(2) The PHA must refer the Family to the Owner of the next vacant unit which is moderately rehabilitated under this Part provided that a vacancy will occur within a reasonable time after the Family is notified to vacate its present unit.

(3) If the PHA has a Section 8 Existing Housing Program and Certificates are available, the PHA must offer the

Family a Certificate of Family Participation and assist the Family in finding a suitable replacement unit.

(4) The PHA must offer the Family the next available, suitable unit owned or managed by the PHA under another program.

(g) *Continued Participation of Family When HAP Contract is Cancelled.* Should an Owner wish to end participation in the program, evicts an assisted Family without PHA authorization of the eviction or otherwise breaches the Contract, the assisted Family, if it is eligible for continued assistance, may continue to receive housing assistance through the conversion of the Moderate Rehabilitation unit allocation to an Existing Housing unit. The Family must then be treated as any certified Family under Subparts A and B and must be issued a Certificate of Family Participation and assisted by the PHA in finding a suitable replacement unit. The unit will then be considered an Existing Housing unit and all requirements of Subparts A and B will be applicable. If the family is determined ineligible for continued assistance, the Certificate may be offered to the next Family on the PHA's Existing Housing waiting list.

(h) *Families Determined by the PHA to be Ineligible.* If a Family is determined by the PHA to be ineligible on the basis of income or family composition, or for any other reason, either at the application stage or after assistance has been provided on behalf of the family, the PHA must promptly notify the family by letter of the determination and the reasons therefore, and the letter must state that the family has the right within a reasonable time (specified in the letter) to request an informal hearing. If, after conducting such an informal hearing, the PHA determines that the family is ineligible, it must so notify the family in writing. The procedures of this paragraph do not preclude the family from exercising its other rights if it

believes it is being discriminated against on the basis of race, color, creed, religion, sex, or national origin. The PHA must retain for three years a copy of the application, the notification letters, the family's response if any, the record of any informal hearing, and a statement of final disposition.

#### § 882.518. Reexamination of Family Income and Composition.

A reexamination of Family Income, composition, and redetermination of Gross Family Contribution must be conducted by the PHA as specified in Section 882.212. A Family's eligibility for housing assistance payments will continue until the amount payable by the Family equals the Gross Rent for dwelling unit it occupies. However, the termination of eligibility at that point will not affect the Family's other rights under the Lease. Any resumption of housing assistance payments as a result of subsequent changes in income or rents or other relevant circumstances will be contingent upon the availability of assistance under the Contract (see Section 882.515). A Family may at any time request a redetermination of its Gross Family Contribution on the basis of changes in Family Income or other relevant circumstances.

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Development Amendments of 1978, P.L. 95-557, 92 Stat. 2080, this proposed rule has been granted waiver of Congressional review requirements in order to permit publication at this time for public comment.

Issued at Washington, D.C., November 30, 1978.

LAWRENCE B. SIMONS,  
Assistant Secretary for Housing,  
Federal Housing Commissioner.

[Docket No. R-78-586]

**COMMUNITY DEVELOPMENT BLOCK GRANTS****Use of Debarred, Suspended or Ineligible  
Contractors****AGENCY:** Department of Housing and Urban Development.**ACTION:** Proposed rulemaking.**SUMMARY:** The purpose of this proposed rule is to amend 24 CFR 570, Subpart K to preclude the use of block grant funds by recipients to employ, award contracts to, or otherwise engage the services of, contractors who are debarred, suspended, or included in lists which make their participation in federally-assisted programs illegal.**DATE:** Comments must be received on or before January 29, 1979.**ADDRESS:** Comments should be addressed to: Rules Docket Clerk, Office of General Counsel, Department of Housing and Urban Development, 451 7th Street, S.W., Room 5218, Washington, DC 20410.**FOR FURTHER INFORMATION  
CONTACT:**

William Thomas, Office of Block Grant Assistance, Department of Housing and Urban Development, Washington, DC 20410, (202) 755-6304.

**SUPPLEMENTARY INFORMATION:** The purpose of this proposed rulemaking is to propose an addition to the rules governing the community development block grant program by inserting a new § 570.614 in Subpart K, which would preclude the use of block grant funds to employ, award contracts to, or otherwise engage the services of, any contractor who is debarred, suspended, or included in lists which make their participation in fed-

erally-assisted programs illegal, pursuant to 24 CFR Part 24. A current Consolidated List, including the names of those contractors and grantees against whom the Department has invoked administrative sanctions, is provided to HUD Area and Regional Offices by the HUD Inspector General.

With respect to the above change, interested persons are invited to participate in the making of the final rule by submitting written comments or views on the proposed amendment. Comments should be filed with the Rules Docket Clerk, Office of General Counsel, Room 5218, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410. All comments received on or before the date specified above will be considered before the adoption of the final rule. Copies of the comments will be available for inspection during business hours at the above address.

**OTHER INFORMATION:** A Finding of Inapplicability with respect to Environmental Impact has been prepared in accordance with the National Environmental Policy Act of 1969. Copies of the Finding are available for inspection and copying during business hours in the Office of the Rules Docket Clerk, Room 5218, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Accordingly, 24 CFR Part 570 is amended by revising the Table of Contents for Subpart K and by revising Subpart K as set forth below.

I. The Table of Contents to 24 CFR Part 570, Subpart K, is revised to read as follows:

**Subpart K—Other Program Requirements**

Sec.

570.600 Limitations on Local Option Activities and Contingency Accounts

570.601 Nondiscrimination

570.602 Relocation and Acquisition

570.603 Environment

570.604 Historic Preservation

570.605 Labor Standards

570.606 Architectural Barriers Act of 1968

570.607 Activities for Which Other Federal Funds Must be Sought

Sec.

570.608 Hatch Act

570.609 National Flood Insurance Program

570.610 Clean Air Act and Federal Water Pollution Control Act

570.611 Lead-Based Paint Poisoning Prevention Act

570.612 Activities Conducted by Nonprofit Entities, Small Business Investment Companies, and Local Development Corporations [Reserved]

570.613 Disposition [Reserved]

570.614 Use of Debarred, Suspended, or Ineligible Contractors

**AUTHORITY:** Title I, Housing and Community Development Act of 1974 (42 U.S.C. 5301, et seq.); Title I, Housing and Community Development Act of 1977 (Pub. L. 95-128); and sec. 7(d), Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

II. Subpart K is amended by the addition of § 570.614 to read as follows:

**§ 570.614. Use of Debarred, Suspended, or Ineligible Contractors.**

Block grant assistance provided with funds under this Part shall not be used directly or indirectly to employ, award contracts to, or otherwise engage the services of, any contractor during any period of "debarment," "suspension," or "placement in ineligibility status" (as these terms are defined in 24 CFR § 24.4) of such contractors.

In accordance with section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Development Amendments of 1978, Pub. L. 95-557, 92 Stat. 2080, this proposed rule has been granted waiver of Congressional review requirements in order to permit publication at this time for public comment.

Issued at Washington, D.C., October 25, 1978.

ROBERT C. EMBRY, Jr.,  
Assistant Secretary for Community Planning and Development.

## Title 6—Economic Stabilization

## CHAPTER VII—COUNCIL ON WAGE AND PRICE STABILITY

## PART 705—NONINFLATIONARY PAY AND PRICE BEHAVIOR

## Voluntary Standards

AGENCY: Council on Wage and Price Stability.

ACTION: Final standards.

SUMMARY: This document provides a new Part 705 to the regulations of the Council on Wage and Price Stability implementing the President's anti-inflation program. In particular, this part contains an appendix specifying voluntary standards for noninflationary pay and price behavior. These standards were published in proposed form by the Council on October 31, 1978, and appeared in the *FEDERAL REGISTER* on November 7, 1978, at 43 FR 51938. Also published here are a set of interpretative Questions and Answers regarding the voluntary standards.

The Final Standards and Questions and Answers were published in preliminary form by the Council on December 13, 1978. Today's version of the publication incorporates some editorial changes that improve the clarity but do not change the meaning of the final standards.

EFFECTIVE DATE: December 13, 1978.

## FOR FURTHER INFORMATION CONTACT:

Sean Sullivan, Office of Pay Monitoring, Council on Wage and Price Stability, 726 Jackson Place, N.W., Room 5002, Washington, D.C. 20506 for information on the pay standard (202-456-6480). John Layng, Office of Price Monitoring, Council on Wage and Price Stability, 726 Jackson Place, N.W., Room 4026, Washington, D.C. 20506 for information on the price standard (202-456-7000).

SUPPLEMENTARY INFORMATION: In Executive Order 12092, the President prescribed voluntary standards for noninflationary pay and price behavior as part of his anti-inflation program. He also directed the Council on Wage and Price Stability to define further and to clarify these standards, and to monitor compliance with the standards for the duration of the program. Accordingly, the Council issued a rule which, in an appendix, contained specific detailed standards for noninflationary pay and price behavior. The Council contemplated further clarification after public comments.

Approximately 300 written comments were received, and the Council

held numerous meetings with business, labor, and public interest groups. The comments and a summary memorandum are available for inspection at the Council. Of the written comments, 22 were from labor organizations, 14 were from public interest groups, State and local governments, and schools, 197 were from businesses, and 50 were from individuals. The modifications described below, as well as the interpretative questions and answers which appear with this notice, were prepared in response to issues raised by the public, and implement changes necessary to achieve the purposes of the program and to facilitate compliance.

The final standards became effective on December 13, 1978, when they were released by the Council. The public interest requires the rapid dissemination of these voluntary standards and will not permit a further 30-day comment period. Nonetheless, the Council will accept further comments particularly upon the changes.

While these final standards differ in certain material respects from the proposed standards, the modifications are for the most part minor and are consistent with the original objectives of the program. Those companies that made a good-faith effort to comply with the standards as first issued will not be considered out of compliance if their behavior is not now in complete conformity with the final standards. However, all companies are expected to make whatever alterations in their conduct may be necessary in order to bring their operations into compliance within a reasonable period of time.

In connection with the revised price standard, the Council also adopted special standards for certain sectors of the economy. While there was no advance opportunity to comment on these alternative standards, the Council did consult with representatives of the affected sectors, and will accept comments on such standards.

The interpretative Questions and Answers published here are intended to clarify the standards. The Council will issue further Questions and Answers in the future as the need for further clarification and interpretation arises. Interested persons are encouraged to send suggestions in this regard to the Council through the Offices identified above.

In order to provide formal, consistent treatment of administrative issues arising under the standards, procedural rules will be issued shortly. These rules will include provisions for reports and notifications, exceptions from the standards based on hardship or gross inequity, findings of noncompliance, removal from any list of non-complying companies, and similar matters.

Since these standards are voluntary, the requirements of Executive Order 12044 do not apply. However, where feasible, the Council has complied with the procedures of that Order.

The following is a discussion of the major modifications of the Price and Pay Standards.

## THE PRICE STANDARD

The price standard has been changed to clarify the Council's initial intention that the price-deceleration standard be the primary standard and that the profit-margin standard be available only as an exception when circumstances warrant. Many companies interpreted the two standards as being equally acceptable, and expressed an intention, therefore, to utilize the more easily calculated and, in some cases, more advantageous profit-margin test. Indeed, twenty-five of the written comments sought an easing of the profit-margin standard to make it an even more attractive alternative. In addition, the profit-margin limitation as proposed allowed firms to expand dollar profits by raising prices at the same rate that costs increase.

Under the final price standard, companies that cannot meet the price-deceleration standard must not exceed the average profit margin in the best two out of the last three preceding years and must limit their dollar profit increases to 8 1/4 percent (the target rate of inflation with full compliance) plus the percentage growth in physical volume (see Section 705A-6(a)).

Under the profit-margin standard as originally proposed, a constant profit margin implied a percentage growth in aggregate profit equal to that of revenue. Thus a 20-percent growth in sales implied a 20-percent growth in profit. Under the revised standard, a 20-percent growth in profit associated with a 5-percent increase in prices and a 15-percent growth in output is acceptable; if, however, the 20-percent growth results from a 5-percent growth in output and a 15-percent price increase, it is unacceptable.

The Council made other changes in the price standard. In response to comments, it added a provision that any company with an average price increase below 1.5-percent in the program year is in compliance regardless of the company's price history in 1976-77 (see Section 705A-2). This added provision helps to ensure that companies that have shown restraint in prior years would not be unduly penalized and it also provides symmetry with the 9.5 percent ceiling on average price increases that was set forth in the original standards.

Also, the Council adopted modified price standards for selected industries that would have special difficulties in

applying the general price standard. Retailers, wholesalers, and food processors are provided the option of limiting increases in gross margin (see Section 705C-2). These firms frequently lack the data with which to compute a price index, and a gross margin limitation is more reflective of the way in which they make pricing decisions. The average increase in professional fees (e.g., for doctors, lawyers, dentists, and architects) is limited to 6.5 percent. Fee increases for individual professional services are limited to 9.5 percent (see Section 705C-3).

## THE PAY STANDARD

Compliance with the final pay standard, as with the proposed pay standard, requires a 7-percent-or-less annual increase in average pay rates. However, the pay standard has been modified in one major respect. The proposed pay standard counted all increased costs of health care and pension benefits against the 7-percent ceiling, even if cost increases were associated only with the maintenance of existing benefits. This provision generated a substantial amount of adverse comment. One hundred twelve (112) respondents described the difficulties of counting increased costs of unchanged benefit plans against the 7-percent pay standard. Six (6) of these comments were from labor groups, while ninety-nine (99) were from business organizations. These comments underscored the substantial amount of uncertainty involving the funding requirements for health and pension benefit plans. The costs of funding unchanged, existing plans are largely uncontrollable to the employer. Furthermore, an unusual amount of illness in a particular employee group or longevity among pensioners can substantially alter the costs of a plan. Without some provision in the pay standard to temper the effects of such funding expenses, employees with identical plans in different groups would be subject to different wage and salary limitations under the anti-inflation program. To eliminate these inequities and increase the employer's control over amounts included in the pay-rate calculations, the Council modified the pay standard with respect to health and pension plans.

The final pay standard counts only the first 7 percent of health care cost increases associated with maintaining existing health benefits. Any costs resulting from expanded benefits are counted in full (see Section 705B-6). Similarly, changes in employer contribution rates for pensions will not be charged against the pay standard as long as the increase is required by changes in funding methods, changes in amortization periods, changes in actuarial assumptions, or plan experi-

ence. As in health care, any pension cost increase attributable to increased benefits will be counted in full against the pay standard (see Section 705B-7).

A number of comments also suggested that the quarterly compliance requirement of nonunion employee units places an unfair and burdensome requirement on companies with non-union work forces. In response, the Council adopted an annual compliance standard, although companies should be prepared to demonstrate throughout the program year that their pay situation is consistent with the pay standard (see Question II-E-2).

A new section has been added to cover pay-rate increases due to acute labor shortages. Such pay-rate increases in excess of the standard are permitted so long as the specific conditions set forth in Section 705B-11 are met.

Comments also suggested that companies should be allowed to adjust for shifts in the composition of the work force in determining compliance for nonunion employee units. Allowing such adjustments would prevent a company from being out of compliance because of the closing of a plant during the program year or because of other similar occurrences that could cause the average pay rate to increase by more than 7 percent even though the standard is observed for each type of job. In response to these suggestions, the revised pay standard provides two computation options. The first (see Section 705B-4(e)) allows direct adjustment for changes in the composition of employees among distinct types of jobs. The second (see Section 705B-4(b)) allows firms to comply by computing average pay-rate increases for the group of individuals employed throughout the program year. Under this latter option, pay-rate increases for legitimate individual promotions and changes in individual job qualifications may be deducted in determining compliance.

Numerous comments pointed out that, in many instances, actual payments to employees during the program year will be based on decisions and commitments made prior to the President's announcement. In these situations, as in the case of existing union contracts, it was suggested that a company should not be out of compliance as a result of fulfilling such commitments. Several revisions to the standards were made to accommodate some of these situations.

First, firms may exclude from the computation of pay increases those increases in excess of 7 percent that are dictated by the completion of an annual pay plan that was in operation prior to October 2, 1978 (see Section 705B-4(c)).

Second, adjustments may be made for future pay-rate increases if these increases were communicated to the individual recipient employees prior to the President's announcement (see Section 705B-4(d)). In both instances, these revisions are intended to provide equitable treatment of nonunion units relative to units under existing collective bargaining agreements.

Third, special standards are provided for long-term future-value incentive plans. Under these plans, payments made during the program year are largely uncontrolled by the firm since they are the product of grants made or plans implemented in the past. As a result, such payments are excluded from pay and a separate limit is placed on the number of units granted during the program year (see Section 705B-5).

Finally, annual incentive compensation and deferred pay elements are treated as pay over the period earned rather than when payment is actually made as in the proposed standard (see Pay definition in Section 705D).

Accordingly, a new Part 705 and an appendix thereto are added to the regulations of the Council on Wage and Price Stability at Chapter VII of Title 6 of the Code of Federal Regulations.

Following these standards are printed Questions and Answers issued by the Council to provide clarification and interpretations.

## PART 705—NONINFLATIONARY PAY AND PRICE BEHAVIOR

## § 705.1 Authority.

The provisions of this part are promulgated under the Council on Wage and Price Stability Act, Pub. L. 93-387, as amended by Pub. L. 94-78, and Pub. L. 95-121 (12 U.S.C. 1904 note), and particularly in furtherance of § 2(c), § 3(a)(4), and § 3(a)(5) of that Act and under Executive Order 12092.

## APPENDIX—VOLUNTARY STANDARDS

## 705A PRICE STANDARDS

705A-1 *General Applicability of the Price Standard.* The price standard applies to all goods and services (products) sold in the United States and its territories and possessions, including goods and services sold by Federal, State, and local government entities.

705A-2 *Price Deceleration Standard.* A company complies with the general price deceleration standard if its program-year rate of price change is no greater than (1) the base-period rate of price change minus the deceleration percentage or (2) 9.5 percent, whichever is less. However, a company with a program-year rate of price change of 1.5 percent or less will be considered to be in compliance with the price deceleration standard regardless of its base-period rate of price change. For purposes of this standard:

(a) The program-year rate of price change is the sales-weighted average of the percentage changes of a company's product prices measured from the last calendar or fiscal quarter completed prior to October 2, 1978, through the same quarter of 1979.

(b) The base-period rate of price change is the sales-weighted average of the percentage changes of a company's product prices from the last calendar or complete fiscal quarter of 1975 to the corresponding quarter of 1977, expressed at annual rates.

(c) The deceleration percentage is 0.5 percentage points unless a company experiences pay deceleration that is greater than 0.5 percentage points, in which case full pass-through of the additional pay deceleration is required for compliance with the general price deceleration standard. In such instances, the total price deceleration percentage is 0.5 percentage points plus the multiple of the company pay share and the rate of pay deceleration that is in excess of 0.5 percentage points.

**705A-3 Exclusions from Company Price Calculations.** Sales by producers of goods and services included in the following categories are excluded from the calculation of a company's average price change:

(a) Agricultural, fishing, forestry and mineral products included in the 1972 *Standard Industrial Classification Manual*, Major Groups 01, 02, 08 (except 085), 09, 10 (except 108), 11 (except 1112), 12 (except 1213), 13 (except 1321 and 138), and 14 (except 148).

(b) Recyclable scrap materials including, but not limited to, ferrous and nonferrous metal scrap, waste paper, textile waste, scrap rubber, scrap plastics, and glass cullet.

(c) Commodities whose historical and current price changes are closely tied to price movements on an organized open exchange market, either domestic or foreign.

(d) Exports of goods and services.

(e) Deliveries during the program year at prices determined by contracts existing before October 2, 1978. If the contract allows for seller discretion to adjust prices, the delivery is not excluded. Deliveries under preexisting contracts that do not specify delivery prices are not excluded.

(f) Products exchanged in other than open and arms-length transactions.

(g) New or discontinued products. For the purpose of this exclusion, new and discontinued products are those products that were introduced or discontinued during either the base period or the program year. Products that existed throughout the base period or that exist throughout the program year should be included in the calculations of the rates of price change for those respective periods. A product does not become new or discontinued merely because of altered specifications, style, packaging, or quality changes. Such changes should be reflected in price changes (for example, quality decreases should be reflected as price increases and quality increases should be reflected as price decreases).

(h) Custom or one-time product sales (products specially produced to particular-buyer specifications). Such products must have characteristics that are substantially different from any other products previously sold by the company. To qualify for the exclusion, custom products must meet the same criteria as those for new products. If the custom product is produced and delivered over the duration of the entire base

period or program year, it does not qualify for exclusion.

(i) Interest rates.

**705A-4 Six-month Standard for Price Increases.** During the first half of the program year, the average rate of price change for a company should not exceed 50 percent of the allowable program-year rate of price change, as defined in Section 705A-2. However, a company need not comply with this six-month limit if it can demonstrate that the increases in excess of 50 percent of the allowable program-year change can be justified on grounds of seasonal variations in business operations, historical business practices, or unusual business conditions and will not prevent compliance with the general price deceleration standard by the end of the program year. However, if a company exceeds the six-month price standard, a company must also be able to show that its pricing actions are consistent with adherence to the profit margin limitation (for the program year), defined in Section 705A-6(a).

**705A-5 Insufficient Product Coverage.** For the purpose of this section, a company's adjusted net revenues are defined as the company's net revenues minus revenues from the sale of products identified in Section 705A-3(a)-(e).

(a) If adjusted net revenues during the four quarters prior to the program year are less than 25 percent of a company's net revenues, the company need not comply with the price standard or the profit margin limitation.

(b) If products excluded under 705A-3(f)-(i) account for one-third or more of a company's adjusted net revenues for the program year, the company need not comply with the general price deceleration standard but should comply with the profit margin limitation described in section 705A-6(a).

**705A-6 Exceptions.** (a) *Profit Margin Limitation.* (1) If a company is unable to comply with the price deceleration standard because it is impossible to calculate its average price change or because of uncontrollable price increases in goods and services it buys, it should satisfy the following two-part profit limitation.

(i) The program-year profit margin should be no higher than the sales-weighted average profit margin over the best two of the company's last three fiscal years prior to October 2, 1978.

(ii) Program-year profit should not exceed base-year profit by more than 6.5 percent plus any positive percentage growth in physical volume from the base year to the program year. Base-year profit can be either profit earned during the four complete fiscal or calendar quarters prior to the program year, or the average profit margin determined in (i) above multiplied by sales or revenues in the last four complete fiscal quarters prior to the program year.

(2) A company's profit margin is the ratio of profit to net sales and/or revenues.

(i) Profit is defined as the sum of item 14 and items 11 through 13 minus items 7 through 10 in 17 CFR 210.5-03. Briefly, profit is "income or loss before income tax expense" minus dividend income, interest or profit on securities, and miscellaneous other income, plus interest expense and amortization of debt discount and expense, losses on securities, and miscellaneous income deductions.

(ii) Net sales and/or revenues consist of (1) net sales of tangible products (gross sales less discounts, returns, and allowances); (2)

operating revenues of public utilities; and (3) other revenues such as royalties, rents, and the sale of services and intangible products (e.g., engineering, research and development, and other professional services). This definition is consistent with 17 CFR Section 210.5-03, items 1A, 1B, and 1C.

(b) *Undue Hardship and Gross Inequity.* The Council may except a company from the application of the price deceleration standard, make adjustments to the base-period rate of price change, or alter application of the profit margin limitation to avoid extreme situations of hardship or gross inequity.

#### 705B PAY STANDARD

**705B-1 Pay Standard.** For each employee unit, the annual increase in average pay rates should be 7 percent or less.

**705B-2 Employee Units.** For the purpose of establishing compliance with the pay standard, a company must identify three types of employee units:

(a) Each group of the company's employees subject to a particular collective bargaining agreement to which the company is a party constitutes a separate employee unit.

(b) All management employees (not under a collective bargaining agreement) constitute an employee unit.

(c) All other employees constitute an employee unit.

A company need not identify separately collective bargaining units accounting for less than 5 percent of its employees. However, if a collective bargaining unit is not separately identified, the workers must be included in the "all other employees" category.

**705B-3 Application of the Pay Standard to Collective Bargaining Agreements.** (a) A company complies with the pay standard if the annual rate of pay-rate change over the life of each collective bargaining agreement negotiated during the program year is 7 percent or less.

(b) In addition, the annual pay-rate increase may be no greater than 8 percent in any year of a multi-year agreement.

(c) For purposes of determining whether the annual rate of pay-rate change complies with the pay standard, formulas for cost-of-living adjustments should be computed on the assumption of a 6-percent annual rate of inflation in the Consumer Price Index over the life of the contract.

(d) The cost of private fringe benefit programs should be measured by employer contribution rates.

(e) Pay-rate increases dictated by agreements signed prior to October 25, 1978, are exempted from the pay standard.

(f) A contract that includes a provision for a future wage reopening will be assumed to be terminating on that date.

**705B-4 Application of the Pay Standard to Employees Not Under Collective Bargaining Agreements.** (a) A company complies with the pay standard if, for each employee unit, the pay rate in the last quarter of the program year does not exceed the pay rate in the base quarter by more than 7 percent.

(b) Alternatively, compliance may be determined by computing pay-rate changes for the fixed population of continuing employees employed in the beginning and end of the program year. In this case pay-rate increases may exclude the effects of legitimate promotions and qualification increases.

(c) If pay-rate increases for recognized employee groups are dictated by the continuation of a formal annual pay plan in operation as of October 1, 1978, and, solely due to the continuation of this plan, the dictated pay components for the employee group increase by more than 7 percent during the program year, then the dictated increase in these components above 7 percent may be excluded in determining compliance.

(d) If companies communicated to recipient employees prior to October 25, 1978, the details of a formal annual plan to take effect during the program year, the pay rate increases dictated by this plan will be treated as in (c). However, the company should be prepared to demonstrate that it is an established practice to announce pay-plan changes in this time period and should continue this practice by communicating a subsequent annual pay plan in compliance with the pay standard prior to October 25, 1979.

(e) In determining compliance under (a), adjustments may be made for shifts in the composition of the work force among distinct functional employee subgroups within the employee unit.

**705B-5 Pay Standard for Future Value Incentive Plans.** (a) A future value incentive plan is any long-term plan under which the compensation value of the units (such as shares, stock options, and awards) granted or issued will not be known until some future time.

(b) Any such units granted or issued prior to October 25, 1978 under such plans are not subject to the pay standard.

(c) The average number of units per recipient granted or issued in the program year under any continuation of, or modification to, existing plans or creation of successor plans may not exceed 107 percent of (1) the average number granted or issued in the twelve-month period prior to the program year of (2) the annual average of the units granted over the last five years, whichever is greater.

(d) With respect to plans covered by (c), any spread between an option or purchase and price fair market value at the time of the grant is included as pay.

(e) For any new plans introduced during the program year for which there is no historical precedent, companies should place a value on units granted or issued in the program year consistent with generally accepted accounting practices and include these amounts in pay.

**705B-6 Maintenance of Health Plan Benefits.** In the program year or over the life of a new collective bargaining agreement, changes in the costs of maintaining existing health benefits should be charged against the pay standard up to a 7 percent annual increase in such costs; any increases above 7 percent are excluded from computations for purposes of measuring compliance with the standard. Any changes in costs due to changes in benefits should be fully included as pay-rate changes.

**705B-7 Changes in Pension Funding Costs.** For pension plans that pay specified benefits at retirement (qualified defined benefit plans), changes in employer costs due to (1) changes in funding methods, (2) changes in amortization periods, (3) changes in actuarial assumptions, and (4) plan experience (other than year-to-year wage or salary changes) are not included as pay-rate changes. Changes in employer costs due to plan amendments, changes in the benefit structure, or changes in benefit levels due to

wage or salary changes are included as pay-rate changes.

**705B-8 Low-Wage Exemption.** Employees earning \$4.00 or less per hour in straight-time hourly wages on October 1, 1978, must be excluded from each employee unit in making pay-rate computations.

**705B-9 Tandem Pay Rate Changes.** Pay-rate changes in one employee unit that have been regularly linked to pay-rate changes in another employee unit in a leader-follower relationship can be excepted either where pay-rate increases in the leader unit were agreed to prior to October 25, 1978, or where pay-rate increases agreed to for the leader unit after October 24, 1978 are in compliance with the pay standard. Employee units need not be in the same company. In order to establish such a linkage, the parties must demonstrate that the past pay-rate increases of the two employee units have been equal in value and directly related in timing.

**705B-10 Pay-Rate Increases Traded for Productivity-Improving Work-Rule Changes.** In determining compliance, that part of a pay-rate change that is in return for changes in contractual work-rules and practices that alter productivity may be deducted from the total pay-rate change. In order to comply in this manner, it must be demonstrated that the cost reductions generated by the work-rule changes are equal to or greater than the excess of the pay-rate change over the pay standard.

**705B-11 Pay-Rate Increases Attributable to Acute Labor Shortages.** Where pay-rate increases in excess of the standard are necessary to attract or retain employees in a particular job category because of an acute labor shortage, the amount of such excess may be excepted if the following conditions for these job categories are met:

(a) The proportion of vacancies during the preceding quarter has increased abnormally over that experienced during the past two years.

(b) The time required to fill vacancies has increased abnormally over that required during the past two years, despite intensive recruiting.

(c) Pay rates for entry-level employees in these categories have increased abnormally over the past two years; and

(d) The local Employment Service Agency has certified that such an acute labor shortage exists.

**705B-12 Undue Hardship or Gross Inequities.** The Council may grant an exception from the application of the pay standard or may make appropriate adjustments in the standard to avoid situations of undue hardship or gross inequity.

#### 705C MODIFIED PRICE STANDARDS FOR SELECTED INDUSTRIES

**705C-1. General.** This subpart provides modified price standards for certain industries for which application of the general price standard may be inappropriate.

**705C-2. Margin Standards for Wholesale and Retail Trade and for Food Manufacturing and Processing.**—(a) *Eligibility.* A percentage margin standard is available as an alternative to the price standard to the entire wholesale and retail trade sector (SIC 50-59), including food service operations. A separate margin standard is available as an alternative to the price standard for all firms in the food manufacturing and processing industries (SIC 20, excluding 2082, 2083, 2084, and 2085). This includes nonalco-

holic but excludes alcoholic beverage industries. Any company or subsidiary or operating division of a company doing more than one-half of its business within one of the above industries may apply the appropriate margin standard for those operations. However, any company in these industries that is able to comply with the general price standard prescribed in 705A-2 is encouraged to do so. Companies that cannot comply with these alternatives are eligible for exceptions under the conditions specified in 705A-6.

(b) *Definitions.* (1) The gross margin is equal to net sales (gross sales adjusted for discounts, returns, coupons, and other allowances) less the cost of food products used in food manufacturing or the cost of goods sold by wholesale and retail trade companies.

(2) The average percentage gross margin for a year is the total gross margin divided by net sales for the year.

(3) The base year is the four calendar or fiscal quarters ending prior to October 2, 1978.

(4) The program year is the year immediately following the base year.

(5) The margin trend is the compound annual rate of growth of the average percentage gross margin between the base year and the comparable year prior to October 2, 1976.

(c) *Percentage Margin Standard for Wholesale and Retail Trade.* A company satisfies the percentage margin standard if

(1) The growth in its average percentage gross margin between the base year and the program year is no greater than its margin trend minus 0.5 percentage points; or

(2) The average percentage gross margin for the program year does not exceed that of the base year.

(d) *Margin Standard for Food Manufacturing and Processing Industries.* (1) A company satisfies the margin standard if the rate of increase in the company's gross margin between the base quarter (the last complete calendar or fiscal quarter ending prior to October 2, 1978) and the corresponding quarter of 1979 does not exceed 6.5 percent plus any positive percentage growth in physical volume over the same period.

(2) The company may substitute for the base-quarter gross margin the base-quarter sales multiplied by the average percentage gross margin for the base year.

(3) Physical volume increases to be used in justifying increases in gross margins may be computed by deflation of revenues using a measure of price increases as the deflator, or by computing changes in units or tonnage sold when such units are price weighted by major product categories.

(e) *Application of the Margin Standards.* A company may compute its gross margin after adjustment for changes in the composition of sales at any reasonable level of aggregation, such as division, department, product category, or individual products, as long as such adjustments are consistently applied.

#### 705C-3 PRICE STANDARDS FOR PROFESSIONAL FEES

(a) *Coverage.* These standards apply to fees and charges for the services of physicians, dentists, lawyers, accountants, engineers, architects, and other professionals. They include all activities included in Major Groups 80 (except 805, 806, 808 and 809), 81,

891, and 893 of the 1972 *Standard Industrial Classification Manual*.

All companies that provide professional services on a fee-for-service basis, regardless of the proportion of total company revenue that is derived from professional services, are expected to comply with the professional fee standard. Companies that cannot comply with this professional fee standard are eligible for exceptions under the conditions in 705A-6.

(b) *Standards.* A company complies if the following two-part price standard is met: (1) The program-year average rate of change in fees charged, weighted by sales and/or revenues, does not exceed 6.5 percent and (2) the increase in the fee for any single service does not exceed 9.5 percent. The period used to determine dollar volume weights should be based on a period of time that is representative of normal business operations.

#### 705D DEFINITIONS

*Base-period rate of price change.* The base-period rate of price change is a sales-weighted or revenue-weighted average of the percentage price changes over the two-year period, 1976-1977, expressed at an annual rate. If desired, it may be computed using the following formula:

$$BPRC = \left( \sqrt{\sum_i S_i \frac{P_i(77)}{P_i(75)}} - 1 \right) \times 100$$

where

BPRC = the base-period rate of price change;

$P_i(77)$  = price of the  $i$ th product in the last complete fiscal or calendar quarter in 1977;

$P_i(75)$  = price of the  $i$ th product in the last complete fiscal or calendar quarter of 1975;

$S_i$  =  $i$ th-product sales or revenue share (i.e., the  $i$ th-product sales or revenues divided by total sales or revenue) in the last complete fiscal or calendar quarter in 1975; and

$\Sigma$  = the summation operator, where the subscript  $i$  runs over all products not excluded by section 705A-3.

The choice of fiscal or calendar quarters must be consistent throughout the company's calculations. If seasonal factors are important, the weights,  $S_i$ , can be calculated using data for the entire base period.

*Base quarter.* The base quarter is either (1) the company's last complete fiscal quarter prior to October 2, 1978, or (2) the calendar quarter July 1, 1978, to September 30, 1978.

*Company.* The term "company" is defined as any person, sole proprietorship, partnership, corporation, association, joint venture, estate, trust, or any other entity, however organized, including Federal, State, and local government entities. Entities that are consolidated should be consolidated in accordance with 17 CFR 210.4-01 to -09 prescribed by the Securities and Exchange Commission. The term "company" applies only to domestic business operations.

One or more parts contained within a consolidated company may be treated as a separate, single company, in which case the standards apply separately to each of those unconsolidated companies. However, this option is available only if:

(1) The unconsolidated companies maintain accounting records which permit the Council to ascertain whether the prices and profits of the unconsolidated companies accurately reflect the economic realities of their operations;

(2) Allocation of overhead is made in a consistent and reasonable manner, as if the unconsolidated companies were not commonly owned;

(3) Transfers between unconsolidated companies are valued as if they were arm's-length transactions; and

(4) Internal accounting procedures adhere to generally accepted accounting principles and procedures, consistently and historically applied.

In situations involving acquisitions and divestitures, the following procedures should be used. If historical financial records exist for companies acquired after September 30, 1975, and prior to the base quarter, the data for the acquisition may be combined with data of the acquiring company or treated as a separate company. In either case, the acquisition should be treated as if it had been acquired on September 30, 1975.

Companies acquired between September 30, 1975, and prior to the base quarter, for which historical financial records do not exist should be included in the calculations for the program year. That is, products of the acquired company should be treated in much the same manner as a new product.

In the case of companies acquired during the base quarter or program year, they should be treated as a separate company for the entire program year for price and profit calculations.

For divestitures, the parent company should exclude the divested entity from all calculations made with respect to the price standard.

*Company Pay Share.* The company pay share is the pay for all employees in the base quarter divided by company net sales and/or revenues in the base quarter. For purposes of this calculation, pay and net sales and/or revenues should represent total domestic operations unless the company cannot determine pay for domestic operations, in which case total pay and total sales should be used.

*Employee.* An employee is any individual residing in the United States who is either an employee within the meaning of Section 3121(d) of the Internal Revenue Code 26 U.S.C. or the National Labor Relations Act, as amended, 29 U.S.C. Sec. 151 et seq.

*Future-Value Incentive Plans.* Future-value incentive plans include any long-term plans under which units (shares, stock options, awards, shares subject to option or investment amounts) are granted or issued, the compensation value of which will not be known until some future time. Examples of these include qualified and nonqualified stock options, performance share plans, performance unit plans, stock appreciation rights, restricted stock or property plans, phantom stock plans, and book value plans.

*Pay.* Pay includes the following items:

(a) The straight-time wage and salary paid during the company's customary pay period, including, where applicable, payments for shift differentials, skill differentials, and cost-of-living adjustments.

(b) Incentive pay and other forms of income such as

(1) Sales commissions and production incentive pay;

(2) Bonuses and other annual incentive compensation charged when earned (that is, when the services are performed that generate the compensation);

(3) Compensation from long-term incentive plans (other than those covered under 705B-5), new future-value incentive plans, or other similar compensation arrangements when accrued;

Job prerequisites and other forms of compensation not covered elsewhere in this definition but reported as income under the Internal Revenue Code and its interpretive regulations and rulings.

(c) Employer contributions or costs for the following fringe benefit items:

(1) Pay for time not worked (e.g., paid vacations and holidays, sick leave and other paid leave);

(2) Saving and thrift plans such as qualified stock bonus plans, qualified profit sharing plans, employee stock ownership plans, and other qualified defined contribution plans;

(3) Qualified defined benefit retirement plans;

(4) Health benefit plans;

(5) Life insurance, accident insurance, legal assistance, educational assistance, and other plans resulting in benefits to employees but not reported as income.

Pay does not include overtime wages as long as the conditions of that pay are unchanged. Also, pay does not include employer contributions for legally mandated benefit programs.

*Pay rate.* An employee unit's pay rate in any quarter should be determined in a manner consistent with the employer's accounting practices. Pay rates should be constructed as pay per straight-time hour worked. Pay rates should be the average rates for the employee unit over the quarter or as of the last customary pay period within the quarter. When employer costs for certain pay elements are incurred irregularly (for example, bonus payments and vacation pay) these items should be included according to the pay programs in effect at the end of the quarter and should be included in pay-rate computations as though they were incurred evenly over time. For employees not compensated on an hourly basis, an estimate of straight-time hours worked should be made and consistently applied.

The method used to compute pay rates should be consistently applied in all measurement periods.

*Product.* A product is any aggregation of goods (or services) established by the company for purposes of complying with the price deceleration standard, which reflects the company's customary pricing unit. In establishing the product grouping within a company, the price changes for each product group must reasonably reflect the changes in the prices of the products contained within the category. The method of establishing product groups must be consistently applied during the base period and the program year.

*Product price.* The price of a product during a quarter is computed by dividing the revenues from sale or lease of the product by the number sold or leased. Sampling of products may be used by a company: *Provided*, That the methods used comply with sound statistical procedures. Changes in list prices may be used only if percentage changes in them are representative of percent changes in actual transaction prices.

Furthermore, prices may be measured at the end of the calendar or fiscal quarter: *Provided*, That prices do not fluctuate substantially during the quarter.

*Program year.* For a company, the program year is the twelve-month period immediately following the company's base quarter.

*Program-Year Rate of Price Change.* The program-year rate of price change is a sales-weighted or revenue-weighted average of percentage changes in prices of products. If desired it may be computed using the following formula:

$$PRPC = \left( \sum_i S_i \frac{P_i(79)}{P_i(78)} - 1 \right) \times 100$$

where

PRPC = the program-year rate of price change;

$P_i(79)$  = the price of the  $i$ th product in the 1979 quarter corresponding to the base quarter;

$P_i(78)$  = the price of the  $i$ th product in the base quarter;

$S_i$  =  $i$ th product sales or revenue share in the base quarter; and

$\Sigma$  = the summation operator, where the subscript  $i$  runs over all products not excluded in 705A-3.

The choice of fiscal or calendar quarters must be consistent throughout the company's calculations. If seasonal factors are important, the weights,  $S_i$ , can be calculated using data for the entire base year. Alternatively, the same weights as used to calculate the base-period rate of change can be used.

*Rate of pay deceleration.* The rate of pay deceleration is the difference between the base rate of change of the company pay rate and the program-year rate of change of the company pay rate where

(a) The base rate of change of the company pay rate is the annual rate of change of the company pay rate over the two-year period starting in the last complete fiscal or calendar quarter of calendar 1975 and ending in the last complete fiscal or calendar quarter of calendar 1977.

(b) The program-year rate of change of the company pay rate is the percentage change in the company pay rate from the base quarter to the last quarter of the program year, and

(c) The company pay rate in any quarter is its employment cost per hour worked for all employees, including all legally mandated costs excluded from the definition of pay.

#### QUESTIONS AND ANSWERS

The following questions and answers are substantive interpretations of the price and pay standards as they apply to individual situations. They can be used as guidance for actions in similar situations that would be consistent with the intent of the program. But, companies and employee units will need to examine their own situations in light of the program to determine how they can best comply with its objectives. Since the burden of interpretation must lie with private parties, actions taken under a good faith inter-

pretation of the pay and price standards will generally be considered in compliance.

#### I. THE PRICE STANDARD

##### A. COVERAGE OF STANDARDS

Q1. Are farmers' prices covered?

A. Prices of individual farm products are excluded from a company's price calculations. However, major farm commodity prices will be monitored jointly by the Department of Agriculture and the Council on Wage and Price Stability. Where sustained price increases for major commodities in excess of the overall inflation rate are not justified by changes in costs, administrative actions to expand supply and moderate price increases will be considered. The potential actions would depend upon the specific situation.

Q2. Are food middlemen—meat packers, canners, supermarket chains, etc.—covered?

A. Yes. Because these industries have special problems in meeting the general price standard, they may instead comply with a margin standard.

Q3. Are cooperatives covered?

A. Yes. They are expected to comply with pay and price standards.

Q4. Are U.S. operations of foreign companies included?

A. Yes. U.S. subsidiaries of foreign companies are covered.

Q5. Are foreign operations of U.S. companies included?

A. No. The standards apply only to domestic operations of these companies.

Q6. Do the standards apply to United States territories and possessions?

A. Yes. The standards apply to operations of domestic or foreign companies in Puerto Rico, Guam, American Samoa, and the Virgin Islands. They do not, however, apply to operations in United Nations Trust Territories administered by the United States.

Q7. Does the program apply to tuition and fees?

A. Yes. Schools, colleges, and other nonprofit organizations are expected to comply with the pay and price standards. Increases in tuition and fees are, however, averaged in with other charges, such as room and board.

Q8. Are utility rates and other regulated fees covered by the anti-inflation program?

A. Yes. Prices determined through a Federal, State, or local government regulatory process are covered by the program. The regulatory agencies are asked to assure compliance to the fullest extent possible.

Q9. How are joint ventures to be treated?

A. A joint venture may be aggregated only if a firm owns more than 50%

of that venture's equity. If no one firm owns greater than 50% of a joint venture, then this joint venture should comply with the program as a separate company.

Q10. May a firm aggregate a nonconsolidated subsidiary?

A. No. The standards call for the aggregation only of entities which normally would be aggregated in accordance with SEC reporting requirements (17 CFR, Section 210.4-01 to 09). The Council wishes to avoid abnormal accounting practices.

Q11. Does the fact that the price standard applies to the average rate of price increase for all goods and services sold by a company mean that there is no constraint on individual product prices?

A. Price increases for individual products can exceed the price deceleration standard so long as these increases are offset by lower rates of price increase for other products. The Council, however, will monitor individual product prices and will investigate the causes of sustained increases in major categories of the price indexes that exceed an annual rate of 10 percent.

Q12. Are crude oil, natural gas, and coal included in the calculation of a company's average price change?

A. No. The prices of these products will be monitored by the Council at the overall market level.

Q13. Is it possible to be more precise about the exclusion of commodities "whose historical and current price changes can be shown to have been closely tied to price movements on an organized open exchange market, either domestic or foreign?"

A. This exclusion applies to any commodity for which there is an active organized spot market and the producer price moves closely with the exchange price. If a firm excludes a product in this category, it should be prepared to explain to CWPS the basis for that decision. The exclusion would not ordinarily apply to commodities for which there is only a futures market, nor where customer discounts are given.

Q14. How do custom products differ from new products in applying the price standards?

A. The main difference is that custom products are one-time sales of products built to the specifications of a particular buyer. Custom and new products are treated identically under the standards.

Q15. Are imports covered?

A. Goods sold to a domestic company by a foreign entity are not included in the program. Subsequent sales of imported goods by domestic companies are covered, regardless of where the goods are when title changes.

# RULES AND REGULATIONS

Q16. Export prices are excluded. What about goods intended for export that are first sold to a domestic firm—for example a broker?

A. As a company cannot know for sure whether a broker will resell a product abroad or domestically, these sales are included in the price calculations.

Q17. Are air fares U.S. citizens pay to foreign carriers covered?

A. As imports, they are excluded.

Q18. Is a public utility that distributes natural gas exempt?

A. No.

Q19. Does the program apply to utility rates?

A. Yes.

Q20. Does the program apply to taxes?

A. No. But government service fees and charges are included.

Q21. Does the program apply to rents?

A. Yes. The landlord's average rent increase for all of his units should be consistent with the price standards.

Q22. Does the program apply to companies that build and sell new houses.

A. Yes. But in most cases such firms will not be able to compute a measure of price change because of the customized nature of their products. Thus, they will be expected to comply with the profit limitation.

Q23. Does the program apply to insurance premiums?

A. Yes. But, because there are some difficulties in measuring prices in this sector, some special standards may need to be developed. These will be developed and issued in the near future.

Q24. Are interest rates covered by the program? Are banks covered?

A. Interest rates are excluded from the price calculation. But banks must meet the profit margin limitation and the pay standard. There are some special problems of computing the profit margin for financial institutions. These issues will be examined and an interpretation of the profit margin limitation as it applies to their situation will be issued in the near future.

## B. COMPLIANCE

Q1. Suppose a company is forced to accept a union contract in excess of the standards. Must it still comply with the price standard?

A. Yes. If these higher labor costs preclude meeting the price deceleration standard, the firm should comply with the profit margin limitation. In any case, the company is out of compliance with the pay standard.

Q2. Does the exclusion of some product prices from the price calculations under 705A-3(a)-(e) cause problems for companies that use large amounts of these products as inputs?

A. If a company cannot comply with the price deceleration standard because of increases in the prices of these products, it may comply with the profit margin limitation.

Q3. If a company has just (after October 1) raised prices and is now not in compliance, must the company roll back prices to be in compliance?

A. Yes.

## C. COMPUTATION OF THE PRICE STANDARD

Q1. When does the program year begin for price increases? What is the base quarter?

A. If the company's fiscal quarter corresponds to the calendar quarter, the "base quarter" is the third quarter of 1978 (July through September) and the program year runs through the third quarter of 1979.

If a company has fiscal quarters that do not correspond with calendar quarters it may use as a base quarter the most recent fiscal quarter which ended before October 2, 1978. The program year for the company then includes the next four fiscal quarters.

Q2. If business is done on a contract basis, in making price calculations, should prices be included when contracts are signed or when payment is received?

A. At the time of payment. However, delivery prices determined by contracts signed before October 2, 1978, are excluded unless the contract allows for seller discretion to adjust prices, thereby allowing the seller to meet the price standard.

Q3. Must a consolidated company, which decides to separate its entities, use the same separation for compliance with the pay and with price standards?

A. Yes.

Q4. One company has many operating subsidiaries and divisions. Another company is equally complex, but it is not divided into subsidiaries and divisions. Can both of these companies disaggregate units for compliance purposes?

A. Yes, but it would be easier for the first company. At the option of the company, but subject to review by the Council on Wage and Price Stability, one or more subsidiaries or divisions may be treated as a separate, single company. Such separate entities are allowed if an accounting basis exists for separating them from the parent firm. Two separate kinds of allowable cases should be distinguished. First, if a company has followed an historical practice of separate accounting treatments with regard to the entities it wants to treat separately, such practices may be continued for purposes of measuring compliance with the program. Second, if a firm has maintained records which allow it to disaggregate historical accounting data into separate entities, such data may be used as a basis for disaggregating its entities. Newly adopted accounting procedures cannot be used to rework accounting data into new formats for purposes of separating units.

Q5. Can a diversified company comply by meeting the price standard on some operations (separate subsidiaries of operating divisions) and the profit limitation on others?

A. Yes. If the company decides to treat subsidiaries or divisions as separate entities, those units unable to meet the price standard can comply by meeting the profit margin limitation.

Q6. Should I use list or transaction prices in making price deceleration calculations?

A. Transaction prices are preferred. If, however, list prices move closely with transaction prices, they may be used.

Q7. The price standard requires full pass through of pay deceleration in excess of 0.5 percentage points. How can a firm calculate its rate of pay deceleration or pay share before the end of the program year?

A. The principle described in Section 705A-2(c) is that a company should pass through pay deceleration in excess of 0.5 percentage on the basis of expected changes or actual changes as they occur. If a company follows a reasonable and good-faith procedure, actual departure from the standard would not be treated as a failure to comply with the program.

## D. PROFIT MARGIN LIMITATION

Q1. What recourse from the profit margin limitation is available if the best two out of the last three years is abnormally low?

A. No specific provisions have been made to cover this situation. You may have a basis for claiming undue hardship under 705A-6.

Q2. Can the profit margin limitation be applied to the domestic market only, or must it be applied to all operations, domestic and international?

A. Foreign operations should be excluded from calculations of prices, profits, and revenues.

Q3. Are revenues and costs from new and/or discontinued products included in the computation of profit margins for the profit margin limitation?

A. Yes.

Q4. How should a change in depreciation accounting methods affecting profits be treated?

A. If a company has changed methods between the last 3-year period and the program year, it should recompute its profits for the two periods on a consistent basis.

Q5. Are any firms selling goods and services in the United States exempt from both the price standard and the profit limitation?

A. Yes. If products excluded under 705A-3(a)-(e) account for more than 75 percent of the company's total revenues during the four quarters prior to the program year, the company need not comply with the price standard or the profit limitation. The company would, however, be expected to comply with the pay standard.

Q6. How does the profit margin limitation apply to nonprofit organizations?

A. Instead of a profit margin limitation, a nonprofit organization would be expected to comply with an operating surplus limitation. Operating surplus is defined as operating funds less total costs and expenses including wages. The operating margin is operating surplus divided by operating funds.

## II. THE PAY STANDARD

### A. GENERAL STANDARDS

Q1. Does the pay standard mean that the average pay rates of all employee units should rise by 7 percent?

A. No. The 7-percent standard represents a ceiling for pay-rate increases. It is not a suggested target. A firm which grants 7-percent increases or less is in compliance with the standard.

Q2. Does the standard mean no one can receive more than a 7-percent raise?

A. No. In general, the pay standard imposes no limit on individual employee pay rates. Instead the standard applies to average pay rates for employee units.

### B. EMPLOYEE COVERAGE

Q1. How do you distinguish the non-union management group of employees from the nonunion nonmanagement group?

A. Companies can determine this in a fashion consistent with their past practices. In general, management employees should be those whose duties are primarily of a supervisory nature. For example, the Fair Labor Standards Act distinction between exempt and nonexempt employees could be used. Firms should not, however, alter or stretch previously used categories in order to permit pay increases above the standard for some workers at the expense of others. The intent of this provision is to ensure that nonmanagement personnel are not treated inequitably. If firms can provide alternative verification of equitable treatment of employees, they may combine these groups for purposes of determining their compliance.

Q2. Can a company define smaller employee units than management and nonmanagement?

A. Yes. Any further breakdown consistent with a company's accounting procedures is acceptable. To determine

overall compliance, the firm may compute a weighted average of the pay-rate increases for these groups, using as weights the percentages of the total pay bill paid to each group.

Q3. Does the 7-percent limit on the pay increase apply to new employees?

A. The limit does not apply to individual workers, whether they are new or old employees. But the average rate paid by a firm should not rise by more than 7 percent during the year, regardless of turnovers or increases in its workforce.

Q4. In the case of mergers, can the parent company treat its newly acquired companies as separate entities for pay standard computations?

A. Yes, if this is the method applied to price computations as well.

Q5. Are U.S. employees assigned to work in other countries subject to the pay standard?

A. No, they should be excluded from the employee groups.

Q6. Does the pay standard apply to Federal, State, and local government workers?

A. Yes.

Q7. Are pay increases mandated by State and local government regulations exempt from the pay standard?

A. Public sector employees are covered by the pay standard. If legally mandated pay increases determined under regulations existing prior to October 25, 1978 exceed 7 percent, the amount above 7 percent is excluded from the pay calculations.

### C. PAY AND PAY RATES

Q1. Increased employer contribution costs for legally mandated employee benefits are not charged against the 7-percent pay standard. Which employer costs are excluded?

A. Excluded are costs of legally mandated payroll taxes such as Social Security, Worker's Compensation, and Unemployment Insurance. In addition, the increased costs during the program year of new legally required benefits, such as paid maternity leave, changes in benefits under the recently amended Age Discrimination Act, and remaining ERISA mandated pension plan amendments should not be charged against the 7-percent standard.

Q2. With respect to the exclusion of overtime pay, what does the language "as long as the conditions of that pay are unchanged" mean?

A. A change in the conditions of overtime pay occurs when the overtime premium pay rate is changed or when the timing requirements are altered (for example by defining overtime as work beyond 38 hours rather than 40 hours). When such a change occurs during the program year, an estimate of the increased pay due to the

change must be included as a pay-rate increase.

Q3. Are cost-of-living differentials received if an employee is transferred to a higher cost-of-living area included as pay-rate increases?

A. Not if they represent continuation of an established practice to pay such differentials.

Q4. Should moving expense reimbursements be included as a component of pay?

A. No.

### D. COLLECTIVE BARGAINING UNITS

Q1. If workers in one union in a company are out of compliance, is the company out of compliance?

A. Yes. Each collective bargaining contract should meet the pay standard; a firm is out of compliance if any of its collective bargaining agreements exceed the pay standard. However, if this group represents less than 5 percent of the firm's work force, the group can (at the company's discretion) be included within the category of nonunion employees.

Q2. What about a small firm that is a party to a large collective bargaining agreement?

A. If the firm is a participant in the collective bargaining negotiations or a member of the employer association that negotiates the agreement and the agreement exceeds the standards, the firm is not in compliance.

Q3. Does the pay standard apply to collective bargaining settlements which were being negotiated prior to the President's announcement on October 24, but in which no formal agreement was signed?

A. The pay standard does not apply under any of the following circumstances:

(1) There was a written memorandum of agreement covering wages and benefits prior to October 25;

(2) There was a written management offer outstanding on October 24, and the contract is later signed with wage and benefit terms that are no higher; or

(3) There was evidence of an oral agreement covering wages and benefits prior to October 25.

Q4. Is there any power to invalidate contracts that exceed the standard?

A. No, the government has no authority or intention to invalidate labor contracts.

### E. NONUNION STANDARD

Q1. When does the program year begin for wage increases?

A. For nonunion and supervisory workers, the program year is the same for wage increases as for price increases—typically from the third quarter of 1978 through the third quarter of 1979. If a company uses a fiscal year other than the calendar year, it may

use as a base quarter the last complete fiscal quarter prior to October 2, 1978.

Q2. The pay standard for nonunion employee groups compares the base-quarter pay rate with the pay rate in the last quarter of the program year. Does this mean the company is unconstrained over the first three quarters of the program year?

A. No. Having an annual compliance standard minimizes the administrative burden placed on firms and eliminates some compliance problems which might be caused by seasonal factors and the timing of pay-rate changes. However, at any time during the program year, companies should be prepared to demonstrate that their pay situation is consistent with the 7-percent annual standard.

Q3. If a pay plan is communicated to pay-plan supervisors prior to October 23, but it is not in operation prior to that date, are increases in excess of 7 percent under this plan excluded from the pay standard?

A. No. It must either be in operation or communicated to the employees.

Q4. Section 705B-4(e) says that companies may make adjustments for shifts in the composition of the work force among distinct functional employee subgroups. What does this mean?

A. Under this option, a separate pay-rate increase may be calculated for each functional employee subgroup. If a weighted average of the resulting pay-rate increases is 7 percent or less, the employee unit is in compliance. For purposes of computing this weighted average, the subgroups' base-quarter shares of total employee-unit pay may be used as weights.

Q5. What is the effect of these adjustments on the nonunion pay standard?

A. Under the general standard as applied to nonunion groups, changes in the composition of the work force toward higher-paid employee subgroups could carry the employee unit as a whole over 7 percent even though the 7-percent limitation is satisfied for each job category. This adjustment provides nonunion groups with treatment similar to that allowed for collective bargaining units by permitting companies to assume no changes in the composition of the work force during the program year.

Q6. What is a distinct functional employee subgroup?

A. Within an employee unit, a distinct functional subgroup would be identified by type of work (for example, engineers, accountants, secretaries, production workers, etc.). As a rule, these subgroups should be those regularly identified in the company's accounting practices and pay plans as separate employee groups.

Q7. Section 705B-4(b) says that compliance may be determined on the basis of the average pay rates for continuing employees. What is the implication of this option?

A. This option allows the company to follow pay rates for the fixed population of continuing employees employed throughout the program year. This approach may be especially useful to small businesses that have changes in the composition of the work force but do not typically perform the cost-accounting analyses needed to adjust for these compositional shifts.

When excluding promotion and qualification increases under this method, the company should be prepared to demonstrate that such increases granted during the program year are consistent with historical practices.

Q8. Are step-rate increases or longevity increases legitimate promotions?

A. No. In all cases, step-rate or other similar pay-rate increases that represent moves through a pay hierarchy for work that is not substantially changed are included as pay-rate increases.

Q9. What is a qualification increase, and is it included in determining compliance with the pay standard under 705B-4(b)?

A. Qualification increases include automatic progression increases from entry levels to job-rate levels and other increases associated with discrete improvements in an employee's job-related credentials, such as completion of an educational or vocational training program. Such increases are not included in determining compliance.

Q10. Can a company demonstrate compliance with the pay standard for nonunion employee groups on a prospective basis?

A. Yes. If a company bases its pay projections on its standard budgetary practices and assumes continuation of well-established historical relationships, then it can demonstrate compliance on a prospective basis for nonunion units.

Compliance must still be determined retrospectively by comparing the last quarter of the program year with the base quarter. However, failure to meet the 7-percent standard will not constitute noncompliance if there has been a good-faith effort to comply, but unforeseen events beyond the company's control have caused the failure.

Q11. Can a nonunion unit make multi-year agreements?

A. Yes, provided they are binding on both parties. The rules for multi-year collective bargaining agreements should be applied in evaluating com-

pliance of such agreements with the standards.

#### F. VARIABLE COMPENSATION

Q1. How are sales commission and production incentive plans treated under the standard?

A. Employees operating under these plans are subject to the standard. If the unit's compensation exceeds the standard, companies must be able to demonstrate that they would have been in compliance had the unit's sales or production experience, based on physical volume, been the same as in the year prior to the program year.

Q2. Is compensation from annual incentive plans included as pay?

A. Yes. Pay from annual incentive plans, such as annual bonuses, is included as pay in the base quarter and during the program year.

Q3. How are annual incentive awards to be treated in computing pay rates?

A. This depends on whether the awards are made pursuant to a plan or on a discretionary basis. Annual bonuses or awards made according to a plan previously announced, consistently administered, and based on past practice, should be treated as pay over the period earned. For example, a bonus paid in early 1979 depending on performance over calendar-year 1978 should be treated as pay received evenly over 1978.

If the bonus payment is discretionary (not under a plan) and there is no demonstrable objective performance criterion, it should be treated as pay when payment is made (or when accrued if it is deferred). For example, all discretionary bonuses paid (or accrued) in the program year should be included as pay received evenly over the program year. Similarly, one-fourth of all bonuses paid (or accrued) in the preceding year should be treated as pay in the base quarter.

Q4. In determining the bonus amount to be included in the base rate of pay, must the company use the amortized bonus amount which was earned in the base quarter?

A. No. In determining the bonus amount to be included in the base rate of pay, the company may choose either the amortized bonus amount earned in the base quarter or the average of the corresponding amounts earned in any two of the five most recent years.

Q5. How is deferred compensation treated under the standard?

A. Deferred forms of compensation are treated as pay in the period earned regardless of when payment actually occurs. This applies to deferred compensation earned over, or averaged into, the base quarter as well as to compensation earned in the program year.

#### G. FUTURE-VALUE COMPENSATION

Q1. How are future-value incentive plans treated under the pay standard?

A. Future-value incentive plans are long-term plans under which units are granted whose value will not be known until some future time. The plans involve qualifications or contingencies which make their exact valuation uncertain, but increases in their value can be subjected to a rough 7-percent limit by limiting the number of units granted during the program year to an average increase of 7 percent per recipient.

During the program year, changes in the number of recipients eligible to receive units under these plans must be based on plans in existence prior to October 23, 1978 or on the continuation of well established past eligibility practices.

Q2. What constitutes a unit of future-value incentive compensation?

A. A unit includes shares, awards, shares subject to option, or investment amounts. In most cases, units under these plans are the number of shares under options or shares awarded. Where plans involve investment amounts, this means the number of shares times the share price at the time of award.

Q3. How do stock splits affect the limitation on the number of units to be issued under future-value plans?

A. The number of units should be adjusted to reflect stock splits and stock dividends.

Q4. Some long-term incentive plans do not run on an annual basis and have not been in place five years but do have a regular grant cycle—for example, every other year. How should the percent-increase limitation be applied to continuation of these plans?

A. The percent-increase limitation should be applied to the number of units issued in the last regular grant period under the plan.

#### H. HEALTH BENEFITS

Q1. If, based on actual experience, the cost of maintaining existing health benefits increases by less than 7 percent, does this mean that more than a 7-percent increase in other pay components may be granted?

A. Yes.

Q2. If new health benefits are added, are these included in pay-rate computations?

A. Yes. For example, if the cost of maintaining the old benefit package increases by more than 7 percent and the new benefits add an additional 3 percent, the combination of the two should be treated as a 10-percent increase on the health-benefit cost base.

Q3. Is it necessary to separate health insurance costs from a general health and welfare benefit package in

order to apply the 7-percent maintenance rule?

A. Yes, unless it is impractical to separate health insurance from other costs.

Q4. Can individual items in a health benefit package be considered separately, counting some item increases at 7 percent and others at their actual increase?

A. No. The 7-percent maintenance exclusion must be applied to the health benefit package as a whole.

#### I. DEFINED-BENEFIT PENSIONS

Q1. What is a pay-related defined-benefit pension plan?

A. These include final-average pay plans, career-average earnings plans, and other similar plans in which the level of benefits provided by the plan is related to earnings or salaries over a specified period of employment.

Q2. What is a non-pay-related defined-benefit pension plan?

A. These include plans where the benefit level is a flat dollar rate which is independent of earnings or salaries over the period employed.

Q3. For pay-related pension plans, how does one determine the employer costs attributable to increased benefits due to changes in salary levels during the program year or over the life of a new collective bargaining agreement?

A. Using standard company accounting procedures, calculate costs for the pension plan at the end of the program period at both the base-quarter and program-year salary rates; the difference between the two is the employer cost attributable to the change in pay levels and is included in the pay-rate change in determining compliance with the pay standard.

Q4. For pay-related pension plans, is it necessary to perform detailed calculations to sort out employer costs for increased benefits related to salary changes, as set forth in the preceding question?

A. No. In most cases, a simplified procedure would closely approximate the outcome of such detailed computations. In particular, in those cases where the pension plan is not amended during the program period and the benefit structure remains unchanged, it is consistent with the intent of the pay standard to exclude pension funding costs from all pay-rate calculations. This means that pension funding costs would not be included in the base pay rate nor in the program-year pay rate in determining compliance with the pay standard.

Q5. Why is an increase in benefit levels in a pay-related pension plan charged as a pay-rate increase when there has not been any amendment to the plan?

A. In order to treat pay-related and non pay-related pension plans equita-

bly. For example, a non pay-related plan that provides a pension benefit of \$10 per month per year of service would have to be amended in order to increase the pension benefit. In a pay-related plan, however, the amount of pension benefit automatically changes as salary levels change. If no distinction were made, this would generally result in benefit changes in the non pay-related plans being charged as pay-rate increases while the changes in the pay-related plans would not be charged as pay-rate increases.

Q6. For non pay-related plans, if the benefit level remains unchanged, does this mean that more than a 7-percent increase is allowable on the other components of pay?

A. Yes, since under these conditions the company may include the same dollar pension cost per hour in both the base-quarter pay rate and the program-year pay rate.

#### J. LOW-WAGE EXEMPTION

Q1. Should employees with wage rates of \$4.00 per hour or less at the beginning of the program year be removed completely from all employee units?

A. Yes. They are excluded from each employee unit for the entire program year, even if wage-rate increases carry them over the \$4.00 limit during the program year. Further, employees hired during the program year at a wage rate of \$4.00 per hour or less are also excluded.

Q2. Is there any ceiling on the pay-rate increases granted to employees exempted under the low-wage provision?

A. No.

Q3. Will employees whose straight-time wage rate is less than or equal to \$4.00 an hour, but who earn more due to incentive pay, be excluded from pay-rate computations?

A. Determination of the employee's straight-time hourly wage is based on average straight-time earnings, including incentive pay.

Q4. Should employees exempted under the low-wage provision be included in their respective employee units for the purpose of calculating additional price deceleration required by pay deceleration in excess of 0.5 percentage points?

A. Yes.

#### K. TANDEM PAY-RATE EXCEPTION

Q. In what circumstances can the tandem pay-rate exception apply?

A. In any of the following circumstances:

- (i) To maintain historical supervisory differentials;
- (ii) For union and nonunion groups of the same company;
- (iii) For union and nonunion groups in a local labor market, irrespective of

whether they belong to the same company; and

(iv) For two separate collective bargaining units.

However, in each of these circumstances, there must be a clear leader-follower relationship and the pay increases must be equal in value and directly related in timing.

#### L. PRODUCTIVITY WORK-RULE EXCEPTION

Q1. Is the principle of trading newly negotiated work-rule changes for wage increases to be applied to contract changes that make work rules more restrictive as well as relaxations in work rules or training requirements?

A. Yes; if such changes produce a demonstrable and measurable decline in productivity growth, they should be deducted from the allowable pay-rate increase.

Q2. Can the principle of productivity increases related to work-rule changes be applied to nonunion units?

A. No. The work-rule exception is intended to apply in those limited situations where companies have no alternative means of eliminating contractual work-rule restrictions that prevent improvements in productivity. This provision does unfairly discriminate against employee groups that have, in the past, cooperated with management to promote improvements in productivity. Yet, in some circumstances there are no practical alternatives to eliminating previously agreed-to restrictions except through an additional wage increase. In some cases, the unions may have previously foregone a wage increase to obtain the restriction.

Q3. Can wage increases exceed 7 percent for firms that achieve productivity gains in excess of the economy-wide average?

A. No.

#### III. SPECIAL SECTORS

##### A. FOOD MANUFACTURERS, RETAILING AND WHOLESALING

Q1. Are retail food stores covered?

A. Yes. But, because such stores have severe data problems and may not be able to calculate an adequate measure of price change for the wide range of products that they sell, an alternative standard, based on controlling margins has been provided. However, a retail store is encouraged to comply with the general price standard, if able to do so.

Q2. Must food manufacturers comply with the gross margin limitation?

A. No. They may choose to comply with the general price deceleration standard. If they cannot meet either of these standards, they should, of course, comply with the profit margin limitation.

Q3. May a company elect to comply with the margin standards by controlling markups rather than margins themselves?

A. Yes. A company may choose any alternative method of compliance that is consistent with the manner in which it conducts its business, sets its prices, and keeps its records, as long as the end result is consistent with meeting the margin standard.

Q4. How do food processors and food manufacturers meet their target dollar gross margins during the program year given the seasonal nature of the industry?

A. Food processors and food manufacturers should first calculate their base-quarter dollar gross margin. Next, they should estimate their expected average rate of increase in margin over the next 4 quarters (6.5 percent plus expected increase in physical volume). That overall increase may be divided among the 4 quarters in such a way that seasonality and normal trading patterns are observed. The targets set for each quarter are to be adjusted quarter-by-quarter after observing operating results for each quarter. If a company overshoots its target in one program quarter, it should compensate by undershooting in the next quarter or quarters, and so on, to achieve a rolling adjustment on a cumulative basis.

Q5. How do I compute the allowable percentage gross margin for a retail company?

A. Assume the percentage gross margin for the 4 quarters prior to October 2, 1978, was 44 percent, and 40 percent for the corresponding four quarters prior to October 2, 1976. The 2-year overall increase is 10 percent and the annual average rate of change is 4.88 percent. Subtract the 0.5 percentage point deceleration (4.88-0.5) to get the allowable percentage increase in the margin of 4.38 percent. The allowable percentage margin in the program year is 45.93 percent (44+1.0438).

##### B. PROFESSIONAL FEES

Q1. Does the program apply to doctors' fees, hospital charges and other medical care prices?

A. Yes. Physician, dentist and other health professional fees are covered under the professional fee standard. Drugs, pharmaceuticals, eyeglasses and other health care products are covered under the general price standards.

Hospital and nursing home care are covered under the program but standards for their services have not yet been completed. This is partly due to the more complex nature of payment mechanisms for these services and the need to coordinate the standards with Administration legislative proposals.

Health insurance is also covered under the program and price standards for health insurance as well as other types of insurance will be issued shortly.

Q2. How is the professional fee standard applied by firms which have sales of products for which the general price standard applies?

A. Companies that provide services for which the professional fee standard applies as well as goods or services for which the general price standard applies, should comply with the appropriate standard for each segment of their business separately.

Q3. Why is a 6.5 percent fixed price standard being used for professionals rather than the 0.5 percent deceleration standard applicable to firms in most other sectors?

A. Many professionals do not have the necessary information to calculate weighted average price increases to determine compliance with the general price standards.

For health professions, fee inflation has tended to be considerably higher during recent years than 6.5 percent so that the implementation of this standard should contribute to a more substantial deceleration in medical care costs.

(b) *Undue Hardship and Gross Inequity.* The Council may except a company from the application of the price deceleration standard, make adjustments to the base-period rate of price change, or alter application of the profit margin limitation to avoid extreme situations of hardship or gross inequity.

##### 705B PAY STANDARD

705B-1 *Pay Standard.* For each employee unit, the annual increase in average pay rates should be 7 percent or less.

705B-2 *Employee Units.* For the purpose of establishing compliance with the pay standard, a company must identify three types of employee units:

(a) Each group of the company's employees subject to a particular collective bargaining agreement to which the company is a party constitutes a separate employee unit.

(b) All management employees (not under a collective bargaining agreement) constitute an employee unit.

(c) All other employees constitute an employee unit.

A company need not identify separately collective bargaining units accounting for less than 5 percent of its employees. However, if a collective bargaining unit is not separately identified, the workers must be included in the "all other employees" category.

705B-3 *Application of the Pay Standard to Collective Bargaining Agreements.*

(a) A company complies with the pay standard if the annual rate of pay-rate change over the life of each collective bargaining agreement negotiated during the program year is 7 percent or less.

(b) In addition, the annual pay-rate increase may be no greater than 8 percent in any year of a multi-year agreement.

(c) For purposes of determining whether the annual rate of pay-rate change complies with the pay standard, formulas for cost-of-living adjustments should be computed on the assumption of a 6-percent annual rate of inflation in the Consumer Price Index over the life of the contract.

Dated: December 21, 1978.

BARRY P. BOSWORTH,  
Director, Council on Wage  
and Price Stability.

**DEPARTMENT OF  
TRANSPORTATION**

**Federal Aviation  
Administration**

**AIRPORT SECURITY**

**Revision of Regulations**

**Register  
Federal Property**

[4910-13-M]

## Title 14—Aeronautics and Space

## CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 16245]

## PART 107—AIRPORT SECURITY

## Revision of Part 107

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

**SUMMARY:** This amendment revises those Federal Aviation Regulations which are designed to ensure the security of airports serving scheduled air carriers required to have screening programs. The experience of operators of those airports and the FAA has indicated that these regulations are in need of revision. In addition, it is necessary to add certain requirements, which Congress has directed the FAA to adopt. The amendment is intended to update and clarify airport security regulations, and to provide more effective protection of persons and property in air transportation or intrastate air transportation against acts of criminal violence and aircraft piracy.

EFFECTIVE DATE: March 29, 1979.

FOR FURTHER INFORMATION CONTACT:

Milford T. Conarroe, Ground Operations Security Division (ACS-300), Civil Aviation Security Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591; telephone (202) 426-8768.

## SUPPLEMENTARY INFORMATION:

## I. GENERAL

Interested persons have been afforded an opportunity to participate in the making of this amendment by Notice of Proposed Rule Making No. 77-8 issued on June 10, 1977 (42 FR 30766; June 16, 1977). For the most part the proposals made in Notice 77-8 for amending Part 107, Airport Security, are adopted by this amendment.

This amendment changes Part 107 as follows:

1. Expands the security program content requirements.
2. Revises and makes more explicit the procedures for approval and amendment of a security program.
3. Adds procedures for notifying the FAA when changed security conditions require an amendment to a security program.
4. Revises and clarifies the requirement for law enforcement officers and adds standards for their training. (As

will be noted, these standards are less burdensome than proposed, in that they provide for the use of either State or local standards.)

5. Adds procedures for requesting the use of Federal law enforcement officers.

6. Adds a prohibition against carrying a firearm, an explosive or an incendiary device, but, unlike the proposal, the prohibition is limited to sterile areas.

7. Adds a provision requiring the airport operator to make a record of certain law enforcement actions available to the FAA.

Due consideration has been given to all comments received in response to the Notice 77-8. Except as otherwise discussed in this amendment, the amendment and the reasons for it are identical to the proposal and the reasons set forth in the proposal.

Approximately 250 comments were received in response to Notice 77-8. Over half of the responses were from individuals, most of whom commented on § 107.21, relating to the carriage of weapons on airports. Comments were received from: airport operators and authorities; elements of municipal, county, and State governments; agencies of the Federal government; and outdoor sports associations and related businesses. A number of comments were received from domestic and foreign air carriers and organizations representing the aviation industry. Comments were also provided by police and security organizations.

A number of comments were received that were beyond the scope of the notice. These have not been addressed in this preamble.

A small number of commenters stated that many of the proposals in Notice 77-8 had no legal basis because the Federal Aviation Act of 1958 (Act) gives the FAA authority to issue regulations protecting persons and property against acts of criminal violence and aircraft piracy aboard aircraft only. However, in adding Section 315, Screening of Passengers, and Section 316, Air Transportation Security, (49 U.S.C. 1356 and 1357) to the Act (Pub. L. 93-366, section 202, 88 Stat. 409 (1974)), the Congress articulated the FAA's authority in this area by requiring the Administrator to provide persons traveling in air transportation and intrastate air transportation protection from acts of criminal violence and aircraft piracy. Therefore, the Administrator is authorized to prescribe regulations affecting activity on the airport, as well as aboard aircraft, when they are necessary to provide this protection.

## II. SPECIFIC SECTIONS

Comments relating to specific sections and subsections of the amendment are set out below:

## A. APPLICABILITY

A number of comments were received concerning the applicability of the part. A small number of commenters felt that section 107.1(a)(3), which would apply Part 107 to each person on an airport subject to the part, was unconstitutional or at least an unjustified extension of Section 316 of the Act, if it were to be used to bring civil action against persons found to be in possession of weapons or other prohibited articles. Some believe this rule would comply with the requirements of Section 316 if applied only to people in "sterile areas." These comments and others on proposed section 107.21, (Carriage of firearms, explosives, or incendiary devices) are discussed below.

## B. AIR OPERATIONS AREA

Concerning the definition of Air Operations Area (AOA) contained in section 107.1(b)(2), one commenter stated that helicopter operations areas should be included in the definition and another wanted to include general aviation operations. Conversely, others would exclude from the definition general aviation areas and areas under the exclusive control of Part 121 and 129 air carriers.

The FAA considers it to be more efficient for security programs to be based upon the security needs of an entire, specifically-defined area, rather than individual elements within that area. Therefore, all operations occurring within an area "designed and used for the landing, taking off, and surface maneuvering of airplanes" (including helicopter and general aviation operations) are part of the AOA. Areas that are used exclusively by helicopters are not included in the definition of an AOA because they do not pose a sufficient threat to air carrier operations subject to section 121.538.

An air carrier may limit its responsibility within an AOA to an "exclusive area" under Part 107, as adopted, for which the carrier exercises exclusive security responsibility in accordance with a written agreement between it and the airport operator.

## C. LAW ENFORCEMENT OFFICER

## 1. WARRANTLESS ARRESTS

Proposed section 107.3(b)(3) would have defined a law enforcement officer (LEO) as an individual who is, among other things, authorized to arrest for the violation, either in or out of the officer's presence, of any criminal law of the State and local jurisdictions in which the airport is located.

cated. With regard to this part of the definition the Criminal Division of the Department of Justice pointed out that many police officers of State and local jurisdictions do not have authority, without a warrant, to arrest for misdemeanors not committed in their presence. The Department of Justice recommended striking the phrase "either in or out of his presence" from the definition so as to conform it to the arrest authority ordinarily possessed by law enforcement officers for misdemeanor offenses.

The FAA recognizes that arrest power is frequently limited as between misdemeanors and felonies, in that police officers often do not have authority, without a warrant, to arrest for misdemeanors committed outside their presence. Upon further consideration, the FAA has determined that it is not essential that officers have authority to arrest for misdemeanors committed outside their presence. Therefore, the LEO provisions, as adopted, require only that an LEO have authority to arrest with or without a warrant: (1) For a crime committed in the officer's presence, and (2) for a felony, when the officer has reason to believe that the suspect has committed it.

## 2. SCOPE OF AUTHORITY

Some commenters also believed that a limited authority to enforce only statutes relating to aviation security would be adequate for officers supporting security programs. A few were of the opinion that Federally-mandated "guards" had no reason to enforce State or local laws. Authority to arrest for violations of the criminal law of the State and local jurisdiction in which the airport is located is necessary to provide the level of law enforcement contemplated by Section 316 of the Act, "adequate to insure the safety of persons traveling in air transportation or intrastate air transportation from acts of criminal violence and aircraft piracy." It should be noted that locally deputized LEOs need not have the authority to arrest for Federal offenses. The majority of enabling State statutes and local ordinances provide authority to the deputized persons to arrest for both local and Federal offenses; however, a few States do not. In these instances the LEO's authority to arrest for local violations that are comparable to Federal violations has proven adequate under the current rule and is expected to be sufficient under this amendment.

## 3. PRIVATE LAW ENFORCEMENT PERSONNEL

Finally, a number of commenters also pointed out that many types of peace officers, cadets, trainees, and, particularly, private law enforcement personnel would be excluded from participation in security programs.

On the contrary, this amendment does not preclude the use of any type of police officer, including a privately employed officer, if the officer has the arrest authority specified in section 107.17 and meets the other requirements of Part 107. Whether an individual employed by a private security force could perform the LEO function would depend on the existence of appropriate State statutes or local ordinances which confer the arrest power required by section 107.17. This authority is necessary to provide for immediate law enforcement action in situations in which the threat of criminal violence or aircraft piracy demand it.

In this amendment, all the requirements that must be met for a person to be used as an LEO, including those in proposed § 107.1(b)(3), have been placed in § 107.17. As adopted, § 107.1(b)(4) defines a law enforcement officer as "an individual who meets the requirements of § 107.17."

## D. SECURITY PROGRAM GENERALLY

## 1. DEGREE OF SECURITY

Some commenters mistakenly believed that new § 107.3(a)(1) calls for absolute security when it requires that the airport operator adopt and carry out a security program that "provides for the safety of persons and property traveling in air transportation against acts of criminal violence and aircraft piracy." The rule does not require the airport operator to go to unreasonable extremes to meet all possible security threats.

## 2. REVISION OF SECURITY PROGRAMS

One commenter was concerned that the proposed revisions would require every existing security program to be rewritten. Although certain new requirements in Part 107, including training provisions, may call for an amendment to security programs, no other substantial revisions will be necessary if the program otherwise meets § 107.3(a)(1).

## E. SECURITY PROGRAM CONTENTS

## 1. NECESSITY OF REQUIREMENTS

A number of commenters felt that the requirements in § 107.3(b), as to the content of the security program, would result in a vast increase in the amount of information required in the security program. They described these requirements as unnecessary, bureaucratic, and burdensome, particularly on smaller airports with limited staffs and resources.

Many of the requirements of new § 107.3(b) are already met in security programs which were submitted under the current § 107.3. The requirements added to new § 107.3(b) are necessary

to ensure the effectiveness of each security program in accordance with Section 316. Since most of the requirements in new § 107.3(b) are contained in existing security programs, the increase in overall workload in administering the program will not be significantly increased. In addition, standards for complying with the new requirements are readily available, which will lessen any additional workload. As a result of these factors, the new program should not be burdensome.

## 2. DESCRIPTION OF THE AOA

Some commenters were convinced that listing the dimensions of the AOA serves no purpose, particularly if the areas are graphically illustrated. Others objected to the listing of areas adjacent to the AOA unless the areas were specified by type in the rule or determined solely by the airport operator, and were limited to areas which posed a genuine threat of hijacking.

It is necessary for the airport operator to describe the areas over which it proposes to maintain security so that the FAA can determine the adequacy of the security program and approve it. Specific dimensions are necessary in order for the AOA to be precisely described and a graphic description may not be sufficient for this purpose. In addition to these dimensions, it is necessary for the AOA to include pertinent features, such as terrain and barrier composition.

The only areas other than AOA's that need to be identified in security programs in accordance with § 107.3(b)(2) are those that clearly present a danger to persons and property in the AOA's.

## 3. DESCRIPTION OF FACILITIES, EQUIPMENT AND TRAINING

Several commenters objected to the requirement of including procedures and a description of facilities and equipment used to protect AOA's, as duplicating information contained in security programs required by Parts 121 and 129. Similarly, one commenter considered a description of LEO support and LEO training programs to be duplicative, unwarranted, and unnecessary.

A clear description of the procedures, equipment, and facilities intended to be used to secure the AOA is needed to evaluate the program for approval and determine the effectiveness of its implementation in accordance with § 107.13. For the same reason, a description of the law enforcement support and LEO training is also needed.

## 4. ALTERNATE EMERGENCY PROCEDURES

A number of commenters objected to requiring the description of alternate

emergency procedures, as too broad, too narrow, or not needed. Section 107.3(b)(6) does not require airport operators to develop alternate security procedures to be used during emergencies and other unusual conditions. These procedures must be included in the security program only if the airport operator has developed them. Section 107.3(b)(6), as adopted, clarifies this requirement. It should be noted that this section is intended to complement, not duplicate, the requirement in §139.55 for an airport emergency plan.

#### 5. IMPLEMENTING DOCUMENTS

Commenters also objected to the requirement that implementing documents be included in the security program. Proposed §107.3(b)(8) does not require airport operators to include all implementing documents in their security programs. Rather, it allows them to avoid duplication by appending to the security program already existing documents which contain the information required by §107.3(b), without having to restate the information elsewhere in the program. This provision has been deleted and a new paragraph (c) has been added to §107.3 to make this clear.

#### F. SECURITY PROGRAM AVAILABILITY

With respect to the availability of the security program, as provided in proposed paragraphs (c) and (d) of §107.3 (adopted as paragraphs (d) and (e)), one commenter would have the security program available to all air carriers served by the airport and another would have it available to all FAA personnel assigned to inspect the airport. One commenter stated that airport operators already restrict security program information, whereas another felt that the information should be made available to all airport users. A few believed that the provisions conflict with the Freedom of Information Act and the Executive Orders regarding security classifications.

Under paragraph (e) the airport security program is available only to those persons who have an operational need-to-know. The thrust of paragraphs (d) and (e) is to ensure that a copy of the security program is maintained and that it is made available to those inspectors who must monitor its implementation. The airport security program contains sensitive information of inestimable value to those who would commit offenses against civil aviation. In recognition of this fact, the Congress provided, in Section 316 of the Act, for the Administrator to protect that type of information by prohibiting disclosure if it would be "detrimental to the safety of persons traveling in air transportation." Congress specified that disclosure would

not be required, notwithstanding any provision of the Freedom of Information Act that would otherwise be applicable. Moreover, these provisions are not contrary to any Executive Order applying to national security. Therefore, under paragraph (e), the airport operator must restrict access to its security program to those who have an operational need-to-know.

#### G. CHANGED CONDITIONS AFFECTING SECURITY

With respect to §107.7, which contains the procedures to be followed if there is a change in conditions on the airport which affects security, one commenter requested clarification as to who determines when a security program becomes inadequate. Section 107.7 requires the airport operator to make the initial determination as to the program's continued adequacy after a change in conditions occurs. This determination would be subject to FAA review.

#### H. AMENDMENT OF SECURITY PROGRAM BY AIRPORT OPERATOR

##### 1. FIELD OFFICE INVOLVEMENT

With respect to the procedures in §107.9 for amending security programs by airport operators, one commenter believed that they derogate the Air Transportation Security Field Office's responsibility in favor of the Regional Office. Another felt that the Regional Director should be able to modify proposed amendments. Although new §107.9 provides specific procedures for submission of requests for amendment directly to the Regional Director, the FAA sees no reason to provide the Regional Director with specific authority to amend a proposal, since it is expected that modification at an early stage can be accomplished by mutual agreement between the Regional Director and the airport operator. It should be noted that when amendments are submitted to the Regional Director, the involvement of the operational field element in review of these will not be changed.

##### 2. COORDINATION WITH TENANTS

Another commenter believed that each air carrier operating on an airport should approve in writing each proposed amendment. Although coordination of the security program provisions with air carrier tenants would be a reasonable method of ensuring their cooperation, understanding, and support, the FAA believes that it would be impractical for the airport operator to be required to submit proposed amendments to the tenants for their prior written approval.

#### 3. REGIONAL DIRECTOR APPROVAL

One commenter wanted the failure of the Regional Director to notify the airport operator in writing of approval or disapproval of the amendment to constitute approval. The FAA believes under most circumstances, 15 days should be sufficient for approval or disapproval by the Regional Director. Every effort will be made, including close cooperation with the airport operator, to ensure that a decision is made within this time period. However, it would not be in the public interest to provide for automatic approval after a specific time on matters dealing with aviation safety.

#### I. AMENDMENT TO SECURITY PROGRAM BY FAA

Concerning amendments to security programs by the FAA under §107.11, one commenter felt that the Administrator should approve all amendments for the purpose of standardization. A small number of commenters were of the opinion that airport operators should be granted the same period for response as the Administrator under §107.9, i.e., 30 days instead of seven.

The FAA believes that, since security programs are approved by the Regional Director, the Director should have the authority to amend these programs under ordinary circumstances. Complete standardization is neither possible nor desirable, because airports have security problems of an individual character. However, to the extent that uniformity is possible, it will be effected through FAA security policy.

The seven-day period for response to amendments proposed by the FAA has been in use as a minimum time period for over five years without any known problem. However, after consideration of the comments, the FAA agrees that a minimum response period of 30 days would be more reasonable. Therefore, the section, as adopted, has been changed to provide for this response period.

#### J. SECURITY OF AIR OPERATIONS AREAS

##### 1. AIRPORT TENANT RESPONSIBILITY

A number of commenters noted that the provisions of proposed §107.13 would eliminate the exceptions contained in current §§107.3(a)(2)(i)(d), 107.9(b), and 107.11(b)(2). These exceptions relieve the airport operator of the responsibility for controlling unauthorized access to, and requiring personal and vehicle identification for, AOA's that are exclusively occupied or controlled by an air carrier required to have a security program under §121.538.

Several commenters argued that the change would give responsibility to airport operators for areas over which

they might exercise little or no control. They referred to the provisions of long term lease arrangements or other legal restrictions, and asserted that airport operators would have no power to demand compliance. Others contended that airport operators are not economically or physically capable of exercising this responsibility. Some commenters argued that each tenant has responsibility, or should be delegated responsibility, for security in its own leased area. A few felt that there would be "confusion and conflict."

After consideration of these comments, the FAA has determined that the airport operator should not be required to share the responsibility for control of persons and ground vehicles entering, and moving within, an air carrier's exclusive area, and §107.13, as adopted, provides this relief. An "exclusive area" is defined in new §107.1(b)(3) as that part of an AOA for which an air carrier has agreed in writing with the airport operator to exercise exclusive security responsibility under an approved security program or a security program used in accordance with §129.25.

Although an area may be exclusively controlled or occupied by an air carrier, it can have an effect on the security of other areas of the airport. The closest coordination of security activities is needed between all airport tenants, including those subject to §§121.538 and 129.25. The airport operator is in the best position to act as the necessary focal point for this coordination.

Section 107.13 provides that the airport operator is not required to exercise the control functions specified in that section with respect to an air carrier's exclusive area. To ensure a coordinated security effort, the rule requires that the procedures, facilities, and equipment used by the air carrier to perform those functions must be appended to, or described in, the airport security program. The program must also contain the procedures by which the air carrier will notify the airport operator when procedures, facilities, and equipment are not adequate to perform the control functions.

The FAA agrees that airport tenants are frequently in the best position to know their own security needs and, because of their direct involvement, are the ones who can effectively implement procedures in their areas. An effective overall airport security program can be achieved only if all concerned are involved in its design and implementation.

It should be emphasized that nothing in §107.13 prevents any airport tenant from accepting responsibility of the security of its leased area, or from carrying out its own security pro-

gram. The tenant's program and the airport security program must be compatible; however, this can be achieved effectively by making appropriate sections of all tenants' security programs, including those of air carriers, a part of the airport security program.

#### 2. SECURITY COSTS

Some airport commenters were concerned that they would have substantially increased costs because of the need for added patrols, guards and other added measures. Air carrier commenters were also concerned because they anticipated that airport operators would pass their increased costs on to them, or require them to have costly security measures or facilities beyond those currently required by the air carrier's FAA approved security program.

The FAA believes that there is little likelihood of increased costs for either airport operators or airport tenants, including air carriers, as a result of §107.13, as adopted. Where the security measures of tenants other than air carriers are already adequate, the provision does not require the airport operator to provide any additional security measures, and, the current practice of the acceptance of responsibility by these tenants may be continued. Second, it is not anticipated that any additional air carrier security measures will be needed where the level of security presently provided, pursuant to an FAA approved security program, is already acceptable. While modification of specific measures or procedures used by an air carrier at particular airport may be necessary to achieve compatibility with the airport's security program, this should not result in a significant overall cost increase.

#### 3. ACCESS TO AOAS

A small number of commenters on §107.13 would substitute the word "controlling" for "preventing" in paragraph (a), which requires control of access to each AOA, including methods for "preventing" entry by unauthorized individuals and ground vehicles. Section 107.13(a) merely requires items described in the security program to be put into use. It does not impose absolute liability for unauthorized entry on the airport operator. Therefore the FAA believes the suggested substitution is unnecessary.

#### 4. UNAUTHORIZED PERSONS AND VEHICLES

Two commenters requested a definition of "unauthorized persons and ground vehicles." For the purpose of §107.13, an unauthorized person or ground vehicle is one whose entry is not approved by the airport operator or by the air carrier, for an exclusive area. Procedures for determining which persons and ground vehicles are

authorized must be set out in the security program.

#### 5. MEANS OF IDENTIFICATION

Some commenters believed personal recognition as a means of identification is untrustworthy and recommended the use of identification media in all cases. Personal recognition is accepted by security experts and is used in the most secure areas, such as top secret facilities, as the most trustworthy system of identification. It is more useful than other systems of identification at small, low volume airports. The requirement of carrying identification media under all conditions has therefore been eliminated.

#### 6. CLARIFYING CHANGES

For clarity, changes to certain language have been made in §107.13. The word "contained" in the introductory clause in §107.13 is replaced with the word "described." In paragraph (a) the words "or attempted penetration" have been added.

#### K. LAW ENFORCEMENT SUPPORT

##### 1. RESPONSE TIME

In regard to the law enforcement support required by §107.15, some commenters endorsed the section as written and applauded the increased flexibility it provides. Others agreed with the concept, but were of the opinion that a required one-minute response, whether stated in the rule or established as a condition for approval of security programs, was unrealistic. Some reasons given for this opinion were that such a restriction would limit the officers to the vicinity of the checkpoint, and would effectively eliminate the intended flexibility. Of those who favored the flexibility, but who also objected to the one-minute response constraints, a small number observed that a maximum of three minutes with an average response of one minute was more realistic. In this regard, it was noted by one commenter that part 139 provides for a period between three and four and one-half minutes for emergency vehicle response.

New §107.15 allows airport operators to adopt, with FAA approval, the most efficient system of law enforcement support to meet the individual needs of the vast variety of airports and conditions. The Federal Aviation Act of 1958, as amended, requires, and experience at United States airports demonstrates the need for, law enforcement presence. That same experience and the experience at airports in other countries indicates that the specific form of LEO presence should vary depending on a number of factors including the volume of passenger traffic

and the configuration of the terminal screening point.

In the preamble of NPRM 77-8, the FAA suggested one minute as the maximum permissible time under the current conditions. It is not possible to specify a minimum response time in the regulation, because it is necessary to evaluate the individual characteristics of the airport and the specific capability of the support system being proposed. Minimum response time for emergency vehicles under Part 139 should not be compared with those for security threats since the distances involved and the nature of the response are not the same.

## 2. FLEXIBLE RESPONSE SYSTEM

Other commenters felt that the time-tested deterrent of the visible presence of an officer at the screening point and the protection provided to screening personnel and passengers by "front line" physical presence could not be provided by a flexible response system. A few contended that a flexible response system lacked the capability to interdict hijackers, terrorists, and other persons threatening criminal violence.

It should be emphasized that not all airports have configurations that will permit a flexible system of LEO support in lieu of stationing an LEO at each screening point. Moreover, even at an airport that lends itself to a flexible system, some screening points may still require that an LEO be stationed at the screening point. In addition, LEO visibility does have an important deterrent effect and must be considered in the development of any support system in which the LEO is not physically located at the screening point.

## 3. LEGAL OBJECTIONS

In its comments the Criminal Division of the Department of Justice (DOJ) took the position that the Congress, in enacting Section 316 of the Act, endorsed the LEO's presence at the screening point as prescribed in § 107.4, which had already been adopted. It suggested that, in view of this and the recent history of the effectiveness of the LEO's presence at the screening point, the rule should require a provision in security programs for law enforcement presence at the screening point as well as other airport areas requiring that presence.

The DOJ indicated that "presence" could contemplate an LEO patrolling in the immediate area of the screening point, but that proposed § 107.15 contains very broad standards which may not provide for a quick law enforcement response. For this reason it suggested that the rule provide that the response not fall below a minimum interval of time, arguing that the LEO

cannot be "present" at the screening point within the ordinary meaning of the word if the response time to the screening point is greater than one minute. In addition, the DOJ contended that because the regulation is so broadly structured and because the physical designs of the nation's airports, as well as the security devices and methods to be used at each of those airports, could vary greatly, a subjective determination by the FAA would be required in each instance to determine whether or not each individual airport operator was in compliance.

The FAA does not agree with the DOJ's position that Section 316, in effect, requires the presence of an LEO at the screening point in every case. The FAA recognizes that the Congress, in enacting Section 316, statutorily endorsed the security policies and procedures of the FAA that were in effect at the nation's airports at the time. However, although it is clear that the Congress intended that the level of aviation security be maintained and that security programs be uniformly effective, it chose not to specifically require the LEO to be physically located at the screening point. Instead it provided that the LEO presence at the airport be "adequate to ensure the safety of persons traveling in air transportation or intrastate air transportation from acts of criminal violence and aircraft piracy."

In so doing, the Congress left to the Administrator the technical decision as to what law enforcement presence is adequate to provide this protection at each airport. While law enforcement presence demands a security program which provides an effective response to each screening point, it does not preclude the use of more efficient and effective systems of LEO support where the same or a higher level of security would result. In view of this the FAA believes that adoption of the proposed rule is consistent with the explicit directive and the intent of Congress.

As noted by the DOJ, § 107.15 does not contain specific directives as to how law enforcement support is to be provided. However, for a security program to be approved, it will have to describe the law enforcement support provided by the airport operator with sufficient specificity to allow an evaluation of its potential effectiveness and a determination of the level of security provided. Moreover, from the inception of this program in 1973, all airport security programs, including those providing for law enforcement support, have been approved on an individual basis predicated on an evaluation of the particular system. For this reason, the FAA does not anticipate

any difficulty in determining whether a program provides for adequate law enforcement visibility and for an effective response to each passenger screening station.

## 4. SCREENING PROCESS

A few commenters also advocated the concept of one person carrying out the both screening process and the law enforcement functions at certain small airports. The FAA has conducted tests of systems that would allow the use of one person to carry out both the screening process and the law enforcement functions. These tests have shown that these systems can provide adequate security, and they are being authorized by the Administrator where appropriate.

## L. COST OF LAW ENFORCEMENT SUPPORT

Generally, all the commenters on proposed § 107.15(c), which would require the airport operator to provide law enforcement officers to support passenger screening systems required by Part 129, were concerned with the cost of, and the payment for, this service. The principles of comity and reciprocity were advanced by some as reasons for requiring the United States Government to bear all the costs involved. Others believed that the foreign air carriers should pay for their own security in the United States.

Meeting the costs of compensation for law enforcement services is an economic issue requiring resolution by the airport operators, the air carriers (both foreign and domestic) and the Civil Aeronautics Board. However, the United States' position has been that security is a service which should be paid for by the recipient of that service through the passenger fare structure, as are other safety-related operating costs incurred by the air carrier. Therefore, the cost of law enforcement support for passenger screening which is charged to the air carrier by the airport operator can be expected to be passed on to the passenger.

## M. LAW ENFORCEMENT OFFICERS

### 1. UNIFORMS

There were several comments concerning the requirement in § 107.17(a)(2) that LEOs be in uniform. Two commenters felt that the police administrator (or an equal) should prescribe dress for officers, since a uniform might not be advantageous under all circumstances. One commenter remarked that some off-duty policemen, who might be used as airport LEOs, are prohibited from wearing their uniforms by departmental regulations.

The FAA believes uniforms are essential for public recognition. Moreover, where the flexible response con-

cept is adopted with officers patrolling in the terminal rather than stationed at the screening point, there is an even greater need for the LEO to be immediately recognizable as a police officer, both by the public and by fellow officers. The design and style of the uniform will remain the prerogative of the responsible agency; however, the uniform must be one that can be easily recognized by the traveling public as a police uniform.

## 2. TRAINING PROGRAMS

A few commenters applauded the FAA for setting high standards for training programs. Others noted that, as proposed, the standards were unnecessarily stringent and would require the replacement of many security personnel at a greatly increased and unjustified cost. A large number of the commenters felt that the FAA should establish only the minimum standards, and that they should be the same as those of the local jurisdiction furnishing LEO support. In addition, a number of commenters noted that many aspects of regular police duties are not required to adequately support an airport security program and that establishing standards that would call for training to meet the broadest spectrum of police duties is not necessary.

After further consideration, the FAA has determined that proposed paragraph (b) of § 107.17 (adopted as § 107.17(c) and (d)) should be modified in response to the public comments received. Either the State or local training standards will be adequate for law enforcement officers who protect persons and property in air transportation. Further, the scope of the training need only cover those aspects of police duties necessary to adequately support the airport security program. Where no State or local standards are set down, the airport operator must present a training program acceptable to the Administrator. The FAA will work with the airport operator to tailor training requirements to the airport's needs.

Private law enforcement personnel have always been acceptable and nothing in this rule is designed to preclude their use. However, standards required for the State or local police must also be met by private law enforcement officers.

## N. CARRIAGE OF FIREARMS, EXPLOSIVES AND INCENDIARY DEVICES

### 1. GENERAL COMMENTS

Most of the commenters to Notice 77-8 made reference to proposed § 107.21 which would have provided that no person on an airport may have any firearm, explosive, or incendiary device, on or about that individual's person or property in violation of any

applicable State or local law. A majority of these commenters expressed views on no other section.

Commenters in opposition to the proposal believed that the rule was unnecessary, arguing that local laws are adequate to cope with the existing situation. Many of the commenters noted that the wide variance in the weapons laws could lead to an unacceptable lack of uniformity. Others felt that passengers would be in peril of many local laws both existing and those which might be enacted. Some critics pointed out that, although hijackings in the United States have declined, this proposal expanded the FAA role, not only to the terminal area, but to the entire airport. These critics felt that the rule would do nothing to stop hijacking while it would infringe on the rights of persons who may or may not be in air transportation as defined in the Act. In the same vein, they were of the opinion that if the rule were not restricted to the area between the airplane and the screening point, the provision would be unrealistic, repressive, and lead to "sterile" airports.

A number of commenters endorsed the objectives of this section, but argued that it could be redrafted to make it more realistic. Most of these commenters suggested that the rule be modified to take effect between the screening point and the aircraft.

The FAA agrees that the only place on the airport where, as a practical matter, illegal firearms, explosives, or incendiary devices in a person's possession are likely to be discovered is at the passenger screening point. Further, should a weapon be found at a point on the airport other than the screening point or within a sterile area, it would remain subject to any local laws prohibiting or limiting the carriage of weapons. Modifying the rule to use the screening point and sterile area would allow the elimination of the reference to local laws in the rule.

For these reasons, the FAA has modified this section by prohibiting unauthorized carriage of firearms, explosives, or incendiary devices by persons in or entering sterile areas or presenting themselves for inspection at established passenger screening points. It should be noted that the rule does not prohibit the legal carriage of firearms for sporting or other purposes when those firearms are not accessible to unauthorized persons in a sterile area. It also specifies those persons to whom it does not apply because of their need to carry a firearm in the performance of their duty.

## 2. CONSTITUTIONAL OBJECTIONS

As already noted, a small number of commenters objected to proposed

§§ 107.1(a)(3) and 107.21 as unconstitutional, and as an unjustified extension of Section 316 of the Act. One implied that the proposal violated Article Four, Sections One and Two, the full faith and credit clause and the privileges and immunities clause. Another commenter asserted that the proposal was an "inappropriate impediment" to interstate commerce and, therefore, unconstitutional under Article One, Section Eight, the commerce clause. Finally, some commenters contended that the proposal violated the Second Amendment right of the people to keep and bear arms and violated a general right to self-protection.

The FAA does not consider these constitutional arguments to have merit. The full faith and credit clause does not prohibit the FAA from making the carriage of a weapon a violation merely because its carriage is permitted under the laws of a State. The privileges and immunities clause is inapplicable in that it does not prohibit the Federal Government from imposing standards on the carriage of weapons.

As to the commerce clause, the addition of Section 316, Air Transportation Security, to the Federal Aviation Act of 1958, was clearly a reasonable exercise of the Congress' broad authority under the Constitution to regulate commerce. Moreover, § 107.21 is within the Congressional mandate in Section 316 to protect persons and property aboard aircraft in air transportation and intrastate air transportation against acts of criminal violence and aircraft piracy.

Finally, while the Second Amendment protects the right of the people to bear arms, it does not confer an absolute right on the individual to carry a weapon at all times and in all places.

## O. RECORDS

In response to the record requirements of § 107.23, a few commenters said they did not oppose the requirement as long as requests are restricted to records which are reasonably available, pertain to the immediate disposition of detainees, and apply only to aviation security matters. Others felt that the FAA should generate its own records or compensate airport operators for maintaining them. A few believed there was no cost-benefit to this provision. A small number stated that the proposal duplicated air carrier responsibilities and suggested that the burden should either rest on the air carriers entirely or be completely eliminated.

Accurate information relating to the operation of the civil aviation security program is essential for the evaluation of its effectiveness, for determining its future direction, and for meeting the Congressional requirement for semi-

nual reports in Section 315 of the Act. The FAA believes that the airport operator is best qualified to ensure that this information is maintained and made available.

As adopted by this amendment, § 107.23 will become effective 30 days after notice has been published in the FEDERAL REGISTER that the requirements of that section have been approved by the Office of Management and Budget in accordance with the Federal Reports Act of 1942.

#### ADOPTION OF THE AMENDMENT

Accordingly, Part 107 of the Federal Aviation Regulations (14 CFR Part 107) is amended effective March 29, 1979, as follows:

1. Compliance with § 107.23 is not required until 30 days after a notice of approval of the requirements of that section by the Office of Management and Budget is published in the FEDERAL REGISTER.

2. Part 107 is revised to read as follows:

#### PART 107—AIRPORT SECURITY

Sec.

- 107.1 Applicability and definitions.
- 107.3 Security program.
- 107.5 Approval of security program.
- 107.7 Changed conditions affecting security.
- 107.9 Amendment of security program by airport operator.
- 107.11 Amendment of security program by FAA.
- 107.13 Security of air operations areas.
- 107.15 Law enforcement support.
- 107.17 Law enforcement officers.
- 107.19 Use of Federal law enforcement officers.
- 107.21 Carriage of firearms, explosives, or incendiary devices.
- 107.23 Records.

**AUTHORITY:** (Secs. 313, 315, 316, and 601, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354, 1356, 1357, and 1421); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)).

#### § 107.1 Applicability and definitions.

(a) This part prescribes aviation security rules governing—

(1) The operation of each airport regularly serving scheduled operations of a certificate holder to whom § 121.538 of this chapter applies;

(2) The operation of each airport regularly serving scheduled operations of a permit holder to whom § 129.25 of this chapter applies; and

(3) Each person who is in or entering a sterile area on an airport described in paragraph (a)(1) or (a)(2) of this section.

(b) For purposes of this part—

(1) "Airport Operator" means a person who operates an airport regularly serving scheduled operations of a certificate holder or a permit holder to whom § 121.538 or § 129.25 of this chapter applies;

(2) "Air Operations Area" means a portion of an airport designed and used for landing, taking off, or surface maneuvering of airplanes;

(3) "Exclusive area" means that part of an air operations area for which an air carrier has agreed in writing with the airport operator to exercise exclusive security responsibility under an approved security program or a security program used in accordance with § 129.25;

(4) "Law enforcement officer" means an individual who meets the requirements of § 107.17; and

(5) "Sterile area" means an area to which access is controlled by the inspection of persons and property in accordance with an approved air carrier passenger screening program or a program used in accordance with § 129.25.

#### § 107.3 Security program.

(a) No airport operator may operate an airport subject to this part unless it adopts and carries out a security program that—

(1) Provides for the safety of persons and property traveling in air transportation and intrastate air transportation against acts of criminal violence and aircraft piracy;

(2) Is in writing and signed by the airport operator or any person to whom the airport operator has delegated authority in this matter;

(3) Includes the items listed in paragraph (b) of this section; and

(4) Has been approved by the Regional Director.

(b) Each security program required by paragraph (a) of this section must include at least the following:

(1) A description of each air operations area, including its dimensions, boundaries, and pertinent features.

(2) A description of each area on, or adjacent to, the airport which affects the security of any air operations area.

(3) A description of each exclusive area, including its dimensions, boundaries, and pertinent features, and the terms of the agreement establishing the area.

(4) The procedures, and a description of the facilities and equipment, used to perform the control functions specified in § 107.13(a) by the airport operator and by each air carrier having security responsibility over an exclusive area.

(5) The procedures each air carrier having security responsibility over an exclusive area will use to notify the airport operator when the procedures, facilities, and equipment it uses are not adequate to perform the control functions described in § 107.13(a).

(6) A description of the alternate security procedures, if any, that the airport operator intends to use in emergencies and other unusual conditions.

(7) A description of the law enforcement support necessary to comply with § 107.15.

(8) A description of the training program for law enforcement officers required by § 107.17.

(9) A description of the system for maintaining the records described in § 107.23.

(c) The airport operator may comply with paragraph (b) of this section by including in the security program as an appendix any document which contains the information required by paragraph (b).

(d) Each airport operator shall maintain at least one complete copy of its approved security program at its principal operations office, and shall make it available for inspection upon the request of any Civil Aviation Security Inspector.

(e) Each airport operator shall restrict the distribution, disclosure, and availability of information contained in the security program to those persons with an operational need-to-know and shall refer requests for such information by other than those persons to the Director of the Civil Aviation Security Service of the FAA.

#### § 107.5 Approval of security program.

(a) Unless a shorter period is allowed by the Regional Director, each airport operator seeking initial approval of a security program for an airport subject to this part shall submit the proposed program to the Regional Director at least 90 days before any scheduled passenger operations are expected to begin by any certificate holder or permit holder to whom § 121.538 or § 129.25 of this chapter applies.

(b) Within 30 days after receipt of a proposed security program, the Regional Director either approves the program or gives the airport operator written notice to modify the program to make it conform to the applicable requirements of this part.

(c) After receipt of a notice to modify, the airport operator may either submit a modified security program or petition the Administrator to reconsider the notice to modify. A petition for reconsideration must be filed with the Regional Director.

(d) Upon receipt of a petition for reconsideration, the Regional Director reconsiders the notice to modify and either amends or withdraws the notice or transmits the petition, together with any pertinent information, to the Administrator for consideration.

(e) After review of a petition for reconsideration, the Administrator disposes of the petition by either directing the Regional Director to withdraw or amend the notice to modify, or by affirming the notice to modify.

#### § 107.7 Changed conditions affecting security.

(a) After approval of the security program, the airport operator shall follow the procedures prescribed in paragraph (b) of this section whenever it determines that any of the following changed conditions has occurred:

(1) Any description of an airport area set out in the security program in accordance with § 107.3(b)(1), (2), or (3) is no longer accurate.

(2) The procedures included, and the facilities and equipment described, in the security program in accordance with § 107.3(b)(4) and (5) are not adequate for the control functions described in § 107.13(a).

(3) The airport operator changes any alternate security procedures described in the security program in accordance with § 107.3(b)(6).

(4) The law enforcement support described in the security program in accordance with § 107.3(b)(7) is not adequate to comply with § 107.15.

(b) Whenever a changed condition described in paragraph (a) of this section occurs, the airport operator shall—

(1) Immediately notify the FAA security office having jurisdiction over the airport of the changed condition, and identify each interim measure being taken to maintain adequate security until an appropriate amendment to the security program is approved; and

(2) Within 30 days after notifying the FAA in accordance with paragraph (b)(1) of this section, submit for approval in accordance with § 107.9 an amendment to the security program to bring it into compliance with this part.

#### § 107.9 Amendment of security program by airport operator.

(a) An airport operator requesting approval of a proposed amendment to the security program shall submit the request to the Regional Director. Unless a shorter period is allowed by the Regional Director, the request must be submitted at least 30 days before the proposed effective date.

(b) Within 15 days after receipt of a proposed amendment, the Regional Director issues to the airport operator, in writing, either an approval or a denial of the request.

(c) An amendment to a security program is approved if the Regional Director determines that—

(1) Safety and the public interest will allow it, and

(2) The proposed amendment provides the level of security required by § 107.3.

(d) After denial of a request for an amendment, the airport operator may petition the Administrator to reconsider the denial. A petition for reconsideration must be filed with the Regional Director.

eration must be filed with the Regional Director.

(e) Upon receipt of a petition for reconsideration, the Regional Director reconsiders the denial and either approves the proposed amendment or transmits the petition, together with any pertinent information, to the Administrator for consideration.

(f) After review of a petition for reconsideration, the Administrator disposes of the petition by either directing the Regional Director to approve the proposed amendment or affirming the denial.

#### § 107.11 Amendment of security program by FAA.

(a) The Administrator or Regional Director may amend an approved security program for an airport, if it is determined that safety and the public interest require the amendment.

(b) Except in an emergency as provided in paragraph (f) of this section, when the Administrator or the Regional Director proposes to amend a security program, a notice of the proposed amendment is issued to the airport operator, in writing, fixing a period of not less than 30 days within which the airport operator may submit written information, views, and arguments on the amendment. After considering all relevant material, including that submitted by the airport operator, the Administrator or the Regional Director either rescinds the notice or notifies the airport operator in writing of any amendment adopted, specifying an effective date not less than 30 days after receipt of the notice of amendment by the airport operator.

(c) After receipt of a notice of amendment from a Regional Director, the airport operator may petition the Administrator to reconsider the amendment. A petition for reconsideration must be filed with the Regional Director. Except in an emergency as provided in paragraph (f) of this section, a petition for reconsideration stays the amendment until the Administrator takes final action on the petition.

(d) Upon receipt of a petition for reconsideration, the Regional Director reconsiders the amendment and either rescinds or modifies the amendment or transmits the petition, together with any pertinent information, to the Administrator for consideration.

(e) After review of a petition for reconsideration, the Administrator disposes of the petition by directing the Regional Director to rescind the notice of amendment or to issue the amendment as proposed or in modified form.

(f) If the Administrator or the Regional Director finds that there is an emergency requiring immediate action

that makes the procedure in paragraph (b) of this section impracticable or contrary to the public interest, an amendment may be issued effective without stay on the date the airport operator receives notice of it. In such a case, the Administrator or the Regional Director incorporates in the notice of the amendment the finding, including a brief statement of the reasons for the emergency and the need for emergency action.

#### § 107.13 Security of air operations area.

(a) Except as provided in paragraph (b) of this section, each airport operator shall use the procedures included, and the facilities and equipment described, in its approved security program, to perform the following control functions:

(1) Controlling access to each air operations area, including methods for preventing the entry of unauthorized persons and ground vehicles.

(2) Controlling movement of persons and ground vehicles within each air operations area, including, when appropriate, requirements for the display of identification.

(3) Promptly detecting and taking action to control each penetration, or attempted penetration, of an air operations area by a person whose entry is not authorized in accordance with the security program.

(b) An airport operator need not comply with paragraph (a) of this section with respect to an air carrier's exclusive area, if the airport operator's security program contains—

(1) Procedures, and a description of the facilities and equipment, used by the air carrier to perform the control functions described in paragraph (a) of this section; and

(2) Procedures by which the air carrier will notify the airport operator when its procedures, facilities, and equipment are not adequate to perform the control functions described in paragraph (a) of this section.

#### § 107.15 Law enforcement support.

Each airport operator shall provide law enforcement officers in the number and in a manner adequate to support—

(a) Its security program;

(b) Each passenger screening system required by Part 121 of this chapter; and

(c) Each passenger screening system required by Part 129 of this chapter after June 29, 1979 or, after the date specified by the foreign air carrier involved, whichever date is earlier.

#### § 107.17 Law enforcement officers.

(a) No airport operator may use any person as a required law enforcement officer unless, while on duty on the airport, the officer—

(1) Has the arrest authority described in paragraph (b) of this section;

(2) Is readily identifiable by uniform and displays or carries a badge or other indicia of authority;

(3) Is armed with a firearm and authorized to use it; and

(4) Has completed a training program that meets the requirements in paragraph (c) of this section.

(b) The law enforcement officer must, while on duty on the airport, have the authority to arrest, with or without a warrant, for the following violations of the criminal laws of the State and local jurisdictions in which the airport is located:

(1) A crime committed in the officer's presence.

(2) A felony, when the officer has reason to believe that the suspect has committed it.

(c) The training program required by paragraph (a)(4) of this section must provide training in the subjects specified in paragraph (d) of this section and either—

(1) Meet the training standards, if any, prescribed by either the State or the local jurisdiction in which the airport is located, for law enforcement officers performing comparable functions; or

(2) If the State and local jurisdictions in which the airport is located do not prescribe training standards for officers performing comparable functions, be acceptable to the Administrator.

(d) The training program required by paragraph (a)(4) of this section must include training in—

(1) The use of firearms;

(2) The courteous and efficient treatment of persons subject to inspection, detention, search, arrest, and other aviation security activities;

(3) The responsibilities of a law enforcement officer under the airport operator's approved security program; and

(4) Any other subject the Administrator determines is necessary.

#### § 107.19 Use of Federal law enforcement officers.

(a) Whenever State, local, and private law enforcement officers who meet the requirements of § 107.17 are

not available in sufficient numbers to meet the requirements of § 107.15, the airport operator may request that the Administrator authorize it to use Federal law enforcement officers.

(b) Each request for the use of Federal law enforcement officers must be accompanied by the following information:

(1) The number of passengers enplaned at the airport during the preceding calendar year and the current calendar year as of the date of the request.

(2) The anticipated risk of criminal violence and aircraft piracy at the airport and to the air carrier aircraft operations at the airport.

(3) A copy of that portion of the airport operator's security program which describes the law enforcement support necessary to comply with § 107.15.

(4) The availability of State, local, and private law enforcement officers who meet the requirements of § 107.17, including a description of the airport operator's efforts to obtain law enforcement support from State, local, and private agencies and the responses of those agencies.

(5) The airport operator's estimate of the number of Federal law enforcement officers needed to supplement available State, local, and private law enforcement officers and the period of time for which they are needed.

(6) A statement acknowledging responsibility for providing reimbursement for the cost of providing Federal law enforcement officers.

(7) Any other information the Administrator considers necessary.

(c) In response to a request submitted in accordance with this section, the Administrator may authorize, on a reimbursable basis, the use of law enforcement officers employed by the FAA or by any other Federal agency, with the consent of the head of that agency.

#### § 107.21 Carriage of firearms, explosives, or incendiary devices.

(a) Except as provided in paragraph (b) of this section, no person may have a firearm, an explosive, or an incendiary device on or about the individual's person or accessible property—

(1) When performance has begun of the inspection of the individual's person or accessible property before entering a sterile area; and

(2) When entering or in a sterile area.

(b) The provisions of this section with respect to firearms do not apply to the following:

(1) Law enforcement officers required to carry a firearm by this part while on duty on the airport.

(2) Persons authorized to carry a firearm in accordance with § 121.585 or § 129.27.

(3) Persons authorized to carry a firearm in a sterile area under an approved security program or a security program used in accordance with § 129.25.

#### § 107.23 Records.

(a) Each airport operator shall ensure that—

(1) A record is made of each law enforcement action taken in furtherance of this part;

(2) The record is maintained for a minimum of 90 days; and

(3) It is made available to the administrator upon request.

(b) Data developed in response to paragraph (a) of this section must include at least the following:

(1) The number and type of firearms, explosives, and incendiary devices discovered during any passenger screening process, and the method of detection of each.

(2) The number of acts and attempted acts of air piracy.

(3) The number of bomb threats received, real and simulated bombs found, and actual bombings on the airport.

(4) The number of detentions and arrests, and the immediate disposition of each person detained or arrested.

Issued in Washington, D.C., on December 21, 1978.

NOTE: The reporting and/or record-keeping requirements contained herein have been approved by the Office of Management and Budget in accordance with the Federal Reports Act of 1942.

LANGHORNE BOND,  
Administrator.

## PART VII

# FEDERAL TRADE COMMISSION

## PROPRIETARY VOCATIONAL AND HOME STUDY SCHOOLS

### Trade Regulation Rules

## Title 16—Commercial Practices

## CHAPTER I—FEDERAL TRADE COMMISSION

## SUBCHAPTER D—TRADE REGULATION RULES

## PART 438—PROPRIETARY VOCATIONAL AND HOME STUDY SCHOOLS

AGENCY: Federal Trade Commission.

ACTION: Final trade regulation rule.

**SUMMARY:** The Federal Trade Commission issues a final rule which requires proprietary vocational and home study schools to provide pro rata refunds to students who withdraw from their courses; to provide information to prospective students concerning the schools' graduation and placement records; and which extends the cooling-off period on vocational school enrollment contracts to fourteen days. The purpose of this rule is to alleviate currently abusive practices against vocational and home study school students and prospective students.

EFFECTIVE DATE: January 1, 1980.

FOR FURTHER INFORMATION CONTACT:

Walter C. Gross III, Federal Trade Commission, PM-H-221, 6th Street and Pennsylvania Avenue NW., Washington, D.C. 20580; (202) 523-3814.

**SUPPLEMENTARY INFORMATION:** 16 CFR Part 438—Vocational Schools Trade Regulation Rule Statement of Basis and Purpose.

## A. Introduction.

On August 15, 1974, the Commission published for comment and public hearings a proposed trade regulation rule for proprietary vocational and home study schools. (1) Hearings on the proposed trade regulation rule were scheduled for six cities and were actually held in three cities (Boston, New York and Washington, D.C.) prior to the postponement of all rule-making hearings by the enactment of the Magnuson-Moss Warranty—Federal Trade Commission Improvement Act. (2) After the Commission amended its Rules of Practice to conform to the Magnuson-Moss Act, (3) the proposed rule was republished by the Commission on May 15, 1975, with an invitation to all interested parties to comment on the proposed rule. (4)

On September 29, 1975, the Presiding Officer published in the *FEDERAL REGISTER* a public notice listing the dates and locations of the public hearings to be conducted under the new procedures of the Magnuson-Moss Act. (5) Thereafter, public hearings were

## RULES AND REGULATIONS

held in San Francisco, Los Angeles, and Chicago. (6) In the course of the public hearings, both those conducted before and after the adoption of the Magnuson-Moss Act, over 400 witnesses offered testimony over a span of 44 days. Among the witnesses were federal and state governmental officials, representatives of major trade associations representing the schools affected by the proposed rule, consumer groups, legal aid attorneys, economists, educational experts, school owners and operators, individual consumers and students, and sales representatives.

In the course of this rulemaking proceeding, the Commission has made a diligent effort to ensure that all affected interests in this proceeding, and all members of the public, have had an opportunity to offer comment on the rule. During the comment periods prior to the public hearings over 900 written comments were received from the public. (7) At the conclusion of the public hearings, another comment period was opened to permit persons to comment on the testimony received at those hearings. (8)

After the conclusion of the public hearings, reports were prepared by the Presiding Officer, (9) who made findings on the issues which had been designated by the Commission to focus the public hearings, (10) and the Commission staff. (11) Based on its analysis of the evidentiary record, the Commission's staff recommended that the Commission promulgate a revised trade regulation rule which would have required proprietary vocational schools to inform their prospective students of the schools' graduation and placement rates, to make pro rata refunds to students in the event of student cancellations, and to obtain "reaffirmations" of enrollment contracts. (12)

Under Section 1.13(h) of the Commission's rules of practice, the publication of the Staff Report initiated a post-record comment period which afforded the public the opportunity to comment on the staff's and Presiding Officer's reports. This comment period commenced on January 7, 1977, and concluded on May 31, 1977, after two time extensions had been granted by the Commission at the request of industry groups. During this period, nearly 200 written comments were received. (13) To facilitate comment during this final comment period, the Commission released to the public a computer index of the rulemaking record. (14) This computer index was prepared by the Commission's staff and was not reviewed by the Commission prior to being released to the public. The Commission sought to assist the public in researching the record by releasing this document.

At the close of this comment period, the Commission convened a special Commission meeting to permit interested persons to make direct presentations to the Commissioners themselves. (15) After carefully considering the rulemaking record, the Commission has voted to promulgate a trade regulation rule concerning proprietary vocational and home study schools.

## B. Summary of the Evidence.

## 1. Industry Profile.

An estimated 7,000 to 8,000 schools comprise the vocational school industry. (16) The schools are customarily divided into two major categories: residence and correspondence. Residence schools (17) offer training in the conventional classroom setting; home study or correspondence schools provide instructional materials and teaching services through the mails.

## (a) Residence schools.

The large majority of schools are residential. (18) The types of training they offer can be grouped in four generic categories: (19) trade and technical, (20) business office and secretarial, (21) flight (22) and cosmetology. (23) Residence schools generally operate on one of two time formats: a "fixed class" schedule, which groups students together in classes with specific matriculation and graduation dates; or an "open enrollment" scheme, which allows each student to enroll and complete the course at his or her own pace. (24) Certain types of residence schools, such as flight and cosmetology schools, divide their courses into two distinct segments: an academic portion conducted in classrooms, and a practical segment provided through clinical or hands-on experience. (25)

The length of courses varies widely among residence schools and is dependent upon the nature and complexity of the training involved. Courses offered by proprietary residence schools range in duration from six months to four years, with an average course length of nine months. (26)

The costs of private residence schools courses also vary considerably, depending on the length of the course and the type of training offered. While the average tuition cost for all such courses was \$1,400 in 1973-74, average tuition for various types of residence programs ranged from \$460 to \$2,590. (27)

## (b) Home Study Schools.

While home study schools offer courses in approximately 300 different subject areas, (28) the majority of their students train for a limited number of trade and technical occupations. (29) The instructional format of home study schools involves the sequential mailing of lessons to the student, who studies the material, completes a lesson examination, and re-

turns the examination to the school. The school then grades the lesson (and in some instances provides additional comments and instruction), and returns the graded lesson along with the next set of instructional materials to the student. (30)

Because of the individual time flexibility allowed home study students, the lengths of correspondence courses are not standardized. (31) A 1974 study found that home study courses took an average of 10 months to complete, (32) while a 1976 study estimated an average completion time of 14 months. (33)

Tuition costs for home study courses averaged \$570 in 1973. (34) Again, the variance among individual courses is substantial: one large home study school offered courses ranging in cost from \$295 to \$1,795 in 1975, (35) while another charged between \$1,375 and \$1,795 in that year. (36)

Some school's courses consist of a combination of home study and residence training. In that format, the student pursues the academic portion through correspondence, and then completes by attending a practical training segment at the school.

## (c) Size of Schools—Enrollments and Revenues.

The record shows that proprietary vocational schools constitute a substantial industry, in terms of both enrollments and revenues.

The industry as a whole enrolls over two million students a year. (37) Although schools vary greatly in size, (38) large schools predominate in the industry in terms of their market shares of total enrollments. (39) In both the residence and home study sectors, a relatively small percentage of schools account for a substantial proportion of all enrollments. (40) The ten largest home study schools, for example, enroll approximately 75% of the one million students attending accredited correspondence schools. (41) Another factor contributing to the tendency toward market dominance by a small number of schools is the fact that several major corporations own and operate large chains of schools. (42)

Industry revenues are also sizable. Students paid \$1.7 billion for their courses in 1972, \$2.5 billion in 1973, and it is projected that annual revenues will exceed \$5 billion by 1985. (43)

## (d) Accreditation, Approval and Licensure of Schools.

Accredited schools are a minority of all proprietary schools; approximately 22% of the schools were accredited according to 1974 statistics. (44) However, accredited schools account for the vast majority of all students enrolled, as unaccredited schools tend to be smaller institutions. The four major

trade associations representing proprietary vocational schools have also established related accrediting units. The associations are the:

- (1) Association of Independent Colleges and Schools (AICS)—business office and secretarial programs;
- (2) National Association of Trade and Technical Schools (NATTS)—trade and technical schools;
- (3) National Home Study Council (NHSC)—all types of correspondence courses; and
- (4) Cosmetology Accrediting Commission (CAC)—cosmetology schools. (45)

More than two-thirds of all proprietary vocational schools are approved for participation in the veterans' benefits program. (46) Such approval enables schools to enroll veterans under the Congressionally authorized programs that subsidize veterans while they attend school. (47) Although overall administration of the program is the responsibility of the Veterans Administration, the determination of schools' eligibility for the program is delegated to the individual states. (48)

Most of the states require that proprietary vocational schools be licensed. The prerequisites to licensure vary widely from state to state, with different norms established for facilities, instructional personnel, equipment, enrollment practices, student qualifications, disclosures, refund policies, and reissuing of licenses. (49)

A discussion of the evidence concerning the efficacy of the various forms of accreditation, approval and licensure appears at section B(8)(c), below.

## 2. Student Profile

The proprietary vocational school student population is characterized by a wide spectrum of demographic attributes such as age, race, income, socioeconomic background education, and job experience. The evidence in the public record, however, demonstrates a high degree of similarity among many students who take vocational school courses.

## (a) Demographic Characteristics

The large majority of residence school students are young; the average enrollee in such schools is 20 years old. (50) Correspondence school students are typically somewhat older, although the majority of non-veteran home study students are enrolled by their early to mid-twenties. (51) Veteran enrollees, who comprise about 40% of home study students, (52) have an average age of 30. (53)

The typical vocational student is a high school graduate who majored in a vocational or general program, rather than a college-preparatory curriculum. (54) Many students of both residence and home study schools have previously attempted some form of postsecondary education, but only a

small percentage have completed those programs. (55)

Proprietary vocational students frequently come from families of limited educational attainment; according to one nationwide study, 32% of vocational school students' parents were high school drop-outs, and fewer than 10% had college degrees. (56)

Most residence school students have little or no full-time work experience before enrolling. (57) Those who have worked were generally employed in low-income positions. (58) Most correspondence school students who are non-veterans are employed but are also earning relatively low salaries. (59) Veterans have both higher employment rates and higher incomes than their non-veteran counterparts in the home study population. (60)

## (b) Motivations, Financial Aid Usage, and Information Sources of Enrollees

Virtually all private residence school students enroll in order to obtain new or better jobs. (61) While a higher percentage of home study students enroll for a vocational reason than do residence students, the available evidence indicates that most correspondence students also are motivated primarily by occupational goals. (62)

The majority of proprietary vocational school students receive some form of government financial assistance. (63) About two-thirds of trade and technical school enrollees receive aid, almost all through the Federal Guaranteed Student Loan or veterans' benefits programs. (64) Slightly more than half of the students in other programs—such as business, cosmetology, flight and medical assistant training—receive government aid through these programs, but in addition, a substantial number receive assistance from other federal and state programs. (65) Students in accredited correspondence schools also rely heavily on government financial assistance; over a third use veterans' benefits and one-fourth receive Guaranteed Student Loans. (66)

The record evidence shows that most students make their enrollment decisions without adequate information or employment counseling. (67) Studies have shown that most students make their enrollment decisions independently of any external sources of information and counseling, and the remainder rely more heavily on the school's advertising and sales presentations than on any other source. (68) Only a small minority of students seek information or advice from professional career counselors and former teachers. (69)

Legal aid attorneys, consumer organizations, and consumers themselves testified at the hearings in this proceeding that prospective students

suffer from a paucity of information concerning job potential, salaries, drop-out rates and other facts relevant to their enrollment decisions. (70) Government reports and conferences have pointed to the same problem. (71)

#### (c) Vulnerability of Enrollees

The pattern that emerges from the record is that the typical vocational school student is unusually vulnerable to deceptive and misleading advertising and to unfair sales and enrollment practices. Because the typical student is young, has limited educational and work experience, and is either unemployed or earning a low salary, he or she is likely to be more susceptible than the general adult population to unfair sales practices. Moreover, prospective students are motivated to enroll primarily by a desire to obtain prestigious, well-paid jobs in order to escape the low wage/mediocre job syndrome. The vulnerability of such students is compounded by their lack of information concerning vocational education and career opportunities. (72)

#### 3. Representations and Claims Made by Proprietary Vocational Schools

The record shows that, in their efforts to attract students, many vocational schools make a variety of false and misleading claims in their advertising and sales presentations. The claims create false impressions about two general categories of information: jobs and earnings; and non-career related information about a school.

##### (a) Job and Earnings Claims

Claims about the job and earnings prospects the vocational student may expect upon graduation are the most important and prevalent forms of advertising used to solicit enrollees. Job and earnings representations may be either specific claims about the success of a particular school's graduates or general claims concerning the job market and earnings potential in a career field.

##### (1) Specific Claims

Specific job and earnings claims include guarantees of jobs upon graduation; advertisements indicating the offering of jobs rather than training; representations about the adequacy of a course for the purpose of obtaining employment; and claims about the placement and earnings success of a school's own graduates. These claims are frequently false, misleading, or deceptive and their use is well-documented in the record. (73)

Explicit guarantees of jobs upon graduation are almost always deceptive, since differences among students' capabilities and fluctuations in job market demand make it virtually impossible for any school to be sure of placing every enrollee in a suitable job. (74)

Similarly, vocational school advertising which purports to offer jobs rather than training is deceptive on its face. Such "help wanted" advertisements, which usually appear in newspapers' classified sections, fail to reveal that the advertiser is a school offering training rather than an employer seeking job applicants. (75)

Another variant of the job offer claim is the representation by a school that it is hiring for civil service positions. Numerous schools have induced students to enroll under the false pretense that they were participating in government-sponsored training or hiring programs. (76) Similarly, some schools claim affiliation with well-known businesses and then falsely imply that the company will hire the student upon graduation. (77)

Some schools also misrepresent the adequacy of their training for obtaining employment in a particular field. Such misrepresentations usually involve the failure to disclose additional prerequisites to employment, such as higher-level education, work experience, and physical requirements imposed by governmental entities. (78)

Finally, deceptive claims regarding the success of a school's own graduates play an important role in inducing unfair enrollments of prospective students. Such misrepresentations include false or exaggerated promises of placement assistance; (79) the testimonials of a few satisfied students from a class of predominately unsuccessful graduates; (80) and claims which falsely claim (81) high placement percentages or success. (82)

While these claims may be literally truthful when applied to some portion of a school's graduates, they can seriously mislead prospective students. (83) Consumers understandably assume that schools which advertise a successful history of placement will be able to place them as well—although their "success" may be based on the experience of a small number of students. (84) Similar claims concerning possible earnings also convey the impression that the amount stated will be available to a typical graduate. (85)

For these reasons, the Commission has found that these claims are frequently deceptive, or have the capacity to deceive the average consumer. (86)

##### (2) General Claims

Unlike specific claims which rely on a school's own purported performance, a general claim is one which suggests employment success by drawing on external proxies such as projections of job market demand. General claims appear in several formats, the most common of which are: references to high employment or salary levels in particular fields; citations to projected employment and salary levels in the

future; and predictions of rapid growth or demand for new skills in an occupation. (87) General claims are frequently derived from labor supply and demand studies and projections prepared by government and private agencies. (88) The U.S. Department of Labor's *Occupational Outlook Handbook* appears to be the most frequent source of data used in such claims. (89)

As with specific claims, general employment and earnings claims have been widely used in the industry (90) and are perceived by many consumers as references to the job and earnings potential of the school's own graduates. (91)

The record shows that a general statement of job opportunity—e.g., "computer programmers are in big demand"—directed to vocational school consumers is potentially deceptive for a number of reasons. First, such claims create the impression that jobs will be made available to students who attend the school. In fact, the record shows that jobs are not uniformly or typically available to students who enroll in proprietary schools. (92)

Second, claims of general employment demand or potential salary expectations fail to disclose that these generalized employment data are the product of a complex statistical process and must be qualified to be correctly understood. The process encompasses a broad set of variables underlying the final data. The most significant of these include the degree of statistical error tolerated by the organization making the projections; the age of the data utilized; possible fluctuations in market forces; inflation; and local variations in the labor market. (93)

Every organization that produces this form of supply/demand data provides introductory material which explains its statistical and methodological assumptions and warns the reader that these assumptions are important for a correct interpretation of the information. (94) These caveats do not appear in proprietary school advertising.

Third, official publications that attempt to predict occupational trends usually include a discussion of the prerequisites to employment in a given field. (95) Such prerequisites include requirements for higher educational degrees, minimum work experience, union membership, licensing and certification requirements, and employer preferences for operating their own in-house training programs. (96) Thus, for example, a generalized claim that "computer programmers are in big demand" which fails to disclose that, in certain areas, a minimum of two years' work experience is required and that college degrees are preferred, would be deceptive. (97) The majority

of proprietary school advertisements in the record fail to disclose such employment prerequisites and conditions. (98)

##### (b) Non-Career Related Claims

Claims other than those concerning jobs and earnings also are widely used to attract enrollees and are frequently exaggerated, deceptive or false. (99) The deceptive use of such claims can take either of two forms: (1) the explicit misrepresentation of a school's attributes or policies; or (2) the omission of material information or qualifications concerning a school's claims.

##### (1) Explicit Misrepresentations

Among the most prevalent of such misrepresentations are exaggerated or false statements concerning a school's equipment and facilities; (100) the quality of instruction provided; (101) the availability of part-time employment opportunities during the course; (102) refund policy provisions; (103) and accreditation and government approval of courses. (104)

Two additional types of misrepresentations have a particularly serious impact on the prospective enrollee's ability to make a rational purchase decision. First, schools often dissuade students from reflecting on their decision to enroll by falsely claiming that rigid enrollment deadlines exist. Thus, many students forego the opportunity to verify the school's claims and seek outside counseling before signing a contract because they are deceived by the claim that they will lose their only chance to enroll if they postpone the decision. (105)

Second, schools have misrepresented the selectivity of their admissions process through false claims about the use of an admissions screening committee, the need to pass an aptitude or qualifications test, or the number of places available (and their restriction to highly qualified applicants.) In fact, the record demonstrates that few proprietary vocational schools apply any minimum admissions criteria aside from the student's age and that many schools randomly recruit and admit all enrollees who are willing to sign (106) a contract. (107)

False selectivity claims interfere with the consumer's ability to make a rational purchase decision in two ways. First, they can be used to negate applicable cooling-off periods under state and federal law (108) by causing the student to believe that his or her enrollment is not effective until he or she has been "accepted" by the school. By the time the student has been "accepted," the cooling-off period has lapsed. (109) Second, such claims are used to distort the customary roles of seller and buyer, so that the consumer must sell himself or herself to the school as being sufficiently qualified

to meet the "selective" admissions criteria of the institution. (110)

##### (2) Omissions of Material Information

The record shows that many students are misled not only direct misrepresentations such as those described above, but also by the failure of the schools to disclose material facts. The most important of such deceptions-by-omission is the non-disclosure of drop-out rates. Virtually no schools currently disclose their drop-out rates to prospective students. (111) Moreover, the record shows that most proprietary vocational school students do not complete their courses. (112)

The significance of schools' drop-out rates is discussed in detail at Section B(5) below. Drop-out rates are directly relevant to schools' claims concerning placement performance and other purported success indicators. For example, a school which claims to have a 90% placement rate, but which fails to disclose that only 20% of its students graduate, seriously misleads enrollees concerning their chances of obtaining jobs.

#### 4. Commissioned Sales Representatives and Sales Techniques

Commissioned sales personnel are widely used within the proprietary vocational school industry, and this marketing technique has been a major source of the unfair or deceptive acts and practices which led to the promulgation of the trade regulation rule. The abuses stem both from the nature of the sales force itself and from the methods the sales representatives employ in obtaining enrollments. This discussion focuses on the sales representatives and practices of the larger schools, which enroll the majority of all students. (113)

##### (a) Characteristics of the Sales Force

The record demonstrates that the widespread use of unfair solicitation and enrollment practices in this industry is closely related to the manner in which its salespeople are recruited, trained, compensated, and controlled.

##### (1) Recruitment and Turnover

The primary qualification sought by schools in recruiting salespeople is the individual's ability to sell. (114) Qualities such as personal character and experience in education or counseling are seldom part of the typical school's selection criteria. (115)

One reason for the random and continual recruitment engaged in by the larger schools is the exceedingly high turnover rate among salespeople at those schools. (116) Estimated to be as high as 70-90% annually at some schools, (117) the rapid turnover explains in part the remarkable uniformity of sales techniques used in the industry since sales representatives migrate from school to school. (118) The school's constant need for new recruits

to replace the outgoing employees also contributes to the typical salesperson's lack of familiarity with the content of the educational package he or she is selling. (119)

The training of salespeople is oriented almost exclusively to selling techniques rather than to the substance of the courses offered, the school's actual graduation and placement record, or the nature of the occupations, for which training is sold. (120) As a result, the consumer's decision to enroll in a particular course and to enter a career field is often based solely on communications with an ill-informed sales agent whose only real expertise is in selling. (121)

##### (2) Compensation and Supervision

The compensation structure for commissioned sales forces also contributes significantly to sales abuses in this industry. The various compensation systems—payment by commission, bonuses, and sales contests—all have the effect of encouraging the enrollment of every prospect who can be induced to sign a contract. (122)

Although some schools' compensation systems provide for higher commissions the longer a student remains in school, the critical factor is that the agent benefits financially even if a student attends only one class or submits one correspondence lesson. On the other hand, if the salesperson fails to persuade the prospect to enroll, he or she is paid nothing for his or her efforts. (123)

In addition to monetary incentives, many schools enforce minimum sales quotas to boost enrollments. Under threat of losing both a job and accrued commissions from past sales, the agent is all the more likely to obtain enrollments indiscriminately. (124)

The net effect of such policies is to encourage salespersonnel to employ any means necessary to induce enrollments and to overcome consumers' natural hesitancy about making such expensive and long-term commitments. Misrepresentations, deceptions, and plainly fraudulent claims arise from the overriding drive to make sales which the schools' compensation structures necessitate. (125)

The commissioned sales system also encourages the enrollment of unqualified and unmotivated students—a factor that contributes to the high drop-out rate experienced by the industry. (126) Because salesmen are rewarded for merely obtaining downpayments and contract signatures, they have no incentive to screen out unqualified prospects and minimize potential drop-outs. (127)

Moreover, the record shows that schools have done little to prevent the abuses that arise from this compensation system. Indeed, the financial incentives of the supervisors responsible

for overseeing the actions of the sales forces actually encourage them to ignore unfair sales practices by their subordinates. Supervisors typically receive a fixed percentage of the tuition contracts sold by the sales agents in their employ. The manager's incentives are thus identical to those of the salesperson, since both benefit from every enrollment obtained, regardless of the methods used to obtain it. (128)

### (3) Selling Techniques

The typical sale begins with the development of "leads," or the names of potential enrollees, by the school or the salesperson. Advertisements and direct mail literature which asks the consumer to call the school for further information are the most common sources of leads. (129)

The salesperson then arranges to meet with the prospective student, usually in the consumer's home. (130) At this initial stage of the interview, the record indicates that the salesperson may misrepresent himself or herself as a government representative, (131) an educational or guidance counselor, (132) or an admissions official who enforces rigid entrance standards for the school. (133)

One of the most common sales strategies used by large proprietary vocational schools is a technique known in the industry as the "negative sell." (134) The essence of this highly developed and successful sales tactic (135) is to reverse the roles of seller and buyer so that the consumer must prove his or her worth to the salesperson instead of the latter persuading the potential student of the school's merits.

The negative sell reinforces and capitalizes on the misrepresentation that the school's admissions program is highly selective and limited. (136) Bogus admissions and qualifications tests are frequently used by the salesperson not to eliminate unqualified applicants but to identify and exploit the consumer's insecurities as part of the sales presentation. (137)

A former salesman summarized the method as follows:

(W)e tried to find something negative about the prospect to put him on the defensive. Inevitably the prospect would then insist that the negative was not true and he would try to prove why he was worthy of being selected for the course. (138)

Another former sales agent described the desired result of negative sell:

At the end of a good sales pitch the prospect feels lucky to be getting into the school . . . that he had done well in the interview and for that reason alone, he was being recommended for admittance . . . In reality, of course, everyone was admitted. (139)

After the sale is consummated, various "post-sell" techniques are used to

defeat the impact of cooling-off periods imposed by the FTC and numerous state laws. (140) The essence of the post-sell is to leave the consumer in suspense as to whether he or she has been "accepted" by the school until after the cooling-off period has expired. Some schools also train their sales agents to discourage consumers from discussing their enrollments with family, friends, or counselors until they learn whether the school has admitted them. (141) The post-sell thus effectively lulls the student into inactivity until it is too late to cancel the contract. (142)

The Commission has found, based on the record evidence, that the unfair and deceptive sales practices described above are pervasive and occur with considerable frequency, particularly among the major, nationwide schools which enroll a large proportion of all proprietary school students. (143)

### (b) Federal Monies As A Sales Tool

The availability of Guaranteed Student Loans (GSLP) and veterans' benefits has had the unintended effect of facilitating many of the sales abuses described above. (144) The ready availability of such funds has been a boon to vocational school salespeople, since it reduces the consumer's resistance to expending his or her own funds for the training. Reluctant, unmotivated, and unqualified students who would otherwise be unlikely sales prospects are occasionally induced to enroll by the promise of long-term loans or outright grants from the federal government. (145) The deceptive implication that the agencies which provide the funds have endorsed the schools' programs has also on occasion been used to reassure doubtful enrollees; (146) indeed, the availability of federal subsidies has often been used as a prime selling point. (147)

The result of this infusion of federal monies has been to accelerate the indiscriminate enrollment of consumers who are unlikely to complete their course and find employment. The industry-wide phenomenon of high drop-out rates and low placement percentages is in part a reflection of these enrollment policies made possible by the availability of loan and grant monies. (148)

### 5. Industry Drop Out Rates

#### (a) Timing of Withdrawal

The record shows that a large majority of proprietary vocational school students do not complete their programs of study. The drop-out rate for the industry as a whole—including both home study and residence schools, whether accredited or non-accredited—is over 70%, according to several studies. (149)

Moreover, most studies understate the actual attrition rates because they fail to take account of enrollees who

never attend a class or submit a correspondence lesson—the "non-starts." Under existing industry cancellation and refund policies, non-starts are financially obligated for some portions of their contracts, even though they do not begin their courses. (150) Their numbers are substantial: in one year, nearly 100,000 enrollees in accredited correspondence schools failed to begin their course. (151)

Most students drop out in the early stages of their courses. (152) One GAO study found that over 70% of all correspondent school enrollees dropped out of their courses. Of those who dropped out, over 30% withdrew during the first tenth of the course, over 67% within the first third, and 94% by the two-thirds mark. (153) The attrition rates of residence schools reflect similar early drop-out patterns. (154)

Students drop out for a variety of reasons, many of which are unrelated to the quality or sale practices of the schools. (155) However, the record contains substantial evidence that a major cause of non-completion is the industry's enrollment policies, coupled with the unfair and deceptive sales practices described above. (156)

### (b) Availability and Utility of Drop-Out Statistics

Although most schools maintain complete data on the number of students who fail to complete their courses, (157) such data is rarely made available to prospective students. (158)

The Commission is in agreement with the numerous federal and state agencies, educators, counselors, and other experts who believe that drop-out statistics are relevant and material to prospective students' enrollment decisions. (159) Consumers need such information particularly in light of the fact that schools' pre-enrollment practices have been shown to be related to their ability to retain students. (160) Information concerning a school's graduation rate will not necessarily enable a student to conclusively ascertain his or her chances of completing a course, although it will serve to alert students to the need to inquire further into the issue. However, this information will enable students to make a better comparison of competing programs offered by various institutions within the proprietary vocational school sector. (161)

### 6. Refund Policies

#### (a) Existing Standards

The cancellation and refund policies by which schools calculate the drop-out's financial obligation currently vary widely and derive from a number of sources.

Although 44 states had mandated some form of refund policy standards as of January, 1975, most of the state-mandated refunds are patterned after

those adopted by the vocational school industry accrediting associations. (162) The accrediting associations have established minimum refund standards for their member schools. The policies established by the four major accrediting organizations (163) are similar in their approach and generally observe the following format: the student is obligated only for an enrollment fee (usually a percentage of the contract not to exceed \$100) if he or she withdraws prior to the commencement of the course; the obligation is for 25% of the contract price if the student withdraws during the first quarter; 50% during the second quarter; and for the total contract price after half of the course has been completed. (164)

Two federal agencies—the Veteran's Administration and the U.S. Office of Education (USOE)—also require adherence to minimum refund standards for participation in their respective financial aid programs. Congress established the veteran's program standards, which adopt the industry association's policy for veterans enrolled in correspondence courses, and pro rata refunds for unaccredited residence school students (no refund standards have been enunciated for veterans attending accredited residence schools). (165)

USOE's regulations for accredited schools participating in its Guaranteed Student Loan Program (GSLP) do not mandate specific refund provisions, but require that they be "fair and equitable." (166)

### (b) Cancelling the Enrollment Agreement

The enrollment cancellation procedures specified in school refund policies significantly affect the actual amount returned to the student. The requirements of the state and federal agencies and the accrediting associations vary considerably, although most provide for written disclosure to the student of the school's cancellation policy and procedures, and require that the student provide written notice of his or her intention to withdraw. (167)

The various agencies' requirements for determining the effective date of cancellation are largely unstandardized. (168) A few states and two of the accrediting associations prescribe maximum time periods within which schools must provide refunds (usually 30 days); USOE requires refunds to be made within 40 days of the student's withdrawal. (169)

In addition to the unstandardized and often inadequate protection afforded students under the various agencies' refunds and cancellation standards, the record shows that enforcement of those standards is frequently ineffective. (170) A 1975 USOE study, for example, revealed ex-

tensive violations of industry accreditation standards, which appear to be the results of inadequate policing by the responsible agencies. (171)

(c) *Costs of Existing Refund Policies.* The various cancellation and refund policies described above have resulted in large financial losses and attendant harsh consequences for students. (172)

Present refund structures do not adequately suffice to discourage abusive sales practices in this industry, since it is still profitable for schools to indiscriminately enroll large numbers of potential drop-outs—often through the use of deceptions and misrepresentations—rather than select only qualified enrollees and then provide the training their sales presentations promise. (173)

### 7. Student Placement Success

The success of proprietary vocational school students in obtaining jobs was a central issue in this proceeding, because a primary reason for the industry's existence is to prepare students for obtaining employment in a field related to their training. The importance of job placement performance is magnified by the schools' sales representations regarding jobs and earnings, which were discussed in section B(3) above.

The record evidence concerning placement supports the conclusions outlined below.

1. In the market as it currently operates, the prospective student usually has no way of knowing whether the course he or she is considering will enable him or her to get a job. Few schools currently disclose accurate data reflecting their former students' success in obtaining jobs. (174) The information on which prospective enrollees rely in assessing their prospects for obtaining employment is often inaccurate and frequently consists of misleading or ambiguous claims made by the schools as part of their sales efforts. (175)

2. Schools, despite their advertised claims, often do not know whether their training will enable enrollees to obtain jobs. (176) Although recent VA regulations now require many schools to maintain placement data, the record shows that the industry as a whole has not in the past attempted to measure its performance in terms of placement statistics. (177) In fact, the record shows that many of those schools which have relied most heavily on job and earnings claims in their sales presentations have had little actual knowledge of their students' employment experiences after graduation. (178)

3. Many graduates do not get jobs related to their training; of those who do find employment, a significant number do not obtain the positions they had expected. (179)

An extensive study conducted in 1974 found that fewer than 20% of proprietary school graduates who took professional or technical level training obtained jobs in those fields. (180) The remainder either took lower-paying, unrelated jobs or were unemployed. On the other hand, according to the study, 60% of those who graduated from less technical, clerical, or service workers programs obtained jobs related to their training.

Other studies in the record confirm that a majority of all proprietary vocational school graduates fail to obtain jobs related to their training. (181) When considered in light of the fact that most enrollees never graduate, (182) the conclusion which emerges from the record is that only a fraction of prospective students can expect to achieve the employment objective on which they base their enrollment decisions. (183)

The record suggests that the reasons behind the low placement rates are varied, the primary factors appear to be the following: (1) low job market demand for vocational school graduates, particularly in highly technical, skilled, or unionized fields; (184) (2) inadequacy of schools' training as preparation for certain occupations; (185) (3) insufficient school placement services; (186) and (4) the enrollment of unqualified students who are unemployable in the fields for which they were trained by virtue of age, physical limitations, or other personal factors. (187)

4. Although the overall placement performance in the industry is low, the employment rates of individual schools vary considerably, with certain schools and occupational programs enjoying highly successful records. (188) However, the lack of comparative placement statistics and the existence of misleading job and earnings claims prevents prospective students from identifying those schools and programs which are most likely to lead to employment. (189) While a properly functioning market would be expected to provide such information, with which consumers could make rational purchase decisions, the record demonstrates that the proprietary school market has failed in this respect. (190)

### 8. Inadequacy of Existing Regulation

Numerous regulatory entities at the state, federal, and private levels have direct or indirect responsibility for supervising the proprietary vocational school industry. (191) However, the Commission has determined—based on its review of the record evidence concerning the responsibilities, jurisdiction, and effectiveness of each of these entities—that the existing regulatory framework is inadequate to curtail the abuses outlined in this Statement.

## (a) State Regulation.

The primary source of supervision and review of proprietary schools occurs at the state level. (192) Most states require individual schools to be licensed and prescribe certain standards as prerequisites to licensure. (193) While the statutory criteria vary considerably from state to state, their primary objective is to insure that schools meet minimum standards for course content, facilities, libraries, instructors' credentials, records maintenance, ownership and management control. (194)

Although some State statutes and regulations contain separate standards for business practices such as advertising, enrollment techniques, sales, refunds, and disclosures, (195) they nonetheless are concerned primarily with the States' more traditional interest—the quality of the education being offered. (196)

The record also documents a prevailing lack of sufficient enforcement of those consumer protection standards which do exist at the State level. (197) School licensing officials and consumer protection personnel representing numerous States testified that they have neither the manpower nor the budget resources to cope effectively with the abuses engaged in by schools within their jurisdictions. (198) Other evidence, (199) including the continued prevalence of unfair business practices engaged in by schools throughout the country, (200) points to the conclusion that State regulation of this industry is inadequate.

Finally, even improved State enforcement capabilities could not cure the significant portion of industry abuses which are interstate in character. The operations of large multi-State schools are beyond the capacity of the individual States to control. (201)

## (B) Federal Regulation.

The Federal Government's involvement in proprietary school education derives from the many Federal subsidy and grant programs operated by various departments and agencies. (202) Precluded by statute from engaging in direct evaluation of or control over the individual schools, (203) Federal agencies generally have been confined to supervising the fiscal and procedural aspects of their programs. (204) They have deferred to other non-Federal (or non-governmental) entities to exercise direct control over the schools' educational quality and sales practices. (205) For the approval of schools eligible for the veterans' benefits program, the VA is required to defer to State agencies, (206) while USOE relies primarily on private accrediting agencies. (207)

The Federal agencies have acknowledged the regulatory weaknesses inherent in this system of indirect

review, which has frustrated their efforts to curb abuses which are directly related to the infusion of Federal money into the proprietary school industry. (208) As was noted above, (209) the availability of VA subsidies and USOE guarantees of student loans made by financial institutions and by the schools themselves has been widely used by school sales forces to induce the enrollment of millions of students. (210)

In addition to their use as sales tools in deceptive and unfair marketing practices, the Federal programs have contributed indirectly to diminished industry performance by distorting normal market forces. That is, the schools' incentive to compete effectively by providing the education and employment opportunities their sales efforts promise has been significantly reduced by guaranteed Federal subsidies, which all too often have had the effect of rewarding schools indiscriminately, regardless of their performance. (211)

Congress and both of the agencies have recently acted to curtail such problems by instituting certain Federal standards for school participation in the programs. (212) The primary determination as to school eligibility still rests with the State agencies and accrediting associations, however, so that these initiatives may suffer from similar infirmities. (213) Indeed, a VA representative testified to the Commission that more restrictive requirements for maintaining VA eligibility have caused many schools to withdraw from the program, thus removing themselves from VA oversight. (213a)

The Commission believes that the Trade Regulation Rule, with its provisions for direct consumer relief supported by the Commission's enforcement capacity, will provide remedies which are beyond the scope of those embodied in the VA and USOE programs. The recently implemented regulations of those agencies, augmented by the Rule's requirements, are expected to provide the full scope of relief needed to curtail existing abuses on an industry-wide basis.

## (c) Accreditation.

The four major accrediting organizations described in this Statement operate through a voluntary peer-review process. The essence of the accreditation process is an initial self-evaluation by each school, and subsequent peer group efforts to assist the accredited schools in achieving prescribed standards over a period of several years. (214)

By their own admission, the accrediting organizations are neither designed nor equipped for regulatory or enforcement functions in consumer protection matters. (215) Because their primary function is to achieve

long-range improvement in educational performance among accredited schools, they cannot effectively police the industry's business practices or enforce compliance with consumer protection standards. (216) While improved educational quality is an important objective, so too is the goal of insuring that students are not misled into expecting benefits that cannot or will not be delivered. That is particularly true where the services offered relate to such a critical economic function as job training.

## C. Legal Basis for the Rule.

## 1. Prevalence of Unfair or Deceptive Acts or Practices.

In section B of this statement, the Commission delineated many of the unfair and deceptive advertising, sales and enrollment practices upon which the need for this rule is predicated. Many of the practices which violate Section 5 of the FTC Act are almost uniformly used. For example, the use of generalized jobs and earnings claims without the necessary qualifications on those data and the failure to disclose material information concerning placement and graduation rates is comparatively uniform, particularly among the larger institutions which enroll the majority of students. Similarly, the majority of vocational school students are enrolled after contact with a commissioned sales person in which deceptive representations are frequently used or the indiscriminate enrollment policies attending the use of the "negative sell" sales policy are present.

Other practices found to be deceptive or unfair, including many specific misrepresentations such as help-wanted advertising, sales personnel referring to themselves as guidance or enrollment counselors, misstatements of graduation or placement rates, etc., are also frequently used, as indicated.

Considerable attention was directed by industry groups to the issue of the volume of consumer complaints concerning vocational education which would support the promulgation of a trade regulation rule. Numerous schools and their trade associations argued that the number of valid consumer complaints concerning the practices of proprietary vocational schools was *de minimis* when compared with the total enrollments of the schools. (217) In both the Staff Report as well as the final comments of the industry members, there were lengthy discussions addressing the extent to which reported consumer complaints represented either the "tip of the iceberg", or, rather, the entire iceberg of consumer dissatisfaction. (218)

While consumer complaints are one measure of the existence of a problem in an industry, they are not the sole measure of the prevalence of practices

which violate Section 5 of the FTC Act. The measure of consumer dissatisfaction as actually expressed through consumer complaints is but one aspect of the determination of whether practices violative of Section 5 are "prevalent." Equally relevant are the opinions of experts in the field; documentary evidence such as enrollment contracts, advertisements, and promotional materials; the testimony of present and former school owners and sales personnel; studies and investigations performed by state and federal governmental agencies; newspaper investigations and exposes; and the Commission's own prior experiences in regulating the advertising, sales and enrollment practices of proprietary vocational schools through individual cease and desist orders. In sum the issue of prevalence requires the Commission to examine all of the materials in the record. Moreover, the issue of prevalence involves an examination of both the number of schools engaging in practices violative of Section 5 and the number of students affected by the practices.

Given the multiplicity of students and schools involved in this industry and the millions of individual school-student contacts which occur, it is extraordinarily difficult, and probably impossible, to make any precise quantitative assessment of the frequency of the practices at issue. Despite the fact that the prevalence of the practices has been an issue in this proceeding since the outset neither the Commission's staff nor other interested parties have been able to precisely quantify the extent of abuse although occasional studies have attempted to test empirically the level of these practices. Nevertheless, prior Commission involvement with proprietary vocational schools clearly demonstrates the continuing nature of the problem in the industry. In 1972 the Commission published guides for proprietary vocational schools, voluntary in nature, specifically delineating practices which the Commission believed violated Section 5. (219) Yet, since 1972, the Commission has issued 22 complaints or consent decrees involving industry schools, (220) indicating that it had reason to believe violations of § 5 had been committed. While the Commission would prefer harder numbers on the question, the issue of prevalence does not lend itself to precise quantification. On the basis of the record here, the Commission is convinced that large, though not precisely ascertainable, numbers of students are affected by these practices, and that this number represents a significant number of all school-student interactions. The record information is sufficient to convince us that action to pro-

tect the vocational school consumer is justified.

## 2. Scope of Coverage of the Rule.

## (a) Courses Covered by the Rule.

The scope of the rule adopted by the Commission is determined mainly by the definition of "course" and specific exemptions under that term. If a program of instruction "purports to prepare or qualify individuals, or improve or upgrade the skills individuals need for employment in any specific occupation . . ." then it is a "course" which is covered by the rule.

Many courses, such as heavy equipment operation, secretarial skills or computer programming are, by their very nature, programs which purport to prepare individuals for employment. Other programs may or may not be "courses" depending upon how they are marketed. Thus, a program of study which is purported to be for the sole purpose of preparing a person to pass an exam for a professional license would not be covered by the rule. However, if express or implied claims about the availability of jobs or earnings are made in connection with marketing the program, or about training for the profession, then it is covered by the rule. As an example, schools which offer programs for preparing to take civil service exams would not be covered by the rule unless they represented the availability of government jobs or made any other express or implied references to salaries, security, or other benefits of government employment.

Similarly, while self-improvement courses are specifically excluded from the rule's coverage, some courses which would otherwise qualify as self-improvement programs would be covered if they were marketed in a manner which created the expectation of employment. For example, a charm school otherwise exempt from rule would be covered by it if advertising for the school led persons to believe that graduates could enter the modeling profession.

It is important to note here the distinction between representations which would place courses within the scope of the rule's coverage and those jobs or earnings claims which trigger the placement record disclosures required by Section 438.3 of the rule. The latter are limited to express claims of a general or specific nature about employment or earnings. No such limitation attaches to the former. Thus, the claim "Be a model" would not trigger the placement disclosure requirement of Section 438.3(b), (223) but a school making that claim would have to comply with the other requirements of the rule.

## (b) Exclusion of Not-for-Profit, Public and "Degree" Course.

The Commission has limited the coverage of this rule to include only proprietary institutions. Excluded from the rule are not-for-profit institutions and publicly supported community colleges and vocational institutions. (222) Members of the proprietary sector have contended that the failure of the rule to cover community colleges and other public institutions will place the proprietary institutions in an adverse competitive position. (223) They have contended that the mandatory release of graduation and placement information by proprietary vocational schools, without a similar obligation for public institutions, will deprive consumers of the ability to meaningfully compare the track records of the two different types of institutions. (224)

There is evidence in the record to show that some public vocational schools and community colleges have engaged in questionable advertising and enrollment practices. (225) However, whereas the use of generalized jobs and earnings claims by proprietary schools as well as the use of commissioned sales personnel by those same institutions has been the rule, the use of similar methods by public institutions has not been shown in the record to be pervasive.

Moreover, alternative means exist to control the practices of public institutions. Public institutions are run by public officials who are more directly accountable to the public. Furthermore, the existence of public funding reduces the economic incentive for public schools to engage in deceptive practices. In addition, other factors such as course cost and structure differentiate public from proprietary schools. (226) In view of these factors and the evidence of record concerning deceptive practices, the Commission does not believe that extension of this rule to cover public sector schools is warranted. (227)

One significant exemption from the coverage is included within the rule. Section 438.1(c) of the rule exempts from the rule's coverage programs two years in length or longer which consist of accredited college level instruction which culminates in a standard college level degree as defined in 38 U.S.C. Section 1652(g).

To be exempt from the requirements of the rule, a program of instruction must culminate in a standard college degree, in most cases an Associate Degree or better. The Commission believes that this exemption may raise one potential problem. The Commission intends for this exemption to apply only to students who are genuinely pursuing the degree objective. It may be that some institutions which offer both degree and non-degree programs may offer some courses which

can be taken by either degree or non-degree students. If the records of institutions offering both types of programs demonstrate that students are invariably being enrolled "in the degree program," and are subsequently dropping out of the degree program as soon as they conclude a course, the Commission may consider amending the rule to deal with this situation. The Commission will monitor this situation to determine whether a problem is developing.

### 3. Cooling-Off Rights.

In Section 438.2 of the rule, the Commission has adopted a cooling-off requirement on all vocational school enrollment contracts, whether entered into at the school, the home of the prospective student, or entirely through the mails. In 1974 the Commission adopted a cooling-off rule on door-to-door sales (228) which applied to vocational school enrollment contracts entered into away from the place of business of the seller. (229) However, in its present form, the Commission's cooling-off rule has proved ineffective to accomplish the goals for which it was intended in the vocational school market.

#### (a) Attempts to Negate the Intended Effect of the Rule.

In the past, schools have used several methods to negate the effect of the cooling-off requirement. The most prevalent of these practices involved the schools' informing prospective students, typically through their sales representatives or sales materials that, at the time the student signed the enrollment contract, no contract existed. Rather, the schools impressed upon the students that a contract would only exist if the "home office" accepted the enrollment application of the student. (230) Thus, the enrollment contract was, in the mind of the student, reduced to an application to the school. However, the three day cooling-off rule begins to run as of the date when the student signs the enrollment contract.

The evidence in the record, including the testimony of state officials, investigative reporters and counsel for the trade associations, demonstrates that the practice of informing students that their enrollment contracts are not binding until accepted is very widespread. (231)

The process of "acceptance" is frequently coupled with affirmative misrepresentations designed to lull the prospective student into inaction. For example, sales manuals of some of the largest accredited home study schools direct their sales agents to make statements to students urging them not to discuss their enrollment contracts with friends or family, ostensibly because of the possibility that the stu-

dent will not be "accepted" by the school. (232)

The evidence in the record does not support a finding that industry schools engage in such selective screening processes. (233) The Commission finds that the act of deceiving students into not exercising their cooling-off rights by the making of false statements concerning selectivity of enrollment practices violates Section 5 of the FTC Act.

However, even in those cases where the school has not engaged in any affirmative misrepresentation, the Commission finds that there is a need to modify the existing cooling-off requirements. Although there may be legitimate business reasons for a school's desire to review and "accept" enrollment contracts at the home offices of the school—e.g., to screen enrollment contracts or to control the law used to interpret the enrollment contract by controlling the location of the act of "acceptance"—nonetheless, the intended protections of existing cooling-off laws are being effectively negated. (234)

The final rule recommended by the Commission's staff in the Staff Report, included a provision for an affirmation period, in lieu of the cooling-off period, to rectify the practices used to circumvent the intended effect of the cooling-off period. (235) Congress has mandated the use of an affirmation period in connection with the enrollment contracts of veterans and others eligible for veterans benefits in correspondence courses. (236) Industry groups were extremely critical of the staff's proposal to extend the reaffirmation requirement from the present VA requirement to one which would encompass all students. Many schools contended that a mandatory reaffirmation requirement would be inappropriate without clear proof that a less-intrusive remedy, such as cooling-off, was unworkable. (237) Indeed, many commenters affirmatively advocated an extension of the length of the cooling-off period as a vehicle to remedy the abuses of the current cooling-off rule (238).

The Commission has concluded that the concept of cooling-off should not be abandoned in favor of reaffirmation at this time. However, the Commission does believe that a number of minor adjustments are necessary to make the cooling-off period effective.

The major change being made concerns the trigger for the commencement of the cooling-off period. Under the rule adopted by the Commission, all schools are required to disclose to prospective students who sign enrollment contracts, the school's graduation rate. To ensure that students have adequate opportunity to reflect upon these data, and to eliminate the

adverse effects of the "acceptance" process, the rule states that the cooling-off period does not commence until the school has accepted the student's enrollment contract, and mails to the student the required disclosure. (239) This ensures that the legitimate business purposes of the schools' use of the "acceptance" process are maintained. Under the Commission's rule, schools remain free to screen incoming enrollment applications, and to control the forum law applied to the contract. However, the rule similarly ensures that the student will be informed that he or she has been accepted by the school, (240) and precisely when the cooling-off period expires. (241)

The rule requires two notices to be used to explain the cooling-off period to prospective students. The first notice appears in the enrollment contract and explains to the student his or her right to cancel the contract, (242) and how the school will settle the student's financial obligations to the school in the event of cancellation. To provide greater assurance that the cooling-off disclosures are meaningful and not undermined by other representations, the rule requires, as noted above, that after the school has accepted the student's enrollment contract, it mail to the student a notice that informs the student of his or her acceptance, and which specifically states the last day on which the student can cancel the contract.

#### (b) Other modifications.

The Commission has made two additional changes in the cooling-off rule applicable to vocational school enrollment contracts. First, the cooling-off provisions of this rule will apply to all vocational school enrollment contracts, whether entered into in the home of the consumer, at the educational institution, or entirely through the mails. The evidence in the record supports a finding that enrollment personnel in the schools frequently operate under the same compensation and incentive schemes as commissioned sales personnel. (243)

Thus, the cooling-off provision of the rule, Section 438.2, expands the scope of coverage heretofore provided by the FTC's rule on door-to-door sales in order to eliminate undue pressure and deceptions which may occur either at the school or through mailed materials.

Second, the length of the cooling-off period has been extended. A number of schools advocated extending the cooling-off period applicable to vocational school enrollment contracts as a viable substitute for an affirmation period. (244) The Commission's decision to extend the cooling-off period to fourteen days, beginning on the date of mailing of the notice, will serve

to ensure, in the majority of cases, that a prospective student has at least ten days to consider the school's disclosures, as well as his or her decision to enroll in the school. Congress has implemented a similar time period in the case of its veteran reaffirmation requirement. Under the VA requirement, a veteran cannot reaffirm his or her contract prior to the tenth day after the enrollment contract was signed. (245)

#### (c) The Disclosure Forms.

We noted earlier that two notices are required by the rule to inform prospective students of their cooling-off rights under the rule. It is the Commission's intention, in requiring that enrollment contracts include the required explanation of the cooling-off rights, that individual students be able to privately enforce any failure by schools to comply with those rights.

The forms recommended by the Commission's staff in the Staff Report were severely criticized by industry groups for being excessively negative in tone, and, in the words of the industry groups, for suggesting to students that they drop out. (246) To address these concerns the Commission has rewritten the explanation of the student's cooling-off rights—to cast the language in a fashion which will inform the student, in understandable terms, of his or her rights, but which is not suggestive of any particular course of actions, and which also maintains a tone which will impress upon the student the importance of a contract. (247)

#### 4. Disclosure of Graduation and Placement Rates.

In Section 438.3 of the rule, the Commission has required that all schools disclose to prospective students the school's graduation rate. That section also requires that any school which makes an express job or earnings claim disclose to its prospective students, the information which the school knows about the success of its students in obtaining employment after graduation.

#### (a) Graduation and Drop-Out Disclosures.

The rule requires, in Section 438.3(a), that all schools disclose to students who sign enrollment contracts the current graduation rate of the institution for the particular course in which the student has enrolled. This requirement is imposed even if the school makes no affirmative representations concerning its graduation rate.

The record in this proceeding shows that some schools have affirmatively misrepresented their graduation rates when asked by prospective students, (248) and that most commissioned sales personnel do not know what the graduation rates are for particular

courses. (249) While the record does not support a finding that all schools are affirmatively misrepresenting their graduation records, it does show that most schools do not disclose graduation rates to prospective students. (250) The requirement that all schools disclose their graduation rates for each course will effectively eliminate deception in this area.

The record also shows that misrepresentations concerning the placement success of schools occur frequently, (251) although their use is certainly not uniform in the industry. Even in those instances where the school does accurately inform a prospective student of the school's placement record, the prospective student may nonetheless be seriously misled if graduation data are not also provided. For example, if a school enrolls 1,000 students, graduates 900 of them, and 70% of them are able to find jobs, a prospective student could deduce that job prospects in the industry were bright. However, if a school enrolled 1,000 students, graduated 90, and 70% were able to find jobs, quite a different picture of demand in that job market emerges. The Commission finds that the disclosure of graduation rate information is essential to evaluate claims of placement success.

Additionally, the record shows that sales personnel enroll many students who are not qualified or have no real interest in the course. (252) By their terms, the commission schemes currently in use in this industry reward sales personnel for enrolling as many prospects as possible. (253) By requiring schools to disclose their graduation rates, schools whose sales personnel engage in indiscriminate enrollment practices will be encouraged to remedy those practices or face the burden of explaining a very high drop-out rate to an applicant.

The Commission has determined that the graduation rate of an institution, on a course-by-course basis, is information which is material to the vocational school transaction, (254) necessary to make the transaction as a whole non-deceptive, and is a reasonable requirement imposed to prevent the other unfair and deceptive practices identified in this section.

Another line of analysis also supports this requirement. It is a basic tenet of our economic system that information in the hands of consumers facilitates rational purchase decisions; and, moreover, is an absolute necessity for efficient functioning of the economy. If consumers have access to good information on the facts significant to their purchase decisions, then the normal forces of the market are likely to induce sellers to improve those characteristics of the product or service that are most important to the

consumer. In the case of vocational schools, one of the most important items of consumer information, the graduation rate, is not available. Moreover, consumer search costs are so high that there is no realistic way in which any significant number of consumers can become aware of this information. Nor is there any way in which independent third-parties will find it worthwhile to provide good information on a continuing basis since graduation rate data are not available to them. The decision to enroll in a vocational school is one involving a large expenditure, with serious consequences on the future welfare of the student. The evidence shows that the majority of students enrolling in vocational school courses are either unemployed, or if employed, occupy low paying positions. (255) If students must enroll in a course to determine whether they will likely be able to graduate, a painful form of search cost is exacted from the student. At the same time, the relevant information is known to each school in the ordinary course of its business. There is no way in which a school could not know its drop-out rate, and requiring that the graduation rate be disclosed imposes no extra costs on the school except a *de minimis* cost of preparing the information in tabular form and disclosing it to prospective students. Under such circumstances, we think it is reasonable and necessary to require schools to disclose this information.

Industry opposition to a requirement that schools disclose graduation rates has focused on two primary issues. First, schools have contended that a knowledge of graduation rates is not material to the vocational school purchase decision. (256) As noted above, the Commission rejects this argument. Both in terms of negating specific misrepresentations of graduation and placement information, as well as providing a key piece of information for students to assess the likelihood of their completing a course, graduation rate information is material.

The second basis on which schools have contested the mandatory disclosure of graduation information is the potential that exists for misinterpreting this piece of data. Schools have argued that students drop out of courses for numerous reasons unrelated to the quality of the course or the sales or enrollment practices of the school, such as pregnancy, financial difficulties or simple disinterest. (257) The Presiding Officer expressed similar concern over the possible interpretations of a low graduation rate. (258) For example, a low graduation rate may reflect an extremely difficult course of study which only the best students are able to complete, or it

may reflect a high level of deception in the enrollment process, which causes many students to subsequently withdraw.

The Commission recognizes that the graduation rate of a school is not a perfect piece of information. However, it is a vital starting point in informing the prospective student of a material factor to be considered in the decision to enroll in a course. The rule does not prohibit schools from explaining to prospective students the reasons why students have withdrawn from a particular course. In its advertising, sales presentations, brochures, mailings or other contacts with prospective students, a school is wholly free to discuss with the prospective student the causes for withdrawal.

The only limitation on qualifying information is placed on the disclosure form, itself. The school cannot include any additional information on the disclosure form beyond what is required or specifically permitted by the rule.

It is important to understand what these restrictions do not do. They do not prevent the school from showing students the Disclosure Form before they sign the enrollment contract and explaining at that time the reasons for drop-outs or comparing the school's own rate with those of other schools. Nor do they prevent the school from separately mailing to students additional information about drop-outs before or after the contract is signed. Thus schools have every reasonable opportunity to explain and analyze their drop-out rates.

Some schools argued that drop-out disclosures, with out a listing of reasons for dropping out, was inappropriate, and suggested that the Rule should require disclosures of the reasons students fail to complete. (259) In response to this industry concern, the Commission has provided for an optional explanatory statement to be incorporated into the graduation record disclosure form. (260)

In evaluating these figures, you should know that students may drop-out of a course for a variety of reasons. They range from dissatisfaction (with the course to inability to do the work. Other students drop-out of school for personal reasons, such as poor health.

Thus schools, if they wish, can include in the disclosure form itself a general explanation as to what may motivate drop-outs.

Finally, some schools have argued that the adoption of the Educational Amendments of 1976 by Congress (261) has eliminated the need for the Commission to mandate the disclosure of graduation rates because this legislation provides for essentially the same thing. Three important limitations on availability of the informa-

tion under the regulations implementing this legislation make this alternative inadequate. First, under the regulations adopted by the Office of Education, graduation data need only be disclosed on request. (262) Given the pressure surrounding the enrollment process and the characteristics of the vocational school population, it is questionable how many students will affirmatively seek out this information. Second, schools are permitted to charge a fee for providing the information to persons who request it. Third, only schools which receive federal assistance or participate in federal assistance programs are forced to comply with this regulation. (263) The Commission believes that the affirmative disclosure of this information is warranted, especially in view of the minimal burdens associated with gathering it. (264)

#### (b) Placement Rate Disclosure.

In Section 438.3(b) of the rule, the Commission has required schools to disclose to their prospective students information concerning the placement rate of the school, if the school has made any express claims concerning jobs or earnings in marketing the course. The record clearly shows that most students enroll in proprietary vocational school courses for the purpose of obtaining new or better employment in the field of training. (265) The predominant theme in the advertising employed by proprietary vocational schools likewise stresses the theme of job availability. (266)

The record demonstrates that a significant percentage of graduates of proprietary vocational school courses do not obtain employment in the field of their training. (267) While the overall placement picture is poor, there are wide variations among schools and courses as to placement success. (268) The decision as to which career to enter, and what type of training to pursue to accomplish that career objective, is a difficult and complicated one involving considerations of demand, regional variations, students' qualifications, the quality of training, school reputation and employer hiring practices. (269) The evidence from the record is clear that schools have not been voluntarily disclosing to their prospective students their relative success records. In many cases, placement records have been affirmatively misrepresented. This includes specific claims of non-existent placement services. (270)

Far more widespread is the use of generalized claims about job demand or salaries in an industry. (271) Consumers often understand such general claims to be assurances that they will have little difficulty obtaining jobs upon graduation, because they are not informed that general demand for a

job does not translate into a predictor of the value of a course or the success of any particular school's graduates. Furthermore, the educational and training prerequisites which often accompany job projections in documents such as the "Occupational Outlook Handbook" published by the Department of Labor, are uniformly not disclosed by schools in their advertisements. (272)

The importance of placement data describing the school's track-record is so compelling that the disclosure of this information could be justified for all schools, regardless of whether they make job or earnings claims. (273) However, as we discuss below in section C(8) of this statement, a cost is imposed on schools to collect and disclose placement information. In balancing the benefits of disclosing placement information against the burdens placed on schools by such a requirement, the Commission has opted against an across-the-board requirement. Instead, the rule requires that placement information be disclosed to prospective students only when the school makes the issue of jobs and earnings material to the enrollment decision, by making advertising claims in that area.

Far from being a novel remedy, the rule's placement disclosure simply builds on the requirements of the *Pfizer* doctrine. (274) In *Pfizer* the Commission held that it was an unfair act or practice for an advertiser to make a claim for which the advertiser did not have substantiation at the time the claim was made. (275) In the context of this rule, the Commission has ruled that, prospectively, the placement track-record of a school in one piece of the information necessary in every case to substantiate job and earnings claims (in some instances additional substantiation is required as well), and that this information must be disclosed to the prospective student. Given the almost uniform failure of schools to disclose the limitations placed on the use of generalized jobs and earnings projections, and the widespread use of false or deceptive specific jobs and earnings claims, the Commission believes that disclosure of the track-record of the school's graduates is necessary to negate the deceptive character of these claims.

Thus, the reasoning supporting this requirement is analogous to that supporting the requirement of disclosure of graduation rates. The placement record of a school is one of the most important tools for a prospective student to use in choosing a vocational school course; yet, prohibitive costs are imposed on consumers who may wish to evaluate express job and earnings claims in light of a school's actual placement experience. Unlike gradua-

tion information, however, schools will usually have to incur the costs of surveying their graduates to obtain placement and earnings data. Schools can avoid these costs entirely, at their own option, simply by refraining from making express job and earnings claims in marketing their courses. To the extent that a school chooses to make express job or earnings claims, the evidence shows that the costs of collecting the required information are minimal.

As in the case of graduation rate disclosure, schools are in a far superior position to individual consumers to obtain and disseminate this information. The aggregate costs to the schools of gathering and providing these data are substantially less than would be the aggregate of costs to consumers to individually search for this information.

To ensure that the purposes of the rule's placement disclosures are carried out, the rule mandates a uniform format for the disclosures. Uniformity in the disclosure format is necessary to ensure that comparison shopping is possible and that the percentages of graduates obtaining employment are calculated in identical fashion by all schools.

The disclosure required by the rule is a simple one. The school must disclose to prospective students the number of students who graduated from the course and the number and percentage of those graduates who were able to find employment within four months after leaving the course. (276) The school must also disclose the salary levels being earned by students obtaining employment. (277) The disclosure itself does not purport to be the school's complete placement rate, but rather is designed to disclose to the prospective student what the school knows about the success of its graduates.

In the form recommended by the Commission staff, the placement rates of schools would have been required to be calculated as a percentage of all the students who enrolled in a course. For example, if a school enrolled 1,000 students, graduated 100, and placed 50, under the staff's formula the school would have been required to disclose that 5% of those who enrolled found jobs. Many schools objected to this requirement on the grounds that drop-outs should not be included in any calculation of placement rates. (278) While the Commission believes that the percentage of all enrollees who ultimately obtain employment may be informative to prospective students, the Commission has determined that only the percentage of graduates obtaining employment is required to remedy the deceptive use of both general and specific job and earnings

claims. To the extent that a student may wish to determine the placement rate as a percentage of all enrollees, sufficient data is contained in the disclosure form to permit the student to make that calculation.

Some schools would have further refined the figure to exclude students who "were unavailable for employment" or who could not be contacted by the school to ascertain whether they were able to find employment. (279) The Commission has decided not to allow these categories of graduates to be excluded from the placement rate computation. The term "unavailable for employment" is difficult to define and would create significant enforcement difficulties. For example, if a student joins the military or becomes pregnant after completing a course, the motivating factor behind the decision to enlist or have a child may have been the inability of the graduate to obtain employment and remain in the job market. Any exclusion for this category of students which lacked absolute precision could result in schools making and disclosing non-comparable data.

However, the Commission recognizes that by not excluding these categories of graduates, the placement percentages of the school may be adversely affected. To mitigate this, the Commission specifically permits schools to provide an optional paragraph within the placement record disclosure which explains how factors such as non-respondents and non-career goals affect the percentages. (280)

In evaluating our record, remember not all our students took this course to get a job in the field of ——. Also, we were unable to reach some of our graduates to see if they got jobs. So, our placement percentage might be understated.

Of course, schools should include the second sentence of the statement only if they were unable to obtain responses from all of their graduates. (Or in the event that all of the students in a course did enroll to obtain jobs the first sentence should not be used.)

A number of schools also objected to the limitation that a student must obtain employment within four months after graduating to be counted as a placement. (281) The Commission believes that this time period is a reasonable one. Although some students may find employment after this time period, this number will be offset by persons who took a job in the field of training and have subsequently left (after four months). Moreover, the longer the time-period after graduation which elapses prior to a graduate obtaining employment, the more attenuated the connection between the completion of the course and the ability

of the student to find employment. In any event, schools remain free to make truthful claims about employment occurring after this time.

#### (c) Trigger for Placement Disclosure.

The Commission has made an important modification to the rule as originally recommended by its staff. Under the rule as recommended in the Staff Report, both express as well as implied job claims would have triggered the obligation of a school to disclose its placement rate to prospective students. The rule as adopted by the Commission only requires that schools make a track-record disclosure if they make express job or earnings claims. Express job or earnings claims are claims which contain explicit verbal or pictorial references to the availability of jobs, the ability of a school's graduates to find jobs or earn stated salaries, or to the existence of placement services. The following are examples of express jobs or earnings claims:

"There is a growing demand for operators of heavy equipment in the construction industry." A depiction of a person engaged in an employment situation who is represented to be a graduate of the school.

"Graduates of our school can earn as much as \$20,000 a year."

"We will train you for a job in the computer programming field."

"Graduates of our school have been placed with some of the nation's largest corporations."

"Semi Drivers needed. Training now being offered."

"Be a truck driver. Earn big money."

As long as the claims made by a school pertain solely to the training being offered by the school and do not expressly refer or depict job availability or salary potential, the claim would not be considered to be an express job or earnings claim. Thus, the following examples, would not trigger the obligation to make a placement rate disclosure:

"We train accountants."

"Be a truck driver."

"Our training is recognized nationwide."

"We offer expert training for draftsmen and accountants."

In determining whether claims are express job claims, the Commission will consider such statements in the context in which they are made. Thus, a television commercial which depicts a person receiving a diploma, carrying it to an employer's office, shaking the employer's hand and being led to a draftsman's table would be an express claim, even if the only verbal representation made was "Be a draftsman."

#### (d) Contemporaneous Disclosure of Track-record.

As noted earlier, the Commission has found that the use of general and specific job and earnings claims, with-

out disclosing the track-record of the particular institution making the claim violates Section 5 of the FTC Act. The proposed rule recommended by the Commission's staff would have required schools to disclose their full "track-record" in any advertisement which contained a job or earnings claim. Numerous schools objected to this requirement, particularly with respect to advertisements carried in the broadcast media. (282) It was contended that the length of the track record disclosure recommended by the staff (which had been substantially shortened by the Commission), would be impractical in the context of the broadcast media—imposing insurmountable space and cost obstacles. In lieu of a full disclosure in advertisements, many schools argued in favor of a brief disclaimer which would simply alert prospective students to the availability of placement data. (283)

Cognizant of the burdens which would attend a requirement that a school disclose its full track-record of placement success in media advertisements, the Commission has opted in favor of a shorter, and simpler, disclaimer notice, (284) even though the disclaimer notice may not be sufficient to eliminate all deceptive characteristics of job claims which are not accompanied by the full track-record.

The Commission must balance the relative benefits which would be derived from a requirement that the full track record be disclosed against the impact such a requirement would have on the ability of schools to provide information to the public through advertising. In the recently adopted rule on The Advertising of Ophthalmic Goods and Services, the Commission placed limitations on the disclosures which could be used to encumber advertisements. (285) Consistent with that precedent and its underlying rationale, the Commission believes it appropriate to strike the balance, in this situation, in favor of permitting schools to continue to make job and earnings claims accompanied by a notice informing students of the availability of the school's placement rate.

While recent Supreme Court decisions have extended first amendment protection to commercial speech, (286) they have recognized that such speech can be regulated in some instances. Thus, the Court has expressly recognized the right of the government to regulate or prohibit false and deceptive advertising. (287) In some instances the appropriateness of affirmative disclosures in standardized format has been acknowledged. (288)

The disclaimer adopted by the Commission for use in media advertisements is brief enough to be incorporated into even the restricted time frames

of broadcast media spots without unduly restricting the advertiser's message.

Some comments have asserted that the Commission is bound to adopt the least restrictive alternative to eliminate the deceptive aspects of commercial speech. (289) These commenters have asserted that the need for a contemporaneous disclosure, or disclaimer, in advertisements is obviated by the subsequent disclosure of the schools' placement record which must be mailed to each student. However, other commenters have argued that the doctrine of "least restrictive alternative," even if applicable to commercial speech, requires only that the least restrictive means be chosen which will cure the deception or unfairness at the time it is made. (290) The Commission does not believe that the doctrine of "least restrictive alternative" is applicable to government regulation of commercial speech. In fashioning its remedy the Commission seeks to employ its expertise to minimize the burdens imposed, a course it has pursued here. However, this is not equivalent to the doctrine of "least restrictive alternative." Even if applicable, the doctrine of "least restrictive alternative" does not compel abandonment of a contemporaneous remedy to a deception simply because an after the fact remedy may exist. The Commission can require a contemporaneous disclosure if necessary to render the speech non-deceptive.

#### 5. Substantiation.

In Section 438.3(f) of the rule, the Commission has required that schools have a reasonable basis for any job or earnings claim which they make, if the claim is not substantiated by the disclosure form (containing the school's graduation and placement rates) required by Section 438.3 (a) and (b) of the rule. (291) The disclosure forms required by those sections will, in most cases, substantiate claims as to a school's most recent graduation rate or placement success. They would not be a reasonable basis for claims such as those alleging demand for a particular skill or claiming graduation or placement success based on projections beyond the base period or periods covered by the disclosure form. The record in this proceeding conclusively establishes that false or unsubstantiated job or earnings claims constitute one of the primary violations of Section 5. (292)

As discussed in section B(3), *supra*, schools have frequently made claims about the general job market demand which have had significant impact on students' enrollment decisions. Under the rule, the disclosure form triggered by such a claim would tell the student about the school's success in placing its graduates, but it would not neces-

sarily substantiate the demand claim the school had made. While the rule does not require affirmative disclosure of a school's basis for such claims, in accordance with the *Pfizer* doctrine the rule requires that the school possess a reasonable basis when making the claim.

Accordingly, if a school makes any job or earnings claim which is not substantiated by its track record disclosure, the school must possess independent substantiation for the claim made. (293) The rule requires that the substantiation consist of a "statistically valid and reliable survey."

However, the Commission has recognized, as an exception to the standards set forth above, the right of schools to rely on job projections prepared by government agencies, such as the Department of Labor's Occupational Outlook Handbook. The rule specifically permits schools to rely on government prepared job and earnings projections as substantiation. If a school chooses to rely on such statistics as substantiation in connection with a job or earnings claim made in a non-media advertisement, the school must disclose in that advertisement all of the caveats and limitations applicable to those data. For example, if a government prepared job projection states that the projections are inapplicable to specific geographic areas, or should not be used to predict employment potential in a geographic area, such must be disclosed in the advertisement. In addition, if a job or earnings projection is modified by other information in the projection such as the type of educational background or work-experience required, this must also be disclosed. For example, if a government publication projects that jobs in the accounting field will increase greatly in the next decade, but that most of these jobs will go to persons with bachelor degrees in accounting, that fact must be disclosed in the non-media advertisement.

Because of the time and space limitations inherent in media advertisements, the caveats which must be disclosed in non-media advertisements when using government prepared job and earnings projections need not be made. The Commission has made this distinction not because it feels that this information is unnecessary in media advertisements, but only because a requirement that all caveats be included in media advertisements would place an unnecessarily severe burden on media ads. Nevertheless, a school could not make any advertising claims in reliance upon such projections if it knew or had reason to know from the caveats accompanying the projections, or for any other reason, that the projections were inapplicable to the school, its enrollees or the local-

ity served by the school. Section 438.3(f) places this restriction on any material which purports to be a reasonable basis, including government prepared job and earnings projections.

#### 6. Pro Rata Refund Calculation.

(a) *Necessity as a Preventive or Remedial Requirement.*

In Section 438.4 of the trade regulation rule, the Commission has specified the refund formula which must be employed by schools subject to the rule. There are three major components to this refund formula. First, the student's financial obligation in the event of withdrawal must be determined on a pro rata basis which essentially equates the student's financial obligation to the school with the percentage of the classes attended by the student, or in the case of a correspondence course, the number of lessons submitted. Second, the refund formula permits schools to retain a registration fee to recoup the school's cost of processing the student's enrollment. Finally, the formula permits, under certain circumstances, schools to separately charge students for any equipment provided to the student during the course which is not returned to the school.

In adopting Section 438.4 of this rule, the Commission has not made a finding that existing refund policies violate Section 5's proscription of "unfair or deceptive acts or practices." Rather, the Commission has predicated the requirements of Section 438.4 on its ability to prevent and remedy practices violative of Section 5 of the FTC Act pursuant to Section 18 of the FTC Act, which empowers the Commission to adopt trade regulation rules which include requirements designed to prevent occurrences of acts or practices that have been defined as unfair or deceptive under Section 5. (294)

In other sections of the trade regulation rule, the Commission has defined with specificity unfair or deceptive acts and practices. For example, Section 438.2 of the rule addresses numerous unfair and deceptive acts engaged in by industry schools which attempt to, or have the effect of, circumventing the Federal and State cooling-off rules. (295) In Section 438.3, the Commission specifically defines the making of jobs and earnings claims without disclosing the information necessary to make those claims non-deceptive to be unfair and deceptive.

The Commission has found that many of the unfair and deceptive advertising and enrollment practices engaged in by industry schools cannot be easily proscribed; or, if proscribed, cannot be readily enforced without imposing substantial regulatory burdens on both industry and the Commission. In section (B) of this Statement for example, the Commission outlined the

issues associated with the use of commissioned sales personnel to sell vocational education. In the discussion of the effect of the compensation format for sales personnel, it was noted that the use of commissions, (296) and quotas (297) together with sales personnel untrained in counseling or screening (298) led to frequent deception in the marketplace.

Specifically, the Commission found that current compensation schemes reward both the sales personnel as well as the schools for enrolling students on the basis of direct misrepresentations such as help wanted advertisements, (299) misleading placement claims, (300) and inaccurate descriptions of such matters as course content and facilities, (301) the qualifications of sales personnel, (302) and selectivity of admission policies. (303) In addition, the Commission found that the compensation schemes encouraged sales personnel and schools to withhold from the market material information concerning the school's placement and graduation rates. (304)

The pro rata refund provision of the rule adopted by the Commission is designed to alter the incentive structure for obtaining vocational school enrollments. No longer will schools be able to derive any significant financial benefit from engaging in unfair or deceptive enrollment practices. By equating the student's financial obligation with the length of his or her stay in the course, schools will be financially motivated to enroll only students with a genuine interest in the course. The use of deception to enroll students will no longer result in the creation of a large financial obligation to the school in the event of withdrawal. (305)

The rule avoids the burdens and deficiencies of any attempt at detailed policing of the practices described. Instead, it minimizes the extent of regulation while at the same time effectively curtailing practices violative of Section 5 of the FTC Act. The Commission's rule on door-to-door sales, 16 CFR Part 429, similarly seeks to eliminate undue pressure and unfair sales practices through an indirect remedy rather than proscribing all of the possible objectionable conduct.

As set forth below, some of the interested parties in this proceeding oppose the refund requirement. None have suggested any alternative regulation that would protect consumers effectively without requiring an undesirable, and ultimately unattainable, regulatory intrusion into day-to-day school operations. The Commission believes the refund and cooling-off provisions of the rule are necessary to provide adequate protection for students without imposing unreasonable regulatory burdens.

#### (b) Industry Opposition to Pro Rata.

In 38 U.S.C. Section 1776(c), Congress set forth the refund policy to be followed by correspondence schools participating in the Veterans Benefits programs. Some participants in this proceeding contended that this Congressional enactment precludes the Commission from requiring that a more stringent refund standard be followed by correspondence schools. (306) The Commission requested an interpretation of 38 U.S.C. § 1776(c) from the Veterans Administration. (307) The VA has stated that it interprets 38 U.S.C. § 1776(c) as merely establishing the minimum refund standard which must be employed by correspondence schools participating in the Veterans Benefits programs. (308) The VA further concluded that it does not view its statutory mandate, as expressed in Title 38, as precluding the Commission from requiring adherence to a more stringent refund standard.

The Commission does not believe that the minimum refund standard set forth by Congress precludes Commission adoption of Section 438.4 of this trade regulation rule. The Commission has not found that continued adherence to the refund policy set forth in 38 U.S.C. Section 1776(c) is an unfair act or practice within the meaning of Section 5(a)(1) of the FTC Act. Rather, the Commission has found that to prevent other specifically defined unfair acts and practices, and to minimize the amount of regulation that would otherwise be required, it is necessary to eliminate the financial incentives which encourage schools to enroll students through deception and misrepresentation. The refund policy established by the Commission in Section 438.4 is the vehicle adopted by the Commission to accomplish that end.

A number of schools have objected to a pro rata refund requirement on the ground that it would not permit them to recoup their expenses when a student drops out. (309) In effect, schools have argued that they will be forced to raise their tuition to cover the loss in revenue which would attend a pro rata requirement. (310) As a consequence, it is argued, students who remain in school would be subsidizing drop outs through the payment of higher tuition. (311) In his report, the Presiding Officer in this proceeding concluded that a pro-rata refund policy might not adequately compensate a school for its fixed costs in all cases. (312)

In evaluating this argument one must differentiate among the various types of fixed costs involved. What the commenters refer to as "fixed costs" often include a sizable component for student acquisition costs such as advertising costs and commissions. For

some schools these can amount to 30% to 50% of total operating expenses. (313) The record here indicates that such high acquisition costs are frequently accompanied by unfair and deceptive sales practices. Under current refund policies each drop out makes a disproportionate contribution to such expenses. A school not only profits directly from using unfair and deceptive practices to enroll students, it profits indirectly in that the subsidization of graduates by drop outs permits the school to maintain the face price of the course at a level below the true cost of producing a graduate, thus increasing the overall demand for the school's product. (314)

Other kinds of fixed costs present greater difficulties. The argument against pro-rata is that the enrollee has occupied a place in the class and has committed himself or herself to paying his or her share of the fixed costs. If he or she drops out, it is argued, then any refund greater than actual cost savings to the school necessarily and unfairly shifts these costs to the students who remain enrolled.

There are several responses to this. First, to the extent that a school obtains enrollees through unfair or deceptive practices, the same argument applies to fixed costs as applies to acquisition costs. The marketplace in vocational school courses should function more effectively if such costs are more reasonably related to the production of graduates, not the production of enrollees. Second, as a practical matter, the situation rarely arises. A necessary predicate of the so-called "empty chair" is that a course vacancy has occurred because another prospective student was turned away from the school in favor of the student who subsequently withdrew. However, the proponents of this argument have failed to produce any substantial evidence to support this argument. The record evidence simply does not support a finding that schools have turned away prospective students because of enrollment limitations.

If all schools covered by the rule engaged in unfair or deceptive practices there would be little doubt about the appropriateness of a pro rata refund policy. The Commission's conventional fencing-in authority is more than broad enough to justify a pro-rata refund in such cases. However, not all schools have engaged in practices violative of section 5 of the FTC Act, and the pro rata refund requirement is being imposed under the statutory authority of the Magnuson-Moss Act, not the general fencing-in authority applicable to adjudications. Thus, the matter squarely presents the question of the Commission's authority to impose requirements on businesses which may not have engaged in the

particular practices found to violate Section 5.

That this authority exists is beyond dispute. In giving the Commission authority to promulgate industry-wide trade regulation rules which include the power to enact provisions to prevent unfair or deceptive acts or practices, Congress clearly intended to enable the Commission to fashion remedies of sufficient scope to be effective. Almost any rule with industry-wide impact will affect some segment of the population which may not have engaged in the offensive conduct. At the same time, the Commission recognizes the undesirability of imposing prophylactic burdens out of proportion to the problem involved.

This is not a matter which lends itself to elaborate quantitative calculation. As discussed earlier, the difficulties in pinpointing an exact level of prevalence are formidable, and would make any such calculation suspect. More important, however, is the structure of the rule. As we have repeatedly emphasized, this rule, and particularly the pro-rata provision, is designed not as a command-and-control rule specifying the details of day-to-day conduct, but as a rule which eliminates unfair and deceptive practices by changing the incentive structure which has produced them. Under such circumstances the Commission can be confident that the pro rata refund policy moves the incentive structure in the proper direction, but no analytic methodology exists that would predict the exact magnitude of the changes.

This leaves the question whether the pro-rata refund requirement imposes burdens on schools that have not violated Section 5 which outweigh these real, though indeterminable, benefits. The Commission does not believe it will, largely because it does not believe that the net effect of the provision will be to impose an undue burden upon schools. (314a) While it is important to recognize that any refund provision is likely to have an uneven impact upon different schools, the Commission is persuaded that most schools will have adequate information available to predict drop-out rates, (315) and can revamp their course price structure to reflect the new refund policy. To the extent that course costs rise in response to the adoption of pro rata refund formulations, they should basically reflect the true cost of educating a "stay-in-school" student. In some cases, albeit a limited number, an incremental increase in costs above true market levels for educating a graduate may occur. In these cases a burden will be imposed, not on the school, but on the graduates of that school. While the Commission is cognizant of this possibility, on balance, the Commission be-

lieves that the policy choice of a pro rata refund policy it has made is necessary. Indeed, any incremental increase in tuition costs above the cost of educating a graduate simply constitutes a "drop-out insurance policy" for such students. In effect, should this occur, the student would be incurring an expense to have the benefit of a pro rata refund which would protect the student should he or she opt for cancellation. The primary point to be made, however, is that the Commission does not anticipate this outcome as a likely one.

In the rule adopted by the Commission, schools are given an option as to whether to include "equipment" within the cost of the course which is subject to the pro rata refund requirement. A school may, at its option, disclose in the enrollment contract the amount it is charging for any equipment that it is providing to the student. In the event that a student withdraws from such a course, the school may charge the student the full amount for that equipment if the student fails to return the equipment to the school within a specified period of time. (316) If the student does return the equipment, the school must include the cost of the equipment in the total cost to the student which must be pro-rated.

A number of schools argued that they should be permitted to retain the "fair market value" of any equipment which they provide to their students. (317) The inclusion of a requirement in the rule that schools charge only the fair market value of the equipment provided produces significant problems. First, it is difficult to determine what is the fair market value of course materials to be distributed to students, particularly in the case of a correspondence course. Second, effective enforcement of such a requirement would involve the Commission in a myriad of determinations as to whether the price charged by a school for a particular piece of equipment was the "fair market value."

However, the Commission does recognize that some exemption for equipment is appropriate. The Commission's equipment exception permits schools to retain the full amount charged for any equipment not returned to the school, and a pro-rata portion for any equipment returned. (318) The Commission's policy on equipment is considerably more liberal to schools than are the policies currently employed by many states and two of the major accrediting associations. (319)

The final issue concerning Section 438.4 is the adequacy of the registration fee permitted under the rule. The rule permits schools to retain a maximum of \$75 registration fee for any

student who enrolls and does not cancel during the cooling-off period. (320) This \$75 maximum figure represents an increase over the \$25 maximum which had been recommended by the Commission's staff. (321) A number of schools had argued that the amount recommended by the staff was insufficient to permit them to recoup the per capita expenses incurred in soliciting and enrolling a student. (322)

The Commission has permitted schools to retain a registration fee to cover the costs reasonably associated with processing an enrollment application. It is not designed to permit schools to recoup the advertising and enrollment expenses associated with obtaining an enrollment. If the Commission were to set the registration fee at a level which permitted schools to recoup their expenses in attracting potential students, the incentive structure would favor a return to the enrollment practices which gave rise to this rule. The figure chosen by the Commission is within the range supported by many of the schools commenting on the rule. (323)

#### 7. Preemptive Effect of the Rule.

In Section 438.9 of the rule, the Commission has set forth the extent to which the rule preempts inconsistent state laws, rules, and regulations. A number of states currently specify cooling-off periods applicable to vocational school enrollment contracts, refund policies, and other similar matters. The Commission believes that it is desirable to have the states experiment with alternative forms of consumer protection in the areas covered by the Commission's rule, so long as the state's activities satisfy the minimum standard of protection provided by the Commission's rule.

To ensure that the states retain the right to experiment and evolve alternative regulatory schemes in the areas covered by the rule, the Commission has, in Section 438.9 of the rule, set forth the process by which states may apply to the Commission for an exemption for their laws from the effects of the rule.

Unfortunately, the decision as to whether a state law "affords greater protection" to a student is not always clear cut. Consider, for example, a refund policy with the following attributes:

- (a) A \$25 flat registration fee;
- (b) Pro rata formula to the 75% mark in the course after which no refund is required;
- (c) No provision for a separate equipment charge;
- (d) A private right of action for a student who does not obtain the proper refund; and

(e) Required contract language which is extremely legalistic and difficult to understand.

In some respects, such a refund policy would be more stringent than that adopted by the Commission, while in other respects the Commission's rule would be more protective. Since both the state law and the Commission's rule would mandate language, a school would be faced with the dilemma of complying with either state law or the FTC's rule. If a school faced with this decision resorted to state court or federal court for a declaratory judgment, it would create a situation where different courts might arrive at conflicting conclusions on whose law was applicable.

If, alternatively, a school requested an advisory opinion from the Commission, the Commission's opinion would not necessarily bind a state court that could conclude that the Commission was wrong, and that the state law was (or was not) applicable. The level of uncertainty which would result from this approach is not only undesirable, but also intolerable for the states, the Commission, and the affected schools.

The Commission has specified in Section 438.9 of the rule that state or local governmental entities may petition the Commission to obtain an exemption for their statutory provisions, if they believe that the comparable state provisions afford consumers greater protection than does the Commission's provisions, and the state requirement would not frustrate the purpose of the rule's provisions. Any action by the Commission to grant such an exemption petition would be conducted in accordance with 5 U.S.C. Section 553.

The exemption process employed by the rule is similar to that used by Congress in Title I of the Magnuson-Moss Act (324) to exempt state warranty laws which offer greater protection to consumers than the analogous Magnuson-Moss provisions, (325) by the use of Section 553 rulemaking procedures of the Administrative Procedure Act, 5 U.S.C. Section 553. (326) Moreover, the exemption process contained in the rule accords with the standards set out in Section 18(g)(7) of the FTC Act which provides that:

Any person to whom a rule under Subsection (a)(1)(B) of this section applies may petition the Commission for an exemption from such rule . . . Section 553 of title 5, United States Code shall apply to action under this paragraph.

Section 438.9 of the rule also addresses the factors which will be considered by the Commission in determining whether an exemption is warranted.

The Commission will consider factors such as the means available to the

state to enforce their provision, the existence of any private rights of action by an aggrieved consumer, and the "readability" of notices directed to the consumer to understand his or her rights under the state law.

In some cases, the Commission will necessarily have to balance competing considerations. For example, a state law which applies a more stringent substantive standard than the Commission's cooling-off rule (Section 438.9 of the rule) but which lacked a private right of action (either explicitly by statute or through a lack of mandated contract language) or contained inadequate notice provisions might not satisfy the general standard of "greater protection to the student."

Finally, it should be emphasized that only state or local governmental entities may request exemptions from the Commission's rule under Section 438.9. Schools and other private parties may not avail themselves of this process. The determination to grant an exemption to state law will necessarily place the primary enforcement burden back onto the state to enforce its provision. Such a decision should be made solely by the state entity involved. The only exemptions available for which schools may apply is that available under Section 18(g) of the FTC Act; i.e., should a school believe that its peculiar circumstances warrant an exemption from the rule, it may petition the Commission.

#### 8. Economic Impact on Small Businesses and Consumers.

It is difficult to assess, with any great degree of certainty, the likely effect of this trade regulation rule on small businesses. The evidence in the record in this proceeding establishes that a very high percentage of persons who enroll in vocational school courses drop out of those courses, frequently during the first few classes, or after having submitted only a few lessons. (327) In part, this high rate of early drop-outs is the direct result of the unfair and deceptive advertising and enrollment practices employed by some schools to recruit potential students. (328) For example, counsel for two of the major accrediting organizations admitted that many schools engaged in practices which negate the effectiveness of existing cooling-off periods. (329) Thus, it is likely that to the extent that this rule eliminates unfair or deceptive advertising and enrollment practices, and ensures students a full and fair cooling-off period after enrollment, the rule will have the effect of reducing the number of students who enroll in courses covered by the rule. Although the rule will thus be reducing the demand for this educational service, it will not be reducing demand among those persons who are genuinely interested in the product

and service being offered by industry schools. Rather, the rule will prevent or at least limit enrollments by persons whose enrollments have been secured through practices which violate Section 5 of the FTC Act.

Although the majority of all institutions covered by this rule would be considered "small businesses" the Commission nonetheless believes that all schools, regardless of size, should remain subject to the rule. The rule recommended by the Commission's staff would have exempted from its coverage schools which enrolled fewer than 75 enrollees in a single year. Thus, many of the smallest schools would not have been directly affected by the rule. However, considerable negative comment was submitted by other schools concerning this exemption. Some of these comments contended that the 75 student limit was arbitrary and unrealistically low. (330) Other comments claimed that the record demonstrated that the practices engaged in by schools enrolling fewer than 75 students per year did not differ substantially from larger institutions. (331) The Commission's staff recommended this exemption primarily to minimize the enforcement burden on the Commission. However, the Commission finds this reason to be insufficient to warrant an exemption in this case.

We have discussed in each section of this statement, how students and potential students will benefit from the substantive requirements of this rule—and compared these benefits to the costs and burdens imposed on schools subject to the rule. The Commission believes that these benefits significantly outweigh the costs which complying with the rule will impose on either the schools or consumers. Set out below is a brief recapitulation of the burdens and benefits deriving from the rule.

Very little additional cost is imposed on the schools by the cooling-off provision. Schools already comply with the technical requirements of federal and state cooling-off laws (although they frequently employ conduct designed to negate the effects of those protections) and the extension of this rule both in terms of time (fourteen days instead of three) and coverage (all enrollments instead of only those consummated away from the place of business of the school) will not appreciably increase present compliance costs. (332)

On the other hand, the potential student will be protected against the untoward consequences of the acceptance process and will receive a longer period of time to consider his enrollment decision and evaluate the school's track record.

The costs of making the track record disclosures are also minimal. The collection of graduation rate information and its disclosure imposes no significant economic burden on the schools. The information as to how many students graduate from a course and how many drop out is readily available and most schools already generate the information in the normal course of their operation.

Schools which make express jobs or earnings claims will usually have to incur the costs of surveying their graduates to obtain placement and earnings data. However, this information is necessary to prevent deception and to place typical jobs and earnings claims in a perspective which is meaningful to the potential student. The Commission has found that the placement record of the school is one of the most important tools a prospective student can have in evaluating his or her enrollment decision. Moreover, the information required to be disclosed by the rule is the kind of information schools must have in any event under existing law in order to substantiate a job or earnings claim. Furthermore, to the extent that schools will incur costs in gathering this information, the evidence shows that this cost will not be substantial. (333) Finally, schools can avoid survey costs entirely by not making express jobs or earnings claims.

Insofar as the substantiation requirement is concerned, the cost a school must bear is dependent upon the support which already exists for any given claim. If a reasonable basis is already available, costs will be insignificant. If no support exists, the school may have to incur the cost of conducting a survey in order to substantiate a claim it desires to make. However this is a value judgment entirely within the control of the school.

The pro rata refund requirement imposed by Section 438.4 of this rule may have the effect of decreasing the gross revenues of some institutions. However, such a reduction should only occur to the extent that unfair advertising and enrollment practices are being used. In some cases, there may be rises in course costs. Nevertheless, the evidence demonstrates that under current refund policies, drop-outs are frequently subsidizing the "stay-in-school-students," thereby permitting schools to maintain course costs below the levels which a properly functioning market would establish. (334) Thus, to the extent tuition costs may rise in some instances, that fact is likely to reflect only the true costs of educating a student through to graduation.

The benefits of imposing the pro rata refund are the elimination of incentives to engage in the harmful mar-

keting practices which the Commission has found to exist in the vocational school industry. As we have already discussed in section C(6), *supra*, the Commission believes that the pro rata refund remedy is a very effective means of preventing these marketing abuses from continuing.

#### 9. Readability of the Rule.

In this rule, the Commission has taken a major step toward the goal of writing understandable regulations. The rule requires that two notices be directed to students; the first of these is inserted in the enrollment contract, the second is mailed to the student after the enrollment contract is signed. (335) These notices explain to the student his or her cooling-off and refund rights. In addition, the rule specifies the format to be used by schools to inform potential students of the school's graduation and placement rates. (336) Each of these documents has been carefully written, and they have been reviewed by "readability" experts to help ensure that the language used is readable.

In the version of the rule recommended in the Staff Report, a similar effort had been made to ensure that the notices were readable. However, the notices recommended at that time were subjected to considerable criticism by schools who contended that the notices were unduly simplistic, negative in tone, and suggestive to students that they should drop out of the school. (337)

The notices adopted by the Commission are premised on two basic principles. First, language was employed which would impress upon the consumer the solemnity which should attend the execution, or cancellation, of a contract. Second, readability and brevity are not necessarily synonymous.

The notices which the rule requires vary with type of course, and whether or not the school makes a separate equipment charge. In all, there are eight different course options, each of which requires different language in the notices. (338) Just as the notices were drafted to be easily understood by consumers, the notices have been written so as to enable a school to read the rule and quickly ascertain precisely what conduct is required of it. Cross references and bracketed alternative language have, where possible, been eliminated. Thus, for each of the eight course options, the rule contains the complete notice required, with the optional language inserted for each case. Although such specificity increases the length of the rule it greatly enhances the ability of a school to look at the rule, and see precisely what language must be included in its notices.

#### 10. Effective Date of the Rule.

In establishing January 1, 1980, as the effective date of the rule, the Commission was cognizant of two factors. First, schools would need time to acquire graduation and placement information for their disclosure forms; second, schools would need lead time to make changes in their documents and promotional materials.

Graduation and placement information must be gathered in terms of base periods six months long. Additionally, a four month period must elapse before information from the most recent base period can be used. The effective date set by the Commission will allow schools to start with the period, January 1, 1979, through June 30, 1979, as the first base period.

The rule requires a four base period disclosure (2 years), where available for home study schools because of the longer enrollment times involved. A minimum two base period disclosure is permitted if students have enrolled only during those periods. Similarly, for residence schools without fixed class schedules, the disclosure will usually be comprised of two base periods. The rule's effective date does not provide enough time for initial disclosures covering more than one base period. Therefore, for the first six months after the effective date, those schools will have to disclose the information for only one base period even if the disclosure places the overwhelming majority of students in the "still enrolled" category. This represents a temporary deviation from the rule's standard. However, the Commission believes that, in the interim, some information is better than none at all.

The lead time permitted by the Commission should be ample for the changes which must be made in schools' documents and promotional materials. This time should also permit schools to expend or significantly reduce current supplies of non-complying materials.

#### FOOTNOTES

- 39 Fed. Reg. 29385. The rule adopted by the Commission covers only "for-profit" vocational schools and does not cover any programs offered by those schools which culminate in a standard college degree. These issues are discussed in sections B(1) and C(2), *infra*.

 80. Although student testimonials may, in some instances, reflect a generally successful placement record, experts agree that such testimonials are inherently misleading, since they do not provide the prospective enrollee with any realistic measure by which to predict his or her own potential for success. See Staff Report at 65-66.  
 81. The record shows that placement claims such as "(our) constant efforts have often resulted in far more positions than the supply of qualified graduates" are used more frequently than explicit placement percentages. See Materials from File No. 742 3161, Job and Opportunity Advertisers, Unnamed, Exhibit C-210.  
 82. See Staff Report at 66-68.  
 83. *Id.* at 68-71.  
 84. When schools' advertising does contain references to specific percentages or numbers of graduates placed and salaries obtained, students are still apt to be misled because of inherent methodological and contextual variances in such data. Because no industry-wide standards for calculating such statistics exist, each school is free to devise its own criteria as to what types of data will serve as the basis for its claims and how that data will be interpreted for advertising purposes. As a result, students not only are unable to make valid comparisons among competing schools' claims but are misled by the failure to explain the methodology underlying the statistics. See Report at 69, 383-384.

 147. *Id.* at 153-162, 285-287, 300-309.  
 148. *Id.* at 305-309. The Commission does not question the desirability of these federal assistance programs. Rather, the Commission is concerned with the manner in which these programs have been abused through various marketing mechanisms.  
 149. Of course, drop-out rates vary greatly within the industry; the home study sector as a whole experiences higher drop-out rates than does the residence school segment, and the drop-out rates of certain occupational programs and individual schools are far lower than the statistics for the industry as a whole would reflect. See Staff Report at 169-173; Presiding Officer's Report at 139-140.  
 150. See section B(6)(a), *infra*.

 171. HEW, Region IV, Audit Report—Alverson-Draughton Business College, Birmingham, Ala. (Dec. 31, 1974), Exhibit H-193; HEW, Region IV, "Task Force Review of Florida Proprietary Vocational Schools Participating in the Guaranteed Student Loan Program," Exhibit H-201. Subsequent to these findings, Congress enacted the Education Amendments of 1976, Pub. L. No. 94-482, 90 Stat. 2081 (1976), containing provisions regarding student consumer information services and authorizing the Commissioner of Education to suspend or terminate the eligibility status of any institution found to have engaged in substantial mis-

representation of the nature of its educational program, its financial charges, or the employability of its graduates. A representative of the Office of Education testified before the Commission that USOE is presently drafting regulations and implementing others addressed to these problems and is undertaking an effort to assist states in strengthening their own legal approval processes. (Testimony of John R. Proffitt, Office of Education, HEW, on January 12, 1978 at 127-130.)  
 172. See Staff Report at 200-207, 454-470.  
 173. *Id.* at 470-474. The Commission wishes to make it clear that it is not finding that adherence to the refund standards employed by the major accrediting associations, and by the Veterans Administration pursuant to 38 U.S.C. 1776(c), constitute unfair acts or practices within the meaning of Section 5 of the FTC Act. The Commission is concerned that these standards are not sufficient to dissuade schools from the unfair and deceptive practices identified in the record.

 213. *Id.* at 288-291, 311-315, 514-516. See also Education Amendments of 1976, Pub. L. No. 94-482, 90 Stat. 2081 (1976); Veterans Education and Employment Act of 1976, Pub. L. No. 94-502, 90 Stat. 2383 (1976); note 171 *supra*. While more recent legislation

does serve to strengthen Federally-assisted programs, it does not encompass the universe of schools covered by this rule. As already indicated above, the Commission does not believe that improved performance by state and private accrediting agencies, even if achieved, is sufficient to provide the scope of relief included in this rule since these agencies are not readily equipped to prevent unfair and deceptive practices.

 254. It is well established that an unfair or deceptive act or practice in violation of Section 5 of the Federal Trade Commission Act can arise from the silence of the advertiser as well as from affirmative representations. See, e.g., Fisher & DeRitis, 49 FTC 77 (1952); Stupell Enterprises, Inc. 67 FTC 173 (1965); Bantam Books, Inc. v. FTC, 275 F.2d 680 (2nd Cir. 1960), *cert. denied*, 364 U.S. 819 (1960); Kerm v. FTC, 265 F.2d 246 (10th Cir. 1959) *cert. denied*, *sub. nom.* Double Eagle Refining Co. v. FTC, 361 U.S. 818 (1959). The school need not have taken any affirmative action to create consumer misbeliefs: a violation of law may result from an advertiser or salesman's silence about a material fact concerning which consumers may make erroneous assumptions. Silence that unfairly harms the economic interests of consumers has with some frequency been the subject of other Federal Trade Commission Rules: The Failure to Post Minimum Research Octane Numbers on Gasoline Dispensing Pumps Constitutes an Unfair Trade Practice and an Unfair Method of Competition, 36 Fed. Reg. 23871 (1971); effective date stayed and plaintiff's motion for summary judgment granted in suit questioning FTC authority to promulgate TRR's National Petroleum Refiners Association v. FTC 340 F. Supp. 1343 (DDC 1972); *reversed and remanded*, 482 F.2d 672 (D.C. Cir. 1973), *cert. denied*, 415 U.S. 951 (1974); Trade Regulation Rule, Care Labeling of Textile Wearing apparel, 36 Fed. Reg. 2388 (1972);

Trade Regulation Rule Relating to Incandescent Lamps, 35 Fed. Reg. 11784 (1971); Trade Regulation Rule, Unfair or Deceptive Advertising and Labeling of Cigarettes in Relation to the Health Hazards of Smoking, 29 Fed. Reg. 8324 (1964). These rules were adopted to prevent unfairness due to the absence of information about the nature of the product. The Octane Rule, for example, found that consumers needed essential product information: In this instance, consumers faced a great variety of grades and brands of gasoline, and, absent octane disclosures, they could neither relate gasoline varieties to their automobile requirements so as to avoid engine damage, nor price-shop for gasoline. Lacking octane information, consumers often purchased gasoline of higher expense and octane quality than their automobile required. Again, the Commission found that under the circumstances, failure to disclose octane values was an unfair trade practice and so ordered their disclosure. See also Manco Watch Strap Co., Inc., 60 FTC 495 (1962); and Mohawk Refining Corp., 54 FTC 1071, 1077 (1958): "The appeal also contends that no power is conferred under the Act to require revealing statements in cases of non-disclosure unless the challenged practice also is accompanied by false statements of affirmative misrepresentation pertaining to the articles offered. This legal concept is erroneous. The Commission has plenary power to require affirmative disclosure of material facts in situations where seller silence results in deception of purchasers." *Id.*, Mohawk Refining Corp. v. FTC, 263 F.2d 818, 820 (3d Cir. 1959), *cert. denied*, 361 U.S. 814 (1959).

290. See, e.g., post-record comment of Consumer Federation of America, Exhibit Q-127 at 22.  
291. Commission decisions have held that it is an unfair and deceptive act or practice violating Section 5 of the Federal Trade Commission Act to make an advertising representation without adequate substantiation at the time the claim is first disseminated. See Pedders Corporation, 85 FTC 38, (1975); Firestone Tire and Rubber Co., 81 FTC 398 (1972), *aff'd*, 481 F.2d 246 (6th Cir. 1973), *cert. denied* 414 U.S. 1112 (1973); Pfizer, Inc. 81 FTC 23 (1972). In Pfizer, the Commission concluded that "the making of an affirmative product claim in advertising is unfair to consumers unless there is a reasonable basis for making the claim."  
292. See Section B3(a), *supra*.  
293. The requirement that a school have in its possession at the time it makes a representation, substantiating material which constitutes a reasonable basis for the claim derives from the Commission opinion in Pfizer, *supra*. The Commission in Pfizer indicated that the materials constituting the reasonable basis must exist before the time the representation is made. See 81 FTC at 64.  
294. See Section 18(a)(1)(B).

303. See section B3(b)(1), *supra*.  
304. See section B3(b)(2) and B4(a)(2), *supra*.  
305. This approach is by no means novel. In Arthur Murray Studio of Washington v. FTC, 78 FTC 434 (1971), *aff'd*, 458 F.2d 622 (5th Cir. 1972), a Commission order limiting consumers' contractual obligations to a seller to \$1500 was upheld. The Commission had found "intense, emotional and unrelenting sales pressure to persuade a prospect or student to sign a long-term contract and that such a person is insistently urged, caajoled, and coerced to sign a contract hurriedly and precipitatedly through use of persistent and emotionally forceful sales presentations which are often of several hours' duration." *Id.* at 439. The Commission justified the remedy of limiting the contractual obligation stating: "The greater

the gains or rewards respondents will reap, the greater their incentive will be to engage in these practices or to devise more elaborate methods to accomplish the desired end."

308. *Id.*  
309. See, e.g., post-record comment of International Correspondence Schools, Exhibit Q-49 at 4; post-record comment of TMI Communications, Inc., Exhibit Q-104.  
310. See, e.g., post-record comment of Columbia School of Broadcasting, Exhibit Q-31 at 4; post-record comment of Nat'l Association of Cosmetology Schools, Exhibit Q-76 at 4.  
311. See, e.g., post-record comment of Cleveland Institute of Electronics, Exhibit Q-29 at 9.  
312. Presiding Officer's Report at section VI.  
313. See, e.g., post-record comment of ICS, Exhibit Q-49.  
314. See Staff Report, Part II, section IV(EX)(C).  
314a. Schools which are doing a good job of placing their graduates should have a better opportunity to attract students than at present, since employment data are not now required to be kept in any comparable fashion. Accordingly, advertising and recruitment costs may decline for some schools.  
315. See Presiding Officer's Report at 201. Of course, during the transitional period immediately following promulgation of this rule some uncertainty will exist until experience has been gained in the new regulatory environment. However, this will be only a temporary difficulty.  
316. See Section 438.4 of the rule.  
317. See, e.g., post-record comment of NATTS, Exhibit Q-77 at 19-22, 34, 41-42.  
318. The right to return equipment under the rule, and receive a pro rata refund on its cost, is not dependent upon the condition of the equipment when returned. The alternative would be to require that the student return the equipment in "usable" or "resalable" condition. Similar enforcement and interpretive problems would attend the imposition of such standards as arise in the determination of "fair market retail value."  
319. The refund policies of AICS and NHSC have no equipment exceptions. These policies and those in the states are detailed in the Staff Report, Part I, section VI(B).  
320. See section 438.4(c) of the rule.  
321. See Staff Report at 347.  
322. See, e.g., post-record comment of Automation Academy, Exhibit Q-19; post-record comment of NHSC, Exhibit Q-79 at 43-44, 86-91.  
323. See, e.g., post-record comment of A.B.C. Training Center, Exhibit Q-02 at 1; post-record comment of Advanced Career Training, Exhibit Q-04 at 3; post-record comment of AICS, Exhibit Q-15 at 82; post-record comment of NATTS, Exhibit Q-77 at 32-35.  
324. 15 U.S.C. § 2301 *et seq.*  
325. Section 111(c)(2) of Title I of the Magnuson-Moss Act.  
326. Section 109 of Title I of the Magnuson-Moss Act.  
327. See Section B(5)(a), *supra*.  
328. These practices are catalogued at sections B (4) and (5), *supra*.

329. Testimony of Bernard Ehrlich, counsel to National Association of Trade and Technical Schools and National Home Study Council, at Tr. 9392.

330. See, e.g., post-record comments of Association of Independent Colleges and Schools, Exhibit Q-15 at 22-24; post-record comment of Laurel Beauty Academy, Exhibit Q-60 at 36; and post-record comment of Southwestern Institute, Inc., Exhibit Q-99.

331. See, e.g., post-record comment of Chester Institute for Technical Education, Exhibit Q-26 at 3; post-record comment of Cleveland Institute of Electronics, Exhibit Q-29 at 6; post-record comment of Control Data Institute, Exhibit Q-33 at 6-7; post-record comment of National Association of Trade and Technical Schools, Exhibit Q-77 at 23-24; and post-record comment of San Francisco Consumer Action, Exhibit Q-160 at 36.

332. Many schools are already under an obligation to give written cooling-off notices to satisfy the existing requirements of the Commission's cooling-off rule (16 CFR Part 429). The rule will, however, impose the additional cost of postage because schools must now mail the disclosure to the student rather than delivering it at the time the student signs the enrollment contract.  
333. See Staff Report at 252-54; Presiding Officer's Report at 92. Since the placement disclosures are included in the same envelope as the cancellation notice, no additional costs will be incurred.  
334. *Id.* at Part I, Section VI(C).  
335. See Sections 438.5 and 438.6.  
336. See Appendices A-C to 16 C.F.R. Part 438.

337. E.g., post-record comment of Atlanta College of Business, Exhibit Q-18 at 2-3; post-record comment of ITT Educational Services, Inc., Exhibit Q-50 at 27-28; post-record comment of National Home Study Council, Exhibit Q-79 at 119.  
338. The rule categorizes four basic kinds of courses: correspondence courses, residence courses which have fixed-class schedules, residence courses which do not have fixed-class schedules, and combination courses. Each of these four types of courses is varied by whether the school makes a separate equipment charge for the course.  
Subchapter D of Chapter 1 of Title 16 of the Code of Federal Regulations is amended by adding Part 438 to read as follows:

Sec.  
438.0 The Rule.  
438.1 Definitions.  
438.2 Enrollment and cooling-off period.  
438.3 Disclosure of graduation and placement rates.  
438.4 Cancellation and refund procedures after cooling-off period.  
438.5 Contract notice.  
438.6 Notice to be mailed.  
438.7 Advertising disclaimers.  
438.8 Miscellaneous requirements.  
438.9 Preemptive effect of the rule.  
438.10 Effective date of the rule.

Appendices A through S.

AUTHORITY: 38 Stat 717, as amended (15 U.S.C. 41, *et seq.*).

#### § 438.0 The Rule

In connection with the sale or promotion of any course in or affecting commerce, it is an unfair or deceptive

act or practice for any school to fail to comply with the requirements set forth in §§ 438.2 through 438.8 of this Part.

#### § 438.1 Definitions

For the purposes of this Rule, the following definitions shall apply:

(a) *Prospective student.* A "prospective student" is any person who seeks to enroll in a course but does not include any person whose enrollment has been sponsored or required by a government agency, charitable organization, labor union, school (other than the school in which enrollment is being made), or the person's employer, when that agency, organization, union, school or employer has identified and selected the course to be taken.

(b) *Student.* A "student" is any person who has signed an enrollment contract with a school and not cancelled that contract before the cooling-off period specified in § 438.2 of this rule has ended.

(c) *Course.* (1) The term "course" means a residence, correspondence or combination program of study, education, training, or instruction consisting of a series of lessons, and/or classes which are coordinated, arranged, or packaged to constitute a curriculum or program of instruction and sold collectively, so long as the course purports to prepare or qualify individuals, or improve or upgrade the skills individuals need, for employment in any specific occupation, trade, or in job positions requiring mechanical, technical, business, trade, artistic, supervisory, clerical or other skills.

(2) The term "course" shall not be construed to include high school equivalency courses or general self-improvement courses which do not purport to offer training necessary to obtain employment in a specific skill or trade.  
(3) The term "course" shall not be construed to include a program two years in length or longer which consists of accredited college level instruction that culminates in a standard college degree, as defined in 38 U.S.C. 1652(g), as amended.

(4) The term "course" shall not be construed to include any course whose total contract price is less than one hundred dollars (\$100), provided that the student has not enrolled in any other course with that school during the calendar year and that the school does not offer any other "course" as defined by this paragraph, for one hundred dollars (\$100) or more.

(d) *Total contract price.* The "total contract price" is the total price paid or to be paid by the student for the property or services which are the subject of the enrollment contract, including charges for registration, ancillary

services and any finance charges determined in accordance with the Federal Reserve Board's Regulation Z (12 CFR 226.4). Any equipment which the school provides to the student must be included within the total contract price unless the school discloses in the enrollment contract and the notice required by § 438.6 of this rule, the price being charged for the equipment. If the equipment is provided at different points in time during the duration of the contract, the amount being charged for each installment of equipment must be disclosed in the enrollment contract.

(e) *School.* A "school" is any person, partnership or corporation engaged in the operation of a privately owned school, studio, institute, office or other facility which offers residence, correspondence or combination courses.

(f) *Graduate.* A "graduate" is any student who fully completes all of the lessons or classes required by the school and discharges any other requirements or obligations established by the school as prerequisites for completing the full course of study.

(g) *Fail to complete.* Any student who does not fully complete all of the lessons or classes required by the school as constituting the full course of study and who cancels by any of the methods prescribed in § 438.4(a) of the Rule shall be deemed to have "failed to complete" his or her course.

(h) *Actively enrolled.* Any student who is neither a graduate nor has failed to complete his or her course of study shall be deemed to be "actively enrolled."

(i) *Base period.* A "base period" is a six-month period from January 1 through June 30, or from July 1 through December 31.

(j) *Most recent base period.* The "most recent base period" is the latest base period, not including any base period that ended within six months of the time the disclosures are required to be made pursuant to § 438.3(a) of this Rule.

(k) *Most recent graduating class.* The "most recent graduating class" is the class of graduates which most recently completed its course, but does not include any graduating class which completed its course within six months of the time the disclosures required by § 438.3(b)(1) are to be made.

(l) *New Course.* A "new course" is any course which has substantially different course content and occupational objectives from any course previously offered by the school and which has been offered for a period of time less than six (6) months since:

(1) the graduation of one class or the completion of one base period, whichever is later, if a residence course; or

(2) the completion of two (2) base periods, if a correspondence school course.

All courses offered by new schools, which otherwise meet the requirements of paragraph (1) (1) or (2) of this section shall be considered to be new courses.

(m) *Combination course.* A "combination course" is any course that consists of both correspondence lessons and residence classes.

(n) *Constructive notice.* A student shall be deemed to have provided "constructive notice" of his or her intention to withdraw from a course:

(1) For residence courses with fixed class schedules or the equivalent portion of a combination course, by failing to attend residence instructional facilities for a period of five consecutive days on which that class meets;

(2) For residence courses without fixed class schedules, or the equivalent portion of a combination course, by failing to attend residence classes or failing to utilize residence instructional facilities for a period of sixty (60) consecutive days;

(3) For correspondence courses of instruction, or the equivalent portion of combination course, by failing to submit a lesson for a period of 120 consecutive days.

(o) *Course with/without a fixed class schedule.* A "course without a fixed class schedule" is a residence course which does not have precise dates for class admissions, where enrollees do not attend classes by a prearranged schedule, or where there is not a precise graduation date and in which the financial obligation of enrolled students is determined by the number of lessons they have actually attended. Any other residence course shall be deemed to be a "course with a fixed class schedule."

(p) *Enrollment contract.* An "enrollment contract" is any agreement or instrument, however named, which creates or evidences an obligation binding a student to purchase a course from a school, provided that the agreement or instrument is entered into after the effective date of this trade regulation rule.

(q) *Job or earnings claim.* A "job or earnings claim" is any general or specific job or earnings claim.

(r) *General job or earnings claim.* A "general job or earnings claim" is any express claim or representation concerning the general conditions or employment demand in any employment market now or at any time in the future or the amount of salary or earnings generally available to persons employed in any occupation.

(s) *Specific job or earnings claim.* A "specific job or earnings claim" is any express claim or representation concerning the employment opportunities

available to students or the demand for students who purchase the school's course, or the amount of salary or earnings available to students who purchase the school's course.

(t) *Media advertisement.* A "media advertisement" is any advertisement disseminated to the public by means of print or broadcast media, including newspapers, magazines, radio, television, posters, or any other means. It does not include promotional materials that are mailed by a school or distributed by its sales representatives.

(u) *Equipment.* The term "equipment" includes any tools or other devices delivered to the student for use in the course but does not include records, tapes, slides, film, books, or any other written course materials.

#### § 438.2 Enrollment and Cooling-Off Period.

(a) The school must give the prospective student a completed copy of the enrollment contract at the time the prospective student signs the contract or upon the school's receipt of an enrollment contract completed entirely by mail. The enrollment contract must be written in the same language as the oral sales presentation, if any, made by the school and must contain the name and address of the school.

(b) The school must place on the enrollment contract the explanation of the prospective student's cooling-off rights contained in the notice entitled "CANCELLING THIS CONTRACT" required by § 438.5 of this rule. If the school does not place the "CANCELLING THIS CONTRACT" notice on the front page of the enrollment contract, the school must place on the front page the following notice: "An explanation of your cancellation and refund rights is on page of this contract." This notice must be printed in boldface type.

(c) After the school has accepted the enrollment contract of the prospective student, the school must mail to the prospective student the disclosure of the school's graduation rate, and placement rate if applicable, required by § 438.3 of this rule. In the same envelope used to mail that notice to the prospective student, the school must also mail to the prospective student, on a separate sheet of paper, the notice entitled "HOW TO CANCEL THIS CONTRACT" required by § 438.6 of this rule.

(d) If a prospective student cancels the enrollment contract during the period described in the notices required by § 438.5 and § 438.6 the school must refund all payments made by the prospective student and cancel and return any evidence of indebtedness within fourteen days after receiving any notice of cancellation. If a school fails to comply with § 438.5 and § 438.6,

it shall not retain any money or evidence of indebtedness from a prospective student for that course.

(e) If a residence school provides a prospective student with equipment during the cooling-off period, it must disclose the amount being charged for that equipment in the notice of cooling-off rights required by § 438.5 and § 438.6 of the rule. If the prospective student cancels his or her enrollment contract during the cooling-off period, and returns the equipment to the school within twenty (20) days from the date of cancellation, no charge may be made by the school for the equipment. If, however, the student fails to return the equipment within the twenty (20) day period, the school may retain the amount disclosed.

Any equipment provided to a student by a correspondence school during the cooling-off period, may be retained by the student without charge if the student cancels during the cooling-off period.

#### § 438.3 Disclosure of graduation and placement rates.

(a) On the Disclosure Form entitled "How Our Students Are Doing", described by paragraph (e) of this Section, a school shall disclose its graduation rate for the course that is the subject of the enrollment contract in the following manner:

(1) For residence courses with fixed class schedules, the school shall disclose these figures for its most recent graduating class:

- (i) the number of students;
- (ii) the number and percentage of students who graduated;
- (iii) the number and percentage of students who failed to complete;

*Provided that, if a course has more than one graduating class during its most recent base period (as defined in § 438.1(j)), the school may disclose its graduation rate in accordance with paragraph (a)(2).*

(2) For residence courses without fixed class schedules, the school shall disclose these figures for individuals who became students during the school's most recent two base periods or most recent base period if individuals only became students during that period:

- (i) the number of students;
- (ii) the number and percentage of those students who graduated;
- (iii) the number and percentage of those students who failed to complete during that time;
- (iv) the number and percentage of those students who remained actively enrolled at the end of that time.

(3) For correspondence or combination courses, the school shall disclose these figures for individuals who became students during the school's most recent four base periods, or most

recent two or three base periods if individuals only became students during those periods:

- (i) the number of students;
- (ii) the number and percentage of those students who graduated;
- (iii) the number and percentage of those students who failed to complete during that time;
- (iv) the number and percentage of those students who remained actively enrolled at the end of that time.

(4) For new courses (as defined in § 438.1(i)), the school shall make the following disclosure:

Since this course is new, we are not able to give you information on the graduation or placement rates of our students, or the amount of money you might earn after completing this course. As an alternative, we suggest you talk to a job counselor or state employment office about your chances of finding a job in the field we train you for. They will have current information on job opportunities in the area where you live. In addition, they can offer you information on starting salaries and requirements for prior work experience.

*Provided, however, that a new course with respect to which no general job or earnings claim is made may make the following disclosure:*

Since this course is new, we are not able to give you information on the graduation rate of our students.

(5) A school may, at its option, include the following statement on the Disclosure Form in the manner shown on Appendices A-C.

In evaluating these figures, you should know that students may drop out of a course for a variety of reasons. These range from dissatisfaction with the course to inability to do the work. Other students drop out of school for personal reasons.

(b) If a school makes a job or earnings claim for a course other than a new course, the school shall disclose the following placement information on the Disclosure Form entitled "How Our Students Are Doing," described by paragraph (e) of this section for each course that is the subject of the enrollment contract:

(1) For residence courses with fixed class schedules, the school shall disclose these figures for its most recent graduating class:

- (i) the number and percentage of graduates who obtained employment in jobs for which the course prepared them within four months of leaving the course;
- (ii) the number and percentage of these graduates by their yearly gross salary, in increments of two thousand dollars (\$2,000);
- (iii) the number and percentage of these graduates who refused to provide salary information.

*Provided that, if a course has more than one graduating class during its most recent base period (as defined in*

§ 438.1(j)), the school may disclose its placement rate in accordance with paragraph (b)(2).

(2) For residence courses without fixed class schedules, the school shall disclose these figures for individuals who became students during the school's most recent two base periods, or most recent base period if individuals only became students during that period:

- (i) the number and percentage of graduates who, within four months of leaving the course, obtained employment in jobs for which the course prepared them;
- (ii) the number and percentage of these graduates by their yearly gross salary, in increments of two thousand dollars (\$2,000);
- (iii) the number and percentage of these graduates who refused to provide salary information.

(3) For correspondence or combination courses, the school shall disclose these figures for individuals who became students during the school's most recent four base periods or most recent two or three base periods if individuals only became students during those periods:

- (i) the number and percentage of graduates who, within four months of leaving the course, obtained employment in jobs for which the course prepared them;
- (ii) the number and percentage of these graduates by their yearly gross salary, in increments of two thousand dollars (\$2,000);
- (iii) the number and percentage of these graduates who refused to provide salary information.

(4) A school may, at its option, include the following statement on the Disclosure Form in the manner shown in Appendices A-C:

In evaluating our record, remember not all of our students took this course to get a job in the field of [school to insert area of training]. Also, we were unable to reach some of our graduates to see if they got jobs. So, our placement percentage might be understated.

(c) The disclosure specified by paragraph (b) of this section must be based on the school's actual knowledge of its students' experiences. Actual knowledge shall be verified, at a minimum, by a list that includes the following information for each student who is counted as obtaining employment in a job for which the course prepared him or her:

- (1) the student's name and address (or telephone number);
- (2) the employer's name;
- (3) the name or title of the job obtained;
- (4) information that indicates that the job was obtained within four (4) months of leaving the course; and

(5) the student's annual gross salary expressed in increments of two thousand dollars (\$2,000), or an indication of the student's refusal to provide such salary information.

(d) No school shall make any specific job or earnings claim for a new course.

(e) The information required or permitted to be disclosed under paragraphs (a) and (b) of this section shall be contained in a Disclosure Form entitled "How Our Students Are Doing." The Disclosure Form shall contain no other information or representations. The name of the school and the course shall appear at the top of form, immediately below the title of the form. The format of this notice must conform to the examples set forth in Appendices A-C, including the same capitalization and underlining of words. This form must be mailed to all prospective students who have signed enrollment contracts. It must be mailed in the same envelope as the notice explaining the prospective student's cancellation, cooling-off and refund rights required by § 438.6 of this rule. No other materials may be included in that envelope.

(f) If a school makes a general job or earnings claim or a specific job or earnings claim that is not substantiated by the Disclosure Form required by paragraph (e) above, the school must possess a reasonable basis for each such claim at all times that the claim is made and the school must not know or have reason to know of facts which would make the claim inapplicable to the school, its enrollees or a particular geographical area served by the school. A "reasonable basis" shall consist of a statistically valid and reliable survey which substantiates the claim.

(1) Nothing in paragraph (f) above shall be construed as prohibiting schools from making jobs or earnings claims which are substantiated by projections from the "Occupational Outlook Handbook" published by the Bureau of Labor Statistics or by similar projections published by other federal or state agencies. However, when such claims are contained in non-media advertising, the schools must clearly and conspicuously disclose in immediate conjunction with the claim, any limitations, restrictions or caveats accompanying or made applicable to those projections in their original source.

(2) A school shall maintain records adequate to disclose the facts upon which each claim covered by this paragraph is based. Such records shall be maintained for three years from the date the claim is made, and, after compliance with any applicable federal law concerning the privacy or confidentiality of student records, shall be made available for inspection and copying by Federal Trade Commission

officials upon reasonable notice and during regular business hours.

#### § 438.4 Cancellation and Refund Procedures After Cooling-Off Period.

(a) After the cooling-off period provided for in § 438.2 has ended, a student may cancel his or her enrollment in the course by written notification to the school. Cancellation by the student is effective on the date the student mails or delivers written notification to the school or on the date that the student gives the school constructive notice (as defined in § 438.1(n)) of his or her intention to withdraw from the course.

(b) If a student gives the school written notice of his or her intention to remain enrolled in a course, the time period for measuring constructive notice will begin anew from the date of the written notice. Any previous cancellation by virtue of the student's constructive notice will not be effective if the student provides this written notice of his or her intention to remain enrolled.

(c) If a student cancels his or her enrollment contract after the cooling-off period, the school shall not receive, demand, or retain more than a pro rata portion of the total contract price plus a registration fee in the amount of \$25 or 10% of the total contract price (not to exceed \$75) whichever is greater. This total obligation shall not be more than the total contract price. The pro rata portion shall be calculated in the following manner:

(1) Courses for which the school does not make any separate equipment charge:

(i) the school must calculate the number of classes or hours held in a residence course with a fixed class schedule, the number of classes or hours attended by the student at a residence course without a fixed class schedule, or the lessons sent in by the student for a correspondence course before the student's cancellation;

(ii) this number must be divided by the total number of classes, hours or lessons required to complete the course; and

(iii) the resulting number shall be multiplied by the total contract price.

(2) Courses for which the school does make a separate equipment charge:

(i) the school must calculate the number of classes or hours held in a residence course with a fixed class schedule, the number of classes or hours attended by the student at a residence course without a fixed class schedule, or the lessons sent in by the student for a correspondence course before the student's cancellation;

(ii) this number must be divided by the total number of classes, hours or

lessons required to complete the course; and

(iii) if a student returns to the school within 21 days of withdrawing from a course all of the equipment provided by the school, the school must add the cost of this equipment (as disclosed in § 438.1(d)) to the total contract price. This figure should then be multiplied by the figure calculated in paragraph (2)(ii) above.

If the student does not return the equipment within 21 days to the school, the school may retain the full amount of the equipment charge plus the pro rata portion of the total contract price.

(3) For combination courses, the school must designate separate prices for the residence and correspondence portions of the course in the enrollment contract, and the pro rata portion of the total contract price shall be the sum of the separate pro rata obligations for the residence portion and the correspondence portion.

(d) If a school had not made a separate charge for equipment, the school must within twenty-one (21) days of the date of cancellation provide the student with the correct refund payment, if any, or must cancel that portion of the student's indebtedness that exceeds the amount due to the school. However, if a school had made a separate charge for equipment provided to the student and the student has cancelled by constructive notice (see § 438.1(n) for a definition of this term) the school must send the following notice to the student:

Dear \_\_\_\_\_: Our records show that you have not [submitted lessons] [attended classes] for [school insert (120) for correspondence courses, (5) for residence courses with fixed class schedules or (60) for residence courses without fixed schedules] consecutive days, so we have canceled your contract. If you want to stay in this course fill in the information at the bottom of this letter and return it to us.

If you decide to cancel this contract with us, you can keep the equipment we sent you or return it to us. If you keep this equipment, you will owe us the total cost. This comes to \_\_\_\_\_. Here is how we figured this amount:

| Description of Equipment | Delivery Date                 | Cost    |
|--------------------------|-------------------------------|---------|
| Ohmmeter.....            | (Date or installment number). | \$32.10 |

If you decide to return this equipment, you will receive a partial refund of the cost based on the percentage of the course you completed before you dropped out. But to get this refund, you must return this equipment to us within twenty-one (21) days from the date of this letter. Send this equipment to the following address:

Before making a decision on whether or not to return this equipment, you should review the section of your contract that explains how we settle your account.

School \_\_\_\_\_  
Address \_\_\_\_\_  
Dear Sirs: I want to continue taking this course. Please do not cancel my contract.

\_\_\_\_\_  
Date \_\_\_\_\_  
\_\_\_\_\_  
Student's Signature \_\_\_\_\_

In the event that a school has made a separate charge for equipment, the school must provide the student with the correct refund payment, or cancel the excess indebtedness, within 42 days from the date it mails the above notice to the student.

#### § 438.5 Contract notice.

(a) The school must include in the enrollment contract the following notice. The same method of capitalization and underlining of words used in the notices set forth below must be used by the school. All subtitles in the notices must be in boldface type. The title of the notice "CANCELLING THIS CONTRACT" must be in all capitals with boldface type.

(1) For correspondence courses without a separate equipment charge, the notice set forth in Appendix D;

(2) For correspondence courses with a separate equipment charge, the notice set forth in Appendix E;

(3) For residence courses without fixed class schedules without a separate equipment charge, the notice set forth in Appendix F;

(4) For residence courses without fixed class schedules with a separate equipment charge, the notice set forth in Appendix G;

(5) For residence courses with fixed class schedules without a separate equipment charge, the notice set forth in Appendix H;

(6) For residence courses with fixed class schedules with a separate equipment charge, the notice set forth in Appendix I;

(7) For combination courses without a separate equipment charge, the notice set forth in Appendix J; and

(8) For combination courses with a separate equipment charge, the notice set forth in Appendix K.

(b) If a residence school has classes of varying length and calculates its students' financial obligations on an hourly basis the school must substitute the word "hour" for the word "class" in the notices required by paragraphs (a)(3) through (a)(8).

#### § 438.6 Notice to be mailed.

The school must mail to the prospective student the following notice after the school has accepted the enrollment contract of the prospective student. The same method of capitalization and underlining of words used in notices set forth below must be used by the school. All subtitles in the notice must be in boldface type. The

title of the notice "HOW TO CANCEL YOUR CONTRACT" shall be in all capitals with boldface type.

(a) For correspondence courses without a separate equipment charge, the notice set forth in Appendix L;

(b) For correspondence courses with a separate equipment charge, the notice set forth in Appendix M;

(c) For residence courses without fixed class schedules without a separate equipment charge, the notice set forth in Appendix N;

(d) For residence courses without fixed class schedules with a separate equipment charge, the notice set forth in Appendix O;

(e) For residence courses with fixed class schedules without a separate equipment charge, the notice set forth in Appendix P;

(f) For residence courses with fixed class schedules with a separate equipment charge, the notice set forth in Appendix Q;

(g) For combination courses without a separate equipment charge, the notice set forth in Appendix R;

(h) For combination courses with a separate equipment charge, the notice set forth in Appendix S.

#### § 438.7 Advertising Disclaimers

(a) If a school makes any job or earnings claims for any course in a media advertisement, the school must include the following disclaimer in this advertisement:

Graduation from this course does not insure that you will get a job. To find out how our graduates have done, send for our job placement record.

(b) If a school makes any written job or earnings claims about any course, other than a media advertisement, the school must include in that document full disclosures of the school's graduation and placement rates require by Section 438.3 (a) and (b).

(c) If a school makes any general job or earnings claims for a new course, that school must make the following disclosure in lieu of those required in paragraphs (a) and (b):

(1) in media advertisements:

Since this course is new, we are not able to tell you about the experience of our students in getting jobs.

(2) all other, non-media, advertisements:

Since this course is new, we are not able to give you information on the graduation or placement rates of our students, or the amount of money you might earn after completing this course. As an alternative, we suggest you talk to a job counselor or state employment office about your chances of finding a job in the field we train you for. They will have current information on job opportunities in the area where you live. In addition, they can offer you information on starting salaries and requirements for prior work experience.

#### § 438.8 Miscellaneous requirements.

(a) The school may not include in the enrollment contract or any other document a waiver of any of the rights or obligations created by this rule. No oral waiver of any of these rights or obligations shall be effective.

(b) The notices and disclosures required by § 438.5 and § 438.6 must be written in a least 10-point type, and except as indicated in the Appendices required by those sections, must not be in all capital letters. The notices must be written in the same language as the oral sales presentation, if any, made by the school.

#### § 438.9 Preemptive effect of the rule

This trade regulation rule preempts any provision of any state law, rule, or regulation which is inconsistent with or otherwise frustrates the purpose of the provisions of this trade regulation rule, except where the Commission has exempted such a state or local law, rule or regulation. If, upon, application of any appropriate state or local governmental agency, the Commission determines that the state statutory or regulatory provision affords greater protection to students than the comparable provision of the Commission's rule then the state requirement will be applicable to the extent specified in the Commission's determination on the exemption application. Any exemption application filed under this section should address the following factors:

(a) the substantive protection offered by the comparable state provision;

(b) the readability of the consumer notices used to explain to the student or prospective student his or her rights under the provision (where applicable);

(c) the availability of self-help remedies to the student or prospective student to enforce his or her rights (e.g., the existence of contractual rights through mandated contractual language); and

(d) the forms of relief and redress available to enforce the state provision.

Any Commission decision to grant an exemption request from a state or local governmental entity shall be conducted under Section 553 of title 5, United States Code.

#### § 438.10 Effective date of the rule.

The effective date of the Rule will be January 1, 1980. Disclosures required by § 438.3 shall be made on the basis of base periods beginning January 1, 1979. Until such time has elapsed as to permit schools to make disclosures on the basis of the minimum number of base periods required for them under § 438.3, such disclo-

tures shall be made on the basis of the number of base periods actually completed (plus six months) during the period beginning January 1, 1979.

#### APPENDIX A

##### CORRESPONDENCE COURSE

##### How Our Students Are Doing

[School Name] \_\_\_\_\_  
Course \_\_\_\_\_

This form has been prepared to give students and their families important background information to use in evaluating the performance of our school.

##### Graduation Record—From \_\_\_\_\_ To \_\_\_\_\_

|                                          |     |      |
|------------------------------------------|-----|------|
| Number of students enrolled.....         | 100 | 100% |
| 50 students graduated.....               | 50  | 50%  |
| 30 students did not finish the course... | 30  | 30%  |
| 20 students are still enrolled.....      | 20  | 20%  |

In evaluating these figures, you should know that students may drop out of a course for a variety of reasons. These range from dissatisfaction with the course to inability to do the work. Other students drop out of school for personal reasons, such as poor health.

##### Placement and Earnings Record

Since we made job placement or earnings claims in promoting this course, we have prepared our record in these areas for your review. As the Graduation Record pointed out, 50 students graduated from this course from \_\_\_\_\_ to \_\_\_\_\_. We found that 38 or 76% of these 50 graduates got jobs in the field of \_\_\_\_\_ within 4 months of their graduation. A breakdown of the starting salaries for these graduates is summarized below:

| Starting salary        | Number of students | Percent of total |
|------------------------|--------------------|------------------|
| \$6000-\$7999.....     | 9                  | 24               |
| \$8000-\$9999.....     | 11                 | 29               |
| \$10,000-\$11,999..... | 7                  | 18               |
| \$12,000-\$13,999..... | 9                  | 24               |
| Refused to tell.....   | 2                  | 5                |
|                        | 38                 | 100%             |

In evaluating our record, remember not all of our students took this course to get a job in the field of \_\_\_\_\_. Also, we were unable to reach some of our graduates to see if they got jobs. So, our placement percentage might be understated.

#### APPENDIX B

##### RESIDENCE COURSE WITHOUT FIXED-CLASS SCHEDULES

##### How Our Students Are Doing

[School Name] \_\_\_\_\_  
Course \_\_\_\_\_

This form has been prepared to give students and their families important background information to use in evaluating the performance of our school.

##### Graduation Record—From \_\_\_\_\_ To \_\_\_\_\_

|                                          |     |      |
|------------------------------------------|-----|------|
| Number of students enrolled.....         | 100 | 100% |
| 50 students graduated.....               | 50  | 50%  |
| 30 students did not finish the course... | 30  | 30%  |
| 20 students are still enrolled.....      | 20  | 20%  |

In evaluating these figures, you should know that students may drop out of a course for a variety of reasons. These range from dissatisfaction with the course to inability to do the work. Other students drop out of school for personal reasons, such as poor health.

#### Placement and Earnings Record

Since we made job placement or earnings claims in promoting this course, we have prepared our record in these areas for your review. As the Graduation Record pointed out, 50 students graduated from this course from — to —. We found that 38 or 76% of these 50 graduates got jobs in the field of — within 4 months of their graduation. A breakdown of the starting salaries for these graduates is summarized below:

| Starting salary   | Number of students | Percent of total |
|-------------------|--------------------|------------------|
| \$6,000-\$7,999   | 9                  | 24               |
| \$8,000-\$9,999   | 11                 | 29               |
| \$10,000-\$11,999 | 7                  | 18               |
| \$12,000-\$13,999 | 9                  | 24               |
| Refused to tell   | 2                  | 5                |
|                   | 38                 | 100              |

In evaluating our record, remember not all of our students took this course to get a job in the field —. Also, we were unable to reach some of our graduates to see if they got jobs. So, our placement percentage might be understated.

#### APPENDIX C

##### RESIDENCE COURSES WITH FIXED-CLASS SCHEDULE

#### How Our Students Are Doing

[School Name] \_\_\_\_\_  
Course —

This form has been prepared to give students and their families important background information to use in evaluating the performance of our school.

Graduation Record—For the Class Graduating on —

|                                       |     |      |
|---------------------------------------|-----|------|
| Number of students enrolled           | 100 | 100% |
| 60 students graduated                 | 60  | 60%  |
| 40 students did not finish the course | 40  | 40%  |

In evaluating these figures, you should know that students may drop out of a course for a variety of reasons. These range from dissatisfaction with the course to inability to do the work. Other students drop out of school for personal reasons, such as poor health.

#### Placement and Earnings Record

Since we made job placement or earnings claims in promoting this course, we have prepared our record in these areas for your review. As the Graduation Record pointed out, 60 students graduated from this course from — to —. We found that 38 or 63% of these 60 graduates got jobs in the field of — within 4 months of their graduation. A breakdown of the starting salaries for these graduates is summarized below:

| Starting salary   | Number of students | Percent of total |
|-------------------|--------------------|------------------|
| \$6,000-\$7,999   | 11                 | 24               |
| \$8,000-\$9,999   | 11                 | 29               |
| \$10,000-\$11,999 | 7                  | 18               |
| \$12,000-\$13,999 | 9                  | 24               |
| Refused to tell   | 2                  | 5                |
|                   | 50                 | 100%             |

In evaluating our record, remember not all of our students took this course to get a job in the field of —. Also, we were unable to reach some of our graduates to see if they got jobs. So, our placement percentage might be understated.

#### APPENDIX D

##### CANCELLING THIS CONTRACT

This notice explains your rights and responsibilities concerning cancellation of this contract.

##### Automatic Cancellation

This contract is automatically cancelled and you do not owe us any money if the following two (2) forms are not mailed to you.

##### How Our Students Are Doing

Tells you how many students complete the course (for schools making job or earnings claims insert "and the placement rate of our graduates")

##### How To Cancel Your Contract

Provides information on how to cancel this contract. Also, this form describes how we figure what is owed for students who have already begun the course.

##### Your Right To Cancel

If you decide not to take this course, you have fourteen (14) days to cancel this contract and get a full refund. The fourteen days start on the day we mail these forms. The *How To Cancel Your Contract* form shows you when the fourteen days are up. To cancel, you must sign the bottom of this contract or the *How To Cancel Your Contract* form we are sending you, put on the date and mail this contract or the form to us no later than midnight of the fourteenth day.

You can also cancel this contract by sending us a letter no later than midnight of the fourteenth day. Be sure to date and sign your letter. If possible, keep a copy. Your contract will be cancelled the day you mail this letter.

##### Settling Your Account

If you cancel this contract before the fourteen (14) day period is over, we will refund any money you have paid us within two (2) weeks from the day we receive your cancellation.

If you cancel this contract after the fourteen (14) day period, you may owe us some money. To determine the exact amount, we multiply the price for each lesson by the number of lessons you sent in and add a \$— registration fee. We compare this to what you have paid to see if you are entitled to a refund or owe us additional money. The price for each lesson is figured by dividing the \$— course cost by the — lessons in the course. If you are entitled to a refund, we will send it to you within twenty one (21) days from the day you cancel.

If you do not send in any lessons for 120 straight days at any point during the course, we will cancel your contract. But you will be given an opportunity to apply for reinstatement by writing to us that you wish to continue.

I have changed my mind and want to cancel this contract.

You can also cancel this contract by sending us a letter no later than midnight of the fourteenth day. Be sure to date and sign your letter. If possible, keep a copy. Your contract will be cancelled the day you mail this letter.

##### Equipment

A description of the equipment we will send you and the installment charges are summarized below:

| Item          | Delivery date         | Cost    |
|---------------|-----------------------|---------|
| Ohmmeter      | 1/13/78 (or lesson —) | \$32.00 |
| Circuit board | 2/31/78 number)       | \$20.00 |

##### Settling Your Account

If you cancel this contract before the fourteen (14) day period is over, we will refund any money you have paid us. This money will be paid within two (2) weeks from date your contract is cancelled.

If you cancel this contract after the fourteen (14) day period, you may owe us some money. Keep in mind that if you return the equipment we delivered, you pay for a proportion of its cost. Your payment is based

on the number of lessons you sent in. When you keep the equipment, you pay for its full cost.

If you return the equipment we delivered, we add the \$— course cost and the cost of the equipment delivered. We divide this total by the — lessons in the course to get a cost per lesson.

We multiply this cost per lesson by the number of lessons you sent in and add a \$— registration fee. The total is compared to what you paid to see if you are entitled to a refund or owe us additional money.

If you fail to return this equipment within twenty-one (21) days from the date this contract is cancelled, we divide the \$— course cost by the lessons in the course. This gives us a price per lesson of \$—. We multiply this price per lesson by the number of lessons you sent in. Finally, we add the cost of the unreturned equipment and a \$— registration fee. The total is compared to what you paid to see if you are entitled to a refund or owe us additional money. If you are entitled to a refund, we will send it to you within twenty-one (21) days from the day you cancel.

If you do not send in any lessons for 120 straight days at any point during the course, we will cancel your contract. But you will be given an opportunity to apply for reinstatement by writing to us that you wish to continue.

I have changed my mind and want to cancel this contract.

If you cancel this contract after the fourteen (14) day period you may owe us some money. To determine the exact amount, we multiply the price for each lesson in the home study portion of this course by the number of lessons you sent in. The price for each lesson is figured by dividing the \$— cost of the home study portion of this course by the — lessons in the part of the course. We add to this the amount you owe us for the residence portion of this course. To determine this we multiply the price for each class by the number of classes you attend up to the time you cancel. The price for each class is figured by dividing the \$— cost for the residence portion of this course by the — classes in the course. We add to this total a \$— registration fee. The total is compared to what you paid to see if you are entitled to a refund or owe us addi-

tional money. If you are entitled to a refund, we will send it to you within twenty one (21) days from the day you cancel.

If you do not send in any lessons for 120 straight days at any point during the home study portion of this course or do not attend classes for 5 straight days on which classes are held during the residence portion of this combination course, we will cancel your contract. But you will be given an opportunity to apply for reinstatement by writing to us that you wish to continue.

I have changed my mind and want to cancel this contract.

#### APPENDIX K

##### CANCELLING THIS CONTRACT

This notice explains your rights and responsibilities concerning cancellation of this contract.

##### Automatic Cancellation

This contract is automatically cancelled and you do not owe us any money if the following two (2) forms are not mailed to you.

##### How Our Students Are Doing

Tells you how many students complete the course [for schools making job or earnings claims insert "and the placement rate of our graduates"].

#### How To Cancel Your Contract

Provides information on how to cancel this contract. Also, this form describes how we figure what is owed for students who have already begun the course.

#### Your Right To Cancel

If you decide not to take this course, you have fourteen (14) days to cancel this contract and get a full refund. The fourteen days start on the day we mail these forms. The *How To Cancel Your Contract* form shows you when the fourteen days are up. To cancel, you must sign the bottom of this contract or the *How To Cancel Your Contract* form we are sending you, put on the date and mail this contract or the form to us no later than midnight of the fourteenth day.

You can also cancel this contract by sending us a letter no later than midnight of the fourteenth day. Be sure to date and sign your letter. If possible, keep a copy. Your contract will be cancelled the day you mail this letter.

#### Equipment

A description of the equipment we will provide you with and the charges are summarized below:

| Item               | Delivery date               | Cost    |
|--------------------|-----------------------------|---------|
| Ohmmeter.....      | 1/31/78 (or lesson or ..... | \$32.00 |
| Circuit board..... | 2/31/78 class number) ....  | \$20.00 |

#### Settling Your Account

If you cancel this contract within the fourteen (14) day period, we will refund any money you have paid us within two (2)

weeks from the day we receive your cancellation.

If you cancel this contract after the fourteen (14) day period, you may owe us some money. Keep in mind that if you return the equipment we delivered, you pay for a proportion of its cost. When you keep the equipment, you pay for its full cost.

If you return the equipment we delivered, we add the \$— cost of the home study portion of this course and the cost of the equipment delivered to you during this portion of the course. We divide this total by the — lessons in the home study portion of the course to get a cost per lesson. We multiply this cost per lesson by the number of lessons you sent in.

We add to this the amount you owe us for the residence portion of this course and the cost of the equipment delivered to you during this portion of the course. We divide this total by the — classes in the course. We multiply this cost per class by the number of classes held before you cancelled. We add a \$— registration fee to what you owe us for the home study and residence portions of this course. The total is compared to what you paid to see if you are entitled to a refund or owe us additional money.

If you fail to return this equipment to us within twenty one (21) days from the date this contract is cancelled, we divide the \$— cost for the home study portion of this course by the — lessons in the course. This gives us a price per lesson of \$—. We multiply this price per lesson by the number of lessons you sent in. We add to this the amount you owe us for the residence portion of this course.

We divide the \$— cost for the residence portion of this course by the — classes in the course. This gives us a price per class of \$—. We multiply this price per class by the number of classes held before you cancel. We add the cost of the equipment delivered to you and a \$— registration fee to what you owe us for the home study and residence portion of the course. The total is compared to what you paid to see if you are entitled to a refund or owe us additional money. If you are entitled to a refund, we will send it to you within twenty one (21) days from the day you cancel.

If you do not send in any lessons for 120 straight days at any point during the home study portion of this course or do not attend classes for 5 straight days on which classes are held during the residence portion of this combination course, we will cancel your contract. But you will be given an opportunity to apply for reinstatement by writing to us that you wish to continue.

I have changed my mind and want to cancel this contract.

LOW RENT HOUSING HOMEOWNERSHIP  
OPPORTUNITIES

## Turnkey III Program

AGENCY: Department of Housing  
and Urban Development.

ACTION: Proposed rule.

**SUMMARY:** This proposed rule would amend the Turnkey III Home Ownership Opportunities Program to give Public Housing Authority (PHAs) greater flexibility in the marketing of Turnkey III units and to set forth standards and procedures applicable to homebuyers. Included in the proposed rule are provisions for operating subsidies and PHA purchase money financing. The changes are designed to improve operational flexibility of the program and to improve management.

**EFFECTIVE DATE:** January 29, 1979.

**ADDRESS:** Comments and suggestions, which should include a reference to the docket number and date of publication, should be sent to the Rules Docket Clerk, Office of General Counsel, Room 5218, Department of Housing and Urban Development, 451 7th Street, S.W., Washington, D.C. 20410.

FOR FURTHER INFORMATION  
CONTACT:

Wayne Hunter, Office of Assisted Housing Management, Department of Housing and Urban Development, 451 7th Street, S.W., Washington, D.C. 20410, 202-755-8460. This is not a toll-free number.

## SUPPLEMENTARY INFORMATION:

INABILITY TO MARKET TURNKEY III  
UNITS

1. Section 804.101(b)(1) would be amended to provide that where a PHA is temporarily unable to market vacant Turnkey III units to homebuyer families which meet the regular Turnkey III standards, the PHA may rent the units to families which meet the standards for admission to a public housing rental project.

AMENDMENTS WITHOUT PREJUDICE TO  
CONTRACT RIGHTS

2. Section 804.101(b)(6) would provide that a homebuyer who executed the form of Homebuyers Ownership Opportunity Agreement as required in accordance with the Turnkey III regu-

lations in effect at the time of the execution shall be entitled to all rights and privileges provided under subsequent amendments of the regulations, but that such amendments shall not be applied in derogation of any rights or privileges under the homebuyer's executed agreement. The Turnkey III regulations were first promulgated on October 9, 1973, and were once previously amended, on March 22, 1974. Section 804.101(b)(6) would give a homebuyer who executed the then required form of agreement on or after October 9, 1973, the benefits of the present amendments, as well as the amendments of March 22, 1974, but without prejudicing the homebuyer's contract rights.

## ADMISSION AND CONTINUED OCCUPANCY

3. Section 804.104(a) would specify that the PHA must adopt regulations establishing standards and procedures for the admission of Turnkey III homebuyers, including any preferences, priorities or other factors affecting admission, and that these admission regulations must be in accordance with all applicable HUD requirements.

4. Section 804.104(c)(2) would clarify the requirements for adoption, subject to HUD approval, of PHA regulations establishing schedules of maximum income limits.

5. Every family selected for admission to a Turnkey III development must meet defined standards of "potential for homeownership." The regulations would be amended (Section 804.104(f)(2)) to specify, in accordance with Section 6(c)(4)(D) of the United States Housing Act of 1937, that the standards are intended to assure that selection for the homeownership development is limited to low-income families capable of assuming the responsibilities of homeownership.

6. The regulations now provide that a PHA must select Turnkey III homebuyers whose monthly payments allow a margin (ten percent) over the minimum (referred to as "break-even") needed for maintenance and expenses. The amendment would remove the requirement for a margin over break-even. The regulation would state (Section 804.104(g)(2)) the monthly payments for the selected homebuyers shall result in average monthly payments at least equal to the break-even amount for the development.

7. The regulations would be amended to provide (Section 804.104(g)(3)) that the PHA must assure in the selection of homebuyers the achievement and maintenance of occupancy by a body of homebuyers with a broad range of incomes generally representative of the range of incomes of low-income families in the area who would

be qualified for admission to the Turnkey III development.

The PHA would also be required to avoid concentrations of the most economically deprived families in any one or all of the PHA's low-income developments; and in any project placed under ACC after September 26, 1975, to assure occupancy of at least 20 percent of the homes by homebuyers whose incomes do not exceed 50 percent of the median income of families in the area who would be qualified for admission (Section 804.104(g) (4) and (5)).

8. The regulations (Section 804.104(h)) governing continued occupancy of the homes by homebuyers who no longer require subsidy, and the definition of monthly housing cost for this purpose, would be deleted, to reflect the elimination of the statutory requirement for establishing limits for continued occupancy. However, after a homebuyer becomes eligible for PHA financing of the home purchase, the homebuyer is no longer entitled to automatic monthly reductions of the purchase price. The purchase price is frozen at the amount on the purchase price schedule when the homebuyer is notified that the financing is available (Section 804.116(a)(3)).

PROTECTION OF CHILD'S INTEREST IN  
HOME

9. The March 22, 1974 amendments of the Turnkey III regulations include a provision that where a homebuyer dies and only minor children are left as occupants of the home, the PHA may, in order to protect the children's occupancy, and opportunity to gain ownership of the home, approve as occupant an adult who has been appointed legal guardian of the children with a duty to perform the obligations of the homeownership agreement on their behalf. In response to questions which have arisen concerning these procedures, it is proposed to amend Section 804.107(1)(3) to permit a non-occupant to act as guardian of the child's interest in the home, where the child continues to live in the home with an adult to care for the child. The amendments would also provide that the income of the person who actually occupies the home to care for the child is included in the family income for purpose of determining the amount of the required monthly payment, but that the regulatory provision requiring the maintenance of homeownership potential is not applicable during the period of approved occupancy on behalf of the child. Other technical provisions would clarify the respective rights of the child, the guardian, and the person living in the home to care for the child.

## HOMEBUYER PAYMENTS

10. Section 804.102 would state that the term "family income" in the Turnkey III regulations has the same meaning as in the public housing rental regulations (Section 860.403(f)). Section 804.107(j) would be amended to state that the PHA's schedule for determining monthly payments must comply with the regulations establishing minimum and maximum rents for public housing (Part 860, Subpart D, Minimum and Maximum Rent-Income Ratios, and Minimum Rent Requirements). This amendment would confirm and clarify the applicability of these regulations to Turnkey III (see Section 860.402), but does not establish a new requirement.

11. Section 804.107(j) would also be amended to delete the reference to inclusion of the monthly allowance for utilities in the "maximum required monthly payment." The amount of the required monthly payment (contract rent) reflects a prior deduction for tenant-supplied utilities.

## HOMEBUYER ACCOUNTS

12. Section 804.108(c) would be amended to state, as originally intended, that where a homebuyer's monthly payment is less than the amount needed for the accounts for routine and nonroutine maintenance (Earned Home Payments Account and Nonroutine Maintenance Reserve), the deficiency is supplied out of the PHA's operating funds.

13. A new § 804.110(k) would be added to make it clear that the amount available for use in a homebuyer's Earned Home Payments Account is the net amount remaining after deducting amounts the homebuyer owes the PHA, including delinquent monthly payments.

14. Many comments to HUD have indicated the desirability of providing additional equity incentive for homebuyers paying more than the amount necessary to cover the per unit provision for maintenance and operation (break-even). Section 804.112(e) would therefore be amended to provide that where the PHA accumulates an operating reserve in excess of the HUD-determined amount necessary for the financial needs of the project (maximum operating reserve level), the excess shall be prorated to the equity accounts of such homebuyers in proportion to the amounts of their excess payments during the year. Homebuyers whose payments for the year were less than the break-even amount for the year, or are delinquent in making required payments, would not be eligible for the additional credits.

## OPERATING SUBSIDY

15. A new § 804.109(e) would provide that HUD will pay operating subsidy for the cost of Independent Public Accountant Audits. The regulations would also permit the payment of operating subsidy to cover HUD-approved expenses for:

(a) Vacancy losses if the PHA is making every reasonable effort to fill the vacancies.

(b) Where a homebuyer's agreement has been terminated, collection losses and costs to put the home in condition for the next occupant.

(c) HUD-approved homebuyer counseling.

(d) Training of staff and commissioners.

(e) Where HUD finds that there are unusual circumstances justifying payment of operating subsidy.

## PURCHASE OF HOME

16. The regulations specify that a homebuyer may not purchase the home unless the homebuyer has achieved a specified minimum balance in the Earned Home Payments Account within the first two years. Section 804.110(c)(2) would be amended to provide that the PHA may allow additional time to reach the required balance where there are extenuating causes of the failure or the reasons for the failure may be eliminated by counseling or other assistance.

17. A new § 804.110(c)(3) would make it clear that the PHA must consult with the homebuyer's association before determining that a homebuyer may exercise the option to purchase, but that the final decision is the PHA's responsibility.

18. Section 804.115(b) would be amended to provide that the purchase price for a homebuyer other than the homebuyer who first occupies the home is the appraised value or replacement cost of the home, whichever is lower. Section 804.115(c) would be amended to provide a uniform amortization period for all homebuyers in the development.

19. Section 804.116(c) would be added to state the duty of the PHA to remit purchase payments to HUD. Where PHA mortgage financing is used, these amounts include the mortgagor's debt service payments.

## PHA MORTGAGE FINANCING

20. In response to difficulties encountered by Turnkey III homebuyers in obtaining independent financing for purchase of the homes, Section 804.116(a) of the proposed regulations would allow PHA purchase-money financing for a homebuyer able to cover the expenses of homeownership, including debt service, insurance and taxes, with 25 percent of family

income (see also definition of "PHA homeownership financing" (§ 804.102)). The PHA financing could only be offered when other suitable financing is not available.

Where the PHA financing is used, the PHA would take back at settlement a promissory note and mortgage for the unpaid balance of the purchase price. The financing instruments would provide for a reduction, if the mortgagor's family income is later reduced, of the portion of the monthly mortgage payment attributable to debt service (§ 804.116(a)(4)(iii)(C)). Even if the debt service payment is reduced, the mortgage debt would continue to be reduced each month in accordance with a predetermined amortization schedule as long as the mortgagor is meeting all obligations (§§ 804.116 (a)(4)(ii); 804.116 (a)(4)(iii)(D)). The mortgagor's payments for insurance, taxes and the PHA mortgage servicing charge would not be subject to reduction on account of any changes in the family income. Since the payments by a mortgagor-homeowner are not "rental," the regulations (§ 804.116(a)(4)(iii)(C)) specify that these minimum payments are not subject to the minimum or maximum rental (Brooke) provisions in section 3(1) of the Act, or the HUD Brooke regulations.

## RECAPTURE OF PROFIT ON RESALE

21. Section 804.114 now provides for recapture of profit from a homebuyer who sells within 5 years after taking title to the home. These provisions would be modified to require recapture of profit only if the homeowner resells within the five-year period commencing with the first day of the month following the effective date of the Homeownership Agreement. Recapture would not be required if the homeowner sells after this five-year period. Since a homebuyer may not take title to the home for the first two years of occupancy, the recapture provisions would now apply only to a resale during the three years after the homebuyer is first able to exercise the option to purchase the home. The promissory note would no longer provide for reductions of the recapture obligation over the five-year period.

## MISCELLANEOUS AMENDMENTS

22. Section 804.107(o)(2) provides that where a Turnkey III family has lost homeownership potential, the family may be required to vacate the home if the PHA offers the family a suitable unit in a public housing rental project. These provisions would be amended to provide that the family may also be required to move if the family is able to obtain assistance through the PHA's Section 8 Existing Housing Program.

23. The Planned Unit Development (PUD) or condominium documents establishing a homeowner's duty to make payments to the PHA or homeowner's association for common property maintenance and other purposes should be recorded before any of the homes are conveyed. Section 804.117 would, however, be amended to provide that where the PHA has in fact failed to record, a home may not be conveyed until the homebuyer has contracted to make the payments.

24. Sections 804.109(a)(7), 804.109(c)(2), and 804.110(d) would be amended to incorporate various technical changes concerning maintenance of common property.

25. Section 804.112(a) would be amended to allow the PHA to charge against the project operating reserve costs of non-routine maintenance which are covered by warranty but not paid for under the warranty through no fault or neglect of the homebuyer.

26. Appendices setting forth the forms of special conditions to be included in a Turnkey III ACC, homebuyers agreement, and certification of homebuyer status, would be deleted from the regulation, but use of HUD-prescribed forms would still be required.

A Finding of Inapplicability with respect to the National Environmental Policy Act of 1969 has been made in accordance with HUD procedures. A copy of this finding is available for public inspection in the Office of the Rules Docket Clerk during regular business hours, at the address specified above.

Accordingly, it is proposed that 24 CFR Part 804, Subpart B would be amended to read as follows:

#### Subpart B—Turnkey III Program Description

- Sec.
- 804.101 Introduction.
  - 804.102 Definitions.
  - 804.103 Development.
  - 804.104 Eligibility and Selection of Homebuyers.

  - 804.113 Achievement of Ownership by Initial Homebuyer.
  - 804.114 Resale at Profit During First Five Years.
  - 804.115 Achievement of Ownership by Subsequent Homebuyer.
  - 804.116 PHA Homeownership Financing: conveyance of Home.
  - 804.117 Responsibilities of Homeowner.
  - 804.118 Homeowners Association—Planned Unit Development (PUD).

- Sec.
- 804.119 Homeowners Association—Condominium.
  - 804.120 Realignment of Homeowners Association to HBA.

#### Subpart B—Turnkey III Program Description

##### § 804.101 Introduction.

(a) *Purpose.* This subpart sets forth the essential elements of the HUD Homeownership Opportunities program for Low-Income Families (Turnkey III).

(b) *Applicability.* This subpart shall be applicable to all Turnkey III developments, including those under development or in operation on October 9, 1973, as follows:

(1) With respect to any development to be operated as Turnkey III, the Annual Contributions contract (ACC) shall contain the special provisions for Turnkey III project as prescribed by HUD. A Turnkey III development may include only units which are to be operated as such under Homebuyers Ownership Opportunity Agreements. If for any reason it is determined that certain units should be operated as conventional public housing rental units, such units must be made to comprise or be made part of a conventional public housing rental project. If, however, the PHA is temporarily unable to market vacant units in the Turnkey III development to families which meet the standards for admission of Turnkey III homebuyers, the PHA shall rent the units to low-income families which meet the standards for admission to a public housing rental project, and which agree to move to a suitable unit in a PHA rental project if the PHA so requires.

(2) With respect to Turnkey III developments where no Agreements with homebuyers were signed prior to October 9, 1973, the ACC shall be amended (i) to include special provisions as prescribed by HUD, (ii), to extend the ACC term to 30 years, and (iii) to reduce the Maximum Contribution Percentage to a rate that will amortize the debt in 30 years at the minimum Loan Interest Rate specified in the ACC for the specific Turnkey III project involved. Further development and operation shall be in accordance with this subpart including use of the form of Homebuyers Ownership Opportunity Agreement as prescribed by HUD.

(3) With respect to developments where any Agreements with homebuyers were signed prior to October 9, 1973, the following steps shall be taken:

(i) The ACC shall be amended to include special provisions as prescribed by HUD. Further development and operation shall be in accordance with this subpart.

(ii) The PHA shall offer all qualified homebuyers in the development a new Homebuyers Ownership Opportunity

Agreement in the form prescribed by HUD, provided that the initial purchase prices shall be based on the latest approved Development Cost Budget, or Actual Development Cost Certificate if issued, in lieu of the Development Cost Budget in effect upon award of the Construction Contract or execution of the Contract of Sale, and that if the ACC for the Project has a term of 25 years the Purchase Price Schedule shall be based on a term of 25 years, instead of 30. Each Purchase Price Schedule shall commence with the first day of the month following the effective date of the initial Agreement. No other modification in the new Agreement may be made. In the event the homebuyer refuses to accept the new Agreement, no modifications may be made in the old Agreement and the matter shall be referred to HUD.

(4) With respect to Projects which were under ACC on October 9, 1973, the Total Development Cost Budget shall be revised, if financially feasible, to include the cost of the appraisals which are necessary for computation of the initial purchase prices pursuant to § 804.113. In the event this is not financially feasible, the matter shall be referred to HUD, which may, if necessary, authorize a different method for computation of such initial purchase prices on an equitable basis.

(5) With respect to all developments which were completed by October 9, 1973, the appraisals which are necessary for computation of the initial purchase prices pursuant to § 804.113 shall be made as of the date of completion of the development.

(6) Homebuyers who executed the form of Homebuyers Ownership Opportunity Agreement in the form as prescribed by HUD in accordance with this subpart on the date of execution shall be entitled to all rights and privileges provided under subsequent amendments of the subpart, but such amendments shall not be applied in derogation of any rights or privileges of the homebuyer under the executed Agreement.

##### § 804.102 Definitions.

The term "common property" means the nondwelling structures and equipment, common areas, community facilities, and in some cases certain component parts of dwelling structures, which are contained in the development. Provided however, that in the case of a development that is organized as a condominium or a planned unit development (PUD), the term "common property" shall have the meaning established by the condominium or PUD documents and the State law pursuant to which the condominium or PUD is organized, under the terms "common areas," "common

facilities," "common elements," "common estate," or other similar terms.

The term "development" means the entire undertaking including all real and personal property, funds and reserves, rights, interests and obligations, and activities related thereto.

The term "EHPA" means the Earned Home Payments account established and maintained pursuant to § 804.110.

The term "family income" shall have the meaning set forth in the definition of "Family Income" in 24 CFR § 860.403(f).

The term "homebuyer" means the member or members of a low-income family who have executed a Homebuyers Ownership Opportunity Agreement with the PHA, and who have not yet acquired ownership of the home.

The term "homebuyers association" (HBA) means an organization as defined in § 804.106.

The term "homeowner" means a homebuyer who has acquired title to the home.

The term "homeowner association" means an association comprised of homeowners, including condominium associations, having responsibilities with respect to common property.

The term "HUD" means the Department of Housing and Urban Development which provides PHAs with financial assistance through loans and annual contributions and technical assistance in development and operation.

The term "NRMR" means the Non-routine Maintenance Reserve established and maintained pursuant to § 804.111.

The term "PHA" means the local public housing agency which acquires or develops a low-income housing development with financial assistance from HUD, owns the homes until title is transferred to the homebuyers, and is responsible for the management of the homeownership opportunity program.

The term "PHA homeownership financing" means PHA financing for purchase of a home by an eligible homebuyer who gives the PHA a promissory note and mortgage for the balance of the purchase price in accordance with § 804.116(a).

The term "project" is used to refer to the development in relation to matters specifically related to the Annual Contributions Contract.

##### § 804.103 Development.

(a) *Financial framework.* The PHA shall finance development or acquisition by sale of its notes (bond financing shall not be used) in the amount of the Minimum Development Cost. Payment of the debt service on the notes is assured by the HUD commitment to

provide debt service annual contributions.

(b) *Contractual framework.* There are three basic contracts:

(1) An Annual Contributions Contract containing the Special Conditions as prescribed by HUD for a Turnkey III Homeownership Opportunity Project;

(2) A Homebuyers Opportunity Agreement in the form prescribed by HUD, which sets forth the respective rights and obligations of the low-income occupants and the PHA, including conditions for achieving homeownership; and

(3) A Recognition Agreement (see Appendix II of Subpart D of this part) between the PHA and the HBA under which the PHA agrees to recognize the HBA as the established representative of the homebuyers.

(c) *Community Participation Committee (CPC).* In the necessary development of citizens' participation in and understanding of the Turnkey III program, the PHA should consider formation and use of a CPC to assist the community and the PHA in the development and support of the Turnkey III program. The CPC shall be a voluntary group comprised of representatives of the low-income population primarily and may also include representatives of community service organizations.

##### § 804.104 Eligibility and Selection of Homebuyers.

(a) *Adoption of Admission Regulations.* The PHA shall adopt regulations establishing standards and procedures for the admission of homebuyers to Turnkey III developments, including any preferences, priorities or other factors affecting admission. The PHA admission regulations shall be in accordance with all applicable HUD regulations or other HUD requirements.

(b) *Announcement of availability of housing; fair housing marketing.*

(1) The availability of housing under Turnkey III shall be announced to the community at large. Families on the waiting list for PHA conventional public housing rental units who wish to be considered for Turnkey III must apply specifically for that program (see paragraph (e) of this section).

(2) The PHA shall submit to HUD an Affirmative Fair Housing Marketing Plan and shall otherwise comply with the provisions of the Affirmative Fair Housing Marketing Regulations, 24 CFR Part 200, subpart M, as if the PHA were an applicant for participation in a HUD housing program. This Plan shall be submitted with the development program and no development program may be approved without prior approval of the Plan pursuant to HUD procedures under said Affirmative Fair Housing Marketing Regulations. If the development program has been approved, but the Annual Contributions Contract has not been executed, prior to October 9, 1973, an Affirmative Fair Housing Marketing Plan must be approved prior to execution of said contract.

(c) *Eligibility and standards for admission.* (1) Homebuyers shall be low-income families as determined in accordance with the income definitions and limits established by the PHA in accordance with the Act, and approved by HUD (see paragraph (c)(2) of this section). The PHA's established priorities and preferences and the requirements for administration of low-income housing under Title VI of the Civil Rights Act of 1964 (Public Law 88-352, 78 Stat. 241, 42 U.S.C. 2000d) shall be applicable except that the procedures used for homebuyer selection under Turnkey III shall be those set forth in this section. In carrying out these procedures the aim shall be to provide for equal housing opportunity in such a way as to prevent segregation or other discrimination of the basis of race, creed, color or national origin in accordance with the Civil Rights Acts of 1964 (Public Law 88-352, 78 Stat. 241, 42 U.S.C. 2000d) and 1968 (Public Law 90-284, 82 Stat. 73, 42 U.S.C. 3601).

(2) Subject to HUD approval the PHA shall adopt regulations establishing schedules of maximum income limits. The PHA may establish maximum income limits for Turnkey III which are different from those for its conventional rental program, provided that those limits are in accord with all applicable statutory and administrative requirements and are approved by HUD.

(d) *Determination of eligibility and preparation of list.* The PHA, without participation of a recommending committee (see paragraph (f)(1) of this section), shall determine the eligibility of each applicant family in respect to the income limits for the development and shall then assign each eligible applicant its appropriate place on a waiting list for the development, in sequence based upon the date of the application, suitable type or size of unit and factors affecting preference or priority established by the PHA's regulations.

(e) *List of applicants:*

(1) *Establishment of separate list.* A separate list of applicants for Turnkey III shall be maintained, consisting of families who specifically apply and are eligible for admission to such housing.

(2) *Dating of applications.* All applications for Turnkey III shall be dated as received.

(3) *Effect of applicant status.* The filing of an application for Turnkey III by a family which is an applicant

for PHA conventional rental public housing or is an occupant of such housing shall in no way affect its status with regard to such rental housing. Such an applicant shall not lose its place on the housing waiting list until the application is accepted for Turnkey III and shall not receive any different treatment or consideration with respect to conventional rental public housing because of having applied for Turnkey III.

(f) *Determination of potential for homeownership.*

(1) *Recommending committee.* The PHA should consider use of a recommending committee to assist in the selection of homebuyers from the families determined to have potential for homeownership. If a recommending committee is used, it should be composed of representatives of the CPC (if any), the PHA and the HBA. The PHA shall submit to the committee prompt written justification of any rejection of a committee recommendation stating grounds, the reasonableness of which shall be in accord with applicable PHA and HUD regulations. Each member of such a committee, at the time of appointment, shall be required to furnish the PHA with a signed statement that the member will (i) follow selection procedures and policies that do not automatically deny admission to a particular class, that insure selection on a non-discriminatory and non-segregated basis, and that facilitate achievement of the anticipated results for occupancy stated in the approved Affirmative Fair Housing Marketing Plan, and (ii) maintain strict confidentiality by not divulging any information concerning applicants or the deliberations of the committee to any person except to the PHA as necessary for purposes of the official business of the committee.

(2) *Potential for homeownership.* In order to be considered for selection, a family must be determined to meet at least all of the following standards of potential for homeownership which are intended to assure (in accordance with Section 6(c)(4)(D) of the United States Housing Act of 1937) that selection for the Turnkey III development is limited to low-income families capable of assuming the responsibilities of homeownership:

(i) Income sufficient to result in a required monthly payment which is not less than the sum of the amounts necessary to pay the EHPA, the NRMR, and the estimate average monthly cost of utilities attributable to the home;

(ii) At least one member gainfully employed, or having an established source of continuing income.

(g) *Selection of homebuyers.* Homebuyers shall be selected from those families determined to have potential for homeownership. Such selection

shall be made in sequence from the waiting list established in accordance with this section provided that the following shall be assured:

(1) Selection procedures that do not automatically deny admission to a particular class; that insure selection on a nondiscriminatory and nonsegregated basis; and that facilitate achievement of the anticipated results for occupancy stated in the approved Affirmative Fair Marketing Plan.

(2) Achievement of an average monthly payment for the development, which is at least equal to the break-even amount for the development (see § 804.108). This standard shall be complied with both in the initial selection of homebuyers and in the subsequent filling of vacancies at all times during the life of the development. If there is an applicant who has potential for homeownership but whose required monthly payment under the PHA's Rent Schedule would be less than the break-even amount for the suitable size and type of unit, such applicant may be selected as a homebuyer, provided that the incomes of all selected homebuyers shall result in average required monthly payments at least equal to the break-even amount for the development. Such an average monthly payment for the development may be achieved by selecting other low-income families who can afford to make required monthly payments above the break-even amounts for their suitable sizes and types of units.

(3) Achievement and maintenance of occupancy of the development by a body of homebuyers with a broad range of incomes generally representative of the range of incomes of low-income families in the area who would be qualified for admission to the Turnkey III development.

(4) Avoidance of concentrations of the most economically deprived families in any one or all of the PHA's low-income developments.

(5) In any Project placed under ACC after September 26, 1975, achievement and maintenance of occupancy of at least 20 percent of the homes by homebuyers whose incomes do not exceed 50 percent of the median income of families in the area who would be qualified for admission to the development, with adjustments for smaller and larger families, as determined by HUD.

(h) *Notification of applicants.* (1) Once a sufficient number of applicants have been selected to assure that the provisions of paragraph (g)(2) of this section are met, the selected applicants shall be notified of the approximate date of occupancy insofar as such date can reasonably be determined.

(2) Applicants who are not selected for a specific Turnkey III development shall be so notified in accordance with HUD-approved procedures. The notice shall state the reason for the applicant's rejection (including a recommendation by the recommending committee unless the applicant has previously been so notified by the committee) and the notice shall state that the applicant will be given an informal hearing on such determination, regardless of the reason for the rejection, if the applicant makes a request for such a hearing within a reasonable time (to be specified in the notice) from the date of the notice.

§ 804.105 Counseling of homebuyers.

The PHA shall provide counseling and training as provided in subpart C of this part, with funding as provided in § 804.206 of this part. Applicants for admission shall be advised of the nature of the counseling and training programs available to them and the application for admission shall include a statement that the family agrees to participate and cooperate fully in all official pre-occupancy and post-occupancy training and counseling activities. Failure to participate as agreed may result in the family not being selected or retained as a homebuyer.

§ 804.106 Homebuyers Association (HBA).

An HBA is an incorporated organization composed of all the families who are entitled to occupancy pursuant to a Homebuyers Ownership Opportunity Agreement or who are homeowners. It is formed and organized for the purposes set forth in § 804.304 of this part. The HBA shall be funded as provided in § 804.305 of this part. In the absence of a duly organized HBA, the PHA shall be free to act without the HBA action required by this subpart.

§ 804.107 Responsibilities of homebuyer.

(a) *Repair, maintenance and use of home.* The homebuyer shall be responsible for the routine maintenance of the home to the satisfaction of the HBA and the PHA. This routine maintenance includes the work (labor and materials) of keeping the dwelling structure, grounds and equipment in good repair, condition and appearance so that they may be utilized continually at their designed capacities and at the satisfactory level of efficiency for their intended purposes, and in conformity with the requirements of local housing codes and applicable HUD regulations and guidelines. It includes repairs (labor and materials) to the dwelling structure, plumbing fixtures, dwelling equipment (such as range and refrigerator), shades and screens, water heater, heating, interior painting and the maintenance of grounds (lot) on which the dwelling is located.

It does not include maintenance and replacements provided for by the NRMR described in § 804.111.

(b) *Repair of damage.* In addition to the obligation for routine maintenance, the homebuyer shall be responsible for repair of any damage caused by the homebuyer family, or visitors.

(c) *Care of home.* A homebuyer shall keep the home in a sanitary condition; cooperate with the PHA and the HBA in keeping and maintaining the common areas and property, including fixtures and equipment, in good condition and appearance; and follow all rules of the PHA and of the HBA concerning the use and care of the dwellings and the common areas and property.

(d) *Inspections.* A homebuyer shall agree to permit officials, employees, or agents of the PHA and of the HBA to inspect the home at reasonable hours and intervals in accordance with rules established by the PHA and the HBA.

(e) *Use of home.* A homebuyer shall not (1) sublet the home without the prior written approval of the PHA and HUD, (2) use or occupy the home for any purpose deemed hazardous by insurance companies on account of fire or other risks, or (3) provide accommodations (unless approved by the HBA and the PHA) to boarders or lodgers. The homebuyer shall agree to use the home only as a place to live for the family (as identified in the initial application or by subsequent amendment with the approval of the PHA), for children thereafter born to or adopted by members of such family, and for aged or widowed parents of the homebuyer or spouse who may join the household.

(f) *Obligations with respect to other persons and property.* Neither the homebuyer nor any member of the homebuyer family shall interfere with rights of other occupants of the development, or damage the common property or the property of others, or create physical hazards.

(g) *Structural changes.* A homebuyer shall not make any structural changes in or additions to the home unless the PHA has first determined in writing that such change would not (1) impair the value of the unit, the surrounding units, or the development as a whole, or (2) affect the use of the home for residential purposes, or (3) violate HUD requirements as to construction and design.

(h) *Statements of condition and repair.* When each homebuyer moves in, the PHA shall inspect the home and shall give the homebuyer a written statement, to be signed by the PHA and the homebuyer, of the condition of the home and the equipment in it. Should the homebuyer vacate the home, the PHA shall inspect it and give the homebuyer a written state-

ment of the repairs and other work, if any, required to put the home in good condition for the next occupant (see § 804.110(j)(1)). The homebuyer, homebuyer's representative, and a representative of the HBA may join in any such inspections by the PHA.

(i) *Maintenance of common property.* The homebuyer may participate in nonroutine maintenance of common property as discussed in § 804.110(d) and § 804.111(c).

(j) *Homebuyer's required monthly payment.* (1) The term "required monthly payment" as used herein means the monthly payment ("Contract Rent," see definition at § 860.403(a)) the homebuyer is required to pay as lease rental to the PHA on or before the first day of each month. Although the total monthly housing cost consists of the sum of the break-even amount (see § 804.108) and the debt service (payments of principal and interest) on the applicable share of the capital cost of the development, the homebuyer, so long as the homebuyer qualifies as low income, is not required to pay the full amount, but is assisted by HUD's annual contributions. The homebuyer's required monthly payment, which is based upon Family Income, shall be an amount in accordance with the schedule established by the PHA and approved by HUD in accordance with the U.S. Housing Act of 1937 (42 U.S.C. 1437 et seq.) and applicable HUD regulations (24 CFR Part 860, Subpart D, Minimum and Maximum Rent-Income Ratios, and Minimum Rent Requirements), provided, however, that the required monthly payment shall not be more than the sum of the monthly break-even amount and the monthly debt service amount shown on the Purchase Price Schedule for the home except that if the rent, including utilities, for comparable unsubsidized housing in the locality is lower, such lower amount may be established as the maximum if the PHA determines with HUD approval that this would be in the best interest of the development.

(2) The required monthly payment may be adjusted as a result of the PHA's regularly scheduled or specially scheduled reexamination of the Family Income and family composition. Interim changes may be made in accordance with the PHA's policy on reexaminations, or under unusual circumstances, at the request of the homebuyer, if both the PHA and the HBA agree that such action is warranted.

(3) The required monthly payment may also be adjusted by changes in the required percentage of income to reflect (i) changes in operating expenses as described in § 804.109 and (ii) changes in utility allowances.

(4) The PHA shall not refuse to accept monthly payments because of any other charges (i.e., other than overdue monthly payments) owed by the homebuyer to the PHA; however, by accepting monthly payments under such circumstances, the PHA shall not be deemed to have waived any of its rights and remedies with respect to such other charges.

(k) *Application on monthly payment.* The PHA shall apply the homebuyer's monthly payment as follows:

(1) To the credit of the homebuyer's EHPA (see § 804.110);

(2) To the credit of the homebuyer's NRMR (see § 804.111);

(3) For payment of monthly operating expense including contribution to operating reserve (see § 804.109).

(l) *Assignment and succession.* Until such time as the homebuyer obtains title to the home, it shall be used only to house a family of low income. Therefore:

(1) A homebuyer shall not assign any right or interest in the home or under the Homebuyers Ownership Opportunity Agreement without the prior written approval of the PHA and HUD.

(2) In the event of death, mental incapacity or abandonment of the home by the homebuyer, the person designated as the successor in the Homebuyers Ownership Opportunity Agreement shall succeed to the rights and responsibilities under the Agreement if that person is an occupant of the home at the time of the event and is determined by the PHA to meet all of the standards of potential for homeownership as set forth in § 804.104(f)(2). Such person shall be designated by the homebuyer at the time the Homebuyers Ownership Opportunity Agreement is executed. This designation may be changed by the homebuyer at any time. If there is no such designation or the designee is no longer an occupant of the home or does not meet the standards of potential for homeownership, the PHA may designate as the homebuyer any family member who was an occupant at the time of the event, who meets the standards of potential for homeownership, and who agrees in writing to assume the obligations of the Homebuyers Ownership Opportunity Agreement.

(3) If there is no qualified successor in accordance with paragraph (1)(2) of this section, the PHA shall terminate the Agreement and another family shall be selected except under the following circumstances: Where a minor child (or children) of the homebuyer family is in occupancy, then in order to protect the child's continued occupancy and opportunity for acquisition of ownership of the home, the PHA may approve an appropriate adult(s)

as legal guardian of the child's interest in the Homebuyers Ownership Opportunity Agreement, where the guardian undertakes, under a written agreement with the PHA, to perform the obligations of the Homebuyers Ownership Opportunity Agreement in the interest and behalf of the child, and where the child continues to live in the home with an adult to care for the child (the guardian or another person). In such case the income of the person who takes care of the child and is living in the home shall be included in Family Income for the purpose of determining the amount of the required monthly payment, but the provisions of paragraph (c) of this § 804.107 shall not be applicable during the period of such approved occupancy. The guardian and the person living in the home to care for the child shall have no right or interest in the home or under the Homebuyers Ownership Opportunity Agreement except in a fiduciary capacity on behalf of the children, and shall have no right to any amounts payable from the EHPA pursuant to § 804.110(j)(2) upon termination of the Agreement. During the period of guardianship, the home shall not be conveyed with PHA Homeownership. Financing pursuant to § 804.116(a).

(m) *Termination by PHA.* (1) In the event the homebuyer should breach the Homebuyers Ownership Opportunity Agreement by failure to make the required monthly payment within ten days after its due date, by misrepresentation or withholding of information in applying for admission or in connection with any subsequent reexamination of income and family composition, or by failure to comply with any of the other homebuyer obligations under the Agreement, the PHA may terminate the Agreement 30 days after giving notice of its intention to do so in accordance with paragraph (m)(2) of this section.

(2) *Notice of termination by the PHA shall be in writing.* Such notice shall state (i) the reason for termination, (ii) that the homebuyer may respond to the PHA, in writing or in person, within a specified reasonable period of time regarding the reason for termination, (iii) that in such response homebuyer may be represented or accompanied by a person of the homebuyer's choice, including a representative of the HBA, (iv) that the PHA will consult the HBA concerning this termination, and (v) that unless the PHA rescinds or modifies the notice, the termination shall be effective at the end of the 30-day notice period.

(n) *Termination by the homebuyer.* The homebuyer may terminate the Homebuyers Ownership Opportunity Agreement by giving the PHA 30 days notice in writing of intention to termi-

nate and vacate the home. In the event that the homebuyer vacates the home without notice to the PHA, the Agreement shall be terminated automatically and the PHA may dispose of, in any manner deemed suitable by it, any items of personal property left by the homebuyer in the home.

(o) *Transfer to public housing rental unit or Section 8 Existing Program.* (1) Inasmuch as the homebuyer was found eligible for admission to the development on the basis of having the necessary elements of potential for homeownership, continuation of eligibility requires continuation of this potential, subject only to temporary unforeseen changes in circumstances. Accordingly, in the event it should develop that the homebuyer no longer meets one or more of these elements of homeownership potential, the PHA shall investigate the circumstances and provide such counseling and assistance as may be feasible in order to help the family overcome the deficiency as promptly as possible. After a reasonable time, not to exceed 30 days from the date of evaluation of the results of the investigation the PHA shall make a reevaluation as to whether the family has regained the potential for homeownership or is likely to do so within a further reasonable time, not to exceed 30 days from the date of the reevaluation. Further extension of time may be granted in exceptional cases, but in any event, a final determination shall be made no later than 90 days from the date of evaluation of the results of the initial investigation. The PHA shall invite the HBA to participate in all investigations and evaluations.

(2) If the final determination of the PHA, after considering the views of the HBA, is that the homebuyer should be transferred to a suitable dwelling unit either in a PHA rental project, or through use of the PHA's Section 8 Existing Housing Program, the PHA shall give the homebuyer written notice of the PHA determination of the loss of homeownership potential and of the offer of transfer. The notice shall state that the transfer shall occur (i) as soon as a suitable rental unit is available for occupancy, or (ii) when the PHA has issued a Certificate of Family Participation, and has determined that a suitable unit is available, but no earlier than 30 days from the date of the notice, provided that an eligible successor for the homebuyer unit has been selected by the PHA. The notice shall also state that if the homebuyer should refuse to move under such circumstances, the family may be required to vacate the homebuyer unit, without further notice. The notice shall include a statement (i) that the homebuyer may respond to the PHA in writing or in

person, within a specified reasonable time, regarding the reason for the determination and offer of transfer, (ii) that in such response the homebuyer may be represented or accompanied by a person of the homebuyer's choice, including a representative of the HBA, and (iii) that the PHA has consulted the HBA concerning this determination and offer of transfer.

(3) When a Homebuyers Ownership Opportunity Agreement is terminated pursuant to this paragraph (o), the amount in the homebuyer's EHPA shall be applied in accordance with the provisions of § 804.110(j).

#### § 804.108 Break-even amount.

(a) *Definition.* The term "break-even amount" as used herein means the minimum average monthly amount required to provide funds for the items listed in the illustration below. A separate break-even amount shall be established for each size and type of dwelling unit, as well as for the Project as a whole. The break-even amount for EHPA and NRMR will vary by size and type of dwelling unit; similar variations as to other line items may be made if the PHA deems this equitable.

*Illustration.* The following is an illustration of the computation of the break-even amount based upon hypothetical amounts.

| (1) Operating Expense (see § 804.109):                   |        |
|----------------------------------------------------------|--------|
| Administration.....                                      | \$8.50 |
| Homebuyer services.....                                  | 2.00   |
| Project-supplied utilities.....                          | 3.00   |
| Routine maintenance—                                     |        |
| Common property.....                                     | 3.00   |
| Protective services.....                                 | 2.00   |
| General expenses.....                                    | 6.50   |
| Nonroutine maintenance—                                  |        |
| Common property (Contribution to operating reserve)..... | 2.00   |
| (2) Earned Home Payments Account (see § 804.110).....    | 12.00  |
| (3) Nonroutine Maintenance Reserve (See § 804.111).....  | 77.50  |
| Break-Even Amount.....                                   | 46.50  |

The break-even amount does not include the monthly allowance for utilities which the homebuyer pays for directly, nor does it include any amount for debt service on the Project notes.

(b) *Excess over break-even.* When the homebuyer's required monthly payment (see § 804.107(j)) exceeds the applicable break-even amount, the excess shall constitute additional Project income and shall be deposited and used in the same manner as other Project income.

(c) *Deficit in monthly payment.* Where the required monthly payment is less than the amounts for EHPA and NRMR included in the break-even amount, the EHPA and NRMR shall nevertheless be credited with the amount for these accounts, and the deficiency shall be supplied out of the operating funds.

#### § 804.109 Monthly operating expense, operating subsidy.

(a) *Definition and categories of monthly operating expense.* The term "monthly operating expense" means the monthly amount needed for the following purposes:

(1) *Administration.* Administrative salaries, travel, legal expenses, office supplies, postage, telephone, and telegraph, etc.

(2) *Homebuyer services.* PHA expenses in the achievement of social goals, including costs such as salaries, publications, payments to the HBA to assist its operation, contract and other costs.

(3) *Utilities.* Those utilities (such as water), if any, to be furnished by the PHA as part of operating expenses.

(4) *Routine maintenance—common property.* For community building grounds, and other common areas, if any. The amount required for routine maintenance of common property depends upon the type of common property included in the development and the extent of the PHA responsibility for maintenance (see also § 804.109(c)).

(5) *Protective services.* The cost of supplemental protective services paid by the PHA for the protection of persons and property.

(6) *General expense.* Premiums for fire and other insurance, payments in lieu of taxes to the local taxing body, collection losses, payroll taxes, etc.

(7) *Nonroutine maintenance—common property (Contribution to operating reserve).* An estimate of the amount required to accumulate an operating reserve for nonroutine maintenance and replacements of common property (see § 804.112(b)).

(b) *Monthly operating expense rate.* The monthly operating expense rate for each fiscal year shall be established on the basis of the PHA's HUD-approved operating budget for the fiscal year. The operating budget may be revised during the course of the fiscal year in accordance with HUD requirements. It is a subsequently determined that the actual operating expense for a fiscal year was more or less than the amount provided by the monthly operating expense established for that fiscal year, the rate of monthly operating expenses to be established for the next fiscal year may be adjusted to account for the difference. Such adjustment may result in a change in the required monthly payment (see § 804.107(j)(3)).

(c) *Provision for common property maintenance.* (1) During the period the PHA is responsible for the maintenance of common property, the annual operating budget and the monthly operating expense rate shall include the amount required for routine maintenance of all common property in the development, even though

a number of the homes may have been acquired by homebuyers. During such period, this amount shall be computed on the basis of the total number of homes in the development (i.e., the annual amount budgeted for routine maintenance of common property shall be divided by the number of homes in the development, resulting in the annual amount for each home; this figure shall in turn be divided by 12 to determine the monthly amount to be included in the monthly operating expense (and in the break-even amount) for routine maintenance of common property).

(2) After the homeowners association assumes responsibility for maintenance of common property, the monthly operating expense (and break-even amount) shall include an amount equal to the monthly assessment by the homeowners association for the remaining homes owned by the PHA for routine or nonroutine maintenance of common property.

(d) *Monthly operating expense statement.* A statement showing the budgeted monthly amount allocated in the current operating budget to each operating expense category shall be provided to the HBA and copies shall be provided to homebuyers, upon request.

(e) *Operating subsidy.* (1) Operating subsidy shall be paid to reimburse the PHA for the HUD-approved costs of Independent Public Accountant audits. Operating subsidy may also be paid to cover proposed expenditures approved by HUD for the following purposes:

(i) Operating Expenses for vacant units where the PHA shows to HUD's satisfaction that it is making every reasonable effort to fill the vacancies.

(ii) Collection losses due to payment delinquencies on the part of homebuyer families whose Agreement have been terminated, and who have vacated the home, and the actual cost of any maintenance (including repairs and replacements) necessary to put the vacant home in a suitable condition for a substitute homebuyer family. Operating subsidy may be made available for these purposes only after the PHA has previously utilized all available homebuyer credits.

(iii) The costs of HUD-approved homebuyer counseling.

(iv) HUD-approved costs for training of staff and Commissioners.

(v) Operating costs resulting from other unusual circumstances, as determined by HUD, justifying payment of operating subsidy.

(2) No operating subsidy shall be paid for utilities, routine maintenance or other items for which the homebuyer is responsible (other than is necessary to put a vacant home in condition for a substitute family).

#### § 804.110 Earned Home Payments account (EHPA).

(a) *Credits to the account.* The PHA shall establish and maintain a separate EHPA for each homebuyer. Since the homebuyer is responsible for maintaining the home, a portion of the required monthly payment equal to the PHA's estimate, approved by HUD, of the monthly cost for such routine maintenance, taking into consideration the relative type and size of the homebuyer's home, shall be set aside in the EHPA. In addition, this account shall be credited with (1) any voluntary payments made pursuant to § 804.110(f), and (2) any amount earned through the performance of maintenance as provided in § 804.110(d) and § 804.111(c)(1).

(b) *Charges to the account.* (1) If for any reason the homebuyer is unable or fails to perform any item of required maintenance as described in § 804.107(a), the PHA shall arrange to have the work done in accordance with the procedures established by the PHA and the HBA and the cost thereof shall be charged to the homebuyer's EHPA. Inspection of the home shall be made jointly by the PHA and the HBA.

(2) To the extent NRMR expense is attributable to the negligence of the homebuyer as determined by the HBA and approved by the PHA (see § 804.111), the cost thereof shall be charged to the EHPA.

(c) *Exercise of option; required amount in EHPA.* (1) The homebuyer may exercise an option to buy the home, by paying the applicable purchase price pursuant to § 804.113 or § 804.115, only after satisfying the following conditions precedent:

(i) Within the first two years of occupancy, the homebuyer has achieved a balance in the EHPA equal to 20 times the amount of the monthly EHPA credit as initially determined in accordance with paragraph (a) of this section.

(ii) The homebuyer has met, and is continuing to meet, the requirements of the Homebuyers Ownership Opportunity Agreement.

(iii) The homebuyer has rendered, and is continuing to render, satisfactory performance of the responsibilities to the HBA.

(2) When the homebuyer has met these conditions precedent, the PHA shall give the homebuyer a certificate in the form prescribed by HUD stating that the homebuyer may exercise the option to buy the home. After achieving he required minimum EHPA balance within the first two years of occupancy, the homebuyer shall continue to provide the required maintenance, thereby continuing to add to the EHPA. If the homebuyer fails to meet either the obligation to achieve

the minimum EHPA balance, as specified, or the obligation thereafter to continue adding to the EHPA, the PHA and the HBA shall investigate and take appropriate corrective action, including termination of the Agreement by the PHA in accordance with § 804.107(m). If the homebuyer fails to achieve the EHPA balance required under § 804.110(c)(1)(i) within the first two years, but the PHA determines that there are extenuating causes of such failure, or that the reasons for the failure may be eliminated by counseling or other assistance, the PHA may allow additional time to reach the required EHPA balance and a certificate may be granted after achievement of the required EHPA balance.

(3) Before deciding to issue a certificate, or to grant additional time for earning a certificate, or to terminate the Agreement for failure to meet the conditions for issuance of a certificate, the PHA shall consult with the HBA, but the final decision shall be the responsibility of the PHA.

(d) *Additional equity through maintenance of common property.* Homebuyers may earn additional EHPA credits by providing in whole or in part any of the maintenance necessary to the common property of the development. When such maintenance is to be provided by the homebuyer, this may be done and credit earned therefor only pursuant to a prior written agreement between the homebuyer and the PHA, covering the nature and scope of the work and the amount of credit the homebuyer is to receive. In such cases amount shall be charged to the appropriate maintenance account and credited to the homebuyer's EHPA upon completion of this work.

(e) *Investment of excess.* (1) When the aggregate amount of all EHPA balances exceeds the estimated reserve requirements for 90 days, the PHA shall notify the HBA and shall invest the excess in federally insured savings accounts, federally insured credit unions, and/or securities approved by HUD and in accordance with any recommendations made by the HBA. If the HBA wishes to participate in the investment program, it should submit periodically to the PHA a list of HUD-approved securities, bonds, or obligations which the association recommends for investment by the PHA of the funds in the EHPAs. Interest earned on the investment of such funds shall be prorated and credited to each homebuyer's EHPA in proportion to the amount in each such reserve account.

(2) Periodically, but not less than semi-annually, the PHA shall prepare a statement showing (i) the aggregate amount of all EHPA balances, (ii) the aggregate amount of investments (savings accounts and/or securities) held

for the account of all the homebuyer's EHPAs, and (iii) the aggregate unvested balance of all the homebuyers' EHPAs. This statement shall be made available to any authorized representative of the HBA.

(f) *Voluntary payments.* To enable the homebuyer to acquire title to the home within a shorter period, the homebuyer may, either periodically or in a lump sum voluntarily make payments over and above the required monthly payments. Such voluntary payments shall be credited to the homebuyer's EHPA.

(g) *Delinquent monthly payments.* Under exceptional circumstances, as determined by the HBA and the PHA, a homebuyer's EHPA may be used to pay the homebuyer's delinquent required monthly payments, provided the amount used for this purpose does not seriously deplete the account and provided that the homebuyer agrees to cooperate in such counseling as may be made available by the PHA or the HBA.

(h) *Annual statement to homebuyer.* The PHA shall provide an annual statement to each homebuyer specifying at least (1) the amount in the EHPA, and (2) the amount in the NRMR. During the year, any maintenance or repair done on the dwelling by the PHA which is chargeable to the EHPA or to the NRMR shall be accounted for through a work order. A homebuyer shall receive a copy of all such work orders for the home.

(i) *Withdrawal and assignment.* The homebuyer shall have no right to use, assign, withdraw, or in any way dispose of the funds in the EHPA except as provided in this section or in § 804.113 and § 804.115.

(j) *Application of EHPA upon termination of Agreement.* (1) In the event a Homebuyers Ownership Opportunity Agreement with the PHA is terminated (see § 804.107 (l), (m), (n) and (o)), the PHA shall charge against the homebuyer's EHPA the amounts required to pay (i) monthly payments the homebuyer is obligated to pay up to the date the home is vacated; (ii) the required monthly payment for the period the home is vacant, not to exceed 30 days from the date of notice of intention to vacate, or, if the homebuyer fails to give notice of intention to vacate, 30 days from the date the home is put in good condition for the next occupant in conformity with § 804.107; and (iii) the cost of any routine maintenance, and of any nonroutine maintenance attributable to the negligence of the homebuyer, required to put the home in good condition for the next occupant in conformity with § 804.107(h).

(2) If the EHPA balance is not sufficient to cover all of these charges, the PHA shall require the homebuyer to

pay the additional amount due. If the amount due. If the amount in the account exceeds these charges, the excess shall be paid to the homebuyer.

(3) Settlement with the homebuyer shall be made promptly after the actual cost of repairs to the dwelling has been determined (see paragraph (j)(1)(iii) of this section), provided that the PHA shall make every effort to make such settlement within 30 days from the date the homebuyer vacates. The homebuyer may obtain a settlement within 7 days of the date the home is vacated, even though the actual cost of such repair has not yet been determined, if the homebuyer has given the PHA notice of intention to vacate at least 30 days prior to the date the homebuyer vacates and if the amount to be charged against the homebuyer's EHPA for such repairs is based on the PHA's estimate of the cost thereof (determined after consultation with the appropriate representative of the HBA).

(k) *EHPA balance.* All references in this subpart B to the EHPA balance or amount available in the homebuyer's EHPA shall be deemed to mean the net amount remaining in the account after taking into consideration any amounts due the PHA from the homebuyer, including delinquent required monthly payments.

#### § 804.111 Nonroutine Maintenance Reserve (NRMR).

(a) *Purpose of reserve.* The PHA shall establish and maintain a separate NRMR for each home, using a portion of the homebuyer's required monthly payment. The purpose of the NRMR is to provide funds for the nonroutine maintenance of the home, which consists of the infrequent and costly items of maintenance and replacement shown on the Nonroutine Maintenance Schedule for the home (see paragraph (b) of this section). Such maintenance may include the replacement of dwelling equipment (such as range and refrigerator), replacement of roof, exterior painting, major repairs to heating and plumbing systems, etc. The NRMR shall not be used for nonroutine maintenance of common property, or for nonroutine maintenance relating to the home to the extent such maintenance is attributable to the homebuyer's negligence or to defective materials or workmanship.

(b) *Amount of reserve.* The amount of the monthly payments to be set aside for NRMR shall be determined by the PHA, with the approval of HUD, on the basis of the Nonroutine Maintenance Schedule showing the amount likely to be needed for nonroutine maintenance of the home during the term of the Homebuyers Ownership Opportunity Agreement,

taking into consideration the type of construction and dwelling equipment. This Schedule shall (1) list each item of nonroutine maintenance (e.g., range, refrigerator, plumbing, heating system, roofing, the flooring, exterior painting, etc.), (2) show for each listed item the estimated frequency of maintenance or useful life before replacement, the estimated cost of maintenance or replacement (including installation) for each occasion, and the annual reserve requirement, and (3) show the total reserve requirements for all the listed items, on an annual and a monthly basis. This Schedule shall be prepared by the PHA and approved by HUD as part of the submission required to determine the financial feasibility of the Project. The Schedule shall be revised after approval of the working drawings and specifications, and shall thereafter be reexamined annually in the light of changing economic conditions and experience.

(c) *Charges to NRMR.* (1) The PHA shall provide the nonroutine maintenance necessary for the home and the cost thereof shall be funded as provided in paragraph (C)(2) of this section. Such maintenance may be provided by the homebuyer but only pursuant to a prior written agreement with the PHA covering the nature and scope of the work and the amount of credit the homebuyer is to receive. The amount of any credit shall, upon completion of the work, be credited to the homebuyer's EHPA and charged as provided in paragraph (c)(2) of this section.

(2) The cost of nonroutine maintenance shall be charged to the NRMR for the home except that (i) to the extent such maintenance is attributable to the fault or negligence of the homebuyer, the cost shall be charged to the homebuyer's EHPA after consultation with the HBA if the homebuyer disagrees, and (ii) to the extent such maintenance is attributable to defective materials or workmanship not covered by warranty, or even though covered by warranty if not paid for thereunder through no fault or negligence of the homebuyer, the cost shall be charged to the appropriate operating expense account of the Project.

(3) In the event the amount charged against the NRMR exceeds the balance therein, the difference (deficit) shall be made up from continuing monthly credits to the NRMR based upon the homebuyer's monthly payments. If there is still a deficit when the homebuyer acquires title, the homebuyer shall pay such deficit at settlement (see paragraph (d)(2) of this section).

(d) *Transfer of NRMR.* (1) In the event the Homebuyer's Ownership Op-

portunity Agreement is terminated, the homebuyer shall not receive any balance or be required to pay any deficit in the NRMR. When a subsequent homebuyer moves in, the NRMR shall continue to be applicable to the home in the same amount as if the preceding homebuyer had continued in occupancy.

(2) In the event the homebuyer purchases the home, and there remains a balance in the NRMR, the PHA shall pay such balance to the homebuyer at settlement. In the event the homebuyer purchases and there is a deficit in the NRMR, the homebuyer shall pay such deficit to the PHA at settlement.

(e) *Investment of excess.* (1) When the aggregate amount of the NRMR balances for all the homes exceeds the estimated reserve requirements for 90 days the PHA shall invest the excess in federally insured savings accounts, federally insured credit unions, and/or securities approved by HUD. Income earned on the investment of such funds shall be prorated and credited to each homebuyer's NRMR in proportion to the amount in each reserve account.

(2) Periodically, but not less often than semi-annually, the PHA shall prepare a statement showing (i) the aggregate amount of all NRMR balances, (ii) the aggregate amount of investments (savings accounts and/or securities) held for the account of the NRMRs, and (iii) the aggregate unvested balance of the NRMRs. A copy of this statement shall be made available to any authorized representative of the HBA.

#### § 804.112 Operating reserve.

(a) *Purpose of reserve.* To the extent that total operating receipts (including any operating subsidy) exceed total operating expenditures of the development, the PHA shall establish an operating reserve up to the maximum operating reserve for the development (see § 804.112(d)). The purpose of this reserve is to provide funds for: (1) the infrequent but costly items of nonroutine maintenance and replacements of common property, taking into consideration the types of items which constitute common property, such as nondwelling structures and equipment, and in certain cases, common elements of dwelling structures, (2) nonroutine maintenance for the homes to the extent such maintenance is attributable to defective materials or workmanship not covered by warranty, or covered by warranty but not paid for thereunder through no fault or neglect of the homebuyer, (3) working capital for payment of a deficit in a homebuyer's NRMR, until such deficit is offset by future required monthly payments by the homebuyer or at

settlement in the event the homebuyer should purchase, and (4) a deficit in the operation of the development for a fiscal year, including a deficit resulting from required monthly payments totaling less than the break-even amount for the development.

(b) *Nonroutine Maintenance—common property (Contribution to operating reserve).* The amount under this heading to be included in operating expense (and in the break-even amount) established for the fiscal year (see § 804.108 and § 804.109) shall be determined by the PHA, with the approval of HUD, on the basis of estimates of the monthly amount needed to accumulate an adequate reserve for the items described in paragraph (a)(1) of this section. This amount shall be subject to revision in the light of experience. This contribution to the operating reserve shall be made only during the period the PHA is responsible for the maintenance of any common property; and during such period, the amount shall be determined on the basis of the requirements of all common property in the development in a manner similar to that explained in § 804.109(c). When the operating reserve reaches the maximum authorized in accordance with § 804.112(d) below, the break-even (monthly operating expense) computations (see § 804.108 and § 804.109) for the next and succeeding fiscal years need not include a provision for this contribution to the operating reserve unless the balance of the reserve is reduced below the maximum during any such succeeding fiscal year.

(c) *Transfer to homeowners association.* The PHA shall be responsible for and shall retain custody of the operating reserve until the homeowners acquire voting control of the homeowners association (see § 804.118(d) and § 804.119(f)). When the homeowners acquire voting control, the homeowners association shall then assume full responsibility for management and maintenance of common property under a plan approved by HUD, and there shall be transferred to the homeowners association a portion of the operating reserve then held by the PHA. The amount of the reserve to be transferred shall be based upon the proportion that one-half of budgeted routine expense (used as a basis for determining the current maximum operating reserve—see paragraph (d) of this section) bears to the approved maximum operating reserve. Specifically, the portion of operating reserve to be transferred shall be computed as follows: obtain a percentage by dividing one-half of budgeted routine expense by the approved maximum operating reserve, and multiply the actual operating reserve balance by this percentage.

(d) *Establishment of maximum operating reserve.* The maximum operating reserve that may be retained by the PHA at the end of any fiscal year shall be the sum of (1) one-half of total routine expense included in the operating budget approved for the next fiscal year, and (2) one-third of total break-even amounts included in the operating budget approved for the next fiscal year; provided that such maximum may be increased if necessary as determined or approved by HUD. Total routine expense means the sum of the amounts budgeted for administration, homebuyers services, PHA-supplied utilities, routine maintenance of common property, protective services, and general expense or other category of day-to-day routine expense (see § 804.109 above for explanation of various categories of expense).

(e) *Disposition of reserve.* If, at the end of a fiscal year, there is an excess over the maximum operating reserve, the excess shall be prorated to the NRMR of each homebuyer whose total required monthly payments paid for the fiscal year exceeded the total break-even amount for the year. The amount to be credited to each eligible homebuyer's NRMR shall be determined as follows:

(1) Compute the amount by which each homebuyer's total required monthly payments paid during the fiscal year exceeded the total break-even amount for the year, and compute the aggregate of these individual excess amounts. Those homebuyers whose required monthly payments for the year were less than the break-even amount for the year, and those homebuyers who at the time of the computation are delinquent in payment of any required monthly payments, shall not be eligible for the additional credit, and shall not be included in the computation.

(2) Form a fraction in which the numerator is the individual homebuyer's excess over break-even, and the denominator is the aggregate excess for all the homebuyers, as determined in (1) above.

(3) Multiply the total amount to be prorated by the fraction formed in (2) above. The amount so determined shall be credited to the homebuyer's NRMR. Following the end of the fiscal year in which the last home has been conveyed by the PHA, the balance of the operating reserve held by the PHA shall be paid to HUD.

#### § 804.113 Achievement of ownership by initial homebuyer.

(a) *Determination of initial purchase price.* The PHA shall determine the initial purchase price of the home by two basic steps, as follows:

*Step 1:* The PHA shall take the Estimated Total Development Cost (in-

cluding the full amount for contingencies as authorized by HUD) of the development as shown in the Development Cost Budget in effect upon award of the Construction Contract or execution of the Contract of Sale, and shall deduct therefrom the amounts, if any, attributed to (1) relocation costs, (2) counseling and training costs, and (3) the cost of any community, administration or management, and furnishings attributable to such facilities as set forth in the development program for the development. The resulting amount is herein called Estimated Total Development Cost for Homebuyers.

*Step 2:* The PHA shall apportion the Estimated Total Development Cost for Homebuyers among all the homes in the development. This apportionment shall be made by obtaining an HUD appraisal of each home and adjusting such appraised values (upward or downward) by the percentage difference between the total of the appraisal for all the homes and the Estimated Total Development Cost For Homebuyers. The adjusted amount for each home shall be the initial purchase price for that home.

(b) *Purchase price schedule.* Each homebuyer shall be provided with a Purchase Price Schedule showing (1) the monthly-declining purchase price over a 30-year period,<sup>1</sup> commencing with the initial purchase price on the first day of the month following the effective date of the Homebuyers Ownership Opportunity Agreement and (2) the monthly debt service amount upon which the Schedule is based. The Schedule and debt service amount shall be computed on the basis of the initial purchase price, a 30-year period, and a rate of interest equal to the minimum loan interest rate as specified in the Annual Contributions Contract for the Project on the date of HUD approval of the Development Cost Budget, described in paragraph (a) of this section, rounded up, if necessary, to the next multiple of one-fourth of the percent (¼ percent).

(c) *Methods of purchase.* (1) The homebuyer may achieve ownership when the amount in his EHPA, plus such portion of the NRMR as he wishes to use for the purchase, is equal to the purchase price as shown at that time on his Purchase Price Schedule plus all Incidental Costs (Incidental Costs means the costs incidental to acquiring ownership, including, but not limited to, the costs for a credit report, field survey, title examination, title insurance, and inspections, the fees for attorneys other than the PHA's attorneys, mortgage application and organization, closing

<sup>1</sup> Change to 25-year period where the ACC for the Project has a term of 25 years.

and recording, and the transfer taxes and loan discount payment, if any). If for any reason title to the home is not conveyed to the homebuyer during the month in which such circumstances occur, the purchase price shall be fixed at the amount specified for such month and the homebuyer shall be refunded (i) the net additions, if any, credited to the EHPA subsequent to such month, and (ii) such part of the required monthly payments made by the homebuyer after the purchase price has been fixed which exceeds the sum of the break-even amount attributable to the unit and the interest portion of the debt service shown in the Purchase Price Schedule.

(2) Where the sum of the purchase price and Incidental Costs is greater than the amounts in the homebuyer's EHPA and NRMR as described in paragraph (c)(1) of this section, the homebuyer may buy the home (i) by paying the excess amount with sums obtained through financing other than PHA Homeownership Financing or otherwise, or (ii) if eligible, by obtaining PHA Homeownership Financing under § 804.116(a) for all or any portion of the unpaid balance of the purchase price, and paying the Incidental Costs and any remaining unpaid balance of the purchase price by application of EHPA and NRMR balances or otherwise. The purchase price shall be the amount shown on the Purchase Price Schedule for the month in which the settlement date for the purchase occurs.

(3) If the PHA finances purchase of the home in accordance with § 804.116(a), the balances in the homebuyer's EHPA and NRMR (after payment pursuant to § 804.111(d)(2) of any deficit in the NRMR) shall be applied in the following order:

- (i) To payment of the initial financing costs specified in § 804.116(a)(2)(iii).
- (ii) To payment of the purchase price.

If application of the EHPA and NRMR does not provide sufficient funds for item (i) the homebuyer shall pay the deficiency in cash. PHA Homeownership Financing shall be limited to the unpaid balance of the purchase price, and shall not be available to cover any part of item (i).

#### § 804.114 Resale at profit during first five years.

(a) *Promissory note.* (1) If a homebuyer takes ownership (regardless of whether ownership is achieved under § 804.113 or § 804.115) at any time within the five-year period commencing with the first day of the month following the effective date of the Homebuyers Ownership Opportunity Agreement, the homebuyer shall sign a note, in an amount determined in ac-

cordance with § 804.114(a)(2), obligating the homebuyer to make a payment to the PHA if the homebuyer resells the home at a profit within such 5-year period. If, however, the homeowner should purchase and occupy another home within one year (18 months in case of a newly constructed home) of the resale of the Turnkey III home, the PHA shall refund to the homeowner the amount previously paid under the note, less the amount, if any, by which the resale price of the Turnkey III home exceeds the acquisition price of the new home, provided that application for such refund shall be made no later than 30 days after the date of acquisition of the new home.

(2) The note to be signed by the homebuyer pursuant to paragraph (a)(1), of this section shall be a non-interest-bearing promissory note to the PHA, which shall be in the form prescribed by HUD. The note shall be executed at the time the homebuyer becomes a homeowner and shall be secured by a mortgage. If purchase of the home was financed in whole or in part by mortgage financing other than PHA financing, the mortgage to the PHA under this paragraph (2) shall be subordinated to the lien of such other mortgage. The amount of the note shall be computed by taking the HUD-appraised value of the home at the time the homebuyer becomes a homeowner and subtracting (i) the homebuyer's purchase price plus the Incidental Costs and (ii) the increase in value of the home, determined by appraisal, caused by improvements paid for by the homebuyer with funds from sources other than the EHPA or NRMR. To protect the homeowner, the note shall provide that the amount payable under it shall in no event be more than the net profit on the resale, that is, the amount by which the resale price exceeds the sum of (i) the homebuyer's purchase price plus the Incidental Costs, (ii) the costs of the resale, including commissions and mortgage prepayment penalties, if any, and (iii) the increase in value of the home, determined by appraisal, due to improvements paid for as a homebuyer (with funds from sources other than the EHPA or NRMR) or as a homeowner.

(3) Amounts collected by the PHA under such notes shall be retained by the PHA for use in making refunds pursuant to paragraph (a)(1) of this section. After expiration of the period for the filing of claims for such refunds, any remaining amounts shall be applied (1) to reduce the PHA's capital indebtedness on the Project and (ii) after such indebtedness has been paid, for such purposes as may be authorized or approved by HUD under such

Annual Contributions Contract as the PHA may then have with HUD.

Illustration. If the homeowner's purchase price is \$10,000, the Incidental Costs are \$500, the value added by improvements is \$1,000, and the HUD-appraised value at the time ownership is acquired is \$17,000, the note computation would be as follows:

|                               |          |
|-------------------------------|----------|
| HUD appraised value.....      | \$17,000 |
| Homeowner's purchase price .. | 10,000   |
| Incidental Costs.....         | 500      |
| Improvements.....             | 1,000    |
| Note amount .....             | 5,500    |

If the homeowner, in this example, resells the home during the first year for a sales price of \$17,500, has resale costs of \$1,600 (including a sales commission), and has added \$1,500 value by further improvements, the homeowner would be required to pay the PHA \$5,500, as indicated in the following computations:

|                                          |          |
|------------------------------------------|----------|
| Resale price.....                        | \$17,500 |
| Resale costs.....                        | 1,600    |
| Purchase price and Incidental Costs..... | 10,500   |
| All improvements.....                    | 2,500    |
| Payable to PHA .....                     | 2,900    |

(b) *Residency requirements.* The five-year note period shall be extended by any period during which the homebuyer/homeowner rents or otherwise does not use the home as a principal place of residence. Only the actual amount of time of residence as a homebuyer or homeowner is counted and the note shall be in effect until a total of five years time of residence has elapsed, at which time the homeowner may request a release from the note, and PHA shall provide the release.

#### § 804.115 Achievement of ownership by subsequent homebuyer.

(a) *Definition.* In the event the initial homebuyer vacates the home before having acquired ownership, a subsequent occupant who enters into a Homebuyer's Ownership Opportunity Agreement and who is not a successor pursuant to § 804.107(1)(2) is herein called a "subsequent homebuyer."

(b) *Determination of initial purchase price.* The initial purchase price for a subsequent homebuyer shall be the lower of the current appraised value, or the current replacement cost of the home, both as determined or approved by HUD.

(c) *Purchase price schedule.* Each subsequent homebuyer shall be provided with a Purchase Price Schedule showing (1) the monthly declining purchase price over a 30-year period<sup>1</sup> commencing with the first day of the month following the effective date of

<sup>1</sup> Change to 25-year period where the ACC for the Project has a term of 25 years (see § 804.101(b)(3)).

the Homebuyers Ownership Opportunity Agreement of the subsequent homebuyer, and (2) the level monthly debt service amount necessary for complete amortization of the initial purchase price over such period at the interest rate used to complete the Purchase Price Schedule for the initial homebuyer.

(d) *Disposition of excess over maximum operating reserve after payment of PHA debt.* After payment in full of the PHA's debt, if there are any subsequent homebuyers, any amounts in the operating reserve for the development in excess of the maximum reserve level shall be apportioned to the NRMRs of the subsequent homebuyers in accordance with § 804.112(e).

#### § 804.116 PHA Homeownership Financing; Conveyance of home.

(a) *PHA Homeownership Financing.* (1) *Availability of PHA Financing.* A homebuyer may, if eligible, buy the home by obtaining PHA Homeownership Financing for all or any portion of the purchase price, and by paying at settlement all of the initial financing costs specified in paragraph (a)(iii) of this section, as well as any unpaid balance of the purchase price not covered by the financing. The PHA shall provide counseling to homebuyers eligible for PHA Homeownership Financing.

(2) *Eligibility.* A homebuyer shall be eligible for PHA Homeownership Financing if:

(i) The PHA determines that other suitable financing is not available.

(ii) The homebuyer's income is at the level and is likely to continue at the level at which 25 percent of monthly Family Income is at least equal to the sum of the monthly debt service amount shown on the homebuyer's Purchase Price Schedule and the PHA's estimate of the following monthly payments and allowances as approved by HUD:

(A) Payment for fire and extended coverage insurance on the home;

(B) Payment for taxes, special assessments and all other charges which are a lien against the property, including real property taxes and assessments;

(C) Payment for the PHA mortgage servicing charge;

(D) Payment for maintenance and operation of any common property;

(E) Amount allowed as necessary for maintenance of the home; and

(F) Amount allowed as necessary for utilities for the home.

(iii) The homebuyer can pay at settlement all of the following initial financing costs; the amounts necessary for settlement costs, the initial premium for fire and extended coverage insurance carried on the home after conveyance, and a contribution for the

Homeowner's Reserve in an amount equal to twelve times the sum of items (2)(i)(A) through (E) (available balances in the homebuyer's EHPA and NRMR, may be applied for the initial financing costs in accordance with § 804.113(c)(3)).

(3) *Notice of Financing Availability.* If the PHA determines that a homebuyer is eligible for PHA Homeownership Financing, the PHA shall notify the homebuyer in writing. After the PHA has given the notice, the homebuyer shall continue to have all of the rights and obligations of a homebuyer. However, during this period there shall be no further reduction in the purchase price under the purchase price schedule, and the purchase price at the time the homebuyer purchase the home shall be the amount shown on the purchase price schedule for the month the PHA gave notice of eligibility for financing.

(4) *Promissory Note and Mortgage.* (i) When PHA Homeownership Financing is utilized, the homebuyer shall execute and deliver a promissory note and mortgage at settlement on the home. The principal amount of the mortgage debt shall be equal to the unpaid balance of the purchase price of the home as determined in accordance with § 804.113 or § 804.115, as applicable.

(ii) The mortgage shall be reduced in accordance with a schedule providing for monthly reductions and complete amortization of the mortgage debt over a period commencing on the first day of the month following the date of conveyance and ending on the first day after the end of the period covered by the homebuyer's Purchase Price Schedule, and the schedule shall also show the level monthly debt service amount needed to complete the amortization over this period. The rate of interest upon which the schedule is computed shall be the same rate used to compute the Purchase Price Schedule for an initial homebuyer.

(iii) The promissory note and mortgage shall be in form approved by HUD. The promissory note shall, among other things, provide:

(A) For a Homeowner's Reserve (in the amount specified in paragraph (a)(2)(iii) of this section) to be held by the PHA to be used if the homeowner has no other funds reasonably available to pay for expenses such as maintenance, insurance and taxes;

(B) For monthly mortgage payments sufficient to cover (1) the monthly debt service (principal and interest) shown on the schedule, (2) the PHA mortgage servicing charge, (3) the premiums for fire and extended coverage insurance, (4) taxes, special assessments and other charges which are a lien against the property, and (5) pay-

ment for maintenance and operation of common property, if any.

(C) For a reduction, in the event of a reduction in the homebuyer's family income, of the portion of the monthly mortgage payment attributable to debt service, provided that in any event the homeowner shall be required to pay at a minimum the other elements listed in paragraph (a)(4)(iii)(b) which are included in the monthly mortgage payment. Since the mortgage payments by a mortgagor-homeowner are not "rental," the mortgage payments are not subject to the minimum or maximum rental provisions in section 3(1) of the Act, or the HUD regulations thereunder (Part 860, Subpart D).

(D) That for each month in which the homeowner makes the required monthly mortgage payment, the mortgage debt shall be reduced in accordance with the schedule, notwithstanding any reduction pursuant to paragraph (a)(4)(iii)(C) in the portion of the monthly mortgage payment attributable to debt service.

(iv) The mortgage shall secure performance of all the terms of the promissory note, shall be a first lien on the right, title and interest conveyed to the homebuyer by the PHA, and shall be promptly recorded by the PHA.

(5) *Insurance.* The PHA shall obtain fire and extended coverage insurance for protection of the PHA and the homeowner in an amount and on terms acceptable to HUD, which shall be effective upon conveyance to the homeowner, and shall be maintained until the full amortization of the homeowner's mortgage debt to the PHA. The PHA shall enforce the homeowner's obligation to pay amounts sufficient to cover the premiums for fire and extended coverage insurance on the home, but shall in any event carry the insurance out of any available funds, subject to collection from the homeowner. The homeowner shall make payments to the PHA (included in the monthly payments) to cover the cost of the insurance.

(6) *Mortgage Servicing Fees.* The amount of the mortgage servicing fees collected from the homeowner under the promissory note may be retained by the PHA, and utilized as project operating receipts.

(7) *Reports to HUD.* The PHA shall furnish to HUD all information and reports concerning homes conveyed with PHA Homeownership Financing as required by HUD, and at the times required by HUD.

(8) *Repossession of homes.* Where the PHA reacquires a home financed with PHA Homeownership Financing, whether by bidding in the home at foreclosure or by voluntary assignment from the mortgagor, the PHA shall endeavor to market the home to

an eligible Turnkey III homebuyer in accordance with this Subpart.

(b) *Conveyance of home.* When the homebuyer is to obtain ownership as described in § 804.113 or § 804.115, a closing date shall be mutually agreed upon by the parties. On the closing date the homebuyer:

(1) shall pay the required amount of money to the PHA, and receive a deed for the home, and

(2) if the home is conveyed with PHA Homeownership Financing pursuant to paragraph (a) of this section, shall deliver to the PHA the promissory note and first mortgage required in connection with such financing, and

(3) if the home is conveyed at any time within the five-year period commencing with the first day of the month following the effective date of the Homebuyers Ownership Opportunity Agreement, shall deliver to the PHA the promissory note and subordinate mortgage required pursuant to § 804.114.

(c) *Remittance of Purchase Price Payments to HUD.* The PHA shall, within 60 days after the end of each fiscal year, remit to HUD all amounts received on account of the purchase prices of the homes ("Purchase Payments") for application to payment of principal and interest on debt incurred by the PHA in connection with development of the project. After payment in full of such development debt, Purchase Payments shall be paid to HUD or applied as directed by HUD. Purchase Payments include all amounts applied to the homebuyer's purchase price from the homebuyer's EHPA and NRMR, any cash paid in by the homebuyer for application to the purchase price, and, where a home has been conveyed with PHA Homeownership Financing, any portion of the mortgage payments attributable to payment of the debt service on the mortgage.

#### § 804.117 Responsibilities of homeowner.

After acquisition of ownership each homeowner shall be required to pay to the PHA or to the homeowners association, as appropriate, a monthly fee for (a) the maintenance and operation of community facilities including utility facilities, if any, (b) the maintenance of grounds and other common areas and, (c) such other purposes as determined by the PHA or the homeowners association as appropriate, including taxes and a provision for a reserve. This requirement shall be set out in the planned unit development or condominium documents which shall be recorded prior to conveyance of any of the homes. If the PHA, for any reason, has failed to record such requirement prior to the first conveyance, the PHA shall require each homebuyer, as a precondition for convey-

ance, to contract with the PHA at settlement to make such payments. Such agreement shall be enforceable by the PHA or the homeowners association.

#### § 804.118 Homeowners association—planned unit development (PUD).

If the development is organized as a planned unit development:

(a) *Ownership and maintenance of common property.* The common areas, sidewalks, parking lots, and other common property in the development shall be owned and maintained as provided for in the approved planned unit development (PUD) program except that the PHA shall be responsible for maintenance until such time as the homeowners association assumes such responsibility (see § 804.112(d)).

(b) *Title restrictions.* The title ultimately conveyed to each homebuyer shall be subject to restrictions and encumbrances to protect the rights and property of all other owners. The homeowners association shall have the right and obligation to enforce such restrictions and encumbrances and to assess owners for the cost incurred in connection with common areas and property and other responsibilities.

(c) *Votes in association.* There shall be as many votes in the association as there are homes in the development, and, at the outset, all the voting rights shall be held by the PHA. As each home is conveyed to the homebuyer, one vote shall automatically go to the homeowner so that, when all the homes have been conveyed, the PHA shall no longer have any interest in the homeowners association.

(d) *Voting control.* The PHA shall not lose its majority voting interest in the association as soon as a majority of the homes have been conveyed, unless the law of the state requires control to be transferred at a particular time, or the PHA so desires. If permitted by state law, provision shall be made for each home owned by the

PHA to carry three votes, while each home owned by a homeowner shall carry one vote. Under this weighted voting plan, the PHA shall continue to have voting control until 75 percent of the homes have been acquired by homeowners. However, at its discretion, the PHA may transfer voting control to the homeowners when at least 50 percent of the homes have been acquired by the homeowners.

#### § 804.119 Homeowners association—condominium.

If the development is organized as a condominium:

(a) The PHA at the outset shall own each condominium unit and its undivided interest in the common areas;

(b) All the land, including that land under the housing units, shall be a part of the common areas;

(c) The homeowners association shall own no property but shall maintain and operate the common areas for the individual owners of the condominium units except that the PHA shall be responsible for maintenance until such time as the homeowners association assumes such responsibility (see § 804.112(d));

(d) The percentage of undivided interest attached to each condominium unit shall be based on the ratio of the value of the units to the value of all units and shall be fixed when the development is completed. This percentage shall determine the homeowner's liability for the maintenance of the common areas and facilities;

(e) Each homeowner's vote in the homeowners association shall be identical with the percentage of undivided interest attached to his unit; and

(f) The PHA shall not lose its majority voting interest in the association as soon as units representing 50 percent of the value of all units have been conveyed, unless the law of the state requires control to be transferred at a particular time or the PHA so desires.

For voting purposes, until units representing 75 percent of the value of all units have been acquired by homeowners, the total undivided interest attributable to the homes owned by the PHA shall be multiplied by three, if such weighted voting plan is permitted by state law. Under this plan, the PHA shall continue to maintain voting control until 75 percent of the homes have been acquired by homeowners. However, at its discretion, the PHA may transfer voting control to the homeowners when units representing at least 50 percent of the value of all units have been acquired by the homeowners.

#### § 804.120 Relationship of homeowners association to HBA.

The HBA and the PHA may make arrangements to permit homebuyers to participate in homeowners association matters which affect the homebuyers. Such arrangements may include rights to attend meetings and to participate in homeowners association deliberations and decisions.

(Sec. 7(d), Department of HUD Act (42 U.S.C. 3535(d)); United States Housing Act of 1937 (42 U.S.C. 1437 et seq.).

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Development Amendments of 1978, P.L. 95-557, 92 Stat. 2080, this proposed rule has been granted waiver of Congressional review requirements in order to permit publication at this time for public comment.

Issued at Washington, D.C., December 14, 1978.

LAWRENCE B. SIMONS,  
Assistant Secretary for Housing—Federal Housing Commissioner.

**LIGHT TRANSPORT  
AIRPLANE  
AIRWORTHINESS REVIEW**

[4910-13-M]

## DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

(14 CFR Parts 23, 25, and 135)

(Docket No. 18600; Notice No. 78-17)

## LIGHT TRANSPORT AIRPLANE AIRWORTHINESS REVIEW

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice announcing a new Regulatory Review.

SUMMARY: This notice: (1) announces the Light Transport Airplane Airworthiness Review; (2) announces the availability of FAA proposals; and (3) invites interested persons to comment on those proposals or to submit counter proposals for consideration at a Light Transport Airplane Airworthiness Review Conference. The objective of the Review is to develop airworthiness standards for multiengine airplanes having a suggested maximum passenger seating configuration, excluding any pilot seat, of about 30 seats and a maximum gross weight of about 35,000 pounds.

DATES: The following dates are targeted for the Review:

- Release Compilation of FAA proposals: December 1978.
- Announce forum and conference sites and dates: January 1979.
- Hold discussion forum on FAA proposals: March 1979.
- Hold review conference: May 1979.
- Issue Notice of Proposed Rule Making: December 1979.
- Comments on Notice due: March 1980.
- Issue final rule: December 1980.

ADDRESS: The compilation of FAA proposals may be requested now, and will be available at the following address. Federal Aviation Administration, Flight Standards Service, Airworthiness Review Branch, (AFS-910), 800 Independence Ave., S.W., Washington, D.C. 20591

## FOR FURTHER INFORMATION CONTACT:

Thomas E. McSweeney, Airworthiness Review Branch, (AFS-910), Flight Standards Service, Federal Aviation Administration, 800 Independence Ave., S.W., Washington, D.C. 20591; telephone: 202-755-8714.

## SUPPLEMENTARY INFORMATION:

## BACKGROUND

Current airworthiness standards exist for two basic designations of airplanes: Part 23 for airplanes 12,500 pounds or under having nine or less passenger seats and Part 25 for transport category airplanes. Commuter

airline and air taxi operations in the United States, which have grown substantially in recent years, have demonstrated a need for airplanes which are not fully transport category but exceed the size limitations of Part 23.

## THREE PHASE PROGRAM

Recognizing the need for improved standards for airplanes intended for these operations, the Administrator has initiated a three-phase program. The first phase was the issuance of revised Part 135, "Air Taxi Operators and Commercial Operators," on September 26, 1978 (43 FR 46742; October 10, 1978). This action aligned the rules for these operations more closely with those of Part 121, "Certification and Operations: Domestic Flag, and Supplemental Air Carriers and Commercial Operators of Large Aircraft." The second phase was the issuance of Notice No. 78-14, "Airworthiness Standards: Reciprocating and Turbo-propeller Powered Multiengine Airplanes," on September 28, 1978 (43 FR 46734; October 10, 1978). That notice proposed an increase in approved takeoff weights and passenger seating capacities for small airplanes. The third phase is the Light Transport Airplane Airworthiness Review. This Review contemplates the development of a new Part 24 of the Federal Aviation Regulations which will provide a separate set of airworthiness standards for multiengine airplanes that have a suggested maximum passenger seating configuration, excluding any pilot seat, of about 30 seats and a maximum gross weight of about 35,000 pounds.

Part 24 airworthiness standards are not necessarily meant to be made up of existing Part 23 or Part 25 rules. However, the airworthiness rules which exist for Part 23 and Part 25 category airplanes and appropriate portions of Appendix A of Part 135 can serve as a foundation for the proposed Part 24 requirements with appropriate modifications as suggested by interested persons.

## FAA PROPOSALS

The FAA wishes to obtain the participation of all interested persons in resolving the regulatory issues that may be involved. The most effective procedure for attaining that objective is the Light Transport Airplane Airworthiness Review announced in this notice and the dialogue that will take place during the associated discussion forum and review conference.

A compilation of FAA proposals for a new Part 24 of the Federal Aviation Regulations has been prepared and is being made available to any interested person who requests a copy and to those who have participated in a previous FAA Regulatory Review. This

compilation does not represent a final FAA position but is presented as a medium for encouraging public comments to aid in developing a notice of proposed rule making for Light Transport Airplane Airworthiness Standards. Interested persons are invited to review the FAA proposals so that they may be discussed at a forum which will be held in March 1979 before the May 1979 Conference when formal written submissions will be considered.

## SCOPE OF THE REGULATORY REVIEW

The scope of the Light Transport Airplane Airworthiness Review Program is limited to those proposals which are appropriate for the development of airworthiness standards for multiengine airplanes having a suggested maximum of about 30 passenger seats, excluding any pilot seat, and with a gross weight of about 35,000 pounds. Existing airworthiness standards for Part 23 and Part 25 category airplanes and appropriate portions of Appendix A of Part 135 serve as a foundation for the Part 24 proposals. However, new or additional standards believed to be appropriate are within the scope of the review and should be submitted.

## INITIAL PUBLIC MEETINGS

Because of the magnitude of this Review, a forum will be held in March 1979 so that interested persons have the opportunity to receive any clarification needed of the FAA proposals. At this forum, only discussion and clarification of FAA proposals will be entertained. There will be no decision-making and counter proposals will not be considered. A Review Conference will be held during May 1979. Formal comments, proposals and counter proposals will be discussed during this conference.

Specific information about dates and locations of the forum and conference will be announced in a notice to be published in the FEDERAL REGISTER in January 1979. Included in that notice will be information regarding the written submissions for the Conference, including the number of copies required, their screening for acceptability and their entry into the docket at the conference. A description of the content and format for written submissions is presented in this notice for advance information for interested persons to prepare for the conference to be held in May 1979.

## IMPROVING GOVERNMENT REGULATIONS

To implement the President's policy on improving government regulations, agencies must consider alternative ways to deal with a problem and an analysis of the economic consequences of each alternative. Thus, it is requested that each FAA proposal addressed

and each proposal submitted be supported by available economic data relative to the costs and benefits of that proposal. Nonquantifiable impacts should also be stated as fully as possible.

## REQUIRED FORMAT AND INFORMATION

The FAA has found during past Regulatory Review Programs that the processing of regulatory proposals is greatly facilitated when they are submitted in standard format and contain certain basic information.

The Appendix to this notice contains a sample of the format that should be used and includes several clerical guidelines.

Each submitted proposal or comment on an FAA proposal should contain at least the following information:

- (a) The full name or title of the proponent, or an appropriate acronym.
- (b) The FAR section affected.
- (c) The specific regulatory language proposed to attain the objective sought.
- (d) The language of the rule or rules from which the proposal is made.
- (e) An explanation and justification of the proposal, including answers to the following questions:
  - (1) What is the background?
  - (2) Why is the proposal necessary?
  - (3) What data, reports, records, etc., support the proposal?
  - (4) What is probable impact (if any) on the environment, energy consumption, safety, and the traveling public?
  - (5) Each FAA proposal and submitted proposal should be assessed for its

economic impact. This assessment should include a comparison of the costs associated with Parts 23 and 25, the FAA proposal, and any submitted proposal. These costs should be identified by such categories as design, testing, prototype, production, operating, etc. Where appropriate, these costs should be further identified as initial (one-time), recurring, and revenue loss or gain.

When more than one proposal is submitted to attain the objective sought, the information in (f) above may be stated in one of the proposals and cross referenced in the others.

(Secs. 313(a), 601 and 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423), Sec. 6(c)), Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on December 21, 1978.

LANGHORNE M. BOND,  
Administrator.

## APPENDIX—FORMAT FOR PROPOSALS

The following format below should be used in developing proposals, counter proposals and comments for consideration during the Light Transport Airplane Airworthiness Review Conference. In addition, each proposal should be submitted on a separate page. The text should be within margins not more than 6½ inches wide nor more than 9 inches long so that it can be printed on 8×10½ inch paper.

## SAMPLE FORMAT

Proposal: (Leave Blank).

From: (Name or Organization).  
Index: (Leave Blank).  
FAR: § 24.23(b)(2).  
Subject: Load Distribution Limits.  
Current Rule: § 23.23, 25.23, (Part 135, Appendix A, if applicable—.

## COMMENTS OR COUNTER PROPOSAL ON FAA PROPOSAL

Revise § 24.23(b)(2) to read as follows:

§ 24.23 Load distribution limits.

(b) . . . . .  
(2) (Insert proposed language here)

Explanation and justification: (Explain why the proposed change is necessary and, where applicable, include the following information:

- (1) What is the background?
- (2) Why is the proposal necessary?
- (3) What data, reports, records, etc., support the proposal?
- (4) What is the probable impact of the environment, inflation, energy consumption and the traveling public?
- (5) What is the economic impact affecting the manufacturers, the operators or both? Where possible, this should consider the initial cost of implementing the normal recurring cost and the anticipated revenue loss incurred.]

AGENCY: Coast Guard, DOT.

ACTION: Proposed rule.

**SUMMARY:** The Coast Guard has learned that the present requirements for placement of overcurrent protection do not consider manufacturing limitations on locating overcurrent protection devices directly at the source of power for a conductor. Because it would often be impractical to physically locate a circuit breaker right at the source of power, the Coast Guard proposes to allow a jumper conductor up to 7 inches long to be used. Also, where it is physically impractical to locate the overcurrent protection within 7 inches of the source of power, this proposed amendment allows the overcurrent protection to be up to 40 inches from the source of power, providing the conductor is protected from physical damage by being inside a sheath or in an enclosed box. The proposed amended regulations will provide a more practical application of minimum safety standards to recreational boating without adversely affecting boating safety.

**DATE:** Comments must be received on or before: Feb. 12, 1979.

## FOR FURTHER INFORMATION CONTACT:

Mr. Lars E. Granholm, Office of Boating Safety (G-BBT), U.S. Coast Guard, Room 4314, Department of Transportation, Trans Point Building, 2100 V Street SW., Washington, D.C. 20590 (202-426-4027).

## SUPPLEMENTARY INFORMATION:

Interested persons are invited to participate in this proposed rulemaking by submitting written views, data, or arguments. Each comment submitted should include the name and address of the person submitting it, identify this notice (CGD 78-090) and the specific section of the proposal to which the comment applies, and give the reasons for the comment. The proposal may be changed in light of comments received. All comments received will be considered before final action is taken on the proposal. Copies of all written comments received will be available for examination by interested persons. No public hearing is planned but one may be held at a time and place to be set in a later notice in the **FEDERAL REGISTER** if requested in writing by an

interested person raising a genuine issue and desiring to comment orally.

## DRAFTING INFORMATION

The principal persons involved in drafting this proposal are: Mr. Lars E. Granholm, Project Manager, Office of Boating Safety and Ms. Mary Ann McCabe, Project Attorney, Office of the Chief Counsel.

## DISCUSSION OF THE PROPOSED AMENDMENT

Publication of the final rule for 33 CFR Part 183, Subpart I, in the **FEDERAL REGISTER** took place on January 31, 1977. During the past few months the Coast Guard has received communications from the manufacturers of boats, gasoline powered marine engines, and electrical components. The communications indicate that the requirements for the placement of overcurrent protection devices at the source of power for a conductor or at the origin of a circuit is impractical in many situations. The Coast Guard has solicited written comments from various industry and standards organizations to evaluate the problem described above. That information has been considered with respect to the possible effects on persons subject to these regulations. The proposed amendment which follows was developed from that information.

## OVERCURRENT PROTECTION

Paragraph 183.455(b) specifies that overcurrent protection devices must be located at the source of power for a conductor or at the origin of a circuit. The information supplied to the Coast Guard indicates that it is often impractical to physically locate a circuit breaker or fuse directly at the source of power or at the origin of a circuit, generally a terminal, where a conductor or circuit receives its power. Accordingly, the Coast Guard proposes to amend the requirements for placement of overcurrent protection devices by allowing up to seven inches of jumper conductor between the source where a conductor or circuit receives its power and the overcurrent protection. The seven inches of jumper conductor is not a pigtail, as defined in § 183.402. Therefore, it must meet all the requirements in Subpart I as they apply to conductors. The jumper conductor is still required to be protected from overloading by a fuse or circuit breaker. The only potential hazard introduced by allowing the relocation of the overcurrent protection device is shorting to ground due to physical damage to the jumper conductor insulation. However, since these jumper conductors are generally located in protected areas such as junction boxes, control boxes, dashboards, and

similar enclosures, the probability of physical damage is considered to be insignificant.

The seven inch jumper conductor would provide relief for the majority of electrical systems installations. But, in other situations, such as long jumper conductors in breaker panels or supply conductors between the solenoids and engine starting motors, it is impractical to locate the overcurrent protection within seven inches of the source of power. For these conductors, the Coast Guard has determined that the overcurrent protection should be allowed to be placed up to 40 inches away from the source of power. The distance will be measured along the length of the jumper conductor. The jumper conductor must meet all the requirements of Subpart I as they apply to conductors.

By allowing such a jumper conductor to be 40 inches long, there is an increased potential for physical damage. Accordingly, the Coast Guard is requiring that a jumper conductor longer than seven inches have a protective sheath along its entire length, unless the jumper conductor is located inside a junction box, control box, enclosed electrical panel, or similar enclosure which protects the jumper conductor. The 7 inch and 40 inch lengths were determined after evaluating comments from voluntary standards and industry organizations. It is the intent of these regulations that the overcurrent protection should be placed as close to the source of power as practicable. However the proposed § 183.455(b)(1) and (3) will allow latitude for placement of overcurrent protection.

The Coast Guard proposes to delete subparagraph 183.455(b)(2). This subparagraph requires overcurrent protection at a point where a conductor size is reduced to a smaller gauge. However, this requirement is redundant because the point where a conductor is reduced in size, i.e. connected to another of a lesser amperage rating, is considered to be the new source of power for the lower rated circuit and in this case a requirement for overcurrent protection is already provided for in subparagraph 183.455(b)(1).

This proposal has been reviewed under the Department of Transportation's "Policies and Procedures for Simplification, Analysis, and Review of Regulations" (43 FR 9583, March 8, 1978). A draft evaluation has been prepared, and has been included in the public docket.

In consideration of the foregoing, the Coast Guard proposes that in Part 183 of Chapter I of Title 33, Code of Federal Regulations, § 183.455 be revised to read as follows:

§ 183.455 Overcurrent protection: General.

(b) A manually reset, trip-free breaker or fuse must be—

(1) At or within seven inches of the source of power for each conductor, measured along the conductor;

(2) At the origin of a circuit if the circuit breaker or fuse has a current rating that prevents overloading of the smallest conductor in the circuit;

(3) At or within 40 inches of the source of power for each conductor, measured along the conductor, provided the conductor is protected from physical damage throughout the distance between the source of power and the required circuit breaker or fuse by a sheath or enclosure such as a junction box, control box, or enclosed panel.

(85 Stat. 215 (46 U.S.C. 1454); 49 CFR 1.46(n)(1).)

Dated: December 20, 1978.

J. B. HAYES,  
Admiral, U.S. Coast Guard  
Commandant.

[Docket No. R-78-601]

PHA-OWNED PROJECTS—PROJECT  
MANAGEMENT—UTILITIESSubpart C—Energy Audits and Energy  
Conservation MeasuresAGENCY: Department of Housing  
and Urban Development (HUD).

ACTION: Proposed Rule.

**SUMMARY:** The Department is proposing to add a new Subpart C—Energy Audits and Energy Conservation Measures to 24 CFR Part 865 that will require all public housing agencies (PHAs) to conduct energy audits and to accomplish energy conservation measures according to the period required to accumulate net savings in the amount of the initial cost of the energy conservation measure ("pay-back period"). Other energy conservation methods are also specified.

DATE: Comments due January 29,  
1979.

**ADDRESSEES:** Interested persons are invited to participate in the making of these proposed rules by submitting written comments suggestions and views to the Rules Docket Clerk, Room 5218, Department of Housing and Urban Development, 451 7th Street SW., Washington, D.C. 20410. Communication should identify the subject matter by the above title, docket number, and date of publication. All relevant material received on or before the date specified above will be considered before adoption of the Final Rule. A copy of each written communication will be available for public inspection at the above address during regular business hours.

FOR FURTHER INFORMATION  
CONTACT:

Richard M. Ulf, Chief, Maintenance Operations Branch, Office of Associated Housing Management, HUD, 451 7th Street, SW., Washington, D.C. 20410, (202) 755-5840. (This is not a toll-free number.)

**SUPPLEMENTARY INFORMATION:** The proposed subpart will further implement HUD policy with respect to energy conservation in Public Housing Agency (PHA) owned housing projects. For a number of years HUD has the dual objectives of conserving energy in support of National goals while at the same time minimizing the cost of the utilities that must be covered by payments from public housing

tenants and Federal operating subsidies. In addition to providing technical assistance to PHAs, HUD previously has designated energy conservation improvements as a priority for funding under the Modernization Program. Reduction in energy consumption was also the objective of the requirement in Subpart D, Utilities, 24 CFR Part 865 for individual metering of utilities where cost-effective. This new subpart is intended to involve all PHAs in a total program for energy conservation.

The proposed regulation will require as the first step that PHAs review the elements of their buildings that have a potential for energy conserving improvements. In keeping with the terminology established by the Department of Energy (DOE) this review process is called an energy audit. (HUD proposes to use DOE terminology and, to the extent feasible, existing DOE terminology in the area of energy conservation.)

Energy audits are required for specified energy conservation measures that HUD and DOE have agreed have the greatest potential for energy savings and cost-effectiveness. For application in PHA-owned housing projects, the DOE list of potential energy conservation measures have been tailored to fit the special conditions in public housing projects. The regulation incorporates one list of energy conservation measures, considered applicable to all types of housing, that are mandatory for coverage in all energy audits. A second list is optional and recommended for coverage, where appropriate.

The objective of the required energy audits is to determine the cost-effectiveness and the order of priority applicable in funding energy conservation measures. In general, the DOE analysis methodology is specified; however, to simplify energy audits procedures, rather than use the present value method specified by DOE, HUD proposes that in performing energy audits, PHAs will use the "pay-back" period. The "pay-back" period, in this regulation, is defined as the number of years required to accumulate net savings in the amount of the initial cost of the energy conservation measure. HUD believes that for the purpose of establishing funding priorities the energy audit can ignore discount rates and anticipated energy cost increases. By doing so, PHAs will be able, in many cases, to make the necessary calculations without expert assistance. The benefit/cost analysis specified in § 865.404 will continue to be utilized in determining the cost-effectiveness of individual metering.

While it may be necessary for some PHAs to engage consultants to conduct energy audits covering the more complicated energy conservation measures,

HUD believes that, for many projects, PHAs will be able to audit the less complicated measures, such as increasing insulation, with their own staff and the help of local suppliers and energy officials.

Funding for energy conservation measures will depend on the availability of PHA operating funds and Modernization Program funds. This proposed subpart requires only that, when funds are available, the PHA shall accomplish the energy conservation measures in the order of priority determined by the energy audits. HUD plans that concurrently with the issuance of this proposed rule the final rule pertaining to individual metering of utilities, Subpart D, 24 CFR Part 865, will be modified by publication of a proposed rule making it consistent with this Subpart.

This subpart further will require that all appliances procured by PHAs be of the highest energy efficiency. HUD believes that most, if not all, appliance manufacturers produce high efficiency models and that PHAs should procure these models.

This subpart also requires that PHAs follow operating practices directed to maximum energy conservation including limiting the maximum temperature of domestic hot water temperature of 120 degrees. While many PHAs have already adopted these energy saving practices, it is important that all PHAs do the same.

A finding of inapplicability respecting Section 102(2)(c) of the National Environmental Policy Act of 1969 has been made in accordance with HUD procedures. A copy of this finding of inapplicability will be available for public inspection during business hours in the Office of the Rules Docket Clerk, Office of General Counsel, Room 5218, Department of Housing and Urban Development, 451 7th Street, SW., Washington, D.C. 20410.

It is therefore proposed that the following new Subpart C be added to Title 24, Part 865.

Subpart C—Energy Audits and Energy Conservation  
Measures

- Sec.  
865.301 Purposes.  
865.302 Applicability.  
865.303 Definitions.  
865.304 Requirements for energy audits.  
865.305 Energy conservation measures.  
865.306 Optional energy conservation measures.  
865.307 Order of funding.  
865.308 Funding.  
865.309 Energy conservation equipment.  
865.310 Energy conservation practices.  
865.311 Compliance schedule.

AUTHORITY: Sec. 7(d), Department of HUD Act, 42 U.S.C. 3535(d).

Subpart C—Energy Audits and Energy  
Conservation Measures

## § 865.301 Purposes.

The purpose of this subpart is to implement HUD policies in support of national energy conservation goals by reducing energy consumption, with consequent reduction of operating costs, of PHA-owned housing projects (except Section 8) assisted under the United States Housing Act of 1937, as amended, (the Act) by requiring that PHAs conduct energy audits and undertake certain cost-effective, energy conservation measures. Energy audits will determine what energy conservation measures will be cost-effective and will establish priorities for funding those measures found to be cost-effective.

## § 865.302 Applicability.

The provisions of this part apply to all PHAs with PHA-owned housing projects, including Mutual Help and Turnkey III. No PHA-leased project or Section 8 Housing Assistance Payments Program projects including PHA-owned Section 8 projects are covered by this subpart.

## § 865.303 Definitions.

(a) Energy audits means a process, carried out in accordance with this Subpart which identifies and specifies the energy and cost savings which are estimated to result from installing or accomplishing an energy conservation measure.

(b) Energy conservation measures mean physical improvements of modifications that, if undertaken to a building or facility, or its equipment, are likely to reduce the cost of energy in an amount sufficient to recover the installation costs in a period no longer than 15 years or the useful life of the measure which ever is less. Examples of energy conservation measures are shown in § 865.304 and 865.305.

(c) "Pay-back" period means the number of years required to accumulate net savings to equal the cost of an energy conservation measure.

## § 865.304 Requirements for energy audits.

All PHAs shall complete an appropriate energy audit for each PHA-owned project under management in accordance with the schedule specified in § 865.311. Energy audits shall be conducted by PHA personnel or consultants as appropriate. Energy audits shall analyze all of the energy conservation measures contained in § 865.305 that are pertinent to the type of buildings and equipment operated by the PHA. The objective of each audit shall be to determine the period of time needed to recover the cost of the energy conservation measures analyzed. In making this computation, the

estimated cost of accomplishing each energy conservation measure shall be divided by the net annual savings estimated for the measure to determine the period, in number of years, needed to recover the cost through savings.

Example:

1. The existing ceiling insulation in a building has a value of R-11. By adding additional insulation to a value of R-22, the annual savings in heating costs will amount to \$1000 per year.

2. The cost of installing the additional insulation is estimated to be \$7500.

3. The "Pay-back" period is:

$$\$7500 \div \$1000 = 7.5 \text{ years}$$

## § 865.305 Energy conservation measures.

PHAs shall conduct an energy audit covering all of the following energy conservation measures except those measures that are not appropriate for the building types or equipment operated by the PHA:

(a) Installation of individual utility meters. (Benefit/cost analysis will continue to be made in accordance with § 865.404.)

(b) Other measures.

- Ceiling insulation.
- Insulation of bare hot water or steam pipes.
- Caulking and sealants in building joints.
- Weatherstripping for doors and windows.
- Clock thermostats for units with individual heating controls.
- Exterior insulation for hot water heaters located in unheated spaces.
- Insulation for forced air ducts in unheated spaces.
- Storm windows or replacement of single glazed windows with double glazed windows.
- Replacement of incandescent fixtures in public spaces with higher efficiency lighting.
- Flow restrictors for hot water lines to shower heads or faucets.
- Thermostatic radiator valves.
- Floor insulation over unheated crawl spaces.

In order to support the use of measures other than checkmeters, the PHA must demonstrate to the satisfaction of HUD that such other measures are more cost-effective.

§ 865.306 Optional energy conservation  
measures.

Coverage of the following energy conservation measures, in making energy audits, is optional but PHAs are encouraged to proceed with coverage of these measures if there is reason to believe, based upon age of equipment, type of buildings, etc., that they may be cost-effective:

- (a) Exterior wall insulation.
- (b) Improved burners for oil-fired heating equipment.
- (c) Improved boiler controls for central, group or building heating plants.
- (d) Solar energy systems.

NOTE.—The pay-back period for these systems shall be calculated by multiplying the

amount of the estimated net savings by two. This is because solar energy is renewable and because anticipated costs increases in non-renewable energy are not to be considered in calculating their pay-back period.

(e) Separate boilers for domestic hot water in central, group or building heating plants.

(f) Heat pumps to replace existing electric resistance heating systems.

(g) Capacitors, peak load controllers, time clock controls and other equipment that will lower the cost of electricity.

## § 865.307 Order of funding.

Within the funds available to a PHA, energy conservation measures will be accomplished in the order of "pay-back" periods, with those funded first that have the shortest "pay-back" periods. Exceptions to this order of funding may be approved by the HUD Field Office Managers in the event that an energy conservation measure with a short "pay-back" period will cost more than the funds available to the PHA.

Example: By means of an energy audit of a PHA-owned project, a PHA determines the following order of funding for energy conservation measures.

| Energy Conservation Measures   | "Pay-Back" Period (years) |
|--------------------------------|---------------------------|
| Weatherstrip doors .....       | 1.5                       |
| Ceiling insulation .....       | 4.6                       |
| Electric checkmeters .....     | 5.2                       |
| Clock thermostats .....        | 5.7                       |
| Storm windows and doors .....  | 7.1                       |
| Improved boiler controls ..... | 10.3                      |
| Solar hot water heaters .....  | 14.7                      |

The PHA shall accomplish these energy conservation measures in the order listed, to the extent funds are available.

## § 865.308 Funding.

The cost of accomplishing cost-effective energy conservation measures, including the cost of performing energy audits, shall be funded from operating funds of the PHA to the extent feasible. When sufficient operating funds are not available for this purpose, such costs are eligible for inclusion in a Modernization Program or for funding from any available Development Funds for projects for which actual development cost has not yet been determined.

## § 865.309 Energy conservation equipment.

In purchasing original or, when needed, replacement equipment, PHAs shall acquire only:

- (a) Gas cooking ranges equipped with automatic electric ignition in lieu of standard pilot lights.

(b) Gas furnaces and space heaters equipped with automatic electric ignition and automatic flue dampers.

(c) Electric refrigerators, cooking ranges and domestic hot water heaters which were of the highest efficiency offered by a manufacturer for the type and size required, unless a life-cycle cost analysis determines that the less efficient model is more economical over the life of the appliance.

(d) New and replacement space heating thermostats which have been factory set for a maximum temperature of no more than 75°F.

#### § 865.310 Energy conservation practices.

In the operation of their facilities, PHAs shall follow operating practices directed to maximum energy conservation. Such practices shall include, but not be limited to, the following:

(a) The temperature of domestic hot water at the taps shall not exceed 120°F.

(b) All standing pilot lights in gas furnaces or space heaters shall be extinguished during the non-heating season.

#### § 865.311 Compliance schedule.

The energy audits required in § 865.303 shall be completed as a part of a PHAs first Modernization Program approved by HUD after the effective date of this subpart, except programs approved on a emergency bases or no later than 36 months after the effective date of this part, whichever is sooner. The energy conservation measures determined to be cost-effective shall be accomplished as soon as funds are available. The requirement for energy conservation equipment specified in § 865.309 shall be effective for all projects provided under Annual Contributions Contract commencing three (3) months after the effective date of this rule.

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Development Amendments Pub. L. 95-557, 92 Stat. 2080, this proposed rule has been granted waiver of congressional review requirements in order to

permit publication at this time for public comment.

Issued at Washington, D.C., October 26, 1978.

MORTON BARUCH,  
Acting Assistant Secretary for  
Housing—Federal Housing  
Commissioner.

[FR Doc. 78-36076 Filed 12-27-78; 8:45 am]

#### [4210-01-M]

[24 CFR Part 865]

[Docket No. R-78-605]

#### PHA-OWNED PROJECTS—PROJECT MANAGEMENT UTILITIES

##### Subpart D—Individual Metering Utilities

AGENCY: Department of Housing and Urban Development (HUD).

ACTION: Proposed rule.

SUMMARY: This changes the requirement of 24 CFR 865 pertaining to the installation of individual utility meters in low-income public housing by modifying the requirement for installation of all individual utility meters that a Benefit/Cost Analysis shows to be cost-effective to conform with a proposed new rule on energy audits and energy conservation measures.

DATE: Comments due January 29, 1979.

ADDRESSEES: Written comments should be sent to the Rules Docket Clerk, Office of the General Counsel, Room 5218, Department of Housing and Urban Development, 451 7th Street, S.W., Washington, D.C. 20410. A copy of each comment will be available for public inspection at this address during the regular business hours.

#### FOR FURTHER INFORMATION CONTACT:

Richard M. Ulf, Chief, Maintenance Operations Branch, Office of Assisted Housing Management, HUD 451 7th Street, S.W., Washington, D.C. 20410, (202) 755-5840. (This is not a toll free number.)

SUPPLEMENTARY INFORMATION: 24 CFR Part 865 Subpart D requires that all PHA-owned housing projects shall be individually metered if the installation of individual gas, electric or water meters would be cost-effective over a 20 year period. While HUD considers the use of individual meters to be a very effective method for conserving energy, it is proposing in 24 CFR Part 865 Subpart C published concur-

rently with this Proposed Rule to enlarge the energy conservation program for PHA-owned housing projects. This enlarged program will require the analysis for cost-effectiveness of several energy conservation measures in addition to individual utility meters. Under Subpart C, PHAs will be required to make energy audits of their projects and to determine the "pay-back" period for each measure analyzed. Energy conservation measures will then be funded and accomplished in the order of the shortest "pay-back" periods. HUD believes that, as a part of this program, individual metering should be treated similar to other energy conservation measures. Consequently, this Proposed Rule amends 24 CFR § 865.408 so that the installation of individual utility meters will be accomplished on a similar basis as other energy conservation measures, except that the benefit/cost analyses will continue to be made in accordance with § 865.404.

A finding of inapplicability respecting the National Environmental Policy Act of 1969 has been made in accordance with HUD procedures. A copy of this finding of inapplicability will be available for public inspection during regular business hours at the address specific above.

Accordingly 24 CFR Part 865 is proposed to be amended by revising Subpart D as follows:

##### Subpart D—Individual Metering of Utilities

#### § 865.408 Compliance schedule.

(b) Mastermetered projects determined to be cost-effective or conversion to Retail Service or Checkmetering shall be so converted according to their order of priority as specified in § 865.307, as funds become available.

AUTHORITY: Sec. 7(d) of the Dept. of HUD Act, 42 U.S.C. 3535(d).

In accordance with Section 7(o)(4) of the Department of HUD Act, Section 324 of the Housing and Community Development Amendments of 1978, P.L. 95-557, 92 Stat. 2080, this proposed rule has been granted waiver of Congressional review requirements in order to permit publication at this time for public comment.

Issued at Washington, D.C., October 26, 1978.

MORTON BARUCH,  
Acting Assistant Secretary for  
Housing, Federal Housing  
Commissioner.

# AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The following agencies have agreed to publish all documents on two assigned days of the week (Monday/Thursday or Tuesday/Friday). This is a voluntary program. (See OFR notice 41 FR 32914, August 6, 1976.)

| Monday          | Tuesday    | Wednesday | Thursday        | Friday     |
|-----------------|------------|-----------|-----------------|------------|
| DOT/COAST GUARD | USDA/ASCS  |           | DOT/COAST GUARD | USDA/ASCS  |
| DOT/NHTSA       | USDA/APHIS |           | DOT/NHTSA       | USDA/APHIS |
| DOT/FAA         | USDA/FNS   |           | DOT/FAA         | USDA/FNS   |
| DOT/OHMO        | USDA/FSQS  |           | DOT/OHMO        | USDA/FSQS  |
| DOT/OPSO        | USDA/REA   |           | DOT/OPSO        | USDA/REA   |
| CSA             | CSC        |           | CSA             | CSC        |
|                 | LABOR      |           |                 | LABOR      |
|                 | HEW/FDA    |           |                 | HEW/FDA    |

Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday.

Comments on this program are still invited. Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

NOTE: As of August 14, 1978, Community Services Administration (CSA) documents are being assigned to the Monday/Thursday schedule.

federal register

Phone 523-5240  
Area Code 202

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (40 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The Federal Register provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The Federal Register will be furnished by mail to subscribers, free of postage, for \$5.00 per month or \$50 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the Federal Register.

FEDERAL REGISTER, VOL. 43, NO. 251—FRIDAY, DECEMBER 29, 1978

## INFORMATION AND ASSISTANCE

Questions and requests for specific information may be directed to the following numbers. General inquiries may be made by dialing 202-523-5240.

## list of cfr parts affected in this issue

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, follows beginning with the second issue of the month.  
A Cumulative List of CFR Sections Affected is published separately at the end of each month. The guide lists the parts and sections affected by documents published since the revision date of each title.

# rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510. The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

## Title 5—Administrative Personnel

### CHAPTER I—CIVIL SERVICE COMMISSION

#### PART 338—QUALIFICATION REQUIREMENTS (GENERAL)

##### Revocation of Members-of-Family Restriction

AGENCY: Civil Service Commission.

ACTION: Final regulations.

SUMMARY: The Civil Service Commission's regulations are amended to revoke members-of-family restriction repealed by Public Law 95-454.

EFFECTIVE DATE: January 11, 1979.

FOR FURTHER INFORMATION CONTACT:

Mary Zankowski, 202-632-6817.

Accordingly, 5 CFR 338.201 is revoked.

(Pub. L. 95-454, Section 307(h))

CIVIL SERVICE COMMISSION,  
JAMES C. SPRY,  
Executive Assistant  
to the Commissioners.

[6325-01-M]

#### PART 550—PAY ADMINISTRATION (GENERAL)

##### Income Tax Withholding

AGENCY: Civil Service Commission.

ACTION: Final rule.

SUMMARY: Public Law 95-365, approved September 15, 1978, provided for the mandatory withholding of city income or employment taxes from the pay of Federal employees who are residents of certain cities that levy such taxes, but who are employed at Federal activities located outside the city, provided that the city of residence and the employing Federal activity are located in the same State. Previously, such withholding had been voluntary under § 550.361 of this part.

In order to reflect this change in law, the Commission has revised

§ 550.361 to delete the obsolete authorization for voluntary withholding in this situation. As revised, the regulation will authorize agencies to permit employees to make payroll allotments for the payment of (1) State or District of Columbia income taxes when the employee is a resident of the State or District of Columbia, but is employed at a Federal activity outside the State or District of Columbia; and (2) city or county income or employment taxes when the employee is either employed at a Federal activity outside of, or is a resident of, a State other than the State in which the taxing city or county is located.

EFFECTIVE DATE: December 14, 1978.

FOR FURTHER INFORMATION CONTACT:

Betty J. Roth, Bureau of Policies and Standards, Technical Services Staff, Room 3353, Civil Service Commission, 1900 E Street NW., Washington, D.C. 20415, 202-632-6553.

Accordingly, 5 CFR 550 is amended by revising § 550.361 to read as follows:

##### INCOME TAX WITHHOLDING

##### § 550.361 Scope.

When the Secretary of the Treasury has entered into an agreement to withhold income or employment taxes from the pay of employees under sections 5516, 5517, or 5520 of title 5, United States Code, an agency may permit an employee, regardless of his or her tenure, to make an allotment for:

(a) The payment of State or District of Columbia income taxes when the employee is employed outside of, but is a resident in, the State or the District of Columbia;

The payment of city or county income or employment taxes when the employee is employed outside of, or is not a resident in, the State in which the city or county is located.

(5 U.S.C. 5527; EO 10982, 3 CFR 1959-1963 Comp., p. 502, Pub. L. 95-365, Sept. 25, 1978.)

CIVIL SERVICE COMMISSION,  
JAMES C. SPRY,  
Executive Assistant  
to the Commissioners.

[FR Doc. 78-36353 Filed 12-28-78; 8:45 am]

[6325-01-M]

#### PART 772—APPEALS TO THE COMMISSION

AGENCY: Civil Service Commission.

ACTION: Final rule.

SUMMARY: This document amends the regulations to provide for the continuation of action on and acceptance and processing of appeals by the Merit Systems Protection Board in lieu of the Federal Employee Appeals Authority, the Appeals Review Board, and the Civil Service Commission pursuant to Sections 202 and 203 of Reorganization Plan No. 2 of 1978 (43 FR 36067).

EFFECTIVE DATE: January 1, 1979.

FOR FURTHER INFORMATION CONTACT:

James C. Spry, Executive Assistant to the Commissioners, U.S. Civil Service Commission, (202) 632-5556.

SUPPLEMENTARY INFORMATION: The U.S. Civil Service Commission will be redesignated the Merit Systems Protection Board (the "Board") effective January 1, 1979 pursuant to Section 201 of Reorganization Plan No. 2 of 1978 (43 FR 36037). The hearing, adjudication, and appeals functions of the Commission remain with the Board pursuant to Section 202(a) of the plan. The plan provides further, in Section 203, that the Board shall accept appeals from agency actions affected prior to the effective date of the plan and that proceedings then before the Federal Employee Appeals Authority, the Appeals Review Board, and the Commission shall continue before the Board.

Accordingly, 5 CFR Part 772 is amended as follows and shall remain in effect as amended from January 1, 1979 until the regulations of the Board are issued pursuant to the Civil Service Reform Act of 1978 (P.L. 95-454).

a. Subpart A is revised to read as follows:

Subpart A—Authority to Issue Final Decisions on Matters Before the Merit Systems Protection Board

Sec.  
772.101 Appeals Officers.  
772.102 Review Officers.

### Subpart A—Authority To Issue Final Decisions on Matters Before the Merit Systems Protection Board

#### § 772.101 Appeals Officers.

Appeals Officers of the Merit Systems Protection Board (the "Board") are authorized to make and issue final decisions and orders on all matters appealable to the Board except as otherwise provided by law or Board policy.

#### § 772.102 Review Officers.

Review Officers designated by the Board shall, subject to review by any member of the Board on his/her own motion, deny requests to reopen and reconsider decisions of appeals officers of the Board when the moving party fails to establish, pursuant to section 772.310 of this part, a valid basis for reopening the previous decision. The review officer shall, when recommending granting a request for reopening and reconsideration, report to the Board—

(a) The basis for reopening the previous decision;

(b) The issues of fact, law, or both which need to be reconsidered and resolved; and

(c) A recommended final determination of the matters at issue, or the action recommended to resolve the outstanding issues.

#### Subpart C—[Amended]

b. Subpart C is amended by:

(1) Revising the title of subpart C to read "The Board's Appellate Review of Actions Against Employees";

(2) Revising § 772.301 to read:

#### § 772.301 Coverage.

Except as otherwise provided, this Subpart applies to appeals to the Merit Systems Protection Board (hereinafter referred to as the Board) under Subpart A of Part 300 of this chapter, Subpart E of Part 302 of this chapter, Subpart H of Part 315 of this chapter, Subpart B of Part 330 of this chapter, Subpart I of Part 351 of this chapter, Subparts B, C, E, F, and G of Part 352 of this chapter, Subpart D of Part 353 of this chapter, Subparts D and E of Part 531 of this chapter, Subparts B and C of Part 752 of this chapter, and to appeals from adverse suitability determinations under Part 731 of this chapter, from adverse actions effected under Part 754 of this chapter, from decisions of the Bureau of Retirement, Insurance, and Occupational Health on application for disability retirement effected under Part 831 of this chapter, and from decisions of the Bureau of Retirement, Insurance, and Occupational Health on issues of entitlement to rights or benefits by claimants under Parts 831, 870, 871, 890 and 891 of this chapter.

#### §§ 772.302-772.308 [Amended]

(3) Substituting "the Board" for the terms "the Commission", "Federal Employee Appeals Authority", "office of the Appeals Authority", and "Appeals Authority", wherever such terms appear in §§ 772.302 through 772.308;

#### § 772.309 [Amended]

(4) Substituting "appeals officer" for "office of the Appeals Authority" and "Board" for "Appeals Review Board" in § 772.309;

#### § 772.310 [Amended]

(5) Substituting "Merit Systems Protection Board" for "Appeals Review Board" in § 772.310(a);

(6) Substituting "Office of Appeals Review, Merit Systems Protection Board, Washington, D.C. 20419" for "Appeals Review Board, U.S. Civil Service Commission, Washington, D.C. 20415" in § 772.310(c);

(7) Substituting "Board" for "Appeals Review Board" in § 772.310(g); and

#### §§ 772.311 and 772.312 [Revoked]

(8) Striking §§ 772.311 and 772.312.

#### Subpart D—[Amended]

c. Subpart D is amended by substituting "Board" for "Appeals Review Board", "Appeals Authority", "Commission" or "Commissioners" wherever such terms appear.

UNITED STATES CIVIL SERVICE COMMISSION,  
JAMES C. SPRY,  
Executive Assistant  
to the Commissioners.

#### [3410-21-M]

#### Title 7—Agriculture

#### SUBTITLE A—OFFICE OF THE SECRETARY OF AGRICULTURE

#### PART 11—SALES OF AGRICULTURAL COMMODITIES FOR FOREIGN CURRENCIES

#### Subpart A—Regulations Governing the Financing of Commercial Sales of Surplus Agricultural Commodities for Foreign Currencies

#### DELETION OF REGULATIONS

AGENCY: Office of the General Sales Manager, USDA.

ACTION: Final rule.

SUMMARY: This rule deletes regulations applicable to the financing of the sale of surplus agricultural commodities for foreign currencies pursuant to

Agricultural Commodities Agreements entered into under Pub. L. 480, 83d Congress, prior to January 1, 1967. Since these regulations are not applicable to the financing of sales made pursuant to such agreements entered into on or after such date, it has been determined that these regulations no longer need to be set forth in the Code of Federal Regulations. However, the provisions of these regulations shall continue to apply to any obligations or liability incurred or any rights received or accrued in connection with the financing of the sale of agricultural commodities pursuant to such Pub. L. 480 agreements entered into prior to January 1, 1967.

EFFECTIVE DATE: December 29, 1978. See "Supplementary Information."

#### FOR FURTHER INFORMATION CONTACT:

George J. Pope, Office of the General Sales Manager, U.S. Department of Agriculture, 14th and Independence Avenue SW., Room 4085 South Building, Washington, D.C. 20250, Telephone (202) 447-5637.

SUPPLEMENTARY INFORMATION: Since this regulation merely deletes provisions which are not applicable to the current Pub. L. 480 program, I hereby find that compliance with the notice and public participation requirements of E.O. 12044 and 5 U.S.C. 553(b) and the delayed effective date provision of 5 U.S.C. 553(d) is unnecessary.

#### FINAL RULE

#### Subpart A—[Reserved]

Accordingly 7 CFR Part 11, Subpart A, including Appendix A and B, is deleted and reserved. However, the provisions of these regulations shall continue to apply to any obligations or liability incurred or any rights received or accrued in connection with the financing of the sale of agricultural commodities pursuant to Agricultural Commodities Agreements entered into under Pub. L. 480, 83d Congress, prior to January 1, 1967.

(Sec. 101-115, Pub. L. 480, 83d Cong., as amended (7 U.S.C. 1701 et seq.); E.O. 10900, 26 FR 143, as amended.)

Signed at Washington, D.C., on December 28, 1978.

KELLY HARRISON,  
General Sales Manager, Office of  
the General Sales Manager,  
U.S. Department of Agriculture.

#### [3410-21-M]

#### PART 14—SALES OF AGRICULTURAL COMMODITIES ON CREDIT UNDER LONG-TERM SUPPLY CONTRACTS

#### Deletion of Regulations

AGENCY: Office of the General Sales Manager, USDA.

ACTION: Final rule.

SUMMARY: This rule deletes regulations applicable to the financing of surplus agricultural commodities purchased by importing countries and private trade entities pursuant to Agricultural Commodities Agreements entered into under Public Law 480, 83d Congress, prior to January 1, 1967. Since these regulations are not applicable to the financing of sales made pursuant to such agreements entered into on or after such date, it has been determined that these regulations no longer need to be set forth in the Code of Federal Regulations. However, the provisions of these regulations shall continue to apply to any obligations or liability incurred or any rights received or accrued in connection with the financing of the sale of agricultural commodities pursuant to such Pub. L. 480 agreements entered into prior to January 1, 1967.

EFFECTIVE DATE: December 29, 1978. See "Supplementary Information."

#### FOR FURTHER INFORMATION CONTACT:

George J. Pope, Office of the General Sales Manager, U.S. Department of Agriculture, 14th and Independence Avenue, SW, Room 4085 South Building, Washington, D.C. 20250, Telephone: (202) 447-5637.

SUPPLEMENTARY INFORMATION: Since this regulation merely deletes provisions which are not applicable to the current Public Law 480 program, I hereby find that compliance with the notice and public participation requirements of E.O. 12044 and 5 U.S.C. 553(b) and the delayed effective date provision of 5 U.S.C. 553(d) is unnecessary.

#### FINAL RULE

#### PART 14—[RESERVED]

Accordingly 7 CFR Part 14 is deleted and reserved. However, the provisions of these regulations shall continue to apply to any obligations or liability incurred or any rights received or accrued in connection with the financing of the sale of agricultural commodities pursuant to Agricultural Commodities Agreements entered into under Public Law 480, 83d Congress, prior to January 1, 1967.

(Sec. 101-115, Pub. L. 480, 83d Cong., as amended (7 U.S.C. 1701 et seq.); E.O. 10900, 26 FR 143, as amended.)

Signed at Washington, D.C., on: December 28, 1978.

KELLY HARRISON,  
General Sales Manager, Office of  
the General Sales Manager,  
U.S. Department of Agriculture.

#### [3410-30-M]

#### CHAPTER II—FOOD AND NUTRITION SERVICE, DEPARTMENT OF AGRICULTURE

#### PART 210—NATIONAL SCHOOL LUNCH PROGRAM

#### Program Management

AGENCY: Food and Nutrition Service, USDA.

ACTION: Final rule.

SUMMARY: This rule amends the National School Lunch Program regulations to accomplish the following: (1) Places additional regulatory controls on the involvement of food service management companies in the National School Lunch Program. (2) Makes applicable to School Food Authorities the procurement standards which currently apply only to State agencies. This action is being taken to effect better program management and to implement the intent of OMB Circular No. A-102.

EFFECTIVE DATE: This rule shall be effective for contracting and procurement of supplies and services for school year 1979-1980 and thereafter. Existing contracts which extend into school year 1979-1980 may remain in effect for the 1979-1980 school year with notification to the State agency.

#### FOR FURTHER INFORMATION, CONTACT:

Margaret O'K. Glavin, Director, School Programs Division, USDA, FNS, Washington, D.C. 20250 202-447-8130.

#### SUPPLEMENTARY INFORMATION:

#### FOOD SERVICE MANAGEMENT COMPANIES

On January 13, 1978 there was published in the FEDERAL REGISTER (43 FR 1955) a proposed amendment to the regulations to impose requirements upon School Food Authorities entering into contractual agreements with commercial enterprises for the preparation and service of program meals.

Interested persons and groups were given 45 days in which to submit comments, suggestions or objections re-

garding the proposed amendment. A total of 193 comments were received by the close of the official comment period, February 25. Forty-two of these comments fully supported the proposed regulations, stating that more controls on food service management companies involved in the program were necessary.

One hundred fifty-one comments were in objection to one or more of the requirements in the proposed regulations. The respondents' major area of concern regarded the one-year duration for all food service management contracts, prohibition of per-meal management fees, the use of a standard contract, reduction of authority at the local level, and the required use of a cycle menu. In addition, there were several objections to applying the same requirements to food service management companies and vendors. In drafting final regulations all of these sensitive issues have received full consideration, and the final regulations have been modified as follows.

Included in the proposal was a requirement to have State agencies develop a standard form contract for use by School Food Authorities contracting with food service management companies. The standard form contract was to be based upon a model drafted by the Department. Nine objections were received addressing this issue directly, and seven comments were received in objection to contracting regulations in general. School Food Authorities felt that their authority was being reduced because they would not be allowed to write their own contracts.

The respondents contended that food service management companies must provide both a service and a product. They believe the service portion of the food service management contract could not be properly addressed in a standard contract, but it is more suited for a request-for-proposal type of procurement.

The standard contract provision was not included in the regulations to reduce authority at the local level or to impede effective bidding procedures. There are certain basic requirements that need to be included in each contract, and it was determined that the use of a standard contract would be an effective way of implementing these controls. However, in final form these requirements will be included in food service management company contracts through the listing of minimum requirements in the final regulations. The minimum requirements include most of the requirements which were to be contained in the standard contract. This procedure will permit the School Food Authority to write its own contract, providing all of the provisions of the regulations, including

the minimum standards, are contained in the contract. Twenty-seven respondents objected to the mandatory competitive bid procedure, stating that the request-for-proposal type of procurement was preferable. The minimum standards approach will allow the request-for-proposal type of procurement to be utilized at the discretion of the School Food Authority.

The greatest number of comments in objection to a single issue concerned the limitation of contract duration to one year. Ninety-seven comments were in objection to this requirement. As proposed, a School Food Authority would initiate the procurement process each and every year it wished to contract with private enterprises. Respondents objected, stating this provision was considered to be a limitation of local authority; a burden on the School Food Authority since it would increase paper work; and a detriment to food service management company employees' morale because length of employment would be uncertain.

This provision has been modified in final form to be responsive to the comments in objection, but still to allow for open and free competition. The provision for one-year contract duration shall remain; however, options for two yearly renewals will be allowable, and a provision for 60-day termination by either party is mandatory. This would permit the School Food Authority to extend the contract on a yearly basis if the performance and costs were satisfactory. It would also allow the School Food Authority to terminate the contract, should the contractor's performance be unsatisfactory.

Thirty-three of the respondents objected to the requirement that a School Food Authority develop a cycle menu for the entire school year. They stated that strict adherence to a cycle menu would be counterproductive as it would prohibit a contractor from adjusting menus to satisfy the likes and dislikes of children. In addition, it could possibly limit the use of USDA-donated foods since the cycle menu would be prepared well before they knew which foods would be donated by the Department.

To have the School Food Authority prepare menus for the year was not the intent of the proposed regulations. Rather, the intent was to require the School Food Authority to include a cycle menu with the invitation to bid or request for proposal, upon which cost to a School Food Authority could be based. This would permit all interested food service management companies to compete in a fair and equitable manner.

The cycle menu requirement will be retained with clarification because of its value in standardizing procurement and as a management tool. Variations

from the menu will be allowable after the first 21 days of food service with approval of the School Food Authority.

To assist in the development of acceptable menu regulations also require a School Food Authority contracting with a food service management company to establish an advisory board to assist in menu planning.

Objections to the proposed prohibition of management fees on a per meal basis numbered 81. Respondents indicated that per-meal management fees provide an incentive to the contractor to more fully meet the National School Lunch Program goal of increasing participation in the "Type A" lunch, and that if, through good management, the company can encourage increased participation it is appropriate that it be paid for its efforts. This part of the proposal has been changed to allow contracts with the management fee on a per-meal basis. However, cost-plus-a-percentage-of-cost contracts have been prohibited.

Twenty-seven comments were received objecting to the State agency approval of contracts over \$100,000 and the requirement mandating justification to the State agency should the School Food Authority contemplate accepting other than the low bid. The respondents interpreted these requirements as an erosion of authority at the local level. They contend that the local school boards should have the right to write and approve contracts as long as program objectives are being achieved. These requirements have been excluded from the regulations. As stated by nine of the respondents, the \$100,000 figure is very arbitrary, and many schools with large contracts have more experience and expertise in food service management contracts than schools with small contracts. In addition, very few of the State agencies have employees with sufficient experience in the field of food service management contracting to approve contracts.

In lieu of these requirements, the regulations have been changed to require State agencies to provide assistance to any School Food Authority requesting such aid. A copy of all food service management contracts must be forwarded to the State agency for review, and it will be the responsibility of the State agency to review each contract to ensure that all provisions required by these regulations have been included and to conduct on-site reviews of at least 20 percent of all food service management contracts within the State each school year.

The definitions of a "food service management company" and "vendor" were found to be objectionable to nine respondents. Objection was also made to the fact that vendors should be re-

quired to adhere to the same regulations as food service management companies.

In response to these objections the definition of a "food service management company" has been expanded and clarified and the definition of a "vendor" has been removed from the final regulations. The relationship between a School Food Authority and a vendor is product-oriented and as such is adequately addressed in the procurement section of the regulations. Therefore, the minimum standards section does not apply to vendors, and reference to them has been deleted.

#### PROCUREMENT STANDARDS

Currently, the procurement standards in the regulations pertain only to procurement of supplies, equipment, and other services by State agencies. In accord with the extension of Office of Management and Budget Circular A-102 to school districts, this regulation will require adherence at the School Food Authority level. All program School Food Authorities will be affected by this rule, not just those just commercially managed.

Accordingly, Part 210 of Chapter II, Title 7 CFR is amended as follows: 1. In § 210.2, paragraphs (h-1), (h-2), (h-3), (h-4), (h-5), and (h-6) are redesignated as (h-2), (h-3), (h-4), (h-5), (h-6), and (h-7), respectively, and a new paragraph (h-1) is added to read as follows:

#### § 210.2 Definitions.

(h-1) "Food service management company" means a commercial enterprise or a nonprofit organization which is or may be contracted with by the School Food Authority to manage any aspect of the school food service.

#### § 210.8 [Amended]

2. In § 210.8, paragraph (d) is deleted and reserved.

3. A new § 210.8a is added to read as follows:

#### § 210.8a Food service management companies.

(a) Any School Food Authority (including a State agency acting in the capacity of a School Food Authority) may contract with a food service management company to manage its feeding operation in one or more of its schools. Any School Food Authority contracting with a food service management company shall adhere to the procurement standards set forth in § 210.19a. A School Food Authority that employs a food service management company shall remain responsi-

ble for insuring that the food service operation is in conformance with its agreement under the Program and shall monitor the food service operation through periodic on-site visitations. The School Food Authority shall retain control of the quality, extent, and general nature of its food service, and the prices to be charged the children for meals. The School Food Authority shall maintain applicable health certification and be assured that all State and local regulations are being met by a food service management company preparing or serving meals at a School Food Authority facility. Contracts that permit all receipts and expenses to accrue to the food service management company and "cost-plus-a-percentage-of-cost" and "cost-plus-a-percentage-of-income" contracts are prohibited. However, contracts which provide for management fees established on a per-meal basis are allowed.

(b) The School Food Authority shall adhere to, and include in any contractual agreement with a food service management company for the management of the program, all the requirements set forth in this section. Such contractual agreements shall expressly provide as a minimum that:

(1) the food service management company shall maintain such records as the School Food Authority will need to support its claim under this part, and shall report thereon to the School Food Authority promptly at the end of each month, at a minimum. Such records shall be available, for a period of 3 years from the date of receipt of final payment under the contract, for inspection and audit by representatives of the State agency, the Department, and the United States General Accounting Office at any reasonable time and place; except that, if audit findings have not been resolved, the records shall be retained beyond the three year period as long as required for the resolution of the issues raised by the audit;

(2) The food service management company shall have State or local health certification for any facility outside the school in which it proposes to prepare meals and the food service management company shall maintain this health certification for the duration of the contract;

(3) No payment shall be made for meals that are spoiled or unwholesome at time of delivery, do not meet detailed specifications as developed by the School Food Authority for each food component specified in § 210.10, or do not otherwise meet the requirements of the contract. Specifications shall cover items such as grade, purchase units, style, weight, ingredients, formulation, etc. The Department

shall provide guidance to assist in the development of specifications.

(c) Any School Food Authority contracting with a food service management company shall establish an advisory board composed of parents, teachers, and students to assist in menu planning.

(d) The contract between a School Food Authority and a food service management company shall be of a duration of no longer than one year; and options for the yearly renewal of a contract may not exceed two additional years. All contracts will include a termination clause whereby either party may cancel for cause with 60-day notification.

(e) School Food Authorities shall, in addition to the procurement requirements specified in § 210.19a, adhere to the following when contracting with food service management companies:

(1) The invitation to bid or request for proposal shall contain a 21-day cycle menu to be used as a standard for the purpose of basing bids or estimating average cost per meal. If a School Food Authority has no capability to prepare a cycle menu, it may, with State agency approval, request that a 21-day cycle menu be developed and submitted by each food service management company which intends to submit a bid or proposal to the School Food Authority. The food service management company must adhere to the cycle for the first 21 days of meal service. Changes thereafter may be made with the approval of the School Food Authority;

(2) Any invitation to bid or request for proposal shall indicate that non-performance shall subject the food service management company to specified sanctions in instances where the food service management company violates or breaches contract terms. The School Food Authority shall indicate these sanctions in accordance with the procurement provision stated in § 210.19(n)(1).

(f) Any federally donated commodities received by the School Food Authority and made available to the food service management company shall accrue only to the benefit of the School Food Authority's feeding operation, and shall be utilized therein.

4. In § 210.14, new paragraphs (b) and (c) are added to read as follows:

#### § 210.14 Special responsibilities of State agencies.

(b) Food service management companies. Each State agency, or FNSRO where applicable, shall review yearly each contract between any School Food Authority and a food service management company to ensure com-

pliance with all the provisions and standards set forth in § 210.8a.

(c) Each State agency, or FNSRO where applicable, shall monitor on-site each year not less than 20 percent of all School Food Authorities who have contracted with a food service management company and may require that all food service management companies that wish to contract for food service with any School Food Authorities in the State must register with the State agency. State agencies, or FNSRO where applicable, shall provide assistance upon request of a School Food Authority to assure compliance with program requirements.

5. § 210.19a is revised to read as follows:

#### § 210.19a Procurement standards.

(a) This section provides standards for use by State agencies and School Food Authorities in establishing procedures for the procurement of supplies including food, equipment, and other services with Program funds: These standards are furnished to ensure that such materials and services are obtained in an effective manner and in compliance with provisions of applicable Federal law and Executive Orders. State agencies or School Food Authorities may use their own procurement regulations which reflect applicable State and local law, rules, and regulations provided that procurements made with Program funds adhere to the standards set forth in this section.

(b) The standards contained in this section do not relieve a State agency or School Food Authority of the responsibilities arising under its contracts. The State agency or School Food Authority is the responsible authority regarding the settlement and satisfaction of all contractual and administrative issues arising out of procurements entered into in support of the Program. This includes, but is not limited to: disputes, claims, protests of award, source evaluation, or other matters of a contractual nature. Matters concerning violation of law are to be referred to the State or Federal authority that has proper jurisdiction.

(c) Each State agency or School Food Authority shall maintain a code or standard of conduct which shall govern the performance of its officers, employees, or agents in contracting for payment and expending Program funds. The State agency's or School Food Authority's officers, employees, or agents shall neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or potential contractors. To the extent permissible under State law, rules, or regulations, such standards shall pro-

vide for appropriate penalties, sanctions, or other disciplinary actions to be applied for violations of such standards either by the State agency's or School Food Authority's officers, employees, or agents, or by contractors or their agents.

(d) All procurement transactions of a State agency or School Food Authority, regardless of whether negotiated or advertised and without regard to dollar value, shall be conducted in a manner so as to provide maximum open and free competition. The State agency or School Food Authority should be alert to organizational conflicts of interest or noncompetitive practices among contractors which may restrict or eliminate competition or otherwise restrain trade.

(e) Each State agency or School Food Authority shall establish procurement procedures which comply with the provisions of this section.

(f) Proposed procurement actions shall be reviewed by appropriate officials of the State agency or School Food Authority to avoid purchasing unnecessary or duplicate items. Where appropriate, an analysis shall be made of lease and purchase alternatives to determine which would be the most economical, practical procurement.

(g) Invitations for bids or requests for proposals shall be based upon a clear and accurate description of the technical requirements for the material, product, or service to be procured. Such description shall not, in competitive procurements, contain features which unduly restrict competition. "Brand name or equal" description may be used as a means to define the performance or other salient requirements of a procurement and, when so used, the specific features of the named brand which must be met by offerors should be clearly specified.

(h) Positive efforts shall be made by each State agency or School Food Authority to utilize small business and minority-owned business sources of supplies and services. Such efforts should allow these sources the maximum feasible opportunity to compete for procurements to be performed with Program funds.

(i) The type of procuring instruments used (e.g., fixed price contracts, cost reimbursable contracts, purchase orders, incentive contracts, etc.) shall be appropriate for the particular procurement and for promoting the best interest of the Program. The "cost-plus-a-percentage-of-cost" and "cost-plus-a-percentage-of-income" method of contracting shall not be used.

(j) Formal advertising, with adequate purchasing descriptions, sealed bids, negotiations and public openings shall be the required method of procurement unless negotiation pursuant to subparagraph 4 of this paragraph is

necessary to accomplish sound procurement. However, procurements of \$10,000 or less need not be so advertised unless otherwise required by State law or regulations. When formal advertising is employed:

(1) The awards shall be made to the responsible bidder whose bid is responsive to the invitation and is most advantageous to the State agency or School Food Authority, price and other factors considered. Factors such as discounts, transportation costs, and taxes may be considered in determining the lowest bid;

(2) Invitations for bids shall clearly set forth all requirements which the bidder must fulfill in order for his bid to be evaluated by the State agency or School Food Authority;

(3) Any or all bids may be rejected when it is in the State agency's or School Food Authority's interest to do so, and such rejections are in accordance with applicable State and local law, rules, and regulations;

(4) Procurements may be negotiated by the State agency or School Food Authority if it is not practicable or feasible to use formal advertising. Notwithstanding the existence of circumstances justifying negotiation, competition shall be obtained to the maximum extent practicable. Generally, procurements may be negotiated if one or more of the following conditions prevail:

(i) The public exigency will not permit the delay incident to advertising;

(ii) The material or service to be procured is available from only one person or firm (all contemplated sole source procurements where the aggregate expenditure is expected to exceed \$5,000 shall be referred to the State agency, or FNSRO where applicable, for prior approval);

(iii) The aggregate amount involved does not exceed \$10,000;

(iv) The contract is for personal or professional services, or for any service to be rendered by a university, college, or other educational institution;

(v) No acceptable bids have been received after formal advertising;

(vi) The purchases are for highly perishable materials or medical supplies, for materials or services where the prices are established by law, for technical items or equipment requiring standardization and interchangeability of parts with existing equipment, for experimental, developmental or research work, for supplies purchased for authorized resale, and for technical or specialized supplies requiring substantial initial investment for manufacture; or

(vii) Negotiation is otherwise authorized by applicable law, rules, or regulations.

Notwithstanding the existence of circumstances justifying negotiation, competition shall be obtained to the maximum extent practicable.

(k) Contracts shall be made by State agencies or School Food Authorities only with responsible contractors who possess the potential ability to perform successfully under the terms and conditions of a proposed procurement. Consideration shall be given to such matters as contractor integrity, record of past performance, financial and technical resources, and accessibility to other necessary resources.

(l) The procurement records or files of State agencies or School Food Authorities for negotiated purchases in amounts in excess of \$10,000 shall provide at least the following pertinent information: (1) justification for the use of negotiation in lieu of advertising, (2) contractor selection, (3) the basis for the cost or price negotiated.

(m) A system for contract administration shall be maintained by the State agency or School Food Authority to assure contractor compliance with terms, conditions, and specifications of the contract or order, and to assure adequate and timely follow-up of all purchases.

(n) The State agency or School Food Authority shall include, in addition to provisions to define a sound and complete agreement, the following requirements in all contracts which it awards when the contract costs are to be borne by Program funds:

(1) All contracts in excess of \$10,000 shall contain contractual provisions or conditions which will allow for administrative, contractual, or legal remedies in instances where contractors violate or breach contract terms, and provide for such sanctions and penalties as may be appropriate;

(2) All contracts awarded by State agencies or School Food Authorities in excess of \$10,000 shall contain suitable provisions for termination by the State agency or School Food Authority, including the manner in which it will be effected and the basis for settlement. In addition, such contracts shall set forth the conditions under which the contract may be terminated for default as well as conditions where the contract may be terminated because of circumstances beyond the control of the contractor;

(3) All contracts awarded by a State agency or School Food Authority and their contractors or subgrantees having a value of more than \$10,000 shall contain a provision requiring compliance with Executive Order 11246, entitled "Equal Employment Opportunity", as amended by Executive Order 11375, and as supplemented in Department of Labor regulations (41 CFR Part 60);

(4) All contracts and subgrants for construction or repair shall include a provision for compliance with the Copeland "Anti-Kick Back" Act (18 U.S.C. 874) as implemented in Department of Labor regulations (29 CFR Part 3). This Act provides that each contractor or School Food Authority shall be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he is otherwise entitled. The State agency shall report all suspected or reported violations to the Department;

(5) When required by the Federal grant program legislation, all construction contracts awarded by a State agency or School Food Authority in excess of \$2,000 shall include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 276a to a-7) as implemented by Department of Labor regulations (29 CFR Part 5). Under this Act contractors shall be required to pay wages to laborers and mechanics at a rate not less than the minimum wages specified in a wage determination made by the Secretary of Labor. In addition, contractors shall be required to pay wages not less often than once a week. The State agency or School Food Authority shall place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation and the award of a contract shall be conditioned upon the acceptance of the wage determination. The State agency or School Food Authority shall report all suspected or reported violations to the Department;

(6) Where applicable, all contracts awarded by State agencies or School Food Authorities in excess of \$2,000 for construction contracts and in excess of \$2,500 for other contracts which involve the employment of mechanics or laborers shall include a provision for compliance with sections 103 and 107 of the Contract Work Hours and Safety Standards Act (40 U.S.C. 327-330) as implemented by Department of Labor regulations (29 CFR Part 5). Under section 103 of that act, each contractor shall be required to compute the wages of every mechanic and laborer on the basis of a standard work day of 8 hours and a standard work week of 40 hours. Work in excess of the standard work day or work week is permissible provided that the worker is compensated at a rate of not less than 1½ times the basic rate of pay for all hours worked in excess of 8 hours in any calendar day or 40 hours in the work week. Section 107 of the Act is applicable to construction work and provides that no laborer or mechanic shall be required to work in surroundings or under working conditions which are unsanitary, hazardous,

or dangerous to his health and safety as determined under construction, safety, and health standards promulgated by the Secretary of Labor. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market or contracts for transportation;

(7) Contracts awarded by State agencies or School Food Authorities, the principal purpose of which is to create, develop, or improve products, processes or methods; or for exploration into fields which directly concern public health, safety, or welfare; or contracts in the field of science or technology in which there has been little significant experience outside of work funded by Federal assistance, shall contain a notice to the effect that matters regarding rights to inventions, and materials generated under the contract or agreement are subject to the regulations issued by the Department. The contractor shall be advised as to the source of additional information regarding these matters;

(8) All negotiated contracts (except those of \$10,000 or less) awarded by State agencies or School Food Authorities shall include a provision to the effect that the State agency or School Food Authority, the Department, the Comptroller General of the United States, or any of their duly authorized representatives, shall have access to any books, documents, papers, and records of the contractor which are directly pertinent to the Program for the purpose of making audits, examination, excerpts, and transcriptions;

(9) Contracts in excess of \$100,000 shall contain a provision which requires compliance with all applicable standards, orders, or regulations issued pursuant to the Clean Air Act of 1970, as amended (42 U.S.C. 1857B et seq.). Suspected violations shall be reported by the State agency or School Food Authority in writing to the Regional Office of the United States Environmental Protection Agency, with a copy to the Department.

(o) State agencies or School Food Authorities shall observe their regular requirements and practices with respect to bonding and insurance.

NOTE.—The Food and Nutrition Service has determined that this document does not contain major proposals requiring preparation of an Economic Impact Statement under Executive Order 11821 and OMB Circular A-107.

# CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

## PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

### Amendment of Rules and Regulations

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This document amends the rules and regulations to permit the optional use of upward adjustments by handlers in Districts 1 and 3, during the balance of the 1978-79 season, of not to exceed 100 percent of their average weekly pick. This would allow such handlers the option of receiving a larger proportion of their allotment earlier in the season, and enable them to use their proportionate share of the marketing opportunity more advantageously.

DATES: Effective January 1, 1979, through July 31, 1979.

FOR FURTHER INFORMATION CONTACT:

Charles R. Brader, 202-447-6393.

SUPPLEMENTARY INFORMATION: On December 6, 1978, notice was published in the FEDERAL REGISTER (43 FR 57156) inviting written comments on a proposed amendment to the rules and regulations (Subpart—Rules and Regulations; 7 CFR 910.100-910.180) currently effective pursuant to the applicable provisions of the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona. None were received. This program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674).

The amendment of said rules and regulation was recommended by the Lemon Administrative Committee, established under the order as the agency to administer its terms and provisions.

Under the order the prorated base of each handler is based upon his average weekly pick (the average weekly amount of lemons harvested and delivered to such handler's packinghouse during a specified number of weeks

preceding the computation date). In recognition of the fewer number of weeks during which lemons are harvested in Districts 1 and 3, the order provides that the handlers in such districts may request and be granted an upward adjustment in their average weekly pick to accelerate their receipt of allotment during the first half of their season, subject to payback during the last half of their season of the extra allotment received. The order provides in §910.53(h) that the percentage of adjustment, currently set at not to exceed 50 percent in §§910.53(f)(1) and 910.53(e)(3), may be changed.

The committee reports that, due to the conditions expected to prevail during the balance of the 1978-79 season, the percentage of adjustment permitted should be changed to permit the optional use of upward adjustments by handlers in Districts 1 and 3 of not to exceed 100 percent of their average weekly pick. This would allow such handlers the option of receiving a larger proportion of their allotment earlier in the season, and enable them to use their proportionate share of the marketing opportunity more advantageously.

This added flexibility would be provided by an amendment to §910.53(e)(3) Subpart—Rules and Regulations (7 CFR Part 910.100-910.180).

After consideration of all relevant matters presented, including the proposal in the notice and other available information, it is hereby found that amendment of said rules and regulations is in accordance with the marketing agreement and order and will tend to effectuate the declared policy of the act. This regulation has not been determined significant under the USDA criteria for implementing Executive Order 12044.

It is hereby further found that good cause exists for not postponing the effective date hereof until 30 days after publication in the *Federal Register* (5 U.S.C. 553) in that (1) the handling of lemons is now in progress subject to regulated weekly allotment provisions of the order and to be of maximum benefit the provisions of this amendment should become effective at the time specified herein, (2) the recommendation of the committee was made at a public meeting at which all interested parties were afforded an opportunity to attend, and (3) the effective time hereof will not require of handlers any preparation that cannot be completed prior thereto.

Therefore, §910.53 is amended to read as follows:

§910.53 Prorate bases and allotments.

(e) \*\*\*

(3) *Granting of upward adjustment for Districts 1 and 3 applicants.* Upon receiving a duly filed application for an upward adjustment by a District 1 or 3 handler pursuant to §910.53(f)(1) the committee shall adjust the average weekly pick of such handler by increasing such picks in the amount requested, but not in excess of 50 percent of his average weekly pick: *Provided, however,* that during the period January 1, 1979, through July 31, 1979, upon request of any such handler, the committee shall adjust such handler's average weekly pick in the amount requested but not in excess of 100 percent. \*\*\*

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674).

Dated: December 26, 1978, to become effective January 1, 1979.

FLOYD P. HEDLUND,  
Director, Fruit and Vegetable Division,  
Agricultural Marketing Service.

Title 9—Animals and Animal Products

#### CHAPTER 1—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

##### SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS

#### PART 72—TEXAS (SPLENETIC) FEVER IN CATTLE AREA QUARANTINED

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Final rule.

SUMMARY: These amendments quarantine the Northern Mariana Islands because of the existence of vectors of splenic or tick fever. This action is of an emergency nature and is deemed necessary to prevent the spread of the disease.

EFFECTIVE DATE: December 20, 1978.

FOR FURTHER INFORMATION CONTACT:

Glen O. Schubert, Chief Staff Veterinarian, Bacterial and Parasitic Diseases, Sheep, Goat, Equine, and Ectoparasites Staff, Room 737, Federal Building, 6505 Belcrest Road, Hyattsville, Maryland 20782, 301-436-8322.

SUPPLEMENTARY INFORMATION: These amendments quarantine the

Northern Mariana Islands because of the existence of cattle fever ticks which are vectors of splenic or tick fever. This action is deemed necessary to prevent the spread of the disease. The restrictions pertaining to the interstate movement of cattle and certain materials from quarantined areas as contained in 9 CFR Part 72, as amended, will apply to the quarantined area.

Accordingly, §§ 72.2 and 72.3 of Part 72, Title 9, Code of Federal Regulations, as amended, which quarantined portions of the State of Texas, the Virgin Islands of the United States, the Commonwealth of Puerto Rico and the Island of Guam because of splenic or tick fever in cattle, a contagious, infectious, and communicable disease, or because of the existence of vectors of said disease, are hereby amended in the following respects:

1. In § 72.2, the section heading and the text are amended to read:

§ 72.2 Splenic or tick fever in cattle in Texas, the Virgin Islands of the United States and vectors of said disease in the Northern Mariana Islands, the Commonwealth of Puerto Rico and the Island of Guam: Restrictions on movement of cattle.

Notice is hereby given that the contagious, infectious, and communicable disease known as splenic or tick fever exists in cattle in portions of the State of Texas and the Virgin Islands of the United States. Notice is also hereby given that ticks which are vectors of said disease exist in the Northern Mariana Islands, the Commonwealth of Puerto Rico, and the Island of Guam.

Therefore, portions of the State of Texas, the Virgin Islands of the United States, the Northern Mariana Islands, the Commonwealth of Puerto Rico and the Island of Guam are hereby quarantined as provided in §§ 72.3 and 72.5, and the movement of cattle therefrom into any other State or Territory or the District of Columbia shall be made only in accordance with the provisions of this part and Part 71 of this chapter.

2. In § 72.3, the section heading and the text are amended to read:

§ 72.3 Areas quarantined in the Virgin Islands of the United States, the Northern Mariana Islands, the Commonwealth of Puerto Rico, and the Island of Guam.

The entire Territories of the Virgin Islands of the United States and the Island of Guam, the Northern Mariana Islands, and the Commonwealth of Puerto Rico are quarantined.

(Secs. 4-7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791-792, as amended; secs. 1-4, 33 Stat. 1264, 1265, as amended; secs. 3 and 11, 76 Stat. 130, 132; (21 U.S.C. 111-113,

115, 117, 120, 123-126, 134b, 134f); 37 FR 28464, 28477; 38 FR 19141.)

The amendments impose certain further restrictions of an emergency nature necessary to prevent the spread of splenic or tick fever in cattle, and must be made effective immediately to accomplish their purpose in the public interest.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendments are impracticable and contrary to the public interest, and good cause is found for making them effective before January 29, 1979.

Done at Washington, D.C., this 20th day of December 1978.

NOTE—This final rulemaking is being published under emergency procedures as authorized by E.O. 12044. It has been determined by Dr. J. K. Atwell, Assistant Deputy Administrator, Animal Health Programs, APHIS, VS, USDA, that the possibility of the introduction of splenic or tick fever from the Northern Mariana Islands into States or Territories of the United States is severe enough to warrant the publication of this quarantine without waiting for public comment. An impact analysis statement is being prepared and will be available from Program Services Staff, Room 870, Federal Building, 6505 Belcrest Road, Hyattsville, Maryland 20782, 301-436-8695. In addition, this amendment to the regulations covering splenic or tick fever will be scheduled for review under provisions of E.O. 12044.

M. T. Goff,  
Acting Deputy Administrator,  
Veterinary Services.

#### PART 78—BRUCELLOSIS

##### Subpart D—Designation of Brucellosis Areas, Specifically Approved Stockyards, and Slaughtering Establishments

##### BRUCELLOSIS AREAS

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Final Rule.

SUMMARY: The Animal and Plant Health Inspection Service is amending its Brucellosis Regulations. These amendments update the Brucellosis regulations by providing the current status of various counties and States which have been designated Certified Brucellosis-Free Areas, Modified Certified Brucellosis Areas, or Noncertified Areas for purposes of interstate movement of cattle and bison from such areas. This action is required because of the change in the Brucellosis status of the areas affected.

EFFECTIVE DATE: December 29, 1978.

FOR FURTHER INFORMATION CONTACT:

Dr. A. D. Robb, U.S. Department of Agriculture, Animal and Plant Health Inspection Service, Veterinary Services, Hyattsville, Maryland, Room 805, (301) 436-8713.

SUPPLEMENTARY INFORMATION: The amendments delete the following areas from the list of Certified Brucellosis-Free Areas in § 78.20 and add such areas to the list designated as Modified Certified Brucellosis Areas in § 78.21 because it has been determined that they now come within the definition of a Modified Certified Brucellosis Area in § 78.1(m): Hancock, Jackson, Stone, and Tishomingo Counties in Mississippi, Davidson County in Tennessee.

The amendments delete the following areas from the list of Modified Certified Brucellosis Areas in § 78.21 and add such areas to the list designated as Certified Brucellosis-Free Areas in § 78.20 because it has been determined that they now come within the definition of a Certified Brucellosis-Free Area in § 78.1 (1): Grant County in Arkansas; Leavenworth County in Kansas; Burt and Washington Counties in Nebraska; and Tom Green County in Texas.

Accordingly, §§ 78.20, 78.21, and 78.22 of Part 78, Title 9, Code of Federal Regulations, designating Certified Brucellosis-Free Areas, Modified Certified Brucellosis Areas, and Noncertified Areas, respectively, are amended to read as follows:

§ 78.20 Certified Brucellosis-Free Areas.

The following States, or specified portions thereof, are hereby designated as Certified Brucellosis-Free Areas:

(a) *Entire States.*

Arizona, California, Colorado, Connecticut, Delaware, Hawaii, Indiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Montana, Nevada, New Hampshire, New Jersey, New York, North Carolina, North Dakota, Ohio, Oregon, Pennsylvania, Rhode Island, South Carolina, Virginia, Washington, West Virginia, Wisconsin, Virgin Islands.

(b) *Specific Counties Within States.*

Alabama. Dale, Geneva.  
Arkansas. Baxter, Bradley, Carroll, Cleveland, Columbia, Dallas, Drew, Fulton, Garland, Grant, Jefferson, Marion, Monroe, Montgomery, Newton, Ouachita, Searcy, Sharp, Stone, Union.

Florida. Baker, Bay, Calhoun, Citrus, Dixie, Franklin, Holmes, Leon, Liberty, Monroe, Okaloosa, Orange, Santa Rosa, Seminole, St. Johns, Taylor, Wakulla, Walton.

Georgia. Appling, Atkinson, Bacon, Banks, Brantley, Bryan, Bulloch, Burke, Butts, Camden, Candler, Charlton, Chatham, Chattahoochee, Clarke, Clayton, Cook, Crawford, De Kalb, Echols, Effingham, Evans, Fannin, Franklin, Glascock, Glynn, Greene, Habersham, Jeff Davis, Johnson, Lanier, Laurens, Liberty, Long, McIntosh, Monroe, Peach, Rabun, Richmond, Screven, Stephens, Taylor, Toombs, Treutlen, Twiggs, Upson, Ware, Wayne, Wheeler, White, Wilkinson.

Idaho. Ada, Adams, Bear Lake, Benewah, Bingham, Blaine, Boise, Bonner, Boundary, Butte, Camas, Canyon, Caribou, Clark, Clearwater, Custer, Gem, Idaho, Kootenai, Latah, Lemhi, Lewis, Minidoka, Nez Perce, Owyhee, Payette, Power, Shoshone, Valley, Washington.

Illinois. Adams, Alexander, Bond, Boone, Brown, Bureau, Calhoun, Carroll, Cass, Champaign, Christian, Clark, Clay, Clinton, Coles, Cook, Crawford, Cumberland, De Kalb, De Witt, Douglas, Du Page, Edgar, Edwards, Effingham, Fayette, Ford, Franklin, Fulton, Gallatin, Greene, Grundy, Hamilton, Hancock, Hardin, Henderson, Henry, Iroquois, Jackson, Jasper, Jefferson, Jersey, Johnson, Kane, Kankakee, Kendall, Lake, La Salle, Lawrence, Lee, Livingston, Logan, Macon, Macoupin, Madison, Marion, Marshall, Mason, McDonough, McHenry, McLean, Menard, Mercer, Monroe, Montgomery, Morgan, Moultrie, Ogle, Peoria, Perry, Piatt, Pike, Pope, Pulaski, Putnam, Randolph, Richland, Rock Island, St. Clair, Saline, Sangamon, Schuyler, Scott, Shelby, Stark, Stephenson, Tazewell, Union, Vermilion, Wabash, Warren, Washington, Wayne, White, Whiteside, Will, Williamson, Winnebago, Woodford.

Iowa. Adair, Allamakee, Audubon, Benton, Black Hawk, Boone, Bremer, Buchanan, Buena Vista, Butler, Calhoun, Carroll, Cass, Cedar, Cerro Gordo, Cherokee, Chickasaw, Clarke, Clay, Clayton, Clinton, Crawford, Dallas, Davis, Decatur, Delaware, Des Moines, Dickinson, Dubuque, Emmet, Fayette, Floyd, Franklin, Fremont, Greene, Grundy, Hamilton, Hancock, Hardin, Harrison, Henry, Howard, Humboldt, Ida, Iowa, Jackson, Jasper, Jefferson, Johnson, Jones, Keokuk, Kossuth, Lee, Linn, Louisa, Lucas, Lyon, Madison, Mahaska, Marion, Marshall, Mills, Mitchell, Monona, Monroe, Montgomery, Muscatine, O'Brien, Osceola, Palo Alto, Pocahontas, Polk, Pottawattamie, Poweshiek, Plymouth, Sac, Scott, Shelby, Sioux, Story, Tama, Union, Van Buren, Wapello, Warren, Washington, Webster, Winnebago, Winneshiek, Woodbury, Worth, Wright.

**Kansas.** Anderson, Barber, Bourbon, Brown, Chase, Chautauqua, Cherokee, Cheyenne, Clark, Clay, Coffey, Comanche, Decatur, Doniphan, Douglas, Edwards, Ellsworth, Finney, Ford, Gove, Graham, Grant, Gray, Greeley, Hamilton, Haskell, Hodgeman, Jewell, Johnson, Kearney, Kingman, Kiowa, Labette, Lane, Leavenworth, Logan, Marion, Marshall, Meade, Miami, Mitchell, Ness, Norton, Osborne, Pawnee, Phillips, Pottawatomie, Pratt, Rawlins, Republic, Riley, Rooks, Rush, Saline, Scott, Seward, Shawnee, Sheridan, Sherman, Smith, Stanton, Stevens, Thomas, Trego, Wallace, Washington, Wichita, Woodson, Wyandotte.

**Kentucky.** Bell, Breathitt, Campbell, Clay, Floyd, Harlan, Johnson, Kenton, Knott, Knox, Lawrence, Lee, Leslie, Letcher, Lewis, Magoffin, Martin, McCreary, Menifee, Morgan, Owsley, Pendleton, Perry, Pike, Robertson, Trimble, Whitley, Wolfe.

**Mississippi.** Alcorn, Harrison.

**Missouri.** Audrain, Dunklin, Gasconade, Hickory, Lewis, Moniteau, Montgomery, Perry, Platte, Pulaski, St. Louis, Schuyler, Shelby.

**Nebraska.** Banner, Box Butte, Burt, Cheyenne, Dakota, Deuel, Dodge, Douglas, Perkins, Thurston, Washington.

**New Mexico.** Catron, Colfax, De Baca, Dona Ana, Grant, Guadalupe, Harding, Hidalgo, Lincoln, Los Alamos, Luna, McKinley, Otero, Quay, Rio Arriba, Sandoval, San Juan, Santa Fe, Sierra, Socorro, Taos, Torrance, Union.

**South Dakota.** Aurora, Beadle, Bennett, Bon Homme, Brookings, Brown, Brule, Buffalo, Butte, Campbell, Charles Mix, Clark, Clay, Codington, Corson, Custer, Davison, Day, Deuel, Dewey, Douglas, Edmunds, Fall River, Faulk, Grant, Gregory, Haakon, Hamlin, Hand, Hanson, Harding, Hughes, Hutchinson, Hyde, Jackson, Jerauld, Kingsbury, Lake, Lawrence, Lincoln, Lyman, Marshall, McCook, McPherson, Meade, Mellette, Miner, Minnehaha, Moody, Pennington, Perkins, Potter, Roberts, Sanborn, Shannon, Spink, Sully, Todd, Tripp, Turner, Union, Walworth, Washaugh, Yankton, Ziebach.

**Tennessee.** Anderson, Blount, Campbell, Carter, Claiborne, Fentress, Grainger, Greene, Hamblen, Hancock, Johnson, Knox, Lake, Lewis, Meigs, Morgan, Perry, Polk, Roane, Robertson, Scott, Sequatchie, Sevier, Sullivan, Unicoi, Union, Van Buren.

**Texas.** Armstrong, Bandera, Borden, Brewster, Childress, Comal, Crane, Culberson, Ector, Gillespie, Glasscock, Gray, Hansford, Hartley, Hemphill, Hudspeth, Hutchinson, Irion, Jeff Davis, Kendall, Kerr, Kimble, Lipscomb, Llano, Loving, Martin, Mason, Menard, Midland, Moore, Newton,

Ochiltree, Pecos, Presidio, Reagan, Real, Roberts, Schleicher, Sherman, Sterling, Sutton, Terrell, Tom Green, Val Verde, Ward, Winkler, Yoakum.

**Utah.** Beaver, Cache, Carbon, Daggett, Davis, Duchesne, Emery, Grand, Iron, Juab, Kane, Millard, Morgan, Piute, Rich, Salt Lake, San Juan, Sanpete, Sevier, Summit, Tooele, Uintah, Utah, Wasatch, Washington, Wayne, Weber.

**Vermont.** Bennington, Caledonia, Essex, Grand Isle, Lamoille, Orange, Rutland, Washington, Windham, Windsor.

**Wyoming.** Albany, Big Horn, Campbell, Carbon, Converse, Crook, Fremont, Goshen, Hot Springs, Johnson, Laramie, Natrona, Niobrara, Park, Platte, Sheridan, Sublette, Sweetwater, Teton, Uinta, Washakie, Weston.

**Puerto Rico.** Adjuntas, Aguada, Aguadilla, Aguas Buenas, Aibonito, Anasco, Arroyo, Barceloneta, Barranquitas, Bayamon, Cabo Rojo, Caguas, Canovanas (Loiza), Catano, Cayer, Ceiba, Ciales, Cidra, Coamo, Comerio, Corozal, Culebra, Dorado, Fajardo, Guanica, Guayama, Guaynabo, Guayanilla, Hormigueros, Humacao, Jayuya, Juana Diaz, Juncos, Lajas, Lares, Las Marias, Luquillo, Manati, Maricao, Maunabo, Mayaguez, Moca, Moravia, Naranjito, Orocovia, Patillas, Penuelas, Ponce, Rincon, Rio Grande, Rio Piedras, Sabana Grande, Salinas, San German, San Juan, San Lorenzo, Santa Isabel, Toa Alta, Toa Baja, Trujillo Alto, Utuado, Vega Alta, Vega Baja, Vieques, Villalba, Yabucoa, Yauco.

#### § 78.21 Modified Certified Brucellosis Areas.

The following States, or specified portions thereof, are hereby designated as Modified Certified Brucellosis Areas:

##### (a) Entire States.

Alaska, Louisiana, Oklahoma.

##### (b) Specific Counties Within States.

**Alabama.** Autauga, Baldwin, Barbour, Bibb, Blount, Bullock, Butler, Calhoun, Chambers, Cherokee, Chilton, Choctaw, Clarke, Clay, Cleburne, Coffee, Colbert, Conecuh, Coosa, Covington, Crenshaw, Cullman, Dallas, De Kalb, Elmore, Etowah, Escambia, Fayette, Franklin, Greene, Hale, Henry, Houston, Jackson, Jefferson, Lamar, Lauderdale, Lawrence, Lee, Limestone, Lowndes, Macon, Madison, Marengo, Marion, Marshall, Mobile, Monroe, Montgomery, Morgan, Perry, Pickens, Pike, Randolph, Russell, St. Clair, Shelby, Sumter, Talladega, Tallapoosa, Tuscaloosa, Walker, Washington, Wilcox, Winston.

**Arkansas.** Arkansas, Ashley, Benton, Boone, Calhoun, Chicot, Clark, Clay, Cleburne, Conway, Craighead, Crawford, Crittenden, Cross, Desha, Faulk-

ner, Franklin, Greene, Hempstead, Hot Springs, Howard, Independence, Izard, Jackson, Johnson, Lafayette, Lawrence, Lee, Lincoln, Little River, Logan, Lonoke, Madison, Miller, Mississippi, Nevada, Perry, Phillips, Pike, Poinsett, Polk, Pope, Prairie, Pulaski, Randolph, Saline, Scott, St. Francis, Sebastian, Sevier, Van Buren, Washington, White, Woodruff, Yell.

**Florida.** Alachua, Bradford, Brevard, Broward, Charlotte, Clay, Collier, Columbia, Dade, De Soto, Duval, Escambia, Flagler, Gadsden, Gilchrist, Glades, Gulf, Hamilton, Hardee, Hendry, Hernando, Hillsborough, Indian River, Jackson, Jefferson, Lafayette, Lake, Lee, Levy, Madison, Manatee, Marion, Martin, Nassau, Osceola, Palm Beach, Pasco, Pinellas, Polk, Putnam, St. Lucie, Sarasota, Sumter, Suwanee, Union, Volusia, Washington.

**Georgia.** Baker, Baldwin, Barrow, Bartow, Ben Hill, Berrien, Bibb, Bleckley, Brooks, Calhoun, Carroll, Catoosa, Chattooga, Cherokee, Clay, Clinch, Cobb, Coffee, Colquitt, Columbia, Coweta, Crisp, Dade, Dawson, Decatur, Dodge, Dooly, Dougherty, Douglas, Early, Elbert, Emanuel, Fayette, Floyd, Forsyth, Fulton, Gilmer, Gordon, Grady, Gwinnett, Hall, Hancock, Haralson, Harris, Hart, Heard, Henry, Houston, Irwin, Jackson, Jasper, Jefferson, Jenkins, Jones, Lamar, Lee, Lincoln, Lowndes, Lumpkin, Macon, Madison, Marion, McDuffie, Meriwether, Miller, Mitchell, Montgomery, Morgan, Murray, Muscogee, Newton, Oconee, Oglethorpe, Paulding, Pickens, Pierce, Pike, Polk, Pulaski, Putnam, Quitman, Randolph, Rockdale, Schley, Seminole, Spalding, Stewart, Sumter, Talbot, Taliaferro, Tattnall, Telfair, Terrell, Thomas, Tift, Towns, Troup, Turner, Union, Walker, Walton, Warren, Washington, Webster, Whitfield, Wilcox, Wilkes, Worth.

**Idaho.** Banock, Bonneville, Cassia, Elmore, Franklin, Fremont, Gooding, Jefferson, Jerome, Lincoln, Madison, Oneida, Teton, Twin Falls.

**Illinois.** Jo Daviess, Knox, Massac.

**Iowa.** Adams, Appanoose, Guthrie, Page, Ringgold, Taylor, Wayne.

**Kansas.** Allen, Atchison, Barton, Butler, Cloud, Cowley, Crawford, Dickinson, Elk, Ellis, Franklin, Geary, Greenwood, Harper, Harvey, Jackson, Jefferson, Lincoln, Linn, Lyon, McPherson, Montgomery, Morris, Morton, Nemaha, Neosho, Osage, Ottawa, Reno, Rice, Russell, Sedgwick, Stafford, Sumner, Wabaunsee, Wilson.

**Kentucky.** Adair, Allen, Anderson, Ballard, Barren, Bath, Boone, Bourbon, Boyd, Boyle, Bracken, Breckinridge, Bullitt, Butler, Caldwell, Calloway, Carlisle, Carroll, Carter, Casey, Christian, Clark, Clinton, Crittenden, Cumberland, Daviess, Edmon-

son, Elliott, Estill, Fayette, Fleming, Franklin, Fulton, Gallatin, Garrard, Grant, Graves, Grayson, Green, Greenup, Hancock, Hardin, Harrison, Hart, Henderson, Henry, Hickman, Hopkins, Jackson, Jefferson, Jessamine, Laclede, Laurel, Lincoln, Livingston, Logan, Lyon, Madison, Marion, Marshall, Mason, McCracken, McLean, Meade, Mercer, Metcalfe, Monroe, Montgomery, Muhlenberg, Nelson, Nicholas, Ohio, Oldham, Owen, Powell, Pulaski, Rockcastle, Rowan, Russell, Scott, Shelby, Simpson, Spencer, Taylor, Todd, Trigg, Union, Warren, Washington, Wayne, Webster, Woodford.

**Mississippi.** Adams, Amite, Attala, Benton, Bolivar, Calhoun, Carroll, Chicksaw, Choctaw, Claiborne, Clarke, Clay, Coahoma, Copiah, Covington, De Soto, Forrest, Franklin, George, Greene, Grenada, Hancock, Hinds, Holmes, Humphreys, Issaquena, Itawamba, Jackson, Jasper, Jefferson, Jefferson Davis, Jones, Kemper, Lafayette, Lamar, Lauderdale, Lawrence, Leake, Lee, LeFlore, Lincoln, Lowndes, Madison, Marion, Marshall, Monroe, Montgomery, Neshoba, Newton, Noxubee, Oktibbeha, Panola, Pearl River, Perry, Pike, Pontotoc, Prentiss, Quitman, Rankin, Scott, Sharkey, Simpson, Smith, Stone, Sunflower, Tallahatchie, Tate, Tippah, Tishomingo, Tunica, Union, Walthall, Warren, Washington, Wayne, Webster, Wilkinson, Winston, Yalobusha, Yazoo.

**Missouri.** Adair, Andrew, Atchinson, Barry, Barton, Bates, Benton, Bollinger, Boone, Buchanan, Butler, Caldwell, Callaway, Camden, Cape Girardeau, Carroll, Carter, Cass, Cedar, Chariton, Christian, Clark, Clay, Clinton, Cole, Cooper, Crawford, Dade, Dallas, Daviess, De Kalb, Dent, Douglas, Franklin, Gentry, Greene, Grundy, Harrison, Henry, Holt, Howard, Howell, Iron, Jackson, Jasper, Jefferson, Johnson, Knox, Laclede, Lafayette, Lawrence, Lincoln, Linn, Livingston, Macon, Madison, Maries, Marion, McDonald, Mercer, Miller, Mississippi, Monroe, Morgan, New Madrid, Newton, Nodaway, Oregon, Osage, Ozark, Pemiscot, Pettis, Phelps, Pike, Polk, Putnam, Ralls, Randolph, Ray, Reynolds, Ripley, St. Charles, St. Clair, St. Francois, St. Genevieve, Saline, Scotland, Scott, Shannon, Stoddard, Stone, Sullivan, Taney, Texas, Vernon, Warren, Washington, Wayne, Webster, Worth, Wright.

**Nebraska.** Adams, Antelope, Arthur, Blaine, Boone, Boyd, Brown, Buffalo, Butler, Cass, Cedar, Chase, Cherry, Clay, Colfax, Cuming, Custer, Dawes, Dawson, Dixon, Dundy, Fillmore, Franklin, Frontier, Furnas, Gage, Garden, Garfield, Gosper, Grant, Greeley, Hall, Hamilton, Harlan, Hayes, Hitchcock, Holt, Hooker, Howard, Jefferson, Johnson, Kearney,

Keith, Keya Paha, Kimball, Knox, Lancaster, Lincoln, Logan, Loup, Madison, McPherson, Merrick, Morrill, Nance, Nemaha, Nuckolls, Otoe, Pawnee, Phelps, Pierce, Platte, Polk, Red Willow, Richardson, Rock, Saline, Sarpy, Saunders, Scotts Bluff, Seward, Sheridan, Sherman, Sioux, Stanton, Thayer, Thomas, Valley, Wayne, Webster, Wheeler, York.

**New Mexico.** Bernalillo, Chaves, Curry, Eddy, Lea, Mora, Roosevelt, San Miguel, Valencia.

**South Dakota.** Jones, Stanley.

**Tennessee.** Bedford, Benton, Bledsoe, Bradley, Cannon, Carroll, Cheatham, Chester, Clay, Cocke, Coffee, Crockett, Cumberland, Davidson, Decatur, DeKalb, Dickson, Dyer, Fayette, Franklin, Gibson, Giles, Grundy, Hamilton, Hardeman, Hardin, Hawkins, Haywood, Henderson, Henry, Hickman, Houston, Humphreys, Jackson, Jefferson, Lauderdale, Lawrence, Lincoln, Loudon, Macon, Madison, Marion, Marshall, Maury, McMinn, McNairy, Monroe, Montgomery, Moore, Obion, Overton, Pickett, Putnam, Rhea, Rutherford, Shelby, Smith, Stewart, Sumner, Tipton, Trousdale, Warren, Washington, Wayne, Weakley, White, Williamson, Wilson.

**Texas.** Anderson, Andrews, Angelina, Aransas, Archer, Atascosa, Austin, Bailey, Bastrop, Baylor, Bee, Bell, Bexar, Blanco, Bosque, Bowie, Brazoria, Brazos, Briscoe, Brooks, Brown, Burleson, Burnet, Caldwell, Calhoun, Callahan, Cameron, Camp, Carson, Cass, Castro, Chambers, Cherokee, Clay, Cochran, Coke, Coleman, Collin, Collingsworth, Colorado, Comanche, Concho, Cooke, Coryell, Cottle, Crockett, Crosby, Dallam, Dallas, Dawson, Deaf Smith, Delta, Denton, De Witt, Dickens, Dimmitt, Donley, Duval, Eastland, Edwards, Ellis, El Paso, Erath, Falls, Fannin, Fayette, Fisher, Floyd, Foard, Fort Bend, Franklin, Freestone, Frio, Gaines, Galveston, Garza, Goliad, Gonzales, Grayson, Gregg, Grimes, Guadalupe, Hale, Hall, Hamilton, Hardeman, Hardin, Harris, Harrison, Haskell, Hays, Henderson, Hidalgo, Hill, Hockley, Hood, Hopkins, Houston, Howard, Hunt, Jack, Jackson, Jasper, Jefferson, Jim Hogg, Jim Wells, Johnson, Jones, Karnes, Kaufman, Kenedy, Kent, King, Kinney, Kleberg, Knox, Lamar, Lamb, Lampasas, La Salle, Lavaca, Lee, Leon, Liberty, Limestone, Live Oak, Lubbock, Lynn, McCulloch, McLennan, McMullen, Madison, Marion, Matagorda, Maverick, Medina, Milam, Mills, Mitchell, Montague, Montgomery, Morris, Motley, Nacogdoches, Navarro, Nolan, Nueces, Oldham, Orange, Palo Pinto, Panola, Parker, Parmer, Polk, Potter, Rains, Randall, Red River, Reeves, Refugio, Robertson, Rockwall, Runnels, Rusk, Sabine, San Augustine,

San Jacinto, San Patricio, San Saba, Scurry, Shackelford, Shelby, Smith, Somervell, Starr, Stephens, Stonewall, Swisher, Tarrant, Taylor, Terry, Throckmorton, Titus, Travis, Trinity, Tyler, Upshur, Upton, Uvalde, Van Zandt, Victoria, Walker, Waller, Washington, Webb, Wharton, Wheeler, Wichita, Wilbarger, Willacy, Williamson, Wilson, Wise, Wood, Young, Zapata, Zavala.

**Utah.** Box Elder, Garfield.

**Vermont.** Addison, Chittenden, Franklin, Orleans.

**Wyoming.** Lincoln.

**Puerto Rico.** Arecibo, Camuy, Carolina, Gurabo, Hatillo, Isabela, Las Piedras, Naguabo, Quebradillas, San Sebastian.

#### § 78.22 Noncertified Areas.

The following States, or specified portions thereof, are hereby designated as Noncertified Brucellosis Areas:

(a) Entire States. Yellowstone National Park.

(b) Specific Counties Within States. Florida. Highlands, Okeechobee.

(Secs. 4-7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791-792, as amended; sec. 3, 33 Stat. 1265, as amended; sec. 2, 65 Stat. 693; and secs. 3 and 11, 76 Stat. 130, 132, 21 U.S.C. 111-113, 114a-1, 115, 117, 120, 121, 125, 134b, 134f; 37 FR 28464, 28477; 38 FR 19141, 4 CFR 78.25.)

The amendments impose certain restrictions necessary to prevent the spread of brucellosis in cattle and relieve certain restrictions presently imposed. They should be made effective promptly in order to accomplish their purpose in the public interest and to be of maximum benefit to persons subject to the restrictions which are relieved. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions of 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendments are impracticable, unnecessary, and contrary to the public interest, and good cause is found for making them effective before January 29, 1979.

Done at Washington, D.C., this 21st day of December 1978.

This regulation has not been designated "significant" under the USDA criteria established to implement Executive Order 12044, "Improving Government Regulations."

PIERRE A. CHALOUX,  
Deputy Administrator,  
Veterinary Services.

## Title 10—Energy

## CHAPTER II—DEPARTMENT OF ENERGY

[Docket No. ERA-R-77-15]

## PART 212—MANDATORY PETROLEUM PRICE REGULATIONS

## Amendment to Permit the Pass-through by Service Station Operators of Costs for Vapor Recovery Systems and Increased Service Station Rents; Effective Date

AGENCY: Economic Regulatory Administration, Department of Energy.

ACTION: Final rule.

SUMMARY: The Economic Regulatory Administration (ERA) of the Department of Energy (DOE) hereby provides notice that the final rule permitting retail gasoline dealers to pass through increased costs associated with installation of vapor recovery systems and rent increases, the effective date of which had been suspended, will become effective January 1, 1979.

DATES: Effective January 1, 1979. Comments by February 15, 1979, 4:30 p.m.

ADDRESS: All comments to the Office of Public Hearings Management, Economic Regulatory Administration, Room 2313, Docket No. ERA-R-77-15, 2000 M Street, NW., Washington, D.C. 20461.

## FOR FURTHER INFORMATION CONTACT:

William L. Webb (Office of Public Information), Economic Regulatory Administration, 2000 M Street, NW., Room B110, Washington, D.C. 20461, (202) 634-2170.

Chuck Boehl (Office of Regulations and Emergency Planning), Economic Regulatory Administration, 2000 M Street, NW., Room 2304, Washington, D.C. 20461, (202) 254-7200.

Ben McRae (Office of General Counsel), Department of Energy, 12th and Pennsylvania Avenue, NW., Room 5134, Washington, D.C. 20461, (202) 633-8622.

## SUPPLEMENTARY INFORMATION:

- I. Background
- II. Effective Date
- III. Comments

## I. BACKGROUND

On October 22, 1978, the ERA issued a final rule (43 FR 50662, October 30, 1978), which was to have been effective on December 1, 1978, permitting retail gasoline dealers to pass through

rent increases and the costs of vapor recovery systems incurred since May 15, 1973. This rule was inadvertently issued notwithstanding that the Federal Energy Regulatory Commission (FERC) had not yet determined, in accordance with section 404(a) of the Department of Energy Organization Act, whether it might significantly affect a function within its jurisdiction. Accordingly, on November 24, 1978, we issued a notice (43 FR 55744, November 29, 1978) to suspend the December 1 effective date of the rule in order to permit the FERC until December 20, 1978 to make its determination under section 404(a). The November 24 notice specified that if the FERC determined by that date that the proposed rule would not significantly affect such a function, or if it failed to make a determination by that date, it was our intention to make the rule effective on January 1, 1979.

## II. EFFECTIVE DATE

The FERC has informed us that as of December 20, 1978 it has not determined that the proposed rule might significantly affect a function within its jurisdiction. Therefore, we are hereby making this rule effective January 1, 1979. The final rule is the same as the rule that was issued on October 22, 1978, except for changes to reflect an effective date of January 1, 1979 instead of December 1, 1978. Details on the operation of the rule may be found in the supplementary information section of the October 22 notice.

## III. COMMENTS

Comments on this rule will be accepted through February 15, 1979, as set forth in the October 22, 1978 notice. You should follow the comment procedures set forth in that notice.

(Emergency Petroleum Allocation Act of 1973, Pub. L. 93-159, as amended, Pub. L. 93-511, Pub. L. 94-99, Pub. L. 94-133, Pub. L. 94-163, and Pub. L. 94-385, Federal Energy Administration Act of 1974, Pub. L. 93-275, and amended, Pub. L. 94-385; Energy Policy and Conservation Act, Pub. L. 94-163, as amended, Pub. L. 94-385; E.O. 11790, 39 FR 23185, Department of Energy Organization Act, Pub. L. 95-91, E.O. 12009, 42 FR 46267).

In consideration of the foregoing, Part 212 of Chapter II of Title 10 of the Code of Federal Regulations is amended as set forth below, effective January 1, 1979.

Issued in Washington, D.C., December 22, 1978.

DAVID J. BARDIN,  
Administrator, Economic  
Regulatory Administration.

1. Section 212.83(c)(2)(iii)(E) is amended by adding definitions of "F<sub>t</sub>", "N<sub>s</sub>" and "N<sub>p</sub>" at the end of the "N" factor to read as follows:

## § 212.83 Price rule.

- (c) Allocation of increased costs. . . .
- (2) Formulae. . . .
- (iii) Definitions. . . .
- (E) The "N" factor. . . .

F<sub>t</sub>=the marketing cost increase and is the difference between the cost of marketing covered products in the month of measurement and the cost of marketing covered products in the month of May 1973. "Cost of marketing covered products" means the costs attributable to marketing operations with respect to covered products: *Provided*, That such costs are included only to the extent that they are so attributable under the customary accounting procedures generally accepted and historically and consistently applied by the firm concerned and are not included in computing May 15, 1973 prices, in computing increased product costs, or in computing other increased non-product costs. A refiner must prepare a schedule itemizing the principal costs included in this category and describing the accounting procedures by which they are calculated. The amount of marketing cost increase which may be applied to compute maximum allowable prices for covered products is, however, limited to the extent that such marketing cost increases may:

(I) Allow an increase in the prices of No. 2 heating oil and No. 2-D diesel fuel above the prices otherwise permitted to be charged for such products pursuant to the provisions of this part by an amount not in excess of one cent per gallon with respect to retail sales and one-half cent per gallon with respect to all other sales; and

(II)(aa) Allow an increase in the price of gasoline above the prices otherwise permitted to be charged for gasoline pursuant to this part by an amount equal to increased rental cost (as defined in § 212.92) plus vapor recovery system cost (as set forth in § 212.92) plus an amount not in excess of three cents per gallon (for marketing costs not otherwise recoverable under this subpart) with respect to all retail sales; and

(bb) Allow an increase in the price of gasoline, during the 360-day period commencing November 19, 1975, above the prices otherwise permitted to be charged for gasoline pursuant to this part (including paragraphs (I) and (II)(aa) of this definition) by an amount not in excess of two cents per gallon in retail sales in Alaska; and

(III) Allow an increase in the prices of gasoline above the prices otherwise permitted to be charged for gasoline pursuant to the provisions of this part by an amount not in excess of three-quarter cent per gallon with respect to all sales other than retail sales; and

(IV) Allow an increase in the prices of middle distillates above the prices otherwise permitted to be charged for middle distillates pursuant to the provisions of this part (including the foregoing paragraph (I) of this definition) by an amount not in excess of one cent per gallon with respect to retail sales and not in excess of one-quarter cent per gallon with respect to all other sales, except that, with respect to retail sales of aviation fuels by fixed base operators after November 30, 1975, allow an increase in the amount otherwise permitted to be charged for that item pursuant to the provisions of this part by an amount not to exceed four cents per gallon; and

(V) Allow an increase in the prices of residual fuel oil above the prices otherwise permitted to be charged for residual fuel oil pursuant to the provisions of this part by an amount not in excess of three-fourths cent per gallon with respect to retail sales and one-fourth cent per gallon with respect to all other sales; and

(VI) Allow an increase in the price of propane, in sales after September 30, 1975, above the prices otherwise permitted to be charged for propane pursuant to the provisions of this part by an amount not in excess of three cents per gallon with respect to all retail sales except those to the petrochemicals industry, to public utilities, and to synthetic natural gas plants; one cent per gallon with respect to retail sales to the petrochemicals industry, to public utilities, and to natural gas plants and one-half cent per gallon with respect to all other sales; and

(VII) Reflect the total dollar amount of non-product costs attributable to includable amounts of commissions incurred during the period "t" beginning with January 1, 1976 with respect to sales through consignee-agents of the covered product or products of the type "I". The includable amount of commission incurred with respect to each item sold through each consignee-agent is the dollar amount per unit of volume by which the commission in the period "t" exceeds the commission in effect on May 15, 1973: *Provided*, That the includable amount shall be an amount reasonably intended to cover increased non-product costs of the consignee-agent, and that it shall not exceed the amount of the non-product cost price increase that would be permitted if the consignee-agent took title to the product it distributes and were a seller subject to § 212.93(b).

N<sub>s</sub>=the total increased non-product costs attributable to the specific covered product or products of the type "I" computed under "N<sub>t</sub>" for the month preceding the month of measurement ("s") beginning on or after January 1, 1976 but not recovered in

sales of that product during the period "t".

N<sub>r</sub>=the total increased non-product costs attributable to the specific covered product or products of the type "I" computed under "N<sub>t</sub>" for all months through the month two months before the month of measurement ("r") beginning on or after January 1, 1976 but not recovered in sales of that product through the period "t".

2. Section 212.92 is amended by adding, in appropriate alphabetical order, definitions of "increased rental cost" and "vapor recovery system cost" to read as follows:

## § 212.92 Definitions.

"Increased rental cost" means the rent, in terms of cents per gallon, with respect to that portion of real property leased for purposes of retail gasoline sales, paid to an independent lessor for the calendar month preceding the calendar month in which gasoline is sold minus the rent, stated in terms of cents per gallon, with respect to the same real property leased for purposes of retail gasoline sales, paid to an independent lessor for the month of May 1973. For purposes of this paragraph, "independent lessor" means a lessor which is not directly or indirectly controlled by the lessee concerned or by any firm which directly or indirectly controls that lessee.

"Vapor recovery system cost" means the unrecovered installation and purchase cost incurred by the seller since May 15, 1973 with respect to a gasoline vapor recovery system required by a Federal, state, or local governmental authority. For purposes of this paragraph, the cost incurred with respect to a vapor recovery system may be recovered in one month or may be prorated over a period of months. Each seller will be required to establish an accounting method by which vapor recovery costs shall be recovered. Once the method is established, the seller will apply the method consistently over the period for the recovery of costs. A seller may not recover in sales of gasoline a total amount attributable to such costs which exceeds the seller's actual vapor recovery system cost. In any one month, the portion of vapor recovery system costs that are available for recovery in that month shall be applied equally to, and shall be deemed to have been recovered on, each gallon of gasoline sold and for purposes of § 212.83(f) shall be deemed

to have been recovered before all other non-product costs.

3. Section 212.93 is amended by revising paragraphs (b)(1)(i) and (b)(1)(ii)(A) and by adding new paragraphs (b)(1)(ii)(C) and (b)(1)(ii)(D) to read as follows:

## § 212.93 Price rule.

(b) . . .

(1) With respect to No. 2 oils and gasoline: (i) in retail sales, a seller may charge one cent per gallon in excess of the amount otherwise permitted to be charged for that item pursuant to the provisions of this section, and, with respect to all other sales a seller may charge one-half cent per gallon in excess of the amount otherwise permitted to be charged for that item pursuant to the provisions of this section to reflect non-product cost increases that the seller incurred after May 15, 1973: *Provided*, That, subsequent to January 1, 1979, such non-product cost increases shall not include those costs that are or could have been recovered under either subparagraph (1)(ii)(C) or subparagraph (1)(ii)(D) of this paragraph (b).

(ii)(A) Beginning with March 1974, in all retail sales of gasoline, a seller may charge two cents per gallon of gasoline in excess of the amount otherwise permitted to be charged for that item pursuant to this section, including paragraph (b)(1)(i) of this section, to reflect increases in non-product costs incurred by the seller concerned since May 15, 1973: *Provided*, That, subsequent to January 1, 1979, such non-product cost increases shall not include those nonproduct costs that are or could have been recovered under either subparagraph (1)(ii)(C) or subparagraph (1)(ii)(D) of this paragraph (b).

(C) Beginning January 1, 1979, in retail sales of gasoline, a seller may charge an amount in excess of the price otherwise permitted to be charged for that item pursuant to this section (including subparagraphs (1)(i) and (1)(ii)(A) of this paragraph (b)), which reflects increased rental costs not otherwise recovered.

(D) Beginning January 1, 1979, in retail sales of gasoline, a seller may charge an amount in excess of the price otherwise permitted to be charged for that item pursuant to this section (including subparagraphs (1)(i) and (1)(ii)(A) and (C) of this paragraph (b)), which reflects a portion of vapor recovery system cost as set forth in § 212.92 not otherwise recovered.

## Title 14—Aeronautics and Space

CHAPTER II—CIVIL AERONAUTICS  
BOARD,

## SUBCHAPTER A—ECONOMIC REGULATIONS

(Regulation ER-1089; Docket 31479;  
Reissuance of Part 263)PART 263—PARTICIPATION OF AIR  
CARRIER ASSOCIATIONS IN  
BOARD PROCEEDINGSAdopted by the Civil Aeronautics  
Board at its office in Washington, D.C.  
December 21, 1978.

AGENCY: Civil Aeronautics Board.

ACTION: Final rule.

**SUMMARY:** Associations will be allowed to represent their members in Board proceedings on the basis of informal authorizations, which need not be provided to the Board except on request. The purpose of the change is to reduce the burden and expense of Associations' participation in Board proceedings. These rules will apply only to associations of direct air carriers.

**DATES:** Effective: January 29, 1979.  
Adopted: December 21, 1978.

FOR FURTHER INFORMATION  
CONTACT:

Richard B. Dyson, Associate General  
Counsel, 1825 Connecticut Avenue,  
N.W. Washington, D.C. 20428, 202-  
673-5442.

**SUPPLEMENTARY INFORMATION:** 14 CFR Part 263 provides that an air carrier association may not participate in Board proceedings to present the views of its members unless: (1) its articles of association authorizing such participation are approved by the Board (§ 263.2), and (2) the Board upon motion or its own initiative grants leave to participate (§ 263.3). The Board will approve the articles of association and grant leave only if each carrier signs and submits a copy of resolution authorizing the association's participation. This requirement can be satisfied by the filing of a power of attorney signed by an authorized officer of each carrier to be represented. Section 263.3(3) provides that, upon motion of any interested person or upon its own initiative, the Board can require the association to withdraw from the case because of significant difference of interest or position among its members.

A Petition for Rulemaking was filed by National Air Carrier Association to relax the authorization requirements. NACA argued that implementation of Part 263 requirements imposed a considerable burden and expense on it

and its members. NACA's petition requested that an attorney representing a member air carrier be permitted to execute a power of attorney on behalf of his client, or allow an officer of the air carrier association to certify that he has communicated with an authorized official of each carrier to be represented, and that each carrier has knowledge of and consents to representation by the association in that proceeding.

In accordance with the petition the CAB proposed to amend 14 CFR Part 263 to allow associations of air carriers to represent their members in Board proceedings on the basis of informal authorizations, which need not be provided to the Board except on request (EDR-345, February 15, 1978, 43 FR 7445, February 23, 1978). The Board also proposed, on its own initiative, to amend the rule to apply only to associations of direct air carriers.

Comments were filed in general support of the proposed amendments by National Air Transportation Association (NATA), United States Tour Operators Association (USTOA), Air Freight Forwarders Association of America (AFFA), American Society of Travel Agents (ASTA), and Commuter Airline Association of America (CAAA). The Air Transportation Association of America (ATA) suggested several modifications of Part 263, the first was to insure that a carrier is fully cognizant of the association's representation and fully consents to it; authorization coming from a duly authorized officer, or from the carrier's internal legal staff, or from outside retained counsel. The second was that a written memorial of all informal authorizations should be prepared by the carrier and forwarded to the association no later than 1 week following that authorization. ATA stated that the Board and the public were entitled to rapid assurance that an air carrier association is conducting its representational activities properly.

The Board has considered both the alternative procedures suggested by NACA and the modifications suggested by ATA, and has concluded that formal filings such as certifications and powers of attorney are unnecessary in this area. Also, the "safeguards" proposed by ATA, if adopted, would place procedural requirements upon associations that we find now to be unnecessary. Considering the sanctions in Federal law and Board regulations (e.g., 14 CFR Part 300) that would apply to any misrepresentations in Board proceedings, additional safeguards do not appear to be necessary.

The Board proposed to amend Part 263 to limit its application to associations of direct air carriers, removing groups such as charter operators from the rule. An air carrier association is

now defined in Part 263 as "an association composed entirely or in part of air carriers which are not exempted from the provisions of Section 412 of the Act in respect of relationships between one another." Various charter regulations adopted by the Board have created a new class of carriers not originally contemplated in the regulation: charter operators who are indirect air carriers of passengers. Although technically they are "air carriers" included in the Part 263 use of the term, their functional relationship to air transportation is comparable to the types of organizations the Part 263 preamble specifically excluded from coverage. The imposition of such a requirement on this segment of the industry's associations could make it much more difficult for the members to make their views known to the Board.

The Board, therefore, in this action is amending Part 263 to require: (1) that an association identify those members whom it is representing in a given proceeding, and (2) that its identification of those members be based on specific authorization with respect to the positions taken, which can be informal and need not be provided to the Board except on request. The Board also is amending Part 263 to limit application to associations of direct air carriers, thus removing groups such as charter operators from the rule.

Accordingly, 14 CFR Part 263, *Participation of Air Carrier Associations in Board Proceedings*, is revised and reissued to read as follows:

PART 263—PARTICIPATION OF AIR  
CARRIER ASSOCIATIONS IN  
BOARD PROCEEDINGS

## Sec.

263.1 Definitions.

263.2 Approval of articles of association.

263.3 Participation.

**AUTHORITY:** Secs. 102, 204, 412, and 1001 of the Federal Aviation Act of 1959, as amended, 72 Stat. 740, 743, 770, and 788, 49 U.S.C. 1302, 1324, 1382, and 1481.

## § 263.1 Definitions.

(a) "Air carrier association" means an association composed entirely or in part of direct air carriers that are not exempted from the provisions of section 412 of the Act in respect of relationships between one another.

(b) "Board proceeding" means any proceedings of the Board to which the Board's procedural regulations apply.

## § 263.2 Approval of articles of association.

An air carrier association created by agreement subject to approval under section 412 of the Act, its officers, or its employees may not participate in

Board proceedings unless its articles of association contain provisions approved by the Board authorizing such participation.

## § 263.3 Participation.

(a) An air carrier association may participate in a Board proceeding only if—

(1) The issues substantially affect the property or financial interests of the association as opposed to an interest derivative from its members;

(2) The association acts as a conduit to the Board of factual information gathered from the members, as distinguished from presentation of opinions or positions on issues; or

(3) The association represents members that are identified in any documents filed with the Board, and that have specifically authorized the positions taken by the association in that proceedings. The specific authorizations may be informal and evidence of them shall be provided only upon request of the Board.

(b) Upon motion of any interested person or upon its own initiative, the Board may issue an order requiring an association to withdraw from a case on the ground of significant divergence of interest or position within the association.

By the Civil Aeronautics Board:

PHYLLIS T. KAYLOR,  
Secretary.

## SUBCHAPTER B—PROCEDURAL REGULATIONS

(Regulation PR-188; Amdt. 48 to Part 302)

PART 302—RULES OF PRACTICE IN  
ECONOMIC PROCEEDINGSTechnical Changes to Rules  
Governing Enforcement Proceedings

Adopted by the Civil Aeronautics Board at its office in Washington, D.C.  
December 21, 1978.

AGENCY: Civil Aeronautics Board.

ACTION: Final rule.

**SUMMARY:** The Board amends its rules of practice in enforcement proceedings to insure that the names of certain documents accurately reflect their substance, to provide procedures for review of decisions by administrative law judges granting summary judgment or dismissing enforcement proceedings, and to modify the requirement that complaints be verified.

**DATES:** Adopted: December 21, 1978.  
Effective: December 21, 1978.

FOR FURTHER INFORMATION  
CONTACT:

M. Candace Fowler, Bureau of Consumer Protection, Civil Aeronautics Board, 1825 Connecticut Avenue, N.W., Washington, D.C. 20428, 202-673-5158.

**SUPPLEMENTARY INFORMATION:** The Board's rules of practice governing enforcement proceedings include outmoded terminology that may be confusing to persons trying to understand the rules and certain formal requirements that no longer serve any purpose. The rules also fail to specify procedures for appealing to the Board from action by an administrative law judge granting summary judgment or dismissing an enforcement proceeding. The purpose of these technical and editorial amendments is to correct some of these problems in order to make the rules easier to understand and to follow.

The rules refer to Petitions for Enforcement and to letters dismissing complaints, yet those names do not accurately reflect the nature and purposes of the documents they identify. Since both of these documents serve as notices, we are amending our regulations to call them notices. Also, the requirement that a notice of dismissal must conform to the requirements of § 302.3, regarding the place and formal specifications for filing documents with our Docket Section, is unnecessary and has been deleted. These amendments are editorial, and are not intended to make any substantive changes in the contents or functions of the documents.

In 1976, when we amended the rules to provide for motions for summary judgment and motions to dismiss in enforcement proceedings, we inadvertently failed to specify the procedures for seeking Board review of actions by the administrative law judges granting such motions. Since such actions are dispositive and have the same effect as initial decisions, we are providing that the same review procedures are available. We are also conforming the times provided for initiating Board review of action dismissing a third-party complaint to those provided for review of other dispositive actions by the staff.

In addition, we are modifying the requirement for verification of formal complaints, answers and other pleadings in enforcement proceedings to conform with a recent legislative change. Under 28 U.S.C. 1746, execution under penalty of perjury may be used in place of any sworn declaration or affidavit required by any law or rule of the United States. We are therefore providing that verification may be made under penalty of perjury or under oath.

Since this amendment is administrative in nature, affecting rules of agency procedure, we find that notice and public procedure are unnecessary

and that an immediate effective date is in the public interest.

Accordingly, the Civil Aeronautics Board amends Subpart B of Part 302 of its Procedural Regulations (14 CFR Part 302) as follows:

1. We amend § 302.201 by revising the third and fifth sentences so that the section reads:

## § 302.201 Formal complaints.

Any person may make a formal complaint to the Board with respect to anything done or omitted to be done by any person in contravention of any economic regulatory provisions of the act, or any rule, regulation, order, limitation, condition or other requirement established pursuant thereto. Every formal complaint shall conform to the requirements of § 302.3, concerning the form and filing of documents. The submission of a formal complaint by a person other than an attorney from the Bureau of Consumer Protection (hereinafter called a third party) shall not in itself result in institution of a formal economic enforcement proceeding and a hearing with respect to the complaint unless and until the Director of the Bureau of Consumer Protection issues a notice instituting an enforcement proceeding with respect to such complaint, or a portion thereof, or the Chief Administrative Law Judge takes such action in accordance with § 302.206(b). A formal complaint, whether filed by a third party or an attorney from the Bureau of Consumer Protection, may be amended at any time prior to the service of an answer to a complaint. Thereafter, such amendment may be filed only upon the grant of a motion filed in accordance with § 302.18, except that permission to amend a third-party complaint after the filing of an answer but before the filing of a notice instituting an enforcement proceeding must be obtained from the Director of the Bureau of Consumer Protection.

2. We revise § 302.202 to read:

## § 302.202 Subscription and verification.

Every formal complaint, supplemental complaint, answer, or other pleading filed in an economic enforcement proceeding shall be signed by the party filing the same, or by a duly authorized officer, agent or attorney of such party. In addition, such documents shall be verified under penalty of perjury or under oath by the person so signing. Such verification shall set forth that the person verifying the document has read the document and the attached exhibits, if any, and knows their contents, and that the matters contained in the document are true or, if stated on information and belief, that he believes them to be true. If the subscription or verification is made by anyone other than the

party filing the document or an officer or attorney of that party, the reason must be stated and that person's power of attorney or other authority to make the subscription or verification must be filed with the document.

3. We amend § 302.204 by revising paragraph (d) to read:

**§ 302.204 Third-party complaints.**

(d) Motions to dismiss a third-party complaint shall not be fileable prior to the filing of a notice instituting an enforcement proceeding with respect to such complaint or a portion thereof.

4. We revise § 302.205 to read:

**§ 302.205 Procedure when no enforcement proceeding is instituted.**

(a) Within a reasonable time, but not more than 60 days, after an answer to a formal third-party complaint is filed, or such extension of that 60-day period as may be granted pursuant to § 302.206(b), the Director of the Bureau of Consumer Protection shall either issue a notice instituting a formal enforcement proceeding in accordance with § 302.205(a) or issue a notice dismissing the complaint in whole or in part, stating the reasons for such dismissal.

(b) A notice dismissing a complaint issued pursuant to paragraph (a) of this section shall become effective as a final order of the Board 30 days after service thereof, unless review of such ruling is requested by the complainant or is initiated by the board in accordance with the provisions of paragraph (c) of this section.

(c) Within 21 days after service of a notice dismissing a complaint in whole or in part pursuant to paragraph (a) of this section, the complainant may file a motion with the Board to review such action. The proceedings on such motion shall be in accordance with § 302.18. Upon conclusion of such proceedings, the Board shall enter an order either affirming the dismissal of the complaint or directing such other action as it deems appropriate. If a complainant does not appeal, the Board may review the action of the Director of the Bureau of Consumer Protection on its own initiative within 30 days after service thereof.

5. We amend § 302.206 by revising the heading and paragraph (a) to read:

**§ 302.206 Commencement of enforcement proceeding.**

(a) Whenever in the opinion of the Director of the Bureau of Consumer Protection there are reasonable grounds to believe that any provision of the act or any rule, regulation, order, limitation, condition or other requirement established pursuant thereto, has been or is being violated,

that, in the case of third-party complaints, efforts to satisfy a complaint insofar as required by § 302.204 have failed, and that investigation of any or all of the alleged violations is in the public interest, the Director of the Bureau of Consumer Protection may issue a notice instituting a formal enforcement proceeding. The notice shall incorporate by reference a formal complaint submitted pursuant to § 302.201 or shall be accompanied by a complaint verified by an attorney from the Bureau of Consumer Protection. The notice and accompanying complaint, if any, shall be formally served upon each respondent and each complainant. The proceedings thus instituted shall be processed in regular course in accordance with this part. However, nothing in this part shall be construed to limit the authority of the Board to institute or conduct any investigation or inquiry within its jurisdiction in any other manner or according to any other procedures which it may deem necessary or proper.

6. We amend § 302.207 by revising paragraph (a) to read:

**§ 302.207 Answer.**

(a) Within 15 days after the date of service of a notice issued pursuant to § 302.206, the respondent shall file an answer to the complaint attached thereto or incorporated therein unless an answer has already been filed in accordance with § 302.204. Any requests for extension of time for filing of answer to a complaint attached to or incorporated in a notice instituting an enforcement proceeding shall be filed with the Board in accordance with § 302.17.

7. We revise § 302.208 to read:

**§ 302.208 Default.**

Failure of a respondent to file and serve an answer within the time and in the manner prescribed by this part shall be deemed to authorize the Board, in its discretion, to find the facts alleged in the complaint incorporated in or accompanying the notice instituting an enforcement proceeding to be true and to enter such order as may be appropriate without notice or hearing, or, in its discretion, to proceed to take proof, without notice, of the allegations or charges set forth in the complaint or order, provided that the Board or administrative law judge may permit late filings of an answer for good cause shown.

8. We amend § 302.212 by adding a new paragraph (c):

§ 302.212 Admissions as to facts and documents; motions to dismiss and for summary judgment.

(c) Parties may petition the Board to review action by the administrative law judge granting summary judgment or dismissing an enforcement proceeding under the procedure established for review of an initial decision in § 302.28.

(Sections 204, 1001, 1002 of the Federal Aviation Act of 1958, as amended, 72 Stat. 743, 771, 788; 49 U.S.C. 1324, 1481, 1482.)

By the Civil Aeronautics Board:

PHYLLIS T. KAYLOR,  
Secretary.

**[6320-01-M]**

(Regulation PR-189; Amdt. 49 to Part 302)

**PART 302—RULES OF PRACTICE IN ECONOMIC PROCEEDINGS**

**Number of Copies To File in Enforcement Proceedings**

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. December 21, 1978.

AGENCY: Civil Aeronautics Board.

ACTION: Final rule.

SUMMARY: This rule amends Part 302 of the Board Procedural Regulations to reduce the number of copies of pleadings which must be filed in Economic Enforcement Proceedings from an original and 19 copies to an original and 5 copies.

DATES: Adopted: December 21, 1978. Effective: December 21, 1978.

FOR FURTHER INFORMATION CONTACT:

M. Candace Fowler, Bureau of Consumer Protection, Civil Aeronautics Board, 1825 Connecticut Avenue, NW., Washington, D.C. 20428, 202-673-5158.

SUPPLEMENTARY INFORMATION: The rules of practice now applicable to formal proceedings before the Board, including third-party complaints and enforcement proceedings, require that, unless otherwise specified, an original and 19 copies of each document must be filed with the Docket Section. We are concerned that this multiple copy requirement may inhibit persons with grievances that may involve violations of the Federal Aviation Act or our regulations or orders from filing formal complaints with the Board. Third-party complaints, answers, and similar documents filed in the early stages of an enforcement case are not of great

usefulness to Members of the Board or staff components other than the Bureau of Consumer Protection and the Administrative Law Judges. We do not believe that the Board's need for copies of documents in this type of proceeding is sufficient to justify retaining the present requirement. Therefore, we are amending our regulations to require that only an original and 5 copies of documents need be filed in enforcement proceedings. This smaller number of copies has been allowed without problems in proceedings such as *Eastern Air Lines Enforcement Proceeding*, Dockets 26368, et al. Those who wish to may, of course, continue to file a greater number of copies as a courtesy.

Since this amendment is administrative in nature, affecting a rule of agency procedure, the Board finds that notice and public procedure are unnecessary and that an immediate effective date is in the public interest.

Accordingly, the Civil Aeronautics Board amends Part 302 of its Procedural Regulations, *Rules of Practice in Economic Proceedings*, (14 CFR Part 302) as follows:

Paragraphs (c) of § 302.3 is amended to read:

**§ 302.3 Filing of documents.**

(c) *Number of copies.* Unless otherwise specified, an executed original and nineteen (19) true copies of each document required or permitted to be filed under these rules shall be filed with the Docket Section, except that an original and five (5) copies of third-party complaints, answers, documents dealing with discovery, and motions addressed to an Administrative Law Judge may be filed in proceedings under Subpart B—Rules Applicable to Economic Enforcement Proceedings.

(Sections 204 and 1001 of the Federal Aviation Act of 1958 as amended, 72 Stat. 743, 788, 49 U.S.C. 1324, 1481.)

By the Civil Aeronautics Board:

PHYLLIS T. KAYLOR,  
Secretary.

**[3510-25-M]**

**Title 15—Commerce and Foreign Trade**

**CHAPTER III—INDUSTRY AND TRADE ADMINISTRATION, DEPARTMENT OF COMMERCE**

**PART 377—SHORT SUPPLY CONTROLS**

**Reporting of Exports of Cobalt and Related Commodities**

AGENCY: Office of Export Administration, Bureau of Trade Regulation, Industry and Trade Administration, Department of Commerce.

ACTION: Final rule.

SUMMARY: These regulations establish a requirement that exporters of cobalt and related commodities mail a copy of each Shipper's Export Declaration they file upon export direct to the Office of Export Administration. The Shipper's Export Declaration will assist that Office in assessing the impact of such exports on domestic availability and price in the face of tightening world supplies.

EFFECTIVE DATE: December 27, 1978.

FOR FURTHER INFORMATION CONTACT:

Mr. Converse Hettinger, Director, Short Supply Division, Office of Export Administration, Department of Commerce, Washington, D.C. 20230 (Telephone 202-377-3795).

SUPPLEMENTARY INFORMATION: Section 3(2)(A) of the Export Administration Act of 1969, as amended, declares that "It is the policy of the United States to use export controls . . . to the extent necessary to protect the domestic economy from the excessive drain of scarce materials and to reduce the serious inflationary impact of foreign demand . . ." Section 4(c)(1) of the Act further provides that, to effectuate the policy set forth in Section 3(2)(A), the Secretary of Commerce shall monitor exports of any non-agricultural article, material, or supply "when the volume of such exports in relation to domestic supply contributes, or may contribute, to an increase in domestic prices or a domestic shortage, and such price increase or shortage has, or may have, a serious adverse impact on the economy or any sector thereof." Section 4(c)(1) further provides that "such monitoring shall commence at a time adequate to insure that data will be available which is sufficient to permit achievement of the policies of this Act." Section 7 provides authority to obtain information necessary or appropriate to the enforcement of the Act and provides in subsection (d) that "In the administra-

tion of this Act, reporting requirements shall be so designed as to reduce the cost of reporting, recordkeeping, and export documentation required under this Act to the extent feasible consistent with effective enforcement and compilation of useful trade statistics."

The Department has reviewed the current and prospective supply and export situation for cobalt and related commodities and, after consulting with other appropriate federal agencies, has determined that it is necessary to obtain more adequate and timely information on the export of such commodities that it is presently receiving in order to carry out the purposes of the Export Administration Act. Accordingly, under authority of the Export Administration Act, a procedure is established which requires exporters of cobalt and related commodities to all destinations, including Canada, to forward directly to the Office of Export Administration a copy of each Shipper's Export Declaration which they file with the exporting carrier (or the post office if shipment is made by mail) and to indicate on that copy of the Declaration the actual cobalt content of the commodities listed thereon and any intended reexport of the commodities of which they have knowledge. Exporters are further required to advise the Office of Export Administration in writing of any reexports of such commodities of which they become aware after filing the Shipper's Export Declaration.

While the Department has the authority to monitor exports through a weekly or monthly reporting program, it believes that under current circumstances the use of an extra copy of the Shipper's Export Declaration in lieu of a separate monitoring report will minimize the reporting burden on industry and is a more appropriate and effective way of obtaining the required detailed data on exports of these commodities on a current basis.

Exporters are reminded in this connection of the recordkeeping requirements of § 387.11 of the Export Administration Regulations and they are specifically advised that it is the Department's intention to request additional information from the exporter or his agent in any instance where the Shipper's Export Declaration appears to have been improperly completed or where relevant information required to be shown thereon is either lacking or not clear.

This reporting requirement takes effect with respect to any Shipper's Export Declaration covering the cobalt or related commodities containing 10 percent or more cobalt listed in Supplement No. 1 to Part 377 of the Export Administration Regulations, which the exporter or his agent files

with the exporting carrier (or the post office if shipment is made by mail) after 12:01 AM EDT January 10, 1979. Exporters are required to mail a copy of each such Shipper's Export Declaration to the Office of Export Administration within 24 hours of filing the original Shipper's Export Declaration with the exporting carrier (or the post office). Unless already shown thereon, the actual cobalt content of each commodity listed on the Shipper's Export Declaration and, if the exporter knows that any portion of the commodities are destined to be reexported, that fact together with the ultimate country of intended destination, if known, must be added to that copy of the Declaration before it is placed in the mail.

The action announced herein is taken without notice of proposed rule-making and opportunity for comment because Section 8 of the Export Administration Act provides an exemption from such requirements. However, written comments on this action are solicited on a continuing basis. Interested parties are encouraged to submit written comments, views, or data concerning the regulations to the U.S. Department of Commerce, Office of Export Administration, Attention: Short Supply Division, Room 1617A, 14th and Constitution Avenue, N.W., Washington, D.C. 20230. All such material should be submitted in triplicate.

Accordingly, the Export Administration Regulations (15 CFR Part 368 et seq.) are amended as follows:

1. A new § 377.5 is established to read as follows:

**§ 377.5 Cobalt and related commodities.**

(a) Submission to Office of Export Administration of Copy of Shipper's Export Declaration.—Upon filing a Shipper's Export Declaration\* covering the export from the United States to any destination, including Canada, of one or more of the cobalt or related commodities listed in Supplement No. 1 to this Part 377, exporters are required to mail a copy of the Shipper's Export Declaration filed with the exporting carrier (or the Post Office if shipment is made by mail), to the Office of Export Administration at the following address:

Office of Export Administration, Attention: Short Supply Division, P.O. Box 7138, Ben Franklin Station, Washington, D.C. 20044.

Each such copy of the Shipper's Export Declaration should be a true copy of the signed original except that, if the signed original did not contain the information required under subsection (b) below, this information must be added to the copy of the Declaration.

\*See Part 368 of the Export Administration Regulations for provisions relating to filing of Shipper's Export Declarations.

lation mailed to the Office of Export Administration. The envelope in which this copy is mailed must be clearly marked on the exterior "Cobalt Export Report." If a correction is made in a Shipper's Export Declaration after a copy thereof has been mailed to the Office of Export Administration, a copy of such corrected Declaration containing the additional information required by subsection (b) below and conspicuously marked in the upper right hand portion of the form "CORRECTION COPY," must be mailed to the Office of Export Administration.

(b) Additional Information to be Shown on Copy of Shipper's Export Declaration Mailed to Office of Export Administration.—Each copy of a Shipper's Export Declaration covering an export of one or more of the cobalt and related commodities listed in Supplement No. 1 to this Part 377, which is sent to the Office of Export Administration pursuant to subsection (a) above, must show—separately for each separate cobalt and related commodity shown thereon—the cobalt content of such commodity in pounds. If this information is not already shown on the copy of the original Declaration which was filed with the exporting carrier (or the post office), it must be added to the copy of that Declaration which is mailed to the Office of Export Administration. In addition, if the exporter or his agent has reason to believe that the commodities listed on the Declaration, or any portion of such commodities, will be reexported, that information, together with the intended new country of destination if known, must be noted on the copy of the Declaration which is mailed to the Office of Export Administration.

(c) Deadline for Submission.—The copy of the Shipper's Export Declaration to be mailed to the Office of Export Administration must be placed in the U.S. mails by the exporter or his agent within 24 hours of the filing

of the original Declaration with the exporting carrier (or post office). Similarly, a copy of each corrected Declaration must be mailed to the Office of Export Administration within 24 hours of filing the original of the corrected Declaration.

(d) Reporting of Reexports.—Should the exporter or his agent, after submitting a copy of a Shipper's Export Declaration for cobalt or related commodities to the Office of Export Administration as prescribed above, gain knowledge that the shipment covered by such Declaration, or any portion of such shipment, has been or will be reexported to a country of ultimate destination not previously reported to the Office of Export Administration pursuant to subsection (b) above, the exporter should immediately advise the Office of Export Administration (Attention: Short Supply Division) in writing of such actual or intended reexport.

(e) Recordkeeping.—Exporters are reminded that the recordkeeping requirements of § 387.11 of these Regulations are applicable to both exports and reexports of the cobalt and related commodities listed in Supplement No. 1 to this Part 377.

(f) Verification of Shipper's Export Declarations.—Should a copy of the Shipper's Export Declaration submitted to the Office of Export Administration lack any relevant information required to be shown thereon, be unclear or appear to have been completed incorrectly, the Office of Export Administration will communicate directly with the exporter or his agent in order to clarify the transaction.

(g) Confidentiality.—Any information or documentation submitted by the exporter under this section will be deemed confidential information under Section 7(c) of the Export Administration Act of 1969, as amended.

2. A new Supplement No. 1 to Part 377 is established to read as follows:

**SUPPLEMENT NO. 1 TO PART 377**

**COBALT AND RELATED COMMODITIES SUBJECT TO EXPORT REPORTING WHEN THEY CONTAIN 10 PERCENT OR MORE COBALT<sup>1</sup>**

| Schedule B Number | Commodity Description                                                                                                                                                                                                         | Unit   |
|-------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------|
| 418.6100          | cobalt oxides and hydroxides (except pigment grades)                                                                                                                                                                          | pounds |
| 418.6300          | cobalt molybdate catalysts                                                                                                                                                                                                    | pounds |
| 472.6000          | cobalt oxides and hydroxides (including pigment grades)                                                                                                                                                                       | pounds |
| 630.0300          | unwrought nickel                                                                                                                                                                                                              | pounds |
| 620.0400          | nickel waste and scrap                                                                                                                                                                                                        | pounds |
| 620.0600          | plates, sheets, and strip, all the foregoing wrought, of nickel, whether or not cut, pressed, or stamped to nonrectangular shapes or clad                                                                                     | pounds |
| 890.1800          | bars, rods, angles, shapes, and sections, all the foregoing wrought, of nickel                                                                                                                                                | pounds |
| 620.2700          | wire of nickel                                                                                                                                                                                                                | pounds |
| 620.4100          | pipes, tubes, blanks, and fittings of nickel                                                                                                                                                                                  | pounds |
| 630.3020          | cobalt and cobalt alloys, unwrought and waste and scrap (includes but is not limited to cobalt metal, briquettes, electrolytic lumps and shot, rondelles, broken cathodes, granular forms and powders, including ultra-fine). | pounds |

**SUPPLEMENT NO. 1 TO PART 377—Continued**

**COBALT AND RELATED COMMODITIES SUBJECT TO EXPORT REPORTING WHEN THEY CONTAIN 10 PERCENT OR MORE COBALT<sup>1</sup>**

| Schedule B Number | Commodity Description                         | Unit   |
|-------------------|-----------------------------------------------|--------|
| 630.3050          | cobalt and cobalt alloys, wrought             | pounds |
| 630.6020          | tantalum alloy powder                         | pounds |
| 630.6040          | tantalum alloy, unwrought and waste and scrap | pounds |
| 630.6060          | tantalum alloy wrought                        | pounds |
| 630.7010          | tungsten alloy powder                         | pounds |
| 630.7020          | tungsten alloy wire                           | pounds |
| 630.7060          | tungsten alloy, unwrought and waste and scrap | pounds |
| 630.7080          | tungsten alloy, other                         | pounds |
| 422.4000          | tungsten carbide                              | pounds |
| 422.4200          | other tungsten compounds                      | pounds |
| 423.1090          | tantalum carbide powder                       | pounds |

<sup>1</sup>Commodity description, not Schedule B Number, is determinative of the commodity subject to export reporting.

3. Section 386.3(f)(3) is revised to read as follows:

**§ 386.3 Shipper's export declaration.**

(f) • • •

(3) *Additional copies of Declaration.*—The Office of Export Administration may require additional copies of the Declaration for exports under a validated license that contain special requirements for additional documents or information. (See §§ 371.17(f)(2)(i), 373.2(f)(1), and 386.3(o).) Additional copies of the Declaration may also be required for commodities subject to the provisions of Part 377 of these Regulations. For exports from the United States to foreign countries made via Canada an additional copy of the Declaration must be submitted to Canadian authorities. (See § 374.6.)

(Sec. 4 Pub. L. 91-184, 83 Stat. 842 (50 U.S.C. App. 2403), as amended; E.O. 12002, 42 FR 35623 (1977); Department Organization Order 10-3, dated December 4, 1977, 42 FR 64721 (1977); and Industry and Trade Administration Organization and Function Order 45-1, dated December 4, 1977, 42 FR 64716 (1977).)

**Title 16—Commercial Practices**

**CHAPTER II—CONSUMER PRODUCT SAFETY COMMISSION**

**SUBCHAPTER A—GENERAL**

**PART 1018—ADVISORY COMMITTEE MANAGEMENT AMENDMENT TO REGULATIONS**

**AGENCY:** Consumer Product Safety Commission.

**ACTION:** Final rule.

**SUMMARY:** This document amends the Commission's regulations on Advisory Committee Management to accommodate a new advisory committee, the Toxicological Advisory Board, which Congress authorized in recent legislation to provide specific scientific and technical advice to the Commission regarding the labeling of hazardous substances.

**EFFECTIVE DATE:** December 29, 1978.

**SUPPLEMENTARY INFORMATION:** Section 10 of the Consumer Product Safety Authorization Act of 1978 (Pub. L. 95-631) amended the Federal Hazardous Substances Act (FHSA) (15 U.S.C. 1261, et seq.) to provide that the Commission shall establish a Toxicological Advisory Board to provide scientific and technical advice to the Commission on (1) precautionary labeling for hazardous substances subject to the FHSA and on (2) the exemption of certain substances from the labeling requirements under the FHSA. Accordingly, the Commission established the Toxicological Advisory Board on December 22, 1978 to continue for a period of six years. The Board is to be composed of nine members appointed by the Commission who shall be qualified by training and experience in one or more fields applicable to the duties of the Board. At least three of the members of the Board should be members of the American Board of Medical Toxicology. The Board will meet at least twice each year. The charter for the Toxicological Advisory Board was filed with the Congress, the Office of Management and Budget, and the Library of Congress on December 27, 1978.

The establishment of the Toxicological Advisory Board necessitates a number of revisions to the Commis-

sion's Advisory Committee Management Regulations (16 CFR Part 1018) which set forth the Commission's guidelines and policies regarding the management of its advisory committees. Namely, the revisions describe the newly established Board, its purpose and membership composition, and the terms of appointment.

Since the revisions to the Advisory Committee Management regulations merely reflect the statutory requirements for the Board's membership and composition, the Commission has determined that the notice and the public procedure requirement of 5 U.S.C. 553 is dispensed with and that the revisions shall be effective upon publication.

Accordingly, Title 16, Chapter II, Subchapter A, Part 1018 of the Code of Federal Regulations is amended as follows:

1. In Section 1018.12, the first sentence is revised and a new subparagraph (d) is added reading as follows:

§ 1018.12 Statutory advisory committees.

The Commission has four statutory committees:

(d) The Toxicology Advisory Board was established by the Commission on December 22, 1978, pursuant to section 20 of the Federal Hazardous Substances Act, as amended (Sec. 10, Pub. L. 95-631, 15 U.S.C. 12).

2. In § 1018.15, a new paragraph (d) is added reading as follows:

§ 1018.15 Membership composition.

(d) The Toxicological Advisory Board, as specified in section 20 of the Federal Hazardous Substances Act, as amended (Pub. L. 95-631, 15 U.S.C.), shall be composed of nine members appointed by the Commission. Each member of the Board shall be qualified by training and experience in one or more fields applicable to the duties of the Board, and at least three of the members of the Board shall be members of the American Board of Medical Toxicology. The Commission will seek a balanced membership, including individuals representative of consumers, government, and industry.

3. In § 1018.17, a new subparagraph (d) is added reading as follows:

§ 1018.17 Appointments.

(d) Notwithstanding subparagraphs (b) and (c) above, members of the Toxicological Advisory Board shall be appointed for terms of three years. Members may be reappointed for a subsequent three-year term. Any vacancy on the Board shall be filled in the same manner in which the original ap-

pointment was made. Any person appointed to fill a vacancy occurring before the expiration of the term for which his or her predecessor was appointed shall serve only for the remainder of such term.

4. § 1018.21, the first sentence is revised as follows:

§ 1018.21 Calling of meetings.

Advisory committees shall, as a general rule, meet four times per year, except that, as provided by statute, the Toxicological Advisory Board shall meet not less than two times each year.

5. In Section 1018.25, a new paragraph (d) is added reading as follows:

§ 1018.25 Minutes and meetings reports.

(d) In addition to the information required by subsection (a) of this section, the minutes of the Toxicological Advisory Board shall specify the reasons for all conclusions reached and, where conclusions are not unanimous, the Board is encouraged to submit minority or dissenting opinions.

Dated: December 22, 1978.

SADYE E. DUNN,  
Secretary.

## PART 1030—EMPLOYEE STANDARDS OF CONDUCT

### Amendment of Definition

AGENCY: Consumer Product Safety Commission.

ACTION: Amendment to final rule.

SUMMARY: The Commission's Employee Standards of Conduct regulations, in accordance with the Consumer Product Safety Act (CPSA), restricts certain employees from accepting employment or compensation from a manufacturer subject to the CPSA. In this document the Commission amends the definition of "manufacturer subject to the CPSA" to include manufacturers regulated by the Commission under any Act it administers.

EFFECTIVE DATE: December 29, 1978.

SUPPLEMENTARY INFORMATION: Section 4(g)(2) of the Consumer Product Safety Act (CPSA, 15 U.S.C. 2053(g)(2)) provides that employees who are compensated at a rate in excess of the annual rate of basic pay

in effect for grade GS-14 of the General Schedule shall not accept employment or compensation from any manufacturer subject to the CPSA. This restriction applies for a period of twelve months after the employee leaves the Commission. It is designed to prevent people from seeking employment with the Commission or using their Commission employment to gain future employment with manufacturers subject to the CPSA or to acquire such manufacturers as future clients.

In February 1978 a former Commission employee subject to the section 4(g)(2) restriction requested the Commission's opinion on whether this section would prohibit the acceptance of employment with a manufacturer of drugs. By specific exception, drugs are excluded from the definition of "consumer product" under the CPSA (15 U.S.C. 2052(a)(1)(H)). Manufacturers of drugs are therefore not subject to the CPSA. However, the Commission has jurisdiction over drug manufacturers under the Poison Prevention Packaging Act (PPPA, 15 U.S.C. 1471, et seq.), an act which the Commission also administers. Section 30 of the CPSA transferred to the Commission the responsibility for administering and enforcing the PPPA, the Flammable Fabrics Act (15 U.S.C. 1191, et seq.), the Federal Hazardous Substances Act (15 U.S.C. 1261, et seq.), and the Refrigerator Safety Act of 1956 (15 U.S.C. 1211, et seq.).

The former employee's request raised the issue of whether a drug manufacturer subject to the PPPA was a manufacturer within the meaning of section 4(g)(2) of the CPSA. In May 1978 the Commission considered whether a drug manufacturer and any other manufacturer subject to regulation under one of the "transferred" acts is a "manufacturer subject to the Act" for the purpose of section 4(g)(2).

The legislative history of section 4(g)(2) stressed the congressional concern with preventing persons from using government employment as a means for subsequently gaining employment in the regulated industry. Nothing in the legislative history differentiates between manufacturer subject to the regulatory provisions of the CPSA and manufacturers subject to the regulatory provisions of the transferred acts. There is therefore no basis to distinguish between former employees seeking employment with one group of manufacturers or another.

The Commission decided that "subject to this Act," as used in section 4(g)(2), includes any manufacturers subject to Commission regulation under the acts transferred by section 30. The Commission believes that this interpretation is consistent with the legislative intent which was to prevent

the employment problem mentioned above.

The Commission's Employee Standards of Conduct regulation includes a provision which is based on section 4(g)(2) of the CPSA (16 CFR 1030.1201). The Commission is therefore amending this provision to reflect its statutory interpretation.

Since this amendment is a statutory interpretation, it is not necessary that the regulation be published for comment under 5 U.S.C. 553 or that there be a delayed effective date.

Accordingly, Title 16, Chapter II, Subchapter A, Part 1030, section 1030.1201(b)(1) of the Code of Federal Regulations is amended, as follows:

(1) The term "manufacturer subject to the Act" means any person who manufactures or imports a consumer product, and shall include any person who manufactures or imports products that are subject to the jurisdiction of the Commission under the Flammable Fabrics Act, as amended (15 U.S.C. 1191, et seq.); the Federal Hazardous Substances Act, as amended (15 U.S.C. 1261, et seq.); the Poison Prevention Packaging Act of 1970 (15 U.S.C. 1471, et seq.); and the Refrigerator Safety Act of 1956 (15 U.S.C. 1211, et seq.). The terms "manufacturing," "imports," and "consumer products" are defined in sections 3(a)(8), 3(a)(13) and 3(a)(1) of the Act, respectively.

Dated: December 26, 1978.

## Title 20—Employees' Benefits

### CHAPTER III—SOCIAL SECURITY ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

(Regulation No. 4)

## PART 404—FEDERAL OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE

### Subpart C—Basic Computation of Benefits and Lump Sums

#### NEW METHODS OF COMPUTING BENEFIT AMOUNTS

AGENCY: Social Security Administration, HEW.

ACTION: Interim Regulations.

SUMMARY: These rules state the new methods that will be used to compute the basic benefits, minimum benefits, and cost-of-living increases, and to re-

compute the basic benefit amount. These changes are required by the Social Security Amendments of 1977. The principal purpose of the new methods is to stabilize the relationship between benefits and the worker's earnings, for future beneficiaries. This purpose will be achieved principally by making cost-of-living increases apply only to persons eligible for benefits at the time of the increases and by adjusting, for computation purposes, a worker's past earnings to reflect changes in the wage levels of all wage earners. The effect of the new benefit computation methods is to reduce substantially the long-range social security deficit which resulted in large part from unintended effects of the automatic cost-of-living increase provisions of the 1972 Social Security Amendments and from the overemphasis on a worker's recent earnings when computing benefit amounts.

DATES: Your comments will be considered if we receive them before February 27, 1979. This regulation is intended to take effect on January 1, 1979.

ADDRESSES: Prior to final adoption of the proposed amendments to the regulations, consideration will be given to any data, views, or arguments pertinent to the regulations which are submitted in writing to the Commissioner of Social Security, Department of Health, Education, and Welfare, P.O. Box 1585, Baltimore, Maryland 21203. Copies of all comments received in response to this notice will be available for public inspection during regular business hours at the Washington Inquiries Section, Office of Information, Social Security Administration, Department of Health, Education, and Welfare, North Building, Room 5131, 330 Independence Avenue SW., Washington, D.C. 20201.

SUPPLEMENTARY INFORMATION:

#### BACKGROUND

The automatic cost-of-living benefit increase provision of the 1972 Social Security amendments has successfully made inflation-proof the benefits of persons on the social security benefit rolls. This protection is assured by increasing benefits as the Consumer Price Index (CPI) goes up. However, since 1972 the automatic benefit increase has also applied to benefits which will be payable to persons who are not yet eligible. As explained

below, applying cost-of-living increases to future beneficiaries actually overcompensates them for inflation and results in a huge, unnecessary drain on the Social Security Trust Funds.

Benefits have traditionally been based on a worker's average earnings during that worker's working life, so that as the worker's earnings rise, the worker's potential future benefits also rise. Since the 1972 Amendments, benefits for future beneficiaries have also been increased whenever the CPI has risen, and price rises have exceeded the rates expected by Congress. Thus, as wages have increased to reflect price increases and as prices have increased to reflect wage increases, there has been an upward spiraling of benefit levels which has placed a much heavier burden on the Social Security Trust Funds than was intended by Congress.

If the pre-1977 Amendment method for computing benefits had been retained, benefit levels would have risen by about 50 percent more than wages over the next 75 years. As a result of this rise in benefit levels, many workers would have received retirement benefits which were equal to or even greater than their wage levels when they retired. This unintended result accounted for about one-half of the long-range deficit of the trust funds.

#### DECOUPLING

The method provided in the 1977 Amendments for stabilizing the relationship between benefit levels and earnings levels is known as "decoupling." Decoupling means that cost-of-living increases will continue to apply to keep benefits inflation-proof, but only after a person either becomes eligible for benefits, or dies before becoming eligible.

#### BENEFIT COMPUTATIONS BASED ON INDEXED EARNINGS

Along with decoupling, the future benefits of a worker not yet eligible will be protected against inflation by adjusting or "indexing" the worker's past earnings to take into account the change in general wage levels that has occurred during the worker's years of employment. These adjusted earnings, which will be computed when the worker or the worker's survivors file for benefits, will be used to compute benefit amounts. Pre-amendment computation methods would have used the worker's actual earnings, without adjustment.

#### DEFINITION OF AVERAGE OF TOTAL WAGES

As provided by statute, wages are indexed by applying a ratio to the worker's earnings for each year beginning with 1951. The ratio is the "average wage" earned by all wage earners in

the second year before the year of the worker's eligibility for benefits or death, divided by the "average wage" earned by all wage earners in the year of past earnings being adjusted. Individuals who worked for wages in more than one job will be counted as only one wage earner. To compute the average wage in any given year, therefore, it is necessary to know the total wages earned in that year and the total number of individuals who earned those wages.

The Congress gave the Secretary express authority to decide how to compute the average wage for each year beginning with 1951 using wages reported to the Secretary of the Treasury or his delegate. The Department proposes to determine the average wage figure as described below.

#### 1978 AND SUCCEEDING YEARS

As legislative history suggests, data on total wages and total wage earners will be obtained from W-2 Forms submitted to IRS for income tax purposes. For 1978 and 1979, only W-2 Forms that are attached to IRS Forms 1040 will be used. (Similar data for 1977 will also be obtained, so that average wages for 1951-1977 can be adjusted to the 1978 level.) Beginning with average wages for 1980, all W-2 Forms submitted to IRS for income tax purposes will be used. (Again, similar data for 1979 will be obtained in order to adjust average wages for 1951-1979 to the 1980 level.)

#### 1973 THROUGH 1977

For each year, total wages and total wage earners will be determined from all reports of taxable wages earned during the first quarter of the year, submitted to SSA for social security tax purposes. The average wage for the first quarter of the year will be multiplied by four to obtain the average wage for the year.

For years before 1977, total wages could be determined from IRS W-2 Forms, but not total wage earners. This is because IRS did not process joint returns for those years to indicate whether the husband, wife, or both earned the reported wages. Thus, the best source of data on total wages and total wage earners for these years is SSA's own records.

Total wages for these years are determined by using taxable wages earned during the first quarter of the year rather than wages earned during the entire year. The earnings in the first quarter are considered to be more appropriate, because many wage earners reach the ceiling for reported earnings before the end of the year while relatively few reach the ceiling in the first quarter. For this reason, the first quarter earnings have also been used by SSA for other purposes under the

statute, such as the determination of the contribution and benefit base, which is the maximum annual amount of earnings taxable and creditable toward benefits under social security.

#### 1957 THROUGH 1972

Data on average taxable wages reported for all employees for the first quarter of each year before 1973 are not available on a 100-percent basis. However, beginning with 1957, such data are available from a statistical one-percent sample of social security workers containing information on wages earned during the first quarter of the year and submitted to SSA for social security purposes. As for years 1973 through 1977, the average wage for the first quarter will be multiplied by four to obtain the average wage for the year.

#### 1951 THROUGH 1956

For each year, average taxable wages will be determined from a statistical 0.1% sample containing data on wages earned during the first quarter of the year and submitted to SSA for social security tax purposes. Again, as for years 1957 through 1977, the average wage for the first quarter will be multiplied by four to obtain the average wage for the year.

In addition, appropriate adjustments will be made so that, despite the different sources of data, the results for all years will be comparable. The following are some examples of the differences in data for various periods:

(a) For years beginning with 1980, all W-2 Forms will be used, while only those W-2 Forms attached to IRS Form 1040's will be used for 1978 and 1979. The data from these two sources are expected to be different since, for example, persons with very low wages may not file a Form 1040.

(b) W-2 Forms submitted to IRS will be used for years after 1977, while wage reports to SSA will be used for earlier years. Wages for all types of employment are reported to IRS, but wages for some types of employment are not reported to SSA. All wages for the year are reported to IRS, but wages are reported to SSA only up to the maximum taxable amount.

(c) Sampling will be used for years before 1973.

Given that similar data on total wages and total wage earners are not available for all years, it is believed that the data and the adjustments that SSA plans to use will produce fair and reliable results.

#### PUBLICATION OF WAGE LEVELS

Each year, the Secretary of Health, Education, and Welfare will publish in the FEDERAL REGISTER the current information on general wage levels that is needed to compute a person's bene-

fit. The first publication will include the average of the total wages for calendar years 1951 through 1977.

#### WHEN WAGE INDEXING IS EFFECTIVE

Wage indexing will become effective for workers who after 1978 first become eligible for retirement or disability benefits or die before becoming eligible. If the wage indexing method results in a lower retirement benefit than would be payable under pre-1977 Amendment methods, the former methods, slightly modified, may be used for persons who become eligible for a retirement benefit in years 1979 through 1983.

#### MINIMUM BENEFIT FROZEN

The 1977 Amendments provide that the minimum benefit amount will be frozen at \$122, which is the amount that is found in the first line of column IV of the benefit table that is in effect for December 1978, raised to the next higher dollar. That amount will then be subject to cost-of-living increases only for years in which a beneficiary is entitled to payments. Freezing the minimum benefit puts proper emphasis on the Supplemental Security Income program as a source of income for the needy. In order to provide for the needy, the minimum benefit has been increased more rapidly in the past than benefits generally. However, these increases have often resulted in somewhat of a windfall for persons who were not needy, but were receiving the minimum because they did not rely on earnings covered by social security as their primary means of support during their working lifetime.

#### SPECIAL MINIMUM BENEFIT INCREASED

The special minimum benefit, which applies to individuals who worked for many years under social security for very low wages, will guarantee these workers a benefit of at least \$11.50, instead of \$9.00, for each year of coverage over 10 and up to 30. The special minimum benefit will be recomputed in January 1979 for present beneficiaries to take into account this increase in the base figure from \$9 to \$11.50.

Cost-of-living increases will now apply to the special minimum benefit, as well.

#### RECOMPUTATIONS
